Report of Independent Auditors

To the Administrator of Pension and Retirement Plan

Opinion

We have audited the accompanying financial statements of Pension and Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, including the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

PENSION AND RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2024 AND 2023

(dollars in thousands)

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Pension and Retirement Plan (the "Plan") is provided for general purposes only. Participants should refer to the Plan document and Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan which covers eligible employees of Corteva Agriscience, LLC (the "Company" or "Corteva"), and its affiliated companies Pioneer Hi-Bred International, Inc. ("Pioneer"), PHI Financial Services, Inc., and Corteva Agriscience Puerto Rico, Inc. Participants who were employed by ChemFirst Inc. ("ChemFirst"), Danisco A/S ("Danisco"), Sentinel Transportation Company LLC ("Sentinel"), and Solae, LLC ("Solae") and have a vested benefit are also covered by the Plan. ChemFirst, Danisco, Pioneer, Sentinel and Solae each have a different benefit section (Title) in the Plan and their employees are covered by these separate pension benefit provisions.

EIDP, Inc. (formerly known as E. I. du Pont de Nemours and Company) ("DuPont" or "EIDP") is the Plan Sponsor.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

In November 2016, DuPont announced that the Plan would freeze the pay and service amounts used to calculate pension benefits for active employees who participate in the Plan on November 30, 2018 ("the Effective Date"). As of the Effective Date, active employees in the Plan no longer accrue additional benefits for future benefit service and eligible compensation received.

Administration

The Plan Administrator is the Benefit Plans Administrative Committee (the "Benefits Committee"), which is appointed by the Company. The Benefits Committee may adopt, subject to the approval of the Company, such rules as it may deem necessary for the proper administration of the Plan.

The assets of the Plan are held in the DuPont Pension Trust ("Master Trust"), of which 100% is owned by the Plan as of December 31, 2024 and 2023. The Board of Directors of the Company, or its delegate, appoints a trustee to hold the assets of the Master Trust in a trust. The trustee of the Master Trust is State Street Bank and Trust Company ("State Street" or the "trustee").

The management of the assets of the Master Trust are overseen by the Pension Investment Committee ("the Investment Committee"), which is appointed by the Chief Executive Officer of Corteva, Inc. The assets of the Plan invested in the Master Trust are managed by DuPont Capital Management Corporation ("DCMC"), a registered investment advisor and wholly-owned subsidiary of Corteva, Inc. DCMC also determines the Master Trust's valuation policies. See Note 5 for additional information.

Plan Benefits

Participating employees become vested in the Plan after the completion of five years of service (three years for Danisco employees) or the attainment of normal retirement age. Normal retirement age for ChemFirst, DuPont, and Pioneer participants is the latter of age 65 or the age at which five years of service are completed. For all other sections of the Plan, the normal retirement age is 65. Participants are eligible to receive vested benefits upon termination of employment, retirement, death or total disability and the benefits may be paid immediately if age and service requirements are met. Benefits are determined using a formula which takes into account service and final average earnings and are paid as a monthly annuity over the remaining lifetime of the participant. ChemFirst, Danisco, and Sentinel employees may elect to receive the benefits as a lump sum payment. Effective January 1, 2024, a former employee with a vested pension benefit having a total present value less than or equal to \$7,000 is cashed out of the Plan, representing an increase from the \$5,000 limit previously in place. Required minimum distributions will begin no later than April of the calendar year following the latter of the year in which the participant attains the required minimum distribution age or the year following retirement or termination of employment. As a result of the Consolidated Appropriations Act of 2023, which includes the Setting Every Community Up Retirement Enhancement ("SECURE") 2.0 Act, the required minimum distribution age is 70 ½ for anyone born before July 1, 1949, age 72 for anyone born on or between July 1, 1949 and December 31, 1950, age 73 for anyone born on or between January 1, 1951 and December 31, 1959, and age 75 for anyone born on or after January 1, 1960.

PENSION AND RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2024 AND 2023

(dollars in thousands)

In October 2023, the Plan purchased a group annuity contract from an insurance company for approximately 4,600 participants who were receiving monthly pension benefits. Their last payments from the Plan were on either November 30, 2023 or December 1, 2023. As a result of the annuity purchase amounting to \$268,134, there was a corresponding decrease in the present value of accumulated plan benefits of \$297,564 (see Note 3). Subsequent to the last payment date, these individuals will continue to receive monthly payments from the insurance company.

Death and Disability Benefits

If an active employee dies with a vested benefit, death benefits are payable to the surviving spouse or other eligible beneficiary. Effective January 1, 2015, for participants who become totally disabled, no specific disability benefit is offered. For a disability which occurred prior to January 1, 2015, disability benefits are payable in accordance with the plan provisions for their specific section of the Plan (ChemFirst, Danisco, DuPont, Pioneer, Sentinel or Solae).

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The assets of the Plan are held in the Master Trust. The Master Trust invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate risk, credit risk, and overall market volatility. Market risks include global events which could impact the value of investment securities, such as a pandemic, international conflict or significant changes in trade, tax or other policies. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income and gains or losses, including the change in the value of investments, less actual distributions, and actual and allocated administrative expenses. Net investment income or loss from the Master Trust is allocated proportionately on a monthly basis based on the Plan's interest in the Master Trust. See Note 5 for additional information.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Plan Expenses

In general, independent auditor and actuarial consultant fees, premiums to the Pension Benefit Guaranty Corporation, and other expenses of administering the Plan are paid from the assets of the Plan. Expenses, such as trustee fees and expenses related to investment of Plan assets, are included in the net investment income allocated from the Master Trust.

NOTE 3 - ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Accumulated plan benefits for active employees are based on their estimated average pensionable compensation during the three years (five years for ChemFirst, Danisco, Pioneer, and Solae employees) ending on the Effective Date. As of December 31, 2024 and 2023, benefits payable under all circumstances - retirement, death, disability and termination of employment - are included in the actuarial present value of accumulated plan benefits, to the extent they are deemed attributable to employee service and pay rendered to the Effective Date.

The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected dates of payment.

The actuarial present value of accumulated plan benefits as of December 31, 2024 and 2023 are presented below:

	2024	2023
Vested benefits:

(dollars in thousands)

The following presents the changes in the actuarial present value of accumulated plan benefits for the years ended December 31, 2024 and 2023:

	2024	2023
Actuarial present value of accumulated plan benefits at beginning of year	\$ 13,258,354	\$ 14,090,836
Increase (decrease) during the year attributable to:		
Increase for interest due to the decrease in discount period	570,459	606,815
Changes in actuarial assumptions	(1,426,600)	(2,096)
Other actuarial losses	44,231	85,980
Benefits paid	(1,175,894)	(1,225,617)
Annuity purchase	—	(297,564)
Net increase (decrease)	(1,987,804)	(832,482)
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 11,270,550</u>	<u>\$ 13,258,354</u>

The significant assumptions used in the valuations at December 31, 2024 and 2023 were:

- Interest rate: 6.0 percent at December 31, 2024 and 4.5 percent December 31, 2023, based upon the long-term expectation of asset return in the supporting trust.
- Life expectancy of participants: For measuring the 2024 and 2023 present value of accumulated plan benefits, the Plan adopted the amounts-weighted aggregate healthy Pri-2012 mortality tables for healthy participants, disabled Pri-2012 mortality table for disabled participants and Pri-2012 contingent survivors mortality table for current and future survivors. These rates were projected generationally from 2012 using Aon's November 2024 U.S. Endemic version of MP-2021 improvement scale for 2024 and Aon's January 2024 U.S. Endemic version of MP-2021 improvement scale for 2023.
- Retirement age at December 31, 2024 and December 31, 2023: age 50-69 at 7-40%; age 70 at 100%.
- Actuarial cost method: The unit credit cost method.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Change in Actuarial Assumptions

Summary and impact of assumptions changes for the December 31, 2024 valuation

The increase in the discount rate from 4.5 percent to 6.0 percent reduced the present value of accumulated plan benefits as of December 31, 2024 by \$1,429,780. The mortality improvement scale was updated to use Aon's November 2024 U.S. Endemic version of MP-2021 improvement scales, which reflects near-term and long-term adjustments for the novel coronavirus disease ("COVID-19"). As a result, the present value of the accumulated plan benefits as of December 31, 2024 increased by \$3,180. There was no other change to demographic assumptions.

Summary and impact of assumptions changes for the December 31, 2023 valuation

The mortality improvement scale was updated to use Aon's January 2024 U.S. Endemic version of MP-2021 improvement scales, which reflects near-term and long-term adjustments for COVID-19. This resulted in a higher average rate of improvement in mortality than the improvement rates used for the December 31, 2022 valuation. As a result, the present value of the accumulated plan benefits as of December 31, 2023, increased by \$2,334. Other modifications to demographic assumptions resulted in the decrease of \$4,430 to the present value of accumulated plan benefits for the year ended December 31, 2023.

NOTE 4 - FUNDING POLICY

The Company's contributions must be at least adequate to meet minimum funding requirements under U.S. laws and regulations. Company contributions exceeding minimum funding requirements may be made at Company discretion. However, the Company will not make contributions that are in excess of the Internal Revenue Service ("IRS") maximum tax deductible limit. The actuarial assumptions and procedures utilized are reviewed regularly by the Plan's actuaries to provide assurance that there will be adequate funds for the payment of benefits under the Plan. No contributions were made to the Plan for the 2024 and 2023 plan years. The Plan met the minimum funding requirements of ERISA for the years ended December 31, 2024 and 2023.

