Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **MELTON & MELTON, LLP**

(2) EIN: **74-1550819**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		30000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)		☒	
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		☒	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		☒	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

INDEPENDENT AUDITOR'S REPORT

To the Investment Committee of
Huntsman Defined Benefit Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Huntsman Defined Benefit Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Huntsman Defined Benefit Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Huntsman Defined Benefit Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Huntsman Defined Benefit Pension Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Huntsman Defined Benefit Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Huntsman Defined Benefit Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

HUNTSMAN DEFINED BENEFIT PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Huntsman Defined Benefit Pension Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a noncontributory defined benefit pension plan with a cash balance feature covering non-bargaining employees of Huntsman International LLC (the “Company”), unless participation is provided under a collective bargaining agreement. Participating employers are Huntsman International LLC; Huntsman Purchasing, Ltd.; Huntsman Petrochemical LLC; Huntsman Advanced Materials Americas LLC; and Huntsman Ethyleneamines LLC (collectively, the “Employer”).

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The trustee and custodian for the Plan is The Northern Trust Company (NTC). SEI Private Trust Company (SEI) through NTC is the custodian of the SEI Structured Credit Collective Fund. Investment advisory services are performed by Goldman Sachs Asset Management, L.P. Willis Towers Watson is the Plan’s actuary, and a committee appointed by the Board of Directors of the Company is the Plan’s administrator.

No employee hired, or rehired subject to Plan provisions, on or after July 1, 2014 shall be an eligible employee other than an employee who is included in a unit of employees covered by a collective bargaining agreement, which provides for coverage under the Plan. Effective April 1, 2015, an employee hired or last rehired on or after April 1, 2015, subject to a collective bargaining agreement, shall not be an eligible employee and shall not be eligible to participate in the Plan other than an employee reemployed following qualified military service.

Pension Benefits

Participants terminated prior to January 1, 2008 with five or more years of service in the Plan are entitled to monthly pension benefits upon termination or normal retirement at age 65 equal to the amount in their cash balance account. Effective January 1, 2008, the years of service requirement was amended from five years to three years. A participant’s cash balance account increases, annually, for pay credits, transition credits, and interest credits, as applicable. Pay and transition credits are based on a participant’s compensation, age, and years of service and are applied at the end of each year. Transition credits are limited to participants with cash account balances at July 1, 2004 and to their number of years of service prior to July 1, 2004, up to five years. Interest credits are determined by multiplying the participant’s cash balance account at the beginning of the plan year by the applicable interest-crediting rate, which is the greater of the 30-year U.S. Treasury yield for the prior November or 5%.

The Plan permits early retirement for participants with ten years of service and the attainment of age 55 or the sum of their years of service and age equaling at least 80 and the attainment of age 50. These participants will receive the amount in their cash balance account at their early retirement date. For early retirement annuities, a social security supplement amount is added. The supplement amount is determined by multiplying the participant’s years of service by \$25, not to exceed \$750, for single life annuities or an actuarial calculation for all other annuities.

HUNTSMAN DEFINED BENEFIT PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Benefits are payable in the form of a single lump sum, single life annuity, life and ten-year certain annuity, or joint and survivor annuity. If participants terminate before rendering three years of service, they forfeit the right to receive their accumulated plan benefits. Certain eligible participants in the Plan have become fully vested due to change in ownership of their employer. In addition, certain participants have been credited with years of service from prior employers.

Death and Disability Benefits

A participant who terminates with three or more years of service due to total and permanent disability may elect to receive a monthly pension benefit in an amount equal to their cash balance account. If a participant dies, monthly pension benefits are payable to the participant's beneficiary subject to certain limitations, as defined in the Plan.

Funding Policy

The Company's funding policy is to make contributions to the Plan that are actuarially determined, such that all employees' benefits will be fully provided for by the time they retire. Employee contributions and rollovers are not allowed. The Plan has met ERISA minimum funding requirements.

Termination

Although it has not expressed the intent to do so, the Company may terminate the Plan subject to the provisions set forth in ERISA. In such event, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding the Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).
- c. All other vested benefits; that is, vested benefits not insured by the PBGC.
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of the individual's monthly benefit.

NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments in the Huntsman International LLC Pension Master Trust (the "Master Trust") are stated at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. The Plan's proportionate interest in the investments of the Master Trust is shown in the statements of net assets available for benefits as Plan interest in the Huntsman International LLC Pension Master Trust (Note 3).

