INDEPENDENT AUDITORS' REPORT

Plan Administrator
The Retirement Pension Plan for Salaried Employees of Victaulic Company
Easton, Pennsylvania

Report on the Audit of the Financial Statements

Opinion on the Financial Statements

We have audited the accompanying financial statements of The Retirement Pension Plan for Salaried Employees of Victaulic Company, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of The Retirement Pension Plan for Salaried Employees of Victaulic Company as of December 31, 2024 and 2023 and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on Financial Statements

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Retirement Pension Plan for Salaried Employees of Victaulic Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Retirement Pension Plan for Salaried Employees of Victaulic Company's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Retirement Pension Plan for Salaried Employees of Victaulic Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Retirement Pension Plan for Salaried Employees of Victaulic Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audits.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 1 DESCRIPTION OF THE PLAN

The following description of The Retirement Pension Plan for Salaried Employees of Victaulic Company (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan covering substantially all salaried employees and certain hourly employees of Victaulic Company (Company). The retirement committee of the Board of Directors of the Company controls and manages the operation and administration of the plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Pension Benefits

The Normal Annual Retirement Benefit shall be determined in accordance with the following formula: One and a half percent (1.5%) of the participant's average final compensation (as defined by the plan) multiplied by credited service.

Participants with five years of continuous service, as defined by the plan, are entitled to pension benefits upon retirement. If employees terminate before rendering five years of continuous service, they forfeit the right to receive pension benefits upon retirement. The plan provides for normal retirement benefits upon reaching the age of 65 and has provisions for early retirement, disability, and surviving spouse benefits. Benefits under the plan are generally based on a participant's length of service and average final compensation.

During 2006, the plan was amended to exclude employees of the Company working at a branch, distribution center, division, or location that the Company opens or reopens, regardless of when it was closed after 2005, from being eligible to participate in the plan.

During 2007, the plan was amended to exclude from plan participation employees hired after March 31, 2007. The plan shall continue to be available to employees who completed at least one hour of service before March 31, 2007.

Funding Policy

The Company's funding policy is to make at least the minimum annual contribution required by applicable regulations. Contributions are intended to provide not only for benefits attributed to service to date but also for those expected to be earned in the future. The Company's contributions for 2024 and 2023 complied with the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions set forth in ERISA.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Within the Victaulic Company of America Defined Benefit Master Trust (Master Trust), purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Investment income of the Master Trust includes the plan's gains and losses on investments bought and sold as well as held during the year. See Note 4 for a description of the investment in the Master Trust.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Company absorbs certain administrative expenses of the plan. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in the investment income of the Master Trust.

Subsequent Events

The Plan has evaluated subsequent events through September 29, 2025, the date the financial statements were available to be issued. No events or transactions occurred subsequent to this date that would require recognition or disclosure in the financial statements.

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- a. retired or terminated employees or their beneficiaries,
- b. beneficiaries of employees who have died, and
- c. present employees or their beneficiaries.

Benefits under the Plan are accumulated based on the employees' average final compensation (as defined by the Plan) and credited service with the Company. The accumulated plan benefits for active employees are based on a salary increase assumption, and years of service ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances - retirement, death, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest and the probability of payment (by means of

decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of January 1, 2025 were:

- a. Life expectancy of Participants (Pri-2012 Total Employee and Retiree Mortality Tables (base year 2012) and projected with Internal Revenue Service (IRS) 2024 Adjusted Scale MP-2021).
- b. Retirement Age Assumptions (Normal retirement age of 65 years; other active participants will elect early retirement from ages 55 to 64).
- c. Investment Return of 7.5%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The computations of the actuarial present value of accumulated plan benefits was made as of January 1, 2025 and 2024. Had the valuations been performed as of December 31, 2024 and 2023, there would be no material differences.

NOTE 4 INVESTMENT INTEREST IN THE MASTER TRUST

The Plan's investments consist of an interest in the investments in the Master Trust, which is administered by State Street Global Advisors (State Street). Use of a master trust permits the commingling of the trust assets of a number of pension plans for investment and administrative purposes. Although assets of two of the Company's pension plans are commingled in the Master Trust, State Street maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income (loss) of the investment assets is allocated by State Street to each participating plan based on the percentage interest of each plan to the total interests of the participating plans.

