## Independent Auditors' Report

To the Plan Participants and Plan Administrator  
Retirement Plan for Employees of Mutual of America Life Insurance Company:

### *Opinion*

We have audited the financial statements of the Retirement Plan for Employees of Mutual of America Life Insurance Company (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for plan benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for plan benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits and accumulated plan benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits and changes in its accumulated plan benefits for the year ended December 31, 2024, in accordance with U.S. generally accepted accounting principles.

### *Basis for Opinion*

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Responsibilities of Management for the Financial Statements*

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### *Auditors' Responsibilities for the Audit of the Financial Statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not

a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

#### *Supplemental Schedules Required by ERISA*

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Schedule H, line 4j - Schedule of Reportable Transactions for the year ended December 31, 2024, and Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

December 31, 2024 and 2023

**(1) Description of Plan**

The following brief description of the Retirement Plan for Employees of Mutual of America Life Insurance Company (the Plan) is provided for general information purposes only. Participants should refer to the Plan document agreement for more complete information.

**(a) General**

The Plan is a noncontributory defined benefit pension plan covering substantially all employees hired prior to January 1, 2023 of Mutual of America Life Insurance Company (the Company or the Plan Administrator). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan is funded with the Group Annuity Contract. There is no Plan Sponsor agreement for the defined benefit pension plan.

**(b) Eligibility of Participation**

Employees hired on or after January 1, 2017, will be subject to a five-year cliff vesting schedule. As such, these employees will be entitled to a vested benefit under the Plan at the earlier of (i) completing five years of service or (ii) attaining age 55. If an employee hired on or after January 1, 2017, terminates employment prior to completing five years of employment or attaining age 55, they will not be vested in the Retirement Plan and will not be eligible for a benefit payable under the Plan.

Employees hired on or before December 31, 2016, will not be affected by this amendment. These employees will be covered under the pre-existing Retirement Plan provisions of a one-year eligibility waiting period and full and immediate vesting.

Effective January 1, 2023, employees, with the exception of Grandfathered Employees (generally defined as a Participant in the plan who was hired before January 1, 2023 and is credited with at least 5 years of vesting service as of December 31, 2022 and meet a 45 point requirement), will no longer accumulate future Plan benefits but will keep the benefits earned up through December 31, 2022, the date the plan was frozen.

**(c) Pension Benefits**

Employees are entitled to annual pension benefits beginning at normal retirement age (65) equal to the sum of (1) and/or (2) below:

- (1) The Participant's Frozen Accrued Benefit. The Participant's Frozen Accrued Benefit shall be his/her accrued benefit as of December 31, 1996.
- (2) The sum of 1.50% of the Participant's Final Average Earnings multiplied by the number of years of Benefit Accrued Service completed after December 31, 1996, and 0.30% of the excess, if any, of the Participant's Final Average Earnings over the Social Security

**RETIREMENT PLAN FOR EMPLOYEES OF  
MUTUAL OF AMERICA LIFE INSURANCE COMPANY**

Notes to Financial Statements

Average Monthly Wage multiplied by the lesser of (i) the number of years of Benefit Accrual Service completed after December 31, 1996, or (ii) 35 reduced (but not below zero) by the sum of the years of Benefit Accrual Service counted in the computation of his/her Frozen Accrued Benefit.

For the purpose of calculating any pension benefit, Final Average Earnings, as defined in the Plan document, shall be based on the highest 36 consecutive months of employment with the Company within the last consecutive 120 months which end with the end of the month in which the Participant terminates employment with Mutual of America. Participant's benefits are provided either through the purchase of annuities from Mutual of America, the Plan Administrator, or receipt of a single lump sum in lieu of a monthly annuity. Purchased annuities are contracts under which Mutual of America is obligated to pay benefits to named employees or their beneficiaries.

**(d) *Death and Disability Benefits***

If a vested participant dies before retirement benefits have begun, a monthly annuity is payable to a spouse or (if there is no spouse and death occurs after age 55) a child under 19 in specified amounts as if the employee had retired on the date of death and elected a 66 2/3% joint and survivor annuity with ten years certain (in the case of a spouse) or a ten-year certain and continuous option (in the case of a child). Alternatively, the surviving spouse or beneficiary may elect to receive a lump sum pre-retirement benefit equal to the present value of the retirement benefit that would have been payable under the Plan if the participant had terminated employment with the Company on the day before death or if the participant had already terminated employment, on the actual date that employment terminated. Disability service credits are credited to the normal retirement age at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age with their annual compensation remaining the same as at the time they became disabled.

