PLAN YEAR ENDING: December 31, 2024

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Funding Method

Funding method as required by the Pension Protection Act of 2006. Under this method, the plan's funding target is determined as the sum of the actuarial present values (as of valuation date) of the individual accrued benefits taken into account for valuation purposes as of the beginning of the plan year.

The target normal cost is the sum of actuarial present values (on the valuation date) of the benefits deemed to accrue in the plan year.

An individual's accrued benefit for valuation purposes as of any determination date with respect to any assumed separation date(s) is the accrued benefit described under the plan, based on credited service as of the determination date, with plan compensation, benefits, and offset (if any), projected to the separation date.

The benefit deemed to accrue for an individual during a plan year is the excess of the accrued benefit for valuation purposes at the end of the plan year over the accrued benefit for valuation purposes at the beginning of the plan year.

If multiple separation dates are used, the actuarial present values take into account the probability of each separation event.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Changes Since the Prior Valuation

- There is a change in the funding method for the plan year that qualifies for automatic approval under Revenue Procedure 2017-56, Section 4.01 (“Approval for change in funding method for takeover plans”). Both the enrolled actuary for the plan and the business organization providing actuarial services to the plan have changed since the prior plan year. The funding target, target normal cost (without regard to any adjustments for employee contributions and plan-related expenses) and actuarial value of assets, as determined by the new valuation software and actuary as of the valuation date for the prior plan year, are within 3% and 2% of those values as determined by the prior valuation software. The other requirements of Section 4.01 are also satisfied.
- The valuation date was also changed to End of Year pursuant to Revenue Procedure 2017-56, Section 4.01.
- The Salary Increases assumption was changed from 5.0% to none due to the change in the valuation date to End of Year.
- The Payment Form assumption was changed to 100% elect Lump Sum. Previously it was “50% of participants are expected to receive their benefits in the form of a lump sum, 50% of participants are expected to receive their benefits in the form of a monthly annuity”.
