Independent Auditor's Report

The Plan Administrator
Insmed, Inc. 401(k) Plan and Trust
Bridgewater, New Jersey

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Insmed, Inc. 401(k) Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H (Form 5500), Line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2024 and Schedule H (Form 5500), Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and

other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedules agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

1. Description of the Plan

The following description of the Insmed, Inc. 401(k) Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all U.S. employees of Insmed, Inc. and participating employers (the Company or Employer). All full-time employees, provided they are a minimum of 18 years of age, are eligible to participate in the Plan, unless they are leased employees. An eligible participant can enter the Plan on the first of the month. Entry into the Plan is monthly and participation is voluntary. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The 401(k) Committee of the Plan, which is comprised of a group of Company executives with sufficient expertise to meet the "prudent expert standard of care" requirement of ERISA, oversees the management and investment of assets of the Plan. Its responsibilities include, but are not limited to, selecting and monitoring the Plan's recordkeeper and trustee; maintaining an appropriate selection of investment options under the Plan, based on the investment policy; and monitoring the performance of the Plan's investments, as well as its service providers.

As the recordkeeper for the Plan, Fidelity Management Trust Company (Fidelity or the Trustee) is responsible for maintaining and updating individual participant account balances, as well as information regarding Plan contributions, withdrawals, and distributions. Fidelity also serves as the Plan's Trustee, which is responsible for holding and investing Plan assets in accordance with the Plan documents.

The primary objective of the Plan is to provide eligible employees of the Company with the long-term accumulation of retirement savings through a combination of employee and discretionary Employer contributions, and the potential earnings thereon.

Contributions

Participant

Participants may contribute up to 90% of pre-tax annual compensation, as defined in the Plan documents, through periodic payroll deductions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to the allowable limits, as defined in the Internal Revenue Code (IRC).

The Plan also provides participants with the option to designate some or all of their contributions as Roth deferrals. The Roth deferral option allows participants to make after-tax contributions to a Roth deferral account. These Roth deferrals, plus the earnings accumulated on them, may be withdrawn tax-free from a participant's Roth deferral account, provided the participant satisfies certain Roth deferral distribution requirements. Roth deferrals are subject to the same IRC contribution limits as pre-tax contributions.

Insmed, Inc. 401(k) Plan and Trust

Notes to Financial Statements

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 4% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

Participants direct their contributions into the various investment options offered by the Plan and can change their investment allocations on a daily basis.

Employer

The terms of the Plan provide that the Company may contribute discretionary matching Employer contributions to participant accounts. For the year ended December 31, 2024, the Company elected to contribute 100% of the first 4% of eligible compensation that a participant contributes to the Plan (Discretionary Matching Employer Contributions). For the year ended December 31, 2024, the Company made \$7,381,609 in Discretionary Matching Employer Contributions. The Discretionary Matching Employer Contributions are allocated to the investment options in the same proportions as the participants' contributions. All Plan participants are eligible for the Discretionary Matching Employer Contribution.

Additional profit-sharing amounts may be contributed at the option of the Company. No profit-sharing contributions were made during the year ended December 31, 2024.

Under the Plan, there is no option for employees to invest any of their 401(k) funds in the Company's common stock.

All participant and Employer contributions are subject to certain limitations of the IRC.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's Discretionary Matching Employer Contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Additional profit-sharing contributions, if any, are allocated to participants based upon the relationship of their wages to the total of all participants' wages for the Plan year.

Vesting

Participants are vested immediately in their contributions, the Company's Discretionary Matching Employer Contributions, and profit-sharing contributions, plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their account balance up to a maximum equal to the lesser of \$50,000 or 50% of the participant's vested account balance. The Plan requires a minimum loan of \$1,000. Participants are permitted to have one loan outstanding at any time. Certain other restrictions apply, as defined in the Plan.

Insmed, Inc. 401(k) Plan and Trust

Notes to Financial Statements

The loans are repaid ratably through semi-monthly payroll deductions over a period not to exceed five years, unless the loans were used to purchase a primary residence, in which case the loan terms may exceed five years. If a participant terminates employment, retires, or dies, the outstanding loan balance will be treated as a part of the distribution of the participant's account. The loans are collateralized by the balance in the participant's account and bear interest at fixed rates, determined at the loan inception. The loan interest rate is determined by the Plan administrator and is required to be based on the prevailing interest rates charged by persons in the business of lending money for loans that would be made under similar circumstances.

