Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Scope and Nature of the Employee Retirement Income Security Act of 1974 (“ERISA”) Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of the Hardwicke Chemical, Inc. Pension Plan (the “Plan”), an employee benefit plan subject to ERISA, as permitted by ERISA Section 103(a)(3)(C) (“ERISA Section 103(a)(3)(C) audit”). The financial statements comprise the statements of net assets available for plan benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for plan benefits for the years ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan’s financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s (“DOL”) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (“investment information”) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA (“qualified institution”).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors’ Responsibilities for the Audit of the Financial Statements section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States (“US GAAP”).

Opinion (continued)

- The information in the accompanying financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States ("US GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are issued.

Management is also responsible for maintaining a current Plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Auditors' Responsibilities for the Audit of the Financial Statements (continued)

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of US GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with US GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2024 financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the 2024 financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the 2024 financial statements or to the 2024 financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Other Matter - Supplemental Schedules Required by ERISA (continued)

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements
December 31, 2024 and 2023

1. Description of Plan

The following description of the Hardwicke Chemical, Inc. Pension Plan (the “Plan”) provides only general information. Participants may refer to the Plan’s documents for a more complete description of the Plan’s provisions.

General

The Plan is a defined benefit pension plan and provides for the retention of benefits accrued under certain predecessor plans, together with the regular benefits of the Plan to employees of WeylChem US, Inc. (the “Company”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Eligibility and Vesting

The Plan was closed to new participants effective January 1, 1991. The Plan was amended effective December 31, 2008 to freeze benefit accruals for all plan participants. All participants are fully vested.

Contributions

All contributions to the Plan are made by the Company. The Company’s funding policy is to contribute no less than the minimum contribution as determined by the Plan’s actuary on or before the date of the Company’s corporate tax return. The Plan met the minimum funding requirements of ERISA for the years ended December 31, 2024 and 2023.

Pension Benefits

Participants are entitled to pension benefits upon retirement. Pension benefits are provided to participants under several types of retirement options based upon a formula calculated as a percentage of earnings multiplied by years of credited service, with certain adjustments, as provided by the Plan. Upon retirement, benefits are paid monthly during the lifetime of the retiree, and if applicable, during the lifetime of a surviving beneficiary. The amount of the monthly benefit is based on the participant’s years of service and other factors, as defined by the Plan.

A participant with an eligible spouse receives benefits in the form of a joint and survivor annuity unless a contrary election is made by the participant.

1. Description of Plan (continued)

Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA and its related regulations, generally to provide benefits in the order indicated:

- 1) Annual benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- 2) Other vested benefits insured by the Pension Benefit Guaranty Corporation (“PBGC”) up to the applicable limitations.
- 3) All other vested benefits (that is, vested benefits not insured by the PBGC).

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors’ pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination, subject to a statutory ceiling on the amount of an individual’s monthly benefits.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

Administrative Expenses

The Plan pays trustee, recordkeeping and certain professional fees unless paid by the Company. Expenses paid by the Company are excluded from these financial statements. Investment related expenses are included in administrative expenses.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States (“US GAAP”).

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements and reported changes in net assets during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents consist of deposits with banks and financial institutions which are unrestricted as to withdrawal or use and which have original maturities of three months or less. The Plan maintains cash at high quality financial institutions which, at times, may exceed federally insured limits. However, Plan management periodically evaluates the credit worthiness of those financial institutions and has not experienced any losses on such deposits.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties

The Plan’s investments are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values in investment securities will occur in the near term and that these changes could materially affect the amounts reported in the 2024 statement of net assets available for plan benefits.

Hardwicke Chemical, Inc. Pension Plan
Notes to Financial Statements
December 31, 2024 and 2023

2. Summary of Significant Accounting Policies (continued)

Risks and Uncertainties (continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Benefit Payments to Participants

Benefit payments are recorded when paid.