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable to the service employees have rendered under the Plan's provisions. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits for employees are based on their compensation, age, and years of service. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date (as of the beginning of the year).

The actuarial present value of accumulated plan benefits is determined by an independent actuary from Willis Towers Watson and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions underlying the actuarial computations, for the December 31, 2023 and 2022 valuation dates were (a) life expectancy of participants (the PRI-2012 tables with adjustments and blending with Scale MP-2021 with ultimate rate of 0.75% which changed from the PRI-2012 tables without collar or amount adjustments with Scale MP-2021 with ultimate rate of 0.75% used at December 31, 2022), (b) retirement age assumptions (the assumed average retirement age was 61 which changed from 63 at December 31, 2022), and (c) investment return (7.25%). The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

HUNTSMAN DEFINED BENEFIT PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Benefit Payments

Benefit payments are recorded when distributed.

Administrative Expenses

The Plan's expenses are paid either by the Plan or by the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment-related expenses are included in investment income - Plan interest in the Huntsman International LLC Pension Master Trust presented in the accompanying statements of changes in net assets available for benefits.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Accordingly, actual results could differ from those estimates.

Federal Income Taxes

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated August 5, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan to determine if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 3 - INTEREST IN MASTER TRUST

The Plan's investment assets are held in a Master Trust, which was established by the Company. The Master Trust is administered and investments are held by the trustee. Use of the Master Trust permits the commingling of trust assets with the assets of the Plan and several other retirement plans sponsored by Huntsman International LLC and its affiliates, all of which are under common control, for investment and administrative purposes. Although assets of the participating plans are commingled in the Master Trust, the custodian maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income of the investment assets is allocated by the custodian to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

The net assets of the Master Trust available for benefits and the Plan's divided interest are summarized as follows at December 31, 2024 and 2023:

NOTE 3 - INTEREST IN MASTER TRUST (CONTINUED)

Investment income of the Master Trust for the years ended December 31, 2024 and 2023 is summarized as follows:

	<u>2024</u>	<u>2023</u>
Investment income:		
Net appreciation in fair value of investments	\$25,367,397	\$55,711,073

Total investment income	<u>\$37,070,499</u>	<u>\$63,809,085</u>

NOTE 4 - FAIR VALUE MEASUREMENTS

Various inputs are used in determining the fair value of the investments in the Master Trust. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy, including the types of investments in the Master Trust that fall under each category and the valuation methodologies used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Interest-Bearing Cash: Stated at cost, which approximates fair value.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Master Trust are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Master Trust are deemed to be actively traded.

Treasury Bonds: Valued daily using quoted prices reported in actively traded markets. Treasury bonds held by the Master Trust are U.S. Treasury bills and notes of varying maturities that are highly liquid and transparent.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

HUNTSMAN DEFINED BENEFIT PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

Collective Trusts: Valued at NAV as determined by the fair value of the underlying investments held by the trusts less liabilities. Fair value of the underlying investments is based on quoted market prices on an actively traded market. The underlying investments include common stocks of emerging markets, equity securities of companies tied to emerging markets, and fixed income securities. The collective trust funds held by the Master Trust provide for daily redemptions by the Master Trust with no advance notice requirement. The Master Trust has no unfunded commitments and no contractual obligations to further invest in the trust funds.

Level 3 - Inputs to the valuation methodology are unobservable inputs (i.e., projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Collective Trust: Valued at fair value of the underlying investments based on quoted market prices, independent of third-party pricing agents, from independent broker dealers independent of the fund, or fair value procedures implemented through a Fair Value Committee. The funds are invested in the SEI Structured Credit Collective Fund, which invests substantially all of its assets in the SEI Structured Credit Segregated Portfolio that, in turn, invests substantially all of its assets in the SEI Structured Credit Fund, L.P. The objective of the fund is to generate high total returns through investing in a portfolio of collateralized debt obligations. Withdrawals are limited to once per quarter, subject to availability of cash as determined by the advisor, and requires a 90-day prenotification.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The inputs and methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. There have been no changes in the methodologies used at December 31, 2024 or 2023.

