Independent Auditor's Report

To the Participants and Administrator of the
Rockwell Automation 1165(e) Plan

Opinion

We have audited the accompanying financial statements of Rockwell Automation 1165(e) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023 and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Rockwell Automation 1165(e) Plan as of December 31, 2024 and 2023, and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Rockwell Automation 1165(e) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Rockwell Automation 1165(e) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Rockwell Automation 1165(e) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Rockwell Automation 1165(e) Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule I, Part I - Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

ROCKWELL AUTOMATION 1165(e) PLAN

NOTES TO FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2024 AND 2023

1. DESCRIPTION OF THE PLAN

The following brief description of the Rockwell Automation 1165(e) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description and Plan document for more complete information.

- a. *General* - The Plan is a defined contribution savings plan sponsored by Rockwell Automation, Inc. (Rockwell Automation). The Rockwell Automation Employee Benefit Plan Committee and the Plan Administrator control and manage the operation, administration, and oversight of the Plan. Banco Popular de Puerto Rico (the Trustee) is the trustee of the Plan. Fidelity Management Trust Company and its affiliates (Fidelity) has custody of the Plan's assets and manages the assets along with several other investment managers. Fidelity is the trustee of the Rockwell Automation, Inc. Defined Contribution Master Trust (the Master Trust). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participants in the Plan may invest in a suite of lifecycle commingled pools and core investment options. In addition, the Rockwell Automation Stock Fund was available in 2024 and 2023, and is specific to the Master Trust.

- b. *Participation* - The Plan provides that eligible employees electing to become participants may contribute up to a maximum of 50% of base compensation, as defined in the Plan document. However, contributions by highly compensated participants are limited to 16% of the participant's base compensation. Participant contributions can be made either before or after Puerto Rico taxation of a participant's base compensation, but after-tax contributions are limited to 10% of base compensation.

Newly hired employees are automatically enrolled at a 3% pre-tax contribution rate after 30 days of employment.

Rockwell Automation contributes an amount equal to 50% of the first 7% of base compensation contributed by the participants. All matching contributions are directed by the participant's investment elections.

- c. *Investment Elections* - Participants may contribute to any or all of the funds that are available for investments in 1% increments. Participants may change such investment elections on a daily basis. If a participant does not have an investment election on file, contributions are made to one of the lifecycle commingled pools, based on the participant's projected retirement date.
- d. *Unit Values* - Participants do not own specific securities or other assets in the various funds, but have an interest therein represented by units valued as of the end of each business day. However, voting rights are extended to participants in proportion to their interest in each stock fund and each mutual fund, as represented by common units. Participants' accounts are charged or credited for Plan earnings or losses from investments, as the case may be, with the number of units properly attributable to each participant.
- e. *Vesting* - Each participant is fully vested at all times in the portion of the participant's account that relates to the participant's contributions and earnings thereon. Rockwell Automation's matching contributions and earnings on those employer contributions are 100% vested after the participant has completed three years of vesting service, attains the age of 65, or dies while an employee of Rockwell Automation, as defined in the Plan document.

- f. *Notes Receivable from Participants* - A participant may obtain a loan in an amount as defined in the Plan document (not less than \$1,000 and not greater than the lower of \$50,000, reduced by the participant's highest outstanding loan balance during the 12 month period before the date of the loans, or 50% of the participant's vested account balance less any outstanding loans) from the balance of the participant's account. Loans are secured by the remaining balance in the participant's account. Interest is charged at a rate equal to the prime rate plus 1% as of the last day of the month before the loan is requested. The loans can be repaid through payroll deductions over terms of 12, 24, 36, 48, or 60 months, or up to 120 months for the purchase of a primary residence, or repaid in full at any time. Payments of principal and interest are credited to the participant's account. Participants may have up to two outstanding loans at any time from the Plan.
- g. *Forfeitures* - When terminations of employment occur, the nonvested portion of the participant's account in the Plan represents a forfeiture, as defined in the Plan document. Forfeitures remain in the Plan and subsequently are used to reduce Rockwell Automation's contributions to the Plan in accordance with ERISA. However, if the participant is re-employed with Rockwell Automation and fulfills certain requirements, as defined in the Plan document, the participant's account will be restored. As of December 31, 2024 and 2023, forfeited nonvested accounts totaled \$11,950 and \$11,274, respectively. During the years ended December 31, 2024 and 2023, there were no reductions in Rockwell Automation contributions from forfeited nonvested accounts.
- h. *Plan Termination* - Although Rockwell Automation has not expressed any current intent to terminate the Plan, Rockwell Automation has the authority to terminate or modify the Plan and to suspend contributions to the Plan in accordance with ERISA. If the Plan is terminated, each participant's employer contribution account will be fully vested. Benefits under the Plan will be provided solely from Plan assets.
- i. *Withdrawals and Distributions* - Active participants may withdraw certain amounts up to their entire vested interest when the participant attains the age of 59-1/2. Active participants may also withdraw certain amounts when financial hardship is demonstrated and may withdraw after-tax contributions at any time. Participant vested amounts are payable upon retirement, death, or other termination of employment. In response to natural disasters in Puerto Rico, the Plan allows participants to receive disaster relief distributions. The first \$100,000 of distribution may be eligible for special tax treatment under the Puerto Rico Internal Revenue Code.
- j. *Expenses* - A majority of the Plan fees and expenses, including fees and expenses associated with the provision of administrative services by external service providers, are paid from the Plan assets with the remainder being paid by Rockwell Automation. Expenses that are paid by Rockwell Automation are excluded from these financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- a. *Valuation of Investments* - Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). If available, quoted market prices are used to value investments. Quoted market prices are based on the last reported sales price on the last business day of the year. Securities traded on the over-the-counter market and listed securities for which no sale was reported on that date are valued at bid quotations. In instances where quoted market prices are not available, securities are stated at fair value as determined by independent investment brokerage firms and insurance companies.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the dividend payable date.