Benefit payments made in December 2024 and 2023, related to January 2025 and 2024 obligations, respectively, are recorded as prepaid pension benefits on the accompanying statements of net assets available for plan benefits.

3. Investment Certifications

Information disclosed in the accompanying financial statements and supplemental schedules as of and for the years ended December 31, 2024 and 2023, related to investments, net appreciation in fair value of investments, accrued income, plan liabilities, and interest and dividends, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee.

4. Fair Value Measurements

The methods used to measure fair values may produce amounts that may not be indicative of net realizable values or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure fair values of certain financial instruments could result in a different fair value at the reporting date.

US GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs to the valuation methodology are unobservable. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments.

Hardwicke Chemical, Inc. Pension Plan
Notes to Financial Statements
December 31, 2024 and 2023

4. Fair Value Measurements (continued)

When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. The Plan's mutual fund investments were valued using Level 1 inputs, based on quoted market prices.

5. Actuarial Present Value of Accumulated Plan Benefits

Each year, the Company contributes an amount to the Plan which has been actuarially determined to satisfy the minimum funding standards set forth in ERISA. The funding method for the Plan is the aggregate actuarial cost method.

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable to the Plan. Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the actuarial equivalent of the accrued benefit as of the end of the month before the participant's termination of service. Benefits payable under all circumstances (retirement, death, and termination of employment) are included in accumulated benefits, to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial value of accumulated plan benefits is determined by the Plan's actuary.

Hardwicke Chemical, Inc. Pension Plan
Notes to Financial Statements
December 31, 2024 and 2023

5. Actuarial Present Value of Accumulated Plan Benefits (continued)

The significant actuarial assumptions used in the January 1, 2024 and 2023 valuations (the latest valuation dates available) for the Plan are:

- 1) Mortality: 2024 and 2023 Pri-2012 Total Mortality Tables with Scale MP-2021 Mortality Improvement Scale applied on a generational basis
- 2) Interest rate: 6.70% per annum for 2024 and 6.40% per annum for 2023
- 3) Marriage rates: It is assumed that all participants are married, and females are 3 years younger than their spouse.
- 4) Form of payment: Five-year Certain and Life Annuity; 50% Joint & Survivor for future death benefits
- 5) Explicit Provision for Expenses: \$210,000 annually for 2024 and 2023, included in the Target Normal Cost (equal to the prior year's actual administrative expense rounded up to the next \$5,000)
- 6) Termination rates: Termination rates are based on age and are sex-distinct. Sample rates are as follows for 2023 and 2022:

Age	Male	Female
30	7.5%	9.0%
35	6.0%	9.0%
40	4.5%	9.0%
45	3.0%	6.0%
50	1.5%	3.0%
55	0.0%	0.0%

- 7) The weighted average retirement age is 65.

Hardwicke Chemical, Inc. Pension Plan
Notes to Financial Statements
December 31, 2024 and 2023

5. Actuarial Present Value of Accumulated Plan Benefits (continued)

8) Retirement rates: It is assumed that participants retire upon becoming eligible for retirement according to the following rates for both 2023 and 2022:

Age	Male
55-59	3%
60-61	5%
62	30%
63-64	10%
65	100%

9) The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present values of accumulated plan benefits are summarized as follows:

	January 1,	
	2024	2023
Vested benefits:		
Participants currently receiving payments	\$ 14,199,730	\$ 14,563,250
Participants entitled to deferred benefits	1,241,962	1,384,881
Other participants	1,495,705	1,673,098
Total	\$ 16,937,397	\$ 17,621,229

Hardwicke Chemical, Inc. Pension Plan
Notes to Financial Statements
December 31, 2024 and 2023

5. Actuarial Present Value of Accumulated Plan Benefits (continued)

The changes in the actuarial present value of accumulated plan benefits are as follows:

