Independent Auditor's Report

To the Plan Administrator
Retirement Income Plan for Employees of UGI Utilities, Inc.

Opinion on the 2024 Financial Statements

We have audited the financial statements of Retirement Income Plan for Employees of UGI Utilities, Inc., an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year then ended, the statement of accumulated plan benefits as of December 31, 2023, and the related notes to the financial statements including the changes in accumulated plan benefits for the year ended December 31, 2023.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits for the Employees of UGI Utilities, Inc. as of December 31, 2024, and the changes in net assets available for benefits for the year then ended, and accumulated plan benefits as of December 31, 2023, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion on the 2024 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Retirement Income Plan for Employees of UGI Utilities, Inc. and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2024 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Retirement Income Plan for Employees of UGI Utilities, Inc.'s ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2024 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Retirement Income Plan for Employees of UGI Utilities, Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Retirement Income Plan for Employees of UGI Utilities, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

2024 Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Auditor's Report on the 2023 Financial Statements

The 2023 financial statements of Retirement Income Plan for Employees of UGI Utilities, Inc. were audited by predecessor auditors whose report dated October 15, 2024, expressed an unmodified opinion on those financial statements and included an other-matter paragraph that provided an opinion that the information in the 2023 supplemental schedules was fairly stated in all material respects in relation to the financial statements as a whole.

**RETIREMENT INCOME PLAN
FOR EMPLOYEES OF UGI UTILITIES, INC.**

NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

General. The following brief description of the Retirement Income Plan for Employees of UGI Utilities, Inc. (“Plan”) provides general information on the provisions of the Plan. More complete information is included in the Plan document.

The Plan is a noncontributory defined benefit plan covering:

- (1) substantially all employees hired prior to January 1, 2009 of UGI Utilities, Inc. (“UGI Utilities” or the “Company”), its parent holding company UGI Corporation (“UGI”), and certain UGI affiliated companies (collectively, the “UGI Employers”);
- (2) substantially all employees of UGI Penn Natural Gas, Inc. (“PNG,” a wholly owned subsidiary of UGI Utilities prior to its merger with and into UGI Utilities effective October 1, 2018), and certain of its predecessors and affiliates (the “PNG Employers”) including such current employees and former employees who previously accrued a benefit under the UGI Penn Natural Gas, Inc. Retirement Income Plan (collectively, the “PNG Participants”) prior to its merger with the Plan on December 31, 2008; and
- (3) substantially all employees of UGI Central Penn Gas, Inc. (“CPG,” a wholly owned subsidiary of UGI Utilities prior to its merger with and into UGI Utilities effective October 1, 2018), and certain of its predecessors and affiliates (the “CPG Employers”) including such current employees and former employees who previously accrued a benefit under the UGI Central Penn Gas, Inc. Employees’ Retirement Plan (the “CPG Plan”) (collectively, the “CPG Participants”) prior to its merger with the Plan on December 31, 2010.

Effective January 1, 2009, the Plan was closed to new hires, rehires or transfers, occurring on or after that date unless subject to a collective bargaining agreement that extended Plan participation to such hires, rehires, or transfers. The Plan is administered by the UGI Corporation Retirement Plan Committee (the “Plan Administrator”) which is comprised of certain members of UGI's senior management. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Pension Benefits. The following sections provide general descriptions of the benefit provisions associated with the (1) Plan participants of the UGI Employers; (2) PNG Participants; and (3) CPG Participants. Additional information related to each group's benefits under the Plan is included in the Plan document.

Pension Benefits - Employees of the UGI Employers

Substantially all employees of the UGI Employers hired prior to January 1, 2009 who completed five years of Vesting Service or who reach Normal Retirement Age, each as defined in the Plan document, while in the employ of the UGI Employers, are entitled to benefits upon reaching Normal Retirement Age, generally age 65.

