Independent Auditor's Report

To the Plan Administrator of the Sensata Technologies Employees Pension Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Sensata Technologies Employees Pension Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits in liquidation as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits in liquidation for the years then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note G to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (“GAAS”). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter — Plan Termination and Liquidation Basis of Accounting

As further discussed in Note H to the financial statements, the Board of Directors of Sensata Technologies, Inc. approved a plan of liquidation on August 29, 2023, and management determined liquidation is imminent. The effective date of the plan termination is December 31, 2023. As a result, the Plan used the liquidation basis of accounting in presenting the 2024 and 2023 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) in Liquidation as of December 31, 2024 and the Schedule H, Line 4(j) – Schedule of Reportable Transactions in Liquidation for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS

A. DESCRIPTION OF PLAN:

The following description of the Sensata Technologies Employees Pension Plan (the "Plan") provides only general information. Participants should refer to the plan document for a complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan covering all eligible employees of Sensata Technologies, Inc. (the "Company") that were former employees of Texas Instruments, Inc. who were hired prior to April 27, 2006. No new participants were permitted to join the Plan after April 27, 2006. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Effective January 31, 2012, future benefits accruals were frozen for all participants.

As further discussed in Note H, the Company terminated the Plan effective December 31, 2023.

Contributions and Funding Policy

The Company contributes amounts based upon actuarial computations to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants. The contributions are calculated to fund the Plan's normal service costs on a current basis and unfunded prior service costs. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2024 and 2023.

Retirement Dates

An employee's normal retirement age is the later of the date the employee reaches age 65 or the fifth anniversary of the date the participant entered the plan. The Plan permits early retirement at the later of the date the employee reaches age 55 or 20 years of service or age 60 with 5 years of service. There is no mandatory retirement age.

Benefits

Normal retirement benefits are based upon a formula taking into account the average of a participant's highest five years of Plan compensation, as defined. If a participant elects early retirement, benefits may be actuarially reduced by a formula based on age, years of service and the age at which the employee begins receiving benefit payments.

The normal form of a benefit payment for an unmarried participant is an annual benefit, payable in monthly amounts, for life. If the participant is married the form of payment will be as an actuarially equivalent qualified joint and survivor annuity. Participants may elect to take their benefit in the form of a qualified joint and survivor annuity, certain and life annuity, life annuity or lump sum payment. If an active participant dies after becoming vested, the surviving spouse will be paid the minimum death benefit in the form of an annuity.

SENSATA TECHNOLOGIES EMPLOYEES PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

All Plan benefits are subject to the limitations prescribed by the Internal Revenue Code which includes provisions that limit the amount of retirement income which may be paid to an individual participant.

Vesting

All participants were fully vested in their accrued benefits upon 5 years of service.

Effective December 31, 2023, participants became 100% vested in all accounts as a result of the plan termination.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

As a result of the termination of the Plan, the Plan's 2024 and 2023 financial statements are presented using the liquidation basis of accounting.

Under the liquidation basis of accounting, assets are measured to reflect the estimated amount of cash expected to be collected in settling or disposing of the assets during the liquidation process and liabilities are measured using the accrual basis of accounting and would include any expected costs of the disposal of assets and other costs expected to be incurred during the liquidation process.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits (Liquidation) at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported on liquidation basis which approximates fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

SENSATA TECHNOLOGIES EMPLOYEES PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

Administrative Expenses

Substantially all the administrative expenses incurred by the Plan are paid from the assets of the trust to the extent they are not paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

The statements of net assets available for benefits as of December 31, 2024 and 2023 and the statements of changes in net assets available for benefits for the years then ended includes accrued expenses expected to be incurred in liquidation.

Payment of Benefits

Benefits are recorded when paid.

C. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (LIQUIDATION):

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable, under the Plan's provisions, to the service employees have rendered and include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Vested benefits are benefits to which members are entitled regardless of future service with the Company. Nonvested benefits are dependent upon future services.

The actuarial present value of accumulated plan benefits (Liquidation) is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The more significant assumptions underlying the actuarial computations used in the valuation as of December 31, 2023 are as follows:

| | |
|-----------------|-------------------------------|
| Discount Rate | - 5.25% |
| Mortality basis | - Pri-2012 with scale MP-2021 |
| Retirement | - Retirement at age 70 |

The foregoing actuarial assumptions for the December 31, 2023 valuation factored in the Plan termination when determining the actuarial present value of accumulated plan benefits (Liquidation) as of December 31, 2023. The computation of the actuarial present value of accumulated plan benefits (Liquidation) was made as of January 1, 2024. Had the valuation been performed as of December 31, there would be no material difference.

