All assets of ***The Retirement Benefit Plan of American Airlines, Inc. for Agent, Management, Specialist, Support Personnel and Officers*** (the "Plan") are held in the American Airlines, Inc. Master Fixed Benefit Pension Trust (the "Master Trust"). Therefore, neither a Schedule of Assets (Held at End of Year) nor a Schedule of Reportable Transactions is included since only those assets held by the Plan outside the Master Trust would be required under regulations issued by the Department of Labor.

## INDEPENDENT AUDITORS' REPORT

To the Participants and Administrator of

### **THE RETIREMENT BENEFIT PLAN OF AMERICAN AIRLINES, INC. FOR AGENT, MANAGEMENT, SPECIALIST, SUPPORT PERSONNEL AND OFFICERS**

#### **Scope and Nature of the ERISA Section 103(a)(3)(C) Audit**

We have performed the audits of the financial statements of *The Retirement Benefit Plan of American Airlines, Inc. for Agent, Management, Specialist, Support Personnel and Officers* ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements (the "financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

#### **Opinion**

In our opinion, based on our audit and on the procedures performed as described in the "Auditors' Responsibilities for the Audit of the Financial Statements" section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the "Auditors' Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

## **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

## **Auditors' Responsibilities for the Audit of the Financial Statements**

Except as described in the "Scope and Nature of the ERISA Section 103(a)(3)(C) Audit" section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

### (1) Description of the Plan

#### **General**

American Airlines, Inc. (“American”), or its authorized delegate, is the Plan administrator of *The Retirement Benefit Plan of American Airlines, Inc. for Agent, Management, Specialist, Support Personnel and Officers* (the “Plan”). The following brief description of the Plan, a noncontributory defined benefit plan, is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

Noncontract employees hired prior to January 1, 2002, were given a one-time choice between participation in the Plan or receiving a company match up to 5.5% of pensionable pay (as defined by the Plan) in the American Airlines, Inc. 401(k) Plan (the “401(k) Plan”). For electing noncontract employees hired prior to January 1, 2000, the 401(k) Plan company match was effective January 1, 2001, and no further credited service accrued under the Plan. For noncontract employees hired during 2000 and 2001 who did not elect to participate in the Plan, the 401(k) Plan company match was available after the completion of one year of eligibility service. Effective January 1, 2002, the Plan was closed to new employees first hired on or after January 1, 2002.

Effective November 1, 2012, the Plan was frozen to future benefit accruals.

Willis Towers Watson provides actuarial services for the Plan. State Street Bank and Trust Company (the “Trustee”) serves as the Plan’s trustee. American Beacon Advisors serves as the Master Trust’s investment advisor and is responsible for the oversight of all investments of the Master Trust.

On September 17, 2024, the Plan was amended to provide for the purchase of one or more group annuity contracts from an insurer to satisfy the benefit obligations of certain participants and beneficiaries under the Plan. On that date, the Plan entered into a commitment agreement to purchase a group annuity contract from New York Life Insurance Company for \$132,220,213. Newport Trust Company, LLC, the independent fiduciary retained by the Employee Benefits Committee, selected New York Life Insurance Company as the insurer. The group annuity contract covered approximately 4,900 retirees and beneficiaries who received benefits from the Plan (“Transferred Participants”). The purchase of the group annuity contract closed on September 24, 2024. New York Life Insurance Company has made an irrevocable commitment and is solely responsible to pay benefits of each Transferred Participant that are due on and after December 1, 2024. The transaction does not change the amount of pension benefits payable to the Transferred Participants.

#### **Benefits**

Benefits are payable to vested participants, as defined by the Plan, upon attainment of the normal retirement age of 65, upon attainment of an early retirement age (age 55 and completion of 15 years of retirement eligibility service, as defined by the Plan, age 62 and completion of 10 years of retirement eligibility service, or age 60 and completion of 10 years of retirement eligibility service, provided the participant was an eligible employee and was on active payroll or an authorized leave of absence with reinstatement rights on or after August 31, 2002, as defined by the Plan), or upon attainment of a late retirement age (after age 65). Participants are vested once they have five years of vesting service, reach age 65, or are permanently and totally disabled.

