**Statement by Enrolled Actuary**

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

**Independent Auditor's Report**

To the Plan Administrator and Retirement Committee  
Sealed Air Corporation Combined Pension Plan

**Scope and Nature of the ERISA Section 103(a)(3)(C) Audit**

We have performed audits of the accompanying financial statements of Sealed Air Corporation Combined Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Sealed Air Corporation Combined Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

**Opinion**

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Sealed Air Corporation Combined Pension Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Sealed Air Corporation Combined Pension Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Sealed Air Corporation Combined Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Sealed Air Corporation Combined Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Supplemental Schedules Required by ERISA**

The supplemental schedules of Schedule of Assets Held at End of Year as of December 31, 2024 and Schedule of Reportable Transactions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

# Sealed Air Corporation Combined Pension Plan

## Notes to Financial Statements

December 31, 2024 and 2023

### 1. Plan Description

#### General

The Sealed Air Corporation Combined Pension Plan (Combined Pension Plan, or the Plan) is a defined benefit pension plan sponsored by Sealed Air Corporation (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

#### Plan Mergers

Effective May 25, 2009, the Sealed Air Corporation Pension Plan for Eligible Union Employees in Cedar Rapids, IA (Cedar Rapids Plan) was merged into the Sealed Air Corporation Restoration Plan for Cryovac Employees (Cryovac Plan). The merged Cedar Rapids Plan participants remain subject post-merger to the Cedar Rapids Plan's benefit accrual, vesting and benefit payment structures.

Effective December 31, 2016, (Sealed Air Merger Date), the assets of the Sealed Air Corporation Retirement Plan for Formpac Non-Union Hourly Employees (Formpac Plan) and the Sealed Air Corporation Pension Plan for Eligible Employees in Exton and Modena, Pennsylvania (Exton Modena Plan) were merged into the Cryovac Plan which was renamed the Sealed Air Corporation Combined Pension Plan. Effective as of the Sealed Air Merger Date of December 31, 2016, the Plan was comprised of the following four component documents: the Sealed Air Corporation Restoration Plan for Cryovac Employees, the Sealed Air Corporation Pension Plan for Eligible Employees in Cedar Rapids, Iowa, the Sealed Air Corporation Retirement Plan for Formpac Non-Union Hourly Employees, and the Sealed Air Corporation Pension Plan for Eligible Employees in Exton and Modena, Pennsylvania.

On October 3, 2011, Diversey, Inc. (Diversey) was acquired by the Company, which succeeded Diversey to become the plan sponsor on March 20, 2017, of the Retirement Plan for Employees of Diversey, Inc. (Diversey Plan).

On March 27, 2017, the Company announced the sale of the Diversey Care division and the food hygiene and cleaning division within its Food Care division to Bain Capital Private Equity, a leading global private investment firm. The sale closed on September 5, 2017, and the Diversey Plan was retained by the Company.

Effective December 31, 2017, (Diversey Plan Merger Date), the Diversey Plan merged with and into the Sealed Air Combined Pension Plan. The assets of the Diversey Plan, which were held by

#### **1. Plan Description (continued)**

Northern Trust Company, were legally transferred effective that date to the Sealed Air Combined Pension Plan.

Effective as of the Diversey Plan Merger Date, the Plan is comprised of the following five component documents: the Sealed Air Corporation Restoration Plan for Cryovac Employees, the Sealed Air Corporation Pension Plan for Eligible Employees in Cedar Rapids, Iowa, the Sealed Air Corporation Retirement Plan for Formpac Non-Union Hourly Employees, the Sealed Air Corporation Pension Plan for Eligible Employees in Exton and Modena, Pennsylvania, and the Retirement Plan for Employees of Diversey, Inc.

#### **Pension Benefits for Cryovac Plan**

The following is a brief description of the Cryovac Plan component, which includes the Cedar Rapids participants. Participants should refer to the Plan Document for more complete information on the Plan, including the other component documents.

Effective April 1, 1998, the Company established the Cryovac Plan, which covered only the eligible employees of the Company and the Company's subsidiary, Cryovac, Inc., who were participants in the W.R. Grace & Co. Retirement Plan for Salaried Employees (Prior Grace Plan) immediately prior to March 31, 1998. The credited service of a participant includes, subject to Plan limitations, the participant's credited service under and as defined in the Prior Grace Plan as of March 31, 1998. The Plan was amended effective September 1, 2014, to provide various benefit options for certain participants.

The Cryovac Plan was amended and restated on November 11, 2016, to freeze the Plan for participation and benefit accruals effective December 31, 2016, in addition to the changes discussed further below.

Cryovac Plan participants are eligible for their plan benefit after terminating employment with vested rights. Other than Cedar Rapids participants, a participant's accumulated benefit becomes fully vested upon the earliest of the participant's (i) completion of five years of vesting service, as defined, (ii) attainment of age 55 while in service, or (iii) becoming permanently disabled while in service. Cedar Rapids participants' accumulated benefit becomes fully vested upon the completion of five years of vesting service or attainment of age 55.

The annual pension benefit for a participant, other than Cedar Rapids participants, who separates from service upon attainment of age 65 shall be an annual amount equal to the excess of the participant's accumulated benefits over the sum of the participant's Prior Grace Plan accrued

# Sealed Air Corporation Combined Pension Plan

## Notes to Financial Statements (continued)

### 1. Plan Description (continued)

benefit and the participant's assumed Sealed Air Corporation Profit-Sharing Plan accrued benefit (Assumed Profit-Sharing Plan Accrued Benefit), as defined. The participant's accumulated plan benefit equals the sum of 1% of the participant's final average compensation, as defined; multiplied by the participant's credited service; as defined; and 0.4% of the participant's final average compensation, as defined in excess of the participant's covered compensation, as defined; multiplied by the participant's credited service. A hypothetical benefit related to the Assumed Profit-Sharing Plan Accrued Benefit is determined by crediting 8.5% interest to each year's employer contribution through the date of the determination, then summing all the adjusted contributions, and further converting the result to a monthly benefit payable for the life of the participant.

The annual pension benefit for a Cedar Rapids participant who separates from service upon attainment of age 65 shall be an amount equal to the participant's credited service multiplied by the benefit rate in effect at the time of termination. Effective May 1, 2006, this rate is \$34.50. Plan participants are eligible for their plan benefit after termination of employment with vested rights. A participant's credited service shall be the number of full years and completed months of the participant's Continuous Employment, as defined.

Normal retirement date is the first day of the month coinciding with or next following attainment of age 65. A participant may elect early retirement at age 55. Other than Cedar Rapids participants, the benefits payable to a participant on an early retirement date are actuarially reduced. Cedar Rapids participants' early retirement benefits are reduced by 1/3 of 1% for each month by which the annuity starting date precedes the first day of the month in which the participant attains age 62. The normal method of payment for unmarried participants is a life annuity and for married participants is a joint and 50% survivor annuity. Participants may elect optional methods, as defined, of payments if a qualified waiver, as defined, is in effect.

