INDEPENDENT AUDITOR'S REPORT

To the Plan Administrators of
Sechan Electronics, Inc. Employee Stock Ownership Plan
Lititz, Pennsylvania

Opinion

We have audited the financial statements of Sechan Electronics, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Sechan Electronics, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Sechan Electronics, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Sechan Electronics, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.

SECHAN ELECTRONICS, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 1 PLAN DESCRIPTION

The following description of the Sechan Electronics, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

Sechan Electronics, Inc. (the Company) established the Sechan Electronics, Inc. Employee Stock Ownership Plan effective October 21, 1988 and the Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

2008 ESOP Transaction

On December 23, 2008, the Plan acquired 100% of the outstanding common shares of the Company. The transaction was facilitated pursuant to the Employee Stock Ownership Plan (ESOP) Loan Agreement and the Stock Purchase Agreement, both dated December 23, 2008.

Under the Stock Purchase Agreement, the trustee, acting on behalf of the Plan (the "Borrower"), agreed to purchase the outstanding common shares from certain shareholders. The Company (the "Lender") provided a loan to the Plan in the principal amount of \$21,113,400 (the "ESOP Note"). The loan was payable in 15 equal annual installments of \$1,407,560, plus interest at 4.5%. The ESOP Note was fully repaid during 2022.

Eligibility

Employees of the Company generally become eligible to participate in the Plan after completing one year of service and working at least 1,000 hours during that plan year. Eligible employees begin participation on the Plan's entry dates of January 1 or July 1 each year.

Participants who do not meet the 1,000-hour requirement or who are not employed on the last day of the plan year are generally not eligible to receive an allocation of Company contributions for that year.

Employer Contributions

Employer contributions are allocated among active participants based on their eligible compensation for the plan year. Employer contributions for the year ended December 31, 2024, totaled \$3,010,701. Contributions are subject to certain limitations imposed by the Internal Revenue Service (IRS).

NOTE 1 PLAN DESCRIPTION (CONTINUED)

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account (if any), an allocation of company contributions to the ESOP, an allocation of forfeitures of terminated participants' nonvested accounts, and an allocation of plan investment gain or loss.

Only participants who are eligible employees as of the last day of the plan year, or who terminate service during the year due to retirement, death, or disability, receive allocations of Company contributions and forfeitures. Allocations are based on each participant's eligible compensation relative to total eligible compensation. Plan earnings are allocated to participants' accounts based on the ratio of shares held in each participant's account at year-end to the total shares held in all participants' accounts at year-end.

Vesting

Participants who work 1,000 hours in a plan year are credited with one year of service for vesting purposes. Participants are vested in their accounts according to the following vesting schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
After 2 years, but less than 3	20%
After 3 years, but less than 4	40%
After 4 years, but less than 5	60%
After 5 years, but less than 6	80%
After 6 years or more	100%

Regardless of the number of years of service, a participant's account balance becomes fully vested when the participant attains age 62, becomes permanently disabled, or dies.

Forfeitures

The nonvested portion of a participant's account is reallocated to the remaining participants in the plan year following a one-year break in service. Forfeitures may be restored to a participant who is reinstated prior to incurring five consecutive one-year breaks in service. Forfeitures amounted to \$10,267 for the year ended December 31, 2024 and were reallocated to qualifying participants.

Payment of Benefits

Distributions from the Plan will be made when a participant retires (at or beyond normal retirement), dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), becomes totally disabled, or terminates employment with the Company.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares that have been distributed under the terms of the Plan. During 2024, the Company did not repurchase any participant shares.

NOTE 1 PLAN DESCRIPTION (CONTINUED)

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments that are more diversified. The Plan permits participants to diversify over a six-year period after attaining the age of 55 and having ten years of plan participation. This option allows participants the ability to liquidate up to 25% of their cumulative shares in the form of a distribution, either directly to the participant, as a rollover into the Company's 401(k) plan, or as an Individual Retirement Account rollover, in each of the first five years. In the sixth year, the participant may diversify up to 50% of their cumulative shares. Participants who elect to diversify receive a cash distribution. Benefit payments in the form of diversifications amounted to \$1,286,209 during the year ended December 31, 2024.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash. There was no exercising of put options by participants for the year ended December 31, 2024.

Voting Rights

The trustee shall vote all shares of Company stock held by the Plan with respect to all corporate matters upon which Company shareholders are entitled to vote. The trustee is required to vote all shares on behalf of the collective best interest of plan participants and beneficiaries.