	Years Ended December 31,	
	2024	2023
Balance, beginning of year	\$ 17,621,229	\$ 19,665,757
Increase (decrease) during the year attributable to:		
Increase for interest due to the decrease in the discount period	1,084,725	1,026,634
Change in actuarial assumptions	(425,582)	(1,642,297)
Benefits accumulated and actuarial gain (loss)	23,015	(103,420)
Benefits paid	(1,365,990)	(1,325,445)
Net decrease	(683,832)	(2,044,528)
Balance, end of year	\$ 16,937,397	\$ 17,621,229

6. Party-In-Interest Transactions

The Plan holds investments in mutual funds that are managed by the Plan's Trustee. Total fees paid by the Plan for trustee, recordkeeping, and investment consulting services were approximately \$331,000 and \$373,000 for the years ended December 31, 2024 and 2023, respectively. These transactions qualify as party-in-interest transactions and are tax exempt from the prohibited transactions rules of ERISA.

7. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated May 3, 2010, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). The Plan administrator believes that the Plan is designed and is operating in compliance with the applicable requirements of the IRC.

US GAAP requires the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax period in progress.

Actuarial Assumptions and Methods

ERISA Interest Rates as required by IRC Section 430 based on plan sponsor election of the look-back month for the segment rates:

“Minimum” means for the purpose of calculating the PPA funding liability and normal cost for the minimum required contribution.

“Maximum” means for the purpose of calculating the PPA funding liability and normal cost for the maximum tax-deductible contribution.

Purpose	2024 Plan Year		2023 Plan Year	
	Minimum	Maximum	Minimum	Maximum
Interest rate type	Stabilized	Non-Stabilized	Stabilized	Non-Stabilized
Segment rates or full yield curve	Segment	Segment	Segment	Segment

Next 15 years	4.87%	4.46%	5.00%	3.09%
Over 20 years	5.59%	4.52%	5.74%	3.58%
Applicable law for the segment rates corridor	ARPA	Not Applicable	ARPA	Not Applicable

Expected Long-Term Return on Plan Assets: 6.70% (previously 6.40%), determined by the company and based on the asset mix of 66% stocks, 33% bonds, and 1% cash. This was further reduced by the percentage of non-investment related expenses expected to be paid from the Trust relative to the total asset value to account for the expense load.

Actuarial Assumptions and Methods (continue)

Salary Scale: N/A

Administrative Expenses: Estimated based on the actual administrative expenses paid during the last plan year, net PBGC premiums, plus the expected PBGC premium for the current plan year, rounded to the nearest \$5,000.

Mortality:

ERISA: IRS 2024 Generational Mortality Table as prescribed by IRC Section 430 for plans with more than 500 participants. This is a fully generational mortality table based on the Pri-2012 Total Mortality Tables projected with the adjusted MP 2021 Mortality Improvement Scale with annual mortality improvements capped at 0.78% as required by Secure 2.0 Act. This plan does not have a large enough population to vary from the standard tables. (Previously IRS 2023 Static Mortality Table.)

Retirement Rates: Rates varying by age for active and terminated vested participants who are eligible for retirement: based on the assumption used by the prior actuary for this plan. There has been no pattern of significant consistent gains or consistent losses related to this decrement.

Age	Rate
55 – 59	3%
60 – 61	5%
62	30%
63 – 64	10%
65	100%

Future Terminated Vested participants are assumed to retire and commence benefits at age 65.

Actuarial Assumptions and Methods (continue)

Termination Rates: Rates varying by age and gender. Based on the assumption used by the prior actuary for this plan. There has been no pattern of significant consistent gains or consistent losses related to this decrement

Sample rates are shown below:

Age	Male	Female
30	7.5%	9.0%
35	6.0%	9.0%
40	4.5%	9.0%
45	3.0%	6.0%
50	1.5%	3.0%
55	0.0%	0.0%

Marital Status: 100% of males and females are assumed married, with females 3 years younger than males. Based on the assumption used by the prior actuary for this plan.

Maximum Benefit: \$275,000 for 2024. For determining limitations under funding amounts and liabilities under FASB ASC 960, no future increases in the IRC Section 415 limit have been reflected.

