INDEPENDENT AUDITOR'S REPORT

To the Plan Trustees
Gardeners' Guild Employee Stock Ownership Plan
Richmond, CA

Opinion

We have audited the financial statements of Gardeners' Guild Employee Stock Ownership Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of change in net assets available for benefits for the years ended December 31, 2024 and 2023, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024, and 2023, and the changes in net assets available for benefits for the years ended December 31, 2024, and 2023, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter – Company Stock Valuation

As explained in Note 2, the Plan invests in common stock of Gardeners' Guild, Inc. (the "Plan Sponsor"), valued at \$937,843 and \$970,407 as of December 31, 2024, and 2023, respectively. The fair value of the Plan Sponsor common stock is determined by the Plan Trustees based on an annual valuation of the common stock prepared by an independent appraiser. However, because of the inherent uncertainty of the valuation, fair values used in these financial statements may differ significantly from the values that would have been used had a ready market for the investments existed, and the differences could be material.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Responsibilities of Management for the Financial Statements (Continued)

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore there is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held at end of year as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Other Matter—Supplemental Schedule Required by ERISA (Continued)

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1: **DESCRIPTION OF PLAN**

The following description of Gardeners' Guild Employee Stock Ownership Plan (the "Plan") provides only summarized general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 1997, for eligible employees of Gardeners' Guild, Inc. (the "Company" and the "Plan Sponsor"). Eligible participants include employees who are at least 18 years old and have completed at least one year of service which is defined as a twelve consecutive month period in which an employee completes 1,000 hours of service. The Plan is administered by Plan Trustees comprised of individuals appointed by the Company's Board of Directors.

Plan Year

The Plan year begins January 1st and ends December 31st.

Contributions

Employer contributions are discretionary as determined by the Company's Board of Directors. Employees are not permitted to contribute to the Plan. An employee must be credited with 1,000 hours of service during the Plan year and be employed by the Company on the last day of the Plan year to be eligible to receive a contribution allocation. The Company made cash contributions of \$35,000 and \$71,000 for the years ended December 31, 2024, and 2023, respectively.

Participant Accounts and Allocations

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of Plan Sponsor contributions, forfeitures of terminated participants' non-vested accounts and Plan earnings. Plan Sponsor contributions and forfeitures are allocated to participant accounts based on the ratio of a participant's compensation to total participants' compensation, subject to IRS limitations. The Plan's earnings and losses are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

At December 31, 2024, and 2023, 130,256 shares of the Plan Sponsor common stock were allocated to participant accounts, and no shares were unallocated.

Retirement

Normal retirement under the Plan is age 59 1/2.

Administrative Expenses

Substantially all plan administrative expenses are paid by the Plan Sponsor.

NOTE 1: DESCRIPTION OF PLAN (Continued)

Vesting

Participants become vested in their accounts in accordance with the following schedule:

<u>Years of Service</u>	<u>Nonforfeitable Vested Interest</u>
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Participants' interest in their respective accounts become 100% vested upon (a) reaching normal retirement age, (b) death while employed, or (c) disability while employed.

Forfeitures

Any portion of the final balance in a participant's account which is not vested will become forfeited when the participant incurs a five-year break in service or, if earlier, when the participant's account has been fully distributed. All forfeitures are reallocated pro rata based upon current Plan year compensation to the accounts of remaining participants as of the allocation date of the Plan year in which the forfeiture occurs. A total of 486 and 262 shares were forfeited and allocated to active participants for the years ended December 31, 2024, and 2023, respectively.

Payment of Benefits

No distributions from the Plan will be made until a participant retires, becomes disabled, dies (in which case, payment shall be made to his or her beneficiary or, secondarily to his or her legal representative(s)), or otherwise terminates employment with the Company. Distributions to participants who have retired, died, or become disabled will commence no later than December 31st of the year subsequent to the year of the termination. Distributions to participants terminating service with the Company for any other reason will commence no later than the sixth plan year following the plan year of terminated service. The Trustees may choose to make distributions in lump sum, in substantially equal annual installments over a period generally not exceeding five years, or any combination of these options.

Upon termination, participants are notified of their eligibility to receive a distribution. If a notified participant elects not to take a distribution, and the participants vested account balance is \$5,000 or less, the Plan Trustees will make a distribution on the participant's behalf. These distributions, made on behalf of the participant, are directly rolled into an individual retirement account in the participant's name.

Distributions are made generally in the form of cash. The Company common stock held in a participant's account is generally sold to the Plan at the share price calculated from the Company's most recent stock valuation prior to its distribution. Any distributions in the form of Company stock would have to be immediately sold back to the Company or Plan due to an ownership restriction in the Company's Articles of Incorporation. Participants receive distributions of their vested capital account balances only.

