Independent Auditor's Report

To the Plan Administrator and Those Charged with Governance of
ViaSun Corporation Employee Stock Ownership Plan:

Opinion

We have audited the financial statements of ViaSun Corporation Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of ViaSun Corporation Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ViaSun Corporation Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ViaSun Corporation Employee Stock Ownership Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ViaSun Corporation Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ViaSun Corporation Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

ViaSun Corporation Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

1. Description of Plan

The following description of the ViaSun Corporation (the "Company") Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a leveraged employee stock ownership plan ("ESOP") established effective January 1, 2019. The Plan covers all employees, excluding common law employees, collective bargaining agreement employees, leased employees, and non-resident aliens. Employees of the Company who have completed 1,000 hours of service and are age 18 or older are eligible to participate in the Plan. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("IRC"), and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan Administrator is responsible for oversight of the Plan. The Plan is administered by the Company's Board of Directors, who has appointed an independent trustee, GreatBanc Trust Company (the "Trustee"). The Plan utilizes third-party administrators appointed by the Trustee. The Plan's investment committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Plan Administrator.

The Plan purchased Company common stock using Company contributions and proceeds from two loans payable to the Company and holds the common stock in the ViaSun Corporation Employee Stock Ownership Trust (the "Trust"). The Trustee invests and reinvests Trust assets in Company common stock or other investments as directed by the Board of Directors in accordance with the terms of the Plan agreement and Trust agreement. As the Plan makes debt payments, an appropriate percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the Internal Revenue Code ("IRC").

The borrowing is collateralized by the unallocated shares of Company common stock and is guaranteed by the Company. The Company has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, present separately the assets and liabilities and changes therein pertaining to:

- The accounts of employees with vested and unvested rights in allocated Company common stock ("allocated"), and
- Company common stock not yet allocated to employees ("unallocated").

Employer Contributions

The Company may make a cash or stock contribution which is determined annually by the Company's Board of Directors. The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted. Participants who are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year. Additional discretionary amounts may be contributed by the Company at the option of the Plan Administrator. For the year ended December 31, 2024, there were no discretionary contributions to the Plan. During the year ended December 31, 2024, the Company made employer contributions totaling \$2,233,070.

Participant Accounts and Allocations

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with an allocation of the Company's discretionary contributions and, on the last day of each plan year, an allocation of the Company's common stock shares released from the unallocated account, as well as forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated, as defined in the Plan agreement, to each participant's account based on the ratio of the participant's account balance to all participants' account balances.

ViaSun Corporation Employee Stock Ownership Plan Notes to Financial Statements December 31, 2024 and 2023

Vesting

If a participant's employment with the Company is terminated for any reason other than retirement, permanent disability, or death, vesting in their contributions is based on years of continuous service. A participant is 20% vested after two years of credited service and continues to vest in increments of 20% until 100% vested after six years of credited service.

Regardless of years of service, participant accounts are 100% vested when the participant reaches normal retirement age, becomes permanently disabled or dies.

Voting Rights

All Company common stock held in the Plan is generally voted in the manner determined by the Trustee; however, with respect to any corporate matter which involves the voting of such shares with respect to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or such similar transaction as may be prescribed in Treasury regulations, each participant who has Company common stock allocated to their account shall have one vote per participant with respect to such issue. Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by GreatBanc Trust Company, the Trustee, prior to the time that such rights are to be exercised. The Trustee is required to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries as well as any allocated shares for which a participant has failed to give timely voting direction.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant will receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or installment payments as provided in the plan document. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. Distributions are made in cash or, if the participant elects, in the form of Company common stock plus cash for any fractional share of common stock. The amount to be distributed is based upon the immediately preceding valuation date.

Distributions are made in cash or Company common stock according to a payment schedule as prescribed by the Plan. Payments will be made over a period not exceeding five years unless a participant elects to extend the payment schedule under specific provisions of the Plan. If a participant's vested portion exceeds \$1,105,000, the maximum payment period can be extended to five years plus one additional year (but no more than five additional years) for each \$220,000 (or fraction of \$220,000) by which the eligible portion exceeds \$1,105,000. Annually, these limitations can be adjusted by factors prescribed under IRC section 415(d).

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan.