- b. *Notes Receivable from Participants* - Notes receivable from participants are valued at their unpaid principal balance plus any accrued interest.
- c. *Fair Value Measurements* - Accounting Standards Codification (ASC) Topic 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

- Use of Estimates* - Estimates and assumptions made by the Plan's management affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases to Plan assets during the reporting period. Actual results could differ from those estimates.
- Payment of Benefits* - Benefits are recorded when paid.
- Risks and Uncertainties* - The Plan invests in various investments. In general, investments are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of certain investments will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.
- Subsequent Events* - Management has evaluated the impact of all subsequent events through June 18, 2025, the date the Plan's financial statements were issued, and determined that there are no subsequent events that would require recognition or disclosure in the accompanying financial statements.

3. MASTER TRUST

The Plan's investments are held in the Master Trust account at Fidelity. Use of the Master Trust permits the commingling of the trust assets of a number of benefit plans of Rockwell Automation and its subsidiaries for investment and administrative purposes. Although assets are commingled in the Master Trust, Fidelity maintains supporting records for the purpose of allocating the net earnings or loss of the investment accounts to the various participating plans. The plans that participate in the Master Trust as of December 31, 2024, are the Rockwell Automation Retirement Savings Plan, the Rockwell Automation 1165(e) Plan, and the Sensia 401(k) Savings Plan (collectively, the Plans).

The Master Trust investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). If available, quoted market prices are used to value investments. In instances where quoted market prices are not available, investments are stated at fair value as determined by independent investment brokerage firms and insurance companies.

The net earnings or loss of the accounts for each day are allocated by Fidelity to each participating plan based on the relationship of the interest of each plan to the total of the interests of all participating plans.

The net assets of the Master Trust and the Plan's interest in the net assets of the Master Trust are summarized as follows:

The following is a description of the valuation methodologies used for the Master Trust's investments measured at fair value. There have been no changes in the methodologies during the years ended December 31, 2024 and 2023.

Common stock - Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds - Valued at the closing price reported on the active market on which the individual funds are traded.

Other brokerage accounts - Consist primarily of equity and fixed income investments valued at the most recent closing price reported on the market on which the individual securities are traded.

Separate account funds: Rockwell Automation Stock Fund - Valued at the net asset value (NAV) of shares held at year end based on the fair value of the underlying investments, primarily Rockwell Automation common stock and short-term investments. The fund seeks to increase value of the participant investments over the long-term by investing in Rockwell Automation common stock. Short-term investments provide needed liquidity to the fund.

Separate account funds: Other - Valued at the NAV of shares held at year end based on the fair value of the underlying investments. The objective of these funds is to provide long-term capital growth and current income (Diversified Fund), to outperform the benchmark Russell 2500 Index over the long-term (Small & Mid Cap Equity Fund), or to increase value of the participant investments over the long-term by investing in Schlumberger N.V. common stock.

Lifecycle commingled pools - Valued at the NAV as determined by the custodian of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, then divided by the number of units

outstanding. The investment objective of these funds is to match performance of the appropriate custom target date fund index.

