INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee
ProTec Building Services 401(k) Plan
San Diego, California

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of ProTec Building Services 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the financial statements referred to above, related to assets which provide benefits under the plan and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material, if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4a – Schedule of Delinquent Participant Contributions for the year ended December 31, 2023 and Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets which provide benefits under the plan and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 – Description of the Plan

The following description of the ProTec Building Services 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering substantially all employees of ProTec Association Services dba ProTec Building Services (Company) who have completed 90 days of service. Leased employees are not eligible to participate in the Plan. The Plan engages Voya Retirement Insurance and Annuity Company (Voya) to hold and invest Plan assets, execute Plan transactions, and provide Plan compliance and administrative services. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Company is the Plan's Sponsor, serves as the Plan Administrator, and is responsible for oversight of the Plan.

Contributions
Each year, participants may contribute a portion of their annual compensation, as defined in the Plan, into a pre-tax deferral account and/or an after-tax Roth account subject to the limits set by the Internal Revenue Service (IRS). Participants may also contribute amounts representing distributions (rollovers) from other qualified plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

Participants are automatically enrolled in the Plan at a deferral rate of 4% of eligible wages. The automatic enrollment can be declined by the employee upon request by the employee to change the deferral percentage to zero. Additionally, participants' deferrals automatically increase by 1% annually to a maximum of 10%.

The Company may elect to make a discretionary matching contribution; however, no such contribution was made or declared for the periods presented. Participants who make deferral contributions are eligible for the employer match. Contributions are subject to certain regulatory limitations.

Investment Elections
Participants direct the investment of their and the Company's contributions into various investment options offered by the Plan that are designated by the Plan's Administrative Committee. If no election is made, participants' contributions are placed into a target retirement fund, the Plan designated default investment, based on the participant's projected retirement age. Participants can change their investment elections daily.

Participant Accounts
Each participant's account is credited with the participant's contribution, allocations of the Company's contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses and any related transaction fees for loans and distributions that are paid by the Plan. Allocations are made based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately vested in their deferrals, plus actual earnings thereon. Vesting in the Company's matching contribution plus actual earnings thereon is based on years of continuous service and occurs gradually. A participant is partially vested at the end of 1 year of credited service and is 100% vested after 5 years of credited service. A participant becomes fully vested in the entire balance of his or her account upon attainment of normal retirement age, permanent disability, death or termination of the Plan.

Note 1 – Description of the Plan, continued

Payment of Benefits
On termination of service due to any reason, participants with vested account balances of $1,000 or less receive an automatic lump-sum distribution, unless the participant requests that it be rolled-over to an Individual Retirement Account (IRA) provider or another qualified retirement plan. Participants with vested account balances of less than $5,000 and more than $1,000 receive an automatic distribution to an IRA. Participants with vested account balances of $5,000 or more may elect to receive their benefits in any way permitted by the Plan, choose to rollover their balance into another qualified retirement plan or IRA, or leave their balance in the Plan. Participants may also take in-service and hardship distributions subject to the terms of the Plan and IRS regulations.

Notes Receivable from Participants
The Plan allows participants to borrow against their vested account balances. Loans may not be made for less than $1,000 and may not exceed the lesser of $50,000 or 50% of a participant's vested account balance. The loans are secured by the balance in the participant's account. The interest rate for loans is prime plus 1% as of the date the loan is processed. Participants may only have one loan outstanding at a time. Principal and interest are paid ratably through payroll deductions, ACH or by check over a period not to exceed five years unless the proceeds were used for the purchase of a principal residence.

Forfeited Accounts
Generally, a participant's unvested portion of the Company's matching contribution is forfeited upon termination of employment. Forfeitures are maintained in a separate account and can be in any way permitted by the Plan.

At December 31, 2023 and 2022 there were no forfeited nonvested accounts. During the year ended December 31, 2023, no forfeitures were used.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and expensed as they are incurred. No allowance for credit losses has been recorded as of December 31, 2023 and 2022. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Note 2 – Summary of Significant Accounting Policies, continued

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. The Plan permits the payment of Plan expenses to be made from the Plan's assets. Fees are charged to participants on a pro rata basis, equally to participant accounts, or to a participants account for transactions specifically related to that participant.