Plan Allocation of Master Trust

The assets, income from investments and net appreciation (depreciation) of the Master Trust are allocated monthly among the participating plans based on cumulative actual contributions and payments under each plan as of each month-end.

Master Trust Practices and Policies

Investments of the Master Trust in common stocks, including exchange-traded funds, and options are valued at the closing exchange price reported in the active market in which the security is traded. Investments in U.S. government and corporate obligations and foreign bonds are valued at the evaluated bid price reported in the active market in which the security is traded. Investments in foreign bonds, equities and currencies are translated into U.S. dollars at end-of-period exchange rates. Money market and short-term investment funds are valued at net asset value. Futures contracts are valued at their quoted daily settlement prices. Forward foreign exchange contracts are valued upon closing exchange rates from each respective foreign market. Most investments in hedge funds, real estate funds, and private corporate equity and debt investments are valued based on net asset value as a practical expedient to estimate fair value. See Note 6 for additional information. Certain investments in real estate and private corporate equity and debt are valued based on inputs as discussed on pages 18 and 19 for 2024 and 2023, respectively.

The change in net appreciation (depreciation) as recorded in the statement of changes in Master Trust net assets consists of both realized gains and losses and the change in unrealized appreciation and depreciation on investments bought and sold as well as held during the year.

Dividends are recorded on the ex-dividend date and interest income is accrued as earned. All security transactions are recorded on a trade-date basis.

The Master Trust pledged cash and U.S. Treasury securities as collateral related to futures and certain asset-backed debt securities valued at \$64,372 and \$88,393, at December 31, 2024 and 2023, respectively.

There were no asset transfers into the Master Trust, aside from refunds on prior annuity purchases of \$3,948 and \$10,074 during 2024 and 2023, respectively.

Pension benefit payments are based on actual benefit payments to plan participants and are recorded as asset transfers out of the Master Trust. Asset transfers out were \$1,235,829 and \$1,560,409 during 2024 and 2023, respectively, consisting of: (i) \$1,175,894 and \$1,225,617 related to benefit payments of plans invested in the Master Trust during 2024 and 2023, respectively; (ii) \$59,935 and \$66,658 relating to direct administrative expenses of plans invested in the Master Trust during

2024 and 2023, respectively; and (iii) \$0 and \$268,134 relating to the transfer of assets to an insurance company through the purchase of non participating group annuity contracts during 2024 and 2023, respectively.

Derivatives Policy

The Master Trust enters into contractual arrangements (derivatives) in carrying out its investment strategy, principally to: (i) hedge a portion of the Master Trust's portfolio to limit or minimize exposure to certain risks; (ii) gain an exposure to a market more rapidly or less expensively than could be accomplished through the use of the cash markets; and (iii) increase investment returns by reducing the cost of structuring the portfolio or by capturing value disparities between financial instruments.

The Master Trust may utilize derivative investment instruments such as:

- Equity futures;
- Interest rate futures;
- Options on futures;
- Over-the-counter ("OTC") options; and
- Forward exchange contracts.

Select major financial institutions are used in derivatives transactions.

When engaging in OTC and forward exchange contracts, there is exposure to credit loss in the event of nonperformance by the counterparties to these transactions. The Master Trust manages this exposure through credit approvals, limits, monitoring procedures, and to the extent possible, by restricting the period over which unpaid balances are allowed to accumulate. The Master Trust does not anticipate nonperformance by counterparties to these contracts, and no material loss would be expected from any such nonperformance. Procedures are in place to regularly monitor and report market and counterparty credit risks associated with these instruments.

The following is a summary of the significant accounting policies associated with the Master Trust's use of derivatives:

Futures - The Master Trust invests in futures contracts for the express purposes of managing portfolio duration, hedging interest rates, facilitating trading, simulating a fully invested position in the underlying bonds or indices while maintaining a cash balance for liquidity, or adding value when these instruments are favorably priced. The primary risks associated with the use of futures contracts are imperfect correlation between changes in market values of investments held by the Master Trust and the prices of futures contracts, and the possibility of an illiquid market.

The Master Trust may purchase and sell financial futures contracts, which are commitments to purchase or sell a financial instrument at a future date for a specified price. Upon entering into a contract, the Master Trust deposits and maintains initial margin collateral as may be required by the exchange on which the transaction is effected. During the period the futures contracts are open, changes in the value of the contract are recognized on a periodic basis to reflect the market value of the contract at the end of each day's trading. The Master Trust periodically receives from or pays to the broker an amount of cash equal to the fluctuation in the value of the contract as required by the exchange. Such receipts or payments are known as "variation margin" and are included in realized gains or losses. Variation margin is recorded as an asset or liability in the statement of Master Trust net assets and as net appreciation (depreciation) in the statement of changes in Master Trust net assets. Financial futures contracts are utilized by the Master Trust as an alternative to direct investment in the underlying securities as the purchase or sale of futures contracts involves less cash outlay. Futures may also be used for hedging purposes. In engaging in futures transactions, the Master Trust is subject to a number of risks. Successful hedging transactions depend on the ability to predict timing of, and future direction of, price movements. If the prediction is incorrect, the Master Trust may realize a loss. There is also a risk that the price of the futures contract may not correlate with the price of the underlying portfolio security or index. In addition, there is a possibility that there may not be a secondary market for the contracts, or that the counterparty to a contract may default on its obligation to perform. Counterparty risk is mitigated by periodic variation margins and the fact that the Master Trust enters into futures contracts only through exchanges.

Forward Exchange Contracts - Forward exchange contracts are marked-to-market based upon forward exchange rates and the difference between contract value and market value is recorded as an asset or liability in the statement of Master Trust net assets. The change in value of these forward exchange contracts is included as unrealized gains or losses in the statement of changes in Master Trust net assets. When the forward exchange contract is closed or effectively settled, the Master Trust transfers the unrealized appreciation (depreciation) to a realized gain or loss equal to the change between the value of the forward exchange contract when it was opened and the value at the time it was closed or offset.

Foreign Exchange Spot and Forward Contracts

Forward exchange contracts may be utilized to hedge all or a portion of the currency exposure that results from the Master Trust's holdings of equity and fixed income securities denominated in foreign currencies. From January through March 2023, the Master Trust hedged approximately 60% of the foreign currency exposure of the portfolio invested in mature equity foreign markets, in accordance with the investment policy. After March 2023, the Master Trust did not hedge this exposure. In both periods, it did not hedge its exposure when the stocks or bonds were denominated in the currency of an emerging market country.

Open forward exchange contracts (each contract versus the U.S. dollar) at December 31, 2024 and 2023, were as follows. The net unrealized appreciation (depreciation) presented in this table is reported in the statement of Master Trust net assets under "Unrealized appreciation/depreciation on forward exchange contracts":

Currency Sold					
2024			2023		
Settlement Dates	Contract Amount	Unrealized Appreciation (Depreciation)	Settlement Dates	Contract Amount	Unrealized Appreciation (Depreciation)
British Pound	—	—	3/15/2024	\$ 3,985	\$ (72)
Euro Monetary Unit	—	—	3/15/2024	64,556	(1,429)
	<u>\$ —</u>	<u>\$ —</u>		<u>\$ 68,541</u>	<u>\$ (1,501)</u>

Interest Rate Futures

In carrying out its interest rate futures investment strategy, the Master Trust uses long futures contracts, short futures contracts, and options on securities and futures. Long-term futures contracts are exchange traded instruments used to provide liquidity, to obtain a desired portfolio structure, and to capture relative value differences. Short-term futures contracts are exchange traded instruments used to provide direct exposure to movements in short-term interest rates.

Short interest rate futures contracts are utilized for a variety of purposes, including (i) executing tactical asset overlay strategies and (ii) hedging against selected risks in certain segments of the fixed income portfolio.

NOTE 6 - FAIR VALUE MEASUREMENTS

Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Fair value calculations may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets and liabilities at fair value as of December 31, 2024:

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation (depreciation) in fair value of investments in the statement of changes in Master Trust net assets.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The fair value of the real estate funds is estimated based on costs, the direct capitalization method or the discounted cash flow method. The direct capitalization method involves dividing the net operating income by a market capitalization rate. The discounted cash flow method involves estimating the investment fund values based on net operating income less periodic capital expenditures and reversion value at the conclusion of the holding period.

For other investments, management estimates the values of the investments using current and projected financial conditions, debt obligations, applicable financial ratios, liquidity and related financial ratios, projected operating results, current offers to purchase the investment, market valuations of comparable companies and company specific developments including exit strategies and realization opportunities. Refer to the below table for further information on the valuation methods and inputs used.

NOTE 7 - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The assets of the Plan invested in the Master Trust are managed by DCMC under the terms of an investment management agreement between DCMC and the Plan Sponsor. Under this agreement, expenses associated with DCMC's investment management activities can be recovered by the Plan Sponsor from the Master Trust. These expenses were \$35,973 and \$36,612 for the years ended December 31, 2024 and 2023, respectively. At December 31, 2024 and 2023, the Master Trust's unpaid administrative expenses to DCMC amounted to \$20,183 and \$23,322, respectively.

At December 31, 2024 and 2023, the Master Trust held 2,311,058 and 4,260,223 shares of Corteva common stock, with a market value of \$131,638 and \$204,150, respectively. In November 2024, the Master Trust sold 1,949,165 shares of Corteva common stock to Corteva, Inc. for \$125,000 as part of the Pension Investment Committee's periodic portfolio rebalancing process.

