INDEPENDENT AUDITORS' REPORT

October 6, 2025

Dana Incorporated Investment Committee
Dana U.S.W. Hourly Employees' Pension Plan
Maumee, Ohio

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of ***Dana U.S.W. Hourly Employees' Pension Plan*** (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits (modified cash basis) as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits (modified cash basis) for the years then ended, and the statement of accumulated plan benefits as of December 31, 2023, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements (the "financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Independent Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the modified cash basis method of accounting described in Note 2.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Independent Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Basis of Accounting

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis method of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis method of accounting described in Note 2, and for determining that the modified cash basis method of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Independent Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an independent auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of the modified cash basis method of accounting described in Note 2.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with the modified cash basis method of accounting described in Note 2.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

DANA U.S.W. HOURLY EMPLOYEES' PENSION PLAN

Notes to Financial Statements

1. DESCRIPTION OF THE PLAN

The following brief description of the *Dana U.S.W. Hourly Employees' Pension Plan* (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

Description of the Plan

General

The Plan is a defined benefit pension plan established on September 1, 2017 through a combination of spinoffs from the Dana Retirement Plan (the "Retirement Plan") and the Dana Combined Hourly Employees' Pension Plan (the "Hourly Plan"). The Plan provides pension benefits to individuals who were employed by *Dana Limited* (the "Company") and its subsidiaries, as identified in the Plan document, who were members of collective bargaining units represented by the United Steel Workers of America. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Employees who were members of the participating bargaining units and were hired prior to January 31, 2008, were eligible to participate in the Retirement Plan or the Hourly Plan and became participants of the Plan upon their spin-off and transfer into this Plan.

Dana Incorporated is the Company's parent. The Plan is administered by the Dana Incorporated Investment Committee (the "Investment Committee"), who is responsible for oversight of the Plan and the appropriateness of the Plan's investment offerings and monitors investment performance. Northern Trust Company ("Northern Trust") is the trustee of the Plan. Northern Trust holds all assets of the Plan in accordance with the service provider contract with the Company.

Funding Policy

Minimum required contributions to the Plan are based upon valuations performed by an independent actuary. The *Pension Protection Act of 2006* ("PPA") determines minimum required contributions as the sum of (a) the value of benefits earned during the year, (b) expected administrative expenses paid from the trust during the year, and (c) an amortization of any unfunded obligation over seven years. The Plan has met the minimum funding requirements prescribed by ERISA.

Notes to Financial Statements

Pension Benefits

Participants are entitled to monthly pension benefits beginning at normal retirement age (65) which are equal to specified rates multiplied by total years of credited service or the sum of the specified rate for each calendar year multiplied by credited service in such calendar year, as defined in the Plan document. The benefit is typically paid in the form of a joint and surviving spouse annuity; however, participants may elect to waive the survivor benefit option in the manner prescribed by ERISA. Retired participants from certain bargaining units or their surviving spouses who are age 65 or older and receiving a pension benefit from the Plan, also receive a monthly Medicare benefit in addition to their monthly pension benefit. If the present value of the accrued benefit is less than \$1,000, the benefit will be paid to the participant in a single lump-sum without the participant's consent. A participant with an accrued benefit greater than \$1,000 but less than or equal to \$5,000 may be paid in a lump-sum with the participant's written consent or will have their interest in the Plan transferred in a direct rollover to an individual retirement account administered by a trustee as designated by the Investment Committee if the participant fails to elect a distribution or rollover option.

Early retirement is available for participants who meet minimum age or service requirements, or a combination of both, as outlined in the Plan document. Early retirement benefits are generally equal to the accrued normal retirement benefit reduced by a percentage for each month prior to normal retirement age or another age as specified in the Plan document. Benefits for participants who do not commence receiving payments until after they reach normal retirement age are actuarially increased to take into account the number of months after the normal retirement date, excluding months in which the pension benefit was suspended because the participant worked for the Company.