The following tables set forth by level, within the fair value hierarchy, the investments in the Master Trust at fair value as of December 31, 2024 and 2023:

The following table represents the Master Trust's Level 3 investments, the valuation techniques used to measure the fair value of the investments, and the significant unobservable inputs and the ranges of values for those inputs at December 31, 2023.

<u>Instrument</u>	<u>Fair Value</u>	<u>Principal Valuation Technique</u>	<u>Unobservable Inputs</u>
Collective Trust	2023 - \$3,240	Proprietary valuations	Bid price utilizing actual market transactions, broker-supplied valuations considering factors as security prices, maturities, call features, ratings and developments relating to specific securities
		Dealer valuations	Combination of market transactions and internal models, results from bids-wanted-in competition auctions of securities
		Fair value procedures	Last trade price, performance of the market, liquidity of the security, size of the holding in the fund

The Investment Committee reviews and approves the fair value measurement valuation policies and procedures, including those for Level 3 recurring measurements. At least annually, the Investment Committee determines if the current valuation techniques used in fair value measurements are still appropriate and evaluates and adjusts the unobservable inputs used in the fair value measurements based on current market conditions and third-party information. For 2024 and 2023, total sales in the collective trust amounted to \$3,421 and \$103,658, respectively. There were no purchases in the collective trust in 2024 or 2023.

NOTE 5 - INFORMATION CERTIFIED

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, SEI, custodian of the Plan, and NTC, trustee of the Plan, have certified to the completeness and accuracy of all investments reflected in the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023, and the related investment income reflected in the statements of changes in net assets available for benefits for the years then ended.

NOTE 6 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

The actuarial present value of the Plan's accumulated plan benefits at December 31, 2023 (date of the most recent valuation) is as follows:

Vested benefits of participants and beneficiaries currently receiving payments	\$248,693,571
Other vested benefits	171,784,105

NOTES TO FINANCIAL STATEMENTS

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments in the Master Trust are in shares of a collective trust managed by affiliates of SEI. Therefore, this investment qualifies as a party-in-interest transaction. Fees paid by the Plan for the investment management services are included as a reduction of the return on each fund. These transactions are considered to be exempt party-in-interest transactions and are not considered prohibited transactions under the Department of Labor's Rules and Regulations.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan provides for various investments in a Master Trust. In general, such investments are exposed to various risks, such as significant world events, interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 9 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 7, 2025, the date the financial statements were available to be issued.

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Demographic Assumptions

Inclusion date The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees It was assumed there will be no new or rehired employees.

Mortality Separate rates for non-annuitants and annuitants based on Pri-2012 “Employees” and “Healthy Annuitants” (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).

Termination (not due to disability or retirement) rates The rates at which participants are assumed to terminate employment by age and gender are shown below. Rates varying by age.

Representative Termination Rates

Disability

The rates at which participants become disabled by age are shown below:

Percentage becoming disabled during the year	
Age	Rates
25	0.10%
40	0.10%
55	0.20%

Retirement

Rates varying by age. The average retirement age is 61.

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Percentage becoming retired during the year	
Age	Rates
50-59	5.00%

Form of payment

For current active participants:

- Termination, death or disability: 100% are assumed to elect a lump sum to be paid out five years following the earlier of the termination date or age 65
- Retirement: 40% lump sum, 15% single life annuity, and 45% with a 100% joint and survivor annuity

For current terminated vested participants:

- Cash Balance: 100% are assumed to elect a lump sum to be paid out five years following the earlier of the termination date or age 65
- Non-Cash Balance: 40% single life annuity, payable at age 65 and 60% joint and survivor annuity, payable at age 65

Lump sums were valued using the substitution of annuity form under IRS Regulation §1.430(d)-1(f)(4) without application of generational mortality. Annuities were calculated from the cash balance accounts using the required methodology in IRS Regulation §1.430(d)-1(f)(5).

Percent married

75%.

Spouse age

Wife two years younger than husband.

Covered pay

Earnings for 2024 are calculated as the sum of the following:

- a) Estimated 2023 bonus paid in 2024, based on 50% of annual target rates
- b) Maximum of 1) expected 2024 base salary and, 2) 2023 overtime plus regular earnings, projected with salary scale plus -4% for 2024 only.

Bonus payouts are assumed to return to 100% of target in 2025.

Administrative expenses

Equal to actual 2023 plan expenses adjusted for expected PBGC premiums and excluding investment management fees (\$1,540,000).