Payment of Benefits

On termination of service, death, disability, retirement, or in-service withdrawal after age 59½, a participant may elect to receive a lump-sum amount. Withdrawals from the Plan may also be made upon circumstances of financial hardship, in accordance with provisions specified in the Plan. All vested balances less than \$7,000 may be automatically distributed as a lump sum at the discretion of the Company.

Administrative Expenses

Administrative expenses, as presented in the statement of changes in net assets available for benefits, represent those expenses charged directly to the participants' accounts to whom they relate, and include charges, such as check disbursement, loan transaction, insufficient funds, and investment advice fees. Fund management fees, as well as expenses associated with recordkeeping and Plan management services, less an annual reimbursement credit and other funding provided by the recordkeeper, are charged against the net appreciation in fair value of investments. All other expenses are paid by the Company and primarily consist of ERISA compliance and Trustee services, Plan amendment costs, and audit fees, and are excluded from these financial statements.

The Plan has a revenue-sharing agreement with Fidelity for the reimbursement of Plan expenses. Any excess revenue over the Plan expenses during the year becomes part of the Plan assets and will be used to pay future Plan expenses. For the year ended December 31, 2024, the Plan received credits of \$37,271, which were used to pay administrative expenses. Unallocated revenue credits at December 31, 2024 and 2023 were \$28,695 and \$15,962, respectively. Administrative expenses are presented net of revenue credits in the statement of changes in net assets available for benefits.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Insmed, Inc. 401(k) Plan and Trust

Notes to Financial Statements

Investment Valuation and Income Recognition

Investments held by the Plan are reported at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Loans to participants are carried at unpaid principal balance plus accrued but unpaid interest. No allowances for credit losses have been recorded as of December 31, 2024 and 2023. Participant loans deemed delinquent 90 days after the loan repayment is due and unpaid at the end of each calendar year quarter are recorded as a distribution, in accordance with the terms of the Plan and applicable law.

Contributions Receivable

Participant contributions and any related Discretionary Matching Employer Contributions are recognized in the period during which the Company makes the respective payroll deduction from the participant's compensation. Profit-sharing contributions are recorded in the relevant period in accordance with the terms in the Plan document.

Payment of Benefits

Benefits are recorded when paid.

3. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Insmed, Inc. 401(k) Plan and Trust

Notes to Financial Statements

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methodologies for the Plan assets measured at fair value. There have been no changes to the methodologies used at December 31, 2024 and 2023.

Mutual Funds - Mutual funds consist of publicly traded funds of registered investment companies. The fair value of mutual fund investments is valued at the quoted daily closing price, as reported by the fund.

Collective Investment Trusts (CITs) - CITs are valued at the net asset value (NAV) of units held. The NAV, as provided by the trustee of the CITs, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the CIT, less its liabilities. This practical expedient is not used when it is determined to be probable that the CITs will sell for an amount different than the reported NAV. The CITs provide for daily redemptions by the Plan at reported NAV with no advance notice. There are no unfunded commitments related to these investments. These are direct-filing entities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis:

December 31, 2024

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 63,909,753	\$ -	\$ -	\$ 63,909,753

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 44,291,682	\$ -	\$ -	\$ 44,291,682
Investments measured at NAV				47,413,293
Total Investments, at fair value				\$ 91,704,975

4. Information Certified by the Plan's Trustee

Certain information disclosed in the accompanying financial statements and ERISA-required supplemental schedules, related to investments and notes receivable from participants held as of December 31, 2024 and 2023, and net appreciation in fair value of investments, interest and dividend income, and interest income on notes receivable from participants for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity, a qualified institution.

5. Related Party and Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by an affiliate of Fidelity, as defined by the Plan, and, therefore, these transactions qualify as party-in-interest. The Plan also issues loans to participants, which are secured by the vested balance of the participants' accounts. As described in Note 1, the Plan paid certain expenses related to Plan operations and investment activity and received certain amounts as part of the revenue-sharing agreement with Fidelity. These transactions also qualify as party-in-interest transactions, which are exempt from prohibited transaction rules.

6. Tax Status

The Plan uses a pre-approved plan document sponsored by Fidelity Management & Research Company, LLC (FMR LLC). FMR LLC received an opinion letter from the Internal Revenue Service (IRS), dated June 30, 2020, which states that the pre-approved plan document, as then-designed, satisfies the applicable provisions of the IRC. Although the Plan has been amended since the date of the opinion letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal, state, and/or local taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan termination, no contributions would thereafter be made to the Plan and participants would remain 100% vested in their Employer contributions.