The Master Trust invests in the State Street Institutional U.S. Government Money Market Fund at December 31, 2024 and December 31, 2023.

These transactions qualify as party-in-interest transactions permitted under the provisions of ERISA.

NOTE 8 - COMMITMENTS

At December 31, 2024, the Master Trust, through investments in private corporate equity investments, debt investments and real estate funds, is committed to make potential additional investments under capital calls approximating a maximum \$462,517. The issuance of capital calls depends upon the managers of the private investments identifying further investments which they consider desirable for purchase. Additionally, the Master Trust is committed to the payment through capital calls of management fees to the advisers of certain private investments.

In the normal course of business, the Master Trust enters into contracts with service providers that contain general indemnification clauses. The Master Trust's maximum exposure under the arrangements is unknown as this would involve future claims that may be made against the Master Trust that have not yet occurred. However, based on experience, the Master Trust expects the risk of loss to be remote.

NOTE 9 - TAX STATUS

The IRS has determined and informed the Plan Administrator by the letter dated September 26, 2016, that the Plan is qualified under the applicable sections of the Internal Revenue Code ("IRC"). The determination letter covers the Plan and amendments through December 15, 2015. The Plan has been amended since receiving the determination letter. The Plan Administrator believes that the Plan is designed and is currently being operated in accordance with the applicable requirements of the IRC. Therefore, no provision has been made for federal income taxes in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to initiation of any new tax examinations for years prior to 2019.

NOTE 10 - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company reserves the right to terminate the Plan. In the event the Plan is terminated, the net assets of the Plan shall be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.
2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
3. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations.
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 11 - SUBSEQUENT EVENTS

In February 2025, the Master Trust sold the remaining 2,311,058 shares of Corteva common stock held to Corteva, Inc. for \$145,355 as part of the Pension Investment Committee's periodic portfolio rebalancing process.

Effective as of July 15, 2025, the Pension and Retirement Plan was amended and restated to incorporate all prior amendments.

The Plan's management has evaluated events and transactions for potential recognition or disclosure in the financial statements through September 19, 2025, the date the financial statements were available to be issued. Management has determined that there are no additional material events or transactions that would require recognition or disclosure in the Plan's financial statements through this date.

Interest Rates for Minimum Funding Purposes

Based on segment rates with a four-month lookback (as of September 2023), each adjusted as needed to fall within the 25-year average interest rate stabilization corridor under ARPA.

1st Segment Rate	4.75%
2nd Segment Rate	4.87%
3rd Segment Rate	5.59%

Interest Rates for Maximum Tax Purposes

Based on segment rates with a four-month lookback (as of September 2023), without regard to interest rate stabilization.

1st Segment Rate	3.62%
2nd Segment Rate	4.46%
3rd Segment Rate	4.52%

Decrement Timing

Middle of year decrements, with 100% retirement occurring at beginning of year.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2022 Plan Year	4.81%	The applicable third segment rate limitation is 5.92%.
2023 Plan Year	6.66%	The applicable third segment rate limitation is 5.74%.

Schedule SB, line 22 — Description of Weighted Average Retirement Age

The average retirement age shown in line 22 has been calculated by assuming the following retirement rates and no decrements other than retirement for this calculation. All retirements are assumed to occur at mid-year, except for the 100% retirement age. This calculation has been shown separately for each Title within the Plan. These separate ages are then averaged to derive the amount shown on line 22.

The weighted average retirement age for the total plan is **age 61**.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Interest Rates for Minimum Funding Purposes

Based on segment rates with a four-month lookback (as of September 2023), each adjusted as needed to fall within the 25-year average interest rate stabilization corridor under ARPA.

1st Segment Rate	4.75%
2nd Segment Rate	4.87%
3rd Segment Rate	5.59%

Interest Rates for Maximum Tax Purposes

Based on segment rates with a four-month lookback (as of September 2023), without regard to interest rate stabilization.

1st Segment Rate	3.62%
2nd Segment Rate	4.46%
3rd Segment Rate	4.52%

Decrement Timing

Middle of year decrements, with 100% retirement occurring at beginning of year.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2022 Plan Year	4.81%	The applicable third segment rate limitation is 5.92%.
2023 Plan Year	6.66%	The applicable third segment rate limitation is 5.74%.
2024 Plan Year	6.79%	The applicable third segment rate limitation is 5.59%.

Actuarial Method

Standard unit credit cost method.

Valuation Date

January 1, 2024

Benefit and Compensation Limits

Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$275,000 and the 401(a)(17) compensation limit of \$345,000.

Mortality Rates

Healthy

2024 Generational mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(a)(3) and IRS Notice 2023-73.

Disabled

Disability mortality tables described in Revenue Ruling 96-7 applied to eligible participants based on criteria required in the statute. In absence of data to indicate SSDI eligibility, participants were assumed to be ineligible.

It is assumed that no future disableds will meet the eligibility criteria in Revenue Ruling 96-7.

Disability Rates (Titles I, IV, VII)

0.15% for ages 30 to 64.

Non-Company Paid Surviving Spouse Benefit

It is assumed that 70% of males and 70% of females have an eligible spouse, and that males are two years older than their spouses.

Schedule SB, Part V — Summary of Plan Provisions

Title I (Parent, Caribe)

Effective Date

Originally adopted on September 1, 1904.

Last restated on December 16, 2015.

Eligibility

Employees hired by the Company on or before December 31, 2006.

Effective January 1, 2007, the Plan is closed to new entrants. Rehires after this date will not earn additional benefits.

Benefit Sunset Date

Benefit service and pensionable pay were frozen effective November 30, 2018.

Normal Retirement (Section IV)

Eligibility

Age 65 with at least 15 years of service.

Benefit

The greatest of (1), (2), and (3):

(1) The sum of (a) and (b):

(a) 1.2% of Average Monthly Pay multiplied by years of service through December 31, 2007.

(b) 0.4% of Average Monthly Pay multiplied by years of service after December 31, 2007.

(2) The sum of (a) and (b):

(a) 1.5% of Average Monthly Pay multiplied by years of service through December 31, 2007, minus 50% of the Primary Social Security Benefit multiplied by the ratio of service through December 31, 2007 over total service.

(b) 0.5% of Average Monthly Pay multiplied by years of service since December 31, 2007, minus 16.67% of the Primary Social Security Benefit multiplied by the ratio of service after December 31, 2007 over total service.

(3) \$9 per month multiplied by years of service through December 31, 2007, plus 10% of Average Monthly Pay at December 31, 2007.

Schedule SB Attachment (Form 5500) — 2024 Plan Year
Pension and Retirement Plan
EIN: 51-0014090 PN: 001

The amount determined under (1) or (2) above may not be greater than an amount which, when added to the participant's Primary Social Security Benefit, will equal 100% of Average Monthly Pay.

Early Retirement (Section IV)

Eligibility

Age 50 with at least 15 years of service.

Benefit

Section IV Normal Retirement benefit reduced by 5/12 of 1% for each month that a participant's "age plus service" points are less than 85. Service used for this calculation cannot be less than 20 years and cannot be greater than 27 years.

Normal Retirement benefit cannot be reduced by more than 50%.

Incapability Retirement (Section IV)

Eligibility

Employee has 15 years of service and becomes permanently incapable of performing the duties of his position with the degree of efficiency required by the Company.

Incapability Retirement will not be available to participants whose incapability commences on or after January 1, 2015.

Primary Benefit

Determined in same manner as Section IV Normal Retirement benefit.

Supplemental Benefit

Monthly benefit equal to the greater of (1) and (2):

(1) 50% of Primary Social Security Benefit.

(2) \$90 per month.

The supplement is payable until the earliest date on which the participant becomes eligible for an old-age benefit or receives a disability benefit under the Federal Social Security Act.

Optional Retirement (Section IV)

Eligibility

Age 50 with at least 15 years of service and participant's employment would otherwise be involuntarily terminated for reasons other than discharge for dishonesty, insubordination, or other misconduct.

Schedule SB Attachment (Form 5500) — 2024 Plan Year
Pension and Retirement Plan
EIN: 51-0014090 PN: 001

Age 45 with at least 25 years of service, with 25 years of service adjusted downward by two months for each one month of age past 45, and participant's employment would be involuntarily terminated due to lack of work.

Some exceptions apply in the case of certain corporate transactions (i.e., sale of Company, formation of joint venture, transfer to subsidiary).

Benefit

Section IV Normal Retirement benefit reduced by 5/12 of 1% for each month by which the month of the participant's retirement precedes the earliest month in which, with continued employment, he would have become eligible for an unreduced pension under Normal or Early Retirement.

This benefit is not explicitly included in the valuation due to the subjective and unpredictable nature of the eligibility provisions related to individual employment circumstances.

Deferred Pension (Section V)

Eligibility

Five years of service and terminated for reasons other than retirement.

Benefit

The greatest of (1), (2), and (3):

(1) The sum of (a) and (b):

(a) 1.2% of Average Monthly Pay multiplied by years of service through December 31, 2007.

(b) 0.4% of Average Monthly Pay multiplied by years of service after December 31, 2007.

(2) The sum of (a) and (b):

(a) 1.5% of Average Monthly Pay multiplied by years of service through December 31, 2007, minus 50% of the Primary Social Security Benefit multiplied by the ratio of service through December 31, 2007 over total service.

(b) 0.5% of Average Monthly Pay multiplied by years of service since December 31, 2007, minus 16.67% of the Primary Social Security Benefit multiplied by the ratio of service after December 31, 2007 over total service.