#### *Death Benefits for Cryovac Plan*

In the event of a vested participant's death prior to attaining the normal retirement date, the participant's surviving spouse shall generally be paid an amount equal to the benefit that would have been received if the participant had terminated service on the date of death and commenced receiving an immediate retirement benefit under the Plan in the form of a joint and 75% survivor annuity (or a joint and 50% survivor annuity in the case of Cedar Rapids participants). Unless the surviving spouse consents, distribution of the spouse's death benefit shall not commence prior to the date the participant would have attained age 65. If a participant dies following the commencement of benefit payments, the benefits payable following such participant's death shall be as provided by the method payment selected by the participant.

##### Pension Benefits for Formpac Plan

The following is a brief description of the Formpac Plan component. Participants should refer to the Plan Document for more complete information on the Plan, including the other component documents.

Effective April 1, 1998, the Company established the Formpac Plan, which covered only the eligible hourly paid employees of the rigid foam packaging business of the Company's subsidiary, Cryovac, Inc., who were participants in the Prior Grace Plan immediately prior to March 31, 1998. The credited service of a participant includes, subject to Plan limitations, the participant's credited service under and as defined in the Prior Grace Plan as of March 31, 1998. All other hourly paid employees of Cryovac, Inc. at the Reading, PA, and the Indianapolis, IN, rigid packaging plants, with certain exceptions, became participants upon the completion of one year of service, as defined, and the attainment of age 21. Participant contributions were not permitted by the Formpac Plan.

On April 1, 2015, there was a divestiture of the locations which employed the Formpac Plan participants and, as a result, following the divestiture, participants have terminated employment with the Company and earn no additional service under the Formpac Plan.

Formpac Plan participants are eligible for their plan benefit after terminating employment with vested rights. A participant's accumulated benefit becomes fully vested upon the earliest of the participant's (i) completion of five years of vesting service, as defined, or (ii) attainment of age 55 while in service. All benefits that do not become vested are forfeited and applied to reduce the contributions required to be made by the Company as determined by the Formpac Plan's consulting actuary. The pension benefit for a participant who separates from service on or after January 1, 2003 upon attainment of age 65 is a monthly amount equal to the participant's credited service, as defined, multiplied by the dollar amount of either \$24, \$29 or \$32 for pension grades I, II or III, respectively, as of July 1<sup>st</sup> of the year immediately preceding the year in which the participant separates from service.

Normal retirement date is the first day of the month coinciding with or next following attainment of age 65. A participant may elect early retirement at age 55. The normal method of payment for unmarried participants is a life annuity and for married participants is a joint and 50% survivor annuity. Participants may elect optional methods, as defined, of payments if a qualified waiver is in effect.

### 1. Plan Description (continued)

#### *Death Benefits for Formpac Plan*

In the event of a vested participant's death prior to attaining the normal retirement date, the participant's surviving spouse shall generally be paid an amount equal to the benefit that would have been received if the participant had terminated service on the date of death and commenced receiving an immediate retirement benefit under the Formpac Plan in the form of a joint and 75% survivor annuity. Unless the surviving spouse consents, distribution of the spouse's death benefit shall not commence prior to the date the participant would have attained age 65. If a participant dies following the commencement of benefit payments, the benefits payable following such participant's death shall be as provided by the method payment selected by the participant.

#### **Pension Benefits for Exton Modena Plan**

The following is a brief description of the Exton and Modena Plan component. Participants should refer to the Plan Document for more complete information on the Plan, including the other component documents.

The Exton Modena Plan covers eligible production employees in Exton and Modena, Pennsylvania. The Exton Modena Plan became effective February 15, 1982 and was most recently amended in 2016. All production workers employed as hourly wage rate employees of the Exton and Modena, Pennsylvania, location entered the Exton Modena Plan following the completion of one year of service and minimum 880 hours.

Participants are credited with a year of service for each year in which 1,760 hours or more are worked. Partial credit is given for less hours according to the terms of the Exton Modena Plan. Credited service is not to exceed 38 years of service. One year of vesting service is earned for each plan year in which the participant earns 880 hours of service.

Normal retirement is at age 65 with 5 years of participation. The monthly benefit is the effective rate multiplied by credit service. The effective rate as of March 2016 was \$40. Early retirement is available at age 55 and 10 years of service. The benefit is reduced by one half of one percent for each month the early retirement precedes the participant's 65<sup>th</sup> birthday. Certain disability benefits are provided in accordance with the terms of the Exton Modena Plan.

Vesting occurs after 5 years of service. The normal form of payment for married participants is a joint and survivor annuity. If not married, benefits are payable for the life of the participant with 10 years certain. Optional forms of payment are available.

#### **1. Plan Description (continued)**

##### *Death Benefits for Exton Modena Plan*

In the event of a vested participant's death prior to attaining the normal retirement date, the participant's surviving spouse shall generally be paid an amount equal to the one-half of the benefit that would have been paid if the participant had retired the day before he died under the joint and survivor option. Benefits are paid immediately or at the participant's early retirement age, if later.

##### **Pension Benefits for Diversey Plan**

The following is a brief description of the Diversey Plan component. Participants should refer to the Plan Document for more complete information on the Plan, including the other component documents.

Effective January 1, 1999, the assets, liabilities, and benefit obligations for employees of JohnsonDiversey, Inc. were spun off from the pension plan of S. C. Johnson & Sons, Inc. to create the Diversey Plan. It is a cash balance plan, which is a type of defined-benefit plan that expresses participants' accrued benefits in terms of hypothetical cash balance accounts. Effective December 31, 2008, the Diversey Plan was amended to freeze participation and benefit accruals.

Former Johnson Wax Professional or Johnson Polymer employees who were employed by Diversey and individuals who were active participants of the pension plan of S. C. Johnson & Sons, Inc. at any time between January 1, 1998 and June 1, 1998, were credited with an initial cash balance based on a formula incorporating the present value of an early retirement benefit and factors for years of service and age.

Prior to January 1, 2009, a participant's cash balance account was credited annually with a percentage of pay which is equal to 5% of pay, up to the social security wage base, plus 10% of pay in excess of that amount. Effective January 1, 2009, no further compensation credits were granted.

Effective January 1, 2010, annual interest credits are based on the yield of 10-year Treasury Constant Maturities.

Former Johnson Wax Professional or Johnson Polymer employees who were employed between January 1, 1998 through June 1, 1998, are entitled to benefits equal to the greater of the amount calculated under the cash balance benefit or a formula based on base pay and years of service through December 31, 2008.

