Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **CBIZ CPAS P.C.**

(2) EIN: **43-1947695**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		1500000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		☒	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

INDEPENDENT AUDITORS' REPORT

Administrative Committee
Huhtamaki Retirement Accrual Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audits of the financial statements of Huhtamaki Retirement Accrual Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the years then ended, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) and reportable transactions, as of and for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

HUHTAMAKI RETIREMENT ACCRUAL PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan

The following description of the Huhtamaki Retirement Accrual Plan (the "Plan"), provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General - The Plan is a noncontributory defined benefit plan with a final average pay formula component and a cash balance account formula component. The Plan is sponsored by Huhtamaki Americas, Inc. (the "Company"). The Plan provides retirement, disability, and death benefits to participants. Employers included in this Plan are Huhtamaki Consumer Packaging, Inc.; Huhtamaki Packaging, Inc.; Huhtamaki Plastics, Inc.; Huhtamaki Group of Companies; Huhtamaki Americas, Inc.; and Huhtamaki Flexibles, Inc. Any individual who meets the definition of an employee shall be eligible to participate in the Plan once such employee has satisfied the participation requirements. Employee shall mean any person employed by the above employers (but for the fact that such individual is on an approved leave of absence) and who is not an employee as that term is defined in the Huhtamaki Consumer Packaging Pension Plan for Fulton Union Employees. Furthermore, the term employee will not include non-salaried employees of Huhtamaki-East Providence, Inc. and the Huhtamaki Group of Companies. Effective September 2, 2011, no person employed by Paris Packaging, Inc. on September 1, 2011 or any person hired by Huhtamaki, Inc. at the Paris, TX, Andalusia, AL or Hopkinsville, KY locations shall become a participant in the Plan. In addition, effective December 1, 2011, no person employed by Ample Industries, Inc. on November 30, 2011 or any person hired by Huhtamaki, Inc. on or after December 1, 2011 at the Franklin, OH location shall become eligible to become a participant of the Plan. Effective June 1, 2013, no person hired by Huhtamaki, Inc. on or after June 1, 2013 at the Batavia, OH location shall become a participant in the Plan. However, any person who is an actively employed plan participant of an employer on June 1, 2013 and who transfers to the Batavia, OH location on or after June 1, 2013 shall remain a participant in the Plan. Effective January 1, 2017, the Plan was amended to allow persons employed in a location which is not eligible to participate who transfer to a location which is eligible to participate in the Plan, shall become participants in the Plan on the later of the first day of the month following such transfer or January 1, 2017 or the completion of one year of vesting service. If a person is a participant in the Plan and transfers to a non-union class or category or a location which is ineligible to participate, such person shall continue to be a participant in the Plan. If a person is employed in a classification defined as "Career Program" they shall become a participant in the Plan on the day immediately following their completion of one year of vesting service. In addition, no person employed at the Goodyear, Arizona location shall become a participant in the Plan. However, any person who was actively employed on January 1, 2017 and who transferred to the Goodyear, Arizona location on or after January 1, 2017 shall remain a participant in the Plan. Effective July 31, 2014, the Plan was amended to freeze all benefit formulas then in effect under the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is administered by the Company's Pension Administrative Committee (the "Committee"). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

HUHTAMAKI RETIREMENT ACCRUAL PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan (continued)

Participants' accounts - Under the Plan provisions, amounts are credited by the Company to the participants' hypothetical accounts. The accounts are allocated compensation credits and investment credits at the end of each plan year. The participant's account balance is credited with 5% interest at the end of each plan year. Interest is credited on the cash balance at the end of the year based on the greater of 2% or the one year Treasury constant maturity rate for November preceding the plan year.

Vesting - A participant who has accumulated at least three years of vesting service or attains age sixty-five is vested in the participant's accumulated benefits. Vested participants terminating their employment before the normal retirement date for a reason other than death or retirement are entitled to receive their normal retirement benefit at age sixty-five, based on credited service accrued to the date of termination. With the specified years of credited service, a participant may elect to commence receiving the accrued benefits on an early retirement date at a reduced level.

Pension benefits - Normal retirement benefits are based on final average earnings or an amount based on employee contributions as specified by the Plan. A participant may retire upon attaining normal retirement age (sixty-five) or, with the specified years of credited service, retire any time after age fifty-five. Normal retirement benefits will be reduced if a participant elects early retirement. Single participants will be paid in the form of a straight-life annuity unless the participant elects otherwise. Married participants will be paid in the form of a 50% joint and survivor annuity unless the participant elects otherwise with spousal consent.

