Independent Auditors' Report

To the Administrative Committee of
Inland Psychiatric Medical Group 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Inland Psychiatric Medical Group (the Company) 401(k) Plan, (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Inland Psychiatric Medical Group 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the year ended December 31, 2024 stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Inland Psychiatric Medical Group 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Inland Psychiatric Medical Group 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Auditors' Responsibilities for the Audit of the Financial Statements (Continued)

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Inland Psychiatric Medical Group 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Inland Psychiatric Medical Group 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule of assets held for investment purposes is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

Other Matter— Supplemental Schedule Required by ERISA (Continued)

For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

INLAND PSYCHIATRIC MEDICAL GROUP 401(k) PLAN

Notes to Financial Statements

1. General Description of the Plan

The following description of Inland Psychiatric Medical Group 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Inland Psychiatric Medical Group, Inc. (the Company) established the Plan effective January 1, 2014, and permitted the commencement of elective deferrals on January 1, 2014. Effective January 1, 2022 the plan was amended and restated to bring the plan into compliance with legislative and regulatory changes set forth in IRS Notice 2017-37.

The Plan is a defined contribution plan covering all eligible employees of Inland Psychiatric Medical Group, Inc. subject to the provisions of the Employee Retirement Income Security Act ("ERISA") of 1974, as amended. The Plan is a special type of retirement plan commonly referred to as a 401(k) plan which refers to the specific section of the Internal Revenue Code that allows employees to make pre-tax contributions to a retirement plan. Under the Plan, participants may choose to have a specific percentage or dollar amount withheld from the participant's salary and have such amount deposited directly into a 401(k) account on their behalf. This pre-tax contribution is referred to as "Salary Deferral". The Plan covers all employees of the employer who are over the age of twenty-one and have completed twelve months of service. The entry date is immediate after meeting eligibility. Management is responsible for oversight of the Plan. Management determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

The Plan has a 100% of compensation elective deferral limitation, each year, eligible participants may contribute an amount they elect as pretax annual compensation. The participant may increase or decrease on a prospective basis, his/her salary reduction agreement percent as of each entry date. Participants may also rollover eligible amounts from other qualified plans to the plan except for rollovers of designated Roth contributions. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate, with a default rate at 1% of eligible compensation. Contributions are automatically invested in a designated balanced fund until changed by the participant. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a money market fund. The Plan Sponsor/Company, Inland Psychiatric Medical Group may make matching and non-elective employer contributions using a discretionary formula each plan year on behalf of "eligible" participant. The non-integrated allocation formula is the ratio that each "eligible" participant's compensation bears to the total compensation paid to all "eligible" participants for the Plan year. Total contributions are also subject to certain IRS imposed limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, (b) Plan earnings, and (c) charged with an allocation of administrative expenses (if not paid by Plan or by the Plan Sponsor) or investment-related fees incurred as a result of participants investment decisions.

INLAND PSYCHIATRIC MEDICAL GROUP 401(k) PLAN

Notes to Financial Statements

1. General Description of the Plan (Continued)

Participant Accounts (Continued)

Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant was entitled the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective deferrals plus actual earnings thereon. Vesting in the Company's matching contributions are 100% vested upon entering the Plan. Vesting in the Company's elective contribution portion plus earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 or up to a maximum, equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates, which are commensurate with local prevailing rates at a commercial U.S. bank and are determined at the time the loan is made, currently at 4.25% to 9.50%. Loan transactions are treated as a transfer to (from) the investment funds from (to) a participant's loan receivable. Loan terms cannot exceed 5 years. Principal and interest payments are made through payroll deductions, not less than quarterly. Loans that are considered uncollectible are treated as deemed distributions and therefore there was no allowance for uncollectible loans.

Payments of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump sum amount, or in annual installments over a period elected by the participant. Normal retirement age was 59.5 or 65 depending upon participation date and all participant accounts are available for in-service distributions upon attainment of such age. A participant who becomes disabled and satisfies the requirements for Social Security disability benefits was eligible for accelerated distribution. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution or in installments.

Forfeited Accounts

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. These forfeited amounts are used to reduce the Company's discretionary profit-sharing contributions. The Plan had \$0 of forfeited balances available for use as of December 31, 2024 and 2023. Total forfeitures used during the year ended December 31, 2024 to offset administrative expense was \$4,107.