The investments and the plan's interest in each investment fund of the Master Trust are summarized as follows:

	2024	
	Master Trust Balance	Plan's Interest in Master Trust Balance
Investments-Whose Fair Value is Determined Based on the Trustee's Valuation of Prices:		
Other Receivables	\$ 11,530	\$ 7,303

NOTE 5 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

**THE RETIREMENT PENSION PLAN FOR SALARIED EMPLOYEES
OF VICTAULIC COMPANY
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 5 FAIR VALUE OF INVESTMENTS (CONTINUED)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2024 and 2023.

Money Market Accounts – Valued at the daily closing price as reported by the fund.

Common Collective Trust Funds – The fair value of the Master Trust's investment in common collective trust funds is determined based on the net asset value provided by the related fund manager and are considered Level 2 in the fair value hierarchy. There were no restrictions on redemptions from these funds and no unfunded commitments to invest.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2024			
	Level 1	Level 2	Level 3	Total
Money Market	\$ 3,135,234	\$ -	\$ -	\$ 3,135,234
Common Collective Trusts	-	365,865,076	-	365,865,076
Investments at Fair Value	\$ 3,135,234	\$ 365,865,076	\$ -	\$ 369,000,310
	2023			
	Level 1	Level 2	Level 3	Total
Money Market	\$ 2,334,195	\$ -	\$ -	\$ 2,334,195

NOTE 6 PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. governmental agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

NOTE 7 PLAN TAX STATUS

The IRS has determined and informed the Company by a letter dated November 6, 2015, that the Plan and related trust are designed in accordance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified, and the related trust is tax-exempt.

**THE RETIREMENT PENSION PLAN FOR SALARIED EMPLOYEES
OF VICTAULIC COMPANY
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 7 PLAN TAX STATUS (CONTINUED)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 9 PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by State Street. State Street is the trustee as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for the investment management services and/or transactional expenses amounted to \$256,248 and \$205,590 for the years ended December 31, 2024 and 2023, respectively.

The Retirement Pension Plan for Salaried Employees of Victaulic Company EIN/PN: 22-1501729 / 001

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Funding assumptions and methods selection and rationale

The following assumptions were selected by the plan's enrolled actuary. The asset valuation method was selected by the plan sponsor with the actuary's advice.

Actuarial standards of practice ("ASOPs") 27 and 35 ask the actuary to disclose the information and analysis used to support the actuary's determination that the assumptions that have a significant effect on the measurement and that the actuary has selected or advised the plan sponsor to select are reasonable. The assumptions for retirement rates, withdrawal rates, disability rates, frequency of optional payment forms, salary increases, and expected rate of return on assets have a significant effect on the measurement. The assumptions for retirement rates, withdrawal rates, disability rates, frequency of optional payment forms, salary increases, and spouse age difference were set based on an experience study of the period 2015-2021. The assumptions for disability rates and salary increases were not changed as a result of this study. Gain/loss analysis is performed each year. The assumptions for retirement rates, withdrawal rates, disability rates, frequency of optional payment forms, and salary increases are reviewed based on gain/loss experience of the plan. The expected rate of return on assets was based on a review of the investment mix of the plan's assets, the historical returns on the various asset classes in which the plan's assets will be invested, and input from the plan's investment advisors. The actuary has determined that the assumptions that have a significant effect on the measurement are reasonable.

Use of Models

Actuarial Standard of Practice No. 56 ("ASOP 56") provides guidance to actuaries when performing actuarial services with respect to designing, developing, selecting, modifying, using, reviewing, or evaluating models. Gallagher uses third-party software in the performance of annual actuarial valuations and projections. The model is intended to calculate the liabilities associated with the provisions of the plan using data and assumptions as of the measurement date under the funding rules specified in this report. Further, the model applies those funding rules to the liabilities derived and other inputs, such as plan assets and contributions, to generate many of the exhibits found in this report. Gallagher has an extensive review process whereby the results of the liability calculations are checked using detailed sample output, changes from year to year are summarized by source, and significant deviations from expectations are investigated. Other funding outputs are similarly reviewed in detail and at a high level for accuracy, reasonability and consistency with prior results. Gallagher also reviews the model when significant changes are made to the software. The review is performed by experts within the company who are familiar with applicable funding rules as well as the manner in which the model generates its output.

Future actuarial measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the actuarial assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report. However, in accordance with ASOP 51, an assessment of risks for the plan was performed.

** Used for maximum tax-deduction and ERISA 4010 reporting and low-default-risk obligation measure purposes.

The interest rates used for funding purposes are the Segment Rates with 4-month lookback, constrained in accordance with relevant legislation.

