INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
The Georgia-Pacific LLC Retiree Health & Welfare Plan

Opinion

We have audited the financial statements of The Georgia-Pacific LLC Retiree Health & Welfare Plan (“the Plan”), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (“ERISA”), which comprise the statements of net assets available for benefits and statements of plan benefit obligations as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits and changes in plan benefit obligations for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits and plan benefit obligations of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits and changes in plan benefit obligations for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (“GAAS”). Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

1 Description of the Plan

The following description of the Georgia-Pacific Retiree Health and Welfare Plan (the Plan) provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan provides retiree medical, dental, vision, and life insurance coverage and is sponsored by Georgia Pacific, LLC (the Company) for the benefit of certain nonemployees (e.g., early retirees) (and their dependents) who have elected to participate in the Plan. The Company formed the Plan effective January 1, 2014. The Plan fully insures the life insurance and vision benefits. All other plan benefits are self-insured.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

The Plan provides limited term benefits to certain nonemployees (e.g., early retirees) who meet certain eligibility requirements.

Contributions

The Plan is a contributory plan. Certain participants may be eligible for their retiree medical coverage to be partially subsidized by the Company.

Continuation Coverage

Terms of the Plan provide for health care continuation coverage requirements enacted in the Consolidated Omnibus Budget Reconciliation Act of 1986 (COBRA). Essentially, COBRA requires that group health benefit plans must offer each qualified individual, who would otherwise lose coverage under a plan as a result of a qualifying event, an opportunity to elect, within 60 days of the qualifying event, continuation of coverage under the Plan. Qualifying events include such things as the death of a covered participant, the divorce or legal separation of a covered participant from the participant's spouse or a dependent child ceasing to be an eligible dependent of the covered participant under the requirements of the Plan.

Administration

The Plan is administered by the Company. The Company contracts with third-party insurance companies, and administrative service organizations to assist in administering the Plan.

2 Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities, benefit obligations and changes therein, claims incurred but not reported, claims payable and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Claims Payable and Claims Incurred But Not Reported

Claims payable and claims incurred but not reported represent claims against the Plan which were currently being processed at year-end but not paid by the Plan until the subsequent year and an estimate of covered expenses incurred by participants which had not yet been received for processing. These amounts are estimated by the Plan's actuary in accordance with accepted actuarial principles based on claims data provided by the Plan's third-party claims administrators. These amounts are paid by the Plan only if claims are submitted and approved for payment.

Payment of Benefits

Benefits are recorded as a reduction in net assets available for benefits when paid.

Administrative Expenses

Certain expenses of the Plan are paid by the Company and are not included in the statements of changes in net assets available for benefits.

Refunds

Refunds due from the Plan's benefit managers are recorded when earned. Refunds due as of the financial statement date have been reported as a receivable, with the offset being netted against claims paid. Refunds totaling \$24,766 have been netted with claims paid in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2024. There were no such refunds for the year ended December 31, 2023.

Post-Retirement Benefits

Post-retirement benefit obligations represent the actuarial present value of those estimated future benefits that are attributed by the terms of the Plan to participants' service rendered to the date of the financial statements, reduced by the actuarial present value of contributions expected to be received in the future from the respective participants.

The actuarial present value of the expected post-retirement benefit obligation is determined by an actuary and is the amount that results from applying actuarial assumptions to historical claims-cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability or withdrawal) between the valuation date and the expected date of payment.

2 Summary of Significant Accounting Policies (continued)

The following were significant actuarial assumptions used in the valuation as of December 31, 2024 and 2023

Weighted-average discount rate:	5.5% - 2024 5.1% - 2023
Average retirement age: 2024 and 2023	81.1 and 80.6

Mortality:

Pri-2012 with no collar adjustment, projected back to 2012 with Scale MP-2021

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligation.

3 Benefit Obligations

The Plan's excess of benefit obligations over net assets at December 31, 2024 and 2023 relates primarily to claims incurred but not reported and post-retirement benefit obligations for current retirees. It is expected that the excess obligation will be funded primarily through additional contributions from the Company.

4 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, trust assets will be applied to pay benefits until such assets are depleted. The Company is obligated to contribute any amounts necessary to pay accrued benefits under the Plan to the extent such benefits were payable prior to the date of termination.

5 Income Tax Status

The Trust, established effective January 1, 2014, has not obtained a favorable tax determination letter from the Internal Revenue Service; however, the Company believes that the Trust continues to qualify and to operate in accordance with applicable provisions of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if it has taken an uncertain position that more likely than not would not be sustained upon examination by the IRC. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6 Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of premiums paid per the financial statements to Form 5500:

For the years ended December 31	2024	2023
Insurance premiums paid per the financial statements	\$ 901,430	\$ 1,012,479
Plus:		
Decrease in insurance premiums payable	-	(977)
Premiums paid per the Form 5500	\$ 901,430	\$ 1,011,502

Premiums that have been processed and approved for payment at year-end, but not paid are not considered liabilities under generally accepted accounting principles and, therefore, are not presented as liabilities or premiums paid in the accompanying financial statements but are recorded on the Form 5500 as a liability.

7 Risks and Uncertainties

The actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates, health care inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would-be material to the financial statements.

8 Subsequent Events

The plan administrator has evaluated subsequent events through October 8, 2025, the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