In addition, a vested married participant who is eligible for early retirement is covered by a pre-retirement death benefit, which provides an income to the surviving spouse in the event of the participant's death prior to age sixty-five. If the actuarial equivalent lump-sum value of a participant's vested accrued benefit, determined as of the date of termination of employment or retirement, is more than \$5,000, the participant may elect to have such amount paid in a lump sum. The Plan does permit single sum distributions by certain terminated vested participants, beneficiaries, and alternative payees where the actuarial equivalent of the accrued benefit is greater than \$1,000 when certain conditions are satisfied.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared on the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosures of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates.

HUHTAMAKI RETIREMENT ACCRUAL PLAN

NOTES TO FINANCIAL STATEMENTS

(2) Summary of significant accounting policies (continued)

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by the investment trustee. See Note 5 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial method - The actuarially determined prior service cost is calculated using the projected unit credit service cost method. The present value of accrued benefits is determined on an ongoing basis, based on service earned and paid to date.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

(3) Mergers

Effective December 31, 2001, the Chinnet Company Salaried Employees' Retirement Plan (the "Chinnet Plan"), the Nyman Manufacturing Company Retirement Plan for Hourly Employees (the "Nyman Plan"), and the Albertville Retirement Plan (the "Albertville Plan") were merged into this Plan. Various provisions of these predecessor plans have changed. Participants should refer to the revised Plan agreements for a more complete description of these provisions. A brief description of the more significant provision changes for these plans follows:

Chinnet Plan - In conjunction with this merger, the Chinnet Plan was frozen effective May 31, 2001. No employees were eligible to become a participant of the Plan after May 31, 2001. The benefit accrual will not cease for any participant who, as of May 31, 2001, was an eligible employee, as defined by the Plan agreement, and either has been credited with at least five years of service or is at least forty years old. Furthermore, any participant for whom benefit accrual has otherwise ceased shall nevertheless continue to have their accrued benefit increased (but not decreased) to reflect changes in the final average pay, final average salary, and covered compensation that occur after May 31, 2001.

HUHTAMAKI RETIREMENT ACCRUAL PLAN

NOTES TO FINANCIAL STATEMENTS

(3) **Mergers (continued)**

Nyman Plan - The Nyman Plan was frozen effective March 31, 1995. In conjunction with the merger described above, the former participants of the Nyman Plan shall have their frozen benefits provided under this Plan in accordance with the provisions of the Nyman Plan, but such former participants shall not otherwise be entitled to participate and accrue benefits under this Plan (unless they become eligible under the provisions of this Plan).

Albertville Plan - The former participants of the Albertville Plan shall be covered by this Plan. Up until September 1, 2005, the former participants' benefits, including benefit accruals, vesting, early retirement subsidies, and forms of distribution, were determined based on the provisions of the Albertville Plan. Furthermore, the benefits of any new participant who became a participant under the provisions of the Albertville Plan after December 31, 2001 were also based on the provisions of the Albertville Plan. All provisions of the Albertville Plan other than the eligibility and benefit provisions were no longer applicable. Effective September 1, 2005, participants of the Albertville Plan shall begin accruing benefits under the main provisions of this Plan. Effective November 1, 2007, the Plan was amended to add a minimum benefit for Albertville participants based on their prior benefit formula.

(4) **Due to/from broker for securities sold**

The Plan had \$1,278,724 and \$1,014,812 due from broker for securities sold at December 31, 2024 and 2023, respectively, related to transactions entered into prior to year end and settled subsequent to each respective year end. The Plan had \$293,761 and \$0 due to broker for securities purchased at December 31, 2024 and 2023, respectively, related to transactions entered into prior to year end and settled subsequent to each respective year end.

(5) **Fair value measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |

HUHTAMAKI RETIREMENT ACCRUAL PLAN

NOTES TO FINANCIAL STATEMENTS

(5) Fair value measurements (continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Private equity security: Valued at the net asset value ("NAV") of the units of the fund. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value and is based on audited financial statements of the fund. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Common collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

As of December 31, 2024 and 2023, the Plan's investments were measured at fair value using the net asset value per share (or its equivalent) practical expedient and are not classified within the fair value hierarchy.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is based on NAV per share as of December 31, 2024 and 2023, respectively.