#### **Income Tax Status**

The Plan has received a determination letter from the Internal Revenue Service (“IRS”) stating that the Plan, as amended, is qualified under Section 401(a) of the Internal Revenue Code (the “Code”), and therefore, the related trust continues to be exempt from taxation. The Plan is required to operate in

# THE RETIREMENT BENEFIT PLAN OF AMERICAN AIRLINES, INC. FOR AGENT, MANAGEMENT, SPECIALIST, SUPPORT PERSONNEL AND OFFICERS

## NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

conformity with the Code to maintain its qualification. The Plan administrator has indicated that it will take the necessary steps to maintain the Plan's qualified status.

Accounting principles generally accepted in the United States of America require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

### **Plan Termination**

While American has not expressed any intent to discontinue its contributions or to terminate the Plan, it is free to do so at any time, subject to the requirements of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). If such discontinuance results in the termination of the Plan, the participant's accumulated plan benefits will be paid dependent on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

## **(2) Significant Accounting Policies**

### **Basis of Accounting**

The Plan's financial statements are prepared on the accrual basis of accounting, except for benefit payments, in accordance with accounting principles generally accepted in the United States of America.

### **Benefit Payments**

Benefit payments are recorded when paid.

### **Investments**

American maintains the investments of the Plan and its other defined benefit plans in the American Airlines, Inc. Master Fixed Benefit Pension Trust (the "Master Trust"). The Master Trust is maintained to maximize the investment and income potential for all plans and to limit the exposure to loss for any single plan. Investment managers, subject to certain restrictions on the composition of the Master Trust's investment portfolio, exercise full discretionary authority for the purchase and sale of securities.

Investments held by the Master Trust are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for further discussion of fair value measurements.

The Employee Benefits Committee (the "Committee") has responsibility for all fiduciary duties related to the administration and investment of the Plan. As of December 31, 2024, there were five members of the Committee.

Purchases and sales are reflected on a trade-date basis.

## NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

### Allocations from Master Trust

Net income from the Master Trust, including net appreciation in fair value of investments, dividend and interest income and investment expenses, are allocated to all participating plans based on the fair value of each plan's interest in the Master Trust at the end of each month. The Plan's interest in the Master Trust at December 31 represents the prior year's ending balance plus the allocation of net income from the Master Trust adjusted for certain plan-specific transactions, including employer contributions, benefit payments, PBGC premiums and certain administrative expenses.

### Net Appreciation in Fair Value of Investments

Net appreciation in fair value of investments held in the Master Trust includes realized and unrealized investment gains and losses. Realized gains and losses on the sale of securities are determined based on average cost of securities sold, while unrealized gains and losses are determined based on average cost of securities held at the end of the year.

### Dividend and Interest Income

Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned on the accrual basis.

### Funding Policy

American is required to make minimum contributions to the Plan under the ERISA minimum funding requirements, including the Pension Funding Equity Act of 2004, the Pension Protection Act of 2006, and the Pension Relief Act of 2010. American's funding policy is generally to make the minimum required contribution in quarterly installments, not in excess of the maximum deductible contribution for the Plan year. From time to time, American may make additional contributions above the ERISA minimum funding requirements. The Plan satisfied the ERISA minimum funding requirements for the 2024 Plan year.

### Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 8) represent the actuarial present value of estimated future periodic payments that are attributable under the Plan's provisions for services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to eligible employees' service rendered to the valuation date.

The Plan's actuary estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits is the amount that results from the application of actuarial assumptions to the benefit formula and census data as of the valuation date. The significant actuarial assumptions used in the valuations as of December 31, 2024 and 2023 were:

- Average retirement age of 63 for 2024 and 2023
- Assumed interest rate of 7.75% for 2024 and 8.00% for 2023

# THE RETIREMENT BENEFIT PLAN OF AMERICAN AIRLINES, INC. FOR AGENT, MANAGEMENT, SPECIALIST, SUPPORT PERSONNEL AND OFFICERS

## NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

- Life expectancy based on separate rates for non-annuitants based on the Pri-2012 “Employees” table with white collar adjustment, no quartile adjustment, increased 3.0%, and then projected generationally from 2012 using Scale MP-2021 for 2024 and 2023.
- Annuitant mortality rates are based on the Pri-2012 “Nondisabled Annuitants” table with white collar adjustment, no quartile adjustment, increased 3.0%, and then projected generationally from 2012 using Scale MP-2021 for 2024 and 2023.
- Employee turnover

The retirement and turnover decrement assumptions reflect the Plan administrator’s best estimate of future experience.