**(e) *Participant Loans***

Through December 31, 1997, participants were allowed to request loans based on the present value of their vested accrued benefit. Policy loans were issued directly by Mutual of America Life Insurance Company and interest and principal were re-paid by the participant directly to the Company. Policy loans are not considered assets of the Plan and, therefore, are not reported in the statements of net assets available for benefits. The amount of a participant's outstanding loan balance could not exceed the lesser of \$50,000 or the greater of one-half of the present value of the participant's vested accrued benefit or \$10,000. Loans were to be repaid by the participant over a period of six months to ten years by payroll deductions. Effective January 1, 1998, the Plan was amended, and new loans are no longer available to participants. Participants who had loans outstanding as of December 31, 1997 were able to borrow additional funds, up to the loan limits described above, under their pre-existing loan agreements through December 31, 1999 to be repaid over a period of six months to ten years. After December 31, 1999, no additional loans were available to participants. At December 31, 2024, all loans were paid off and closed.

**(2) Summary of Significant Accounting Policies**

The following are the significant accounting policies followed by the Plan.

**(a) Basis of Accounting**

The accompanying financial statements have been prepared on the accrual basis of accounting.

**(b) Use of Estimates**

The preparation of financial statements in conformity with United States Generally Accepted Accounting Principles (U.S. GAAP) requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

**(c) Benefits**

Benefits are recorded when paid.

**(d) Administrative Expenses**

Certain administrative expenses of the Plan are paid by the Company as provided in the Plan document. Pension Benefit Guaranty Corporation (PBGC) premiums for the year were approximately \$251K.

**(e) Investment Valuation and Income Recognition**

U.S. GAAP establishes a framework that provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Fair value is an estimate of the price the Separate Account would receive upon selling an investment in an orderly arms-length transaction. Investments are categorized based on a three-level valuation hierarchy for measurement and disclosure of fair value. The valuation hierarchy is based upon the transparency of inputs used to measure fair value. These inputs are summarized in the three broad levels listed below:

- Level 1 – Quoted market prices in active markets for identical investments.
- Level 2 – Other significant observable inputs (including yield, quality, coupon rate, maturity, issue type, quoted prices for similar securities, prepayment speeds, trading characteristics, etc.).
- Level 3 – Significant unobservable inputs (including the Plan's own assumptions in determining the fair value of investments).

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

As of December 31, 2024 and 2023, management determined that the underlying investments of the funds that Separate Account No. 1 invests in are based on quoted market prices within an

**RETIREMENT PLAN FOR EMPLOYEES OF  
MUTUAL OF AMERICA LIFE INSURANCE COMPANY**

Notes to Financial Statements  
December 31, 2024 and 2023

active market and as such are classified as Level 1. Investments held in the Separate Account are stated at market value, which represents fair value. The investments are exposed to the overall market risks associated with investments held in the domestic equity and fixed-income markets, and as such the value of these investments could materially increase or decrease from the amounts reported in the statements of net assets available for plan benefits as conditions in the financial market change.

The inputs used for valuing investments are not necessarily an indication of the risk associated with investing in those investments. Furthermore, although the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants; the use of different methodologies or assumptions to determine the fair value of Plan investments could result in a different fair value measurement at the reporting date. There have been no changes in the methodology used to determine fair value from December 31, 2023 to December 31, 2024.

The Plan's group annuity contract held in the General Account of Mutual of America, the insurance carrier for the Plan, is valued at contract value which is equal to fair value and is considered to be a cash equivalent. Contract value represents contributions made under the contract, plus interest at the credited rate, less funds used to purchase annuities and pay administrative expenses charged. The General Account has been excluded from the fair value hierarchy described herein.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

The following table summarizes the valuation of the Plan's investment according to fair value hierarchy levels as of December 31, 2024 and 2023:

**(f) Funding Policy**

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. A credit balance of \$4,840,460 was elected to be applied to the Plan in 2024. There were no contributions made by the Plan relating to the 2023 Plan year.