Plan Name: Huntsman Defined Benefit Pension Plan
EIN / PN: 87-0630358/012
Plan Sponsor: Huntsman Corporation
Valuation Date: January 1, 2024

SCHEDULE SB ATTACHMENTS

The expected PBGC premiums are calculated with a headcount reduced for alternate payees.

At-risk assumptions For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year except in accordance with the regular valuation assumptions. In addition, cash balance participants are assumed to elect a lump sum and all other participants are assumed to elect a life annuity.

Timing of benefit payments Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date First day of plan year.

Funding target Present value of accrued benefits, as required by regulations under IRC §430.

Target normal cost Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year, as required by regulations under IRC §430.

Decrement timing The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets for determining minimum required contributions

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

Death benefits to spouses of active participants who terminate and become deceased during the 5-year period before they are assumed to commence their lump sum are not being valued. The value of this benefit has been estimated to be less than 0.01% of the plan's liability.

All benefits described in the Plan Provisions section of this report were valued except the disability benefit. Based on discussions with Huntsman, such benefits are considered to have a de minimis likelihood of being paid and thus are not required to be valued, and will not be valued, until and unless the triggering event occurs. We believe that this assumption does not significantly conflict with what would be reasonable because it is consistent with recent and historical experience. WTW has reviewed the plan provisions with Huntsman and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits (with a present value up to \$5,000) in a single lump sum payment. Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.

Sources of Data and Other Information

The WTW administrative team furnished participant data as of 1/1/2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Data Assumptions

- For active participants who terminated prior to the start of the cash balance plan and rehired after the start of the cash balance plan, we convert their deferred benefit to a cash balance amount as of the census data according to the plan provisions.

Assumptions Rationale - Significant Economic Assumptions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Cash Balance Interest crediting rate

The plan credits interest to cash balance accounts using the 30-year Treasury rate, but with a minimum interest credit rate of 5.00%. Based upon a stochastic analysis of expected long term future interest crediting rates and the likelihood of exceeding the minimum guarantee, performed in 2017, an interest crediting rate of 5.15% was selected. The combination of market conditions and future expectations used in the analysis were consistent with other economic assumptions used, other than the discount rate. We do not believe conditions have changed sufficiently to materially impact this assumption.

Lump sum conversion rate

As required by IRC §430, lump sum benefits are valued using "annuity substitution" so that the interest rates assumed are effectively the same as described above for the discount rate.

Plan-related expenses

As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

Assumptions Rationale - Significant Demographic Assumptions

Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Termination

Termination rates were based on an experience study conducted in 2023, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Disability

Disability rates were based on an experience study conducted in 2023, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Retirement

Retirement rates were based on an experience study conducted in 2023, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

SCHEDULE SB ATTACHMENTS

Benefit commencement date for deferred benefits:

- Preretirement death benefit
Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.
- Deferred vested benefit
Deferred vested benefit commencement assumptions were based on an experience study conducted in 2023, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Form of payment

The percentage of retiring participants assumed to take lump sums is based on observed experience over the period 2018-2022. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described here, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions for contributions since prior valuation

The mortality table used to calculate the funding target and target normal cost was updated to IRS-prescribed fully generational mortality table based on the PRI-2012 Society of Actuaries study and subsequent updates (including, for 2024 plan years, the use of the IRS-adjusted MP-2021 mortality improvement scale).

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

The lump sum interest rates and mortality assumptions were updated to reflect the applicable segment and mortality rates as required by IRC §430.

The assumed plan-related expenses added to the target normal cost were changed from \$3,860,000 in 2023 to \$1,540,000 in 2024 to account for lower expected expenses to be paid from the trust.

The termination rates, retirement rates, form of payment election assumptions, percent married and compensation rates were updated based on the experience study conducted in 2023.

Schedule SB – Statement by Enrolled Actuary

Plan Sponsor	Huntsman Corporation
EIN/PN	87-0630358/012
Plan Name	Huntsman Defined Benefit Pension Plan
Valuation Date	January 1, 2024
Enrolled Actuary	Dean M. Crawford, F.S.A, E.A.
Enrollment Number	23-07158

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

SCHEDULE SB ATTACHMENTS

Schedule SB, Line 22 Description of Weighted Average Retirement Age as of January 1, 2024

The retirement decrement rates are applied to a hypothetical population of active participants. An expected retirement age was calculated for this population by weighting the probability that each individual would remain an active participant to each age and then retire at that age. The plan's weighted average retirement age of 61 is the arithmetic average of the expected retirement ages of this population.