Insmed, Inc. 401(k) Plan and Trust

Notes to Financial Statements

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Delinquent Participant Contributions

During the Plan year ended December 31, 2023, participant contributions totaling \$100 were not remitted to the Plan within the period prescribed by the Department of Labor's regulations. These transactions constituted non-exempt party-in-interest transactions or prohibited transactions as defined by ERISA. The Employer identified and remitted these participant contributions in 2023. The related lost earnings were remitted to the Plan during 2024.

10. Subsequent Events

The Plan evaluated subsequent events for the Plan through October 8, 2025, the date the financial statements were available to be issued.

Effective January 1, 2025, the Plan was amended to permit participants to contribute after-tax contributions up to 90% of compensation and to allow in-Plan Roth rollover conversions. Additionally, the deferral rate for automatic enrollment was increased from 4% of eligible compensation to 5% of eligible compensation. Effective June 2, 2025, the deferral limit for pre-tax, Roth, and after-tax contributions was amended to up to 70% of compensation with catch-up contributions permitted up to 75% of compensation. Effective July 28, 2025, the deferral limit for all participant contributions was amended to up to 75% of eligible compensation.

Effective January 1, 2025, the Company also increased the Discretionary Matching Employer Contribution to 100% of the first 5% of eligible compensation that a participant contributes to the Plan.

Independent Auditor's Report

The Plan Administrator
Insmed, Inc. 401(k) Plan and Trust
Bridgewater, New Jersey

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Insmed, Inc. 401(k) Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H (Form 5500), Line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2024 and Schedule H (Form 5500), Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and

other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedules agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

1. Description of the Plan

The following description of the Insmed, Inc. 401(k) Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all U.S. employees of Insmed, Inc. and participating employers (the Company or Employer). All full-time employees, provided they are a minimum of 18 years of age, are eligible to participate in the Plan, unless they are leased employees. An eligible participant can enter the Plan on the first of the month. Entry into the Plan is monthly and participation is voluntary. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The 401(k) Committee of the Plan, which is comprised of a group of Company executives with sufficient expertise to meet the "prudent expert standard of care" requirement of ERISA, oversees the management and investment of assets of the Plan. Its responsibilities include, but are not limited to, selecting and monitoring the Plan's recordkeeper and trustee; maintaining an appropriate selection of investment options under the Plan, based on the investment policy; and monitoring the performance of the Plan's investments, as well as its service providers.

As the recordkeeper for the Plan, Fidelity Management Trust Company (Fidelity or the Trustee) is responsible for maintaining and updating individual participant account balances, as well as information regarding Plan contributions, withdrawals, and distributions. Fidelity also serves as the Plan's Trustee, which is responsible for holding and investing Plan assets in accordance with the Plan documents.

The primary objective of the Plan is to provide eligible employees of the Company with the long-term accumulation of retirement savings through a combination of employee and discretionary Employer contributions, and the potential earnings thereon.

Contributions

Participant

Participants may contribute up to 90% of pre-tax annual compensation, as defined in the Plan documents, through periodic payroll deductions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to the allowable limits, as defined in the Internal Revenue Code (IRC).

The Plan also provides participants with the option to designate some or all of their contributions as Roth deferrals. The Roth deferral option allows participants to make after-tax contributions to a Roth deferral account. These Roth deferrals, plus the earnings accumulated on them, may be withdrawn tax-free from a participant's Roth deferral account, provided the participant satisfies certain Roth deferral distribution requirements. Roth deferrals are subject to the same IRC contribution limits as pre-tax contributions.

Insmed, Inc. 401(k) Plan and Trust

Notes to Financial Statements

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 4% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

Participants direct their contributions into the various investment options offered by the Plan and can change their investment allocations on a daily basis.

Employer

The terms of the Plan provide that the Company may contribute discretionary matching Employer contributions to participant accounts. For the year ended December 31, 2024, the Company elected to contribute 100% of the first 4% of eligible compensation that a participant contributes to the Plan (Discretionary Matching Employer Contributions). For the year ended December 31, 2024, the Company made \$7,381,609 in Discretionary Matching Employer Contributions. The Discretionary Matching Employer Contributions are allocated to the investment options in the same proportions as the participants' contributions. All Plan participants are eligible for the Discretionary Matching Employer Contribution.