1. General Description of the Plan (Continued)

Hardship Withdrawals

The Plan allows for hardship distributions in accordance with IRS regulations. A participant may withdraw any part of their vested account in the event of undue financial hardship.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested.

2. Summary of Significant Accounting Policies

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. The significant accounting policies of the Plan are as follows:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are evaluated on a recurring basis and reported at fair value. Fair value was the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 5 for discussion of fair value measurements.

Investment contracts are valued at contract value which is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Purchases and sale of securities are recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes to Financial Statements

2. Summary of Significant Accounting Policies (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2024 and 2023. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance was reduced, and a benefit payment was recorded.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions.

Payment of Benefits

Benefits were recorded when paid.

Administration Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

3. Tax Status

The prototype Plan obtained a determination letter which the Internal Revenue Service stated that the prototype Plan was qualified under section 401(a) of the Internal Revenue code (the Code). Subsequent to the issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes that the Plan was designed and was currently being operated in compliance with the applicable requirements of the Code, and therefore, believes that the Plan was qualified and the related trust was tax exempt.

4. Information Certified by Trustee

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, held at December 31, 2024 and 2023, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2024, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Benefits Trust Company (the Trustee of the Plan).

5. Fair Value Measurements

Fair value measurements provide a framework for measuring fair value under generally accepted accounting principles (GAAP), which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 – measurements) and the lowest priority to unobservable inputs (Level 3 – measurements). The three levels of the fair value hierarchy are as follows: Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input that was significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Brokerage Accounts/Mutual Funds

Brokerage accounts consist of mutual funds and are valued at the daily closing price as reported by the fund. Mutual Funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission.

These funds are required to publish their daily net asset value (NAV) and to transact at that price. The Mutual Funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting dates.

INLAND PSYCHIATRIC MEDICAL GROUP 401(k) PLAN

Notes to Financial Statements

5. Fair Value Measurements (Continued)

Brokerage Accounts/Mutual Funds (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

Assets at Fair Value as of December 31, 2024				
	Level 1	Level 2	Level 3	Total
Self Directed				
Brokerage Accounts	\$ 2,675,988	\$ -	\$ -	\$ 2,675,988
	<u>\$ 2,675,988</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,675,988</u>
Assets at Fair Value as of December 31, 2023				
	Level 1	Level 2	Level 3	Total
Self Directed				
Brokerage Accounts	\$ 1,962,071	\$ -	\$ -	\$ 1,962,071
	<u>\$ 1,962,071</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,962,071</u>

6. Related Party Transactions

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are shares of Mutual Funds managed by Benefit Trust Company. Benefit Trust serves as the Trustee as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for these investments' management services are included in net appreciation in fair value of investments because they are paid through revenue sharing rather than direct payments. The Company transacts with Paychex, Inc. for its payroll services, including automatic withdrawal of funds from the Company's bank account for employee contributions for deposit to the Plan's trust account. The Plan issues notes to participants which are secured by the balances in participants' accounts. These transactions qualify as a party-in-interest transactions for which a statutory exception exemption exists. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments because they are paid through revenue sharing rather than direct payments. Administrative fees charged by Guideline Inc. for the year ended December 31, 2024, were \$14,452.

INLAND PSYCHIATRIC MEDICAL GROUP 401(k) PLAN

Notes to Financial Statements

7. Risks and Uncertainties

Investment securities are exposed to various risks such as interest rate, market, and credit. Due to the level of uncertainty related to changes in the value of investment securities, it was at least reasonably possible that changes in the various risk factors, in the near term could materially affect investment balances and the amounts reported in the financial statements. Additionally, many Mutual Funds invest in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than similar types of securities of comparable U.S. companies.

8. Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500:

	<u>2024</u>	<u>2023</u>
Net assets available for benefits per the financial statements	\$2,778,134	\$1,454,173
Receivables employer contributions	(3,024)	(12,253)
Receivables participant contributions	(5,137)	-
Rounding	<u>2</u>	<u>1</u>
Net assets available for benefits per the Schedule H of Form 5500	<u>\$2,769,975</u>	<u>\$1,441,921</u>

9. Subsequent Event

Events or transactions that occurred after December 31, 2024 up through October 8, 2025, the date the Plan's financial statements were available for issuance, were reviewed for subsequent event accounting and disclosure. Management has determined that there were no events that require additional disclosures.

