Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **CHERRY BEKAERT LLP**

(2) EIN: **56-0574444**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		10000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)		X	
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		X	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? Yes No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

Lexmark Retirement Growth Account Plan II
Lexington, Kentucky

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Lexmark Retirement Growth Account Plan II (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, the statements of accumulated plan benefits as of December 31, 2023 and 2022, and the related statements of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in *the Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

LEXMARK RETIREMENT GROWTH ACCOUNT PLAN II NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

Note 1—Description of Plan

The following is a brief description of the Lexmark Retirement Growth Account Plan II (the “Plan”) provided for general information purposes only. Additional information about the Plan is set forth in the Summary Plan Description contained in the publication, “The Lexmark Employee Handbook,” which is available to all participants on-line or in hardcopy.

General – The Plan is a defined benefit plan funded solely by actuarially determined contributions from Lexmark International, Inc. (the “Company” and “Plan Sponsor”). The Plan is administered by the Company as the Plan administrator.

Effective at 11:59:59 p.m. on December 31, 2020, the Company approved the creation of the Plan as part of a de minimis plan split from the Lexmark Retirement Growth Account Plan (“RGA Plan”), of which the Company is the Plan sponsor. The terms and conditions of the Plan are substantially identical to the terms and conditions of the RGA Plan. As of the effective date, the liabilities and associated assets under the RGA Plan with respect to certain Plan participants, beneficiaries, and alternate payees currently entitled to Plan benefits (“Transferred Participants”) were transferred to the Plan. These Transferred Participants, which were approximately 700 participants with \$15,807,167 in associated assets and \$16,652,162 in accumulated plan benefits, as determined by an independent actuary, are now included in the Plan as of January 1, 2021. At this time, the Company also amended the Lexmark Retirement Growth Account Plan Trust to create the Lexmark Retirement Growth Account Plan Master Trust (the “Master Trust”) that includes the assets of both the Plan and the RGA Plan. Each of these plans have an undivided interest in the net assets of the Master Trust. The spin-off was completed in accordance with the applicable provisions of ERISA and the Internal Revenue Code (“IRC”).

Effective April 3, 2006, the Company discontinued contribution credits to the RGA Plan. Participant balances calculated as of April 2, 2006 were preserved and interest continues to accrue on those balances. Any employees hired or rehired on or after April 3, 2006 are not eligible to participate in the Plan. All employees of the Company and certain designated U.S. subsidiaries of the Company who were eligible to participate in the RGA Plan as of April 2, 2006, and whose benefits have not been fully distributed or forfeited, remain covered under this Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. The Plan is a cash balance plan in which each participant has an account with a “balance” that grows with annual allocations (6% of eligible compensation per year prior to April 3, 2006) and interest. The interest rate at which each participant's account balance was credited for the actuarial valuation as of December 31, 2023 and 2022, was 5.73% and 4.00%, respectively.

Distributions – The Plan provides several payment options for receiving Plan benefits. A participant may elect to receive his or her benefits in a lump sum, joint and survivor annuity, life annuity, or, under certain circumstances, a combination thereof. For accounts with a cash value of \$5,000 or less, the only payment option available to the participant is a lump-sum payment. The maximum amount that generally can be distributed to a participant without first obtaining his or her consent is \$1,000.

Vesting – Participants employed by the Company are 100% vested in their accumulated Plan benefits.

LEXMARK RETIREMENT GROWTH ACCOUNT PLAN II NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

Note 2—Summary of significant accounting policies

Basis of Presentation – The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; the disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments held by the Master Trust are reported at fair value. JPMorgan Chase Bank, N.A. (the “Trustee”) is the custodian of investments held by the Master Trust. See Note 6 for further discussion of fair value measurements for assets held in the Master Trust.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the cash basis of accounting. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan’s gains and losses on investments bought and sold as well as held during the Plan year.

The Master Trust allocates investment income, net of investment related expenses, to the participating plans based upon the market value of each plan’s interest in the net assets of the Master Trust. This is recorded in the accompanying statements of changes in net assets available for benefits as “Plan interest in net investment income (loss) from Retirement Growth Account Plan Master Trust.”

Funding Policy – The Company’s funding policy for the Plan is to fund minimum amounts according to the regulatory requirements under which the Plan operates. From time to time, the Company may choose to fund amounts in excess of the minimum for various reasons. The Plan has met the minimum funding requirements for Plan years 2024 and 2023.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Plan and Master Trust Expenses – Only expenses of the Plan that are permitted to be charged to the Plan and Master Trust, in accordance with applicable law and with the provisions of the Plan document and Master Trust Agreement, are charged to the Plan and Master Trust. Expenses related to the Master Trust are recorded as direct expenses of the Master Trust and not as direct expenses of the Plan. The Plan’s direct expenses primarily are related to insurance premiums paid to the Pension Benefit Guaranty Corporation (“PBGC”), recordkeeping, and certain other administrative items. Master Trust direct expenses primarily relate to investment management, trustee and custodial services. Expenses attributed specifically to the Plan are charged to the Plan. Expenses that are paid directly by the Company are excluded from these financial statements.