Additional profit-sharing amounts may be contributed at the option of the Company. No profit-sharing contributions were made during the year ended December 31, 2024.

Under the Plan, there is no option for employees to invest any of their 401(k) funds in the Company's common stock.

All participant and Employer contributions are subject to certain limitations of the IRC.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's Discretionary Matching Employer Contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Additional profit-sharing contributions, if any, are allocated to participants based upon the relationship of their wages to the total of all participants' wages for the Plan year.

Vesting

Participants are vested immediately in their contributions, the Company's Discretionary Matching Employer Contributions, and profit-sharing contributions, plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their account balance up to a maximum equal to the lesser of \$50,000 or 50% of the participant's vested account balance. The Plan requires a minimum loan of \$1,000. Participants are permitted to have one loan outstanding at any time. Certain other restrictions apply, as defined in the Plan.

Insmed, Inc. 401(k) Plan and Trust

Notes to Financial Statements

The loans are repaid ratably through semi-monthly payroll deductions over a period not to exceed five years, unless the loans were used to purchase a primary residence, in which case the loan terms may exceed five years. If a participant terminates employment, retires, or dies, the outstanding loan balance will be treated as a part of the distribution of the participant's account. The loans are collateralized by the balance in the participant's account and bear interest at fixed rates, determined at the loan inception. The loan interest rate is determined by the Plan administrator and is required to be based on the prevailing interest rates charged by persons in the business of lending money for loans that would be made under similar circumstances.

Payment of Benefits

On termination of service, death, disability, retirement, or in-service withdrawal after age 59½, a participant may elect to receive a lump-sum amount. Withdrawals from the Plan may also be made upon circumstances of financial hardship, in accordance with provisions specified in the Plan. All vested balances less than \$7,000 may be automatically distributed as a lump sum at the discretion of the Company.

Administrative Expenses

Administrative expenses, as presented in the statement of changes in net assets available for benefits, represent those expenses charged directly to the participants' accounts to whom they relate, and include charges, such as check disbursement, loan transaction, insufficient funds, and investment advice fees. Fund management fees, as well as expenses associated with recordkeeping and Plan management services, less an annual reimbursement credit and other funding provided by the recordkeeper, are charged against the net appreciation in fair value of investments. All other expenses are paid by the Company and primarily consist of ERISA compliance and Trustee services, Plan amendment costs, and audit fees, and are excluded from these financial statements.

The Plan has a revenue-sharing agreement with Fidelity for the reimbursement of Plan expenses. Any excess revenue over the Plan expenses during the year becomes part of the Plan assets and will be used to pay future Plan expenses. For the year ended December 31, 2024, the Plan received credits of \$37,271, which were used to pay administrative expenses. Unallocated revenue credits at December 31, 2024 and 2023 were \$28,695 and \$15,962, respectively. Administrative expenses are presented net of revenue credits in the statement of changes in net assets available for benefits.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Insmed, Inc. 401(k) Plan and Trust

Notes to Financial Statements

Investment Valuation and Income Recognition

Investments held by the Plan are reported at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Loans to participants are carried at unpaid principal balance plus accrued but unpaid interest. No allowances for credit losses have been recorded as of December 31, 2024 and 2023. Participant loans deemed delinquent 90 days after the loan repayment is due and unpaid at the end of each calendar year quarter are recorded as a distribution, in accordance with the terms of the Plan and applicable law.

Contributions Receivable

Participant contributions and any related Discretionary Matching Employer Contributions are recognized in the period during which the Company makes the respective payroll deduction from the participant's compensation. Profit-sharing contributions are recorded in the relevant period in accordance with the terms in the Plan document.

Payment of Benefits

Benefits are recorded when paid.

3. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Insmed, Inc. 401(k) Plan and Trust

Notes to Financial Statements

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methodologies for the Plan assets measured at fair value. There have been no changes to the methodologies used at December 31, 2024 and 2023.

Mutual Funds - Mutual funds consist of publicly traded funds of registered investment companies. The fair value of mutual fund investments is valued at the quoted daily closing price, as reported by the fund.