Independent Auditors' Report

To the Administrative Committee of
Inland Psychiatric Medical Group 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Inland Psychiatric Medical Group (the Company) 401(k) Plan, (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Inland Psychiatric Medical Group 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the year ended December 31, 2024 stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Inland Psychiatric Medical Group 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Inland Psychiatric Medical Group 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Auditors' Responsibilities for the Audit of the Financial Statements (Continued)

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Inland Psychiatric Medical Group 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Inland Psychiatric Medical Group 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule of assets held for investment purposes is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

Other Matter— Supplemental Schedule Required by ERISA (Continued)

For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

INLAND PSYCHIATRIC MEDICAL GROUP 401(k) PLAN

Notes to Financial Statements

1. General Description of the Plan

The following description of Inland Psychiatric Medical Group 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Inland Psychiatric Medical Group, Inc. (the Company) established the Plan effective January 1, 2014, and permitted the commencement of elective deferrals on January 1, 2014. Effective January 1, 2022 the plan was amended and restated to bring the plan into compliance with legislative and regulatory changes set forth in IRS Notice 2017-37.

The Plan is a defined contribution plan covering all eligible employees of Inland Psychiatric Medical Group, Inc. subject to the provisions of the Employee Retirement Income Security Act ("ERISA") of 1974, as amended. The Plan is a special type of retirement plan commonly referred to as a 401(k) plan which refers to the specific section of the Internal Revenue Code that allows employees to make pre-tax contributions to a retirement plan. Under the Plan, participants may choose to have a specific percentage or dollar amount withheld from the participant's salary and have such amount deposited directly into a 401(k) account on their behalf. This pre-tax contribution is referred to as "Salary Deferral". The Plan covers all employees of the employer who are over the age of twenty-one and have completed twelve months of service. The entry date is immediate after meeting eligibility. Management is responsible for oversight of the Plan. Management determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

The Plan has a 100% of compensation elective deferral limitation, each year, eligible participants may contribute an amount they elect as pretax annual compensation. The participant may increase or decrease on a prospective basis, his/her salary reduction agreement percent as of each entry date. Participants may also rollover eligible amounts from other qualified plans to the plan except for rollovers of designated Roth contributions. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate, with a default rate at 1% of eligible compensation. Contributions are automatically invested in a designated balanced fund until changed by the participant. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a money market fund. The Plan Sponsor/Company, Inland Psychiatric Medical Group may make matching and non-elective employer contributions using a discretionary formula each plan year on behalf of "eligible" participant. The non-integrated allocation formula is the ratio that each "eligible" participant's compensation bears to the total compensation paid to all "eligible" participants for the Plan year. Total contributions are also subject to certain IRS imposed limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, (b) Plan earnings, and (c) charged with an allocation of administrative expenses (if not paid by Plan or by the Plan Sponsor) or investment-related fees incurred as a result of participants investment decisions.

INLAND PSYCHIATRIC MEDICAL GROUP 401(k) PLAN

Notes to Financial Statements

1. General Description of the Plan (Continued)

Participant Accounts (Continued)

Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant was entitled the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective deferrals plus actual earnings thereon. Vesting in the Company's matching contributions are 100% vested upon entering the Plan. Vesting in the Company's elective contribution portion plus earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 or up to a maximum, equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates, which are commensurate with local prevailing rates at a commercial U.S. bank and are determined at the time the loan is made, currently at 4.25% to 9.50%. Loan transactions are treated as a transfer to (from) the investment funds from (to) a participant's loan receivable. Loan terms cannot exceed 5 years. Principal and interest payments are made through payroll deductions, not less than quarterly. Loans that are considered uncollectible are treated as deemed distributions and therefore there was no allowance for uncollectible loans.

Payments of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump sum amount, or in annual installments over a period elected by the participant. Normal retirement age was 59.5 or 65 depending upon participation date and all participant accounts are available for in-service distributions upon attainment of such age. A participant who becomes disabled and satisfies the requirements for Social Security disability benefits was eligible for accelerated distribution. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution or in installments.