Accumulated plan benefits, including actuarial adjustments, include the effects of actuarial experience gains and losses.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuary estimated the accumulated plan benefits as of January 1, 2024 and January 1, 2023, and projected the benefit obligations to December 31, 2024 and December 31, 2023. There were no significant changes to the Plan that would have changed the valuations as of December 31, 2024 and 2023.

### **Administrative Expenses**

Certain plan expenses, including PBGC premiums and noninvestment-related expenses, are paid by the Plan.

### **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

### **Risks and Uncertainties**

The Master Trust invests in various investment securities, financial contracts and securities lending activities, which, in general, are exposed to various risks, such as interest rate, market volatility and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. As a result of these risks, it is at least reasonably possible that changes in the values of investments will occur and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

### **Subsequent Events**

The Plan’s management has evaluated subsequent events through October 6, 2025, which is the date the financial statements were available to be issued, and determined that there were no subsequent events or transactions that required recognition or disclosure in the financial statements.

**NOTES TO FINANCIAL STATEMENTS**

December 31, 2024 and 2023

**(4) Derivatives**

In the normal course of operations, the Master Trust's assets and liabilities may include derivative financial instruments (futures, foreign currency forwards, credit default swap agreements and total return swap agreements). These derivatives involve, in varying degrees, elements of credit and market volatility risks in excess of more traditional investment holdings, such as equity and debt instruments. The contract or notional amounts disclosed in this footnote provide a measure of the Master Trust's involvement in such instruments but are not indicative of potential value. The intent is to use derivative financial instruments for a variety of reasons, including to hedge or reduce, rather than increase, market volatility risk when considered together with the Master Trust's investment assets as a whole and to manage certain investment risks or to substitute for the purchase or sale of the underlying securities or currencies. The Master Trust's fiduciaries do not anticipate any material adverse effect on the Plan's financial position resulting from its involvement in these instruments.

**Futures Contracts**

On behalf of the Master Trust, investment managers enter into various futures contracts as cost-effective ways to manage the overall asset allocation of the investment portfolio and to implement and manage duration and yield curve strategies in the fixed income portfolio. These contracts, which are considered derivatives under Financial Accounting Standards Board Accounting Standards Codification 815, *Derivatives and Hedging*, are agreements between two parties to buy or sell a security or financial interest at a set price on a future date and are standardized and exchange-traded. Upon entering into such a contract on behalf of the Master Trust, the investment manager is required to pledge to the broker an amount of cash or securities equal to the minimum "initial margin" requirements of the exchange on which the contract is traded. Pursuant to the contract, the investment manager agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as margin variation receivable (payable) in the net assets of the Master Trust and are recognized as a realized gain or loss in the allocated net income of the Master Trust equal to the difference in the value of the contract between daily closing prices.

With futures, there is minimal counterparty credit risk to the Master Trust because those contracts are exchange-traded and settled on a daily basis, and the exchange's clearinghouse, as counterparty to all exchange-traded futures, guarantees the futures against default.

The following tables present the Master Trust's open futures contracts at December 31, 2024 and 2023. The margin variation receivable (payable) presented in these tables includes cumulative appreciation (depreciation) of futures contracts.

Various futures	372	3/2024	31,963,877	2,595,058
Total futures contracts				<u>\$ 39,449,019</u>

**Credit Default Swap Agreements**

On behalf of the Master Trust, investment managers enter into credit default swap agreements, which involve one party making a stream of payments (referred to as the buyer of protection) to another party (the seller of protection) in exchange for the right to receive a specified return in the event of a default or other credit event for the referenced entity, obligation or index. The Master Trust utilizes credit default swap agreements to mitigate the risk of market fluctuations on assets due to the change in creditworthiness of the issuer of a security or basket of securities (credit risk).

The maximum potential amount of future payments (undiscounted) that the Master Trust, as a seller of protection, could be required to make under a credit default swap agreement would be an amount equal to the notional amount of the agreement. These potential amounts would be partially offset by any recovery values of the respective obligations, upfront payments received upon entering into the agreement, or net amounts received from the settlement of buy protection credit default swap agreements entered into by the Master Trust for the same referenced entity or entities.

