Independent Auditor's Report

To the Plan Administrator
Honigman LLP Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the financial statements of Honigman LLP Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024 (in liquidation) and 2023 (ongoing) and the related statement of changes in net assets available for benefits for the years ended December 31, 2024 (in liquidation) and 2023 (ongoing) and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Honigman LLP Pension Plan financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the years then ended stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

To the Plan Administrator
Honigman LLP Pension Plan

Emphasis of Matter

As discussed in Note 7 to the financial statements, the plan sponsor of Honigman LLP Pension Plan terminated the Plan effective June 30, 2023. The Plan received a favorable determination letter for termination of the Plan effective June 14, 2024, and management determined that liquidation is imminent on this date. As a result, the Plan changed its basis of accounting from the going concern basis of accounting used in presenting the December 31, 2023 financial statements to the liquidation basis of accounting used in presenting the December 31, 2024 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audits* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of the ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with the presentation and disclosure requirements of GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Honigman LLP Pension Plan

Supplemental Schedules Required by ERISA

The supplemental schedules of assets held at end of year - in liquidation as of December 31, 2024 and reportable transactions - in liquidation for the year ended December 31, 2024 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Plan Description

The following description of Honigman LLP Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

The Plan was established on January 1, 1981 and was amended and restated effective January 1, 2012. There have been eight amendments to the Plan since January 1, 2012; the most recent amendment is dated June 30, 2023. The Plan is a noncontributory defined benefit pension plan administered by a committee of partners of Honigman LLP (the "Firm").

The Firm has signed an amendment to terminate the Plan effective June 30, 2023 and received a favorable Internal Revenue Service (IRS) determination letter on June 14, 2024. See Note 7 for further information. Accordingly, the descriptions below are provisions of the Plan prior to termination.

Eligibility and Vesting

The Plan was frozen effective December 31, 1990, and no new employees were covered after that date. Each participant's accrued benefit was frozen at its amount at December 31, 1990 and will not be increased thereafter.

Pension Benefits

Pension benefits are calculated according to a formula based on creditable compensation (as defined in the plan agreement) for each year of service with the Firm. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) in the event the Plan terminates. Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Party-in-interest Transactions

The Firm paid certain administrative expenses incurred by the Plan during the years ended December 31, 2024 and 2023, which qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

As discussed in Note 7 to the financial statements, the plan sponsor terminated the Plan effective June 30, 2023. On June 14, 2024, the Plan received a favorable determination letter for termination of the pension plan, and liquidation is deemed imminent on this date. As a result, the Plan changed its basis of accounting for periods subsequent to December 31, 2023 from the going concern basis to the liquidation basis.

Under the liquidation basis of accounting, assets are measured to reflect the estimated amount of cash expected to be collected in settling or disposing of the assets during the liquidation process and liabilities are measured using the accrual basis of accounting and would include any expected costs of the disposal of assets and other costs expected to be incurred during the liquidation process.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis.

Benefit Payments

Benefits are recorded when paid.

December 31, 2024 and 2023

Note 2 - Summary of Significant Accounting Policies (Continued)

Actuarial Assumptions

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable, under the Plan's provisions, to the service employees have rendered to the valuation date. These include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at January 1, 2024 are summarized as follows:

Actuarial cost method	Standard unit credit cost method
Assumed rate of return	5.0 percent per annum, compounded annually after investment expenses
Mortality basis	Pri-2012 mortality study projected generationally from 2012 using mortality improvement scale MP-2021
Withdrawal rates during service	Based on a range of probabilities that a male employee will terminate employment from 5.4 percent at age 25 to 0.10 percent at age 49 and a female employee will terminate employment from 8.7 percent at age 25 to 0.10 percent at age 59
Retirement rate	Partners are assumed to retire at age 68 Staff are assumed to retire at age 65

The above assumptions do not include the impact of the termination of the Plan (see Note 7), which was approved by the IRS in 2024.

Risks and Uncertainties

The actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 8, 2025, which is the date the financial statements were available to be issued.

December 31, 2024 and 2023

Note 3 - Funding Policy

The Firm makes contributions to the Plan based on actuarial recommendations. No contributions were required or made for the 2024 and 2023 plan years.

Note 4 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries. The calculation of the actuarial present value of accumulated plan benefits attributable to participants in the Plan, which was made as of January 1, 2024, the most recent actuarial valuation, is as follows:

Actuarial present value of accumulated plan benefits - Vested benefits:	
Participants currently receiving benefit payments	\$ 1,188,914
Other vested participants	<u>5,213,648</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 6,402,562</u>

A summary of significant changes in the actuarial present value of accumulated plan benefits during the period ended January 1, 2024 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	\$ 6,916,613
(Decrease) increase during the year attributable to:	
Benefits accumulated due to plan experience	(131,834)
Interest due to the decrease in the discount period	380,390
Benefits paid	<u>(762,607)</u>
Net decrease	<u>(514,051)</u>
Actuarial present value of accumulated plan benefits - End of year	<u>\$ 6,402,562</u>

During the year ended January 1, 2024, there were no changes in actuarial assumptions. Due to the valuation being performed as of January 1, 2024, the annuity contract purchase of \$1,117,500 reflected on the statement of changes in net assets available for benefits is not reflected in the actuarial present value of accumulated plan benefits or the changes in the actuarial present value of accumulated plan benefits. See Note 9 for further disclosure regarding the annuity contract purchase.

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan received approval from the IRS on June 14, 2024 for the Plan's termination effective June 30, 2023.

Note 6 - Certified Information

Fifth Third Bank (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements, supplemental schedule of assets held at end of year - in liquidation, and supplemental schedule of reportable transactions - in liquidation are based solely on information certified by the Trustee.

Note 7 - Termination - Liquidation Basis

Effective June 30, 2023, the plan sponsor elected to terminate the Plan. The Plan adopted the liquidation basis of accounting in fiscal year 2024 when the termination was approved by the IRS.

During January 2025, assets remaining in the Plan at December 31, 2024 were transferred to the Honigman LLP Income Deferral and Profit Sharing Plan (the "Profit Sharing Plan"), a qualified retirement plan sponsored by the Firm.

The determination letter from the IRS was received in June 2024, which deemed liquidation imminent. Liquidation of assets through distributions to participants occurred during October 2024, which will be allocated as prescribed by ERISA and its regulations.

Note 8 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Money Market Fund and Mutual Funds

The money market fund and mutual funds are valued at quoted prices reported in active markets.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2024 and 2023:

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2024	
	Investments (at Fair Value)	Level 1
Money market fund	\$ 203,549	\$ 203,549

Note 8 - Fair Value Measurements (Continued)

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2023	
	Investments (at Fair Value)	Level 1
Money market fund	\$ 177,444	\$ 177,444
Mutual funds	7,803,327	7,803,327
Total investments at fair value	<u>\$ 7,980,771</u>	<u>\$ 7,980,771</u>

Note 9 - Annuity Contracts Purchased

On October 29, 2024, the Firm entered into an agreement to purchase an annuity contract with Midland National Life Insurance Company for \$1,117,500. The contract was fully paid using plan assets on October 29, 2024, and benefits to eligible participants began on December 1, 2024.

The total purchase price of \$1,117,500 is reported in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2024. The transaction did not change the amount of the monthly benefit received by affected retirees and surviving beneficiaries.

The actuarial present value of accumulated plan benefits as of January 1, 2024 does not reflect the effect of these executed contracts.