Investments	Fair Value 12/31/2024	Fair Value 12/31/2023	Unfunded Commitments	Redemption Frequency	Redemption Notice Period

NOTES TO FINANCIAL STATEMENTS

(6) **Information prepared and certified by the trustee**

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, The Northern Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate with respect to investments:

- Investments at fair value
- Net appreciation in fair value of investments
- Schedule of assets (held at end of year)
- Schedule of reportable transactions

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

(7) **Actuarial present value of accumulated plan benefits**

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to reflect the time value of money (through discounts for interest) and probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date and the expected date of payment. The actuarial present value of accumulated plan benefits is presented based on a beginning-of-year benefit information date.

NOTES TO FINANCIAL STATEMENTS

(7) Actuarial present value of accumulated plan benefits (continued)

The significant assumptions used in the January 1, 2025 and 2024 valuations are as follows:

Interest rate	5.5% for January 1, 2025 and 5.0% for January 1, 2024
Mortality	Hourly union participants for January 1, 2024: Pri-2012 sex distinct, with contingent survivor adjustments for participants and beneficiaries and blue collar adjustment generational table with scale MP2021 projections. All other participants: Pri-2012 sex distinct, with contingent survivor adjustments for participants and beneficiaries and white collar adjustment generational table with scale MP2021 projections. Hourly union participants for January 1, 2025: Pri-2012 sex distinct, with contingent survivor adjustments for participants and beneficiaries and blue collar adjustment generational table with scale MP2021 projections. All other participants: Pri-2012 sex distinct, with contingent survivor adjustments for participants and beneficiaries and white collar adjustment generational table with scale MP2021 projections.
Cost method	Projected unit credit
Retirement age	Retirement percentages ranging from 5% at age 55 to 100% at age 71 for January 1, 2024 and 2025.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2025 and 2024. Had the valuations been performed as of December 31, there would be no material differences.

(7) Actuarial present value of accumulated plan benefits (continued)

The actuarial present value of accumulated plan benefits as of January 1, 2025 and 2024 is as follows:

	<u>2025</u>	<u>2024</u>
Vested benefits		
Participants currently receiving payments	\$ 40,377,754	\$ 43,990,508
Other participants	66,615,103	67,923,176

Increase (decrease) due to assumption and plan changes	(4,288,678)	525,711
Increase due to passage of time	5,323,987	5,375,693
Decrease due to benefits paid	<u>(10,626,232)</u>	<u>(9,477,667)</u>
Actuarial present value of accumulated plan benefits end of year	<u>\$ 107,221,256</u>	<u>\$ 112,235,622</u>

(8) Funding policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The actuary has determined that there is no minimum annual contribution required from the Company for the years ended December 31, 2024 and 2023.

HUHTAMAKI RETIREMENT ACCRUAL PLAN

NOTES TO FINANCIAL STATEMENTS

(9) **Related party transactions and party-in-interest transactions**

Generally, Plan investments may qualify as party-in-interest transactions if the issuer, investment manager, or trustee of the investment option is a plan fiduciary or service provider. The Northern Trust Company, is the trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. JP Morgan Investment Management is the investment manager, and therefore, these transactions qualify as party-in-interest transactions. Mercer is the actuary and recordkeeper, and therefore, these transactions qualify as party-in-interest transactions. Fees paid to The Northern Trust Company, JP Morgan Investment Management, and Mercer by the Plan for trustee, investment management services, actuarial, and recordkeeping fees amounted to \$977,216 and \$1,094,517 for the years ended December 31, 2024 and 2023, respectively. The Plan paid certain expenses related to the Plan's operations and investment activity to various service providers. These transactions are party-in-interest transactions under ERISA. The Plan Sponsor pays directly any other fees related to the Plan's operations.

(10) **Plan termination**

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would be payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations discussed below.
- d. Vested benefits not insured by the PBGC.
- e. All nonvested benefits.