**RETIREMENT INCOME PLAN
FOR EMPLOYEES OF UGI UTILITIES, INC.**

NOTES TO FINANCIAL STATEMENTS (continued)

The annual pension benefits shall generally be the greatest of:

- (a) 1.9% of Final Average Earnings, as defined in the Plan document, times years of Credited Service, as defined in the Plan document, (which amount cannot exceed 60% of the average monthly earnings for the highest consecutive 12-month period during the consecutive 120-month period prior to the date of retirement or termination), less (b) 1% of the Primary Social Security Benefit, as defined in the Plan document, times the years of Credited Service at age 65 (maximum of 35 years) and, in the case of early retirement, multiplied further by the ratio of actual Credited Service to projected Credited Service at normal retirement date; or
- 25% of earnings during the last 12 months prior to retirement multiplied by the ratio (not to exceed 1.0) of years of projected Credited Service to normal retirement date to 15, and, in the case of early retirement, multiplied further by the ratio (not to exceed 1.0) of years of Credited Service earned to the projected years of Credited Service at normal retirement date.

Annual pension benefits are reduced by any retirement income provided by other qualified plans (excluding 401(k) plans) of the UGI Employers and by annuities with insurance companies that the UGI Employers purchased for certain employees.

The Plan permits early retirement benefits for employees of the UGI Employers at a reduced level at age 55 and completion of 10 years of Vesting Service. Unreduced early retirement benefits are available for employees of the UGI Employers retiring from age 62 to age 65, who have completed 10 years of Vesting Service. A married participant will receive retirement benefits in the form of a qualified joint and survivor annuity unless he or she, with appropriate spousal consent, makes a qualified election to waive receipt of benefits in that form. Unmarried participants may elect to receive their benefits in the form of a straight life annuity or another form of payment as provided under the Plan. If employees of the UGI Employers terminates before rendering the minimum years of service under the Plan's vesting provisions, they forfeit the right to receive their accumulated Plan benefits.

Death Benefits. If an active employee of the UGI Employers has completed at least five years of Vesting Service or has attained Normal Retirement Age while employed and dies prior to retirement, a qualified pre-retirement survivor's annuity will be payable to such participant's spouse, if eligible, as provided in the Plan. If such participant dies prior to reaching age 45 and after completing 10 or more years of Vesting Service, survivor benefits are available to be paid to such participant's spouse, if eligible, when such participant would have reached age 45. If such participant dies subsequent to reaching age 45 and after completing 10 or more years of Vesting Service, survivor benefits are available to be paid immediately. If such participant dies after completing five years of Vesting Service but before completing 10 years of Vesting Service, the survivor benefit will be payable to such participant's spouse on the date when the participant would have reached age 65.

**RETIREMENT INCOME PLAN
FOR EMPLOYEES OF UGI UTILITIES, INC.**

NOTES TO FINANCIAL STATEMENTS (continued)

Pension Benefits - PNG Participants

Generally, PNG Participants hired prior to January 1, 2009 with five or more years of Vesting Service are entitled to receive monthly pension benefits beginning at Normal Retirement Age equal to their accrued benefit. Active PNG Participants and terminated vested PNG Participants who terminate on or after January 1, 2009, are eligible for early retirement benefits after attainment of age 55 and completion of 10 years of Vesting Service. For PNG Participants who terminated prior to January 1, 2009, eligibility for early retirement was based upon the attainment of age 55 and the completion of 20 years of Vesting Service. The annual benefit for all PNG Participants is equal to the years of Credited Service up to a maximum of 30 years, multiplied by the sum of (1) 1.25% of Final Average Earnings up to the base amount for the calendar year in which the PNG Participant terminates employment plus (2) 1.65% of Final Average Earnings in excess of the base amount.

However, at no time shall such PNG Participant's annual benefit be less than the product of the participant's Service Percentage, as defined in the Plan document, multiplied by \$1,800. If PNG Participants terminate before rendering five years of Vesting Service, they forfeit the right to receive their accumulated Plan benefits.

A married employee of a PNG Participant will receive retirement benefits in the form of a qualified joint and survivor annuity unless he or she, with appropriate spousal consent, makes a qualified election to waive receipt of benefits in that form. Unmarried PNG Participants may elect to receive their benefits in the form of a straight life annuity or another form of payment as provided under the Plan.

Death Benefits. If a PNG Participant with at least five years of service dies prior to his or her benefit commencement date, his or her surviving spouse or beneficiary will be entitled to a monthly benefit as of the date the participant would have attained Normal Retirement Age.