Payment of Benefits – Benefit payments to participants are recorded upon distribution.

Risks and Uncertainties – The actuarial present value of the accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics. Due to uncertainties inherent in the estimates and assumptions, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

In addition, the Plan indirectly invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the financial statements.

LEXMARK RETIREMENT GROWTH ACCOUNT PLAN II

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

Note 3—Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to: (i) retired or terminated employees or their beneficiaries, (ii) beneficiaries of employees who have died and (iii) present employees or their beneficiaries. The accumulated plan benefit for each active participant is equal to the projected benefit the participant is expected to receive, based upon service and compensation to the valuation date. For retired members, the accumulated plan benefit is the amount of benefit each retiree is actually receiving under the annuity form elected. For terminated vested participants, the accumulated plan benefit is equal to the amount each such participant is entitled to receive as a life annuity.

The actuarial present value of accumulated plan benefits was determined by the consulting actuary, Mercer (US) LLC. This amount is determined by applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial valuation as of December 31, 2023 and 2022, was prepared using the unit credit actuarial cost method and based upon the following significant assumptions:

Interest

Discount rate: 5.20% (2023) 5.50% (2022)

Cash balance interest credit rate: 6.25% decreasing annually to 4.00% for 2033 and thereafter (2023)
4.00% (2022)

Mortality

For the 2023 valuation, the Plan used the PRI-2012 employee, retiree, and contingent survivor no collar tables, generationally projected with MSS-2023 mortality improvement scale. For disabled mortality, the Plan used the PRI-2012 disabled retiree tables, generationally projected with MP-2021 mortality improvement scale.

For the 2022 valuation, the Plan used the PRI-2012 employee, retiree, and contingent survivor no collar tables, generationally projected with MSS-2022 mortality improvement scale. For disabled mortality, the Plan used the PRI-2012 disabled retiree tables, generationally projected with MP-2021 mortality improvement scale.

Note 3—Actuarial present value of accumulated plan benefits (continued)

Retirement

Assumed retirement rates are as follows (2023 and 2022):

<u>Attained Age</u>	<u>Rate</u>
55	7%
56	4%
57	4%
58	6%
59	6%
60	15%
61	15%

63	25%
64	25%
65	25%
66	25%
67	25%
68	25%
69	25%
70	100%

The present value of accumulated plan benefits increased approximately \$1.06 million for the year ended December 31, 2023, and decreased approximately \$3.3 million for the year ended December 31, 2022, as a result of changes in actuarial assumptions. For 2023, these changes included a decrease in the discount rate, update to the base mortality rates and improvement scales, update to the interest rates and mortality table for conversions between lump sums and annuities, and increase in the cash balance credited interest rate. For 2022, these changes included an increase in the discount rate, update to the base mortality rates and improvement scales, and update to the interest rates and mortality table for conversions between lump sums and annuities.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

Note 4—Information prepared and certified by the qualified institution (unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, JPMorgan Chase Bank, N.A., a qualified institution, has certified to the completeness and accuracy of the following data included in the accompanying financial statements.

- Plan interest in Lexmark Retirement Growth Account Plan Master Trust as shown in the statements of net assets available for benefits at December 31, 2024 and 2023.
- Plan interest in net investment income from Lexmark Retirement Growth Account Plan Master Trust as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023.

At the request of the Plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements.

Note 5—Master trust

The Master Trust held the assets of both the Plan and the RGA Plan at December 31, 2024 and 2023. Use of the Master Trust permits the commingling of Plan assets with the assets of the RGA Plan for investment and administrative purposes. Each plan holds an undivided interest in the net assets held by the Master Trust. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust, plus actual contributions and allocated investment income or loss, less actual benefits paid, Plan specific expenses and allocated administrative expenses. At December 31, 2024 and 2023, the Plan held an interest of approximately 3.6% and 3.4%, respectively, in the Master Trust's net assets.

The following table presents the net assets of the Master Trust and the Plan's undivided interest in the Master Trust net assets at December 31, 2024 and 2023 (dollars in thousands):

	December 31, 2024		December 31, 2023

LEXMARK RETIREMENT GROWTH ACCOUNT PLAN II NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

Note 6—Fair value measurements

U.S. GAAP provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The fair values of the Master Trust assets are based on third party pricing information without adjustment. Price information on listed securities is taken from the exchange where the securities are primarily traded. Fair value of the participation units in the commingled trust funds is determined as the net asset value ("NAV") per unit as quoted by the funds.