Mortality

Mortality tables mandated by applicable law and regulation as specified in IRS Regulation 1.430(h)(3)-1, amended in the Federal Register on October 20, 2023, in TD 9983, 88 FR 72357, applied on a fully generational basis using the IRS 2024 Adjusted Scale MP-2021 Rates mortality improvement scale.

Lump Sum interest and mortality:

Interest Rate: Forward rates implied by the funding interest rates (annuity substitution rule)

Mortality: 2024 IRC 417(e) Applicable Mortality table, as amended by IRS Notice 2023-73

Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan administrative expenses to be paid from plan assets during the year.

Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including the discounted value of accrued contributions, reduced by 2/3 of the gain/(loss) for the immediately preceding plan year and reduced by 1/3 of the gain/(loss) for the plan year before that. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by current law and regulation to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions.

For maximum deductible contribution purposes, the Valuation Assets described above are adjusted to account for accrued contributions which were not deducted in the prior fiscal year.

	Actuary's Assumption	Third Segment Rate	Reflecting Limit
2024 Expected Return	7.50%	5.59%	5.59%
2023 Expected Return	7.50%	5.74%	5.74%
2022 Expected Return	7.50%	5.92%	5.92%

Summary of Changes from the January 1, 2023 Valuation

- The interest rates, mortality tables used for decrement purposes, and applicable mortality table under IRC Section 417(e) used for lump sums were updated to those applicable to the current year in accordance with the requirements of the Internal Revenue Code and associated regulations. These changes increased the Funding Target by \$3,405,222.

The Retirement Pension Plan for Salaried Employees of Victaulic Company

EIN/PN: 22-1501729 / 001

Schedule SB, Part V – Summary of Plan Provisions

Effective Date

The plan originally became effective April 2, 1952 and was last amended effective January 1, 2009.

Eligibility

A salaried employee becomes a Member of the plan on the January 1 or July 1 coinciding with or next following attainment of age 21 and completion of one year of service. Employees hired after March 31, 2007 are not eligible to participate.

Credited Service

Credited service is essentially all service with the Company as a full-time employee after becoming a Member excluding:

- (a) service prior to October 1, 1971 for an employee of Lehigh on April 2, 1972 who had attained age 25 and completed one year of service on that date, and
- (b) service prior to April 2, 1974 for an employee of Apex who on that date had attained age 25 and completed one year of service.

Employee contributions

None. Company pays full cost of the plan.

Retirement provisions

There are various forms of retirement defined under the Plan:

Normal retirement

A Member's normal retirement date is the first day of the month coinciding with or next following his 65th birthday (a Member who has attained age 54 on April 2, 1979 may, at his option, select the April 2 nearest his 65th birthday as his normal retirement date).

Early retirement

A Member may retire within 10 years of his normal retirement date with 5 years of service.

Disability retirement

A Member is eligible for a disability benefit under the plan if he becomes mentally or physically disabled within the meaning of the Company's Long-Term Disability Insurance Plan and is receiving Social Security disability payments.

Late retirement

A Member may continue in active employment after his normal retirement date.

Normal retirement benefits

The annual amount of pension at normal retirement date is 1.5% of Average Final Compensation multiplied by credited service, defined as follows:

Average Final Compensation

The average Compensation of a Member during the 5 highest years within the last 10 years of such Member's employment.

Compensation

Base earnings at beginning of plan year plus 50% of bonus and overtime paid in prior calendar year.

The Retirement Pension Plan for Salaried Employees of Victaulic Company

EIN/PN: 22-1501729 / 001

Schedule SB, Part V – Summary of Plan Provisions (continued)

Early retirement benefits

The pension to start at a Member's normal retirement date is calculated as described above. A percentage reduction is further applied if a Member desires his pension to start at an earlier date, such percentage equal to 1/2% for each month that the pension commencement date precedes age 62.

Late retirement benefits

The amount of pension at a later retirement date is calculated as a normal retirement benefit, based on service and pay at such later retirement date.

Disability retirement benefits

A Member who is eligible for disability retirement will continue to accrue credited service under the plan during the period that he is receiving disability benefits. At his normal retirement date his pension will be based on his Average Final Compensation at disability and credited service to normal retirement date.

Termination of employment

If a Member terminates employment prior to retirement after having completed at least 5 years of service, then he is vested in a pension to start at his normal retirement date and calculated as an early retirement benefit except the percentage reduction is applied for the period that the pension commencement date precedes age 65. Any Member who was a plan member at April 2, 1984 and had attained age 50 at that date shall be vested in his accrued pension as of the date which is 10 years prior to his normal retirement date.