# Sealed Air Corporation Combined Pension Plan

## Notes to Financial Statements (continued)

### 1. Plan Description (continued)

Participants in the Diversey Plan were subject to a three-year vesting schedule. Normal retirement age is 65, but early retirement benefits are available upon reaching an age and number of years of service. Participants may elect to receive their pension benefits in the form of a joint and survivor annuity or, with spousal consent, in the form of a lump-sum payment or other form of annuity payment.

Effective January 1, 2008, the Diversey Plan was amended to fully vest all participants who were determined by Diversey to have incurred an employer-initiated involuntary termination of employment in 2008.

#### *Death Benefits for Diversey Plan*

If a participant with a vested interest in benefits under the Diversey Plan dies prior to the receipt of any benefits under the Diversey Plan, their beneficiary shall be entitled to a lump sum cash payment equal to the participant's cash balance account.

### **Plan Termination for the Combined Pension Plan**

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event of the termination of the Plan, after any expenses have been paid, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations generally to provide the following benefits in the order indicated.

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. Government agency, up to the applicable limitations as prescribed in ERISA.
- All other vested benefits (i.e., vested benefits not insured by the PBGC).
- All nonvested benefits.

# Sealed Air Corporation Combined Pension Plan

## Notes to Financial Statements (continued)

### **1. Plan Description (continued)**

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

### **2. Summary of Significant Accounting Policies**

#### **Basis of Financial Statements**

The financial statements of the Plan have been prepared on the accrual basis of accounting.

#### **Use of Estimates**

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts of assets and liabilities and changes therein, disclosures of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

#### **Actuarial Present Value of Accumulated Plan Benefits**

Accumulated plan benefits (Note 5) are those estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employees' compensation during each year of credited service. Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the freeze dates.

The actuarial present value of accumulated plan benefits is determined by an actuary from Willis Towers Watson and is the amount that results from applying actuarial assumptions to adjust the

#### **2. Summary of Significant Accounting Policies (continued)**

accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of December 31, 2023, are further described in Note 5.

#### **Investment Valuation and Income Recognition**

Investments held by the Plan as of December 31, 2024 and 2023 are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Committee determines the valuation policies utilizing information provided by the investment advisers, trustees, and insurance companies. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are reflected on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The average cost basis is used in determining gain or loss on investments sold.

#### **Payment of Benefits**

Benefits are recorded when paid.

#### **Plan Administrative Expenses**

Administrative expenses, to the extent not paid by the Plan, are paid by the Company.

#### **Funding Policy**

Employer contributions are computed under the unit credit method, which recognizes the cost of benefits over the period in which the employee's service has been rendered. The unit credit method includes the annual normal cost plus an amount to amortize the unfunded actuarial liability, if any.

The Company contributes such amounts as are necessary to a trust to provide assets sufficient to meet the current and future benefits to be paid to participants and satisfy the ERISA minimum funding requirements. The Company has met the minimum funding requirements of ERISA during 2024 and 2023.

## Sealed Air Corporation Combined Pension Plan

### Notes to Financial Statements (continued)

#### **3. Investment Information Certified by the Trustee**

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2024 and 2023, and net appreciation in fair value of investments, interest from investments, dividends, and investment expenses for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Northern Trust Company, the trustee.

#### **4. Fair Value Measurements**

The Plan follows accounting standards which establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under accounting standards are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

## Sealed Air Corporation Combined Pension Plan

### Notes to Financial Statements (continued)

#### 4. Fair Value Measurements (continued)

The following is a description of the valuation methodologies used at December 31, 2024 and 2023, for assets measured at fair value.

The Plan holds units of various commingled collective investment trust funds and a hedge fund. The units are valued at net asset value (NAV) as provided by the trustee, which is based on the fair value of each Fund's underlying investments. All funds transact at their NAV. All of the investments are daily valued using the NAV as a practical expedient to estimate fair value, with the exception of Aon Multi-Asset Credit Fund (monthly), Aon Core Real Estate Fund (quarterly), and Aon Return Enhancing Alternatives Portfolio Fund (monthly). There are no restrictions on the redemption of these funds, except for the Aon Multi-Asset Credit Fund and the Aon Enhanced Liability Driven Investments Fund, which are available for redemption on a monthly basis, the Aon Core Real Estate Fund, which is available for redemption on a quarterly basis, and the Aon Return Enhancing Alternatives Portfolio Fund, which is available for redemption on a semi-annual basis.

The Plan holds units of 103-12 investment entities which are valued at the NAV as a practical expedient using information provided by the investment manager based upon the audited financial statements of the fund's underlying investments. The funds are available for redemption on a semi-annual basis.

Joint venture interests and real estate limited partnerships are valued at the NAV as a practical expedient using information from investment managers and based upon audited financial statements and other information obtained by the investment managers. The investment objective is total return through capital appreciation. There are restrictions on the redemption of these investments and they generally cannot be liquidated until the partnerships are terminated.

Real estate commingled funds are valued at the NAV as a practical expedient reported by the issuer of the funds. There are no restrictions on the redemption of this fund.

Short term investment funds consist of a collective fund that is valued at NAV as a practical expedient based on value of the underlying assets. The NAV is maintained at \$1.00 per share. The underlying investments have established market values. There are no restriction on redemption of this fund.

As all of the Plan's investments are valued at NAV as a practical expedient, no fair value hierarchy table is presented.

## Sealed Air Corporation Combined Pension Plan

### Notes to Financial Statements (continued)

#### 5. Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employees' compensation during each year of credited service.

Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Willis Towers Watson and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of December 31, 2023 were as follows:

Discount rate	5.59% (5.13% in prior year)
Mortality	Pri-2012 (no adjustments) using contingent survivor mortality after the annuitant's death and scale MP-2021 projection; (unchanged from prior year)
Average retirement age	Rates of probability from ages 55 to 70, retirement benefits commence at age 65
Cash balance crediting rate (applicable only to Diversey)	4.34% (3.88% in prior year)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computation of the actuarial present value of accumulated plan benefits were made as of January 1, 2024. Had the valuation been performed as of December 31, 2023 there would be no material differences.

On March 11, 2021 the American Rescue Plan Act of 2021 (ARPA) was signed into law to provide funding relief for single employer pension plans in the form of interest rate stabilization and lengthen the period for amortizing funding shortfalls. The Plan has elected to adopt the provisions of ARPA. The contributions recorded for the year ended December 31, 2024 and 2023 have been calculated in accordance with the provisions contained in ARPA.

