INDEPENDENT AUDITOR'S REPORT

To the Trustees and Plan Committee of
Access Sciences Corporation Employee Stock Ownership Plan:

Opinion on the 2024 Financial Statements

We have audited the accompanying financial statements of Access Sciences Corporation Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Access Sciences Corporation Employee Stock Ownership Plan as of December 31, 2024, and the changes in its net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the 2024 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section of our report. We are required to be independent of Access Sciences Corporation Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2024 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Access Sciences Corporation Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2024 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Access Sciences Corporation Employee Stock Option Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Access Sciences Corporation Employee Stock Option Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2024 Supplemental Schedule Required by ERISA

Our audit was conducted for the purposes of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in related to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Auditors' Report on the 2023 Financial Statements

The financial statements of Access Sciences Corporation Employee Stock Ownership Plan as of December 31, 2023, were audited by Pannell Kerr Forster of Texas, P.C. who joined with WithumSmith+Brown, PC on June 1, 2025. Their report dated October 3, 2024, indicated that the amounts and disclosures in the 2023 financial statements were presented fairly in all material respects in accordance with accounting principles generally accepted in the United States of America. Their report also indicated that the form and content of the 2023 supplemental schedule was presented in all material respects in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Access Sciences Corporation Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

1. PLAN DESCRIPTION

The following brief description of the Access Sciences Corporation Employee Stock Ownership Plan (the “Plan”) is provided for general information only. Participants should refer to the Plan Document for more detailed information.

General

Access Sciences Corporation (the “Company”) established the Plan effective as of January 1, 2010, and restated the Plan as of January 1, 2024. The Plan operates as a leveraged employee stock ownership plan. The Company serves as the Plan administrator. Plan trustees are certain board members of the Company. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

In December 2010, the Plan purchased 156,805 shares of the Company's common stock for \$2,083,938 in exchange for a note payable to the Company that was fully paid as of December 31, 2019. On July 31, 2014, the Plan purchased an additional 109,355 shares for \$4,647,588. The transaction was funded by cash of \$850,000 from the Plan and the remaining \$3,797,587 in exchange for a note payable to the Company (see Note 4). The shares of Company stock are held in a trust established under the Plan. As the Plan makes payments of principal and interest, an appropriate prorated percentage of stock, as defined in the Plan document, is allocated to eligible employees' accounts according to the compensation paid to them by the Company for the year. The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against the shares of common stock once they are allocated to participants in accordance with the terms of the Plan. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, present separately the assets and liabilities and changes therein pertaining to the a) the accounts of employees with rights in allocated common stock (allocated), and b) common stock not yet allocated to employees (unallocated).

As of December 31, 2024 and 2023, the shares owned by the Plan represented approximately 66% of the outstanding shares of the Company.

Eligibility, Contributions, and Participant Accounts

Participation is available for all employees who are at least 21 years of age, have completed at least 1,000 hours of service during a consecutive twelve-month period, and are employed by the Company on the last day of the Plan year. Ineligible employee classes include union employees, nonresident alien employees, leased employees, and an individual considered to be an independent contractor. Employee contributions are not permitted. Employer contributions to the Plan are determined by the Company's board of directors, provided that such contributions do not exceed maximum amounts allowed under the Internal Revenue Code (the “IRC”) or 100% of the participants' total compensation for the Plan year. As a shareholder in the Company, the Plan is entitled to distributions made by the Company to its shareholders. S corporation distributions to the Plan are recorded as dividend income, if any, to the Plan in the statements of changes in net assets available for benefits. At the end of each Plan year, earnings and losses of the Plan are allocated to participants' accounts based on participant account balances. Employer contributions, dividends, and forfeitures of terminated participants' nonvested accounts are allocated to active participants' accounts based on compensation as defined in the Plan document.

Vesting

A six-year graded vesting schedule applies to all employer contributions which provides for twenty percent vesting after two years of service and 20% for each year thereafter. In addition, a participant who is an active employee will also become fully vested upon attainment of normal retirement age (age 65), upon death, or upon becoming fully disabled.

Notes to Financial Statements

December 31, 2024 and 2023

Benefit Payments

Participants who separate from service due to normal retirement or disability, and beneficiaries of participants who died while still employed, can request a distribution of the vested account balance from the Plan after the close of the plan year in which separation from service occurred. Participants who separate from service for reasons other than normal retirement, death, or disability, can request a distribution of the vested account balance from the Plan during the 6th plan year after separation from service. Installment payments will be made in up to five annual installments payable over a five-year period for balances greater than \$10,000. During this distribution period, the participant's undistributed shares may continue to fluctuate with subsequent valuations. Vested balances less than \$10,000 will be paid as a lump sum distribution.

If the total vested value of a participant's account is less than \$1,000, the distribution will be made in a lump-sum payment and is not subject to a waiting period. If the total vested value of a participant's account is between \$1,000 and \$7,000, and the participant does not affirmatively consent to receive a distribution, the balance will be rolled into an individual retirement account established on behalf of the participant.