Collective Investment Trusts (CITs) - CITs are valued at the net asset value (NAV) of units held. The NAV, as provided by the trustee of the CITs, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the CIT, less its liabilities. This practical expedient is not used when it is determined to be probable that the CITs will sell for an amount different than the reported NAV. The CITs provide for daily redemptions by the Plan at reported NAV with no advance notice. There are no unfunded commitments related to these investments. These are direct-filing entities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis:

December 31, 2024

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 63,909,753	\$ -	\$ -	\$ 63,909,753

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 44,291,682	\$ -	\$ -	\$ 44,291,682
Investments measured at NAV				47,413,293
Total Investments, at fair value				\$ 91,704,975

4. Information Certified by the Plan's Trustee

Certain information disclosed in the accompanying financial statements and ERISA-required supplemental schedules, related to investments and notes receivable from participants held as of December 31, 2024 and 2023, and net appreciation in fair value of investments, interest and dividend income, and interest income on notes receivable from participants for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity, a qualified institution.

5. Related Party and Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by an affiliate of Fidelity, as defined by the Plan, and, therefore, these transactions qualify as party-in-interest. The Plan also issues loans to participants, which are secured by the vested balance of the participants' accounts. As described in Note 1, the Plan paid certain expenses related to Plan operations and investment activity and received certain amounts as part of the revenue-sharing agreement with Fidelity. These transactions also qualify as party-in-interest transactions, which are exempt from prohibited transaction rules.

6. Tax Status

The Plan uses a pre-approved plan document sponsored by Fidelity Management & Research Company, LLC (FMR LLC). FMR LLC received an opinion letter from the Internal Revenue Service (IRS), dated June 30, 2020, which states that the pre-approved plan document, as then-designed, satisfies the applicable provisions of the IRC. Although the Plan has been amended since the date of the opinion letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal, state, and/or local taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan termination, no contributions would thereafter be made to the Plan and participants would remain 100% vested in their Employer contributions.

Insmed, Inc. 401(k) Plan and Trust

Notes to Financial Statements

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Delinquent Participant Contributions

During the Plan year ended December 31, 2023, participant contributions totaling \$100 were not remitted to the Plan within the period prescribed by the Department of Labor's regulations. These transactions constituted non-exempt party-in-interest transactions or prohibited transactions as defined by ERISA. The Employer identified and remitted these participant contributions in 2023. The related lost earnings were remitted to the Plan during 2024.

10. Subsequent Events

The Plan evaluated subsequent events for the Plan through October 8, 2025, the date the financial statements were available to be issued.

Effective January 1, 2025, the Plan was amended to permit participants to contribute after-tax contributions up to 90% of compensation and to allow in-Plan Roth rollover conversions. Additionally, the deferral rate for automatic enrollment was increased from 4% of eligible compensation to 5% of eligible compensation. Effective June 2, 2025, the deferral limit for pre-tax, Roth, and after-tax contributions was amended to up to 70% of compensation with catch-up contributions permitted up to 75% of compensation. Effective July 28, 2025, the deferral limit for all participant contributions was amended to up to 75% of eligible compensation.

Effective January 1, 2025, the Company also increased the Discretionary Matching Employer Contribution to 100% of the first 5% of eligible compensation that a participant contributes to the Plan.

Independent Auditor's Report

The Plan Administrator
Insmed, Inc. 401(k) Plan and Trust
Bridgewater, New Jersey

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Insmed, Inc. 401(k) Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H (Form 5500), Line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2024 and Schedule H (Form 5500), Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and

other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedules agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

1. Description of the Plan

The following description of the Insmed, Inc. 401(k) Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all U.S. employees of Insmed, Inc. and participating employers (the Company or Employer). All full-time employees, provided they are a minimum of 18 years of age, are eligible to participate in the Plan, unless they are leased employees. An eligible participant can enter the Plan on the first of the month. Entry into the Plan is monthly and participation is voluntary. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The 401(k) Committee of the Plan, which is comprised of a group of Company executives with sufficient expertise to meet the "prudent expert standard of care" requirement of ERISA, oversees the management and investment of assets of the Plan. Its responsibilities include, but are not limited to, selecting and monitoring the Plan's recordkeeper and trustee; maintaining an appropriate selection of investment options under the Plan, based on the investment policy; and monitoring the performance of the Plan's investments, as well as its service providers.

As the recordkeeper for the Plan, Fidelity Management Trust Company (Fidelity or the Trustee) is responsible for maintaining and updating individual participant account balances, as well as information regarding Plan contributions, withdrawals, and distributions. Fidelity also serves as the Plan's Trustee, which is responsible for holding and investing Plan assets in accordance with the Plan documents.