### Notes to Financial Statements (continued)

#### **6. Administration of Plan Assets**

The Plan's assets are held and managed by Northern Trust Company, the trustee and recordkeeper of the Plan. The trustee also invests cash received, interest, and dividend income and makes distributions to participants. The recordkeeper of the Plan administers the payment of interest and principal on the participant notes receivable.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the trustee and recordkeeping fees are paid from Plan assets.

#### **7. Annuity contract reimbursements**

The Plan receives certain payments under annuity contracts between the Plan and certain insurance companies. The payments received under such annuity contracts are used by the Plan to offset benefit payments and have been reflected in the accompanying statements of changes in net assets available for benefits as annuity contract reimbursements.

#### **8. Income Tax Status**

The plan obtained its latest determination letter on March 8, 2018, in which the Internal Revenue Service states that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions.

#### **9. Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain

#### **9. Risks and Uncertainties (continued)**

investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

#### **10. Related Party Transactions**

Certain of the Plan's assets are invested in a short-term investment fund managed by the trustee of the Plan. The Plan sponsor provides certain administrative functions to the plan for which it is not reimbursed. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

#### **11. Subsequent Events**

Management has evaluated all subsequent events through October 7, 2025, which represents the date the financial statements were available to be issued.

As permitted by law, rates reflecting stabilization are used to determine the funding target, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

## Demographic Assumptions

<b>Inclusion Date</b>	The valuation date coincident with or next following the date on which the employee becomes a participant.
<b>New or rehired employees</b>	It was assumed there will be no new or rehired employees.
<b>Mortality</b>	Separate rates for non-annuitants and annuitants based on Pri-2012 “Employees” and “Healthy Annuitants” (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).
<b>Disabled mortality</b>	Separate rates for non-annuitants and annuitants based on Pri-2012 “Employees” and “Healthy Annuitants” (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).
<b>Actuarial increases</b>	For terminated vested participants older than the normal retirement age at the valuation date, an age 65 accrued benefit with no actuarial increases is used. Many of these participants are unable to be located or are likely deceased offsetting any required actuarial increases.

## Methods

### All Plans

<b>Valuation date</b>	First day of plan year
<b>Funding target</b>	Present value of accrued benefits as required by regulations under IRC §430.
<b>Target normal cost</b>	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
<b>Decrement timing</b>	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
<b>Actuarial value of assets for determining minimum required contributions</b>	<p>Average of the fair market value of assets for the three former plans on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>

## Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Sealed Air Corporation and based on that review, is not aware of any significant benefits required to be valued that were not.

## Sources of Data and Other Information

The WTW pension administration group furnished participant data as of 1/1/2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor or trustee. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

## Assumptions Rationale – Significant Economic Assumptions

### Discount rate

Assumptions used for funding purposes are as prescribed by IRC §430(h).

### Expected return on plan assets

The assumption reflects the plan sponsor's estimate of future experience for trust asset returns, reflecting the plan's current asset allocation and any expected changes during the current plan year, current market conditions and the plan sponsor's expectations for future market conditions.

### Plan-related expenses

As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

### Lump sum conversion rate

Lump sum benefits are valued using the plan's discount rate at measurement date as the assumption for the plan's lump sum conversion rate. We believe the assumption is reasonable and consistent with other economic assumptions used.

**Interest Crediting Rate** The plan credits interest to cash balance accounts as of the last day preceding the Annuity Starting Date at the annual interest rate equal to the annual yield on 10 Year Treasury Constant Maturities determined for the month of October immediately preceding the year payment begins. After examining historical variability in this rate, as well as expectations on the plan's long term interest credit rate we believe that the selected assumption does not significantly conflict with what would be reasonable based on a combination of market conditions at the measurement date and future expectations consistent with other economic assumptions used, other than the discount rate.

## Assumptions Rationale – Significant Demographic Assumptions

**Healthy Mortality** Assumptions used for funding purposes are as prescribed by IRC §430(h).

**Disabled Mortality** Assumptions used for funding purposes are as prescribed by IRC §430(h).

**Termination** Assumed termination rates are based on plan sponsor expectation for the future with periodic monitoring of patterns different than assumed. Experience study performed in 2006 confirmed reasonability of current assumption.

**Retirement** Assumed retirement rates are based on plan sponsor expectation for the future with periodic monitoring of patterns different than assumed. Experience study performed in 2006 confirmed reasonability of current assumption.

**Benefit Commencement Age** Based on plan experience and expectation for the future. Experience study performed in 2006 confirmed reasonability of current assumption.

**Form of payment** Former IUE participants are assumed to take a life annuity with 60 monthly payments guaranteed. All other participants are assumed to elect a lump sum form of payment under the plan. This is based on actual experience as well as gains/losses observed.

## Source of Prescribed Methods

### Funding methods

The methods used for funding purposes as described herein, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

## Changes in Assumptions and Methods

### Change in assumptions and methods since prior valuation

The following changes in assumptions were made as part of this valuation:

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2022 to September 2023.
- The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest mortality improvement scale, as required by guidance issued by IRS under IRC §430, and the base mortality table was updated to Pri-2012, as required.
- The assumed plan-related expenses added to the target normal cost were changed from \$2,300,000 for 2023 to \$2,500,000 for 2024. The method to determine the assumed plan-related expenses is unchanged.
- The mortality assumption for lump sums based on annuity benefits was updated from the PPA 2023 optional combined unisex mortality table to the PPA 2024 optional combined unisex mortality table.
- The segment interest rates used to calculate lump sum conversions for the funding target and target normal cost were updated from an applicable month of September 2022 to September 2023.
- The interest crediting rate was changed from graduated interest crediting rates with a rate for 2023 of 3.98% and grading from 3.40% in 2024 to 4.00% in 2032 to graduated interest crediting rates with a rate for 2024 of 4.80% and grading from 3.80% in 2025 to 4.25% in 2034.

<b>Plan Name</b>	Sealed Air Corporation Combined Pension Plan
<b>Valuation Date</b>	January 1, 2024
<b>Enrolled Actuary</b>	Megan Yee, FSA, EA
<b>Enrollment Number</b>	23-07691

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

## Schedule SB, Line 22 Description of Weighted Average Retirement Age as of January 1, 2024

The Sealed Air Corporation Combined Pension Plan contains multiple employee groups. The final weighted-average retirement age reported on Line 22 for the plan was calculated by weighting the calculated retirement age determined for each group with different retirement rates by the number of active participants in those groups as shown in "Schedule SB, Part V – Statement of Actuarial Assumptions and Methods".

The detailed description of the exact rates that apply at each age for each group for the various categories is contained in the attachment "Schedule SB, Part V – Statement of Actuarial Assumptions and Methods"

The following page shows a sample calculation of the weighted-average retirement age for the largest group, the "Legacy Restoration" group. In computing the weighted-average retirement age, the weight applied to each age is (a)/(b), where (a) and (b) are defined as follows:

(a) The number of participants expected to retire at the retirement age to which the weight is being applied.

