INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
MRC Employee Stock Ownership Plan

Opinion

We have audited the financial statements of MRC Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of MRC Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of MRC Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about MRC Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of MRC Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about MRC Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2024 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

MRC EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the MRC Employee Stock Ownership Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

DWMRC Holdings, Inc. (the “Company”) established the Plan effective January 1, 2010, as a qualified retirement plan to comply with the regulations of the Internal Revenue Code (IRC) so employees may share in profits of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Board of Directors of the Company. GreatBanc Trust Company is the trustee of the Plan.

The Plan purchased 100,000 shares of common stock of the Company using proceeds from a non-recourse promissory note with the Company. The stock is held in a trust established by the Plan. The note is to be paid over a 15-year period by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible participant accounts in accordance with Plan provisions and the applicable regulations under the IRC.

The note is collateralized by the unallocated shares of Company common stock and is guaranteed by the Company. Accordingly, the financial statements of the Plan present separately the assets, liabilities, net assets, and changes in net assets by allocated and unallocated Company common stock.

Eligibility

The Plan covers all employees of the Company, except those covered by a collective bargaining agreement, considered leased, employed by a related employer that is not an adopting employer, and employees who are nonresident aliens deriving no earned income from sources within the United States. Employees are eligible to participate on the last day of June or December coinciding with, or next following, the attainment of 21 years of age and the completion of 1,000 hours within a 12-consecutive month period.

Contributions

Participants cannot contribute to the Plan. The Company is obligated to make contributions in cash to the Plan equal to the amount necessary for the Plan to make its regularly scheduled payments of principal and interest due on its note payable. The Company may also make a discretionary contribution. The Company made contributions of \$808,176 during 2024.

Participant Accounts

Separate accounts are maintained for each participant, which include an employer stock and cash account. As of the last day of each plan year, Company common stock released from the unallocated account, discretionary contributions, and forfeitures will be allocated to participants that have completed 1,000 hours of service and are employed on the last day of the plan year based on the relation of the participant’s eligible compensation for the plan year subject to certain limitations. Investment earnings and expenses are also totaled and allocated to all participants based upon the beginning balance in their cash account less any distributions since the preceding allocation date.

MRC EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Payment of Benefits

Distributions will be made due to retirement (normal retirement age under the Plan is 65), death, total and permanent disability, or termination of employment with the Company. Beginning at age 55, for each participant who has at least 10 years of participation in the Plan, for the next six years the participant may elect to receive the option for a diversification distribution. The diversification option allows for a withdrawal of 25% of the participant's Company common stock value for the first 5 years and 50% of the participant's Company common stock value for the 6th year, reduced by any amounts previously elected to be diversified.

Distributions of a participant's vested account will be made in either a single lump sum distribution or installment payments over a period generally not to exceed five years. Distributions will be in cash, shares of the Company stock, or partially of each. Distribution in Company stock may be subject to a mandatory requirement that the participant immediately resell the stock back to the Company. The Company or the Plan will have the option to pay the purchase price for the participant's Company common stock in one lump sum or in substantially equal, annual installments over a period not exceeding five years with interest. Distributions in cash will equal the vested balance of the Company common stock's fair value, plus any cash in the participant's account. The value of the Company common stock will generally be valued as of the end of the plan year which precedes or coincides with the date of distribution.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, death, or disability, they will vest in the balance in their account based on total years of service with the Company. Participants vest 20% upon completion of two years of service and 20% a year, thereafter. Upon completion of six years of service, a participant is fully vested. Participants who end employment as a result of retirement, death, or permanent disability become fully vested.

Forfeitures

Forfeitures in any year are to be allocated to the participants on the same basis as the Company contributions. At December 31, 2024 and 2023, there was no forfeitures balance. Forfeitures of \$4,165 were allocated to the participants in 2024.

Voting Rights

Participants may direct the trustee's voting rights of the Company common stock with respect to corporate matters that relate to a merger, consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all assets of the Company. Participants shall be notified by the Company prior to such times that such rights are to be exercised. The trustee of the Plan shall have the right to vote Company common stock in all cases where participants fail to give voting instructions and when voting rights do not apply. The trustee of the Plan must vote unallocated shares in the same proportion as the votes of participants with allocated shares.

December 31, 2024 and 2023

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Put Option

Under Federal income tax regulations, the Company common stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put option allows participants to exercise their option within one of two option periods. The first put option period is for a period of at least 60 days commencing on the date of distribution of the Company common stock from the Plan to participants. The second put option period is for a period of at least 60 days commencing on the first day after the new determination of the fair value of the Company common stock is made in the plan year immediately following the distribution. If participants do not elect to exercise their put option during these put option periods, participants should be aware that the Company will not be legally obligated to repurchase the Company common stock if they later decide to put the Company common stock to the Company for repurchase. The put price is representative of the fair value of the common stock on the most recent valuation date prior to the date the option is exercised.

Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination, all participants will become 100% vested and the interest of each participant in the Plan will be distributed to such participant or beneficiary at the time prescribed by the Plan.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting and present separately the assets and liabilities and changes therein pertaining to accounts of participants with allocated common stock and unallocated common stock. Common stock is allocated when shares of common stock are released from collateral and become allocated which generally occurs in the year in which the debt is actually paid.

Investment Valuation and Income Recognition

Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Net appreciation in fair value of investments includes gains and losses on investments bought and sold, as well as held during the year.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from the financial statements. The Company has historically paid all operating expenses for the Plan.

MRC EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Benefits Paid to Participants

Benefits are recorded when distributed.

Federal Income Taxes

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated September 24, 2013, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan to determine if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 3 - INVESTMENTS

The Plan's investment in DWMRC Holdings, Inc. common stock at December 31 is as follows:

NOTE 4 - FAIR VALUE MEASUREMENTS

Various inputs are used in determining the fair value of the Plan's investments. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy, including the types of Plan investments that fall under each category and the valuation methodologies used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable inputs (i.e., projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

DWMRC Holdings, Inc. - Common Stock: Valued at fair value as determined by an annual independent appraisal based on a combination of guideline company and discounted cash flows methods. Fair value per share of the common stock was \$58.60 and \$55.80 at December 31, 2024 and 2023, respectively. Annually, the Board of Directors assess and approve the fair value measurement policies and procedures. At least annually, management determines if the current valuation techniques used in the fair value measurements are still appropriate and evaluates and adjusts the unobservable inputs used in the fair value measurements based on current market conditions and third-party information.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The inputs and methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. There have been no changes in the methodologies used at December 31, 2024 or 2023.

MRC EMPLOYEE STOCK OWNERSHIP PLAN

December 31, 2024 and 2023

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024 and 2023:

<u>Description</u>	<u>2024</u>			<u>Total</u>
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	
DWMRC Holdings, Inc. - Common Stock			<u>\$5,860,000</u>	<u>\$5,860,000</u>
Total investments at fair value			<u>\$5,860,000</u>	<u>\$5,860,000</u>

<u>Description</u>	<u>2023</u>			<u>Total</u>
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	
DWMRC Holdings, Inc. - Common Stock			<u>\$5,580,000</u>	<u>\$5,580,000</u>
Total investments at fair value			<u>\$5,580,000</u>	<u>\$5,580,000</u>

There were no sales or purchases in the DWMRC Holdings, Inc. - Common Stock during 2024.

NOTE 5 - NOTE PAYABLE

On December 20, 2010, the Plan entered into a 15-year term \$16,000,000 non-recourse promissory note pursuant to a loan agreement with the Company. The proceeds of the loan were used by the Plan solely to purchase 100,000 shares of the Company's common stock. Unallocated shares are collateral for the note. The loan is payable in annual installments of \$480,555, including interest at 3.67%, with final payment due on December 31, 2024. The balance on the loan was \$459,676 at December 31, 2023. The loan was paid in full in 2024.

The shares of the Company's common stock for the loan are held in suspense and not initially allocated to eligible participant accounts. As principal and interest payments are made on the loan, the number of shares released in any year is the number of shares held as collateral times the ratio of the current year payments, divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 6,612 shares being released and allocated for 2024. As of December 31, 2024, all shares have been released. As of December 31, 2023, 6,612 shares were held in suspense, with a fair value of \$368,933.

NOTE 6 - CONCENTRATION OF INVESTMENTS

The Plan's investment in the Company common stock is 100% of the Plan's total net assets as of December 31, 2024 and 2023.

MRC EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 7 - RISKS AND UNCERTAINTIES

The Plan invests solely in Company common stock, which is exposed to various risks such as significant world events, interest rate, credit, and overall market volatility risks. Due to the level of risk associated with the investment, it is reasonably possible that changes in the value of the investment will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 8 - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

During 2024 and 2023, the Plan invested in common stock issued by the Company. This transaction qualifies as a party-in-interest transaction and is covered by an exemption from the prohibited transaction provisions of ERISA.

The Plan's assets are held by the trustee, which invests cash received and makes distributions to participants. The trustee also administers the payment of principal and interest on the note payable. Certain administrative functions are performed by officers or employees of the Company. No such officers or employees receive compensation from the Plan.

NOTE 9 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 8, 2025, the date the financial statements were available to be issued.