Voting Rights

Each participant is entitled to direct the trustees as to the voting of any voting shares of Company stock attributable to the shares allocated to his or her account with respect to any corporate matter pertaining to a merger, consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all Company assets. The trustees direct the voting of all unallocated Company stock held by the trust.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. After age 55, for each participant who has at least 10 years of participation in the Plan, the participant may elect to diversify 25% of the shares of Company stock in the participant's account in the Plan by rolling that portion into the participant's choice of three investment options offered or, at the direction of the Plan Committee, amounts may be distributed to the participant. If the participant continues to participate in the Plan for five more years, this diversification right increases and applies to 50% of the participant's account in the Plan at the end of the fifth year. For the year ended December 31, 2024, there were \$55,875 in distributions related to participants who elected to diversify part of their investment in the Company's stock.

Forfeitures

During 2024, forfeitures in the amount of \$14,890 were reallocated to participants. There were no remaining forfeitures to be allocated to participants as of December 31, 2024 and 2023.

Put option

The Company's common stock that is held by the Plan and its participants is not readily tradable on an established market and includes a put option and is subject to federal income tax regulations. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The payment period may generally not be more than 5 years after the date the put option is exercised, but it may be extended to a date no later than the earlier of 10 years from the date the put option is exercised or the date the proceeds of the loan used by the Plan to acquire the stock subject to the put option are entirely repaid. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

2. ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Company to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and the disclosure of contingent assets and liabilities at the date of the financial statements. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investment in the Company's common stock is valued at fair value as determined by an independent appraisal as of December 31, 2024 and 2023. See Note 3 for a discussion of fair value measurements.

Net appreciation in the fair value of investments includes the Plan's gain and losses on investments held during the year. Dividends are recorded on the ex-dividend date.

Note Payable

The note payable to the Company is measured at its unpaid principal balance.

Payment of Benefits

Distributions to participants are recorded when paid.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to the accounts of employee with rights in allocated stock (allocated) and stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Administrative Expenses

All administrative expenses not paid by the Company are paid by the Plan.

Subsequent Events

The Plan has evaluated subsequent events through October 9, 2025, the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used December 31, 2024 and 2023.

The common stock of the Company is valued at market value as determined by an independent appraisal as of December 31, 2024 and 2023. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The valuation of the common stock is calculated using the discounted future returns method under the income approach. This method may produce a fair value calculation that may not be indicative of net realizable value of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Investment in Access Sciences Corporation common stock	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 11,120,165</u>	<u>\$ 11,120,165</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Investment in Access Sciences Corporation common stock	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 9,312,938</u>	<u>\$ 9,312,938</u>

The table below sets forth a summary of changes in the fair value of the common stock for the year ended December 31, 2024:

Balance, beginning of year	\$ 9,312,938
Unrealized gain on investments	<u>1,807,227</u>
Balance, end of year	<u>\$ 11,120,165</u>

4. NOTE PAYABLE

On July 31, 2014, the Plan issued a promissory note for \$3,797,587 payable to the Company, bearing interest at 3.10% per annum, with principal and interest payments of \$267,477 due annually, commencing on December 31, 2015, and due on December 31, 2033. The shares of the Company's common stock exchanged for the notes (see Note 1) serve as collateral for the notes payable. In accordance with terms of the Plan document, shares of the Company that were purchased with the proceeds from the note payable are held in an unallocated fund and released from the unallocated fund as the note is paid. Principal and interest payments on the notes payable were made in the amounts of \$267,477 for the year ended December 31, 2024. Shares that have been released from the unallocated fund are allocated to the participants of the Plan in the ratio that each participant's compensation for the Plan year bears to the compensation of all participants for the Plan year. In 2024, 4,661 shares were released from unallocated shares and allocated to participants and were valued at fair value of \$194,720 during the year ended December 31, 2024.

Future maturities of the note payable as of December 31, 2024 are as follows:

2025	\$ 470,693
2026	209,516
2027	216,011
2028	222,707
2029	229,611
Thereafter	<u>991,865</u>
	<u>\$ 2,340,403</u>

7. PARTY-IN-INTEREST TRANSACTIONS AND RELATED PARTY TRANSACTIONS

The Plan invests in shares of the Company's common stock, and the Company pays certain administrative expenses of the Plan. As the Company is the Plan administrator, these transactions qualify as party-in-interest transactions. The Plan also has a note payable to the Company which is considered an "exempt loan" under the IRC. These transactions are covered by an exemption from the prohibited transactions provisions of ERISA and the IRC.

8. TAX STATUS

The Plan received its determination letter dated June 30, 2020, from the Internal Revenue Service (the "IRS") exempting it from federal income taxes. The Company and trustees believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires the Company to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. RISKS AND UNCERTAINTIES

The Plan provides for investment in the Company's common stock. The Plan's performance is dependent upon the financial viability of the Company; therefore, it is reasonably possible that changes in the value of investments will occur and may impact participants' account balances, and the amounts reported in the financial statements.