Schedule SB Attachment (Form 5500) — 2024 Plan Year
Pension and Retirement Plan
EIN: 51-0014090 PN: 001

- (3) \$9 per month multiplied by years of service through December 31, 2007, plus 0.67% times Average Monthly Pay at December 31, 2007 times years of service at December 31, 2007, where service is less than 15 years.

The amount determined under (1) or (2) above may not be greater than an amount which, when added to the Participant's Primary Social Security Benefit, will equal 100% of Average Monthly Pay.

Deferred Pension (Section VI)

Benefit

Benefits are unreduced at age 65 and over. Benefits are reduced by 5/12 of 1% for each month by which the month of the participant's retirement precedes the earliest month in which, with continued employment, he would have become eligible for an unreduced pension.

- Employees with less than 10 years of service are not eligible for any benefit until age 65.
- Employees with 10 – 14 years of service are eligible for reduced benefits at age 60 and unreduced benefits at age 65.
- Employees with 15 – 29 years of service are eligible for reduced benefits at age 50 and unreduced benefits at age 65.
- Employees with 30+ years of service are eligible for reduced benefits at age 50 and unreduced benefits at age 60.

Company-Paid Survivor Benefit

Eligibility

The surviving spouse of any active, retired, or transferred employee with at least 15 years of service upon death.

Benefit

The monthly benefit is equal to the greater of (1) and (2):

- (1) 0.5% of the deceased employee's Average Monthly Pay at December 31, 2007 multiplied by years of service through December 31, 2007.
- (2) \$4 per month multiplied by years of service through December 31, 2007, plus 4% of Average Monthly Pay at December 31, 2007.

Benefit is reduced for Early Retirement and Optional Retirement, and spouse age differences (if spouse is at least five years younger).

Schedule SB Attachment (Form 5500) — 2024 Plan Year
Pension and Retirement Plan
EIN: 51-0014090 PN: 001

Other Spousal Coverage

Eligibility

The surviving spouse of an active employee with at least five but less than 15 years of service upon death.

Benefit

The early retirement benefit the spouse would have received had the participant terminated immediately prior to death with benefit payable as a reduced 50% Joint and Survivor annuity basis beginning on or after the participant's early retirement eligibility.

All other survivor benefits are equal to the minimum required under ERISA.

Normal Form of Payment

Single Employee

Life Annuity.

Married Employee

Actuarially reduced Joint and 50% Survivor Annuity.

Optional Forms of Payment

Income-leveling option for Section IV retirements before age 62.

Survivor component of the Joint and Survivor options may be increased by a percentage through an adjustment to the benefit payable to the employee. For certain retirees, additional increments of 10% are available through similar adjustments.

A Joint and 75% Survivor Annuity is also available.

No election of additional 10% increments or 75% survivor benefits are assumed in the valuation.

Definitions

Average Monthly Pay

The greater of (1) and (2):

- (1) The highest average monthly Pay for 36 consecutive calendar months.
- (2) The highest average Pay per month based on total Pay over calendar years and fraction of total Pay for calendar years if necessary, to obtain in aggregate, three full years of Pay. The highest paid years should be selected for calculation.

Company

E. I. du Pont de Nemours and Company and/or any wholly owned subsidiary or part thereof which adopts this Plan.

Pay

Total compensation received by a participant. However, Pay excludes transfer allowances, severance, certain stock compensation and other special payments.

Primary Social Security Benefit

Age 62 (if younger than 62) or immediate monthly amount as determined under the Social Security Act in effect on January 1 of the year an employee retires or terminates employment based on actual earnings on which the Company has paid taxes under the Federal Insurance Contributions Act.

Service

Length in years and fractions of a year of an employee's period of employment.

For deferred benefit eligibility conditions, an employee accrues service for computation periods where he works at least 1,000 hours. Employee will not incur breaks in service if he works more than 500 hours in a computation period. Employee will be awarded with up to 501 hours of service in a computation period to avoid a break in service.

Pension and Retirement Plan
EIN: 51-0014090 PN: 001

Title III (Sentinel)

Effective Date

January 1, 1996.

Last restated on December 16, 2015.

Eligibility

Regular, full-time employees hired on or before December 31, 2003. The plan was closed on January 1, 2004. Rehires and transfers after this date are not eligible for additional benefits.

Benefit Sunset Date

Benefit service and pensionable pay were frozen effective November 30, 2018.

Normal Retirement

Eligibility

Age 65.

Benefit

The maximum of (1), (2), and (3):

- (1) 1.6% of Three-Year Average Compensation multiplied by years of Creditable Service, less 1.5% of the Primary Social Security Benefit multiplied by years of Creditable Service (with offset not to exceed 50% of the Primary Social Security Benefit).
- (2) For members participating in the former Conoco Plan prior to January 1, 1971, 1% of 10-Year Average Compensation (up to \$3,000) plus 1.5% of 10-Year Average Compensation (over \$3,000), multiplied by years of Creditable Service.
- (3) A minimum benefit of \$144 per year multiplied by years of Creditable Service.

Early Retirement

Eligibility

Age 50 and 10 years of Service.

Benefit

Normal retirement benefit under formula (1) is reduced according to Schedule I.

Normal retirement benefit under formulas (2) and (3) are generally reduced according to Schedule I with the exception that benefits attributed to years of Creditable Service prior to January 1, 1971 are reduced according to Schedule II.

Schedule I: 4% per year from age 60 for the first three years and 5% per year thereafter.

Schedule II: 3% per year from age 62.

Schedule SB Attachment (Form 5500) — 2024 Plan Year
Pension and Retirement Plan
EIN: 51-0014090 PN: 001

Incapacity Retirement

Eligibility

Age 40 with 10 years of Service and is eligible to receive disability benefits under the Federal Social Security Act or meets all the disability requirements determined by the Employee Benefits Board.

Incapacity Retirement will not be available to participants whose incapacity commences on or after January 1, 2015.

Benefit

Normal retirement benefit without reduction for early commencement and based on the participant's average compensation and Creditable Service as of his disability.

Separation Retirement

Eligibility

Five years of Service.

Benefit

Normal retirement benefit reduced for early commencement based on plan's definition of actuarial equivalence.

Preretirement Death Benefit

Eligibility

Married active or inactive participants with five years of Service.

Benefit

The early retirement benefit the spouse would have received had the participant terminated immediately prior to death with benefit payable as a joint and 50% survivor annuity basis beginning on or after the participant's early retirement eligibility.

If the participant was active with at least 15 years of service upon death, the surviving spouse benefit commences immediately payable as reduced joint and 50% survivor annuity.

Form of Benefit Payment

Normal

Single life annuity, but for married participants, unless elected otherwise, there is an automatic joint and 50% survivor option on an actuarially equivalent basis.

Optional

Joint and 50%, 75%, or 100% survivor annuity, single life annuity, or lump sum.

Pension and Retirement Plan
EIN: 51-0014090 PN: 001

Return of Employee Contributions

Preretirement Death

Payable after the death of a spouse or beneficiary in receipt of or entitled to be in receipt of a Preretirement Surviving Spouse Annuity.

Person nominated by written designation is entitled to the amount of the deceased member's accumulated contributions less the amount paid to the spouse or beneficiary, if any.

Postretirement Death

Payable after the death of a retired participant.

Spouse, beneficiary, or estate is entitled to the amount of the deceased member's accumulated contributions less the amount paid to the deceased member, if any.

Termination from Active Service

Payable to member upon ceasing to be an employee for reasons other than death or retirement.

Definitions

Compensation

Prior to January 1, 1975, compensation includes regular compensation and excludes bonuses, commissions, overtime, or special pay.

Effective January 1, 1975, compensation includes regular compensation, overtime, shift differential, other forms of "Premium Pay" and excludes all other types of compensation including bonuses, commissions, awards, and bonus payments.

Effective January 1, 1981, compensation also includes annual rewards under certain incentive and variable compensation plans.

Creditable Service

The sum of Membership Service, Prior Service, and Transfer Service.

Membership Service includes service rendered by a member on or after January 1, 1996 after a year of participating in the Plan.

Prior Service includes service of a member recognized by Conoco, Inc. under Title II of the Pension and Retirement Plan.

Transfer Service includes service for certain affiliated corporations based on the date of transfer.

Effective Date

Originally adopted on June 30, 1953.

Last restated on December 16, 2015.

Eligibility

Employees of Pioneer or another participating company, after reaching age 21 and completing a Year of Service.

The plan was closed on January 1, 2012. Rehires and transfers after this date are not eligible for additional benefits.

Benefit Sunset Date

Benefit service and pensionable pay were frozen effective November 30, 2018.

Normal Retirement

Eligibility

Age 65 and five years of service.

Benefit

The benefit is the greatest of (1), (2), and (3), but not less than (4):

(1) Benefit differs by year of retirement.

(a) For retirement prior to January 1, 2012:

- (i) 1.10% of Final Average Earnings up to Integration Level for the year of retirement multiplied by Credited Service up to 35 years; plus
- (ii) 1.47% of Final Average Earnings in excess of Integration Level for the year of retirement (if any) multiplied by Credited Service up to 35 years; plus
- (iii) 1% of Final Average Earnings multiplied by Credited Service in excess of 35 years (if any).