Vested unpaid benefits in the accounts of participants terminating employment with the Company on or prior to December 31, 2024, amounted to \$236,866 at December 31, 2024. Vested unpaid benefits in the accounts of participants terminating employment with the Company on or prior to December 31, 2023, amounted to \$182,580 at December 31, 2023.

NOTE 1: DESCRIPTION OF PLAN (Continued)

Diversification Rights

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in the Company common stock into other investments. Participants who are at least age 55, with at least 10 years of participation in the Plan, may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage increases to 50 percent. Participants who elect to diversify receive a cash distribution.

Voting Rights

The shares of the Company common stock are owned by the Plan Trust for all participants and not directly by the participants; therefore, participants do not have the right to vote shares directly. In some cases, participants are entitled to direct the Trustees on how to vote shares that are allocated to them. The situations are limited to major corporate events, such as a merger or other major financial restructuring. The Trustees are required to vote any uninstructed and unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Stock Purchase Requirement

Under federal income tax regulations, the Company common stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The purpose of the requirement is to ensure that the participant has the ability to ultimately obtain cash. Pursuant to the Code and to preserve the Company's S Corporation status, the Plan document provides that the Company repurchase any shares of its stock distributed to participants for cash. The purchase price is representative of the fair market value of the stock.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on an accrual basis in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Investment Valuation and Income Recognition

Investments are reported at fair value and are not participant directed. The fair value of the Company common stock is determined by the Plan Trustees based on an annual valuation of the common stock prepared by an independent appraiser. The appraised value per share was \$7.20 and \$7.45 for a total appraised value of \$937,843 and \$970,407, as of December 31, 2024, and 2023, respectively. Because of the inherent uncertainty of the valuation, estimated and appraised values of the investment in the Company common stock may differ significantly from values that would have been used had a ready market for such investments existed, and such differences may be material.

Net depreciation in fair value of investment in Company common stock in the accompanying Statements of Change in Net Assets Available for Benefits represents the change in value from one period to the next.

Income Taxes

The Plan administrator received a favorable determination letter from the Internal Revenue Service dated September 3, 2015. The plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code; therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes (Continued)

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Plan management has determined that as of December 31, 2024, there are no uncertain tax positions taken, or expected to be taken, that would require disclosure in the financial statements. The Plan is subject to routine audits by the taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Concentration of Credit Risk

The Plan maintains its cash in bank deposit accounts which may exceed federally insured limits during the year. The Plan has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash.

Benefits

Benefits are recorded when paid.

Estimates and Assumptions

The preparation of these financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 3: ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist principally of Company common stock, are held in trust by the Trustees of the Plan. Plan Sponsor contributions are held and managed by the Trustees, which invest cash received and make distributions to participants. Certain administrative functions are performed by officers or employees of the Company and a third-party administrator. No such officer or employee receives compensation from the Plan.

NOTE 4: FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) ASC 820 provides a framework for measuring fair value. That framework provides a three-tier hierarchy that prioritizes the inputs to valuation techniques used for measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are as follows:

Level 1 - Inputs are unadjusted quoted prices for identical assets or liabilities that the Plan has the ability to access.

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, model-based valuation techniques for which all significant assumptions are observable in the market, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs that are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 4: FAIR VALUE MEASUREMENTS (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024.

Investment in Company common stock: An annual valuation of Company common stock is prepared by an independent appraiser. The Trustees of the Plan approve the fair value based on the annual valuation. The valuation uses both the income and market approaches which contain significant unobservable inputs, including an EBITDA multiple, weighted average cost of capital, and public company comparables.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024, and 2023.

	Assets at Fair Value at December 31, 2024			
	Level 1	Level 2	Level 3	Total
Investment in				
Company common stock	\$ -	\$ -	\$ 937,843	\$ 937,843
Total assets at fair value	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 937,843</u>	<u>\$ 937,843</u>

	Assets at Fair Value at December 31, 2023			
	Level 1	Level 2	Level 3	Total
Investment in				
Company common stock	\$ -	\$ -	\$ 970,407	\$ 970,407
Total assets at fair value	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 970,407</u>	<u>\$ 970,407</u>

NOTE 5: RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in the common stock of the Plan Sponsor. This investment qualifies as a party-in-interest transaction which is exempt from the prohibited transaction rules of ERISA.

NOTE 6: RISKS AND UNCERTAINTIES

The Plan's investments consist primarily of Company common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

NOTE 7: **PLAN TERMINATION**

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 8: **SUBSEQUENT EVENTS**

Plan management evaluates events occurring, subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 10, 2025, the date the financial statements were available to be issued, and management has determined that no subsequent events have occurred that should be disclosed.