Pension Benefits - CPG Participants

Effective January 1, 2009, participation in the Plan by employees of the CPG Employers was closed to new hires, rehires or transfers occurring on or after that date unless subject to a collective bargaining agreement that extended Plan participation to such hires, rehires or transfers. Effective January 1, 2012, the Plan was closed to new hires, rehires or transfers occurring on or after that date who are employees of the CPG Employers and subject to collective bargaining agreements.

Prior to January 1, 2009, CPG Participants entered the CPG Plan at the minimum age of 21 and completion of six consecutive months of service if employment commenced before January 1, 1993. If employment commenced on or after January 1, 1993, CPG Participants entered the Plan after the completion of 1,000 hours of service in a 12 consecutive month period ending on the employee's first anniversary.

Employees of the CPG Employers who commenced service prior to January 1, 1993 began to partially vest in benefits after completing three years of service and became fully vested after five years of service. Employees of the CPG Employers and the former PFG Gas, Inc. who commenced service on or after January 1, 1993 became fully vested after completing five years of service. Employees of the former North Penn Gas Company began to partially vest in benefits after completing three years of service and became fully vested after completing seven years of service. Notwithstanding the vesting provisions described above, the accrued benefit of a participant was 100% vested if his or her employment was

**RETIREMENT INCOME PLAN
FOR EMPLOYEES OF UGI UTILITIES, INC.**

NOTES TO FINANCIAL STATEMENTS (continued)

involuntarily terminated during the 12 months subsequent to the acquisition of CPG by UGI Utilities on October 1, 2008.

Generally, retirement benefits are based upon a CPG Participant's earnings and length of participation in the Plan. However, the calculation of retirement benefits and crediting factors is also dependent on a CPG Participant's employer and service date. The normal form of benefit provided is a joint and survivor annuity for married participants and a single life annuity for CPG Participants who are not married. Other forms of benefits are available, depending on a CPG Participant's employer and marital status. Reduced early retirement benefits are available to CPG Participants who are at least age 55 and vary based on the CPG Participant's employer.

If a CPG Participant has completed at least five years of Vesting service, seven years for the former North Penn Gas Company participants, and dies prior to retirement, a qualified pre-retirement survivor's annuity will be payable to such CPG Participant's spouse as provided in the Plan. If a Participant who is an Employee of CPG incurs a Total Disability, which means they are receiving payments under the long-term disability plan, the following provisions shall apply. With respect to a Total Disability incurred on or after January 1, 1993, an Employee of CPG will continue to accrue benefits under the Plan during his period of Total Disability. For this purpose, the Employee shall be credited with one year of Benefit Service and one Year of Service for vesting purposes, for each Computation Period during which he suffers from the Total Disability. Average Monthly Earnings will be determined as of the date immediately preceding the Employee's incurrence of the Total Disability.

Earnings Limits. The annual earnings used to calculate benefits payable to Plan participants have dollar ceiling limits as required by ERISA, the Tax Reform Act of 1986 and the Omnibus Budget Reconciliation Act of 1993. The Plan has also been revised to reflect changes authorized by the Economic Growth and Tax Relief Reconciliation Act of 2001.

Administrative Expenses. Substantially all administrative expenses of the Plan are paid from Plan assets. In addition, certain investment related expenses are included in "Net appreciation (depreciation) in fair value of investments" presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

2. Accounting Policies

Use of Estimates. The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"). GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, disclosures of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from these estimates.

Cash. Cash is temporarily invested in a FDIC insured noninterest bearing account held at Bank of New York Mellon Corporation. Amounts in the cash account may exceed insured limits. Cash balances represent proceeds from dividends, interest, and sale of investments which will be used to purchase additional investments for the Plan.

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between

FOR EMPLOYEES OF UGI UTILITIES, INC.**

NOTES TO FINANCIAL STATEMENTS (continued)

market participants at the measurement date. UGI's senior management determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. Refer to Note 5 for the fair value measurement disclosures associated with the Plan's investments.

Purchases and sales of securities are recorded on a trade date basis. Interest earned on investments is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes gains and losses on investments bought and sold as well as investments held during the year.