As of December 31, 2024 and 2023, the gross notional value for the Master Trust's outstanding credit default swap agreements was \$154,300,000 and \$92,800,000, respectively. The Master Trust records credit default swap agreements at their fair value and reports the net value within other investments. The fair value measurement of the agreements is discussed in Note 5 and was not material as of

# THE RETIREMENT BENEFIT PLAN OF AMERICAN AIRLINES, INC. FOR AGENT, MANAGEMENT, SPECIALIST, SUPPORT PERSONNEL AND OFFICERS

## NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

December 31, 2024 and 2023. Realized gains and losses and changes in unrealized gains and losses are included in net appreciation in fair value of investments of the Master Trust and were not material for the year ended December 31, 2024.

### **Total Return Swap Agreements**

On behalf of the Master Trust, investment managers may also enter into total return swap agreements wherein one party makes a series of payments based on the change in market value of an underlying reference asset, which may include a specified security, basket of securities or security index, to another party for a specified period of time. This side of the swap is commonly referred to as the “float” leg. In exchange, the other party makes a series of payments based on a fixed or variable interest rate. This side is commonly referred to as the “fixed” leg. The economic effect of a swap is similar to that of buying or selling the underlying reference asset, without exchanging physical custody. Total return swaps are subject to the risks associated with an investment in the underlying reference asset as well as the risk that the other party (the “counterparty”) may not fulfill its obligation under the agreement.

The Master Trust determines the fair value of its total return swaps based on the published reference-asset price or index value on a daily basis. The total market value of the swap is the sum of the market value of both the fixed and the float legs, and the swap value is collateralized daily.

As of December 31, 2024 and 2023, the gross notional value for the Master Trust's outstanding total return swap agreements was \$954,773,195 and \$906,346,566, respectively. The Master Trust records total return swap agreements at their fair value and reports the net value within other investments. The fair value measurement of the agreements is discussed in Note 5 and was not material as of December 31, 2024 and 2023. Realized gains and losses and changes in unrealized gains and losses are included in net appreciation in fair value of investments of the Master Trust and were not material for the year ended December 31, 2024.

### **(5) Fair Value Measurements**

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to observable inputs in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 - Observable inputs such as quoted prices available in active markets for identical assets and liabilities;
- Level 2 - Inputs other than quoted prices in active markets for similar assets or liabilities, that are observable either directly or indirectly; and
- Level 3 - Unobservable inputs for the asset or liability that are supported by little or no market activity, which require the reporting entity to develop its own assumptions.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is most significant to the fair value measure in its entirety.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2024 and 2023.

Cash and cash equivalents contain interest bearing cash.

Common and preferred stocks held by the Master Trust are valued based on quoted market prices on the last business day of the year.

# THE RETIREMENT BENEFIT PLAN OF AMERICAN AIRLINES, INC. FOR AGENT, MANAGEMENT, SPECIALIST, SUPPORT PERSONNEL AND OFFICERS

## NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

Registered investment company investments contain mutual funds. The fair value of mutual funds is calculated once daily through a net asset value ("NAV") calculation that is provided at the end of each trade day.

Fixed income investments contain corporate debt, mortgage backed securities, and U.S. Government and agency securities. Corporate debt and mortgage backed securities are valued using pricing models maximizing the use of observable inputs for similar securities. U.S. Government and agency securities are valued at the closing price reported on the active market on which the individual securities are traded.

Investments in limited partnerships are carried at estimated NAV as determined by and reported by the general partners of the partnerships and represent the proportionate share of the estimated fair value of the underlying assets of the limited partnerships. These investments include limited partnerships that invest primarily in domestic private equity and private income opportunities. The Master Trust does not have the right to redeem its limited partnership investment at its NAV, but rather receives distributions as the underlying assets are liquidated. It is estimated that the underlying assets of these funds will be gradually liquidated over the next 10 years. Additionally, as of December 31, 2024, the Master Trust has future funding commitments of approximately \$1.1 billion, most of which are expected to be called over the next five years.

Common/collective trusts are valued at NAV based on the fair values of the underlying investments of the trusts as determined by the sponsor of the trusts. As of December 31, 2024, this investment includes 30% in a common/collective trust investing in large market capitalization equity securities within the U.S., 22% in common/collective trusts investing in emerging country equity securities, 20% in a collective interest trust investing primarily in short-term securities, 19% in common/collective trusts investing in equity securities of companies located outside the U.S. and 9% in common/collective trusts investing in small to mid-market capitalization equity securities within the U.S. For some trusts, requests for withdrawals must meet specific requirements with advance notice of redemption preferred.

