Key Construction

Employee Stock Ownership Plan

Opinion

We have audited the financial statements of the Key Construction Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the Key Construction Employee Stock Ownership Plan (Plan) is provided for general information purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions, which are available from the Plan Administrator. The Board of Trustees is responsible for oversight of the Plan.

General - Key Construction Holdings, Inc. (Company or Plan Sponsor) established the Plan effective as of January 1, 2024. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provision of the Employee Retirement Income Security Act of 1974 (ERISA).

Subsequent to the Plan year, the Plan purchased 1,000,000 shares of the Company's common stock with a loan of \$27,643,310 and holds the common stock in a trust established under the Plan. Terms for the note payable include annual payments beginning December 31, 2025, and continuing the 31st of December each year through December 31, 2074, including interest at 4.53%. The stock was purchased at a price of \$27.64 per share, for an aggregate purchase price of \$27,643,310.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against the shares of common stock once they are allocated to participants in accordance with the ESOP.

Eligibility - Employees of the Company are eligible to participate in the Plan immediately following or coincident with the later of the attainment of 21 years of age or the date on which the participant completes one year of service, providing they worked at least 1,000 hours during such plan year and are treated as participants on the first day of the Plan year or the first day of the seventh month of the Plan year following the date on which eligibility requirements are met.

Contributions - The Company makes contributions in cash to the Plan as determined by the Plan Administrator and the Board of Trustees. These contributions are used to enable the Plan to make the required principal and interest payments on its term loan. Employee contributions are not permitted.

Participant Accounts - The Plan is a defined contribution plan under which a separate account is established for each participant. Each participant's account is credited as of each anniversary date each Plan year with an allocation of shares of the Company's common stock and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation.

Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant account based on the ratio of the participants account balance. All investments in the Plan are nonparticipant-directed investments.

Vesting - Participants vest in the Company contributions and earnings thereon at a rate based upon continuous years of service, becoming fully vested upon completing six years of service. Participants terminating due to normal retirement, death or disability will be 100% vested.

**KEY CONSTRUCTION
EMPLOYEE STOCK OWNERSHIP PLAN**

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN (CONTINUED)

Normal Retirement - Normal retirement age is the later of 65 years of age or the fifth anniversary of the first day of the Plan year in which participation in the Plan commenced.

Put Option - Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Payment of Benefits - Distributions on account of death, disability, or retirement are made in substantially equal annual payments over a period of not longer than the greater of five years or five years plus one additional year in the case of a participant with an account balance in excess of \$1,380,000 in the Plan year following the event. Distributions for other separations from service commence in the fifth Plan year following the separation from service and may be deferred or paid in installments. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash.

Voting Rights - Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. In the absence of voting instructions by a participant with allocated shares or any unallocated shares, the Trustee shall vote in its discretion subject to the Trustee's fiduciary obligations under ERISA.

Forfeitures - Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. There were no forfeited non-vested accounts allocated to participant accounts during the year ended December 31, 2024. There were no remaining forfeited non-vested accounts to be allocated to participant accounts in future years as of December 31, 2024.

Diversification - Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments that are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Use of Estimates - The accompanying financial statements are prepared on the accrual basis of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America

**KEY CONSTRUCTION
EMPLOYEE STOCK OWNERSHIP PLAN**

NOTES TO FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

requires management to make estimates and assumptions that affect: (1) the reported amounts of assets and liabilities, (2) disclosures such as contingencies, and (3) the reported amounts of revenues and expenses included in such financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The shares of Company stock are reported at fair value. Fair value for the common shares is determined by an annual independent appraisal. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net change includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Contributions - The Plan Sponsor may make its contribution to the Plan within the time prescribed by law, including extensions of time. When the Plan Sponsor makes a contribution with respect to the Plan Year after the close of the Plan Year, the Plan Sponsor will designate to the Trustee, the Plan Year for which the Plan Sponsor is making its contribution.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Subsequent Events - These financial statements considered subsequent events through October 9, 2025, the date these financial statements were available to be issued.

3. PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company common stock. The investment transactions are considered related party and party in interest transactions. The Plan also has a number of service providers. Such providers are parties in interest under ERISA. Transactions between these entities and the Plan qualify as party in interest transactions.

4. PLAN TERMINATION

Although it has not expressed an intention to do so, the Company reserves the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of termination of the Plan, the interests of the participants in the trust fund will be distributed to such participant or the participant's beneficiary at the time prescribed by the Plan terms and the IRC and the Trustee shall liquidate all assets of the Plan and continue to administer the Plan in accordance with its provisions until all obligations have been satisfied.

**KEY CONSTRUCTION
EMPLOYEE STOCK OWNERSHIP PLAN**

NOTES TO FINANCIAL STATEMENTS

5. TAX STATUS

The Company has applied to the Internal Revenue Service for determination that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management evaluated the Plan's tax positions and concluded that it had taken no uncertain tax positions that require recognition or disclosure in the financial statements. No provision or liability for income taxes has been included in the financial statements.

6. RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Such risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with the investment in the Company common stock, it is at least reasonably possible that changes in the value of the Company common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

7. PLAN FORMATION

As noted in Note 1, the Plan was established effective as of January 1, 2024. The Plan made an initial funding contribution of \$2,000,000 subsequent to year-end in which the Company designated the contribution to be effective for the year ended December 31, 2024. As such, a corresponding employer contribution and employer contribution receivable were recorded.