The number of participants expected to retire is estimated by applying the assumed rates of decrement to the current active population.

(b) The total number of participants expected to retire. The number of participants expected to retire is estimated by applying the assumed rates of decrement to the current active population.

As permitted by law, rates reflecting stabilization are used to determine the funding target, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

## Demographic Assumptions

<b>Inclusion Date</b>	The valuation date coincident with or next following the date on which the employee becomes a participant.
<b>New or rehired employees</b>	It was assumed there will be no new or rehired employees.
<b>Mortality</b>	Separate rates for non-annuitants and annuitants based on Pri-2012 “Employees” and “Healthy Annuitants” (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).
<b>Disabled mortality</b>	Separate rates for non-annuitants and annuitants based on Pri-2012 “Employees” and “Healthy Annuitants” (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).
<b>Actuarial increases</b>	For terminated vested participants older than the normal retirement age at the valuation date, an age 65 accrued benefit with no actuarial increases is used. Many of these participants are unable to be located or are likely deceased offsetting any required actuarial increases.

Former I.U.E. plan participants are assumed to take a life annuity with 60 monthly payments guaranteed. All other participants are assumed to elect a lump sum.

## **Actuarial increases**

For terminated vested participants older than the normal retirement age at the valuation date and whose final benefit includes non-cash balance benefits (e.g. old plan grandfathered benefits), their age 65 non-cash balance accrued benefit with no actuarial increases is used. Many of these participants are unable to be located or are likely deceased offsetting any required actuarial increases.

## **Percent married**

100%

## **Spouse age**

Wife three years younger than husband

## **Covered pay**

Base pay plus shift differential, overtime, commissions, and non-deferred bonus paid under the Performance Bonus Opportunity Plan

## **Timing of benefit payments**

Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

## Methods

### All Plans

<b>Valuation date</b>	First day of plan year
<b>Funding target</b>	Present value of accrued benefits as required by regulations under IRC §430.
<b>Target normal cost</b>	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
<b>Decrement timing</b>	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
<b>Actuarial value of assets for determining minimum required contributions</b>	<p>Average of the fair market value of assets for the three former plans on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>

## Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Sealed Air Corporation and based on that review, is not aware of any significant benefits required to be valued that were not.

## Sources of Data and Other Information

The WTW pension administration group furnished participant data as of 1/1/2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor or trustee. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

## Assumptions Rationale – Significant Economic Assumptions

### Discount rate

Assumptions used for funding purposes are as prescribed by IRC §430(h).

### Expected return on plan assets

The assumption reflects the plan sponsor's estimate of future experience for trust asset returns, reflecting the plan's current asset allocation and any expected changes during the current plan year, current market conditions and the plan sponsor's expectations for future market conditions.

### Plan-related expenses

As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

### Lump sum conversion rate

Lump sum benefits are valued using the plan's discount rate at measurement date as the assumption for the plan's lump sum conversion rate. We believe the assumption is reasonable and consistent with other economic assumptions used.

**Interest Crediting Rate**      The plan credits interest to cash balance accounts as of the last day preceding the Annuity Starting Date at the annual interest rate equal to the annual yield on 10 Year Treasury Constant Maturities determined for the month of October immediately preceding the year payment begins. After examining historical variability in this rate, as well as expectations on the plan's long term interest credit rate we believe that the selected assumption does not significantly conflict with what would be reasonable based on a combination of market conditions at the measurement date and future expectations consistent with other economic assumptions used, other than the discount rate.

## Assumptions Rationale – Significant Demographic Assumptions

**Healthy Mortality**      Assumptions used for funding purposes are as prescribed by IRC §430(h).

**Disabled Mortality**      Assumptions used for funding purposes are as prescribed by IRC §430(h).

**Termination**      Assumed termination rates are based on plan sponsor expectation for the future with periodic monitoring of patterns different than assumed. Experience study performed in 2006 confirmed reasonability of current assumption.

**Retirement**      Assumed retirement rates are based on plan sponsor expectation for the future with periodic monitoring of patterns different than assumed. Experience study performed in 2006 confirmed reasonability of current assumption.

**Benefit Commencement Age**      Based on plan experience and expectation for the future. Experience study performed in 2006 confirmed reasonability of current assumption.

**Form of payment**      Former IUE participants are assumed to take a life annuity with 60 monthly payments guaranteed. All other participants are assumed to elect a lump sum form of payment under the plan. This is based on actual experience as well as gains/losses observed.

## Source of Prescribed Methods

### Funding methods

The methods used for funding purposes as described herein, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

## Changes in Assumptions and Methods

### Change in assumptions and methods since prior valuation

The following changes in assumptions were made as part of this valuation:

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2022 to September 2023.
- The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest mortality improvement scale, as required by guidance issued by IRS under IRC §430, and the base mortality table was updated to Pri-2012, as required.
- The assumed plan-related expenses added to the target normal cost were changed from \$2,300,000 for 2023 to \$2,500,000 for 2024. The method to determine the assumed plan-related expenses is unchanged.
- The mortality assumption for lump sums based on annuity benefits was updated from the PPA 2023 optional combined unisex mortality table to the PPA 2024 optional combined unisex mortality table.
- The segment interest rates used to calculate lump sum conversions for the funding target and target normal cost were updated from an applicable month of September 2022 to September 2023.
- The interest crediting rate was changed from graduated interest crediting rates with a rate for 2023 of 3.98% and grading from 3.40% in 2024 to 4.00% in 2032 to graduated interest crediting rates with a rate for 2024 of 4.80% and grading from 3.80% in 2025 to 4.25% in 2034.

## Description of Benefits

**Normal retirement benefit** Credited Service multiplied by the dollar amount corresponding to the Participant's Pension Grade as of July 1, in the year preceding termination.

Pension Grade	Benefit Amount
I	\$24.00
II	\$29.00
III	\$32.00

**Early Retirement Benefit** Normal Retirement Benefit calculated with Credited Service and Pension Grade as of Early Retirement Date but reduced by  $\frac{1}{4}$  of 1% for each month or 3% per year by which benefit commencement precedes Normal Retirement Date.

**Late Retirement Benefit** Plan provides a suspension of benefits notice for active participants who are employed past Normal Retirement Age.

**Vested Benefits Upon Termination of Service** Normal Retirement Benefit calculated with Credited Service and Pension Grade as of date of separation from service and payable at Normal Retirement Date.

**Death Benefits for Participants in Active Service** 75% of the Normal Retirement Benefit the participant would have received under the 75% joint and survivor option payable to the participant's eligible spouse.

