## Independent Auditor's Report

To the Participants and Plan Administrator of the  
ERW Employee Stock Ownership Plan  
Fort Worth, Texas

### **Opinion**

We have audited the financial statements of ERW Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statement of net assets (deficit) available for benefits as of December 31, 2024, and the related statement of changes in net assets (deficit) available for benefits from inception (January 1, 2024) through December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets (deficit) available for benefits of the Plan as of December 31, 2024, and the changes in its net assets (deficit) available for benefits from inception (January 1, 2024) through December 31, 2024, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

### **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Management's Responsibilities for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events that, considered in the aggregate, raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

To the Participants and Plan Administrator of the  
ERW Employee Stock Ownership Plan

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore there is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events that, considered in the aggregate, raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Supplemental Information Required by ERISA***

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental information listed in the index as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

To the Participants and Plan Administrator of the  
ERW Employee Stock Ownership Plan

In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including the form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

## **ERW Employee Stock Ownership Plan**

### **Notes to the Financial Statements December 31, 2024**

---

#### **Note 1 – Plan Description**

The following brief description of the ERW Employee Stock Ownership Plan (the “Plan” or “ESOP”) provides only general information. Participants should refer to the Summary Plan Description and the Plan Document for a more complete description of the Plan’s provisions.

##### ***General***

The Plan was established on January 1, 2024 (“inception date”) and is a defined contribution plan covering all eligible employees of RW Assets, Inc., d/b/a ERW Site Solutions (the “Company,” “Employer,” or “Sponsor”). The Plan operates as a leveraged employee stock ownership plan and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (“IRC”), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The investment committee of the ESOP, appointed by the Company’s board of directors, is the Plan Administrator, and a third-party is responsible for recordkeeping of the Plan. An officer of the Company serves as the Plan’s Trustee. The Sponsor has designated a separate trustee, the trust department of an independent third-party bank, to hold the assets under the Plan.

##### ***Eligibility and Plan Entrance Date***

Certain employees are not eligible to participate in the Plan, including union employees covered by a collective bargaining agreement, nonresident aliens, leased employees, residents of Puerto Rico, or inbound United States expatriate employees. Effective January 1, 2024, all non-excluded employees of the Company who were aged 21 or older and employed on October 31, 2024, became participants in the Plan. All other employees employed after October 31, 2024, become eligible to participate in the Plan upon completing six months of service and reaching 21 years of age. After October 31, 2024, eligible employees are permitted to enter the Plan on the first day of the month after which the employee has satisfied the eligibility requirements.

##### ***Employer Contributions***

The Employer is obligated to make cash contributions to the Plan in an amount that, when aggregated with the Plan’s dividends and interest earnings, is sufficient to enable the Plan to make its regularly scheduled payments of principal and interest due on its long-term debt, if any.

##### ***Payment of Benefits***

Distributions to participants who separate from service due to death, disability, or retirement are made as a lump sum in the Plan year following the separation event. For participants who separate from service for other reasons, distributions commence in the fifth Plan year following the separation event. For vested account balances less than or equal to \$1,000, the Plan Administrator makes the distribution as a lump sum payment. For account balances that exceed \$1,000 but are less than \$7,000, the Plan Administrator makes the distribution as a lump sum or direct rollover to an individual retirement plan. For vested account balances greater than \$7,000, the Plan Administrator shall make the distribution either: (i) no later than one year after the close of the Plan year in which such event occurs or, (ii) if distribution is for any reason other than by reason of death, disability, or retirement, no later than one year after the close of the fifth Plan year in which the participant experienced the separation event.

##### ***Administrative Expenses***

Certain administrative fees are paid by participants through their Plan accounts. Other expenses for maintaining the Plan are paid by the Employer and are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

#### Note 1 – Plan Description (continued)

##### ***Voting Rights***

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

##### ***Participant Accounts***

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible as of the last day of the Plan year or participants who reached 65 years of age prior to termination in the current Plan year will receive an allocation. Allocations are 50% based on a participant's eligible compensation, relative to total eligible compensation, and 50% based on the participant's total years of benefit service, relative to total years of benefit service. A participant will earn one year of benefit service for periods prior to January 1, 2024, for each 12-month period of employment, measured from a participant's most recent date of hire or rehire prior to January 1, 2024. For periods on and after January 1, 2024, a participant will earn one year of benefit service for each Plan year during which the participant is credited with 1,000 or more hours of service. An employee's benefit service will not include any service prior to January 1, 2014. Contributions are subject to statutory limitations imposed annually by the IRC. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

##### ***Vesting***

Participants become vested in their account balances based on years of vesting service. A participant will earn one year of vesting service upon completion of 1,000 or more hours of service in any Plan year. Participant's vesting service will not include any service prior to January 1, 2024. Vesting occurs at the rate of 25% upon completing two years of service, then 25% per year of service thereafter until reaching full vesting after five years of service. Upon death, disability, or retirement, participants immediately become 100% vested in any unvested Employer contributions, plus income or loss thereon.

