INDEPENDENT AUDITORS' REPORT

To the Participants and Retirement Benefit Plan Management Committee of
Dillon Companies, LLC Employees' Profit Sharing Plan:

Opinion

We have audited the financial statements of the Dillon Companies, LLC Employees' Profit Sharing Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Dillon Companies, LLC Employees' Profit Sharing Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

(All dollar amounts are in thousands)

1. Description of Plan:

The following description of the Dillon Companies, LLC Employees' Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of Plan provisions.

General

The Plan is sponsored by Dillon Companies, LLC and certain subsidiaries (collectively the Company). The Kroger Co. (Kroger) is the sole member of Dillon Companies, LLC. Effective January 1, 2001, only certain employees whose terms and conditions of employment were governed by a collective bargaining agreement for which coverage in the Plan was subject to such collective bargaining agreement were eligible to participate in the Plan. Effective as of January 1, 2024, no new employees are currently eligible to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

The Company did not make a discretionary contribution to the Plan for the 2024 Plan year. Effective January 1, 2020, discretionary contributions were allocated only to participants covered by a collective bargaining agreement for which such agreement provided for discretionary contributions after December 31, 2019. Effective as of January 1, 2024, no collective bargaining agreement currently provides for discretionary contributions to be made to the Plan. Prior to January 1, 2024, discretionary contributions, if any, were made as of the last day of the Plan year and were based upon Plan compensation provided such participant was employed on the last day of the Plan year. In no event shall the aggregate contribution for any year exceed the maximum allowed deductible during such year from the Company's income for purposes of Federal income taxation, as provided under Section 404 of the Internal Revenue Code. Effective July 1, 2000, the Plan no longer permitted voluntary employee contributions. Effective August 26, 2024, the Plan no longer accepts rollover contributions.

Participant Accounts

Each participant account is credited with discretionary Company contributions, prior voluntary employee contributions and participant forfeitures (if allocated to the participant at the discretion of the Company). Allocations of earnings or losses are based upon the performance of the investment funds chosen by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in any prior voluntary employee contributions and rollover contributions plus actual earnings thereon. Vesting in employer discretionary contributions is based on years of service. Participants are 20% vested in employer amounts after two years of service, and vest an additional 20% per year through the sixth year of service. Employer contributions are also fully vested upon disability, age 60, or death.

Benefits

Payment of benefits can be made under various methods, depending upon the reason for the distribution, such as termination of service, death, disability, or retirement, as well as other factors. At termination, those participants with a balance of less than or equal to one thousand dollars will receive a single lump sum distribution. Absent specific elections by the participant, those with balances greater than one thousand dollars and less than or equal to seven thousand dollars shall be distributed, in the form of a direct rollover, to an individual retirement account designated by the Plan Administrator. Those with balances greater than seven thousand dollars may elect to leave their funds in the Plan or choose other options. Participants are entitled to benefits beginning at normal retirement age (generally age 65). Benefits are recorded when paid.

Plan Transfers

A grandfathered participant (as defined in the Plan) may direct the trustee to distribute all (but not less than all) of the value of the grandfathered participant's vested account attributable to employer contributions to the Kroger Consolidated Retirement Benefit Spin Off Plan (Spin Off Plan). Such transfer shall be distributed to the grandfathered participant pursuant to the terms of the Spin Off Plan. If a grandfathered participant directs such a transfer, the grandfathered participant will no longer receive a benefit under the Plan unless the grandfathered participant has prior employee voluntary contributions in the Plan.

Forfeitures

Forfeitures shall be applied to reduce administrative expenses of the Plan, to reduce Company contributions, or to be reallocated to the participants at the end of the Plan Year. The balance of forfeitures was \$283 and \$4 at December 31, 2024 and 2023, respectively. During 2024 and 2023, forfeitures of \$3 and \$3, respectively, were used to reduce administrative expenses of the Plan.

2. Summary of Significant Accounting Policies:

Basis of accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Master Trust

The investments of the Plan, along with investments of other plans of The Kroger Co. and its subsidiaries, are pooled for investment purposes in a master trust pursuant to an agreement dated October 15, 2008, between The Northern Trust Company, the trustee, and the Company – The Kroger Defined Contribution Plan Master Trust (the Master Trust).

Effective August 26, 2024, the Master Trust agreement was amended to terminate the Company Stock Investment Fund. As a result, no assets of the Master Trust Fund are invested in the Company Stock Investment Fund (Kroger common stock) on or after August 26, 2024.

Investment valuation and income recognition

The Plan's investments within the Master Trust are stated at fair value, except for fully benefit-responsive investment contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Benefit Plan Management Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Gains or losses on sales of securities are based on average cost. Dividends are recorded on the ex-dividend date. Income from other investments is recorded as earned. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate a permitted transaction under the terms of the Plan. The Plan invests in investment contracts through the Master Trust.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Administrative expenses

The Plan will pay the administrative costs and expenses of the Plan, including the custodian and management fees. Any expenses that are unable to be allocated to participants are paid by the Company and are excluded from these financial statements. Fees related to

distributions to participants are charged directly to the participant's account and are included in administrative expenses.

Subsequent events

The Company evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through July 14, 2025, the date on which the financial statements were available to be issued.