Although it has not expressed any intention to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions set forth in ERISA.

**(3) Actuarial Present Value of Accumulated Plan Benefits**

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' average compensation during their highest 36 consecutive months of credited service (within the last 120 months of service). Benefits payable under all circumstances – retirement, death, and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation date. Guaranteed benefits purchased under the annuity contracts offered by the Plan Sponsor are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by a qualified actuary from Mutual of America and is the amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of December 31, 2024 were (a) life expectancy of participants (the PRI-2012 white collar mortality table for Non-Disabled participants and the Disabled Retiree version of PRI-2012 for Disabled participants both projected by mortality improvement scale MP-2021, separate for males and females and the IRS 2025 Unisex Static Mortality Table for females and males), (b) retirement age assumptions (rates of retirements ranging from age 55 to 70 in 2024 and 2023), and (c) an assumed investment return. The valuations assumed an average rate of return on Plan assets of 7.25% as of December 31, 2024 and 7.5% as

**RETIREMENT PLAN FOR EMPLOYEES OF  
MUTUAL OF AMERICA LIFE INSURANCE COMPANY**

Notes to Financial Statements  
December 31, 2024 and 2023

of December 31, 2023. This expected long-term rate of return was determined based upon the current projected benefit period and the current mix of Plan investments, which consists of approximately 50% in equity investments and 50% in fixed-income investments in 2024 and approximately 60% in equity investments and 40% in fixed-income investments in 2023. These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. In addition, the Plan provides for future disability benefits which are not continued at termination of employment and therefore are considered nonvested benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2024 and 2023 were:

	<u>2024</u>	<u>2023</u>
Vested benefits	\$ 235,731,097	\$ 238,796,856
Nonvested benefits	3,352,346	4,231,244
Total actuarial present value of accumulated plan benefits	<u>\$ 239,083,443</u>	<u>\$ 243,028,100</u>

The changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2024 were:

Actuarial present value of accumulated plan benefits, beginning of year	\$ 243,028,100
Changes during the year attributable to:	
Change in actuarial assumptions	3,796,047
Benefits accumulated and miscellaneous	20,513,547
Increase for interest due to reduction in the discount period	16,576,352
Benefits paid, annuities purchased and annuity death benefits	<u>(44,830,603)</u>
Net increase	<u>(3,944,657)</u>
Actuarial present value of accumulated plan benefits, end of year	<u>\$ 239,083,443</u>

The investment return assumption has a significant effect on the amounts reported as the actuarial present value of accumulated plan benefits. If the assumed rate decreased by one percentage point, that would increase the actuarial present value of accumulated plan benefits as of December 31, 2024 by approximately \$17 million.

**(4) Investments**

The Plan's investments are held and administered by Mutual of America. The following presents the current value of investments.

	<u>2024</u>	<u>2023</u>
Mutual of America Separate Account No. 1	\$ 273,571,189	\$ 293,317,417
Mutual of America General Account	\$ 263,391	\$ 2,544,008

There are no reserves against contract value for the issuer of the insurance contract for credit risk of the contract issuer or otherwise. The credited interest rate for the General Account was 2.85% for the year ended December 31, 2024 and 1.6% for the year ended December 31, 2023.

**(5) Plan Termination**

Although it is the intention of the Company to continue the Plan, in the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding a plan termination. Upon retirement, the Plan Sponsor purchases an annuity contract for their retirees. As such recurring payments are no longer the obligation of the Plan and the Plan's obligation to the participant ceases at that time.
- b. Other vested benefits insured by the PBGC up to the applicable limitations discussed below.
- c. All other vested benefits not insured by the PBGC.
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC, a U.S. Government agency, if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2024, that ceiling, which is adjusted periodically, is \$7,108 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of single-life annuity and are 65 years of age at the time of retirement or plan termination (whichever comes later). For annuitants over or under 65, or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are adjusted lower. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at the time, of the Plan's assets to provide those benefits and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

**(6) Party-In-Interest Transactions**

As Mutual of America is the insurance carrier as well as the Plan Sponsor, record keeper, custodian and the Plan Administrator, all transactions are with a known party-in-interest as defined by ERISA Section 3(14).