Maximum Salary: N/A

Form of Payment: It has been assumed benefits will be paid in the normal annuity form applicable to the particular benefit. To the extent optional forms of payment are elected and conversions are determined under an actuarial basis, which differs from the basis funded in the valuation, gains or losses will occur. These gains or losses will be recognized through the routine application of the actuarial cost method. Other optional forms are roughly actuarially equivalent on the valuation basis, so no significant gains or losses are anticipated.

Data Assumptions: None

Actuarial Assumptions and Methods (continue)

The actuarial value of assets is equal to:

- a) the market value of assets, including discounted receivables, on the valuation date, less
- b) the following percentages of prior years' investment gains (losses):
 - i) 67% of the prior year, and
 - ii) 33% of the second prior year,

Investment gains and losses are defined as the excess or deficiency of the expected return on the market value (not to exceed the third segment rate for that year) over the actual return on the market value of assets, including discounted receivables, for any given year.

- c) The actuarial value of assets can be neither less than 90% nor greater than 110% of the market value of assets, including discounted receivables.

Shortfall Amortization Charge for ERISA Funding Purposes: Per IRC Section 430(c), the shortfall amortization charge for any plan year is the aggregate total (not less than zero) of the shortfall amortization installments for such plan year with respect to any shortfall amortization base which has not been fully amortized. The shortfall amortization installments are the amounts necessary to amortize the shortfall amortization base of the plan for any plan year in level annual installments over the 15-year period beginning with such plan year.

Actuarial Cost Method: The unit credit cost method is used for ERISA funding target (FT) and FASB ASC 960 purposes. Under this method, accrued pension benefits are determined for all eligible active participants. These benefits reflect service, salary and negotiated benefit increases to date. The liability is then equal to the present value of all benefits (PVAB) for inactive participants plus the PVAB for active participants.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings, or negotiated benefit increases, to date in both cases. The total normal cost is based upon the sum of the individual normal costs. The target normal cost for funding is equal to the total normal cost plus assumed administrative expenses expected to be paid from the trust.

Actuarial Assumptions and Methods (continue)

The projected unit credit method is used for IRS maximum deductible limit cushion amount. Under this method, accrued pension benefits are determined for all eligible active participants reflecting service to date and anticipated salary and negotiated benefit increases to the assumed retirement age. This liability for active participants is then added to the present value of all benefits for inactive participants to determine the total liability under this method.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings and negotiated benefit increases projected to assumed retirement age in both cases. The total normal cost is based upon the sum of the individual normal costs.

Schedule SB, Part V – Summary of Plan Provisions
Hardwicke Chemical Inc. Pension Plan
EIN: 57-0485226 PN: 002

Plan Provisions

Name of Plan: Hardwicke Chemical Inc. Pension Plan

Employer Identification Number / Plan Number: 57-0485226 / 002

Effective Date: October 1, 1978. Effective date of most recent plan restatement: January 1, 2009.

Plan Year: January 1 – December 31

Covered Employees: Participation is frozen for employees hired or rehired after November 30, 1990. Prior to the participation freeze, requirements were the attainment of age 21.

Participation Date: Date of becoming a covered employee.

Definitions

Eligible Employees: An employee becomes a participant immediately upon attainment of age 21. The Plan was closed to new entrants as of November 30, 1990.

Vesting Service: One year of vesting service is credited for each plan year during which the participant completes 1,000 or more hours of service.

Benefit Service: One year of service is credited for each plan year during which the participant completes at least 2,000 hours of service. Fractional years of benefit service are granted based on the ratio of actual hours worked to 2,000.

Average Monthly Compensation: The highest consecutive 3-year average of plan year compensation out of the last 5 years of service (expressed as a monthly amount).

Normal Retirement Date (NRD): The first day of the month coinciding with or next following the attainment of age 65.