The following is a description of the valuation methodologies used by the Plan for Master Trust assets measured at fair value at December 31, 2024 and 2023:

Mutual Fund – Valued at the daily closing price as reported by the fund or trust. The mutual fund held by the Master Trust is registered with the Securities and Exchange Commission. This fund is required to publish its NAV and to transact at that price. The mutual fund held by the Master Trust is deemed to be actively traded and is categorized as Level 1 within the fair value hierarchy.

Commingled Trust Funds – Valued using NAV provided by the administrator of the fund. NAV is used as a practical expedient to estimate fair value and is based on the value of the underlying investment assets owned by the fund, minus its liabilities. There are currently no restrictions on redemptions or unfunded commitments. Investments valued using NAV as a practical expedient are not reflected in the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6—Fair value measurements (continued)

The Master Trust's investments at fair value as of December 31, 2024 and 2023 are as follows (dollars in thousands):

	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Mutual fund	\$ -	\$ 3,017	\$ -	\$ 3,017

Total assets in the fair value hierarchy	\$ -	\$ 2,739	\$ -	2,739
Investments measured at NAV*				355,367
Investments, at fair value				\$ 358,106

* Certain investments measured at fair value using NAV as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to investments at fair value presented in the Master Trust disclosure (Note 5).

Note 7—Income tax status

The Plan has received a determination letter from the Internal Revenue Service (“IRS”) dated May 20, 2022, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is tax exempt. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

LEXMARK RETIREMENT GROWTH ACCOUNT PLAN II NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

Note 8—Plan termination

The Company reserves the right to terminate the Plan, in whole or in part, upon resolution duly adopted by its Board of Directors. Any Plan termination shall be in compliance with applicable provisions of ERISA and regulations issued by the PBGC. In the event of Plan termination, the benefits accrued to the date of termination shall be determined on the basis of the assumption that the employment of every affected participant terminated on such date.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan.
- b. Annuity benefits that former employees or their beneficiaries have been receiving for less than three years immediately prior to termination.
- c. Other vested benefits insured by the PBGC up to the applicable limitations (discussed below).
- d. All other vested benefits not insured by the PBGC.
- e. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC. Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits, and certain survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. The ceiling for Plan terminations, which is adjusted periodically, was \$7,108 and \$6,750 per month during 2024 and 2023, respectively. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants, or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Note 9—Related party and party-in-interest transactions

The Plan has entered into various service agreements with parties-in-interest. In addition, certain Master Trust investments are managed by an affiliate of the Trustee. These transactions qualify as party-in-interest.

Note 10—Subsequent events

The Plan Sponsor has evaluated all subsequent events through September 19, 2025, which is the date these financial statements were available to be issued. Effective at 11:59:59 p.m. on December 31, 2024, the accrued benefits of certain participants of the RGA Plan ("Second Spin-Off Participants") and the associated assets for such accrued benefits were transferred to the Plan. These Second Spin-Off Participants, which approximated 270 participants and \$9.7 million in associated assets, as determined by an independent actuary, are now included in the Plan as of January 1, 2025. In addition, the Plan Sponsor was acquired by Xerox Holdings Corporation on July 1, 2025. The impact of the acquisition on the Plan has yet to be determined.

Schedule SB, Part V — Statement of Actuarial Assumptions/ Methods**Actuarial assumptions for January 1, 2024 funding valuation**

Economic Assumptions		
Discount rate sponsor elections		
• Segment rates or full yield curve	Segment	
• Look-back months	4	
	<u>Stabilized</u>	<u>Nonstabilized</u>
• First 5 years	4.75%	3.62%
• Next 15 years	4.87%	4.46%
• Over 20 years	5.59%	4.52%
Assumptions prescribed by IRS		
Mortality sponsor elections		
• Healthy and disabled participants	Section 430(h)(3) prescribed separate annuitant and non-annuitant mortality tables. These tables are based on the Pri-2012 mortality tables projected generationally using the IRS-modified mortality improvement scale MP-2021 in accordance with the IRS regulation 1.430(h)(3)-1. Assumption prescribed by IRS.	
417(e) lump sums	Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and the current year 417(e) unisex mortality.	
Cash balance plans		
• Interest accumulation rate	6.28% for 2024, 4.65% for 2025, 4.50% for 2026, 4.60% for 2027, 4.40% for 2028, 4.20% for 2029-2030 and 4.00% for each subsequent year	
• Whipsaw calculations	No	
• Annuity conversion		
– Mortality table	2024 IRC Section 417(e) unisex mortality	
– Interest rate basis	Funding segment rates	
Other economic assumptions		
• Expected investment return	4.36% for 2022, 5.74% for 2023, 5.59% for 2024	
• Expenses	\$182,526 added to the current year target normal cost	