**(7) Tax Status**

The plan obtained its latest determination letter on February 26, 2016, in which the Internal Revenue Service states that the Plan, as then designed, was in compliance with the applicable requirements for the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in

**RETIREMENT PLAN FOR EMPLOYEES OF  
MUTUAL OF AMERICA LIFE INSURANCE COMPANY**

Notes to Financial Statements  
December 31, 2024 and 2023

compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, there is no tax provision recorded in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded as of December 31, 2024, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing and regulatory jurisdictions; however, there are currently no audits in progress for any tax period.

**(8) Risks and Uncertainties**

The Plan invests in various separate accounts that are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits and participant account balances. Plan investments include a variety of investments that may directly or indirectly invest in securities with contractual cash flows. The value, liquidity, and related income of these securities are sensitive to changes in economic conditions and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

**(9) Reconciliation to Form 5500**

As discussed in footnote 1(e) policy loans are not considered assets of the Plan but are collateralized by the participants account balance in the Plan. Form 5500 reflects loans as an account caption as the Plan Administrator has concluded that this presentation is appropriate on Form 5500 due to the collateralization of these loans. This classification difference does not impact the total net assets reflected on Form 5500.

The Plan contains a Voluntary Employee Contribution (VEC) feature that, prior to 1987, permitted participants in the Plan with an opportunity to make voluntary contributions on an after-tax basis. Voluntary participant contributions of this nature are no longer permitted under the Plan. Assets related to the VEC feature are fully vested.

VEC assets are held under a Group Annuity Contract and consist of \$189,793 invested in the Separate Account and \$96,413 invested in the General Account at December 31, 2024. Accumulations under the VEC feature are assets of the Plan. However, VEC assets are not available to provide the pension benefits described in note 1(c). Additional information for the VEC feature for the years ended December 31, 2024 and 2023 is presented below.

## Actuarial cost method

### Funding target and target normal cost

An actuarial cost method allocates the expected cost of a pension plan on a year-by-year basis. The primary objective is to accumulate enough assets prior to each participant's retirement to provide the promised pension benefits.

The Pension Protection Act of 2006 (PPA) requires plan sponsors to use the Traditional Unit Credit actuarial cost method in which the estimated accrued benefit is based on service and, if applicable, earnings as of the valuation date. The funding target is equal to the actuarial present value of all accrued benefits as of the valuation date. The target normal cost is the actuarial present value, as of the valuation date, of the expected increases in projected accrued benefits attributable to service expected to be completed during the plan year (i.e., if applicable, one year's salary growth is reflected in the determination of target normal cost).

For tax deduction purposes, the funding target may reflect the value of future pay increases on accrued benefits, if applicable.

### PPA discounting method

The plan sponsor must choose between full yield curve spot rates or a segmented yield curve of 24-month average corporate bond rates. If the segmented yield curve is selected, the plan sponsor can use either the rates as of the month of the valuation or as of a lookback month, up to 4 months prior to the valuation date. If the full yield curve is selected, the rates as of the month of valuation must be used.

For purposes of this valuation, the following discounting method was used and is assumed to be approved by the plan sponsor:

**Segment rates through the month of August preceding the valuation date, adjusted so each segment rate is no less than the applicable minimum percentage\* of the corresponding 25-year average segment rate for the calendar year that contains the first day of the plan year and no more than the applicable maximum percentage\*\* of that 25-year average segment rate. The 25-year average cannot be less than 5.0% prior to application of the corridor.**

### Asset valuation method

Plan assets for purposes of this actuarial valuation are valued under the Asset Averaging method, including, if applicable, discounted receivable contributions. The value is equal to the average of the fair market value of assets on the valuation date and the adjusted fair market value (including expected earnings) for the two earlier annual determination dates. Expected earnings are calculated using a rate no greater than the third segment rate of the segmented yield-curve in effect at the beginning of each valuation year. The resulting average value must be fall between 90 and 110 percent of the fair market value of assets on the valuation date.