Death benefits

There are various provisions relating to death benefits under the Plan, and are defined as follows:

Before retirement

If a Member dies after the earlier of age 50 or 10 years of service but before his normal retirement date and is survived by a spouse to whom he has been married for at least one year, then such spouse is entitled to a lifetime pension equal to 50% of the Member's accrued benefit at the time of his death, reduced by 2% for each year in excess of 5 that the spouse is younger than the Member.

If a Member dies after age 55, however, then his surviving spouse shall be entitled to a lifetime minimum pension equal to 50% of the amount which would have been payable to the Member if he had retired on his date of death under the terms of a joint and 50% survivor standard form. If such Member would have projected service of at least 35 years at his normal retirement date, then his surviving spouse may elect to receive the lump sum which would have been payable to the Member had he retired on the day before he died and elected a lump sum payment.

If a Member in the active service of the Company, or a Member entitled to a disability benefit, dies after completing five years of Continuous Service but prior to becoming eligible for a Family Death Benefit, then a death benefit shall be payable to such Member's surviving spouse, if any, provided he has been married to said surviving spouse for at least the one-year period immediately preceding his date of death.

The Retirement Pension Plan for Salaried Employees of Victaulic Company

EIN/PN: 22-1501729 / 001

Schedule SB, Part V – Summary of Plan Provisions (continued)

The surviving spouse's benefit described in this section shall be payable in equal monthly installments with the first monthly payment commencing with the month in which the Member would have attained his Normal Retirement Date if he had survived. The annual surviving spouse's benefit in such case shall be equal to the Qualified Joint and Survivor Annuity which would have been payable to the surviving spouse had the Member terminated employment on his date of death, survived to his Normal Retirement Date, immediately retired, elected to have payment of his benefits in the form of a Qualified Joint and Survivor Annuity, and died on the next day.

The spouse may elect to commence receiving an annuity for her life as of the first day of any month after both the Member's death and the date on which he would have attained age 55 if he had lived, in which case the benefit to the spouse will be equal to the amount of benefit to which such spouse would have been entitled had the Member terminated employment on the day before his death, elected to commence receiving his benefit in the form of a Qualified Joint and Survivor Annuity on the day before the benefit to the spouse commences, and died on the next day.

After retirement

Unless an optional form of benefit is in effect, if an unmarried Member dies after pensions commence but before payments have been made for 10 years then such pension payments will continue to be paid to the Member's beneficiary for the balance of the 10-year guaranteed period. The standard form of benefit for a married Member is a reduced joint and 50% survivor benefit.

Optional forms of pension

Optional pensions which are the actuarial equivalent of the 10-year certain and life thereafter pension are available provided they are elected at least one year prior to the Member's retirement date. If election is made at a later date, then evidence of good health may be required. The options available are life annuity, 5-year certain and life thereafter, joint and survivor and any other form of payment approved by the Company including a lump sum payment.

The following adjustment factors convert the normal form of benefit (10-year certain and life thereafter) into the optional benefits indicated.

Optional Form of Benefit	Factor
Single life annuity	1.093
5-year certain and life thereafter	1.067
Joint and 50% survivor annuity	0.937 ¹
Joint and 75% survivor annuity	0.874 ¹
Joint and 100% survivor annuity	0.820 ¹

Notwithstanding the one-year notice for optional payment, a Member who is married at the time his pensions commence will automatically be paid under a joint and 50% survivor option unless he directs otherwise in writing to the Company.

The lump sum payment form is calculated using the Applicable Interest Rates for the third month prior to the Annuity Starting Date and Applicable Mortality Table under Section 417(e)(3).

Benefit limitations

In no event will the annual pension benefit exceed \$275,000 for Members between the age 62 and Social Security normal retirement age. The benefit will actuarially increase after Social Security normal retirement age and actuarially decrease before age 62.

¹ These factors will be reduced by 1% of the percentage elected for each full year that the joint annuitant is more than 5 years younger than the Member.

The Retirement Pension Plan for Salaried Employees of Victaulic Company EIN/PN: 22-1501729 / 001

Schedule SB, Part V – Summary of Plan Provisions (continued)

Compensation limitation

In no event will compensation exceed the IRC maximum (\$345,000 for 2024).

Summary of Changes from the January 1, 2023 Valuation

- There have been no amendments to the provisions of the plan since the prior valuation; to our knowledge, no changes are pending.
- The Funding Target increased by \$175,127 due to the automatic increases in Section 415 benefit limitation and Section 401(a)(17) compensation limitation effective for 2024.
