Johnson Controls, Inc. Non-Union Retiree Welfare Plan

Financial Statements and Supplemental Schedules

Year Ended December 31, 2024

WIPFLI

Independent Auditor's Report

To the Participants and Plan Administrator
Johnson Controls, Inc. Non-Union Retiree Welfare Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Johnson Controls, Inc. Non-Union Retiree Welfare Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, the statements of plan benefit obligations as of December 31, 2024 and 2023, and the related statement of changes in plan benefit obligations for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Johnson Controls, Inc. Non-Union Retiree Welfare Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Johnson Controls, Inc. Non-Union Retiree Welfare Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3) audit opinion.

"Wipfli" is the brand name under which Wipfli LLP and Wipfli Advisory LLC and its respective subsidiary entities provide professional services. Wipfli LLP and Wipfli Advisory LLC (and its respective subsidiary entities) practice in an alternative practice structure in accordance with the AICPA Code of Professional Conduct and applicable law, regulations, and professional standards. Wipfli LLP is a licensed independent CPA firm that provides attest services to its clients, and Wipfli Advisory LLC provides tax and business consulting services to its clients. Wipfli Advisory LLC and its subsidiary entities are not licensed CPA firms.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Johnson Controls, Inc. Non-Union Retiree Welfare Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Johnson Controls, Inc. Non-Union Retiree Welfare Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Johnson Controls, Inc. Non-Union Retiree Welfare Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

"Wipfli" is the brand name under which Wipfli LLP and Wipfli Advisory LLC and its respective subsidiary entities provide professional services. Wipfli LLP and Wipfli Advisory LLC (and its respective subsidiary entities) practice in an alternative practice structure in accordance with the AICPA Code of Professional Conduct and applicable law, regulations, and professional standards. Wipfli LLP is a licensed independent CPA firm that provides attest services to its clients, and Wipfli Advisory LLC provides tax and business consulting services to its clients. Wipfli Advisory LLC and its subsidiary entities are not licensed CPA firms.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024, and Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Johnson Controls, Inc. Non-Union Retiree Welfare Plan

Notes to the Financial Statements

Note 1: Description of Plan

The following description of the Johnson Controls, Inc. Non-Union Retiree Welfare Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description, provided to all participants, for a more complete description of the Plan's provisions.

General

The Plan is a welfare benefit plan providing health and life insurance benefits under designated benefits programs to eligible non-union retirees (Employee or Participant) of Johnson Controls, Inc. and certain affiliated companies (the Company). Johnson Controls, Inc. is the Plan sponsor. The Company has hired Alight Solutions to administer eligibility and enrollment.

The Employee Benefits Policy Committee, appointed by the Company, is the Plan Administrator. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Johnson Controls, Inc. Retiree Welfare Trust, a Voluntary Employees' Beneficiary Association (VEBA), was established for the purpose of funding benefit and premium payments for eligible retirees and beneficiaries. The trust has the following subaccounts for the Plan:

1. Johnson Controls, Inc. Non-Union Retiree Medical
2. Johnson Controls, Inc. Non-Union Retiree Life Insurance

The Company has appointed U.S. Bank National Association as the Trustee for the VEBA.

Contributions

Participant, dependent and Company contributions to the Plan are based on the provisions of various benefit programs provided under the Plan.

Benefit Payments

Blue Cross Blue Shield, Reliastar, Mercer, and Evernorth Health, formerly known as Express Scripts, hired by the Company as third party claims administrators, may elect to pay benefits directly to a health care provider. Where the health care provider rendering services does not have an agreement with the Plan to the contrary, the claims administrator may, at its election, pay benefits directly to the participant or other covered individual. These benefits are insured and self-insured.

Note 2: Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Johnson Controls, Inc. Non-Union Retiree Welfare Plan

Notes to the Financial Statements

Note 2: Summary of Significant Accounting Policies (Continued)

Payment of Benefits

Premiums paid are recorded as premium payments in the accompanying statement of changes in net assets available for benefits.

Claim payments are recorded when paid by the third-party claims processor. Amounts due to claims processors that have yet to be reimbursed by the Plan are recorded as accrued benefit payments in the accompanying statements of net assets available for benefits.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

Administrative expenses are paid by the Plan, as allowed by Plan provisions, with all remaining expenses paid by the Company.

Benefit Obligations

The Plan's liabilities for estimated health claims incurred but not reported as of December 31, 2024 and 2023 of \$784,000 and \$946,000, respectively, represent amounts estimated by the Company for self-insured claims that were incurred prior to December 31, 2024 and 2023, respectively, but not reported to the Plan's claim administrator.

Subsequent Events

Management has evaluated subsequent events through October 9, 2025, the date which the financial statements were available to be issued.

Note 3: Postretirement Benefits

The postretirement benefit obligation represents the actuarial present value of those estimated future benefits that are attributed to employee services previously rendered. Postretirement benefits include future benefits expected to be paid to or for currently retired or terminated employees and their beneficiaries and dependents after retirement from service. Prior to an active employee's full eligibility date, the postretirement benefit obligation is the portion of the expected postretirement benefit obligation that is attributed to that employee's services rendered to the valuation date.