Benefit Payments. Benefit payments to participants are recorded upon distribution.

Actuarial Present Value of Accumulated Plan Benefits. Accumulated Plan benefits include those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service that employees of the Employer, as defined in the Plan document and referred to in Note 1, have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation over either 60 consecutive months or their full career, depending on which plan formula the participant is covered. The accumulated Plan benefits for active employees are based on their earnings ending on the date as of which the benefit information is presented (the Valuation Date). Benefits payable under all circumstances (retirement, death and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the Valuation Date. The accumulated Plan benefits also include future periodic payments to certain former participants or their beneficiaries of UGI Utilities' affiliates' terminated retirement income plans (the liabilities along with related assets of which were previously transferred to the Plan) and future periodic payments to certain former employees or their beneficiaries of UGI Utilities who transferred to Philadelphia Gas Works in years when it was operated by UGI Utilities under lease.

The actuarial present value of accumulated Plan benefits is determined by the Plan's independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, termination or retirement) between the Valuation Date and the expected date of payment. The significant actuarial assumptions used in the valuation as of December 31, 2023 and 2022 were (a) life expectancy of participants (Pri-2012 blue collar table with rates decreased by 4.5%, projected using Scale MP-2021 from 2012 in 2023 and 2022), (b) retirement age assumptions (the assumed average retirement age was 63 in 2023 and 2022), and (c) discount rate (assumed to be 7.50% at December 31, 2023 and 2022). The foregoing actuarial assumptions are based on the presumption that the Plan will continue to operate. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

**RETIREMENT INCOME PLAN
FOR EMPLOYEES OF UGI UTILITIES, INC.**

NOTES TO FINANCIAL STATEMENTS (continued)

The change in actuarial present value of accumulated Plan benefits during the 2023 Plan year comprises the following:

Actuarial present value of accumulated Plan benefits - December 31, 2022	\$ 424,381,838
Increase (decrease) during the year attributable to:	
Benefits accumulated	5,942,422
Actuarial losses	1,593,494
Decrease in discount period	31,065,368
Benefits paid	(32,832,254)
Assumption changes	(30,290)
Actuarial present value of accumulated Plan benefits - December 31, 2023	<u>\$ 430,120,578</u>

Actuarial Present Value of Accumulated Plan Benefits (Unaudited). The December 31, 2024 actuarial valuation was completed prior to the release of the financial statements for the Plan Year ended December 31, 2024. A summary of the actuarial valuation information provided by the Plan's actuary, which has not been audited by independent accountants, is provided for informational purposes. The significant actuarial assumptions used in the valuation as of December 31, 2024, remain unchanged from the valuation as of December 31, 2023 which is presented above.

The change in actuarial present value of accumulated Plan benefits (unaudited) during the 2024 Plan year comprises the following:

Actuarial present value of accumulated Plan benefits - December 31, 2023	\$ 430,120,578
Increase (decrease) during the year attributable to:	
Benefits accumulated	4,826,649
Actuarial losses	2,870,362
Decrease in discount period	31,351,874
Benefits paid	(34,467,580)
Assumption changes	106
Actuarial present value of accumulated Plan benefits - December 31, 2024	<u>\$ 434,701,989</u>

Risks and Uncertainties. Contributions to the Plan and the actuarial present value of accumulated Plan benefits are determined based upon certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes will occur in the near term and the effect of such changes could be material to the financial statements.

The Plan's investments are subject to various risks including interest rate, credit and overall market volatility. Market risks include global events that could impact the value of investment securities, such as pandemics or international conflict. The degree and concentration of these risks vary by investment fund. The Plan's exposure to credit losses in the event of nonperformance of investment is limited to the carrying amount of such investments. Due to the level of risk associated with the separate investment funds, it is reasonably possible that changes in risk in the near term could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

NOTES TO FINANCIAL STATEMENTS (continued)

Secure 2.0 Act. The Secure 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, which became effective January 1, 2023. Plan management evaluated the impact of the adoption and implementation of this legislation on the Plan and there was no material impact to the Plan for the years ended December 31, 2024 and 2023.