3. Investment Contracts:

The Master Trust holds several synthetic investment contracts which are managed by investment fund managers. The key difference between a synthetic investment contract and a traditional investment contract is that the Master Trust holds the underlying assets in a synthetic investment contract. The Master Trust also purchases wrapper contracts from financial institutions which provide assurance that crediting rates will never be less than zero. All plans have an undivided interest in each investment contract. The investment contracts are fully benefit-responsive and are therefore reported at contract value. A fully benefit-responsive investment provides a liquidity guarantee by a financially responsible third party of principal and previously accrued interest for liquidations, transfers, loans, or withdrawals initiated by Plan participants under the terms of the ongoing Plan. Certain employer-initiated events (i.e. layoffs, mergers, bankruptcy, Plan termination) are not eligible for the liquidity guarantee.

In general, issuers may terminate the investment contracts and settle at other than contract value if the qualification status of the employer or Plan changes, if there is a breach of material obligations under the contract and misrepresentation by the contract holder, or failure of the underlying portfolio to conform to the pre-established investment guidelines.

The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

4. Master Trust:

At December 31, 2024 and 2023, the Plan's ownership interest in the Master Trust was 1.34% and 2.20%, respectively. The following is financial information with respect to the Master Trust:

5. Fair Value Measurements:

For financial statement elements currently required to be measured at fair value, Financial Accounting Standards Board (FASB) defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The standards define fair value as the price that would be received to sell an asset or paid to transfer a liability (exit price) regardless of whether an observable liquid market price exists.

FASB establishes a fair value hierarchy that categorizes the inputs to valuation techniques that are used to measure fair value into three levels:

- Level 1 includes observable inputs which reflect quoted prices for identical assets or liabilities in active markets at the measurement date.
- Level 2 includes observable inputs for assets or liabilities other than quoted prices included in Level 1 and it includes valuation techniques which use prices for similar assets and liabilities.
- Level 3 includes unobservable inputs which reflect the reporting entity's estimates of the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Participants may direct their investments into Kroger common stock, retirement date funds, or separately managed accounts. The underlying investments in the retirement date funds and separately managed accounts include cash and cash equivalents, corporate bonds, collective trusts/comingled funds, and guaranteed investment contracts as described herein.

The following are descriptions of the valuation methods used for assets measured at fair value. There has been no change in the methodologies used at December 31, 2024 and 2023.

- Cash and Cash Equivalents: The carrying value approximates fair value.
- Corporate Stocks: The fair values of these securities are based on observable market quotations for identical assets and are valued at the closing price reported on the active market on which the individual securities are traded.
- Corporate Bonds: The fair values of these securities are primarily based on observable market quotations for identical or similar bonds, valued at the closing price reported on the active market on which the individual securities are traded. When such quoted prices are not available, the bonds are valued using a discounted cash flows approach using current yields on similar instruments of issuers with similar credit ratings, including adjustments for certain risks that may not be observable, such as credit and liquidity risks.

- Collective Trusts/Comingled Funds: The collective trust/comingled funds are public investment vehicles valued using a NAV as a practical expedient provided by the manager of each fund. The NAV is based on the underlying net assets owned by the fund, divided by the number of shares outstanding. The NAV's unit price is quoted on a private market that is not active. However, the NAV is based on the fair value of the underlying securities within the fund, which are traded on an active market, and valued at the closing price reported on the active market on which those individual securities are traded. The significant investment strategies of the funds are as described in the financial statements provided by each fund. There are no restrictions on redemptions from these funds.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

While all the investments, except Kroger common stock which is held outside of the Master Trust, are deemed part of the Master Trust, each participating defined contribution plan maintains a separate accounting of its share of the investments in the Master Trust.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets and the Plan's assets held outside of the Master Trust at fair value as of December 31, 2024 and 2023:

Collective trusts/ Comingled funds	\$7,029,981	n/a	Daily - Weekly	2 to 5 days

6. Income Tax Status:

The Plan obtained its latest determination letter on November 20, 2017, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, complied with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan at any time subject to the provisions of ERISA. In the event of any total or partial termination or discontinuance, the accounts of all affected participants shall become fully vested and non-forfeitable.

9. Related-party and Party-in-interest Transactions:

The Plan's portion of its interest in the Master Trust included \$0 and \$86,935 of The Kroger Co. common shares at December 31, 2024 and 2023, respectively, at fair value. The Plan has \$98,564 of the Kroger Co. common shares held outside of the Master Trust at December 31, 2024.

The Plan purchased 42,688 and 52,419 common shares of The Kroger Co. at a cost of \$2,304 and \$2,345 in 2024 and 2023, respectively through its interest in the Master Trust and during the time it was held outside the Master Trust.

The Plan sold 246,871 and 167,010 common shares of The Kroger Co. for \$13,446 and \$7,743 with a realized gain of \$8,336 and \$5,386 in 2024 and 2023, respectively through its interest in the Master Trust and during the time it was held outside the Master Trust.

Fidelity Workplace Services, LLC and Bank of America, N.A. and Merrill Lynch provide recordkeeping and investment management services to the Plan. Therefore, transactions with Fidelity Workplace Services, LLC and Bank of America, N.A. and Merrill Lynch qualify as party-in-interest transactions.

Fidelity Management Trust Company is the trustee for the Company Stock Investment Fund (Kroger common stock) taking possession of the assets effective August 26, 2024.

10. Plan Amendments

Effective January 1, 2024, absent specific elections by the participant, those terminated participants with balances greater than one thousand dollars and less than seven thousand dollars shall be distributed, in the form of a direct rollover, to an individual retirement account designated by the Plan Administrator.

Effective August 26, 2024, the Plan was amended to make changes to the payment of installment payments. After installment payments commence, participants have the right at any time to convert the remaining vested portion of the account to a lump sum payment, change the installment period or discontinue installment payments. The Plan was also amended, effective August 26, 2024, to discontinue direct transfers or rollovers from a qualified plan or individual retirement account to the Plan.
