For a participant who is not married at the time of death, his beneficiary is entitled to a benefit equal to 100% of a 120 month certain form of payment, as if he elected a life annuity with a guarantee of 120 monthly payments.

Decrement Timing

Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)

Surviving Spouse Benefit

It is assumed that 55% of males and 55% of females have an eligible spouse, and that males are two years older than their spouses.

Benefit Limits

Projected benefits are limited by the current IRC section 415 maximum benefit of \$275,000.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Schedule SB, line 24 — Change in Actuarial Assumptions

The funding valuation reflects the following non-prescribed assumption changes:

- A change in the expected long-term rate of return on plan assets from 6.25 percent to 4.93 percent.
- A change in the expenses included in target normal cost from two year smoothing of average expenses (excluding PBGC premiums) plus the current PBGC premium to actual expenses paid during the short 2024 plan year.

These changes were made to better reflect the anticipated plan experience. These changes did not increase the funding shortfall. Therefore, approval of the Commissioner is not required.

INDEPENDENT AUDITOR'S REPORT

October 6, 2025

To the Plan Administrator of the
Meijer OMP Pension Plan
Grand Rapids, Michigan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Meijer OMP Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of assets available for benefits as of December 31, 2024 (in liquidation) and 2023 (ongoing), and the related statements of changes in assets available for benefits for the years ended December 31, 2024 (in liquidation) and 2023 (ongoing), and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Meijer OMP Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note F to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section—

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of Meijer OMP Pension Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter – Plan Termination and Liquidation Basis of Accounting

As described in Note I to the financial statements, the Employer approved the termination of the Plan, effective June 30, 2024, and management determined that liquidation is imminent. As a result, the Plan has changed its basis of accounting from the going concern basis of accounting used in presenting the 2023 financial statements to the liquidation basis used in the 2024 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Meijer OMP Pension Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Meijer OMP Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Meijer OMP Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedules Required by ERISA

The supplemental Schedules of Assets (Held at End of Year) and Reportable Transactions are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note A – Description of the Plan

The following brief description of the Meijer OMP Pension Plan (Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan covering certain office, management, and professional employees and certain non-union hourly employees of Meijer, Inc. (the Company), the plan sponsor. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

During the 2024 plan year, the Employer approved the termination of the Plan, effective June 30, 2024. The following is a description of the Plan prior to termination.

Eligibility

Employees who are not participants as of January 1, 2012, and employees hired after December 31, 2011, are not eligible to participate in the Plan. Employees hired prior to December 31, 2011, became eligible on February 1 or August 1 following the completion of one year of employment with 1,000 hours of service and attainment of age 21.

Benefits

There are no employee contributions allowed under the Plan. Employer contributions are actuarially determined on the basis of retirement benefits of all its participating employees. Plan terms applying to various employee groups of the Company are set forth in the plan document and are not described individually and in detail herein.

Depending on a participant's date of hire and years of service, the normal monthly retirement benefit is calculated based on years of service multiplied by a percentage of average monthly compensation or a set amount, as stated in the plan document. The normal benefit is adjusted for early or late retirement, disability, or upon the participant's death, as stated in the plan document. Benefits for certain non-grandfathered participants were frozen effective December 31, 2011. Benefits for grandfathered participants were frozen effective February 28, 2019.

The normal retirement benefit is payable as a monthly annuity payable for life for single participants and a joint participant and 50 percent survivor annuity for married participants. Optional forms of benefit are available upon completion of the proper waiver. If the actuarial equivalent of a participant's vested accrued benefit is less than \$15,000, the participant may request a single lump sum payment. If a participant's total pension is valued at \$5,000 or less, the amount will be paid to the participant in a single lump sum. Effective June 1, 2022, participants or beneficiaries with an annuity beginning on or after June 1, 2022 can request a lump sum distribution if the actuarial equivalent of the participant's vested accrued benefit is less than \$50,000.

Note A – Description of the Plan (Continued)**Plan Operations**

The Company has appointed Principal Bank (Trustee) to serve as Trustee and the Company to act as plan administrator. The Trustee is responsible for holding the investment assets of the Plan and executing investment transactions. Alight, the Plan's recordkeeper, is responsible for making distributions to participants. The plan administrator interprets and communicates the provisions of the Plan and ensures that all government and participant reporting requirements are fulfilled. The Plan's fiduciary committee is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment strategy, and monitors investment performance.

Vesting

Benefits accrued within the Plan become fully vested upon the participant's completion of five years of service with the Company, as defined.

Administrative Expenses

Certain administrative expenses, investment management fees, and Pension Benefit Guaranty Corporation (PBGC) premiums are paid by the Plan and are based on reasonable and customary rates. Certain other costs and expenses incurred with the operation of the Plan are borne by the Company.