Forfeited Accounts

Plan forfeitures are allocated to each participant's account in the same manner in which the Company contributions are allocated. At December 31, 2024 and 2023, there were no forfeited nonvested accounts. Forfeitures are allocated to participant accounts of those employed on the last day of the plan year. During 2024, 8,587 shares and \$1,452 cash were allocated to participant accounts from forfeited nonvested accounts, in accordance with plan provisions.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

ViaSun Corporation Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Diversification

Diversification is offered to participants who are at least 55 years old and have participated in the Plan for at least 10 years (a Qualified Participant). During each of the first five years of eligible diversification, a Qualified Participant may withdraw up to 25% of the value of their investment in Company common stock, less any shares previously diversified, and transfer the amount as a rollover into another qualified plan or as a cash withdrawal. In the sixth and subsequent years, the percentage amount that can be withdrawn increases to 50%. The election to diversify is made subsequent to year-end based upon the shares of Company stock in the participant's account at year-end. The earliest participants will be eligible for diversification will be after the year ending December 31, 2029. Thus, no diversification distributions occurred during the year ended December 31, 2024. For the year ended December 31, 2024, no funds were transferred from the Plan to another qualified contribution plan sponsored by the Company.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Interest-bearing Cash and Concentration of Credit Risks

Interest-bearing cash includes all cash balances and highly liquid investments with an initial maturity of three months or less. The Plan places its temporary cash investments with high credit quality financial institutions. Financial instruments that potentially subject the Plan to concentrations of credit risk consist principally of cash deposits at a brokerage firm. Balances are insured up to \$500,000, with a limit of \$100,000 for cash, by the Securities Investor Protection Corporation ("SIPC").

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company, as applicable. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Dividends from Company stock, whether or not used to repay acquisition notes, will be allocated to participants pro rata based upon the number of shares of Company stock held on the dividend declaration date, except when the fair market value of the dividends is less than their stated amount, in which case the dividends will be allocated pro rata based upon the value of the participants' Company stock holdings.

Payment of Benefits

Benefits payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid from the assets of the Plan and allocated among all Plan participants. The Company may, at its discretion, pay any or all of such expenses. During the year ended December 31, 2024, no expenses were paid from the assets of the Plan.

Notes to Financial Statements
December 31, 2024 and 2023

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation technique are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation technique include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation technique are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2024 and 2023.

Money Market Funds: Valued at the quoted net asset value of shares held by the Plan at year-end, which approximates fair value.

Company Common Stock: Valued at estimated fair value based on an independent third-party appraisal using a combination of widely used valuation approaches, including the market and income valuation techniques. The appraiser considered inputs such as historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities, along with a discount for lack of marketability where appropriate. The stock is included in the fair value table below as a Level 3 asset.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	December 31, 2024			
	Level 1	Level 2	Level 3	Total

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2024:

	Common Stock in ViaSun Corporation

Net unrealized appreciation in the fair value of investments	11,430,000
Balance, end of year	<u>\$ 46,200,000</u>

4. Investments

The Plan's investments in the Company's common shares at December 31, 2024 and 2023, are presented in the following table:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	298,183	701,817	288,699	711,301

Estimated fair value	\$ 13,776,057	\$ 32,423,943	\$ 10,038,066	\$ 24,731,934

5. Loan Payable

On November 6, 2020, the Plan purchased 900,000 shares of the Company's common stock with a loan from the Company in the amount of \$30,000,000. The loan was refinanced on December 20, 2024 with an outstanding principal balance and interest of the original loan of \$24,273,107. The number of remaining pledged shares at the time of refinancing was 711,300. The Company has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the Plan. The newly refinanced note matures on December 31, 2098 and bears interest at a fixed rate of 1.17% . The borrowing is collateralized by the unallocated shares of common stock. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, multiplied by the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 9,484 and 48,474 shares being released and allocated for the plan years ended December 31, 2024 and 2023, respectively.

6. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated September 24, 2021, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving this letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Administration of Plan Assets

The Plan's assets, which consist principally of Company common stock, are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee. The Trustee also administers the payment of interest and principal on the loan, which is reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. As provided by the Plan agreement, all administrative expenses will be paid by the Company if not paid from Trust assets. To date, the Company has paid all expenses to establish and maintain the Plan.

8. Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Plan Administrator directs the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan agreement and the IRC. In the event of Plan termination, participants would become 100 percent vested in employer contributions and earnings thereon.

9. Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

10. Related Party and Party-In-Interest Transactions

The Plan invests in shares of common stock of the Company and had indebtedness to the Company. The Trustee of the Plan holds common stock and interest-bearing cash on behalf of the Plan and makes distributions to participants. Additionally, during the year ended December 31, 2024, the Company paid substantially all expenses related to the administration of the Plan. These transactions qualify as party-in-interest transactions.

11. Subsequent Events

The Plan evaluated subsequent events through October 10, 2025, the date the financial statements were available to be issued. Based upon that evaluation, the Plan has determined that no material subsequent events require recognition or disclosure in these financial statements.