Forfeited Accounts

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. These forfeited amounts are used to reduce the Company's discretionary profit-sharing contributions. The Plan had \$0 of forfeited balances available for use as of December 31, 2024 and 2023. Total forfeitures used during the year ended December 31, 2024 to offset administrative expense was \$4,107.

INLAND PSYCHIATRIC MEDICAL GROUP 401(k) PLAN

Notes to Financial Statements

1. General Description of the Plan (Continued)

Hardship Withdrawals

The Plan allows for hardship distributions in accordance with IRS regulations. A participant may withdraw any part of their vested account in the event of undue financial hardship.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested.

2. Summary of Significant Accounting Policies

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. The significant accounting policies of the Plan are as follows:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are evaluated on a recurring basis and reported at fair value. Fair value was the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 5 for discussion of fair value measurements.

Investment contracts are valued at contract value which is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Purchases and sale of securities are recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2024 and 2023. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance was reduced, and a benefit payment was recorded.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions.

Payment of Benefits

Benefits were recorded when paid.

Administration Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

3. Tax Status

The prototype Plan obtained a determination letter which the Internal Revenue Service stated that the prototype Plan was qualified under section 401(a) of the Internal Revenue code (the Code). Subsequent to the issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes that the Plan was designed and was currently being operated in compliance with the applicable requirements of the Code, and therefore, believes that the Plan was qualified and the related trust was tax exempt.

4. Information Certified by Trustee

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, held at December 31, 2024 and 2023, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2024, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Benefits Trust Company (the Trustee of the Plan).

5. Fair Value Measurements

Fair value measurements provide a framework for measuring fair value under generally accepted accounting principles (GAAP), which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 – measurements) and the lowest priority to unobservable inputs (Level 3 – measurements). The three levels of the fair value hierarchy are as follows: Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input that was significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Brokerage Accounts/Mutual Funds

Brokerage accounts consist of mutual funds and are valued at the daily closing price as reported by the fund. Mutual Funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission.

These funds are required to publish their daily net asset value (NAV) and to transact at that price. The Mutual Funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting dates.

Brokerage Accounts/Mutual Funds (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

Assets at Fair Value as of December 31, 2024				
	Level 1	Level 2	Level 3	Total
Self Directed				
Brokerage Accounts	\$ 2,675,988	\$ -	\$ -	\$ 2,675,988
	<u>\$ 2,675,988</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,675,988</u>
Assets at Fair Value as of December 31, 2023				
	Level 1	Level 2	Level 3	Total

	<u>\$ 1,962,071</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,962,071</u>

6. Related Party Transactions

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are shares of Mutual Funds managed by Benefit Trust Company. Benefit Trust serves as the Trustee as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for these investments' management services are included in net appreciation in fair value of investments because they are paid through revenue sharing rather than direct payments. The Company transacts with Paychex, Inc. for its payroll services, including automatic withdrawal of funds from the Company's bank account for employee contributions for deposit to the Plan's trust account. The Plan issues notes to participants which are secured by the balances in participants' accounts. These transactions qualify as a party-in-interest transactions for which a statutory exception exemption exists. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments because they are paid through revenue sharing rather than direct payments. Administrative fees charged by Guideline Inc. for the year ended December 31, 2024, were \$14,452.

Notes to Financial Statements

7. Risks and Uncertainties

Investment securities are exposed to various risks such as interest rate, market, and credit. Due to the level of uncertainty related to changes in the value of investment securities, it was at least reasonably possible that changes in the various risk factors, in the near term could materially affect investment balances and the amounts reported in the financial statements. Additionally, many Mutual Funds invest in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than similar types of securities of comparable U.S. companies.

8. Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500:

	<u>2024</u>	<u>2023</u>
Net assets available for benefits per the financial statements	\$2,778,134	\$1,454,173
Receivables employer contributions	(3,024)	(12,253)
Receivables participant contributions	(5,137)	-
Rounding	<u>2</u>	<u>1</u>
Net assets available for benefits per the Schedule H of Form 5500	<u>\$2,769,975</u>	<u>\$1,441,921</u>

9. Subsequent Event

Events or transactions that occurred after December 31, 2024 up through October 8, 2025, the date the Plan's financial statements were available for issuance, were reviewed for subsequent event accounting and disclosure. Management has determined that there were no events that require additional disclosures.
