INDEPENDENT AUDITOR'S REPORT

To The Albertsons Companies Retirement Benefit Plan Committee

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The Vons Companies, Inc. Pharmacists' 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

THE VONS COMPANIES, INC. PHARMACISTS' 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2024 AND 2023, AND FOR THE YEAR ENDED DECEMBER 31, 2024

1. DESCRIPTION OF THE PLAN

The following description of The Vons Companies, Inc. Pharmacists' 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Summary Plan Description for more complete information about the Plan's provisions. The following description reflects all Plan amendments through December 31, 2024. The Plan Sponsor is Vons Companies, Inc. (the "Company" or "Vons"), which is a wholly-owned subsidiary of Safeway Inc., a wholly-owned subsidiary of Albertsons Companies, Inc.

General - The Plan is a defined contribution plan, which generally covers eligible employees of Vons who are age 21 or older. Eligible employees are defined as any non-probationary pharmacist (i.e. full-time pharmacist who has been employed at least 45 days and any part-time pharmacist who has either been employed at least 60 days or has worked at least 261 hours for the Company, whichever occurs first) who is employed by Vons and who is a member of the United Food and Commercial Workers International Union. Any employee meeting the eligibility requirements, including having attained the age of 21, may enroll in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Albertsons Companies Retirement Benefit Plans Committee (the "Committee") controls and manages the operation and administration of the Plan. The Plan uses Fidelity Management Trust Company (Fidelity) as trustee and Fidelity Workplace Services, LLC as recordkeeper.

The Plan document was restated effective January 1, 2024 to include all prior amendments made to the 2018 restatement, and make additional changes required by the Setting Every Community Up for Retirement Enhancement 2.0 Act of 2022 ("SECURE 2.0").

Contributions - Participants may elect to contribute between 1% and 75% of their eligible pay in the form of pre-tax and Roth salary reduction contributions, up to a maximum contribution of \$23,000 for 2024 and \$22,500 for 2023, according to limitations under the Internal Revenue Code (the "Code"). Participants may also elect an automatic increase in their deferral contributions from 1% to 3%. Participant pre-tax contributions are not currently taxable to participants pursuant to Section 401(k) of the Code.

Participants age 50 or over by the end of the applicable Plan year are eligible to contribute additional catch-up contributions of \$7,500 for 2024 and 2023 to their 401(k) account before the end of the Plan year. Catch-up contributions may be in the form of pre-tax and/or Roth salary reduction contributions. The Company's annual matching contribution is funded by Albertsons Companies, Inc. on behalf of the Company.

The Company makes an annual matching contribution equal to the lesser of (a) 50% of the employee's contributions for the Plan year; (b) \$1,000; or (c) for any participant who works less than 1,800 straight-time hours in the Plan year, a pro rata portion of \$1,000 based on hours worked.

Investment Options - Participants may direct their Plan accounts in any one or combination of investment funds. The Plan's current investment offerings include registered investment companies, common collective trusts, separately managed accounts and the Interest Income Fund. Participants may change their investment options on a daily basis.

Allocations and Vesting - Earnings on amounts held in the investment funds are allocated to individual accounts daily, based on the proportion each account bears to the total of all account balances in the specific

investment fund. Participants are 100% vested in their contributions and elective deferrals. Participants vest in the Company's matching contributions made for Plan years commencing prior to January 1, 2004, as follows:

<u>Years of Vesting Service</u>	<u>Percentage Vested</u>
Less than 3	0 %
3	20 %
4	40 %
5	60 %
6	80 %
7 or more	100 %

Participants vest in the Company's matching contributions made for Plan years commencing on or after January 1, 2004, as follows:

<u>Years of Vesting Service</u>	<u>Percentage Vested</u>
Less than 2	0 %
2	20 %
3	40 %
4	60 %
5	80 %
6 or more	100 %

Participant Accounts - Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, an allocation of the Company's matching contributions (as applicable), an allocation of Plan earnings, and charged with administrative expenses and investment and management fees as outlined within the Plan document. Allocations are based on participant earnings or contributions as defined. The benefit to which a participant is entitled is the value of the participant's vested account.

Notes Receivable from Participants - Participants may borrow a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. The loan term cannot exceed five years, except where the loan is issued to purchase a primary residence, in which case the loan period may extend to 15 years. Loans are secured by the balance in the participant's account. The interest rate charged on participant loans shall be a fixed reasonable rate of interest, determined from time to time by the Committee, which provides the Plan with a return commensurate with the prevailing interest rate charged by persons in the business of lending money for loans which would be made under similar circumstances. Principal and interest payments are made through payroll deductions. Participants may make loan payments directly to the recordkeeper after termination of employment, after transfer to another plan within the Company's control group or when paying off the loan outside of the payroll system. Participants may have a maximum of two outstanding loans, one general purpose and one principal residence, and are charged a loan application fee of \$75.00. As of December 31, 2024, participant loans have maturities through 2038, with interest rates ranging from 4.25% to 9.5%. Participant loans are held by the Plan outside of the Albertsons Companies Master Trust (the "Master Trust").