Note B – Summary of Accounting Policies**Basis of Accounting**

As discussed in Note I to the financial statements, the plan sponsor terminated the Plan effective June 30, 2024. As a result, the Plan changed its basis of accounting for the year ended December 31, 2024 from the going concern basis to the liquidation basis.

Under the liquidation basis of accounting, assets are measured to reflect the estimated amount of cash expected to be collected in settling or disposing of the assets during the liquidation process and liabilities are measured using the accrual basis of accounting and would include any expected costs of the disposal of assets and other costs expected to be incurred in the liquidation process.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosures of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Note B – Summary of Accounting Policies (Continued)**Investment Valuation and Income Recognition**

The Meijer Master Pension Trust (Master Trust) has been established for the Plan and the Meijer Hourly Pension Plan. Use of the Master Trust permits the commingling of the assets of both plans for investment and administrative purposes.

Investments of the Plan and the Master Trust are reported in the Plan's financial statements at fair value (except for the buy-in group annuity contract which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Notes D and E for discussion of fair value measurements.

Net realized and unrealized appreciation or depreciation in the aggregate current value of investments included in the statements of changes in assets available for benefits is composed of realized gains and losses on sales of investments and unrealized gains and losses resulting from changes in the aggregate current value of investments. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded as it is earned. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the commingled and money market funds are deducted from income (loss) earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return on such assets.

Annuity Contract with Insurance Company

Plan assets as of December 31, 2023 included a buy-in group annuity contract (GAC) purchased from insurers in August 2023. The initial value of the GAC was equal to the premium paid to secure the contract and is adjusted each reporting period to reflect the value of the premium that would be paid for such a contract at that time. The change in the contract value from purchase is attributable to changes in interest rates less benefit payments to plan participants. As of December 31, 2024, the buy-in GAC was terminated, and the insurance company will begin payment of benefits effective January 1, 2025.

Actuarial Present Values of Accumulated Plan Benefits

Accumulated plan benefits (see Note C) are those future periodic payments, including lump sum distributions, which are attributable under the Plan's provisions to the services employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on their average compensation for years of service during the applicable period ending on the date as of which the benefit information is presented (January 1, 2024). Benefits payable under all circumstances (retirement, death, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Note B – Summary of Accounting Policies (Continued)**Actuarial Present Values of Accumulated Plan Benefits (Continued)**

The actuarial present value of accumulated plan benefits is determined by a consulting actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of January 1, 2024 were:

- Life expectancy of participants (the amounts-weighted aggregate rates from the Pri-2012 mortality study projected generationally from 2012 using Standard Scale MP-2021).
- Retirement age assumptions ranging from ages 55-80.
- Certain assumptions as to annual rates of withdrawal based on length of service and ages of participants.
- Rates of disability.
- Marital status (55% of males and 55% of females are assumed to be married).
- Interest rate of 4.65%.

The following changes were made to actuarial assumptions since the prior year:

- A change in the mortality rates for health participants from amounts-weighted aggregate rates from the Pri-2012 mortality study to amounts-weighted aggregate rates from the Pri-2012 mortality study with white collar adjustments.
- A change in the base mortality rates for contingent survivors from amounts-weighted contingent survivor rates from the Pri-2012 mortality study to amounts-weighted contingent survivor rate from the Pri-2012 mortality study with white collar adjustments.
- The interest rate assumption for lump sum payments from the August 2021 417(e) rates of 3.79%, 4.62%, and 4.69% to the December 2023 417(e) rates of 5.01%, 5.13%, and 5.15%.
- A change in the lump sum conversion mortality table from the published 2023 IRC section 417(e) table, projected based on the standard version of MP-2021 for future payments to the published 2024 IRC section 417(e) table, projected based on the IRS adjusted version of MP-2021 for future payments.
- The interest rate decreased from 6.05% to 4.65%.

The foregoing actuarial assumptions were used in determining the present value of accumulated plan benefits as of January 1, 2024, before the settlement of the Plan's obligations related to termination.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

It is the sponsor's policy to fund the Plan in an amount equal to or in excess of the minimum required contribution, and minimum funding standards have been met as required by ERISA.

Note D – Fair Value Measurements

The investments of the Plan and the Master Trust, except for the buy-in group annuity contract, are reported at fair value in the accompanying statements of assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

Level 2 – inputs to the valuation methodology include:

- quoted prices for similar assets and liabilities in active markets,
- quoted prices for identical or similar assets and liabilities in markets that are not active,
- other inputs that are observable or can be corroborated by observable market data,
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – inputs are generally unobservable and significant to the fair value measurement. Such inputs typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability, including certain pricing models, discounted cash flow methodologies, and similar techniques that use significant unobservable inputs.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Money market funds: Valued based on quoted net asset values of the shares held by the Plan on the last business day of the plan year.

