Independent Auditor's Report

Plan Administrator and Trustee
BranchPattern, Inc. Employee Stock Ownership Plan
Lincoln, Nebraska

Opinion on the 2024 Financial Statements

We have audited the financial statements of BranchPattern, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of BranchPattern, Inc. Employee Stock Ownership Plan as of December 31, 2024, and the changes in its net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the 2024 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section of our report. We are required to be independent of BranchPattern, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2024 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about BranchPattern, Inc. Employee Stock Ownership Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2024 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of BranchPattern, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about BranchPattern, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

2024 Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

2023 Financial Statement Compiled

We performed a compilation engagement with respect to the statement of net assets available for benefits as of December 31, 2023. Management is responsible for the 2023 statement of net assets available for benefits in accordance with accounting principles generally accepted in the United States of America. We have performed the compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the American Institute of Certified Public Accountants. We did not audit or review the 2023 statement of net assets available for benefits nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on the 2023 statement of net assets available for benefits.

Note 1. Description of the Plan

General

The following description of the BranchPattern, Inc. Employee Stock Ownership Plan (Plan) provides only general information. Participants should refer to the Plan Document and Summary Plan Description for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

BranchPattern, Inc. (Company) established the Plan effective as of January 1, 2017. The Plan operates, in relevant part, as an employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 as amended (Code) and is subject to the applicable provisions of the *Employee Retirement Income Security Act of 1974* as amended (ERISA). The Plan is administered by one trustee appointed by the BranchPattern, Inc. Board of Directors. As of December 31, 2024 and 2023, the Plan has no financed stock purchases of BranchPattern, Inc. common stock and therefore all Company common stock is "allocated" to participants.

Eligibility

Employees of the Company are generally eligible to participate in the Plan after one year of service, providing they worked at least 1,000 hours during such plan year and have reached 21 years of age. Participants who have not met the age requirement, do not have at least 1,000 hours of service during such plan year, and are not employed on the last working day of a plan year unless their termination is due to normal retirement, death or disability are generally not eligible for an allocation of Company contributions for such year.

Employer Contributions

Employer contributions are discretionary and determined annually by the Company. Employee contributions are not permitted. Employer contributions to the Plan and Plan assets are invested at the discretion of the Company.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of the plan year with an allocation of contributions, plan earnings, shares of the Company's common stock (as applicable), and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Employer contributions, plan forfeitures and administration expenses are allocated to each participant's account based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's opening account balance to all participants' opening account balances.

Rebalance and Reallocation of Shares of Company Stock

The Plan was amended on April 13, 2023 to allow the plan sponsor to have participants who have terminated employment, died, or were determined to be disabled have their ESOP shares reallocated (reshuffled) to active participants and receive the value of their shares reinvested in investments that are not Sponsor Company common stock in accordance with the Plan document. Annually, the Trustee will reshuffle the ESOP accounts of participants actively employed and the ESOP accounts of participants who have terminated employment, died, were determined to be disabled, or those who received an account pursuant to the approval of a Qualified Domestic Relations Order. During 2024, Company stock totaling \$254,892 was reshuffled to non-company stock investment options.

Vesting

Participants vest in the Company's contributions and earnings thereon based on years of service. Employees are 20% vested after two years of service and 20% for each year of service thereafter, becoming fully vested after six years of service. Participants terminating due to normal retirement, death or disability will be 100% vested.

Put Option

Under federal income tax regulations, Company stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Payment of Benefits

No distributions from the Plan will be made until a participant retires, becomes permanently disabled, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives) or otherwise terminates employment with the Company. The amount to be distributed related to Company stock is based upon the immediately preceding valuation date. Distributions are made in cash, or if a participant elects in the form of company common shares plus cash for any fractional shares. Distributions greater than \$5,000 are made in substantially equal installments over a period not longer than five years, excluding large account balances. Large account balances in excess of the dollar limit established in U.S. Internal Revenue Code Section 409(o)(1)(C)(ii) are distributed based on an established formula not to exceed 10 years. Participants with a vested balance less than \$5,000 must take a lump sum payment. At December 31, 2024 and 2023, there are no plan assets allocated to the accounts of terminated or retired participants who elected to withdrawal from the Plan but had not yet been paid.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. During 2024 and 2023, the Plan did not distribute any shares that were repurchased by the Company from participants.