(b) For retirement after January 1, 2012:

- (i) 1.10% of Final Average Earnings up to Integration Level for the year of retirement multiplied by Credited Service up to 35 years, and multiplied by Credited Service as of December 31, 2011 and divided by Credited Service as of Normal Retirement; plus

- (ii) 1.47% of Final Average Earnings in excess of Integration Level for the year of retirement (if any) multiplied by Credited Service up to 35, and multiplied by Credited Service as of December 31, 2011 and divided by Credited Service as of Normal Retirement; plus
 - (iii) 1% of Final Average Earnings multiplied by Credited Service in excess of 35 years (if any), and multiplied by Credited Service as of December 31, 2011 and divided by Credited Service as of Normal Retirement; plus
 - (iv) 0.55% of Final Average Earnings up to Integration Level for the year of retirement multiplied by Credited Service up to 35 years, and multiplied by Credited Service after December 31, 2011 and divided by Credited Service as of Normal Retirement; plus
 - (v) 0.735% of Final Average Earnings in excess of Integration Level for the year of retirement (if any) multiplied by Credited Service up to 35, and multiplied by Credited Service after December 31, 2011 and divided by Credited Service as of Normal Retirement; plus
 - (vi) 0.5% of Final Average Earnings multiplied by Credited Service in excess of 35 years (if any) and multiplied by Credited Service after December 31, 2011 and divided by Credited Service as of Normal Retirement.
- (c) Cannot be less than a participant's retirement benefit on December 31, 2011.
- (2) The Participant's accrued benefit as of December 31, 2004, which was calculated under formula (1) above with the exception that 1.50% applied to subsection (b) instead of 1.47%.
- (3) The Participant's accrued benefit as of December 31, 1988 based on the plan's benefit formula in effect at the time.
- (4) \$84 per month multiplied by Credited Service.

Schedule SB Attachment (Form 5500) — 2024 Plan Year
Pension and Retirement Plan
EIN: 51-0014090 PN: 001

Additional provisions exist for OBRA '93 participants.

Early Retirement

Eligibility

Age 55 and five Years of Service.

Benefit

The benefit is the greatest of (1), (2), and (3), but not less than (4):

- (1) Benefit is calculated as in Normal Retirement Section (1). However, Credited Service under this benefit, unless otherwise specified, is calculated as if the Participant continues employment until Normal Retirement. The amount in the preceding is then multiplied by the ratio of Credited Service at Early Retirement and Credited Service that the Participant would have earned if they continued employment to Normal Retirement.
- (2) Benefit is calculated as in Normal Retirement Section (2). However, Credited Service under this benefit, unless otherwise specified, is calculated as if the Participant continues employment until Normal Retirement.
- (3) Benefit is calculated as in Normal Retirement Section (3). However, Credited Service under this benefit, unless otherwise specified, is calculated as if the Participant continues employment until Normal Retirement. The amount in the preceding is then multiplied by the ratio of Credited Service at December 31, 1988 and Credited Service that the Participant would have earned if they continued employment to Normal Retirement.
- (4) See Normal Retirement Section (4).

For participants with less than 30 Years of Service at Early Retirement, benefits are reduced 1/180 for each of the first 60 months prior to Normal Retirement age and reduced 1/360 for each of the next 60 months that precede Normal Retirement age.

Schedule SB Attachment (Form 5500) — 2024 Plan Year
Pension and Retirement Plan
EIN: 51-0014090 PN: 001

For participants with 30 or more Years of Service at Early Retirement, benefits are reduced by 1/400 for each month that Early Retirement precedes Normal Retirement.

Special provisions apply for OBRA '93 participants.

Special reduction factors apply in the event of retirements induced by reductions in force.

Deferred Vested Pension

Eligibility

Within 10 years of Normal Retirement Date.

Benefit

Same as Early Retirement benefit.

Special provisions apply for OBRA '93 participants.

Disability Retirement

Eligibility

Participant receiving worker's compensation benefits or benefits under Pioneer's Long-Term Disability Plan.

Disability Retirement will not be available to participants whose disability commences on or after January 1, 2015.

Benefit

Normal Retirement benefit calculated as if the Participant continues employment while in receipt of disability related payments.

Disability Retirement commences at the cessation of workers' compensation payments related to the Participant's disability.

Title VII (Solae)

Background

The Solae Pension Plan (Plan) was formerly known as the Protein Technologies International Retirement Plan. The Protein Technologies International Retirement Plan was adopted effective December 3, 1997, upon the acquisition of Protein Technologies International (PTI) by DuPont from Ralston Purina. Employees of PTI who had service in the Ralston Purina Plan were credited with service under the Protein Technologies International Retirement Plan. Protein Technologies International later became known as DuPont Protein Technologies. Effective with the conversion of DuPont Protein Technologies to Solae, LLC on April 1, 2003, the plan was amended and renamed the Solae Pension Plan. Bunge became a member of Solae, LLC and designated former employees of Central Soya (which was owned by Bunge) became participants in the plan on April 1, 2003. For the former employees of Central Soya, service will be credited in accordance with the terms of the plan.

Eligibility

The Solae Pension Plan is available to all full-time and part-time employees hired before January 1, 2013. Temporary employees and leased employees are not eligible. Each employee shall become a participant of the plan after one year of service with the company.

The plan was closed on January 1, 2013. Rehires and transfers after this date are not eligible for additional benefits.

Benefit Sunset Date

Benefit service and pensionable pay were frozen effective November 30, 2018.

Credited Service

An employee's entire period of service (in years and completed months) including service recognized under the Ralston Purina Retirement Plan on December 3, 1997, or the Central Soya Retirement Plan on April 1, 2003. It does not include service recognized under the Central Soya Pension Plan for Hourly Employees as of April 1, 2003.

Credited Service for Vesting

The same as credited service but also includes service recognized under the Central Soya Pension Plan for Hourly Employees as of April 1, 2003.

Schedule SB Attachment (Form 5500) — 2024 Plan Year
Pension and Retirement Plan
EIN: 51-0014090 PN: 001

Pension Earnings

Annual pension earnings include regular pay, overtime pay, vacation pay, and specific types of Solae annual incentive pay items designated as a "special bonus" or designated long-term incentive compensation (or the former PTI President's Incentive company component) are not included.

Final Average Earnings

The average of the five highest consecutive years of a member's annual pension earnings during the last 10 years of employment.

Social Security Taxable Wage Base (SSWB)

The maximum amount of wages subject to Social Security tax (OASDI).

Covered Compensation

The average of SSWB in effect in each of the last 35 years prior to Social Security retirement age.

Normal Retirement Age

Age 65.

Retirement (Age 65) Benefit New Formula

Equal the sum of (1) plus (2):

- (1) 1% of final average earnings times years and completed months of credited service through December 31, 2013, plus 1/2% of final average earnings in excess of covered compensation times years and completed months of credited service through December 31, 2013; plus
- (2) 1/3% of final average earnings times years and completed months of credited service after December 31, 2013, plus 1/6% of final average earnings in excess of covered compensation times years and completed months of credited service after December 31, 2013.

For participants of the plan who were employees of the former DuPont Protein Technologies and classified as "administrative, sales or clerical" as of April 1, 2003, all service credited before April 1, 2003, continues to count toward credited service and credited service for vesting under the Solae Pension Plan. Participants in this category will receive a retirement benefit equal to the greater of the retirement benefit under the new formula above or the old administrative formula described as follows:

Schedule SB Attachment (Form 5500) — 2024 Plan Year
Pension and Retirement Plan
EIN: 51-0014090 PN: 001

Retirement (Age 65) Benefit — Old Administrative Formula

(1) Final Average Pay Benefit

The amount of benefit is the sum of (a) and (b), but not less than (c):

- (a) 1.5% of final average pay multiplied by service through December 31, 2013 (maximum 40 years) less 50% of the estimated Social Security benefit multiplied by actual service through December 31, 2013 divided by the greater of 30 or service at 65.
- (b) 0.5% of final average pay multiplied by service after December 31, 2013 (maximum 40 years) less 16.67% of the estimated Social Security benefit multiplied by service after December 31, 2013 divided by the greater of 30 or service at 65.
- (c) 1.25% of final average pay not in excess of \$15,000 multiplied by service through December 31, 2013 (maximum 40 years), plus 5/12% of final average pay not in excess of \$15,000 multiplied by service (maximum 40 years) after December 31, 2013.

To the extent any participant exceeds the 40-year service limitation, the service will be capped as required in the post-2013 accrual formulas.

(2) Grandfathered Minimum Benefit

1972 Prior Plan — Members on December 31, 1972 will receive minimum of 1972 prior plan formula accrued to termination assuming continuation of 1972 earnings.

For participants of the plan who were employees of the former DuPont Protein Technologies and classified as “production” as of May 31, 2003, all service credited before May 31, 2003, continues to count toward credited service and credited service for vesting under the Solae Pension Plan. Participants in this category will receive a retirement benefit equal to the greater of the retirement benefit under the new formula above or the accrued benefit as of May 31, 2003 under the old production formula described as follows:

Schedule SB Attachment (Form 5500) — 2024 Plan Year
Pension and Retirement Plan
EIN: 51-0014090 PN: 001

Accrued Normal Retirement as of May 31, 2003 (payable at age 65) — Production Employees

The amount of benefit is equal to the sum of (1), (2), and (3):

- (1) The 1972 accrued benefit.
- (2) The greater of (a) or (b):
 - (a) 1% of final five-year average earnings from January 1, 1984 through December 31, 1988 multiplied by credited service through December 31, 1988; or
 - (b) 1.25% of annual earnings for each plan year of credited service subsequent to December 31, 1973 through December 31, 1988.
- (3) 1.25% of annual earnings for each plan year of credited service subsequent to December 31, 1988 through May 31, 2003

For participants who participated in the Central Soya Retirement Plan immediately before becoming a participant in the Solae Pension Plan on April 1, 2003, service credited under the Central Soya Retirement Plan as of April 1, 2003, counts toward credited service and credited service for vesting under the Solae Pension Plan. The Solae Pension Plan retirement benefit will be reduced the life equivalent of the age 65 accrued benefit payable under the Central Soya Retirement Plan.