Note D – Fair Value Measurements (Continued)

U.S. Treasury and government agency securities: Valued by a pricing agency based on quoted prices for similar assets in active markets.

Common/collective trust funds and limited partnerships: Valued based on net asset value (NAV) or unit value of underlying investment funds as reported by the underlying fund managers, which is determined by quoted market prices, sales of similar assets on active markets, and other inputs such as expected discounted cash flows, credit risk, volatility statistics, liquidity statistics, and redemption restrictions. The funds provide for redemptions with notice, as set forth in individual subscription agreements. Management evaluates the valuation of each of the funds and accepts the issuers' valuations without adjustment.

The investment strategies and redemption restrictions, if known, of the funds that do not file with the Department of Labor as Direct Filing Entities (DFEs) are as follows:

- Audax Direct Lending Solutions Fund-C, L.P. – The fund invests in unitranche loans, stretch senior secured loans or other debt-like securities that have conversion features or that may be combined with other equity participation rights or enhancements such as common equity warrants or common stock.
- Blackrock Peach Road Fund, LTD – The Fund seeks to achieve net annualized real return and volatility of between 4% and 6% and a Sharpe ratio of 1.0, along with a low beta of less than 0.3 to the MSCI World Index. The Fund seeks to achieve its objective primarily through an allocation of the Fund's capital to private investment funds pursuing various hedge fund strategies. The notification period required for full or partial liquidation of the fund is 30 days' notice prior to the effective date and redemptions are monthly.
- Falcon Private Credit Opportunities Fund VI, LP – investment objective is to achieve a high current return, with the potential for longer-term capital appreciation for its Partners, principally through privately placed mezzanine investments consisting primarily of subordinated debt together with equity features such as warrants or other equity participant rights, convertible debt, preferred stock or common stock of companies with operating histories.
- Falcon Strategic Partners IV and V – seeks to achieve a high current return, with the potential for longer-term capital appreciation for its Partners, principally through privately placed mezzanine investments consisting primarily of subordinated debt together with equity features such as warrants or other equity participation rights, convertible debt, preferred stock, or common stock of companies with operating histories.
- Siguler Guff Distressed Opportunities Fund V, LP – a distressed debt hedge fund of funds organized for the purpose of investing in pooled investment vehicles, involving both direct or indirect securities of companies undergoing financial distress, operating difficulties, and significant restructuring.
- Strategic Value Dislocation Feeder Fund, LP – Partnership seeks to generate capital appreciation through global investments in a range of distressed financial and other assets.

				<u>\$ 833,669,913</u>

(a.) In accordance with Financial Accounting Standards Board (FASB) Codification Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of assets available for benefits.

Note F – Information Certified by Trustee

All investment information disclosed in the accompanying financial statements, including investments held at December 31, 2024 and 2023, and net appreciation or depreciation in fair value of investments, interest and dividends, and other income for the years then ended, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee.

Note G – Party-In-Interest Transactions

Certain investments held by the Plan and the Meijer Master Pension Trust are short-term investment funds managed by Principal Bank. Principal Bank is the Trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

Fees paid by the Plan to parties-in-interest for services rendered to the Plan were \$2,961,841 and \$1,345,281 for the years ended December 31, 2024 and 2023, respectively. Investment management, trustee, and administration fees of \$1,087,275 and \$1,871,607 during the years ended December 31, 2024 and 2023, respectively, were paid to parties-in-interest by the Master Trust on behalf of the Plan. Such fees were based on reasonable and customary rates.

Note H – Risks and Uncertainties

Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Note I – Plan Termination

The Company elected to terminate the Plan effective June 30, 2024, in accordance with the PBGC provisions and reporting requirements. The net assets of the Plan were allocated subsequent to year end, as prescribed by ERISA and its related regulations. As of the effective date of the termination, participants are 100% vested in plan benefits.

Note J – Tax Status

The Plan obtained its latest determination letter dated October 26, 2017, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service (IRS). The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2021. The Plan is currently undergoing an audit for the years ended December 31, 2019, 2020, and 2021 conducted by the Department of Labor.

Disability Rates

See Table 8

Decrement Timing

Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)

Surviving Spouse Benefit

It is assumed that 55% of males and 55% of females have an eligible spouse, and that males are two years older than their spouses.

Benefit Limits

Projected benefits are limited by the current IRC section 415 maximum benefit of \$275,000.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

The funding valuation reflects the following non-prescribed assumption changes:

- A change in the expected long-term rate of return on plan assets from 6.25 percent to 4.93 percent.
- A change in the expenses included in target normal cost from two year smoothing of average expenses (excluding PBGC premiums) plus the current PBGC premium to actual expenses paid during the short 2024 plan year.