HUHTAMAKI RETIREMENT ACCRUAL PLAN

NOTES TO FINANCIAL STATEMENTS

(10) **Plan termination (continued)**

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

(11) **Tax status**

The Internal Revenue Service ("IRS") has determined and informed the Company by letter dated July 29, 2014, that the Plan (as restated January 1, 2013) and the related trust are designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(12) **Risks, uncertainties and concentrations**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Market risk includes global events which could impact the value of investment securities, such as a pandemic, tariffs, or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan invests in securities with contractual cash flows, such as derivatives and other transactions that seek to increase total returns, including foreign currency contracts, forward foreign currency exchange contracts, futures contracts, swap contracts, written options, mortgage dollar rolls, when-issued securities, forward commitments, and securities lending. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

HUHTAMAKI RETIREMENT ACCRUAL PLAN

NOTES TO FINANCIAL STATEMENTS

(12) **Risks, uncertainties and concentrations** (continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

As of December 31, 2024, approximately 39% of the Plan's net assets available for benefits were invested in the JPMCB Intermediate Credit Fund and the JPMCB Income Fund.

As of December 31, 2023, approximately 63% of the Plan's net assets available for benefits were invested in the JPMCB Intermediate Credit Fund, JPMCB Long Duration Investment Grade Fund, and the JPMCB Income Fund.

(13) **Subsequent events**

The Plan has evaluated subsequent events through October 10, 2025, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods for funding****Asset methods- Effective January 1, 2008**

The asset valuation method is the fair market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who meet the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods- Effective January 1, 2008

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Average				62.57

Each employee is assumed to retire in accordance with the table of retirement rates above (column B). The weighted average retirement age is the total for the number of retirements multiplied by the age and divided by the total number of retirements, rounded to the nearest age. It should be noted that while only integral values are shown in the table, the full content of each cell, including decimal portions, is used in the calculations.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods for funding****Asset methods- Effective January 1, 2008**

The asset valuation method is the fair market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who meet the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods- Effective January 1, 2008

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Pre-retirement death

• Eligibility	Spouses of active participants who die after completion of three years of service.
• Benefit	An annuity for the spouse equal to the benefit the spouse would have received if the member had retired just before death and elected a Joint-and-50% Survivor Annuity. For participants who have account balances from the prior plan, the lump sum benefit is the total profit share balance as of September 30, 1963 accumulated with interest at the rate of 3% per year to the first day of the month of the participant's death.

Form of benefits

• Automatic form for unmarried participants	Life Annuity
---	--------------

Schedule SB, Part V — Summary of Plan Provisions

• Automatic form for married participants	50% joint-and-survivor
• Optional forms	10-year certain and life benefit, joint-and-2/3 survivor annuity, joint-and-full survivor annuity, as well as an accumulated vested profit share lump sum or a lump sum benefit. Actuarial equivalence for the non-lump sum optional forms of payment is based on the 2009 PPA mortality table and a 7.50% interest rate. The lump sum benefits are calculated using the segmented interest rates in effect for November prior to the year of payment and the applicable table under Code Section 417(e) for the year in which the lump sum is paid.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, as restated and amended through January 1, 2013, are included in this valuation:

- **Most recent plan amendments included:** Amendment No. Six, effective January 1, 2017.
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation does not include increases for participants over this age because these changes are deemed immaterial.
 - *Deferred vested participants:* This valuation does not include increases for current deferred vested participants over normal retirement age because these changes are deemed immaterial.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits for events that occurred before the valuation date but includes contingent event benefits for events that are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.

Schedule SB, Part V — Summary of Plan Provisions

Plan provision changes since prior valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2023 to 2024.

Schedule SB, line 24 — Change in Actuarial Assumptions

Actuarial assumption changes since prior valuation

Funding

- The assumed interest accumulation rate for the new cash balance was increased to reflect current market conditions and the probability that rates will exceed the floor rate provided by the plan.

The lump sum benefits are calculated using the segmented interest rates in effect for November prior to the year of payment and the applicable table under Code Section 417(e) for the year in which the lump sum is paid.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, as restated and amended through January 1, 2013, are included in this valuation:

- **Most recent plan amendments included:** Amendment No. Six, effective January 1, 2017.
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation does not include increases for participants over this age because these changes are deemed immaterial.
 - *Deferred vested participants:* This valuation does not include increases for current deferred vested participants over normal retirement age because these changes are deemed immaterial.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits for events that occurred before the valuation date but includes contingent event benefits for events that are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