For participants who participated in the Central Soya Pension Plan for Hourly Employees immediately before becoming a participant in the Solae Pension Plan on April 1, 2003, service credited under the Central Soya Pension Plan for Hourly Employees counts toward credited service for vesting under the Solae Pension Plan. The Solae Pension Plan retirement benefit will be based only on service in the Solae Pension Plan on or after April 1, 2003.

Early Retirement Benefits

Eligibility

A participant is eligible for early retirement upon attainment of age 55 and two years of credited service for vesting.

Benefit

The early retirement benefit is the accrued benefit unreduced at age 62, reduced by 5/12% per month between commencement and age 62.

Schedule SB Attachment (Form 5500) — 2024 Plan Year
Pension and Retirement Plan
EIN: 51-0014090 PN: 001

Postponed Retirement Benefit

The postponed retirement benefit is the same as the normal retirement benefit with continued accruals beyond normal retirement date.

Termination of Employment Benefits

The participant's accrued benefit is fully vested upon the earliest of: (1) five years of credited service for vesting, (2) attainment of age 55 with at least two years of credited service for vesting, and (3) attainment of age 65. Benefits commencing after age 55 and before age 65 are reduced by 5/12% per month between commencement and age 65.

Normal Form of Benefit

Life annuity; if married, 50% joint and survivor annuity that is the actuarial equivalent to the life annuity.

Disability Benefits

Eligibility

Total and permanent disability is determined by a company appointed physician.

Disability Retirement will not be available to participants whose disability commences on or after January 1, 2015.

Amount of Benefit

The disability benefit gives continued accruals assuming continuation of current earnings to the earlier of recovery and normal retirement date. The Social Security benefit is determined at the date of disability.

Death Benefits

Death Prior to Termination

- (1) If married for at least one year at the time of death and participant dies before age 55 with at least 10 years of credited service for vesting.

Amount of Benefit

Spouse will receive the greater of 40% of the accrued benefit or \$300 per year.

- (2) If married for at least one year at the time of death and participant dies on or after age 55 with at least two years of credited service for vesting.

Amount of Benefit

Spouse will receive the greater of 50% of the accrued benefit or \$300 per year.

EIN: 51-0014090 PN: 001

- (3) If married for at least one year at the time of death and participant dies before age 55 with less than 10 years of credited service for vesting.

Amount of Benefit

Spouse will receive a surviving spouse's death benefit equal to 50% of the amount the participant would have received had the participant terminated employment on date of death, survived to age 55, retired on that date and elected to receive benefits in the form of a 50% joint and survivor option.

Death After Termination

Eligibility

Participant married for at least one year at the time of death and participant dies after termination with a vested right prior to receiving benefits before age 55.

Amount of Benefit

Spouse will receive a surviving spouse's death benefit equal to 50% of the amount the participant would have received had the participant elected to retire at age 55 (or, if later, to retire on the first day of the month following participant's date of death) and elected to receive benefits in the form of a 50% joint and survivor option. This surviving spouse's death benefit will begin on the first day of the month following the date the participant attained age 55 (or, if later, on the first day of the month following participant's death) and will continue until spouse's death.

Employee Contributions

No employee contributions have been required in this plan.

Plan Changes Since January 1, 2019

The following plan changes have been adopted since January 1, 2019:

- A retiree annuity purchase was executed in September 2021, which included participants under Title I, III, and IV with a monthly annuity of \$400 or less and no contingent survivor benefits. The annuity payments were taken over by an insurer in December 2021 or January 2022 depending on the payment timing of each respective title. No future benefits are due to these participants from the Pension & Retirement Plan effective with this annuity purchase.
- An annuity purchase was executed in August 2022, which included certain participants under Title I, III, and IV. The annuity payments were taken over by an insurer in December 2022 or January 2023 depending on the payment timing of each respective title. No future benefits are due to these participants from the Pension & Retirement Plan effective with this annuity purchase.
- A retiree annuity purchase was executed in October 2023, which included certain participants under Title I, III, and IV. The annuity payments were taken over by an insurer in December 2023 or January 2024 depending on the payment timing of each respective title. No future benefits are due to these participants from the Pension & Retirement Plan effective with this annuity purchase.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

Under the American Rescue Plan Act of 2021 (ARPA), the stabilized interest rates for certain purposes will be adjusted once the ARPA stabilization is applied. By default, this stabilization would have applied starting with the 2020 plan year. On November 15, 2021, Corteva made an election to:

- First apply the alternative interest rates for minimum funding for the 2021 plan year, and
- First apply the 15-year amortization period for the 2021 plan year.

As a result, this Schedule SB reflects stabilized 2024 minimum funding interest rates under ARPA.

Schedule SB, line 24 — Change in Actuarial Assumptions

The ERISA funding valuation reflects the following assumption changes:

- A change in the interest rate assumption from segment rates with a four-month lookback as of September 2022 to segment rates with a four-month lookback as of September 2023, each adjusted as needed to fall within the 25-year interest rate stabilization corridor under ARPA.
- A change in the mortality assumption from the 2023 static mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(e) and IRS Notice 2020-85 to the 2024 generational mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(a)(3) and IRS Notice 2023-73.
- A change in the applicable expected rate of return on assets from 5.74% for the 2023 plan year to 5.59% for the 2024 plan year.

These changes were made to better reflect the anticipated plan experience. All assumption changes to non-prescribed assumptions did not reduce the funding shortfall by an amount requiring approval of the Commissioner.

Schedule SB, line 32 — Schedule of Amortization Bases

Type of Base	Present Value of Installment	Date Established	Years Remaining	Amortization Installment
Shortfall	\$ 1,796,574,435	January 1, 2021	12	\$ 191,667,860
Shortfall	\$ (1,102,259,632)	January 1, 2022	13	\$ (110,907,480)
Shortfall	\$ 1,021,431,037	January 1, 2023	14	\$ 97,488,214
Shortfall	\$ 34,700,897	January 1, 2024	15	\$ 3,157,099

Under the American Rescue Plan Act of 2021 (ARPA), the shortfall relief eliminates the existing shortfall amortization bases and changes the amortization period. By default, this relief would have applied starting with the 2022 plan year. On November 15, 2021, Corteva made an election to first apply the 15-year amortization period for the 2021 plan year.

As a result, this Schedule SB reflects the ARPA shortfall relief effective with the 2021 plan year.

Schedule SB, line 22 — Description of Weighted Average Retirement Age

The average retirement age shown in line 22 has been calculated by assuming the following retirement rates and no decrements other than retirement for this calculation. All retirements are assumed to occur at mid-year, except for the 100% retirement age. This calculation has been shown separately for each Title within the Plan. These separate ages are then averaged to derive the amount shown on line 22.

The weighted average retirement age for the total plan is **age 61**.

Schedule SB, Part V — Summary of Plan Provisions

Title I (Parent, Caribe)

Effective Date

Originally adopted on September 1, 1904.

Last restated on December 16, 2015.

Eligibility

Employees hired by the Company on or before December 31, 2006.

Effective January 1, 2007, the Plan is closed to new entrants. Rehires after this date will not earn additional benefits.

Benefit Sunset Date

Benefit service and pensionable pay were frozen effective November 30, 2018.

Normal Retirement (Section IV)

Eligibility

Age 65 with at least 15 years of service.

Benefit

The greatest of (1), (2), and (3):

(1) The sum of (a) and (b):

(a) 1.2% of Average Monthly Pay multiplied by years of service through December 31, 2007.

(b) 0.4% of Average Monthly Pay multiplied by years of service after December 31, 2007.

(2) The sum of (a) and (b):

(a) 1.5% of Average Monthly Pay multiplied by years of service through December 31, 2007, minus 50% of the Primary Social Security Benefit multiplied by the ratio of service through December 31, 2007 over total service.

(b) 0.5% of Average Monthly Pay multiplied by years of service since December 31, 2007, minus 16.67% of the Primary Social Security Benefit multiplied by the ratio of service after December 31, 2007 over total service.

(3) \$9 per month multiplied by years of service through December 31, 2007, plus 10% of Average Monthly Pay at December 31, 2007.

Schedule SB Attachment (Form 5500) — 2024 Plan Year
Pension and Retirement Plan
EIN: 51-0014090 PN: 001

The amount determined under (1) or (2) above may not be greater than an amount which, when added to the participant's Primary Social Security Benefit, will equal 100% of Average Monthly Pay.

Early Retirement (Section IV)

Eligibility

Age 50 with at least 15 years of service.

Benefit

Section IV Normal Retirement benefit reduced by 5/12 of 1% for each month that a participant's "age plus service" points are less than 85. Service used for this calculation cannot be less than 20 years and cannot be greater than 27 years.

Normal Retirement benefit cannot be reduced by more than 50%.

Incapability Retirement (Section IV)

Eligibility

Employee has 15 years of service and becomes permanently incapable of performing the duties of his position with the degree of efficiency required by the Company.

Incapability Retirement will not be available to participants whose incapability commences on or after January 1, 2015.

Primary Benefit

Determined in same manner as Section IV Normal Retirement benefit.

Supplemental Benefit

Monthly benefit equal to the greater of (1) and (2):

(1) 50% of Primary Social Security Benefit.