Subsequent Events. We have evaluated the impact of subsequent events through October 7, 2025, the date the financial statements were available to be issued, and the effects of that evaluation have been reflected in the Plan's financial statements and related disclosures.

3. Funding Policy

The Plan's funding policy is for the Company to contribute an amount that will meet or exceed the annual ERISA funding requirement. The total net return (comprising interest, dividends and net (depreciation)) on Plan investments serves to reduce future contributions that would otherwise be required to provide for the defined level of benefits under the Plan. During the Plan year ended December 31, 2024, the Company made cash contributions to the Plan totaling \$18,431,552, including \$2,900,000 related to the 2024 Plan Year and \$15,531,552 related to the 2023 Plan year. During the Plan year ended December 31, 2023, the Company made cash contributions to the Plan totaling \$10,692,000, related to the 2022 Plan year. The Plan met the minimum funding requirements under ERISA for the 2024 and 2023 Plan years.

4. Plan Termination

Although it has not expressed any intention to do so, UGI Utilities has the right to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries had been receiving for at least three years, or benefits that employees eligible to retire for the three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding plan termination;
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. governmental agency) up to the applicable limitations (see below);
- c. All other vested benefits (that is, vested benefits not insured by the PBGC);
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested Normal Retirement Age benefits, early retirement benefits and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the

**RETIREMENT INCOME PLAN
FOR EMPLOYEES OF UGI UTILITIES, INC.**

NOTES TO FINANCIAL STATEMENTS (continued)

amount of benefit protection is subject to certain limitations. There is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2024, that ceiling, which is adjusted periodically, was \$7,108 per month. This ceiling applies to those annuitants who elect to receive their benefits in the form of a single life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants, or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Should the Plan terminate at some future time, the ability for all participants to receive their benefits will depend on the sufficiency of the Plan's net assets at that time to provide those benefits and on the level of benefits guaranteed by the PBGC.

5. Fair Value Measurement

The Plan performs fair value measurements in accordance with GAAP. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date.

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). A level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Plan uses the following fair value hierarchy, which prioritizes the inputs to valuation techniques used to measure fair value into three broad categories:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2024 and 2023:

Common collective trust funds: Valued at the net asset value ("NAV") of units of the collective trusts. The NAVs, as provided by the trustee, are used as a practical expedient to estimate fair value. The NAVs are based on the fair values of the underlying investments held by the funds less

NOTES TO FINANCIAL STATEMENTS (continued)

their liabilities. Were the Plan to initiate a full redemption of the collective trusts, the investment advisor reserves the right to temporarily delay withdrawal from the trusts in order to ensure that securities liquidations will be carried out in an orderly business manner. In October 2019, the Investment Committee for the Plan (“Investment Committee”), which is the predecessor to the Plan Administrator, signed an Investment Management Agreement with Mercer Investments LLC (“Mercer”) to appoint Mercer as an investment manager for substantially all Plan assets. Mercer operates under investment guidelines approved by the Investment Committee. Mercer invests Plan assets through a number of sub-managers that align with the investment guidelines approved by the Investment Committee. Mercer’s primary vehicle to invest in sub-managers is through common collective trust funds. Common collective trusts held by the Plan consist of equity index funds, bond index funds and a short-term investment fund.

UGI Common Stock: Valued at the closing price reported on the active market on which the individual securities are traded.

The following table presents, by level within the fair value hierarchy, the Plan’s investments that are measured at fair value on a recurring basis:

6. Federal Income Tax Status

**RETIREMENT INCOME PLAN
FOR EMPLOYEES OF UGI UTILITIES, INC.**

NOTES TO FINANCIAL STATEMENTS (continued)

The Plan obtained its latest determination letter on April 26, 2017 for amendments executed through December 22, 2015, in which the Internal Revenue Service stated that the Plan, as designed and subject to the adoption of certain Plan amendments proposed by the Plan Administrator, was in compliance with the applicable requirements of the Internal Revenue Code (“IRC”). The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, the Plan qualifies under Section 401(a) and the related trust is exempt from income taxes. Accordingly, no provision for income taxes has been included in the Plan’s financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if it has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. There are no uncertain tax positions reflected in the Plan's financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Related Party and Party-in-Interest Transactions

Parties-in-interest are defined under U.S. Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others.

