## INDEPENDENT AUDITOR'S REPORT

To the ESOP Administrative Committee of the  
Catalina Cylinders, Inc. Employee Stock Ownership Plan:

### ***Opinion***

We have audited the accompanying financial statements of the Catalina Cylinders, Inc. Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("U.S. GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with U.S. GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement to the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Other Matter – Supplemental Schedule Required by ERISA***

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to

prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information on the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented, in conformity with the Department of Labor's Rules and Regulations for Reporting Under ERISA.

## 1. PLAN DESCRIPTION

The following description of the Catalina Cylinders, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants and other interested parties should refer to the Plan document for a more complete description of the Plan's provisions.

**General** - Catalina Cylinders, Inc. established the Plan effective as of January 1, 2015. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Catalina Cylinders, Inc. has appointed individuals to serve on an ESOP Administrative Committee (the "ESOP Committee") to assist TI-Trust, Inc. (the "Trustee") in discharging their responsibilities under the Plan.

On February 13, 2015, the assets and liabilities of three Catalina Cylinders divisions of Aluminum Precisions Products, Inc. ("APP"), a related entity, were contributed to a newly formed corporation named Catalina Cylinders, Inc. (the "Company") as part of a Separation and Distribution Agreement. In connection with the Separation and Distribution Agreement, the Plan was established in order to accomplish the transfer of the Company employees' benefits and holdings in the APP Employee Stock Ownership Plan to the Company. The separation included the transfer of all APP employees engaged in the cylinders business to the Company as well as the transfer to the Plan the allocated accounts of those transferred employees. Once the APP shares were transferred into the Plan, the shares were converted into shares of the Company common and Series A preferred stock. In September 2020, all the Series A preferred stock shares were converted on a 1:1 basis into common stock shares.

The Plan permits rebalancing on an annual basis which is designed to result in all participant accounts having the same proportion of the Company stock.

**Eligibility** - To be eligible to participate in the Plan, an employee must complete one year of service consisting of 1,000 hours in a Plan year and have attained age 18. To be eligible for an allocation of Company discretionary contributions, a participant must complete a minimum of 1,000 hours of service and be employed on the last day of the Plan year.

**Contributions** - The Company may make discretionary contributions to the Plan. During the year ended December 31, 2024, the Company made a \$300,000 discretionary contribution. Employee contributions are not permitted.

**Participant Accounts** - Each participant's account is credited as of the last day of the Plan year with an allocation of the Company contributions, reallocation of forfeitures and Plan earnings, and charged with any withdrawals or distributions requested by the participant, investment losses and allocation of administrative expenses, if applicable. Allocations are based on participant earnings or account balances, as defined, and are allocated annually. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

## CATALINA CYLINDERS, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2024

---

**Vesting** - Participants are vested immediately in their prior Company safe harbor contributions. Vesting in the Company's discretionary contribution portion of their accounts is based on years of service. Participants are vested in Company discretionary contributions at 20 percent after two years of services and an additional 20 percent each year thereafter until 100 percent vested upon six years of service. While still employed with the Company, if a participant becomes disabled, dies or reaches normal retirement age, the participant becomes 100 percent vested.

**Put Option** - Under federal income tax regulations, the Company stock that is held by the Plan and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the Company stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

**Diversification** - Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares of Company stock allocated to their account, less any amounts previously withdrawn. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution and diversification payments, if any, are included in benefits paid to participants in the accompanying statement of changes in net assets available for benefits.

**Voting Rights** - With respect to certain extraordinary transactions such as merger, consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all of the Company's assets, each participant is entitled to exercise voting rights attributable to the shares of Company stock allocated to their account. In other circumstances, the Trustee votes on behalf of the shares of Company stock held by the Plan.

**Forfeitures** - Forfeitures of Company contributions are reallocated to participants in the same manner as Company contributions and total \$0 at both December 31, 2024 and 2023. During the year ended December 31, 2024, forfeitures of \$7,734 were reallocated to participants.

**Payment of Benefits** - Distributions from the Plan are made when a participant retires, dies, or otherwise terminates employment with the Company. Distributions are made in cash, in shares of Company stock, or partly in each. The ESOP Committee decides the exact form of distribution. Participants may make in-service withdrawals in accordance with the provisions outlined in the Plan document. The Plan provides for a mandatory cash-out following severance of employment for account balances less than \$5,000.

In the event a terminated Plan participant decides to sell their shares of the Company stock, the Company may be required to repurchase the shares from the participant at fair market value. The Company did not make any repurchases of stock from Plan participants during the year ended December 31, 2024.

## **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Accounting** - The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

**Estimates** - The preparation of financial statements in conformity with U.S. GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**Investment Valuation and Income Recognition** - The Plan's investments, including shares of Company stock, are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Since the primary investment asset of the Plan is common stock of the Company, and because there is not an established market for the Company's stock, it is evaluated periodically, as provided in the Plan document, but at a minimum at each Plan year end by an independent appraiser. See Note 3 for a discussion of the fair value measurement.

Interest income is recorded on an accrual basis. Purchases and sales of securities are recorded on a trade-date basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year and includes the unrealized decrease as determined at the end of each financial reporting period in the Company's stock.