(2) \$90 per month.

The supplement is payable until the earliest date on which the participant becomes eligible for an old-age benefit or receives a disability benefit under the Federal Social Security Act.

Optional Retirement (Section IV)

Eligibility

Age 50 with at least 15 years of service and participant's employment would otherwise be involuntarily terminated for reasons other than discharge for dishonesty, insubordination, or other misconduct.

Schedule SB Attachment (Form 5500) — 2024 Plan Year
Pension and Retirement Plan
EIN: 51-0014090 PN: 001

Age 45 with at least 25 years of service, with 25 years of service adjusted downward by two months for each one month of age past 45, and participant's employment would be involuntarily terminated due to lack of work.

Some exceptions apply in the case of certain corporate transactions (i.e., sale of Company, formation of joint venture, transfer to subsidiary).

Benefit

Section IV Normal Retirement benefit reduced by 5/12 of 1% for each month by which the month of the participant's retirement precedes the earliest month in which, with continued employment, he would have become eligible for an unreduced pension under Normal or Early Retirement.

This benefit is not explicitly included in the valuation due to the subjective and unpredictable nature of the eligibility provisions related to individual employment circumstances.

Deferred Pension (Section V)

Eligibility

Five years of service and terminated for reasons other than retirement.

Benefit

The greatest of (1), (2), and (3):

(1) The sum of (a) and (b):

(a) 1.2% of Average Monthly Pay multiplied by years of service through December 31, 2007.

(b) 0.4% of Average Monthly Pay multiplied by years of service after December 31, 2007.

(2) The sum of (a) and (b):

(a) 1.5% of Average Monthly Pay multiplied by years of service through December 31, 2007, minus 50% of the Primary Social Security Benefit multiplied by the ratio of service through December 31, 2007 over total service.

(b) 0.5% of Average Monthly Pay multiplied by years of service since December 31, 2007, minus 16.67% of the Primary Social Security Benefit multiplied by the ratio of service after December 31, 2007 over total service.

Schedule SB Attachment (Form 5500) — 2024 Plan Year
Pension and Retirement Plan
EIN: 51-0014090 PN: 001

- (3) \$9 per month multiplied by years of service through December 31, 2007, plus 0.67% times Average Monthly Pay at December 31, 2007 times years of service at December 31, 2007, where service is less than 15 years.

The amount determined under (1) or (2) above may not be greater than an amount which, when added to the Participant's Primary Social Security Benefit, will equal 100% of Average Monthly Pay.

Deferred Pension (Section VI)

Benefit

Benefits are unreduced at age 65 and over. Benefits are reduced by 5/12 of 1% for each month by which the month of the participant's retirement precedes the earliest month in which, with continued employment, he would have become eligible for an unreduced pension.

- Employees with less than 10 years of service are not eligible for any benefit until age 65.
- Employees with 10 – 14 years of service are eligible for reduced benefits at age 60 and unreduced benefits at age 65.
- Employees with 15 – 29 years of service are eligible for reduced benefits at age 50 and unreduced benefits at age 65.
- Employees with 30+ years of service are eligible for reduced benefits at age 50 and unreduced benefits at age 60.

Company-Paid Survivor Benefit

Eligibility

The surviving spouse of any active, retired, or transferred employee with at least 15 years of service upon death.

Benefit

The monthly benefit is equal to the greater of (1) and (2):

- (1) 0.5% of the deceased employee's Average Monthly Pay at December 31, 2007 multiplied by years of service through December 31, 2007.
- (2) \$4 per month multiplied by years of service through December 31, 2007, plus 4% of Average Monthly Pay at December 31, 2007.

Benefit is reduced for Early Retirement and Optional Retirement, and spouse age differences (if spouse is at least five years younger).

Pension and Retirement Plan
EIN: 51-0014090 PN: 001

Other Spousal Coverage

Eligibility

The surviving spouse of an active employee with at least five but less than 15 years of service upon death.

Benefit

The early retirement benefit the spouse would have received had the participant terminated immediately prior to death with benefit payable as a reduced 50% Joint and Survivor annuity basis beginning on or after the participant's early retirement eligibility.

All other survivor benefits are equal to the minimum required under ERISA.

Normal Form of Payment

Single Employee

Life Annuity.

Married Employee

Actuarially reduced Joint and 50% Survivor Annuity.

Optional Forms of Payment

Income-leveling option for Section IV retirements before age 62.

Survivor component of the Joint and Survivor options may be increased by a percentage through an adjustment to the benefit payable to the employee. For certain retirees, additional increments of 10% are available through similar adjustments.

A Joint and 75% Survivor Annuity is also available.

No election of additional 10% increments or 75% survivor benefits are assumed in the valuation.

Definitions

Average Monthly Pay

The greater of (1) and (2):

- (1) The highest average monthly Pay for 36 consecutive calendar months.
- (2) The highest average Pay per month based on total Pay over calendar years and fraction of total Pay for calendar years if necessary, to obtain in aggregate, three full years of Pay. The highest paid years should be selected for calculation.

Company

E. I. du Pont de Nemours and Company and/or any wholly owned subsidiary or part thereof which adopts this Plan.

Pay

Total compensation received by a participant. However, Pay excludes transfer allowances, severance, certain stock compensation and other special payments.

Primary Social Security Benefit

Age 62 (if younger than 62) or immediate monthly amount as determined under the Social Security Act in effect on January 1 of the year an employee retires or terminates employment based on actual earnings on which the Company has paid taxes under the Federal Insurance Contributions Act.

Service

Length in years and fractions of a year of an employee's period of employment.

For deferred benefit eligibility conditions, an employee accrues service for computation periods where he works at least 1,000 hours. Employee will not incur breaks in service if he works more than 500 hours in a computation period. Employee will be awarded with up to 501 hours of service in a computation period to avoid a break in service.

Early Retirement

Eligibility

Age 55 and five Years of Service.

Benefit

The benefit is the greatest of (1), (2), and (3), but not less than (4):

- (1) Benefit is calculated as in Normal Retirement Section (1). However, Credited Service under this benefit, unless otherwise specified, is calculated as if the Participant continues employment until Normal Retirement. The amount in the preceding is then multiplied by the ratio of Credited Service at Early Retirement and Credited Service that the Participant would have earned if they continued employment to Normal Retirement.
- (2) Benefit is calculated as in Normal Retirement Section (2). However, Credited Service under this benefit, unless otherwise specified, is calculated as if the Participant continues employment until Normal Retirement.
- (3) Benefit is calculated as in Normal Retirement Section (3). However, Credited Service under this benefit, unless otherwise specified, is calculated as if the Participant continues employment until Normal Retirement. The amount in the preceding is then multiplied by the ratio of Credited Service at December 31, 1988 and Credited Service that the Participant would have earned if they continued employment to Normal Retirement.
- (4) See Normal Retirement Section (4).

For participants with less than 30 Years of Service at Early Retirement, benefits are reduced 1/180 for each of the first 60 months prior to Normal Retirement age and reduced 1/360 for each of the next 60 months that precede Normal Retirement age.

Background

The Solae Pension Plan (Plan) was formerly known as the Protein Technologies International Retirement Plan. The Protein Technologies International Retirement Plan was adopted effective December 3, 1997, upon the acquisition of Protein Technologies International (PTI) by DuPont from Ralston Purina. Employees of PTI who had service in the Ralston Purina Plan were credited with service under the Protein Technologies International Retirement Plan. Protein Technologies International later became known as DuPont Protein Technologies. Effective with the conversion of DuPont Protein Technologies to Solae, LLC on April 1, 2003, the plan was amended and renamed the Solae Pension Plan. Bunge became a member of Solae, LLC and designated former employees of Central Soya (which was owned by Bunge) became participants in the plan on April 1, 2003. For the former employees of Central Soya, service will be credited in accordance with the terms of the plan.

Eligibility

The Solae Pension Plan is available to all full-time and part-time employees hired before January 1, 2013. Temporary employees and leased employees are not eligible. Each employee shall become a participant of the plan after one year of service with the company.

The plan was closed on January 1, 2013. Rehires and transfers after this date are not eligible for additional benefits.

Benefit Sunset Date

Benefit service and pensionable pay were frozen effective November 30, 2018.

Credited Service

An employee's entire period of service (in years and completed months) including service recognized under the Ralston Purina Retirement Plan on December 3, 1997, or the Central Soya Retirement Plan on April 1, 2003. It does not include service recognized under the Central Soya Pension Plan for Hourly Employees as of April 1, 2003.

Credited Service for Vesting

The same as credited service but also includes service recognized under the Central Soya Pension Plan for Hourly Employees as of April 1, 2003.

Pension Earnings

Annual pension earnings include regular pay, overtime pay, vacation pay, and specific types of Solae annual incentive pay items designated as a "special bonus" or designated long-term incentive compensation (or the former PTI President's Incentive company component) are not included.

Final Average Earnings

The average of the five highest consecutive years of a member's annual pension earnings during the last 10 years of employment.

Social Security Taxable Wage Base (SSWB)

The maximum amount of wages subject to Social Security tax (OASDI).

Covered Compensation

The average of SSWB in effect in each of the last 35 years prior to Social Security retirement age.

Normal Retirement Age

Age 65.

Retirement (Age 65) Benefit New Formula

Equal the sum of (1) plus (2):

- (1) 1% of final average earnings times years and completed months of credited service through December 31, 2013, plus 1/2% of final average earnings in excess of covered compensation times years and completed months of credited service through December 31, 2013; plus
- (2) 1/3% of final average earnings times years and completed months of credited service after December 31, 2013, plus 1/6% of final average earnings in excess of covered compensation times years and completed months of credited service after December 31, 2013.