Certain Plan assets are invested in a common trust fund managed by Bank of New York Mellon Corporation (“BNY Mellon”), the Trustee of the Plan. In addition, the Plan invests in shares of UGI Common Stock. At December 31, 2024 and 2023, the Plan held 813,850 shares of UGI Common Stock at a cost of \$8,350,286. There were no sales of UGI Common Stock, or contributions into UGI Common Stock, for 2024 and 2023. The Plan paid certain administrative expenses related to Plan operations and investment activity to various service providers and are included in net appreciation (depreciation) in the fair value of the investments. These transactions are party in interest transactions under ERISA and are included in administrative fees in the Statements of Changes in Net Assets Available for Benefits.

Fees incurred by the Plan for investment manager services are included in net appreciation (depreciation) in the fair value of the investments. Fees paid by the Plan for investment management, recordkeeping, and consulting services also are intended to qualify as exempt parties-in-interest transactions and are included in administrative fees in the Statements of Changes in Net Assets Available for Benefits.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Timing of benefit payments Annuity payments are payable monthly at the beginning of the month.

Methods

Valuation date First day of plan year

Funding target Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Decrement timing The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate

less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a bias to produce an actuarial value of assets that is below the market value of assets.

Vested termination

Termination for reasons other than death or retirement. For employees of North Penn Gas Company, vesting percentage is based on the following schedule:

Percentage leaving during the year	
Years of Vesting Service	Percent Vested
Less than 3	0%
3	20%
4	40%
5	60%
6	80%
7 or more	100%

Employees of Penn Fuel Gas, Inc. are 100% vested after completing five years of Vesting service.

Disability

If eligible for LTD plan and an employee of Penn Fuel Gas, Inc.

Preretirement death benefit

Early retirement

Pension benefit determined as of early retirement date, multiplied by the early retirement factors according to the table below (based on actual retirement date):

Retirement Age	Retirement Date	
	from 11/1/2000 to 12/31/2002	on or after 1/1/2003
65	100%	100%
64	100%	100%
63	100%	100%
62	100%	100%
61	100%	100%
60	95%	100%
59	90%	93%
58	82%	86%
57	75%	79%
56	70%	72%
55	65%	65%

For employees of North Penn Gas Company who retire on or before May 1, 2007, the reduction is the greater of (1) the existing early retirement factor, which is the greater of an actuarial reduction and the ratio of actual Benefit service at early retirement date over expected Benefit service at NRD, with no reduction for commencement after age 62, and (2) the “on or after 1/1/2003” table above.

For employees of North Penn Gas Company who retire after May 1, 2007, the reduction is based on the “on or after 1/1/2003” table above.

Effective May 1, 2002, employees who are displaced under the Operation Improvement Assessment 2002 Separation program are subject to no reduction for early commencement of pension payments.

Postponed retirement

Pension benefit determined as of actual retirement date.

Vested termination

Pension benefit determined as of termination date, reduced for payment before NRD as given above for early retirement except that the applicable early retirement factor is based on the factors in effect at the date the employee terminated. Also, the special provision for employees of North Penn Gas Company who retire after age 62 does not apply.

Disablement Pension benefit determined with continued Benefit service while on LTD and average earnings as of the date of disability.

Preretirement death Preretirement death benefit payable on behalf of a participant is reduced according to the schedule above based on the age the participant would have been on the date of commencement.

Other Plan Provisions

Forms of payment Preretirement death benefits are payable as described above. The normal form of benefits for unmarried participants is a life annuity. Unmarried participants may also elect a joint and survivor annuity. For married participants, the normal form is a 50% Qualified Joint and Survivor Annuity. Married participants may elect an actuarially equivalent single-life annuity (with spousal consent) or a Qualified Joint and Survivor Annuity, but with payment reverting to an actuarially equivalent single-life annuity should the spouse predecease the participant. Married participants may also elect either a 100% or 75% Joint and Survivor Annuity. In addition, a level income option is available to all participants. The reduction factors to determine the joint and survivor annuities are based upon an actuarial equivalence definition of an interest rate of 6.0% and applicable 417(e)(3) mortality.