Retirement Rates based on eligibility criteria of:

(1) Age	(2) Rate for Age 55 with 10 Years of Service	(3) Rate for Rule of 80	(4) Assumed Retirements for Age 55 and 10	(4) Assumed Retirements for Rule of 80	(5) Weighted Total Retirement

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Demographic Assumptions

Inclusion date The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees It was assumed there will be no new or rehired employees.

Mortality Separate rates for non-annuitants and annuitants based on Pri-2012 “Employees” and “Healthy Annuitants” (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).

Termination (not due to disability or retirement) rates The rates at which participants are assumed to terminate employment by age and gender are shown below. Rates varying by age.

Form of payment

For current active participants:

- Termination, death or disability: 100% are assumed to elect a lump sum to be paid out five years following the earlier of the termination date or age 65
- Retirement: 40% lump sum, 15% single life annuity, and 45% with a 100% joint and survivor annuity

For current terminated vested participants:

- Cash Balance: 100% are assumed to elect a lump sum to be paid out five years following the earlier of the termination date or age 65
- Non-Cash Balance: 40% single life annuity, payable at age 65 and 60% joint and survivor annuity, payable at age 65

Lump sums were valued using the substitution of annuity form under IRS Regulation §1.430(d)-1(f)(4) without application of generational mortality. Annuities were calculated from the cash balance accounts using the required methodology in IRS Regulation §1.430(d)-1(f)(5).

Percent married

75%.

Spouse age

Wife two years younger than husband.

Covered pay

Earnings for 2024 are calculated as the sum of the following:

- a) Estimated 2023 bonus paid in 2024, based on 50% of annual target rates
- b) Maximum of 1) expected 2024 base salary and, 2) 2023 overtime plus regular earnings, projected with salary scale plus -4% for 2024 only.

Bonus payouts are assumed to return to 100% of target in 2025.

Administrative expenses

Equal to actual 2023 plan expenses adjusted for expected PBGC premiums and excluding investment management fees (\$1,540,000).

Plan Name: Huntsman Defined Benefit Pension Plan

SCHEDULE SB ATTACHMENTS

The expected PBGC premiums are calculated with a headcount reduced for alternate payees.

At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year except in accordance with the regular valuation assumptions. In addition, cash balance participants are assumed to elect a lump sum and all other participants are assumed to elect a life annuity.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits, as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year, as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets for determining minimum required contributions

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

Death benefits to spouses of active participants who terminate and become deceased during the 5-year period before they are assumed to commence their lump sum are not being valued. The value of this benefit has been estimated to be less than 0.01% of the plan's liability.

All benefits described in the Plan Provisions section of this report were valued except the disability benefit. Based on discussions with Huntsman, such benefits are considered to have a de minimis likelihood of being paid and thus are not required to be valued, and will not be valued, until and unless the triggering event occurs. We believe that this assumption does not significantly conflict with what would be reasonable because it is consistent with recent and historical experience. WTW has reviewed the plan provisions with Huntsman and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits (with a present value up to \$5,000) in a single lump sum payment. Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.

Sources of Data and Other Information

The WTW administrative team furnished participant data as of 1/1/2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Data Assumptions

- For active participants who terminated prior to the start of the cash balance plan and rehired after the start of the cash balance plan, we convert their deferred benefit to a cash balance amount as of the census data according to the plan provisions.

Assumptions Rationale - Significant Economic Assumptions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Cash Balance Interest crediting rate

The plan credits interest to cash balance accounts using the 30-year Treasury rate, but with a minimum interest credit rate of 5.00%. Based upon a stochastic analysis of expected long term future interest crediting rates and the likelihood of exceeding the minimum guarantee, performed in 2017, an interest crediting rate of 5.15% was selected. The combination of market conditions and future expectations used in the analysis were consistent with other economic assumptions used, other than the discount rate. We do not believe conditions have changed sufficiently to materially impact this assumption.

Lump sum conversion rate

As required by IRC §430, lump sum benefits are valued using "annuity substitution" so that the interest rates assumed are effectively the same as described above for the discount rate.