In-Service Withdrawals - An active or inactive participant may withdraw all or any portion of their rollover account or ESOP dividend account, if applicable, at any time. The Plan also provides for in-service withdrawals for participants who are age 59 1/2. The Plan also permits an active or inactive participant to take a hardship withdrawal if there is an immediate and significant financial need. In addition, certain participants on military service may take an in-service qualified reservist distribution of all or any portion of their 401(k) account, in accordance with guidance from the Internal Revenue Service ("IRS").

Payment of Benefits - Upon termination of employment, a participant may elect (a) to leave the balance of his or her account in the Plan until April 1 of the year following the year in which the participant turns age 73, (b) to receive an immediate lump sum distribution as cash or as a rollover to another qualified plan or Individual Retirement Account ("IRA"), (c) to receive a portion in an immediate lump sum and the remainder to be distributed later, or (d) to receive a series of payments over a period not to exceed the joint life expectancy of the participant and his or her beneficiary. If a participant's balance is \$1,000 or less, and the participant does not elect a distribution of funds as a direct rollover or to be payable to the participant, the account will be distributed in accordance with Plan provisions to be payable to the participant, subject to income tax withholding. If the participant's balance is \$5,000 or less but greater than \$1,000, and the participant does not elect a distribution of funds as a direct rollover or to be payable to the participant, the account will be automatically rolled over into an IRA designated by the Plan Administrator in accordance with Plan provisions.

Plan Termination - Although the Company has not expressed any intent to terminate the Plan, it may do so at any time, subject to the provisions set forth in ERISA. In the event of termination of the Plan, the assets of the Plan would be distributed to the participants in accordance with the value of their individual investment accounts.

Forfeited Accounts - When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. The Plan document permits the use of forfeitures to either reduce future employer contributions or pay Plan administrative expenses for the Plan year. However, if a participant is reemployed and fulfills certain requirements, as defined in the Plan document, the account will be reinstated using forfeitures (if any). At December 31, 2024 and 2023, forfeited nonvested accounts totaled \$52,160 and \$39,174, respectively. During 2024, there were no Company contribution reductions from forfeited nonvested accounts.

Subsequent Events - Subsequent events were evaluated through October 10, 2025, the date the financial statements were available to be issued. The Plan was amended in 2025 to reflect certain optional distribution provisions under SECURE 2.0, including federal disaster distributions and domestic abuse distributions. No other events occurred that require additional disclosures or adjustments to the Plan's financial statements.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Investment Valuation and Income Recognition - A portion of the Plan's investments are held in a Master Trust that was established for the investment of assets of the Plan and another Albertsons Companies, Inc sponsored retirement plan. Each participating retirement plan has an undivided interest in the master trust. The Master Trust's investments are stated at fair value, except for fully benefit-responsive synthetic guaranteed investment contracts (GICs), which are reported at contract value. The fair value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust, plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses, plus or minus changes in unrealized gains and losses. As of December 31, 2024 and 2023, the Plan's interest in the net assets of the Master Trust were approximately 1.7% and 1.6%, respectively.

Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). Contract value is the amount Plan participants would receive if they were to initiate permitted transactions under the terms of the Plan. See Note 4 for discussion on master trust financial information.

Purchases and sales of securities are recorded on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in mutual funds, common collective trusts and the Interest Income Fund are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment returns for such investments.

Contributions - Employee contributions are recorded when withheld and employer matching contributions are recorded when the associated employee contributions are recorded.

Payment of Benefits - Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of participants who have elected to withdraw from the Plan, but have not yet been paid at December 31, 2024 and 2023.

Notes Receivable from Participants - Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Excess Contributions Payable - The Plan is required to return contributions received during the Plan year in excess of the Code's limits.

Administrative Expenses - Administrative expenses of the Plan are paid by the Plan or the Plan Sponsor, as provided in the Plan document. Investment management fees for investments are included as a reduction of investment return and not reflected separately in the statement of changes in net assets available for benefits.

Administrative expenses per annum per participant are deducted from participant accounts. Administrative expenses per annum per participant limits were \$33 effective January 1, 2024 through June 30, 2024 and changed to \$31 per annum per participant effective July 1, 2024. Participants also pay administrative costs for loans, distributions, and qualified domestic relation orders. The remaining expense is paid by the Company and through credits provided by the recordkeeper for Plan investments.

Use of Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Risks and Uncertainties - The Plan invests in the Master Trust which utilizes various investment instruments, including registered investment companies, common collective trusts, separately managed accounts and the Interest Income Fund. Investment securities, in general, are exposed to various risks, such as interest rate, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the value of the participants' account balances and the amounts reported in the financial statements.

3. CERTIFIED INVESTMENT INFORMATION

The following is a summary of the certified investment information regarding the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information certified by the trustee of the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained certification from the trustee that such information is complete and accurate.