SENSATA TECHNOLOGIES EMPLOYEES PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

The actuarial present value of accumulated plan benefits (Liquidation) consists of the following as of December 31, 2023:

| | |
|--|----------------------|
| Actuarial present value of accumulated plan benefits (Liquidation): | |
| Vested benefits: | |
| Participants currently receiving payments | \$ 5,048,793 |
| Participating employees | 5,649,452 |
| Participants with deferred benefits | <u>3,959,138</u> |
| Total vested benefits | 14,657,383 |
| Nonvested benefits | <u>-</u> |
| Total actuarial present value of accumulated plan benefits (Liquidation) | <u>\$ 14,657,383</u> |

The net increase in actuarial present value of accumulated plan benefits (Liquidation) can be attributed to the following for the year ended December 31, 2023:

| | |
|--|----------------------|
| Actuarial present value of accumulated plan benefits at beginning of year (Liquidation): | \$ 13,917,191 |
| Increase (decrease) during the year attributable to: | |
| Increase due to the decrease in the discount period | 654,529 |
| Benefits accumulated and actuarial (gains)/losses | (49,675) |
| Other change due to liquidation basis | 2,135,247 |
| Benefits paid | <u>(1,999,909)</u> |
| Net increase | <u>740,192</u> |
| Total actuarial present value of accumulated plan benefits (Liquidation) | <u>\$ 14,657,383</u> |

D. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

SENSATA TECHNOLOGIES EMPLOYEES PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used by the Plan. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

| <u>Description</u> | 2024 | | | |
|---|--------------|----------------|----------------|----------------|
| | <u>Total</u> | <u>Level 1</u> | <u>Level 2</u> | <u>Level 3</u> |
| Mutual funds | \$ 447,557 | \$ 447,557 | \$ - | \$ - |
| Total investments in the fair value hierarchy | \$ 447,557 | \$ 447,557 | \$ - | \$ - |

| <u>Description</u> | 2023 | | | |
|---|--------------|----------------|----------------|----------------|
| | <u>Total</u> | <u>Level 1</u> | <u>Level 2</u> | <u>Level 3</u> |
| Mutual funds | \$ 9,962,547 | \$ 9,962,547 | \$ - | \$ - |
| Total investments in the fair value hierarchy | \$ 9,962,547 | \$ 9,962,547 | \$ - | \$ - |

E. RELATED-PARTY AND PARTY IN INTEREST TRANSACTIONS:

Section 3(14) of ERISA defines a party in interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, the management of investments held by the trustee are considered party in interest transactions.

F. TAX STATUS:

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated September 24, 2015 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. As part of the Plan termination, the Company filed an "Application for Determination for a Terminating Plan" with the IRS and received a response back with an updated favorable determination letter dated May 5, 2025 that applies to the termination of the Plan.

SENSATA TECHNOLOGIES EMPLOYEES PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

G. CERTIFIED INVESTMENTS:

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments held at December 31, 2024 and 2023, and net appreciation (depreciation) in fair value of investments and interest and dividends for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by SEI Private Trust Company, the trustee of the Plan.

H. PLAN TERMINATION:

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, if any, taking into account those paid out before termination.
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations (discussed below).
- d. All other vested benefits (that is, vested benefits not insured by the PBGC).
- e. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect

SENSATA TECHNOLOGIES EMPLOYEES PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

Effective August 29, 2023, the Board of Directors of Sensata Technologies, Inc. adopted a resolution to terminate the Plan in accordance with PBGC provisions and reporting requirements. The effective date of the plan termination was December 31, 2023. In 2024, participants had the option of taking a lump sum distribution or if they had a lump sum value greater than \$7,000 or are already receiving an annuity, had the option for an insurer to take over responsibility for annuity payments.

As part of the Plan Termination, the majority of the benefits were paid out during the year and the majority of assets liquidated. During 2024, \$5,561,081 of plan assets were transferred to CMFG Life Insurance Company through an annuity purchase to take over responsibility for the annuity payments. Also, during the 2024 plan year there was \$6,682,036 in lump sum payments to participants and \$1,951,399 of benefits rolled over to the related Sensata Technologies Contribution and 401(k) Savings Plan through a group rollover, based on participant's election based on their benefit election. Subsequent to year end, \$295,912 was transferred to the PBGC for the PBGC Missing Participant Program and there was one additional lump sum paid for \$87,771.

I. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits (Liquidation) are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

J. SUBSEQUENT EVENTS:

The Plan has evaluated subsequent events through October 7, 2025, the date these financial statements were available for issuance.
