Report of Independent Auditors

The Plan Administrator and Participants of
Superior Tank Lines Employee Stock Ownership Plan

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Superior Tank Lines Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Superior Tank Lines Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Superior Tank Lines Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Superior Tank Lines Employee Stock Ownership Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Superior Tank Lines Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Superior Tank Lines Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Superior Tank Lines Employee Stock Ownership Plan

Notes to Financial Statements

Note 1 – Plan Description and Basis of Presentation

The following description of the Superior Tank Lines Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement, as amended, for a more complete description of plan provisions.

General – The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (the Code), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Superior Tank Lines Holding Company, Inc. (the Company) is the Plan's sponsor and serves as plan administrator. The Board of Directors (the Board) means the Board appointed by the Company to govern the Plan.

On February 27, 2020, the Plan purchased company common stock (stock) using the proceeds of borrowings from the Company (see Note 5). The Plan purchased 1,000,000 shares of common stock at a price of \$75.83 per share, for an aggregate purchase price of \$75,831,177. The borrowings are to be repaid through 2060 subject to accelerated payments.

The borrowings are collateralized by the unallocated shares of stock. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code. The lender has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements for the Plan present assets and liabilities separately therein pertaining to:

- The accounts of participants with rights in allocated stock (allocated), and
- Stock not yet allocated to participants (unallocated).

At December 31, 2024 and 2023, these total share amounts constituted 100% of the issued and outstanding shares of the common stock of the Company.

Eligibility – Employees of the Company are eligible to participate in the ESOP after completing one hour of service and attaining 21 years of age. Participants are automatically enrolled in the Plan on the first day in which they become eligible (first day of employment). The Plan excludes employees who are: a member of a collective bargaining agreement, a nonresident alien, employed by a related entity that is not a participating employer, a leased employee, an individual who is not on the payroll of the Company, and those classified as independent contractors.

Contributions – The Company is obligated to make contributions in cash to the Plan, which aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Additionally, the Company can contribute an amount, if any, in excess of the required obligation. Employee contributions are not permitted.

Superior Tank Lines Employee Stock Ownership Plan

Notes to Financial Statements

Payment of benefits – Participants may receive benefits upon death, disability, retirement, or termination of employment. For death, disability, and retirement, distribution of a participant's account balance will commence during the first plan year following the year in which their retirement, disability, or death occurred. Distributions shall be paid as a lump sum cash payment for accounts less than \$50,000. For accounts greater than \$50,000, participants will receive a distribution in annual installment payments, with each installment payment being the lesser of \$50,000 or the remaining vested balance.

For termination of employment, distribution of a participant's account balance may commence during the plan year following the plan year in which the participant's employment ended. Distributions shall be paid as a lump sum cash payment for accounts less than \$25,000. For accounts greater than \$25,000, participants will receive a distribution in annual installment payments, with each installment payment being the lesser of \$25,000 or the remaining vested balance.

For account balances that exceed \$7,000, a participant must consent, in writing, to any distribution of his or her vested account balance. If a participant whose vested account balance exceeds \$7,000 does not consent to its offered distribution, fails to return the distribution election form, or cannot be located, the plan maintains such account balances until the participant requests a distribution. After such request is received, distributions will occur in the manner outlined above.

Administrative expenses – As provided in the Plan Agreement, administrative expenses may be paid either by the Plan or by the Company. Administrative expenses for the Plan for the year ended December 31, 2024 was \$324.

Voting rights – Participants holding stock allocated to their accounts generally have the right to direct the trustee on how to vote their shares. For unregistered stock, participants may vote on major corporate transactions such as mergers, consolidations, recapitalizations, liquidations, and sales of substantially all assets. For registered stock, participants may vote on all matters requiring shareholder votes. Shares held in the Plan's unallocated account and any shares for which participants do not provide voting instructions are voted by the trustee in its sole discretion. The trustee also retains the right to override participant voting instructions if such instructions would cause a violation of its fiduciary duties under ERISA.