In addition to early retirement benefits, supplemental benefits are payable to certain eligible participants who meet specified minimum age or service requirements. These benefits are paid until the retiree reaches age 62 and one month and are calculated using schedules in the Plan document, or by multiplying the participant's credited service by a specified dollar amount according to the terms of the Plan document.

Death and Disability Benefits

If an active or terminated vested participant dies prior to benefit commencement, a benefit is payable to the beneficiary equal to 50% or 60% of the participant's accrued normal retirement benefit, as stated in the Plan document. Such benefit is reduced for payments made prior to age 65 and for election of the joint annuitant option.

Certain participants who become permanently and totally disabled and have met minimum service requirements, as outlined in the Plan document, are eligible to receive disability benefits.

Vesting

All participants are fully vested in their benefits. Nonvested benefits in the statement of accumulated plan benefits include benefits that are contingent upon a future event, such as death, disability or attainment of a certain age.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the modified cash basis method of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Consequently, contributions are recognized when received rather than when earned and Plan expenses are recognized when paid rather than when the obligation is incurred.

Use of Estimates

The preparation of financial statements in accordance with the modified cash basis method of accounting requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosures of contingent assets and liabilities, the recorded amounts of additions to and deductions from Plan assets and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Master Trust Agreement

The Plan's net assets, along with the net assets of three other Company pension plans, are held by Northern Trust in the Dana Master Pension Trust (the "Master Trust"). The net assets of the participating plans have been commingled in the Master Trust for investment purposes only. Employer contributions, when made, benefit payments and certain administrative expenses are identified for each respective participating plan whereas earnings and administrative expenses not specifically related to each plan are allocated proportionately to the participating plans. The allocation is based on the relative dollar value investment of the participating plans in the Master Trust, with the exception of income related to certain investments, which is allocated to each plan to match the duration of the associated pension liability.

Investment Valuation and Income Recognition

The Master Trust's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Master Trust's valuation policies utilizing information provided by the investment managers and trustee. See Note 4 for a discussion of the Master Trust's fair value measurements.

Net investment income of the Master Trust includes interest, dividends and distributions received on such investments, and net income from swaps and swaptions. Net change in fair value of the Master Trust includes the aggregate gains and losses on investments bought and sold as well as held during the year. Investment income of the Master Trust is recorded when earned on the accrual basis. Dividend income is recorded on the ex-dividend date.

Notes to Financial Statements

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits consist of those future benefit payments attributable, in accordance with the Plan provisions, to participants credited with service through January 31, 2008, the date the predecessor plans were frozen. These accumulated benefits are expected to be paid to retired or terminated vested participants or their surviving spouses, or presently eligible participants or their surviving spouses. Future estimated plan benefits used to measure accumulated plan benefits include amounts payable in the event of retirement, death, disability or termination of employment to the extent they are deemed attributable to the credited service through January 31, 2008, the date the predecessor plans were frozen.

The Company utilizes the services of an independent actuary to determine the actuarial present value of accumulated plan benefits. The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of and for the year ended December 31, 2023 (most recent information available) are as follows:

Rates of Mortality	Based upon custom mortality tables using historical experience projected generationally using the MP-2021 scale.
Retirement Age	Based upon age stated in the Plan document and actual experience
Valuation Interest Rate	5.75%

All actuarial methods and assumptions used in 2023 were consistent with those used in 2022 except that the Valuation Interest Rate was updated from 6.00% to 5.75%.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Contributions

Contributions are recorded when received by the trustee.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Notes to Financial Statements

Administrative Expenses

Certain of the Plan's administrative expenses are paid directly by the Company and, accordingly, they are not reflected in the Plan's financial statements. Administrative fees and expenses for investment consulting, legal, actuarial, audit and record keeping services, Pension Benefit Guaranty Corporation ("PBGC") insurance premiums and services provided by the trustee, investment managers and administrative service providers are generally borne by the Plan. These expenses are party-in-interest transactions, which qualify for exemption from prohibited transaction rules under ERISA.