## Other Plan Provisions

**Forms of payment** Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms include life annuity, 50%, 66 $\frac{2}{3}$ %, 75% and 100% joint and survivor annuities, a 10-year certain and life annuity, and a Level Income Annuity. Lump sums are automatically paid by the plan if under \$5,000. Actuarial equivalence is based on factors specified in the plan document. Lump sum distributions are calculated as specified under Section 417(e) of the Internal Revenue Code.

## **Early Retirement Income Supplement**

An employee who retires after attaining age 60 and completing 30 years of service shall be entitled to a retirement income supplement. The monthly amount of the supplement on a life annuity basis shall be equal to the difference, if any, between 70% of the employee's final average pay, such 70% not to exceed \$900, and the sum of the following amounts:

- (a) The monthly amount of retirement income payable from this Plan under the normal form, regardless of whether benefits are actually paid in that form;
- (b) The monthly amount of retirement income from the retirement account in the Sealed Air Corporation Employees Deferred Profit Sharing and Savings Plan payable in the form of a cash refund life annuity, regardless of whether benefits are actually paid to the employee in that form; and
- (c) The monthly amount of the Primary Social Security Benefit, if any, to which the employee is entitled at the date of his retirement.

The supplement, except as provided below, shall cease upon the employee's death. In the case of an employee not Eligible to receive Social Security benefits at retirement, the supplement shall cease when he becomes eligible to receive a Primary Social Security Benefit; provided, however, that if the supplement is in excess of the Primary Social Security Benefit (determined as of the employee's retirement date), the excess shall continue to be paid to the retired employee.

## **Minimums Under Prior Plan**

There are certain minimum benefits in the plan that are related to the prior plan that was in existence before April 1, 1963. These minimums have not been outlined in the above summary.

## **Maximum on Benefits and Pay**

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for adjusting the dollar limits automatically as such changes become effective.

## Description of Benefits

### Amount of Benefits – Cash Balance Formula

The cash balance accounts equal to the sum of (a), (b), and (c) below:

**(a) Initial Balance** – The initial balance was determined for each participant as of January 1, 1998 as the sum of two items. First, the present value of the participant's single life annuity determined under the Grandfather Benefit (final average pay) formula, commencing at age 62. Second, an additional amount equal to the participant's years of service as of December 31, 1997 (maximum of 20 years) multiplied by the participant's December 31, 1997 annualized rate of base pay multiplied by a percentage based on the participant's age as of December 31, 1997. The percentages range from 1.0% for ages 25 and less, to 3.5% for ages 50 and older.

**(b) Annual Service Credits** – As of December 31, 2008, future benefit accruals under the Retirement Plan for Employees of Sealed Air Corporation ceased. Before this date, annual service credits were calculated as follows:

At each December 31, a participant's cash balance account will be credited with an amount equal to 5% of the participant's pay up to the Social Security Wage Base for that year, plus 10% of the participant's pay in excess of the Social Security Wage Base.

Phased-In Contribution Credit for 2004 and 2005. Former employees of DiverseyLever Inc. who are employed by Diversey Subsidiary #1 LLC and became eligible to participate in the Plan as of January 1, 2004, former employees of The Butcher Company and Prism Sanitation Management LLC who became eligible to participate in the Plan as of January 1, 2004, and employees of the Company, Johnson Polymer, Inc. and U.S. Chemical Corporation hired after September 1, 2003 and prior to January 1, 2006, shall be eligible for an annual service credit phased-in for 2004 and 2005 in an amount determined as follows:

(i) As of December 31, 2004, an amount equal to 3% of such Participant's Pay up to the Social Security Wage Base for 2004, plus 6% of the Participant's Pay in excess of that amount; and

(ii) As of December 31, 2005, an amount equal to 4% of the Participant's Pay up to the Social Security Wage Base for that year, plus 8% of the Participant's Pay in excess of that amount.

**Amount of Benefits – Cash  
Balance Formula  
(continued)**

**(c) Annual Earnings Credit** – At each December 31, a participant's cash balance account will be credited with earnings equal to the annual yield on 10-year U.S. Treasury Constant Maturities determined for the month of October immediately preceding the plan year.

Prior to December 31, 2008 a participant's pre-2004 cash balance account was credited with earnings equal to the greater of (a) 75% of the return on plan assets or (b) 4.00% and a participant's Post-2003 cash balance account was credited with earnings equal to the annual yield on 10 year U.S. Treasury Constant Maturities as reported in the Federal Reserve Bulletin as the average annual yield as of that December 31.

**Covered Pay**

As of December 31, 2008, benefit accruals under the plan ceased, before that date pay used in determining the annual service credits was defined to be the sum of the following amounts: basic compensation, commissions, shift differential, overtime, and non-deferred bonuses under the Performance Bonus Opportunity Plan.

**Lump Sum Conversion**

Actuarial equivalent basis will be used for purposes of determining the lump sum cash equivalent of an annuity and for purposes of determining the monthly amount of an immediate single life annuity equivalent of a participant's Cash Balance Account.

**Amount of Benefits - Old  
Plan Grandfather Formula**

The plan provisions described below are only applicable to employees who were actively employed on any date between January 1, 1998 and June 1, 1998. These employees will receive the greater of the cash balance benefit or the old plan benefit described below for terminations or retirements until December 31, 2008. The old plan benefit was frozen as of December 31, 2008 but will continue to serve as a minimum benefit for eligible participants.

## Normal Retirement

- (1) For service prior to January 1, 1975, the amount of monthly retirement income shall be the greater of:
  - (a) 0.8% of final average pay for each such year of service; or
  - (b) 25% of final average pay reduced by 2% for each point that total points are less than 100, multiplied by the ratio of service prior to January 1, 1975 to total years of service.
- (2) For service after December 31, 1974, the monthly benefit shall be 1-3/4% of final average pay for each such year of service reduced by 1-2/3 % of the employee's Primary Social Security Benefit for each such year of service up to 30 years. Social Security is the amount commencing at age 62, or if retirement occurs after age 62, the Social Security benefit is the amount commencing at the later age.

## Early Retirement

Normal retirement benefit computed above based on years of service and final average pay to early retirement date; reduced by 4% per year for each year and fractional year that early retirement date precedes age 62. The amount under (2) above shall not be less than the benefit would be if it were determined based on potential service at 65, level pay to age 65, and the Social Security benefit at age 65, multiplied by the ratio of actual service at retirement since December 31, 1974 to potential service at age 65 since December 31, 1974.

## Late retirement

Plan provides a suspension of benefits notice for active participants who are employed past Normal Retirement Age.

## Cost-of-living Adjustment

The monthly retirement benefit will be adjusted annually beginning January 15, 1971, based on the latest Consumer Price Index subject to the following limitations:

The adjustment will apply only to the first \$500 of the monthly retirement benefit.