The primary objective of the Plan is to provide eligible employees of the Company with the long-term accumulation of retirement savings through a combination of employee and discretionary Employer contributions, and the potential earnings thereon.

Contributions

Participant

Participants may contribute up to 90% of pre-tax annual compensation, as defined in the Plan documents, through periodic payroll deductions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to the allowable limits, as defined in the Internal Revenue Code (IRC).

The Plan also provides participants with the option to designate some or all of their contributions as Roth deferrals. The Roth deferral option allows participants to make after-tax contributions to a Roth deferral account. These Roth deferrals, plus the earnings accumulated on them, may be withdrawn tax-free from a participant's Roth deferral account, provided the participant satisfies certain Roth deferral distribution requirements. Roth deferrals are subject to the same IRC contribution limits as pre-tax contributions.

Insmed, Inc. 401(k) Plan and Trust

Notes to Financial Statements

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 4% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

Participants direct their contributions into the various investment options offered by the Plan and can change their investment allocations on a daily basis.

Employer

The terms of the Plan provide that the Company may contribute discretionary matching Employer contributions to participant accounts. For the year ended December 31, 2024, the Company elected to contribute 100% of the first 4% of eligible compensation that a participant contributes to the Plan (Discretionary Matching Employer Contributions). For the year ended December 31, 2024, the Company made \$7,381,609 in Discretionary Matching Employer Contributions. The Discretionary Matching Employer Contributions are allocated to the investment options in the same proportions as the participants' contributions. All Plan participants are eligible for the Discretionary Matching Employer Contribution.

Additional profit-sharing amounts may be contributed at the option of the Company. No profit-sharing contributions were made during the year ended December 31, 2024.

Under the Plan, there is no option for employees to invest any of their 401(k) funds in the Company's common stock.

All participant and Employer contributions are subject to certain limitations of the IRC.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's Discretionary Matching Employer Contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Additional profit-sharing contributions, if any, are allocated to participants based upon the relationship of their wages to the total of all participants' wages for the Plan year.

Vesting

Participants are vested immediately in their contributions, the Company's Discretionary Matching Employer Contributions, and profit-sharing contributions, plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their account balance up to a maximum equal to the lesser of \$50,000 or 50% of the participant's vested account balance. The Plan requires a minimum loan of \$1,000. Participants are permitted to have one loan outstanding at any time. Certain other restrictions apply, as defined in the Plan.

Insmed, Inc. 401(k) Plan and Trust

Notes to Financial Statements

The loans are repaid ratably through semi-monthly payroll deductions over a period not to exceed five years, unless the loans were used to purchase a primary residence, in which case the loan terms may exceed five years. If a participant terminates employment, retires, or dies, the outstanding loan balance will be treated as a part of the distribution of the participant's account. The loans are collateralized by the balance in the participant's account and bear interest at fixed rates, determined at the loan inception. The loan interest rate is determined by the Plan administrator and is required to be based on the prevailing interest rates charged by persons in the business of lending money for loans that would be made under similar circumstances.

Payment of Benefits

On termination of service, death, disability, retirement, or in-service withdrawal after age 59½, a participant may elect to receive a lump-sum amount. Withdrawals from the Plan may also be made upon circumstances of financial hardship, in accordance with provisions specified in the Plan. All vested balances less than \$7,000 may be automatically distributed as a lump sum at the discretion of the Company.

Administrative Expenses

Administrative expenses, as presented in the statement of changes in net assets available for benefits, represent those expenses charged directly to the participants' accounts to whom they relate, and include charges, such as check disbursement, loan transaction, insufficient funds, and investment advice fees. Fund management fees, as well as expenses associated with recordkeeping and Plan management services, less an annual reimbursement credit and other funding provided by the recordkeeper, are charged against the net appreciation in fair value of investments. All other expenses are paid by the Company and primarily consist of ERISA compliance and Trustee services, Plan amendment costs, and audit fees, and are excluded from these financial statements.

The Plan has a revenue-sharing agreement with Fidelity for the reimbursement of Plan expenses. Any excess revenue over the Plan expenses during the year becomes part of the Plan assets and will be used to pay future Plan expenses. For the year ended December 31, 2024, the Plan received credits of \$37,271, which were used to pay administrative expenses. Unallocated revenue credits at December 31, 2024 and 2023 were \$28,695 and \$15,962, respectively. Administrative expenses are presented net of revenue credits in the statement of changes in net assets available for benefits.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Insmed, Inc. 401(k) Plan and Trust

Notes to Financial Statements

Investment Valuation and Income Recognition

Investments held by the Plan are reported at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Loans to participants are carried at unpaid principal balance plus accrued but unpaid interest. No allowances for credit losses have been recorded as of December 31, 2024 and 2023. Participant loans deemed delinquent 90 days after the loan repayment is due and unpaid at the end of each calendar year quarter are recorded as a distribution, in accordance with the terms of the Plan and applicable law.