Subsequent Events

In preparing these financial statements, Plan management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to the most recent statement of net assets available for benefits presented herein, through the date these financial statements were available to be issued.

3. MASTER TRUST

The Master Trust includes the net assets of four defined benefit pension plans sponsored by the Company. The Master Trust is administered under the supervision of the Board of Directors of Dana Incorporated which has appointed the Investment Committee to oversee the administration of the investments. The Investment Committee executes this duty by appointing Northern Trust and various investment managers to direct the Master Trust's investments. The Plan's interest in the Master Trust represents 46.79% and 47.28% of net assets available for benefits of the Master Trust at December 31, 2024 and 2023, respectively.

Certain information related to investments disclosed in the accompanying financial statements, including the Plan's interest in the Dana Master Pension Trust held at December 31, 2024 and 2023, and the related Plan's interest in Dana Master Pension Trust net investment income and net change in fair value of investments for the years ended December 31, 2024 and 2023, and the information summarized below, was obtained by management and agreed to and derived from information certified as complete and accurate by Northern Trust.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level within the fair value hierarchy of each of the assets and liabilities of the Master Trust is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Equity securities: Valued at closing prices reported in an active market.

Collective trust funds: Valued using the net asset value ("NAV") provided by the trustee, classified as "other" and are not assigned to a level in the fair value hierarchy. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the Master Trust will sell the investment for an amount different than the reported NAV.

U.S. government agency securities: Fair value is based on yields currently available for comparable securities.

Corporate debt instruments: Fair value is based on yields currently available for comparable securities.

DANA U.S.W. HOURLY EMPLOYEES' PENSION PLAN

Notes to Financial Statements

State and local bonds: Fair value is measured based on yields currently available for comparable securities.

Foreign government bonds: Fair value is measured based on yields currently available for comparable securities.

Core real estate investment funds: Fair value is based on the NAV's provided by the fund managers or determined by a third party and the unit price is based on the values of the underlying net assets of these funds. These funds are classified as "other" and are not assigned to a level in the fair value hierarchy. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the Master Trust will sell the investment for an amount different than the reported NAV.

Collateralized mortgage obligations: Fair value is based on yields currently available for comparable securities.

Investment contract with an insurance company: This investment is reported at fair value as determined by Aetna Life Insurance Company utilizing the market approach of resetting interest rates periodically based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Pooled separate account: Valued at the unit price reported by Aetna Life Insurance Company. The underlying investments owned can include registered investment companies, common stocks, corporate bonds, U.S. Government securities, other pooled separate accounts, or guaranteed insurance contracts priced by the sponsoring insurance company using applicable interest rates and contract provisions. The unit price is based on the fair value of the underlying investments owned, less any accrual of fees and expenses borne by the account, and divided by the number of units outstanding. The unit price is readily determinable and quoted on the active private market on which the Master Trust can transact daily with no significant redemption restrictions on this investment.

Interest-bearing cash: Fair value is determined based on exchange rates sourced by Reuters.

Swaps and swaptions: Fair value is determined based on quotes received by industry vendors.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Investment Committee believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(1) Certain investments are measured at NAV per share (or its equivalent) on an inactive market and have not been classified in the fair value hierarchy and are presented in the column titled "Other" above. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the schedules of net assets available for benefits of plans participating in the Master Trust in Note 3.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. The Investment Committee evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

Notes to Financial Statements

The following tables set forth the Master Trust's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, the significant unobservable inputs and the ranges of values for those inputs at December 31:

2024 Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Weighted Average
Investment contract with an insurance company	\$ 3,672,132	Market approach	Interest rates	4.06%

2023 Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Weighted Average
Investment contract with an insurance company	\$ 3,945,657	Market approach	Interest rates	4.36%

In estimating fair value of the investments classified as Level 3, the Investment Committee utilizes third-party pricing sources.