Participant accounts – Company contributions, stock released from suspense, and forfeitures are allocated to active participants each year in proportion to the participant's eligible compensation to total eligible compensation. Plan earnings and dividends are allocated to each participant's account based on the ratio of the participant's account balance. Only participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation.

Superior Tank Lines Employee Stock Ownership Plan

Notes to Financial Statements

Vesting – Participants vest in the Company’s contributions based on the following schedule:

Years of Service	Percentage Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

The employee account becomes 100% vested in the event of a participant’s death, disability, or normal retirement.

Put option – Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market value. The put price is representative of the current appraised value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification – Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in the Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant’s account at year end.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP), using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with GAAP requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Allocations – The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Superior Tank Lines Employee Stock Ownership Plan

Notes to Financial Statements

Investment valuation and income recognition – The shares of Company common stock are reported at fair value. See Note 4 for a discussion of the fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. The net appreciation or depreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the “exit price”) in an orderly transaction between market participants at the measurement date.

Payment of benefits – Benefits are recorded when paid.

Subsequent events – Subsequent events are events or transactions that occur after the statements of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statements of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan’s financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statements of net assets available for benefits but arose after the statements of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 9, 2025, which is the date the financial statements were available to be issued.

Note 3 – Investments

The Plan’s investment in Company stock is presented in the following table:

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

Superior Tank Lines Employee Stock Ownership Plan Notes to Financial Statements

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2024 and 2023.

Company common stock – The fair value of the Company common stock held by the Plan is valued at an estimated fair value based upon an independent appraisal. This appraisal was based upon a combination of income and cash generating capability of the Company. The value of the common stock has been developed primarily on the income approach and the market approach. The appraiser further applied a discount for lack of marketability. Company common stock is classified within Level 3 of the valuation hierarchy.

The following table sets forth a description of the basic assumptions used in arriving at fair value:

Name	Valuation Technique	Unobservable Input
Company common stock	Income approach (discounted cash flow method)	Estimated future cash flows Required Return on Equity Indicated Cost of Debt Weighted-Average Cost of Capital Tax rate
	Income approach (capitalized cash flow method)	Estimated future cash flows Required Return on Equity Indicated Cost of Debt Weighted-Average Cost of Capital Tax rate
	Market approach	Guideline public company multiple

Notes to Financial Statements

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the ESOP believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table discloses by level the fair value hierarchy of the Plan's assets at fair value as of December 31, 2024 and 2023:

Note 5 – Note Payable

On February 27, 2020, the Plan entered into a \$75,831,177 promissory note with the Company. The proceeds of the note were used to purchase 1,000,000 shares of the Company's outstanding common stock. Unallocated shares are collateral for the note. Shares are released from collateral and allocated to participants accounts as payments of principal and interest are made. The agreement provides for the note to be repaid over 40 years, with varying installments ending in 2060 subject to accelerated payments. The note bears interest at 2.15% per annum. The balance due under the promissory note at December 31, 2024 and 2023, is \$33,317,402 and \$39,417,402, respectively.

Note 6 – Party-in-Interest Transactions

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Such parties are parties-in-interest under ERISA. The Plan invests in Company common stock and has indebtedness to the Company. The Company paid certain administrative expenses of the Plan. These transactions qualify as party-in-interest transactions for which a statutory exemption exists.

Note 7 – Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market volatility, and credit risks as well as valuation assumptions based on earnings, cash flows, and other such techniques. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the common stock in the near term could materially affect a participant's account balance and the amounts reported in the statement of net assets available for benefits. The Company common stock future value is subject to decisions of management and future conditions within the industry in which the Company operates.

Note 8 – Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated August 19, 2021, that the Plan and related trust are designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

In accordance with guidance on accounting for uncertainty in income taxes (Accounting Standards Codification 740-10), management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 – Plan Termination

Although the Company has expressed no intent to do so, it reserves the right to terminate the Plan at any time, subject to the plan provisions. Upon termination of the Plan, the entire interest of each of the affected participants shall become 100% vested. The Trustees shall distribute the interest of each participant in the trust fund to such participant or his or her beneficiary at the time prescribed by the plan terms and the Code. Upon termination of the Plan, the Board shall also direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loans.