---

\* Minimum is 95% through 2030, decreasing 5% per year beginning in 2031 until 70% is reached in 2035

\*\* Maximum is 105% through 2030 and increasing 5% per year beginning in 2031 until 130% is reached in 2035

### Miscellaneous Assumptions

Form of Payment: Lump Sum

Expenses: Assumed equal to prior year's actual expenses

Percent Married: 100.00%

Spouse's Age: Wives assumed to be 3 years younger than husbands

### Rationale for significant assumptions

#### Economic assumptions

- **Expected return on plan assets:** The assumption was selected by the client with input from their investment advisor. We believe the assumption is reasonable as it falls within a reasonable range of expected returns for the plan's asset allocation based on capital market assumptions.
- **ASC 960 pre-retirement discount rate:** This assumption is based on the **expected return on plan assets** assumption.
- **ASC 960 post-retirement discount rate:** The lump sum conversion interest is based on the long-term expectation of lump sum rated bases on yields on high quality corporate bonds.
- **Salary increase:** This assumption is based on the plan sponsor's long-term expectation of salary increases. We believe that this is representative of anticipated future experience. In addition, based on discussions with the plan sponsor, significant changes in future salary growth or compensation practices are not expected.

# Actuarial assumptions

## Demographic Assumptions

- **ASC 960 pre-retirement mortality:** The mortality base table and projection scale is based on the most recent mortality table and improvement scale published by the Society of Actuaries (SOA) and in our judgement, adequately reflects expected mortality rates as of the measurement date. The SOA elected not to release a new mortality scale for 2023 which would have included mortality data affected by the COVID-19 pandemic, but instead will continue to study emerging mortality experience and assess what mortality improvement scale options might be considered to be implemented in the future. As such, we have decided not to reflect any adjustments to the most recent mortality improvement scale. The plan's relatively small size would not support a credible mortality study.
- **ASC 960 post-retirement mortality:** The lump sum conversion mortality is based on the IRS lump sum mortality table for the current plan year.
- **Termination:** We believe that this assumption is representative of anticipated future experience. Historically, this assumption has not produced significant gains or losses for the plan. In addition, based on discussions with the plan sponsor, significant changes in termination patterns are not expected.
- **Retirement:** We believe that this assumption is representative of anticipated future experience. Historically, this assumption has not produced significant gains or losses for the plan. In addition, based on discussions with the plan sponsor, significant changes in retirement patterns are not expected.

## Miscellaneous assumptions

- **Expenses:** The assumption is based on the expectation of expenses to be paid out during the plan year based on actual PBGC expenses projected for the year, and assuming non-PBGC related expenses will be similar to the prior year.
- **Form of payment:** We believe that this assumption is representative of anticipated future experience. Historically, this assumption has not produced significant gains or losses for the plan.
- **Spouse's age and percent married:** The employer does not have enough credible data to analyze spousal demographics. These assumptions are based on the actuary's experience with similar plans.

## Summary of plan provisions

Effective Date of Plan	July 1, 1973.
Effective Date of Latest Amendment	January 1, 2023.
Fresh Start Date	December 31, 1996.
Eligibility	<p>Employees hired on or after January 1, 1997 are eligible upon attainment of age 21 and completion of one year of service. A year of eligibility service will be credited if an employee completes at least 1,000 hours of service during a 12-month period which begins on his or her date of hire. Employees hired prior to January 1, 1997 are eligible upon attainment of age 21.</p> <p>Effective January 1, 2023, employees hired or re-hired after December 31, 2022 are not eligible for the Plan.</p>
Grandfathered Employee	<p>Grandfathered Employee means an Employee who satisfies all of the following conditions:</p> <ul style="list-style-type: none"><li>- Was hired prior to January 1, 2023;</li><li>- Is not a former Employee rehired after December 31, 2022;</li><li>- Has at least 5 years of Vesting Service as of December 31, 2022; and,</li><li>- As of December 31, 2022, the sum of such Employee's years and months of Vesting Service plus years and months of age, rounded up to the nearest whole number, equals at least 45.</li></ul>