The increase or decrease will be limited to a maximum of 3% per year. If the Consumer Price Index changes more than 3% in one year, however, the excess can be carried forward and applied in succeeding years.

The benefit will never be reduced below the original amount which is paid at the time of retirement.

## **Vested Termination**

An employee with three or more years of covered service who terminated prior to his early retirement date shall be entitled to receive a vested retirement benefit. The monthly amount shall be determined in the same manner as the early retirement benefit for anyone terminating with ten or more years of service. Anyone with less than 10 years of service at termination will have actuarial equivalence reductions applied for early commencement.

## **Surviving Spouse**

Surviving Spouse Benefit payable for life to surviving spouse equal to benefit spouse would have been entitled to receive if the deceased employee had retired on the day preceding the date of death, and had elected a joint and survivor annuity option under which 2/3 of the monthly benefit payable to the employee would be payable to the joint annuitant. Benefit will not be payable before employee would have attained age 50.

Such benefit may also be paid under the Social Security Adjustment Option.

## **Surviving Covered Dependent**

Surviving Covered Dependent Benefit payable for life to surviving covered dependent equal to 40% of the benefit the employee would have been entitled to receive on the day preceding the date of death. Payments shall be divided equally among each covered dependent until such person ceases to qualify as a covered dependent.

## Vested Benefit

**Benefit Payable at Normal Retirement Date:** The Accrued Benefit determined at date of termination.

**Early Commencement of Benefits:** The Benefit Payable at Normal Retirement is payable upon request as early as age 55 if the participant has 10 years of vesting service, reduced for early commencement as described in the Early Retirement Benefit section above.

## Pre-Retirement Death Benefit

A pension beginning on the spouse's benefit commencement date and payable for the life of the spouse. The spouse's benefit commencement date is the latest of (a) the first day of the month following the participant's death, (b) the earliest date on which the participant could have elected to begin receiving a pension and (c) the first day of any month following the later of (a) and (b) that the spouse elects, but not later than the participant's Normal Retirement Date. The amount of the spouse's pension is 50% of the pension (based on the pension accrued by the participant at death) that would have been payable to the participant commencing on the spouse's benefit commencement date under the normal form of payment applicable to a married participant with 60 monthly payments guaranteed.

## Post-Retirement Death Benefit

As provided by the normal form of payment or by the election of an optional form of payment.

## Other Plan Provisions

## Schedule SB, Line 22 Description of Weighted Average Retirement Age as of January 1, 2024

The Sealed Air Corporation Combined Pension Plan contains multiple employee groups. The final weighted-average retirement age reported on Line 22 for the plan was calculated by weighting the calculated retirement age determined for each group with different retirement rates by the number of active participants in those groups as shown in "Schedule SB, Part V – Statement of Actuarial Assumptions and Methods".

The detailed description of the exact rates that apply at each age for each group for the various categories is contained in the attachment "Schedule SB, Part V – Statement of Actuarial Assumptions and Methods"

The following page shows a sample calculation of the weighted-average retirement age for the largest group, the "Legacy Restoration" group. In computing the weighted-average retirement age, the weight applied to each age is (a)/(b), where (a) and (b) are defined as follows:

(a) The number of participants expected to retire at the retirement age to which the weight is being applied.

The number of participants expected to retire is estimated by applying the assumed rates of decrement to the current active population.

(b) The total number of participants expected to retire. The number of participants expected to retire is estimated by applying the assumed rates of decrement to the current active population.

## Description of Benefits

**Normal retirement benefit** Credited Service multiplied by the dollar amount corresponding to the Participant's Pension Grade as of July 1, in the year preceding termination.

Pension Grade	Benefit Amount
I	\$24.00
II	\$29.00
III	\$32.00

**Early Retirement Benefit** Normal Retirement Benefit calculated with Credited Service and Pension Grade as of Early Retirement Date but reduced by  $\frac{1}{4}$  of 1% for each month or 3% per year by which benefit commencement precedes Normal Retirement Date.

**Late Retirement Benefit** Plan provides a suspension of benefits notice for active participants who are employed past Normal Retirement Age.

**Vested Benefits Upon Termination of Service** Normal Retirement Benefit calculated with Credited Service and Pension Grade as of date of separation from service and payable at Normal Retirement Date.

**Death Benefits for Participants in Active Service** 75% of the Normal Retirement Benefit the participant would have received under the 75% joint and survivor option payable to the participant's eligible spouse.

## Other Plan Provisions

**Forms of payment** Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms include life annuity, 50%, 66 $\frac{2}{3}$ %, 75% and 100% joint and survivor annuities, a 10-year certain and life annuity, and a Level Income Annuity. Lump sums are automatically paid by the plan if under \$5,000. Actuarial equivalence is based on factors specified in the plan document. Lump sum distributions are calculated as specified under Section 417(e) of the Internal Revenue Code.

## **Early Retirement Income Supplement**

An employee who retires after attaining age 60 and completing 30 years of service shall be entitled to a retirement income supplement. The monthly amount of the supplement on a life annuity basis shall be equal to the difference, if any, between 70% of the employee's final average pay, such 70% not to exceed \$900, and the sum of the following amounts:

- (a) The monthly amount of retirement income payable from this Plan under the normal form, regardless of whether benefits are actually paid in that form;
- (b) The monthly amount of retirement income from the retirement account in the Sealed Air Corporation Employees Deferred Profit Sharing and Savings Plan payable in the form of a cash refund life annuity, regardless of whether benefits are actually paid to the employee in that form; and
- (c) The monthly amount of the Primary Social Security Benefit, if any, to which the employee is entitled at the date of his retirement.

The supplement, except as provided below, shall cease upon the employee's death. In the case of an employee not Eligible to receive Social Security benefits at retirement, the supplement shall cease when he becomes eligible to receive a Primary Social Security Benefit; provided, however, that if the supplement is in excess of the Primary Social Security Benefit (determined as of the employee's retirement date), the excess shall continue to be paid to the retired employee.

## **Minimums Under Prior Plan**

There are certain minimum benefits in the plan that are related to the prior plan that was in existence before April 1, 1963. These minimums have not been outlined in the above summary.

## **Maximum on Benefits and Pay**

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for adjusting the dollar limits automatically as such changes become effective.

## Description of Benefits

### Amount of Benefits – Cash Balance Formula

The cash balance accounts equal to the sum of (a), (b), and (c) below:

**(a) Initial Balance** – The initial balance was determined for each participant as of January 1, 1998 as the sum of two items. First, the present value of the participant's single life annuity determined under the Grandfather Benefit (final average pay) formula, commencing at age 62. Second, an additional amount equal to the participant's years of service as of December 31, 1997 (maximum of 20 years) multiplied by the participant's December 31, 1997 annualized rate of base pay multiplied by a percentage based on the participant's age as of December 31, 1997. The percentages range from 1.0% for ages 25 and less, to 3.5% for ages 50 and older.