Certain investment management fees and other charges paid to Voya are offset against fund performance in the net appreciation in fair value of investments on the statement of changes in net assets available for benefits and are not, therefore, separately reflected as administrative expenses. Certain Plan expenses are paid directly by the Company and therefore are excluded from these financial statements.

Risks and Uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events
The Plan has evaluated subsequent events through August 29, 2024, the date the financial statements were available to be issued.

Contributions
Contributions from Plan participants and contributions from the Company, if applicable, are recorded in the year in which the employee contributions are withheld from compensation.

Note 3 – Certified Information

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments held at December 31, 2023 and 2022, and net appreciation in fair value of investments for the year ended December 31, 2023, was obtained by management and agreed to or derived from information certified as complete and accurate by Voya Retirement Insurance and Annuity Company, the Custodian of the Plan.

Note 4 – Tax Status

The IRS has determined and informed by a letter for the prototype plan adopted by the Plan, dated June 30, 2020 that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has not requested its own determination letter from the IRS. The Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 – Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: 1) quoted prices for similar assets or liabilities in active markets; 2) quoted prices for identical or similar assets or liabilities in inactive markets; 3) inputs other than quoted prices that are observable for the asset or liability; 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Pooled Separate Accounts (PSA): PSA's invest in a variety of domestic stock, international stocks, mutual funds, bonds and other securities. The majority of the underlying securities have observable level 1 quoted pricing inputs. While the underlying asset values are generally based on publicly quoted prices, the net asset value (NAV) of each separate PSA is not valued using publicly quoted prices. The NAV provided by the fund managers is used as the practical expedient to estimate fair value. PSA's can be redeemed on a daily basis and each PSA has its own investment strategy. Participants should refer to the individual PSA's prospectus for a more complete description of the PSA and its investment strategy.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value:

	Investments at Fair Value as of December 31, 2023			
	Level 1	Level 2	Level 3	Total
Investments measured at NAV	$ -	$ -	$ -	$ 4,132,954
Total investments at fair value	$ -	$ -	$ -	$ 4,132,954

	Investments at Fair Value as of December 31, 2022			
	Level 1	Level 2	Level 3	Total
Investments measured at NAV	$ -	$ -	$ -	$ 2,986,224
Total investments at fair value	$ -	$ -	$ -	$ 2,986,224

Note 5 – Fair Value Measurement, continued

In accordance with Subtopic 820-10, certain investments listed above that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line item presented in the statements of net assets available for benefits. The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient.

December 31, 2023	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled Separate Accounts	$4,132,954	N/A	Daily	N/A

December 31, 2022	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled Separate Accounts	$2,986,224	N/A	Daily	N/A

The investment strategies for the funds are as follows:

Bond Funds
Assets are invested in fixed income securities that have been determined to be appropriate for its investment goal. Investors here are primarily seeking income or growth of income, with less emphasis on capital appreciation. Funds in this asset class vary greatly in their risk profiles. The issuer, credit quality of the underlying investments, and the average duration of the portfolio play important roles in determining the risk profile of the fund. Fixed-income funds, those that have significant investments in below-investment grade bonds, ("junk bonds") or bonds of foreign issuers would be categorized as high yield or international bonds. Portfolios consisting of investment grade corporate bonds, mortgages, government bonds and, to a lesser degree, preferred stock, foreign or convertible bonds typically land in the intermediate term bond category. Shorter duration and high credit quality funds are typically categorized as short term bond or short term government funds.

Asset Allocation
These funds are also known as "LifeStyle" or "LifeCycle" funds. They invest in a combination of assets such as aggressive stocks, international stocks, large-company stocks, government bonds, foreign bonds or money markets. The allocation percentage to each asset type may be fixed, bounded by a range, or determined at the discretion of the manager. Managers of these funds review market conditions regularly and refine the asset allocation mixture they believe will achieve the best risk adjusted performance based on the stated objectives and "target" allocations of the particular fund. Different constructs can be based on risk tolerance or length of time to investment goal.

Balanced
These funds seek to "balance" growth of principal and current income by investing in a combination of stocks and bonds (generally holding 60-70% equity and 30-40% fixed income). The investment style used here is either moderate allocation or conservative allocation. Some funds have fixed asset allocations and others allow managers discretion to allocate between equities and bonds, depending on their view of return and risk.