## Summary of plan provisions

Compensation	Compensation includes all wages, salaries, fees and amounts received for personal service rendered in the course of employment. Compensation includes contributions made to a salary reduction or deferred compensation plan. In addition, for years beginning after 2008, compensation includes payments to a participant who does not currently perform services for the Employer by reason of qualified military service. Prior to 2002, compensation for any plan year, for benefit purposes, is limited to \$150,000 adjusted for increases prescribed by the Secretary of the Treasury. For the 2002 plan year, EGTRRA increased prospectively the limit to \$200,000 annually. The plan also recognizes the change to the \$200,000 limit for years prior to 2002. For prospective years after 2002, the \$200,000 limit will be indexed for inflation. For 2024, the compensation limit is \$345,000.
Final Average Earnings	The highest average monthly compensation for 36 consecutive months within the last consecutive 120 months of service. Final Average Earnings shall not include any Compensation earned after December 31, 2022 for all who are not Grandfathered Employees
Social Security Average Monthly Wage	Monthly average of the Social Security Taxable Wage Bases for the 35 calendar years ending with the year the Participant attains Social Security Retirement Age.
Benefit Accrual Service	Years and months of employment after completing the eligibility requirements. Benefit Accrual Service shall also include participation under any other pension plan underwritten by Mutual of America. Effective January 1, 2023, benefit accrual service is frozen for all who are not Grandfathered Employees.
Accrued Benefit	The annual benefit, as of the date of determination, to which a Participant would be entitled at Normal Retirement Date. Such benefit is determined as the sum of (i) and (ii) where (i) is the Frozen Accrued Benefit as of December 31, 1996 multiplied by a "Final Average Earnings ratio adjustment" and (ii) is the benefit based on Benefit Accrual Service after December 31, 1996 assuming the Participant remained in service until his Normal Retirement Date, based on his Final Average Earnings and the Social Security Taxable Wage Base in effect as of the date of determination, multiplied by the ratio of his Benefit Accrual Service, as of the date of determination, divided by the Benefit Accrual Service he would have if he remained in service until his Normal Retirement Date. Benefit Accrual Service that is counted in the computation of the Frozen Accrued Benefit as of December 31, 1996 shall be disregarded for the purpose of this ratio. Effective December 31 2022, Accrued Benefit is frozen for all who are not Grandfathered Employees.

## Summary of plan provisions

Frozen Accrued Benefit	The annual benefit to which a participant would be entitled at Normal Retirement Date based on his Final Average Earnings, the Social Security Taxable Wage Base, his Benefit Accrual Service, and the plan provisions as of December 31, 1996.
Vesting	<ol style="list-style-type: none"><li>1) A Participant hired on or before December 31, 2016 shall at all times be 100% vested in his Accrued Benefit attributable to Employer Contributions; and</li><li>2) A Participant hired on or after January 1, 2017 shall be 100% vested in his Accrued Benefit attributable to Employer Contributions upon the attainment age of 55 or, if earlier, completion of 5 Years of Vesting Service with the Employer.</li><li>3) Every Participant who is not a Grandfathered Employee shall become 100% Vested on January 1, 2023.</li></ol>
Retirement Dates	
Normal	The first of the month coincident with or next following the Participant's 65th birthday.
Early	The first of the month on or after attainment of age 55 (but before age 65), on which the Participant elects to retire.
Deferred	The first of any month following Normal Retirement Date on which the Participant elects to retire.
Benefit Formula	The annual benefit at Normal Retirement is the sum of (i) and (ii):

## Summary of plan provisions

(i)(a) 1.5% of Final Average Earnings as of December 31, 1996 multiplied by years of Benefit Accrual Service completed on December 31, 1996, plus

(b) 0.5% of any excess of Final Average Earnings as of December 31, 1996 over the Social Security Average Wage for 1996 multiplied by years of Benefit Accrual Service as of December 31, 1996 up to a maximum of 35 years,

all multiplied by a "Final Average Earnings ratio adjustment." The "Final Average Earnings ratio adjustment" is the Final Average Earnings at the benefit determination date divided by Final Average Earnings as of December 31, 1996;

(ii)(a) 1.5% of Final Average Earnings multiplied by years of Benefit Accrual Service completed after December 31, 1996, plus

(b) 0.3% of Final Average Earnings that exceed the Social Security Monthly Wage multiplied by Benefit Accrual Service completed after December 31, 1996 or, if less, 35 years minus years of Benefit Accrual Service taken into account in determining the benefit in (i)(b) above.