Rationale for significant economic assumptions

- **Cash balance interest accumulation rate** – The plan’s interest crediting rate is the average yield on one-year Treasury Constant Maturities plus 1.00%, but not less than 4.00%. We used the actual crediting rate for 2024 and stochastically projected the yield on one-year US Treasuries for the next 20 years based on

Schedule SB, Part V — Statement of Actuarial Assumptions/ Methods

economic conditions in January 2024. We added 1.00% load to the projected median yield, rounded the result to the nearest 5 basis points, and applied the 4.00% floor to set the cash balance crediting rate for each future year.

- **Expected investment return** – The expected rate of return on plan assets is based on the median simulated 20-year compound geometric average investment return using capital market assumptions published in Mercer Investment Consulting's January 2024 Capital Markets Outlook for the plan's target investment portfolio. The expected return on assets assumption is net of an adjustment of 10 bps for investment expenses to be paid from plan assets. The resulting assumption cannot be greater than the 3rd stabilized segment rate for the applicable plan year (5.92% for 2022, 5.74% for 2023, and 5.59% for 2024).
- **Expenses** – This assumption is based on the prior year administrative expenses of the Lexmark RGA Plan II, adjusted for anticipated PBGC premiums for the current year.

Rationale for significant demographic assumptions

- Withdrawal** – Withdrawal rates were set based on an experience study for the 2010 to 2014 plan years of the Lexmark RGA Plan and the expectation that future patterns under the Lexmark RGA Plan II will be similar to the population and period studied. We review the actual experience against this assumption every year and found no consistent and significant gains or losses generated by the current assumed withdrawal rates.
- Retirement age** – Retirement rates were set based on an experience study for the 2010 to 2014 plan years of the Lexmark RGA Plan and the expectation that future patterns under the Lexmark RGA Plan II will be similar to the population and period studied. We review the actual experience against this assumption every year and found no consistent and significant gains or losses generated by the current assumed retirement rates.
- Benefit commencement age** – Benefit commencement ages for future and current vested deferred participants were set based on an experience study for the 2010 to 2014 plan years of the Lexmark RGA Plan and the expectation that future patterns under the Lexmark RGA Plan II will be similar to the population and period studied. We review the actual experience against this assumption every year and found no consistent and significant gains or losses generated by the current assumed benefit commencement ages.
- Form of payment** – Forms of payment assumptions for future retirements were set based on an experience study for the 2010 to 2014 plan years of the Lexmark RGA Plan and the expectation that future patterns under the Lexmark RGA Plan II will be similar to the population and period studied. We review the actual experience against this assumption every year and found no consistent and significant gains or losses generated by the current assumed forms of payment.

Schedule SB, Part V — Statement of Actuarial Assumptions/ Methods

Actuarial methods for funding

Asset methods

The asset valuation method is an average of the adjusted market value over the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan administrator, Fidelity Investments, and plan sponsor identify and provide us with data for all plan participants as of December 31 prior to the valuation date.
- **Participants excluded:** None
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

70	100.0%	548	548	38,345
Total			10,000	619,109
Average				61.91

The weighted average retirement age is the total for the number of retirements at each retirement age multiplied by the retirement age, divided by the total number of retirements, rounded to the nearest age. It should be noted that while only integer values are shown in the table above, the full content of each cell, including decimal portions, is used in calculations.

Benefits included or excluded

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* The plan applies late retirement actuarial increases on the Core benefit for all participants who defer retirement beyond their normal retirement date and this valuation includes those increases. In addition, cash balance accounts continue to earn interest after the normal retirement date.
 - *Deferred vested participants:* Actuarial increases on the Core benefit for all deferred vested participants who are over the normal retirement age on the valuation date have been applied. In addition, cash balance accounts for such participants reflect the interest credited after their normal retirement date.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* None
 - *Plan amendments:* None
 - *Prohibited payments:* None

Schedule SB, Part V — Summary of Plan Provisions

- **Benefit accruals:** The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.

Unpredictable contingent event benefits: The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

None.

Schedule SB, line 24 — Change in Actuarial Assumptions

Actuarial assumption changes since prior valuation

- The expense component of the target normal cost was updated from \$133,238 to \$182,526 to reflect our expectations for the current plan year administrative expenses.
- The expected investment return for the current plan year funding was changed from 5.74% to 5.59%.
- The cash balance credited interest rate was updated based on recent economic forecast.