Other investments primarily include international government and U.S. municipal debt securities. These investments are valued at the closing price reported on the active market on which the individual securities are traded. The remaining investments include swap agreements which are valued using pricing models that represent the price a dealer would pay for these securities.

The Master Trust also participates in securities lending programs to generate additional income by loaning plan assets to borrowers on a fully collateralized basis. The Master Trust remains the beneficial owner of the securities loaned and, accordingly, classifies loaned securities as investments. Since the securities received as collateral may be re-pledged or sold, the Master Trust recognizes the amount of collateral received and a corresponding obligation to return such collateral on the statements of net assets available for benefits. The Master Trust bears the risk of gains or losses on the investment of cash collateral. The fair value of securities on loan was \$7,470,317 and the fair value of collateral was \$7,724,021 at December 31, 2024. The fair value of securities on loan was \$18,193,178 and the fair value of collateral was \$18,912,301 at December 31, 2023. Collateral held on loaned securities includes securities issued or guaranteed by the United States government or its agencies or instrumentalities and cash which is invested in a money market fund primarily holding U.S. Government securities.

**(6) Information Certified by the Trustee**

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements is complete and accurate:

- Fair value of investments (except as noted in Note 3)
- Allocated net income (except as noted in Note 3)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

**NOTES TO FINANCIAL STATEMENTS**

December 31, 2024 and 2023

**(7) Parties-in-Interest**

Certain Plan investments are shares of common stock of State Street Bank and Trust Company, the Plan's Trustee, and therefore, these transactions qualify as exempt party-in-interest transactions. As of December 31, 2024 and 2023, Plan investments also include the State Street Short Term Investment Fund. These investments represented approximately 2% of net assets at December 31, 2024 and December 31, 2023. The Plan incurred administrative expenses totaling \$2,165,157 to internal and external entities that provided professional services to the Plan during the year ended December 31, 2024, which also qualify as party-in-interest transactions.

**(8) Accumulated Plan Benefits**

The Plan's accumulated plan benefits as of December 31 are summarized as follows:

	<b>2024</b>	<b>2023</b>
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 1,918,564,000	\$ 2,024,116,000
Other participants	593,821,000	589,488,000

## Schedule SB, Part V Statement of Actuarial Assumptions/Methods

### Economic Assumptions

#### Interest rate basis

- Applicable month August 2023 segment rates published in September 2023

Interest rates	Reflecting Stabilization	Not Reflecting Stabilization
• First segment rate	4.75%	3.62%
• Second segment rate	4.87%	4.46%
• Third segment rate	5.59%	4.52%
• Effective interest rate	5.06%	4.41%

As permitted by law, rates reflecting stabilization are used to determine the funding target, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates and may be inconsistent with other economic assumptions used in the valuation.

### Demographic Assumptions

**Inclusion date** The valuation date coincident with or next following the date on which the employee becomes a participant.

**New or rehired employees** It was assumed there will be no new or rehired employees.

#### Mortality

- Healthy Separate rates for non-annuitants and annuitants based on Pri-2012 “Employees” and “Healthy Annuitants” (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).

## Termination

Rates are constant by age.

### Representative Termination Rates

#### Sample rate (per 1,000 participants)

<u>Attained Age</u>	<u>Rate</u>
All ages	5.0

## Disability

None.

## Retirement

Rates varying by age, average age 63. Terminated vested participants are assumed to retire at age 60 with unreduced benefits, if completed at least 10 years of retirement eligibility service, or at age 65 otherwise.

For purposes of determining the Funding Target (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

#### Percentage retiring during the year

<u>Age</u>	<u>Rate</u>
55	7.5%
56-59	6.0%
60-61	7.0%
62-64	10.0%
65-69	20.0%
70+	100.0%

### Benefit commencement date:

- Preretirement death benefit      The later of (i) the death of the participant or (ii) the earlier of date the participant would have attained age 55 with 15 years of retirement eligibility service, age 60 with 10 years of retirement eligibility service or age 65. Participants reported as deferred beneficiaries are assumed to commence at the participant's normal retirement age.
- Deferred vested benefit      The later of (i) termination of employment or (ii) the earlier of age 60 with 10 years of retirement eligibility service or age 65.
- Retirement benefit      Upon termination of employment