Early Retirement Benefit	<p>The Accrued Benefit reduced by 1/15 for each of the first 5 years and 1/30 for each of the next 5 years by which the Early Retirement Date precedes the Normal Retirement Date.</p> <p>A Participant with 30 "years of service" may retire early at age 62 with no reduction in Accrued Benefit, or at younger ages with reductions of 1/15 for each of the first 5 years and 1/30 for each of the next 2 years by which the Early Retirement Date precedes age 62. For this purpose "years of service" means years of Benefit Accrual Service with the Employer and years of participation in a Prior Employer's Plan.</p>
Deferred Retirement Benefit	<p>The Accrued Benefit reflecting Final Average Earnings and Benefit Accrual Service to the Deferred Retirement Date.</p>
Maximum Benefit	<p>The annual benefit shall not exceed the lesser of (i) \$160,000 indexed after 2002 for inflation adjustments and (ii) 100% of the average compensation for the 3 consecutive years producing the highest average. For 2024, the dollar amount of \$275,000 is in the form of a non-refund life annuity. This amount is adjusted to reflect commencement before age 62 or after age 65 or for forms of payment other than a non-refund life annuity and Cost of Living Supplements, if any. It is prorated for less than 10 years of participation in the Plan.</p>
Minimum Accrued Benefit	<p>The Accrued Benefit computed under the provisions of the plan as of the latest amendment adoption date.</p>
Normal Form of Payment	<p>A non-refund monthly life annuity.</p>

## Summary of plan provisions

Automatic Form of Payment	For a married Participant, a monthly Joint and 66 2/3% Survivor with 120 months certain and continuous annuity actuarially equivalent to the monthly benefit in the Normal form.
Optional Forms of Payment	The Plan provides other possible forms of annuity, all actuarially equivalent to the normal form of payment.
Lump Sum	<p>The Plan allows Participants to receive a single lump sum in lieu of a monthly annuity at retirement. The actuarial basis for determining the lump sum is different than for other optional forms.</p> <p>For the 2024 Plan Year, the interest rate is 100% of monthly spot segment rates based on high quality corporate bonds and mortality using the 2024 Unisex Static Mortality Table specified in IRS Notice 2023-73.</p>
Cost of Living Supplements	Cost of Living Supplements shall be provided to any retired Participant of this Plan. A retiree's benefits under this Plan are increased each year that the Consumer Price Index increases more than 1% from the preceding year, subject to a maximum increase of 4% annually.

## Summary of plan provisions

### Death Benefit Before Retirement

If a vested participant dies before retirement benefits have begun, the death benefit shall be payable in monthly installments, as follows:

1) The spouse shall receive 66 2/3% of the Accrued Benefit, reduced for early commencement, and further reduced to reflect the Automatic Form of Payment.

2) If there is no surviving spouse and the vested participant dies while actively employed by Mutual of America or is at least 55 at the date of death, each child shall receive a pro-rata share of a monthly payment calculated as if the participant had retired on the day before his death and elected the life annuity with 120 monthly payments option. Such payments will cease after 120 monthly payments have been made.

3) If there is no surviving spouse or child and the vested participant dies while actively employed by Mutual of America or is at least 55 at the date of death, the beneficiary shall receive a monthly payment calculated as if the participant had retired on the day before his death and elected the life annuity with 120 monthly payments option. Such payments shall cease after 120 monthly payments have been made.

In lieu of monthly payments, if a vested participant dies before retirement benefits have commenced and the vested participant dies while actively employed by Mutual of America or is at least 55 at the date of death, the death benefit shall be equal to the lump sum value of 100% of the retirement benefit otherwise payable. If the participant is not at least age 55 at the date of death, the lump sum will reflect a reduction to recognize the payment of the benefit before age 55.

### Disability Annuity Credit

Periods of disability while a participant receives a Social Security Disability Income are also counted as Benefit Accrual Service excluding the first six months of disability and ending on Normal or Early Retirement Date.

The compensation rate in effect immediately prior to disability is assumed to continue while disabled. Such compensation rate shall not exceed 120% of the compensation rate in effect one year prior to disability.