Common collective trusts - Valued at the NAV, as reported by the fund manager, based on the fair value of the underlying investments. The investment objective of the S&P 500 Index Fund is to match the performance, adjusted for investment fees, of the S&P 500 Index. The Fidelity International Discovery Fund is a diversified international equity strategy that invests primarily in non-US stocks. The investment objective of the Spartan Total International Index Pool is to match the performance, adjusted for investment fees, of the MSCI All Country World Index.

The methods described above may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Master Trust management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the fair value of the Master Trust's investments:

(a) In accordance with ASC Subtopic 820-10, certain investments that were measured at the NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to net assets of the Master Trust in the previous table.

The following tables summarize the Master Trust's investments for which fair value is measured using the NAV per share practical expedient. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

The Plan offers a Stable Value Fund option which, through the Master Trust, invests primarily in money market investments and synthetic investment contracts. These contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Master Trust. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses. The contract value of synthetic investment contracts held by the Master Trust was \$285,334,090 and \$325,245,660 as of December 31, 2024 and 2023, respectively. The Master Trust does not invest in traditional investment contracts.

The synthetic investment contracts held by the Master Trust include wrapper contracts that provide a guarantee that the credit rate will not fall below 0%. Cash flow volatility (for example, timing of the benefit payments) as well as asset underperformance can be passed through to the Master Trust through adjustments to future contract crediting rates. Formulas are provided in each contract that adjusts renewal crediting rates to recognize the difference between the fair value and the book value of the underlying assets. Crediting rates are reviewed quarterly for resetting.

The Master Trust's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the participating plans to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plans' documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plans' prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the Plan sponsor or other plan sponsor events (e.g. divestitures or spin-offs of a subsidiary), which cause a significant withdrawal from the Plans; or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The management of the Master Trust does not believe that the occurrence of any such event, which would limit the Plans' ability to transact at contract value with participants, is probable.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Such events include the following: (i) an uncured violation of the Plans' investment guidelines; (ii) a breach of material obligation under the contract; (iii) a material misrepresentation; or (iv) a material amendment to the agreements without the consent of the issuer.

The net investment income of the Master Trust is summarized as follows:

	Year Ended December 31,	
	2024	2023
Interest	\$ 16,296,428	\$ 14,200,450
Dividends	8,982,897	8,330,316
Net appreciation in fair value of investments	376,330,214	538,595,659
Investment income of the Master Trust	401,609,539	561,126,425
Less: Income allocated to Rockwell Automation Retirement Savings Plan and Sensia 401(k) Savings Plan	(400,991,345)	(559,937,709)
Plan's income in the Master Trust	<u>\$ 618,194</u>	<u>\$ 1,188,716</u>

While the Plan participates in the Master Trust, the investment portfolio is not ratable among the various participating plans. As a result, the investment income recognized by each plan will differ based on their level of participation in each investment.

4. TAX STATUS

The Commonwealth of Puerto Rico Treasury Department has determined and informed Rockwell Automation by letter dated February 11, 2010, that the Plan and related trust are designed in accordance with section 1165(e) of the Puerto Rico Internal Revenue Code of 1994, as amended (the PR Code). The Plan has been amended since receiving the determination letter. The Plan Administrator believes that the Plan is currently designed and is being operated in compliance with the applicable provisions of the PR Code and the Plan continues to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits to be sustained upon examination by the Commonwealth of Puerto Rico Treasury Department. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there were no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

5. RELATED-PARTY TRANSACTIONS

Certain Master Trust investments are shares of mutual funds, lifecycle funds, common collective trusts, separate account funds, and a money market fund managed by Fidelity. Fidelity is the trustee and recordkeeper as defined by the Master Trust; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Master Trust for investment management services were included as a reduction of the return earned on each fund. Banco Popular de Puerto Rico is the trustee of the Plan and trustee fees have been paid by the Plan sponsor.

At December 31, 2024 and 2023, the Master Trust held 916,016 and 1,054,383 shares, respectively, of common stock of Rockwell Automation, the sponsoring employer, with a cost basis of \$42,422,602 and \$47,323,720, respectively, and a fair value of \$261,788,213 and \$327,364,834, respectively. During the years ended December 31, 2024 and 2023, purchases of shares by the Master Trust totaled \$1,805,660 and \$1,839,908, respectively, and sales by the Master Trust totaled \$40,013,982 and \$45,150,652, respectively.

During 2024 and 2023, dividends on Rockwell Automation common stock, held in the Master Trust, paid and/or credited to eligible Plan participants' accounts totaled \$5,014,249 and \$5,351,866, respectively.

The Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party-in-interest transactions. As of December 31, 2024 and 2023, notes receivable from participants totaled \$214,940 and \$167,654, respectively.