Plan-related expenses

As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

Assumptions Rationale - Significant Demographic Assumptions

Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Termination

Termination rates were based on an experience study conducted in 2023, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Disability

Disability rates were based on an experience study conducted in 2023, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Retirement

Retirement rates were based on an experience study conducted in 2023, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Benefit commencement date for deferred benefits:

- Preretirement death benefit
Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.
- Deferred vested benefit
Deferred vested benefit commencement assumptions were based on an experience study conducted in 2023, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Form of payment

The percentage of retiring participants assumed to take lump sums is based on observed experience over the period 2018-2022. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described here, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions for contributions since prior valuation

The mortality table used to calculate the funding target and target normal cost was updated to IRS-prescribed fully generational mortality table based on the PRI-2012 Society of Actuaries study and subsequent updates (including, for 2024 plan years, the use of the IRS-adjusted MP-2021 mortality improvement scale).

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

The lump sum interest rates and mortality assumptions were updated to reflect the applicable segment and mortality rates as required by IRC §430.

The assumed plan-related expenses added to the target normal cost were changed from \$3,860,000 in 2023 to \$1,540,000 in 2024 to account for lower expected expenses to be paid from the trust.

The termination rates, retirement rates, form of payment election assumptions, percent married and compensation rates were updated based on the experience study conducted in 2023.

Participation date

First of the month following the completion of one year of service and attaining age 21, for non-union employees hired prior to July 1, 2014 and for union employees hired prior to April 1, 2015.

Definitions

Vesting service

Full years of service as a covered employee.

Pension service

Years and fractional years of service as a covered employee.

Pensionable pay

W-2 earnings, excluding noncontractual bonuses, moving expenses, and various allowances.

Average earnings

The average of the highest 36 consecutive months of pensionable pay during the ten-year period ending on the earlier of the participant's termination date or retirement date.

Social Security benefit

The projected amount of the participant's primary Social Security benefit according to the law in effect at the date of termination of employment assuming continuation of then current earnings to age 65.

Normal retirement date (NRD)

First of month coinciding with or next following the attainment of age 65 with five years of pension service.

Monthly pension benefit

Basic benefit equals one-twelfth of 1.4% of average earnings multiplied by pension service prior to January 1, 2000, plus 1.5% of average earnings multiplied by pension service after January 1, 2000, less 50% of the Social Security benefit prorated by pension service, payable as a life annuity to the participant. Termination with deferred vested benefit

Monthly pension benefit determined as of termination date, actuarially reduced for early commencement if eligible for early retirement.

Monthly pension determined at earlier of (i) commencement of benefit payments under the long-term disability policy or (ii) 24 months following disablement.

Death with preretirement spouse benefits

Monthly pension benefit determined as of the date of death payable as a 50% joint and survivor form of income at the earliest commencement date.

Other Plan Provisions

Forms of payment

Preretirement spouse benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 50% joint and survivor annuity option for retirement benefits and 100% joint and survivor annuity for terminated vested participants or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 100% joint and survivor annuity, a 50% joint and survivor annuity, a ten-year certain and life annuity, or (for married participants) a life annuity.

Actuarial Equivalence	Converts optional forms of payment to the same actuarial present value as the benefit it replaces, based on an interest rate of 7.0% per year compounded annually and the 1983 Group Annuity Mortality Table (GAM-83) weighted 80% male and 20% female.
------------------------------	---

Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.
------------------------------------	---

Cash Balance Provisions

Covered Employees	First of the month following the completion of one year of service and attaining age 21, for non-union employees hired prior to July 1, 2014 and for union employees hired prior to April 1, 2015.
--------------------------	--

Definitions

Years of Service	Each 12-month period of service.
-------------------------	----------------------------------

Plan compensation	Total earnings including regular earnings, shift differential, overtime, bonuses, employee recognition awards and wage replacement benefits.
--------------------------	--

Normal retirement date (NRD)	First of the month coincident with or next following the attainment of age 65 with five years of service.
-------------------------------------	---

Early retirement date	The first day of the month coincident with or next following the earlier of 1) age 50 while the sum of age and years of service equals or exceeds 80 or 2) Age 55 with 10 years of service. Prior Polyurethanes and Huntsman Advanced Materials employees have special grandfathered provisions.
------------------------------	--

Pay credits	As specified in the Third Amendment, for each year-end for which the participant is a covered participant, the participant's cash balance account is increased by Pay Credits. The amount of Pay Credit is determined by multiplying the Plan Compensation for the year by the applicable percentage from the following table, based on age plus

40 but less than 50	7.0%
50 but less than 60	8.0%
60 but less than 70	9.0%
70 but less than 80	10.5%
80 and over	12.0%

While disabled, participants will continue to receive pay credits for a period of up to two years.