Notwithstanding the foregoing, each participant in the Plan shall direct the trustee as to voting of shares of Company stock held in his or her account in the Plan and not held in the unallocated stock suspense account with respect to any shareholder vote that is required for the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all the assets of a trade or business. Each participant shall have one vote for each share of Company stock in his or her account. The trustee shall vote such allocated shares of Company stock as instructed by participants. Allocated shares for which no direction is received and unallocated shares shall be voted by the trustee as directed by the plan administrator.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations, and changes therein, claims incurred, but not reported, claims payable, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Payment of Benefit

Benefits are recorded when paid.

Administrative Expenses

Generally, all expenses of maintaining the Plan are paid by the Company. If plan expenses are not paid by the Company, they may be paid from the assets of the Plan.

NOTE 3 INVESTMENTS

The Plan's investments are presented in the following table at December 31:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Sechan Electronics, Inc. Common Stock				
Number of Shares	195,914	---	195,914	---

Total Investments	\$45,403,351	\$ ---	\$43,101,843	\$ ---

NOTE 4 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – inputs are unadjusted quoted prices in active markets for identical assets or liabilities;

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

- Level 2 - inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or
- Level 3 - unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2024 and 2023.

Common stock: The fair value of the Sechan Electronics, Inc. common stock held by the Plan is valued at fair value based upon an annual independent appraisal. This appraisal was based upon a combination of market and income valuation techniques consistent with prior years. The appraiser considered historical and projected cash flows and net income, return on assets, return on equity, comparable companies, and estimated fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves plan management's selection of an independent appraiser knowledgeable in preparing valuations and valuing companies in the plan sponsor's industry. Plan management accumulates the data for the appraiser from the audited financial statements of the Company as well as projected financial data. The appraiser prepares a preliminary report that plan management, along with the trustee, reviews in detail, discusses, and approves.

Money market fund: Valued at the net asset value of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, a summary of the Plan's investments measured at fair value on a recurring as follows:

	Investments at Fair Value			Total
	Level 1	Level 2	Level 3	
<i>As of December 31, 2024</i>				
Investment in Sechan Electronics, Inc. Common Stock	\$ ---	\$ ---	\$44,699,735	\$ 44,699,735
Money Market Fund	703,616	---	---	703,616
Total	\$ 703,616	\$ ---	\$44,699,735	\$45,403,351

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

	Investments at Fair Value			Total
	Level 1	Level 2	Level 3	
<i>As of December 31, 2023</i>				
Investment in Sechan Electronics, Inc. Common Stock	\$ ---	\$ ---	\$39,999,758	\$39,999,758
Money Market Fund	3,102,085	---	---	3,102,085
Total	<u>\$ 3,102,085</u>	<u>\$ ---</u>	<u>\$39,999,758</u>	<u>\$43,101,843</u>

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers between levels for the year ended December 31, 2024.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation technique used to measure the fair value of those financial instruments, and the significant unobservable inputs:

Instrument	Fair Value		Principal Valuation Technique	Unobservable Inputs
	December 31, 2024	December 31, 2023		
Common stock	\$ 44,699,735	\$ 39,999,758	Weighted average of income-based and market-based approaches	Discount for lack of marketability, projected future cash flows

NOTE 5 TAX STATUS

The IRS has determined and informed the Company by a letter, dated June 30, 2020, that the Plan is qualified, and the trust established under the Plan is tax-exempt, under the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. The Plan is exempt from federal and state income taxes under current regulations.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements.

NOTE 5 TAX STATUS (CONTINUED)

Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. Federal, state, or local tax authorities for years before 2022.

NOTE 6 ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist primarily of the Company's common shares, are held by the trustee of the Plan. TI-TRUST, Inc. is the independent trustee engaged to administer all trust activities.

Company contributions are held and managed by the trustee, who invests cash received, interest and dividend income, and makes distributions to participants.

During the year ended December 31, 2024, ESOP Partners performed recordkeeping and other administrative services for the Plan. Prior to 2024, such services were provided by FuturePlan by Ascensus.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. The Company pays substantially all administrative expenses, unless otherwise noted.

NOTE 7 PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to the provisions of ERISA. Upon termination of the Plan, the interest of each participant in the Plan will be distributed to such participant or his or her beneficiary, at the time prescribed by the plan terms and the IRC. In the event of plan termination, participants would become 100% vested in the Company contribution portion of their account.

NOTE 8 RISK AND UNCERTAINTIES

The Plan's investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

NOTE 9 RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related party and party-in-interest transactions. As described in Note 6, the Plan has a number of service providers. Such parties are parties-in-interest under ERISA.

NOTE 10 SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 10, 2025, the date the financial statements were available to be issued. The Plan is not aware of any subsequent events which would require recognition or disclosure in the financial statements.