Contributions Receivable

Participant contributions and any related Discretionary Matching Employer Contributions are recognized in the period during which the Company makes the respective payroll deduction from the participant's compensation. Profit-sharing contributions are recorded in the relevant period in accordance with the terms in the Plan document.

Payment of Benefits

Benefits are recorded when paid.

3. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Insmed, Inc. 401(k) Plan and Trust

Notes to Financial Statements

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methodologies for the Plan assets measured at fair value. There have been no changes to the methodologies used at December 31, 2024 and 2023.

Mutual Funds - Mutual funds consist of publicly traded funds of registered investment companies. The fair value of mutual fund investments is valued at the quoted daily closing price, as reported by the fund.

Collective Investment Trusts (CITs) - CITs are valued at the net asset value (NAV) of units held. The NAV, as provided by the trustee of the CITs, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the CIT, less its liabilities. This practical expedient is not used when it is determined to be probable that the CITs will sell for an amount different than the reported NAV. The CITs provide for daily redemptions by the Plan at reported NAV with no advance notice. There are no unfunded commitments related to these investments. These are direct-filing entities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis:

December 31, 2024

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 63,909,753	\$ -	\$ -	\$ 63,909,753

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 44,291,682	\$ -	\$ -	\$ 44,291,682
Investments measured at NAV				47,413,293
Total Investments, at fair value				\$ 91,704,975

4. Information Certified by the Plan's Trustee

Certain information disclosed in the accompanying financial statements and ERISA-required supplemental schedules, related to investments and notes receivable from participants held as of December 31, 2024 and 2023, and net appreciation in fair value of investments, interest and dividend income, and interest income on notes receivable from participants for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity, a qualified institution.

5. Related Party and Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by an affiliate of Fidelity, as defined by the Plan, and, therefore, these transactions qualify as party-in-interest. The Plan also issues loans to participants, which are secured by the vested balance of the participants' accounts. As described in Note 1, the Plan paid certain expenses related to Plan operations and investment activity and received certain amounts as part of the revenue-sharing agreement with Fidelity. These transactions also qualify as party-in-interest transactions, which are exempt from prohibited transaction rules.

6. Tax Status

The Plan uses a pre-approved plan document sponsored by Fidelity Management & Research Company, LLC (FMR LLC). FMR LLC received an opinion letter from the Internal Revenue Service (IRS), dated June 30, 2020, which states that the pre-approved plan document, as then-designed, satisfies the applicable provisions of the IRC. Although the Plan has been amended since the date of the opinion letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal, state, and/or local taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan termination, no contributions would thereafter be made to the Plan and participants would remain 100% vested in their Employer contributions.

Insmed, Inc. 401(k) Plan and Trust

Notes to Financial Statements

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Delinquent Participant Contributions

During the Plan year ended December 31, 2023, participant contributions totaling \$100 were not remitted to the Plan within the period prescribed by the Department of Labor's regulations. These transactions constituted non-exempt party-in-interest transactions or prohibited transactions as defined by ERISA. The Employer identified and remitted these participant contributions in 2023. The related lost earnings were remitted to the Plan during 2024.

10. Subsequent Events

The Plan evaluated subsequent events for the Plan through October 8, 2025, the date the financial statements were available to be issued.

Effective January 1, 2025, the Plan was amended to permit participants to contribute after-tax contributions up to 90% of compensation and to allow in-Plan Roth rollover conversions. Additionally, the deferral rate for automatic enrollment was increased from 4% of eligible compensation to 5% of eligible compensation. Effective June 2, 2025, the deferral limit for pre-tax, Roth, and after-tax contributions was amended to up to 70% of compensation with catch-up contributions permitted up to 75% of compensation. Effective July 28, 2025, the deferral limit for all participant contributions was amended to up to 75% of eligible compensation.

Effective January 1, 2025, the Company also increased the Discretionary Matching Employer Contribution to 100% of the first 5% of eligible compensation that a participant contributes to the Plan.