DANA U.S.W. HOURLY EMPLOYEES' PENSION PLAN

Notes to Financial Statements

The following is a description of the investment strategies for investments in certain entities that calculate NAV per share (or its equivalent) at December 31, 2024 and 2023.

Collective trust funds: These funds invest in a wide variety of investment categories including equities and fixed income securities with the goal of providing growth and offsetting changes in the value of the Plans' benefit obligations due to changes in interest rates.

Core real estate investment funds: These funds invest in stabilized, income-flowing properties using primarily commingled fund vehicles. These investments are part of the return-seeking diversified pool of assets for the purpose of generating an incremental return with an acceptable level of risk.

5. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Master Trust investments are in funds that are managed by Northern Trust or their subsidiaries and affiliates. The balance within the net assets available for benefits of the Master Trust related to these investments was \$53,911,198 and \$65,760,635 at December 31, 2024 and 2023, respectively. The Master Trust paid for administrative service provider, investment advisor and manager, actuarial, record keeping services and plan audit fees which qualify as party-in-interest transactions. Certain management fees in the form of an expense ratio charged to each investment option are paid by the Master Trust and deducted from earnings on investments. These transactions are party-in-interest transactions, which are exempt from prohibited transaction rules.

6. TAX STATUS

The Plan has received a favorable determination letter dated November 16, 2018 from the Internal Revenue Service ("IRS"), that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC") and, therefore, that the Plan is qualified and the related Master Trust is tax exempt.

Plan management has evaluated the tax positions taken by the Plan to determine if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by the IRS, and has concluded that, as of December 31, 2024, there are no uncertain positions taken or expected to be taken. While the Plan may be subject to routine audits by the IRS, there are currently no audits for any tax periods in progress.

DANA U.S.W. HOURLY EMPLOYEES' PENSION PLAN

Notes to Financial Statements

7. PLAN TERMINATION

The Company expects to continue the Plan as long as necessary to pay accumulated plan benefits. However, the Company reserves the right to terminate the Plan, in whole or in part, at any time as prescribed by the Board of Directors of Dana Incorporated, the Company's parent, subject to the provisions of ERISA.

Upon the complete termination of the Plan, the assets then remaining in the Plan, after providing for the expenses of the Plan, would be allocated (to the extent that they are sufficient) for the purpose of providing benefits that have accrued to participants or their beneficiaries as of the date of such termination, in a manner that is consistent with the order of precedence prescribed by Section 4044 of ERISA.

Any assets remaining in the fund because of variations in actual experience from actuarial estimates, after the complete satisfaction of all liabilities under the Plan in accordance with the preceding paragraph, would revert to the Company.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit. Should the Plan terminate, the payment of certain benefits not covered by the PBGC would depend on the sufficiency of the Plan's assets.

8. RISKS AND ECONOMIC UNCERTAINTIES

The Master Trust invests in various investment securities with the underlying assets consisting of any combination of stocks, bonds, fixed income securities, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of interest rate, market, and credit risks inherent with certain of the Master Trust's investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and changes in net assets available for benefits. Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Demographic Assumptions

Mortality

For Plans 003, 015, and 148, a custom mortality table was developed during 2018 using Dana's historical mortality experience. A sample of annual rates per 1000 participants are provided below for each gender:

Age	Males	Females
20	0.5	0.2
25	0.6	0.2
30	0.6	0.3
35	0.7	0.4
40	0.8	0.5
45	1.2	0.8
50	2.3	1.5
55	4.3	2.7
60	8.3	5.1
65	13.9	9.7
70	21.6	16.4
75	35.0	27.1
80	59.1	46.3
85	103.1	82.2
90	180.4	145.9
95	281.0	237.8
100	374.1	330.8
105	453.8	415.9
110	498.6	470.8
115	500.0	500.0
120+	1000.0	1000.0

These custom mortality tables are projected generationally from 2015 using the SOA projection scale, MP-2021.