**Administrative Expenses** - All expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements.

**Benefits Payable to Participants** - Benefits are recorded when paid.

**Subsequent Events** - The Company has evaluated subsequent events through October 8, 2025, which is the date that the financial statements were available to be issued, and determined that there were no subsequent events or transactions that required recognition or disclosure in the financial statements.

## **3. FAIR VALUE**

The Plan accounts for its financial instruments using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are the following:

- Level 1 – Inputs to the valuation methodology that are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

# CATALINA CYLINDERS, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2024

---

- Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are inactive; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 – Inputs to the valuation that are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

*Money Market Mutual Fund* – Stated at carrying value which approximates fair value and therefore is classified as Level 1 within the valuation hierarchy.

*Company Stock* – The Company is privately held, and its common stock is held and valued based on an independent appraisal that utilizes unobservable inputs and, therefore, is classified as Level 3 within the valuation hierarchy. For the years ended December 31, 2024 and 2023, the appraisal has been prepared using a nonmarketable noncontrolling-interest basis. The fair value was calculated by analyzing the discounted cash flow approach and factoring in a ten percent and five percent discount for lack of marketability to calculate the total value of the stock for the December 31, 2024 and 2023 valuation, respectively.

The discounted cash flow approach to valuation is based on the theory that the current value of an investment is based on the expected receipt of future economic benefits. The primary components to this approach are: (1) the present value of interim cash flows plus the present value of the terminal value; (2) the terminal value was determined at the end of the projection period using an EBITDA multiple consistent with the EBITDA multiple observed in the guideline public company approach (see below). The discounted cash flow approach takes into consideration a discount factor based on the Company's weighted average cost of capital ("WACC"). The WACC used for the December 31, 2024 and 2023 valuation was 13.60 percent to 14.60 percent and 12.10 percent to 13.10 percent, respectively.

The guideline public company approach involves the application of the appropriate market multiples, based on the comparable companies, to the subject company's representative levels of earnings and other measures. This analysis involved the screening and selection of public companies to find the two that are the most similar to the Company from an investment perspective. The comparisons included size, growth, risk, and profitability.

The same valuation methodology was used to compute the values as December 31, 2024 and 2023.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent, the use of different methodologies or assumptions to determine the fair value of the Company's stock could result in a different fair value measurement at the reporting date.

## NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2024

---

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

### **Investments at Fair Value as of December 31, 2024**

	Level 1	Level 2	Level 3	Total
Money market mutual fund	\$ 484,989	\$ -	\$ -	\$ 484,989
Company stock	-	-	837,148	837,148
<b>Total investments at fair value</b>	<b>\$ 484,989</b>	<b>\$ -</b>	<b>\$ 837,148</b>	<b>\$ 1,322,137</b>

### **Investments at Fair Value as of December 31, 2023**

	Level 1	Level 2	Level 3	Total
Money market mutual fund	\$ 454,854	\$ -	\$ -	\$ 454,854
Company stock	-	-	1,513,307	1,513,307
<b>Total investments at fair value</b>	<b>\$ 454,854</b>	<b>\$ -</b>	<b>\$ 1,513,307</b>	<b>\$ 1,968,161</b>

For the year ended December 31, 2024, the Plan's Level 3 investment, the Company stock, had no purchases, sales nor transfers into or out of Level 3.

#### **4. COMPANY DIVIDENDS**

For the year ended December 31, 2024, the Company did not pay any dividends to the Plan.

#### **5. RISKS AND UNCERTAINTIES**

The Plan consists primarily of the Company's stock which is exposed to various risks, such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such valuation techniques. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Significant changes to the Company's operating results will impact the value of the Company's stock and, accordingly, the Plan is subject to the same risks as the Company's operations and related concentrations. A significant change in fair value of the Company's stock will significantly affect the net assets available for benefits. A reduction in the Company's cash flow could impact the ability of the Company to provide cash to the Plan for the redemption of stock from participants. The Company's stock represents 52 percent and 67 percent of the Plan's net assets available for benefits as of December 31, 2024 and 2023, respectively.

#### **6. PLAN TERMINATION**

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

## 7. TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service (“IRS”) dated August 26, 2020, stating that the Plan is qualified under the Internal Revenue Code (“IRC”) and, therefore, the Plan is exempt from tax under Section 501(a) of the IRC. The Plan has been amended since receiving the determination letter; however, the plan administrator believes the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC and, accordingly, exempt from income taxes.

U.S. GAAP require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Company has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## 8. RELATED PARTIES AND PARTIES IN INTEREST TRANSACTIONS

Plan investments, including Company stock, are held by the Trustee. Transactions with the Trustee qualify as party in interest transactions for which exemptions exist. The Company pays for the administrative expenses of the Plan. The Plan has various service providers and such providers are considered to be parties in interest under ERISA.

## 9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

<b>As of December 31,</b>	<b>2023</b>
Net assets available for benefits per the financial statements	\$ 2,268,161
Benefits claims payable	(189)
<b>Net assets available for benefits per the Form 5500</b>	<b>\$ 2,267,972</b>

The following is a reconciliation of the net decrease in net assets available for benefits per the financial statements to the Form 5500:

<b>For the year ended December 31,</b>	<b>2024</b>
Net decrease in net assets available for benefits per the financial statements	\$ (646,024)