<b>Form of payment</b>	Of retirements, 15% are assumed to elect a joint and 50% survivor annuity, and 10% are assumed to elect a joint and 100% survivor annuity, and 75% are assumed to elect a life annuity.
<b>Percent married</b>	70% of males; 70% of females. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.
<b>Spouse age</b>	Wife two years younger than husband.
<b>Plan-related expenses</b>	Current year plan-related expenses are assumed to be equal to last year's actual (adjusted for PBGC premiums and expected differences in benefit administration expenses). The expected plan-related expenses for 2024 are \$25,802,928.
<b>Timing of benefit payments</b>	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

## Methods

<b>Valuation date</b>	First day of plan year
<b>Funding target</b>	Present value of accrued benefits as required by regulations under IRC §430.
<b>Target normal cost</b>	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
<b>Decrement timing</b>	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

**Actuarial value of assets [for determining minimum required contributions]**

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 5.74% for 2023 (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

**Benefits not valued**

All benefits described in Appendix B of this report were valued. WTW has reviewed the plan provisions with the plan sponsor, and based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits (with a present value up to \$5,000 in a single lump sum payment). Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.

## Sources of Data and Other Information

The plan sponsor, through its third-party administrator/payroll administrator, furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. In consultation with American Airlines, Inc., the following assumptions were made for missing or apparently inconsistent data elements:

- Joint pensioners who were missing dates of birth were assumed to be two years younger if the participant was male, otherwise two years older than the participant.
- Participants receiving benefits who were missing dates of birth were assumed to have a July 1, 1953 date of birth.
- Deferred participants past the required minimum distribution benefit commencement date receive actuarial increases to age at April 1 following the year they turned 70.5. Back payments with an actuarial equivalence interest rate of 5% from that date to the valuation date were added to the liability.
- The benefit amount payable to unverified beneficiaries of deceased non-annuitant participants is assumed to be 45% of the participant's accrued benefit, which is based on an assumed 90% conversion to the QPSA amount.
- The annual benefit amount payable to records with missing benefits is \$5,000, which is based on the average annual benefit of other records with similar status codes as the missing benefits.
- Missing survivor amounts payable to the joint pensioner upon the death of the participant are assumed to be \$11,000.
- Missing inactive benefit record's gender assumed to be female if original participant, and male if alternate payee or beneficiary.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

## Assumptions Rationale - Significant Economic Assumptions

### Interest rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

### Plan-related expenses

As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

## Assumed return for asset smoothing

The assumed return of 5.74% for 2023 used for asset smoothing is the third segment rate. Although we have not explicitly determined an expected return on assets, based on an analysis of the plan sponsor's investment policy we believe the rate to be above the third segment rate.

## Assumptions Rationale - Significant Demographic Assumptions

### Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

### Termination

Termination rates were based on an experience study conducted in 2024 for the 2019, 2022, and 2023 plan years, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

### Retirement

Retirement rates were based on an experience study conducted in 2024 for the 2019, 2022, and 2023 plan years, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

### Benefit commencement date for deferred benefits:

- Deferred vested benefit

Deferred vested participants' assumed commencement age 60, unless the plan benefit would be reduced. If the plan benefit would be reduced at age 60, the assumed commencement age is age 65.

## Prescribed Methods

### Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

## Schedule SB, Part V Summary of Plan Provisions

### Plan Provisions

The plan was amended and restated as of January 1, 2014, and was further amended as of January 1, 2014, April 29, 2014, September 1, 2015, November 10, 2015, August 1, 2017, November 15, 2017, and April 1, 2018.

#### Covered Employees

Any employee on the U.S. payroll of American Airlines, Inc. or a related employer who is classified as officer, management, specialist, agent, support staff or non-management salaried employee at a location for which coverage has been made available.

#### Participation Date

Completion of one year of service with a minimum of 1,000 hours worked in a year. The Plan was closed to new participants first hired on or after January 1, 2002.

### Definitions

#### Vesting service

One year for each 1,000-hour calendar year of employment by American Airlines, Inc. or a related employer after the initial date of hire.

#### Credited service

Years of service as a member of the plan based on hours worked; excluding some furlough and approved unpaid leaves of absence. Participants who elected to participate in the Super Saver Plus plan have their credited service frozen on the date of Super Saver Plus participation. For all other participants, credited service was frozen effective October 31, 2012.