Per Appendix 12 of the restated January 1, 2013 plan document, additional, one-time pay credits were awarded to named individuals on June 1, 2013 as part of a SERP Switch amendment.

Interest credits

The interest credited each year is based on the greater of 1) the 30-year treasury yield for the prior November and 2) 5.0%.

Transition Period

The period beginning from the following effective dates and lasting the number of years equal the participant's completed Years of Service at the effective date listed below, subject to a maximum of five Years of Service:

July 1, 2004: Employees of the employer who was a participating employer in the Plan on July 1, 2004 who were last hired or rehired by that Employer prior to July 1, 2004 and who are either (i) employees not covered by a collective bargaining agreement or (ii) are employees at the O&O and C-4 plants in Jefferson County, Texas covered by a collective bargaining agreement with IBEW Local 2286.

April 1, 2005 for employees of Huntsman at its Marysville, Michigan location covered by the collective bargaining agreement with the Paper, Allied-Industrial, Chemical and Energy Workers International Union Local 6-004.

Transition Credits

For the groups listed in the Transition Period section, during the Transition Period, the plan shall credit additional Transition Credits. These amounts are determined by multiplying Plan Compensation for the plan year by the applicable percentage from the following table based on age plus Years of Service at the effective date for the cash balance plan provisions.

Age + Years of Service	Pay Credit Percentage
Under 50	0%
50 but less than 51	1%
51 but less than 53	2%
53 but less than 56	3%
56 but less than 60	4%
60 but less than 65	5%
65 but less than 71	6%
71 but less than 78	7%
78 and above	8%

Former Advanced Materials participants are not eligible for Transition Credits.

Opening Account Balance

For participants who were participating immediately prior to the effective date of the cash balance formula, the Opening Account Balance is equal to present value of the accrued benefit earned to that effective date.

Cash Balance Account

Sum of Opening Account Balance, Pay Credits, Interest Credits, and Transition Credits.

Annuity Factor

For retirement benefits, greater of 1) 175 - age or 2) Age 65 factor discounted with interest from age 65 to commencement date at the applicable interest rate.

For actives and terminated vested employees, conversion is based on applicable interest rate and applicable mortality table.

SCHEDULE SB ATTACHMENTS

Schedule SB, Line 22 Description of Weighted Average Retirement Age as of January 1, 2024

The retirement decrement rates are applied to a hypothetical population of active participants. An expected retirement age was calculated for this population by weighting the probability that each individual would remain an active participant to each age and then retire at that age. The plan's weighted average retirement age of 61 is the arithmetic average of the expected retirement ages of this population.

Retirement Rates based on eligibility criteria of:

(1) Age	(2) Rate for Age 55 with 10 Years of Service	(3) Rate for Rule of 80	(4) Assumed Retirements for Age 55 and 10	(4) Assumed Retirements for Rule of 80	(5) Weighted Total Retirement

Transition Credits

For the groups listed in the Transition Period section, during the Transition Period, the plan shall credit additional Transition Credits. These amounts are determined by multiplying Plan Compensation for the plan year by the applicable percentage from the following table based on age plus Years of Service at the effective date for the cash balance plan provisions.

Age + Years of Service	Pay Credit Percentage
Under 50	0%
50 but less than 51	1%

65 but less than 71	6%
71 but less than 78	7%
78 and above	8%

Former Advanced Materials participants are not eligible for Transition Credits.

Opening Account Balance

For participants who were participating immediately prior to the effective date of the cash balance formula, the Opening Account Balance is equal to present value of the accrued benefit earned to that effective date.

Cash Balance Account

Sum of Opening Account Balance, Pay Credits, Interest Credits, and Transition Credits.

Annuity Factor

For retirement benefits, greater of 1) 175 - age or 2) Age 65 factor discounted with interest from age 65 to commencement date at the applicable interest rate.

For actives and terminated vested employees, conversion is based on applicable interest rate and applicable mortality table.
