## Independent Auditors' Report

The Arkema Inc. 401(k) Plan Committee  
King of Prussia, Pennsylvania

### *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit*

We have performed audits of the financial statements of Arkema Inc. Employees' Retirement Savings 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

### *Opinion*

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditors' Responsibilities for the Audit of the Financial Statements***

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Other Matter – Supplemental Schedule Required by ERISA***

The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Automatically enrolled participants have their deferral rate set at 5% of eligible compensation and their contributions invested in a target date retirement fund based on the participants' dates of birth until changed by the participants. On April 1 of each year, each Participant shall be considered as having elected to increase by 1% up to a maximum of 10%. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company contributes 100% of the first 3% of the employee's eligible compensation contributed to the Plan, and 50% of the next 2% of the employee's eligible compensation contributed to the Plan.

Interest rates on outstanding loans as of December 31, 2024 range from 4.25% to 9.50%. Principal and interest are paid ratably through payroll deductions.

#### *Payment of Benefits*

Upon termination of employment with the Company, participants are eligible for a benefit equal to the vested value of their account balance. Distributions to terminated participants must begin no later than April 1 of the calendar year after a participant attains the age of 73. Subject to certain restrictions, taxes and penalties, participants may withdraw the value of their investments while an active employee of the Company. Participants have the option to receive benefit payments in either a lump sum payment or in installment payments for a period not to exceed twenty years.

#### *Forfeited Amounts*

At December 31, 2024 and 2023, forfeited nonvested accounts totaled \$18,799 and \$17,815, respectively. These accounts may be used to pay plan expenses and to reduce future employer contributions. During 2024, employer contributions were reduced by \$1,251,000 from forfeited nonvested accounts.

### (2) Summary of Significant Accounting Principles

#### *Basis of Accounting*

The financial statements of the Plan are prepared on the accrual basis of accounting.

#### *Use of Estimates*

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

#### (2) Summary of Significant Accounting Principles, Continued

##### *Investment Valuation and Income Recognition*

The Plan's investments are reported at fair value, except for the investment in the Arkema Separate Account Master Trust (Arkema Master Trust) which invests in fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by the investment adviser, trustee and insurance companies. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

##### *Notes Receivable from Participants*

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as they are incurred. Delinquent loans are treated as distributions based upon the terms of the plan document.

##### *Contributions*

Contributions from plan participants and the matching contributions from the Company are recorded in the year in which the employee contributions are withheld from compensation.

##### *Payment of Benefits*

Benefits are recorded when paid.

##### *Administrative Expenses*

Certain expenses related to the administration of the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participants' account and are included in administrative expenses. Certain investment related expenses are included in net appreciation in fair value of investments.

##### *Subsequent Events*

The Plan has evaluated subsequent events through October 7, 2025, the date the financial statements were available to be issued.

#### (3) Certified Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2024 and 2023, and net appreciation in fair value of investments, plan interest in the Arkema Separate Account Master Trust investment income interest and dividends, other income and interest income on notes receivable from participants for the year ending December 31, 2024, was obtained by management and agreed to or derived from the information certified as complete and accurate by Fidelity Management Trust Company (Fidelity), a qualified institution.

#### (4) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

#### (4) Fair Value Measurements, Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

*Money market fund and registered investment companies:* Valued at the daily closing price as reported by the fund. Funds held by the Plan are open end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Brokerage account:* Valued at the closing price reported on the active market on which the individual securities are traded. The Brokerage Link Fund is offered to participants as an investment option, and allows participants to direct contributed funds to the purchase of other marketable securities that are not necessarily offered by the Plan. Investments included within the brokerage accounts are registered investment companies, common and preferred stock.

*Common collective trusts:* Valued at the NAV of units of a trust company collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The table below represents the balances measured at fair value on the recurring basis by level within the hierarchy as of December 31, 2024 and 2023:

Description	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total

Certain investments that are measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line item presented in the statements of net assets available for benefits.

There were no significant transfers among investment levels during the years ended December 31, 2024 and 2023.

The following table summarizes investments measured at fair value based on the NAV per share as a practical expedient as of December 31, 2024 and 2023:

#### (5) Investment in the Arkema Separate Account Master Trust

One Plan investment asset, the Fidelity Fixed Income Fund, was combined with the assets of other plans under common control through Arkema and invested in a master trust investment account in the Arkema Master Trust. The trustee of the Arkema Master Trust is Fidelity and the only asset held is the Fidelity Fixed Income Fund.

Use of the Arkema Master Trust permits the commingling of trust assets for investment and administrative purposes. Although assets of these plans were commingled in the Arkema Master Trust, the trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income (loss) of the investment assets is allocated by the trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

At December 31, 2024 and 2023, net assets held in the Arkema Master Trust include the following:

	2024		2023	
	Plan Interest	Total Master Trust	Plan Interest	Total Master Trust
Fully benefit-responsive investment contracts	\$72,736,664	\$77,612,934	\$83,766,589	\$90,136,806
Interest-bearing cash	766,319	817,693	1,669,334	1,796,282
Pending settlements	-	-	12,098	13,018
Accrued income	2	2	8	9
Accrued fees	(18,337)	(19,567)	(21,531)	(23,168)
Other liabilities	(168,648)	(179,954)	(381,814)	(410,850)
	<u>\$73,316,000</u>	<u>\$78,231,108</u>	<u>\$85,044,684</u>	<u>\$91,512,097</u>

The Plan's interest in the Arkema Master Trust investment income for the year ended December 31, 2024 is as follows:

	Plan Interest	Total Master Trust
Interest income	\$ 1,657,788	\$ 1,783,572

#### (6) Investment Contract with Insurance Company

The Plan invests in benefit-responsive investment contracts with various insurance companies maintained in the Fidelity Fixed Income Fund. This fund contains investment contracts with various insurance companies and comprises primarily benefit-responsive investment contracts. Fidelity maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuers are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

### Notes to Financial Statements

December 31, 2024 and 2023

---

#### **(6) Investment Contract with Insurance Company, Continued**

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuers. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuers. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contracts do not permit the insurance companies to terminate the agreement prior to the scheduled maturity dates.

#### **(7) Related Party Transactions and Party-In-Interest Transactions**

Certain plan investments are managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments.

Under an agreement negotiated with Fidelity, the Plan is a beneficiary of a reduction of a portion of the Plan's mutual fund management fees, which are rebated to the Plan. The allowance is deposited in a Revenue Credit Program Account maintained by the Plan. During 2024, the rebate income received by the Plan amounted to \$192,824 and is recorded in other income. Rebate income of \$210,734 was used to pay plan expenses during 2024 as permitted by the plan document.

Additionally, in December 2024, \$118,233 of fees were refunded to participants by the trustee.

#### **(8) Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate or amend the Plan subject to the provisions of ERISA. In the event of termination or partial termination, participants would become 100% vested in their employer contributions.

#### **(9) Tax Status**

The IRS has determined and informed the Company by a letter dated May 25, 2017, that the Plan is designed in accordance with applicable sections of the IRC. Although the plan has been amended since receipt of this letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provision of the IRC, and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

#### **(10) Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of assets available for benefits.