**(b) Annual Service Credits** – As of December 31, 2008, future benefit accruals under the Retirement Plan for Employees of Sealed Air Corporation ceased. Before this date, annual service credits were calculated as follows:

At each December 31, a participant's cash balance account will be credited with an amount equal to 5% of the participant's pay up to the Social Security Wage Base for that year, plus 10% of the participant's pay in excess of the Social Security Wage Base.

Phased-In Contribution Credit for 2004 and 2005. Former employees of DiverseyLever Inc. who are employed by Diversey Subsidiary #1 LLC and became eligible to participate in the Plan as of January 1, 2004, former employees of The Butcher Company and Prism Sanitation Management LLC who became eligible to participate in the Plan as of January 1, 2004, and employees of the Company, Johnson Polymer, Inc. and U.S. Chemical Corporation hired after September 1, 2003 and prior to January 1, 2006, shall be eligible for an annual service credit phased-in for 2004 and 2005 in an amount determined as follows:

(i) As of December 31, 2004, an amount equal to 3% of such Participant's Pay up to the Social Security Wage Base for 2004, plus 6% of the Participant's Pay in excess of that amount; and

(ii) As of December 31, 2005, an amount equal to 4% of the Participant's Pay up to the Social Security Wage Base for that year, plus 8% of the Participant's Pay in excess of that amount.

**Amount of Benefits – Cash Balance Formula (continued)**

**(c) Annual Earnings Credit** – At each December 31, a participant's cash balance account will be credited with earnings equal to the annual yield on 10-year U.S. Treasury Constant Maturities determined for the month of October immediately preceding the plan year.

Prior to December 31, 2008 a participant's pre-2004 cash balance account was credited with earnings equal to the greater of (a) 75% of the return on plan assets or (b) 4.00% and a participants Post-2003 cash balance account was credited with earnings equal to the annual yield on 10 year U.S. Treasury Constant Maturities as reported in the Federal Reserve Bulletin as the average annual yield as of that December 31.

**Covered Pay**

As of December 31, 2008, benefit accruals under the plan ceased, before that date pay used in determining the annual service credits was defined to be the sum of the following amounts: basic compensation, commissions, shift differential, overtime, and non-deferred bonuses under the Performance Bonus Opportunity Plan.

**Lump Sum Conversion**

Actuarial equivalent basis will be used for purposes of determining the lump sum cash equivalent of an annuity and for purposes of determining the monthly amount of an immediate single life annuity equivalent of a participant's Cash Balance Account.

**Amount of Benefits - Old Plan Grandfather Formula**

The plan provisions described below are only applicable to employees who were actively employed on any date between January 1, 1998 and June 1, 1998. These employees will receive the greater of the cash balance benefit or the old plan benefit described below for terminations or retirements until December 31, 2008. The old plan benefit was frozen as of December 31, 2008 but will continue to serve as a minimum benefit for eligible participants.

## Normal Retirement

- (1) For service prior to January 1, 1975, the amount of monthly retirement income shall be the greater of:
  - (a) 0.8% of final average pay for each such year of service; or
  - (b) 25% of final average pay reduced by 2% for each point that total points are less than 100, multiplied by the ratio of service prior to January 1, 1975 to total years of service.
- (2) For service after December 31, 1974, the monthly benefit shall be 1-3/4% of final average pay for each such year of service reduced by 1-2/3 % of the employee's Primary Social Security Benefit for each such year of service up to 30 years. Social Security is the amount commencing at age 62, or if retirement occurs after age 62, the Social Security benefit is the amount commencing at the later age.

## Early Retirement

Normal retirement benefit computed above based on years of service and final average pay to early retirement date; reduced by 4% per year for each year and fractional year that early retirement date precedes age 62. The amount under (2) above shall not be less than the benefit would be if it were determined based on potential service at 65, level pay to age 65, and the Social Security benefit at age 65, multiplied by the ratio of actual service at retirement since December 31, 1974 to potential service at age 65 since December 31, 1974.

## Late retirement

Plan provides a suspension of benefits notice for active participants who are employed past Normal Retirement Age.

## Cost-of-living Adjustment

The monthly retirement benefit will be adjusted annually beginning January 15, 1971, based on the latest Consumer Price Index subject to the following limitations:

The adjustment will apply only to the first \$500 of the monthly retirement benefit.

The increase or decrease will be limited to a maximum of 3% per year. If the Consumer Price Index changes more than 3% in one year, however, the excess can be carried forward and applied in succeeding years.

The benefit will never be reduced below the original amount which is paid at the time of retirement.

## **Vested Termination**

An employee with three or more years of covered service who terminated prior to his early retirement date shall be entitled to receive a vested retirement benefit. The monthly amount shall be determined in the same manner as the early retirement benefit for anyone terminating with ten or more years of service. Anyone with less than 10 years of service at termination will have actuarial equivalence reductions applied for early commencement.

## **Surviving Spouse**

Surviving Spouse Benefit payable for life to surviving spouse equal to benefit spouse would have been entitled to receive if the deceased employee had retired on the day preceding the date of death, and had elected a joint and survivor annuity option under which 2/3 of the monthly benefit payable to the employee would be payable to the joint annuitant. Benefit will not be payable before employee would have attained age 50.

Such benefit may also be paid under the Social Security Adjustment Option.

## **Surviving Covered Dependent**

Surviving Covered Dependent Benefit payable for life to surviving covered dependent equal to 40% of the benefit the employee would have been entitled to receive on the day preceding the date of death. Payments shall be divided equally among each covered dependent until such person ceases to qualify as a covered dependent.

## Other Plan Provisions

<b>Normal Form of Annuity</b>	<b>No spouse</b> – Life annuity.  <b>With spouse</b> – Joint and survivor annuity actuarially equivalent to the five-year certain and life benefit payable to participant. In event of participant's death, 50% of reduced benefit is payable to surviving spouse.
<b>Optional Forms of Payment</b>	66.67%, 75% and 100% joint and survivor options, 5-year, 10-year, 15-year, and 20-year certain and life options, lump sum and Social Security adjustment option.
<b>Employee's Voluntary Contributions</b>	Employees could have made voluntary contributions up to January 1, 1985, of 1 % to 10% of base pay to provide an additional benefit at retirement. The value of these contributions as of January 1, 1985 was transferred to the Sealed Air Corporation Employees' Deferred Profit Sharing and Savings Plan.

## Future plan changes