Any portion of a terminated participant's account forfeited due to the vesting provisions described above is reallocated within the Plan to other participants based on the participant's eligible compensation as a percentage of the total compensation of all eligible participants.

##### ***Put Option***

Under federal income tax regulations, any Employer stock held by the Plan and its participants that is either not readily tradable in an established market or is subject to trading limitations, includes a put option. The put option is a right to demand that the Employer buy any shares of stock it distributes to participants for which there is no market. The put price is representative of the current appraised value of stock. The Employer can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to obtain cash.

#### Note 1 – Plan Description (continued)

##### *Diversification*

Participants who are at least 55 years of age and have 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution or a direct rollover.

##### *Forfeited Accounts*

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. There were no forfeitures allocated to participants during December 31, 2024. As of December 31, 2024, there were no forfeited nonvested accounts.

#### Note 2 – Summary of Significant Accounting Policies

##### *Basis of Accounting*

The Plan's financial statements are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

##### *Use of Estimates*

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, changes in those assets and liabilities, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

##### *Unallocated and Allocated Shares*

The Plan's financial statements present separately the assets and liabilities and changes therein pertaining to (i) the accounts of employees with rights in allocated stock ("allocated"), and (ii) stock not yet allocated to employees ("unallocated"), including shares that are committed to being released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

##### *Investment Valuation and Income Recognition*

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold, as well as those held during the year.

##### *Payment of Benefits*

Benefit payments are recorded when paid.

#### Note 3 – Investments

All investments are non-participant directed. The Plan’s investments at December 31, 2024, are presented in the following table:

	2024	
	<u>Allocated</u>	<u>Unallocated</u>
RW Assets, Inc.		
Common stock:		
Number of shares	<u>8,333</u>	<u>491,667</u>
Cost	<u>\$ -</u>	<u>\$ 1,941,000</u>
Investment in RW Assets, Inc. common stock at fair value	<u>\$ 267,500</u> <u>\$ 267,500</u>	<u>\$ 15,782,500</u> <u>\$ 15,782,500</u>

#### Note 4 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1), and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 820 are as follows:

- **Level 1** – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.
- **Level 2** – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- **Level 3** – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

- **Company Common Stock** – Reported at fair value based upon an appraisal. See the *Changes in Fair Value of Level 3 Assets* section below.

## ERW Employee Stock Ownership Plan

### Notes to the Financial Statements December 31, 2024

#### Note 4 – Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31, 2024:

	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
RW Assets, Inc. common stock	\$ -	\$ -	\$ 16,050,000	\$ 16,050,000
Investments at fair value	\$ -	\$ -	\$ 16,050,000	\$ 16,050,000

#### Changes in Fair Value of Level 3 Assets

The following is a description of the valuation methodologies used for assets measured at fair value.

The Plan’s investment in RW Assets, Inc. common stock is recorded at fair value based on an independent third-party appraisal. This appraisal is based upon a combination of the market and income valuation techniques as illustrated in the following table:

Instrument	2024 Fair Value	Principal Valuation Technique	Unobservable Inputs
RW Assets, Inc. common stock	\$ 16,050,000	Income approach	Discounted cash flow method Weighted-average cost of capital Discount rate Discount for lack of marketability
		Market approach	Guideline public company method EBITDA multiple Discount for lack of marketability

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

#### Note 5 – Note Payable

On October 31, 2024, the Plan purchased 70,167 shares of the Company’s common stock with a note payable of \$116,461,504. On December 30, 2024, the Board of Directors of the Company authorized a 7.126-for-1 forward stock split of its issued and outstanding shares of common stock (the “Stock Split”). The Stock Split increased the number of shares to 500,000. Unallocated shares are collateral for the note payable. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, multiplied by the ratio of the current year’s payments, divided by the total of this year’s payments, plus all future years’ principal and interest payments. This resulted in 8,333 shares being released and allocated for the Plan year ended December 31, 2024. The note payable agreement provides for repayment over 60 years, including interest at 4.1%.

#### Note 5 – Note Payable (continued)

Future payments of principal on the note payable are summarized as follows:

<u>Year Ending December 31,</u>	
2025	\$ 4,749,495
2026	493,367
2027	513,595
2028	534,653
2029	556,574
Thereafter	109,613,820
	<u>\$ 116,461,504</u>

#### Note 6 – Related Party and Party-in-Interest Transactions

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related party and party-in-interest transactions. As described in Note 1, the Company pays all Plan expenses. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

#### Note 7 – Risks and Uncertainties

The Plan investments consist of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

#### Note 8 – Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Employee Benefits Administration Committee directs the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

#### Note 9 – Tax Status

The Plan has received a determination letter from the Internal Revenue Service ("IRS") dated August 7, 2025, stating that the Plan is qualified under the IRC, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the letter of the determination; however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified, and the related trust is tax-exempt as of the financial statement date.

#### **Note 9 – Tax Status (continued)**

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

#### **Note 10 – Subsequent Events**

The Plan has evaluated subsequent events through October 2, 2025, the date the financial statements were available to be issued.