Voting Rights

Each participant's voting rights attributable to the shares allocated to his or her account are voted by the Company designated Trustee. However, in any corporate matter that involves voting of shares with respect to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business or similar transactions, the participants are entitled to exercise voting rights on allocated shares held by the Plan by having the Trustee vote as directed by the Participant. The Trustee is required to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account,

**BranchPattern, Inc. Employee Stock Ownership Plan

less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution. The Plan may also provide the participant three alternative investment options under this Plan and permit the participant to direct the portion of their account to the elected alternative investment option. The Plan may also transfer the diversified amount to the Company's 401(k) Plan. The election to diversity is made subsequent to year-end based upon the shares of the employer stock in the participant's account at year-end.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants during the years ended December 31, 2024 and 2023 totaled \$165,969 and \$59,347, respectively. There were no forfeited nonvested accounts as of December 31, 2024 and 2023.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, participants will become 100% vested in their accounts and the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Board of Directors shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan (as applicable).

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

A material estimate that is particularly susceptible to significant change relates to the estimated fair value of Company common stock.

Investment Valuation and Income Recognition

The common shares of the Company are valued at estimated fair value. Fair value is determined by an annual independent appraisal. Quoted market prices, if available, are used to value investments and money market accounts. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end.

Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion. The Company has historically paid the operating expenses of the Plan.

Note 3. Administration of Plan Assets

The Custodian of the Plan holds the Plan's assets, which consist principally of Company common shares and mutual funds.

Company contributions are held and managed by the Trustee, which invests cash received, interest and dividend income and makes distributions to participants.

Note 4. Dividends

Dividends related to Company stock are allocated to participants in cash to be invested in Company stock or other applicable investments, as provided by the Plan.

The Company declared dividends of \$23.37 per share or \$359,889 to the ESOP during the year ended December 31, 2024.

Note 5. Investments

All Plan investments are nonparticipant directed. The Plan's investments, at December 31, 2024 and 2023 are presented in the following table:

Note 6. Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. The hierarchy comprises three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2024 and 2023:

| | Fair Value Measurements Using | | | |

BranchPattern, Inc. Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2024 (Audited) and 2023 (Compiled)

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2024 and 2023. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. See the table below for inputs and valuation techniques used for Level 3 securities.

Level 3 Activity

Activity, transfers into and out of Level 3 and the reasons for those transfers are as follows:

| | BranchPattern, Inc. Common Stock | Reason for Transfer |
|--------------------------|---|--------------------------------|
| 2024 | | |
| Purchases | \$ 1,068,750 | Employer Contribution |
| Redeemed | - | |
| Transfers into Level 3 | - | |
| Transfers out of Level 3 | - | |
| 2023 | | |
| Purchases | \$ 1,042,976 | Employer Contribution |
| Redeemed | - | |
| Transfers into Level 3 | - | |
| Transfers out of Level 3 | - | |

December 31, 2024 (Audited) and 2023 (Compiled)

Unobservable (Level 3) Inputs

The following tables present qualitative information about unobservable inputs used in recurring Level 3 fair value measurements at December 31, 2024 and 2023:

| | <u>2024</u> | <u>2023</u> | <u>Valuation</u> | <u>Unobservable</u> |
|--------------------------------------|-------------------|-------------------|----------------------|--|
| | <u>Fair Value</u> | <u>Fair Value</u> | <u>Technique</u> | <u>Inputs</u> |
| BranchPattern, Inc. common shares | \$ 7,652,250 | \$ 6,298,754 | Discounted cash flow | Five-year net cash flow to invested capital Weighted average cost of capital including required rate of return on equity Long-term growth rate Discount for lack of control |
| | | | Market data | Discount for lack of marketability Public comparables Five-year weighted average earnings Market value of invested capital / sales Market value of invested capital / EBITDA Discount for lack of control Discount for lack of marketability |

The valuation process involves plan management's selection of an independent appraiser under an annual contract. Plan management accumulates the data for the appraiser from the compiled financial statements of the Company. The appraiser prepares a preliminary report which plan management, along with the ESOP trustee, reviews in detail, discusses and approves. The results of this process are documented in minutes of the plan fiduciary.

The preceding methods described produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 7. Related Party and Party-In-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Plan invests in Company common stock. The Plan has a number of service providers. Such providers are parties in interest under ERISA. Individually nonmaterial expenses paid to parties in interest aggregated \$420 for the year ended December 31, 2024.

The Company provides certain administrative services at no cost to the Plan.

Notes to Financial Statements
December 31, 2024 (Audited) and 2023 (Compiled)

Note 8. Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated December 20, 2017, stating that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities, including Company common stock, which are exposed to various risks, such as interest rate, market and credit risk as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with such investment securities and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risk in the near term could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Note 10. Subsequent Events

Subsequent events have been evaluated through October 3, 2025, which is the date the financial statements were available to be issued.