Johnson Controls, Inc. Non-Union Retiree Welfare Plan

Notes to the Financial Statements

Note 3: Postretirement Benefits (Continued)

The actuarial present value of the expected postretirement benefit obligation is determined by Aon Hewitt and is the amount that results from applying the actuarial assumptions to historical claim-cost data for estimated future annual incurred claims cost per participant, and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The costs of the postretirement benefits are shared by the Company and the retirees. Required participant contributions vary by group and age category, both pre-65 and post-65, and are determined annually.

The assumptions used in determining the accumulated postretirement benefit obligation at December 31, 2024 and 2023 are as follows:

	2024	2023
Health Cost Trend Rate:		
Pre-65-medical	8.50 %	7.70 %
Post-65-medical	10.00 %	8.70 %
Discount rate	4.27 %	5.28 %
Mortality assumptions	98.4% of the amounts-weighted aggregate rates from the Pri-2012 mortality study with white collar adjustment and 104.6% of the amounts-weighted aggregate rates from the Pri-2012 mortality study with blue collar adjustment. White collar and blue collar adjustments are based on participant exempt status. Mortality rates are projected generationally from 2012 to 2016 using Scale MP-2018 and from 2016 forward using the January 2024 COVID 19 Endemic-Adjusted Scale MP-2021.	98.4% of the amounts-weighted aggregate rates from the Pri-2012 mortality study with white collar adjustment and 104.6% of the amounts-weighted aggregate rates from the Pri-2012 mortality study with blue collar adjustment. White collar and blue collar adjustments are based on participant exempt status. Mortality rates are projected generationally from 2012 to 2016 using Scale MP-2018 and from 2016 forward using Aon Proxy Scale MP-2021 with adjustments for the near-term and long-term impact of COVID-19.

The healthcare cost trend rate for medical benefits is assumed to decrease to 4.50% by 2034 for pre-65 and post-65 medical, at a gradual rate.

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligation. The health care cost trend rate assumption would not have a material effect on the amounts reported in the accompanying financial statements. To illustrate, a one-percentage point increase in the assumed health care cost trend rate would not have a material impact on the obligation at December 31, 2024 and 2023.

The Company is not able to determine whether the benefits provided by its Plan are actuarially equivalent to Medicare Part D.1.

Johnson Controls, Inc. Non-Union Retiree Welfare Plan

Notes to the Financial Statements

Note 4: Fair Value Measurements

GAAP specifies a three-tier fair value hierarchy, which prioritizes the inputs used in estimating fair value. These tiers include Level 1, defined as observable inputs such as quoted market prices in active markets; Level 2, defined as inputs other than quoted market prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore, requiring an entity to develop its own assumptions.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used in 2024 and 2023. Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: The fair value for mutual funds is determined by direct quoted market prices. Mutual funds are open-ended investment companies that obtained proper registration from the Securities and Exchange Commission. The funds publish daily their Net Asset Value (NAV) after the close of trading on regulated financial exchanges. The NAV represents the current market value of the fund's holdings after deducting the fund's liabilities. Certain assets are held within commingled funds which are valued at the unitized NAV or percentage of the net asset value as determined by the manager of the fund. These values are based on the fair value of the underlying net assets owned by the fund.

Partnership fund: Valued at the estimated fair value, as determined by and subject to the judgment of the respective fund manager, based on the NAV of the investment units held at year end. The investment can be purchased and sold daily and does not require a notice of redemption. The Plan has no obligation to buy additional units.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level the Plan's investment assets at fair value as of:

December 31, 2024	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 893,595	\$ 18,845,687	\$ -	\$ 19,739,282
Investment assets measured at NAV*				5,121,389
Total investment assets at fair value				\$ 24,860,671

Johnson Controls, Inc. Non-Union Retiree Welfare Plan

Notes to the Financial Statements

Note 4: Fair Value Measurements (Continued)

December 31, 2023	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 969,911	\$ 18,397,718	\$ -	\$ 19,367,629
Investment assets measured at NAV				5,430,237
Total investment assets at fair value				\$ 24,797,866

* Certain investments that were measured at net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 5: Information Prepared and Certified by Trustee

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2024 and 2023, and investment income for the year ended December 31, 2024, that are disclosed in the accompanying financial statements and supplemental schedules, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by U.S. Bank National Association, Trustee of the Plan.

Note 6: Tax Status

The Company established the Johnson Controls, Inc. Retiree Welfare Trust (the Trust) for the purpose of accumulating and distributing contributions made in accordance with the Plan. The Trust is qualified pursuant to Section 501(C)(9) of the Internal Revenue Code; therefore, the Trust's net investment income, to the extent the Trust is deficient in net assets compared to the Plan's benefit obligations, are treated as exempt from income taxes.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or Department of Labor. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Johnson Controls, Inc. Non-Union Retiree Welfare Plan

Notes to the Financial Statements

Note 7: Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to modify the benefits provided to, and contributions required of, participants to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, remaining assets will be applied in a uniform and nondiscriminatory manner toward the provision of benefits for or on account of the participants. No assets of the Plan may revert to the Company or be used for purposes other than for the exclusive benefit of the Plan's participants.

Note 8: Party-In-Interest Transactions

Transactions involving funds administered by the Trustee, and administrative expenses charged to the Plan, are considered party-in-interest transactions. These transactions are not, however, considered prohibited transactions under 29 CFR 408(b) of the ERISA.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates, health care inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.