Termination

Annual rates per 1000 participants

Service	High Subsidy (Plans 003, 004, 005, 034)	Moderate Subsidy (Plans 015, 118)
2	70.2	135.2
7	32.5	55.8
12	20.7	37.4
17	15.5	33.9
22	10.5	25.2
27	10.2	13.6

Expenses

Expenses included in the Funding Target Normal Cost include: PBGC premiums, benefit administration fees, audit fees, and trust eligible actuarial fees.

Special At-Risk Assumptions

For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan.

Shutdown

Provisions for Future Shutdowns

Should a plant shutdown occur and a plant's shutdown benefits become payable and/or a significant number of early retirements occur, there would be significant changes in the plan's financial conditions, affecting cash flow as well as present values. Actuarial techniques which are practical for establishing the cost of other types of pension benefits are not applicable to group termination benefits, because a practical provision for the occurrence cannot be determined. Therefore, this actuarial valuation contains no numeric measurement of the potential costs of such shutdown benefits.

Locations Currently Shutdown

For plans with shutdown locations, eligible plan participants will receive special early retirement benefits attributable to the shutdown. If the participant is subsequently re-employed by Dana Corporation, the special early retirement benefits are forfeited.

SCHEDULE SB ATTACHMENTS

If applicable, this actuarial valuation assumes that participants eligible to receive special early retirement benefits do so unless data supplied by Dana indicates they have been transferred to another position within Dana. They are treated as terminated vested participants and are assumed to commence benefits at the earliest, most valuable age.

Marriage Assumes that 80% of all employees are married and that the male spouse is three years older than the female spouse.

Actuarial Methods

Actuarial Cost Method Present value of Accrued Benefits

Asset Valuation Method Description Fair market value as of the valuation date including discounted contributions receivable for the prior plan year.

Benefits Not Valued All benefits described in the Plan Provisions section of the supplemental report were valued and special benefits granted under plant closings or work-force reductions at certain on-going locations. WTW is unaware of any event which has occurred that would trigger these special benefits for plant closings or work-force reductions, except where noted. The cost for these benefits will be recognized in the valuation after the triggering event occurs.

Data Sources

Participant Data Dana Limited, their administrator, and the plan's Trustee provided census and asset information. WTW is aware of no potential material biases due to imperfect data. WTW checked the data for reasonableness and consistency, but no audit was performed. While it is possible that future data corrections could have a material impact on results, we believe the data provided were sufficient for reasonable valuation results, and we are aware of no errors or omissions that would have a significant effect on the results of our calculations.

Changes in Methods and Assumptions since Prior Year

Since the prior valuation, the following assumptions have been changed:

- The full corporate bond yield curve used to calculate the funding target and target normal cost was updated to the current valuation date as required by IRC §430p.

Assumptions Rationale – Significant Economic and Demographic Assumptions

Discount Rate The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Mortality Assumptions used for funding purposes reflect the substitute mortality table that was approved for use by the IRS under Revenue Procedure 2017-55. We believe the assumptions do not significantly conflict with what would be reasonable because they reflect recent experience, and are adjusted to reflect the plan sponsor's expectations regarding future mortality improvement.

Source of Prescribed Methods

Funding Methods The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan Name	Dana U.S.W. Hourly Employees' Pension Plan
Valuation Date	January 1, 2024
Enrolled Actuary	Christopher D. Richmond
Enrollment Number	23-08687

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

SCHEDULE SB ATTACHMENTS

Schedule SB, Line 22 Description of Weighted Average Retirement Age as of January 1, 2024

See Schedule SB, Part V - Statement of Actuarial Assumptions/Methods for retirement rates. The average retirement age for Line 22 was calculated by determining the average age at retirement for those current active participants expected to reach retirement, based on all current decrements assumed.