Note 4: All investment balances and investment information, excluding the fair value leveling of investments.

Supplemental schedule: All investment balances and information included in the Supplemental Schedule of Assets (held at end of year).

4. MASTER TRUST FINANCIAL INFORMATION

The trustee holds the Master Trust's investment assets, provides administrative functions for each of the Plans participating in the Master Trust, and executes investment transactions as directed by participants. Use of the Master Trust permits the commingling of Plan assets with the Albertsons Companies 401(k) Plan. Although assets of each of the plans are commingled in the Master Trust, the trustee maintains supporting records for each participating plan. The net investment income or loss of the investment assets is allocated daily by the trustee to each participating plan based on the relationship of the interest in each plan to the total of the interests of all participating plans.

The following presents the investment securities of the Master Trust, and the Plan's share of investment securities, as of December 31, 2024 and 2023 (in thousands):

	<u>2024</u>	
	<u>Master Trust Balance</u>	<u>Plan's Interest In Master Trust Balance</u>

The following presents the increase in the Master Trust's assets, and the Plan's share of the net increase in the Master Trust's assets, for the year ended December 31, 2024 (in thousands):

	2024
Investment income:	
Net investment gain (net appreciation in fair value of investments)	\$ 920,542
Dividend and interest income	27,355
Net investment income of Master Trust	<u>\$ 947,897</u>
Plan's interest in Master Trust's investment income	<u>\$ 18,234</u>

Fair Value Measurements - The accounting guidance for fair value measurements defines fair value, established a framework for measuring fair value, and requires disclosures about fair value measurements. The guidance prioritizes the inputs for measuring fair value into the following hierarchy:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - Inputs other than quoted prices included within Level 1 that are either directly or indirectly observable; and

Level 3 - Unobservable inputs in which little or no market activity exists, therefore requiring an entity to develop its own assumptions about the assumptions that market participants would use in pricing.

The level within the fair value hierarchy is based on the lowest level of any input which is deemed significant to the fair value measurement. The Plan's policy is to recognize significant transfers between levels at the end of the reporting period. In accordance with the accounting guidance for fair value measurements, the table below includes the major categorization for debt and equity securities on the basis of nature and risk.

The following tables set forth by level within the fair value hierarchy, the assets of the Master Trust at fair value as of December 31, 2024 and 2023 (in thousands):

Asset Category	Master Trust Fair Value Measurements			
	2024 Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Transfers between Levels - The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The significance of transfers between levels is evaluated based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended, December 31, 2024 and 2023, there were no transfers between levels.

Asset Valuation Techniques - Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value.

Registered Investment Companies (mutual funds) - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Separately Managed Accounts - This is a portfolio of individual securities, such as stocks or bonds, that is managed on the participant's behalf. Unlike a mutual fund or exchange-traded fund, the Plan directly owns the individual securities instead of pooling the participant's assets with other investors. The participant's assets of a separately managed account/fund are held in the name of the Plan (the plan owns the underlying securities) and are generally considered separately as individual investments for accounting, auditing and financial statement reporting purposes.

Common/Collective Trusts - Common/collective trusts invest primarily in a pool of investments, including equity securities, fixed income securities, and commodities. Common/collective trusts are valued at the net asset value of units of a bank collective trust. The net asset value, as provided by the trustee, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There were no unfunded commitments, normal course of business redemption restrictions, or other redemption restrictions on these funds at December 31, 2024 or 2023.

Interest Income Fund - The Master Trust holds a portfolio of synthetic investment contracts. These contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The Master Trust owns the underlying assets of the synthetic investment contract. A synthetic investment contract includes a wrapper contract, which is an agreement for the wrap issuer, such as a bank or insurance company, to make payments to the Plan in certain circumstances. The wrapper contract typically includes certain conditions and limitations on the underlying assets owned by the Master Trust.

The synthetic investment contracts held by the Plan include wrapper contracts that provide a guarantee that the credit rate will not fall below 0%. Cash flow volatility (for example, timing of benefit payments) as well as asset underperformance can be passed through to the Plan through adjustments to future contract crediting rates. Formulas are provided in each contract that adjusts renewal crediting rates to recognize the difference between the fair value and the book value of the underlying assets. Crediting rates are reviewed monthly for resetting.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

- The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code
- Premature termination of the contracts
- Plan termination or merger
- Changes to the Plan's prohibition on competing investment options
- Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

- An uncured violation of the Plan's investment guidelines
- A breach of material obligation under the contract
- A material misrepresentation
- A material amendment to the agreements without the consent of the issuer

5. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity. Fidelity is the trustee as defined by the Plan, and these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were paid from a Fee Account funded by quarterly fees charged to each participant with a balance.

6. FEDERAL INCOME TAX STATUS

The IRS has determined and informed the Company by a letter dated January 17, 2018, that the Plan and related trust were designed in accordance with the applicable regulations of the Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Code, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.