For participants of the plan who were employees of the former DuPont Protein Technologies and classified as "administrative, sales or clerical" as of April 1, 2003, all service credited before April 1, 2003, continues to count toward credited service and credited service for vesting under the Solae Pension Plan. Participants in this category will receive a retirement benefit equal to the greater of the retirement benefit under the new formula above or the old administrative formula described as follows:

Retirement (Age 65) Benefit — Old Administrative Formula

(1) Final Average Pay Benefit

The amount of benefit is the sum of (a) and (b), but not less than (c):

- (a) 1.5% of final average pay multiplied by service through December 31, 2013 (maximum 40 years) less 50% of the estimated Social Security benefit multiplied by actual service through December 31, 2013 divided by the greater of 30 or service at 65.
- (b) 0.5% of final average pay multiplied by service after December 31, 2013 (maximum 40 years) less 16.67% of the estimated Social Security benefit multiplied by service after December 31, 2013 divided by the greater of 30 or service at 65.
- (c) 1.25% of final average pay not in excess of \$15,000 multiplied by service through December 31, 2013 (maximum 40 years), plus 5/12% of final average pay not in excess of \$15,000 multiplied by service (maximum 40 years) after December 31, 2013.

To the extent any participant exceeds the 40-year service limitation, the service will be capped as required in the post-2013 accrual formulas.

(2) Grandfathered Minimum Benefit

1972 Prior Plan — Members on December 31, 1972 will receive minimum of 1972 prior plan formula accrued to termination assuming continuation of 1972 earnings.

For participants of the plan who were employees of the former DuPont Protein Technologies and classified as “production” as of May 31, 2003, all service credited before May 31, 2003, continues to count toward credited service and credited service for vesting under the Solae Pension Plan. Participants in this category will receive a retirement benefit equal to the greater of the retirement benefit under the new formula above or the accrued benefit as of May 31, 2003 under the old production formula described as follows:

Schedule SB Attachment (Form 5500) — 2024 Plan Year
Pension and Retirement Plan
EIN: 51-0014090 PN: 001

Accrued Normal Retirement as of May 31, 2003 (payable at age 65) — Production Employees

The amount of benefit is equal to the sum of (1), (2), and (3):

- (1) The 1972 accrued benefit.
- (2) The greater of (a) or (b):
 - (a) 1% of final five-year average earnings from January 1, 1984 through December 31, 1988 multiplied by credited service through December 31, 1988; or
 - (b) 1.25% of annual earnings for each plan year of credited service subsequent to December 31, 1973 through December 31, 1988.
- (3) 1.25% of annual earnings for each plan year of credited service subsequent to December 31, 1988 through May 31, 2003

For participants who participated in the Central Soya Retirement Plan immediately before becoming a participant in the Solae Pension Plan on April 1, 2003, service credited under the Central Soya Retirement Plan as of April 1, 2003, counts toward credited service and credited service for vesting under the Solae Pension Plan. The Solae Pension Plan retirement benefit will be reduced the life equivalent of the age 65 accrued benefit payable under the Central Soya Retirement Plan.

For participants who participated in the Central Soya Pension Plan for Hourly Employees immediately before becoming a participant in the Solae Pension Plan on April 1, 2003, service credited under the Central Soya Pension Plan for Hourly Employees counts toward credited service for vesting under the Solae Pension Plan. The Solae Pension Plan retirement benefit will be based only on service in the Solae Pension Plan on or after April 1, 2003.

Early Retirement Benefits

Eligibility

A participant is eligible for early retirement upon attainment of age 55 and two years of credited service for vesting.

Benefit

The early retirement benefit is the accrued benefit unreduced at age 62, reduced by 5/12% per month between commencement and age 62.

Schedule SB Attachment (Form 5500) — 2024 Plan Year
Pension and Retirement Plan
EIN: 51-0014090 PN: 001

Postponed Retirement Benefit

The postponed retirement benefit is the same as the normal retirement benefit with continued accruals beyond normal retirement date.

Termination of Employment Benefits

The participant's accrued benefit is fully vested upon the earliest of: (1) five years of credited service for vesting, (2) attainment of age 55 with at least two years of credited service for vesting, and (3) attainment of age 65. Benefits commencing after age 55 and before age 65 are reduced by 5/12% per month between commencement and age 65.

Normal Form of Benefit

Life annuity; if married, 50% joint and survivor annuity that is the actuarial equivalent to the life annuity.

Disability Benefits

Eligibility

Total and permanent disability is determined by a company appointed physician.

Disability Retirement will not be available to participants whose disability commences on or after January 1, 2015.

Amount of Benefit

The disability benefit gives continued accruals assuming continuation of current earnings to the earlier of recovery and normal retirement date. The Social Security benefit is determined at the date of disability.

Death Benefits

Death Prior to Termination

- (1) If married for at least one year at the time of death and participant dies before age 55 with at least 10 years of credited service for vesting.

Amount of Benefit

Spouse will receive the greater of 40% of the accrued benefit or \$300 per year.

- (2) If married for at least one year at the time of death and participant dies on or after age 55 with at least two years of credited service for vesting.

Amount of Benefit

Spouse will receive the greater of 50% of the accrued benefit or \$300 per year.

EIN: 51-0014090 PN: 001

- (3) If married for at least one year at the time of death and participant dies before age 55 with less than 10 years of credited service for vesting.

Amount of Benefit

Spouse will receive a surviving spouse's death benefit equal to 50% of the amount the participant would have received had the participant terminated employment on date of death, survived to age 55, retired on that date and elected to receive benefits in the form of a 50% joint and survivor option.

Death After Termination

Eligibility

Participant married for at least one year at the time of death and participant dies after termination with a vested right prior to receiving benefits before age 55.

Amount of Benefit

Spouse will receive a surviving spouse's death benefit equal to 50% of the amount the participant would have received had the participant elected to retire at age 55 (or, if later, to retire on the first day of the month following participant's date of death) and elected to receive benefits in the form of a 50% joint and survivor option. This surviving spouse's death benefit will begin on the first day of the month following the date the participant attained age 55 (or, if later, on the first day of the month following participant's death) and will continue until spouse's death.

Employee Contributions

No employee contributions have been required in this plan.

Plan Changes Since January 1, 2019

The following plan changes have been adopted since January 1, 2019:

- A retiree annuity purchase was executed in September 2021, which included participants under Title I, III, and IV with a monthly annuity of \$400 or less and no contingent survivor benefits. The annuity payments were taken over by an insurer in December 2021 or January 2022 depending on the payment timing of each respective title. No future benefits are due to these participants from the Pension & Retirement Plan effective with this annuity purchase.
- An annuity purchase was executed in August 2022, which included certain participants under Title I, III, and IV. The annuity payments were taken over by an insurer in December 2022 or January 2023 depending on the payment timing of each respective title. No future benefits are due to these participants from the Pension & Retirement Plan effective with this annuity purchase.
- A retiree annuity purchase was executed in October 2023, which included certain participants under Title I, III, and IV. The annuity payments were taken over by an insurer in December 2023 or January 2024 depending on the payment timing of each respective title. No future benefits are due to these participants from the Pension & Retirement Plan effective with this annuity purchase.

Under the American Rescue Plan Act of 2021 (ARPA), the stabilized interest rates for certain purposes will be adjusted once the ARPA stabilization is applied. By default, this stabilization would have applied starting with the 2020 plan year. On November 15, 2021, Corteva made an election to:

- First apply the alternative interest rates for minimum funding for the 2021 plan year, and
- First apply the 15-year amortization period for the 2021 plan year.

As a result, this Schedule SB reflects stabilized 2024 minimum funding interest rates under ARPA.

Schedule SB, line 32 — Schedule of Amortization Bases

Type of Base	Present Value of Installment	Date Established	Years Remaining	Amortization Installment
Shortfall	\$ 1,796,574,435	January 1, 2021	12	\$ 191,667,860
Shortfall	\$ (1,102,259,632)	January 1, 2022	13	\$ (110,907,480)
Shortfall	\$ 1,021,431,037	January 1, 2023	14	\$ 97,488,214
Shortfall	\$ 34,700,897	January 1, 2024	15	\$ 3,157,099

Under the American Rescue Plan Act of 2021 (ARPA), the shortfall relief eliminates the existing shortfall amortization bases and changes the amortization period. By default, this relief would have applied starting with the 2022 plan year. On November 15, 2021, Corteva made an election to first apply the 15-year amortization period for the 2021 plan year.

As a result, this Schedule SB reflects the ARPA shortfall relief effective with the 2021 plan year.

Schedule SB, line 24 — Change in Actuarial Assumptions

The ERISA funding valuation reflects the following assumption changes:

- A change in the interest rate assumption from segment rates with a four-month lookback as of September 2022 to segment rates with a four-month lookback as of September 2023, each adjusted as needed to fall within the 25-year interest rate stabilization corridor under ARPA.
- A change in the mortality assumption from the 2023 static mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(e) and IRS Notice 2020-85 to the 2024 generational mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(a)(3) and IRS Notice 2023-73.
- A change in the applicable expected rate of return on assets from 5.74% for the 2023 plan year to 5.59% for the 2024 plan year.

These changes were made to better reflect the anticipated plan experience. All assumption changes to non-prescribed assumptions did not reduce the funding shortfall by an amount requiring approval of the Commissioner.