#### Retirement eligibility service

A member's credited service plus service earned while a member of Super Saver Plus, retirement eligibility service earned under a related defined benefit plan, and for periods subsequent to October 31, 2012, service that would have been treated as credited service had the plan not been frozen.

#### Pensionable pay

A member's regular pay including commissions and 401(k) salary reduction amounts but excluding overtime, shift differentials, bonuses, and expenses.

**Qualified monthly preretirement spouse benefit** 50% joint and survivor form of the monthly pension benefit payable as if the member had terminated on the date of death. Participants can elect an actuarially reduced 66<sup>2</sup>/<sub>3</sub>%, 75% or 100% joint and survivor form prior to their death.

**Earliest retirement date** Earliest date on which participant could elect to commence benefits based upon service as of date of termination or death.

**Charge for qualified preretirement survivor annuity** Unless a participant waives coverage under the qualified preretirement survivor annuity, the monthly pension benefit shall be permanently and cumulatively reduced to recognize the years of such coverage based upon the following chart.

Benefits will not be reduced to reflect charges for the qualified pre-retirement survivor annuity (QPSA) coverage for periods when a QPSA waiver was not provided to participants.

<u>Age During Years of Coverage</u>	<u>Annual Reduction</u>
Under 45	0.02%
45 - 49	0.05%
50 - 54	0.15%
55 - 59*	0.40%
60 - 64*	0.60%
65*	no charge

\*Charge ceases upon eligibility for early retirement.

**Actuarial equivalence** Form of payment conversions: 5% discount rate, UP84 mortality weighted 88% male and 12% female for the participant (12% male and 88% female for the joint annuitant).

## Eligibility for Benefits

**Normal retirement** Retirement on NRD.

**Early retirement** Retirement before NRD and on or after attaining the earlier of (a) age 55 and completing 15 years of retirement eligibility service, or (b) age 60 and completing 10 years of retirement eligibility service.

**Late retirement** Retirement after NRD.

**Deferred vested termination** Termination for reasons other than death or retirement after completing five years of vesting service.

**Preretirement death benefit** Death of a participant who has elected coverage under the qualified preretirement survivor annuity while eligible for normal, early, late or deferred vested retirement benefits, with a surviving spouse who has been married to the participant for at least one year at date of death.

## Monthly Benefits Paid Upon the Following Events

**Normal retirement** Monthly pension benefit determined as of NRD.

**Early retirement** Monthly pension benefit determined as of early retirement date. Participants with 15 years of retirement eligibility service have their benefits reduced 3.0% for each year payment precedes age 60. Participants with at least 10, but less than 15, years of retirement eligibility service have their benefits reduced 3.0% for each year payment precedes age 65, unless they terminate after age 60 in which case benefits are unreduced.

**Late retirement** Monthly pension benefit determined as of actual retirement date.

**Deferred vested termination** Monthly pension benefit determined as of termination date, payable at normal retirement date. Participants with at least 10 years of retirement eligibility service can elect to commence benefit on their earliest retirement date with the benefit reduced in the same manner as for early retirement.

**Death with preretirement spouse benefit** Qualified monthly preretirement spouse benefit is payable to eligible spouse for life starting at the earliest retirement date.

## Other Plan Provisions

<b>Qualified joint and survivor option</b>	If a married participant retires under normal, early or deferred vested retirement provisions and does not elect to the contrary in writing, the benefit will be paid under the terms of the qualified joint and survivor option. Under this option, the participant will receive an actuarially equivalent reduced pension payable for life with payments in the amount of 50% of such reduced pension to be continued after participant's death to the spouse for the spouse's lifetime.
<b>Forms of payment</b>	Preretirement spouse benefits are payable as described above. Monthly pension benefits are paid for life, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of the 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan.
<b>Optional forms of payment</b>	Optional forms of payment include life annuity; 50%, 66-2/3%, 75% or 100% joint and survivor annuity; guaranteed period annuity; level income annuity; installment option; and qualified optional survivor annuity.
<b>Pension increases</b>	None.
<b>Participant contributions</b>	None.
<b>Limits on benefits and pay</b>	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.
<b>Transfers among American Airlines, Inc. Retirement Benefit Plans</b>	As a participant transfers from one American Airlines Retirement Benefit Plan to another, service for plan eligibility, benefit eligibility, and vesting are retained and applied to all the plans under which the participant accrued a benefit. Credited service remains the responsibility of the Retirement Benefit Plan in which it was earned.