Plan Provisions (continued)

Monthly Accrued Benefit: A Participant's Monthly Accrued Benefit payable as a 5 year Certain and Continuous Annuity at Normal Retirement Date is the sum of:

- (i) 1.1% of Average Monthly Compensation multiplied by the Participant's years of benefit service; and
- (ii) 0.4 % of Average Monthly Compensation in excess of covered compensation, multiplied by the Participant's years of benefit service (not greater than 35 years).

For salaried employees with an accrued benefit as of June 30, 1988 and hourly employees with an accrued benefit as of December 31, 1989, the accrued benefit may not be less than:

- (i) The accrued benefit as of June 30, 1988 for salaried employees or the accrued benefit as of December 31, 1989 for hourly employees; plus
- (ii) One-twelfth (1/12th) of the sum of 1.8% of the Participant's earnings and 0.2% of earnings in excess of the Taxable Wage Base, multiplied by the ratio (not to exceed 1.0) of actual hours worked to 2,000 hours.

Benefit accruals were frozen effective December 31, 2008.

Available Benefits:

Normal Retirement

Eligibility: Retirement on Normal Retirement Date

Normal Retirement Benefit: A Participant's Monthly Accrued Benefit payable as a 5 year Certain and Continuous Annuity.

Disability Retirement

Eligibility: The participant must be eligible for long-term disability.

Benefit: The Monthly Accrued Benefit as of the commencement date. A participant who is eligible for disability retirement may elect to receive their benefit at age 55 and receive an amount reduced by 7% for each year commencement precedes age 60.

Plan Provisions (continued)

Early Retirement

Eligibility: The attainment of age 55 and 10 years of vesting service.

Benefit: The Monthly Accrued Benefit reduced by 7% for each year commencement precedes the first of the month next following the attainment of age 60.

Temporary Supplement

Eligibility: Retirement from active service after the attainment of age 55 and 15 years of vesting service.

Benefit: A monthly annuity payable until age 62, which equals the number of completed years of Benefit Service multiplied by an amount determined in accordance with the following schedule:

Amount	Has Attained Age	But Has Not Attained Age
\$5.00	60	62
4.60	59	60
4.20	58	59
3.80	57	58
3.40	56	57
3.00	55	56

Late Retirement

Eligibility: Termination after Normal Retirement Date.

Benefit: The Monthly Accrued Benefit actuarially increased from Normal Retirement Date to the commencement date.

Termination with Deferred Vested Benefit

Eligibility: The completion of at least 5 years of vesting service.

Benefit: The Monthly Accrued Benefit payable at normal retirement. Participants with 10 years of vesting service at termination are eligible to commence payments early and receive a benefit reduced by 5/9% for each of the first 60 months, and 5/18% for each of the next 60 months by which commencement precedes normal retirement. Inactive participants that commence after their normal retirement date due to administrative delay receive a retroactive distribution for missed payments with interest, based on 120% of the federal mid-term rate for the first month of the plan year that includes the commencement date

Plan Provisions (continued)

Pre-Retirement Death

Eligibility: Death after the completion of at least 5 years of vesting service with a surviving spouse.

Benefit: The surviving spouse of a terminated participant is eligible to receive the survivor's portion of the 50% Joint and Survivor annuity that would have been payable had the participant terminated employment on their date of death, survived to their earliest retirement date, and begun receiving benefits as a 50% Joint and Survivor annuity. This benefit is payable at the earliest date the participant could have retired under the plan.

Forms of Payment

Normal Form (single participants): 5 Year Certain and Life Annuity.

Normal Form (married participants): Actuarially equivalent 50% Joint and Survivor annuity

Optional forms:

Participants who retire under the plan may elect a single life annuity or joint and survivor annuity (50%, 75%, 100%).

Optional forms of benefits are equal to the Actuarial Equivalent of the Normal Benefit Form. Actuarial Equivalent is based on the tabular factors as defined in the plan document.

Maximum on Benefits and Pay: All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Future Plan Changes: No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions.