Large Cap Value/Blend
These funds seek long-term growth of capital or a combination of growth and income by investing primarily in stocks of larger, mature companies. The investment styles exhibited are value and "blend." Stocks are selected for price appreciation and for the value of the current income provided through dividends. These funds generally exhibit a lower level of price volatility, due to the types of companies they favor, such as those able to pay dividends along with older, more mature companies.

Note 5 – Fair Value Measurement, continued

Large Cap Growth
Large cap growth funds invest primarily in stocks of larger U.S. companies employing an investment style of growth. A growth fund invests in the stocks of companies that are growing rapidly. Growth companies tend to reinvest all or most of their profits for research and development rather than pay dividends. Growth funds are focused on generating capital gains rather than income. Funds emphasizing growth stocks will typically have higher price/earnings ratios and make little or no dividend payments. Large capitalization companies tend to be more established, with lower relative volatility, than more aggressive small and mid-cap stock funds.

Small, Mid, Specialty
Small cap, mid cap and "specialty" funds are in this category, employing investment styles of growth, value, or a blend of growth and value. These funds seek capital appreciation by investing primarily in stocks of small and medium-sized companies. Generally, these companies are striving to develop new products or markets and have above-average earnings growth potential. Because of their smaller size, these companies may face greater business risk, and investments in these funds generally carry much higher risk than other domestic equity funds. "Specialty" or "sector" funds invest in stocks of companies in a particular industry. This narrow focus can significantly increase the risk and volatility of such funds.

Global and International
There are three main types of funds in this category. International funds can have an investment style of Foreign Large Value, Foreign Large Blend, Foreign Large Growth, Foreign Small/Mid Value or Foreign Small/Mid Growth. These funds invest in stocks of companies outside of the United States. Global funds have an investment style of World Stock. These funds invest in stocks of companies in the United States and developed countries outside of the United States. Emerging Markets funds invest in securities of developing countries and demonstrate the greatest volatility of performance due to the unstable nature of their economies, political structures and currencies. International investing may provide greater diversification benefits to a U.S.-based portfolio than investing in domestic securities alone. However, foreign investing does involve additional risks not present in U.S. securities.

Note 6 – Related-Party and Party-in-Interest Transactions

Certain Plan investments and notes receivables from participants are managed by Voya Retirement Insurance and Annuity Company. Voya Retirement Insurance and Annuity Company is the Custodian as defined by the Plan and, therefore, these transactions are considered to be exempt party-in-interest transactions. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to service providers. Loans to participants also qualify as party-in-interest transactions.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions, if any.

Note 8 – Delinquent Employee Deferral Transmittal

During the years ended December 31, 2023, 2022 and 2021, the Company erroneously failed to remit certain employee deferrals and loan payments totaling $1,008, $57,612 and $269, respectively, to the Plan in the time period described in 29 CFR 2510.3-102. The Company will make a corrective contribution for lost earnings and will complete any other corrective actions as needed.

Note 9 – Guaranteed Investment Contract

The Plan invests in the Voya Fixed Interest Account (the Contract), which is a fully benefit-responsive investment contract with Voya. Contract value is the relevant measure for a fully benefit-responsive investment contract because this is the amount received by participants if they initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Voya, represents contributions made under the Contract, plus earnings, less participant withdrawals and administrative expenses.

Voya maintains the contributions for the Contract in a general account. The general account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate guaranteed to the Plan. The contract value of the Contract was $83,301 and $67,638 at December 31, 2023 and 2022, respectively. There are no reserves against the contract value for credit risk of the contract issuers or otherwise. The crediting interest rate is based on the earnings of the underlying assets in the entire portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Interest crediting rate is reset quarterly.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

The Contract does not specify any events which would limit the ability of the Plan to transact at contract value with the issuer or any events which would allow the issuer to terminate the Contract and settle for an amount different from contract value. The Contract provides payment options of the contract value for surrendering the Contract; however, the Company does not intend to surrender the Contract.

Note 10 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to the net assets per the Form 5500 at December 31:

	2023	2022
