To the Plan Administrator
The Ramkota Companies, Inc. Employee Stock Ownership Plan and Trust
Sioux Falls, South Dakota

We have audited the financial statements of Ramkota Companies, Inc. Employee Stock Ownership Plan and Trust (the Plan) as of and for the year ended December 31, 2024, and have issued our report thereon dated October 8, 2025. Professional standards require that we advise you of the following matters relating to our audit.

Our Responsibility in Relation to the Financial Statement Audit

As communicated in our letter dated May 8, 2025, our responsibility, as described by professional standards, is to form and express an opinion about whether the financial statements that have been prepared by management with your oversight are presented fairly, in all material respects, in conformity with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of its respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of the system of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the plan's internal control over financial reporting. Accordingly, as part of our audit, we considered the system of internal control of the Plan solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

We have provided our comments regarding significant control deficiencies, material weaknesses, and other matters noted during our audit in a separate letter to you dated October 8, 2025.

Planned Scope and Timing of the Audit

We conducted our audit consistent with the planned scope and timing we previously communicated to you.

Compliance with All Ethics Requirements Regarding Independence

The engagement team, others in our firm, as appropriate, our firm, and our network firms, have complied with all relevant ethical requirements regarding independence.

Qualitative Aspects of the Plan's Significant Accounting Practices

Significant Accounting Policies

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by the Plan is included in Note 2 to the financial statements. There have been no initial selection of accounting policies and no changes in significant accounting policies or their application during 2024. No matters have come to our attention that would require us, under professional standards, to inform you about (1) the methods used to account for significant unusual transactions and (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Accounting Estimates and Related Disclosures

Accounting estimates and related disclosures are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments.

The most sensitive accounting estimates affecting the financial statements was:

Fair Value of Company Stock - Management's estimate of the fair value of Company stock is based on an independent appraisal which estimates fair value as of December 31, 2024. We evaluated the factors and assumptions used to develop the above estimate and determined that it is reasonable in relation to the basic financial statements taken as a whole.

Financial Statement Disclosures

Certain financial statement disclosures involve significant judgment and are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the Plan's financial statements relate to the disclosures of fair value measurements and note payable.

Form 5500 Procedures

We are required to obtain and read a substantially complete draft of Form 5500 prior to dating our auditor's report. The purpose of this procedure is to identify any material inconsistencies between the draft Form 5500 and the Plan's financial statements. We identified no material inconsistencies in performing and completing our audit.

Significant Difficulties Encountered during the Audit

We encountered no significant difficulties in dealing with management relating to the performance of the audit.

Uncorrected and Corrected Misstatements

For purposes of this communication, professional standards also require us to accumulate all known and likely misstatements identified during the audit, other than those that we believe are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole. Uncorrected misstatements or matters underlying those uncorrected misstatements could potentially cause future-period financial statements to be materially misstated, even though the uncorrected misstatements are immaterial to the financial statements currently under audit. There were no corrected or uncorrected misstatements identified as a result of our audit procedures.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the Plan's financial statements or the auditor's report. No such disagreements arose during the course of the audit.

Circumstances that Affect the Form and Content of the Auditor's Report

For purposes of this letter, professional standards require that we communicate any circumstances that affect the form and content of our auditor's report. We did not identify any circumstances that affect the form and content of the auditor's report.

Representations Requested from Management

We have requested certain written representations from management which are included in the management representation letter dated October 8, 2025.

Management's Consultations with Other Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

Other Significant Matters, Findings, or Issues

In the normal course of our professional association with the Plan, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, significant events or transactions that occurred during the year, business conditions affecting the plan, and business plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as the Plan's auditors.

Other Matters

The ERISA-required supplemental schedule was subjected to the audit procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

Our responsibility also includes communicating to you any information which we believe is a material misstatement of fact. Nothing came to our attention that caused us to believe that such information, or its manner of presentation, is materially inconsistent with the information, or manner of its presentation, appearing in the financial statements.

This report is intended solely for the information and use of the Plan Administrator and management of The Ramkota Companies, Inc. Employee Stock Ownership Plan and Trust and is not intended to be, and should not be, used by anyone other than these specified parties.

Opinion

We have audited the financial statements of Ramkota Companies, Inc. Employee Stock Ownership Plan and Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Ramkota Companies, Inc. Employee Stock Ownership Plan and Trust as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Ramkota Companies, Inc. Employee Stock Ownership Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Ramkota Companies, Inc. Employee Stock Ownership Plan and Trust's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Ramkota Companies, Inc. Employee Stock Ownership Plan and Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Ramkota Companies, Inc. Employee Stock Ownership Plan and Trust's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, line 4i-schedule of assets held at end of year as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Description of Plan

The following brief description of The Ramkota Companies, Inc. Employee Stock Ownership Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Ramkota Companies, Inc. (the Company) established The Ramkota Companies, Inc. Employee Stock Ownership Plan and Trust effective January 1, 2017. The Plan operates, in relevant part, as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by a Plan Administrator, who appoints the Plan's Trustee. The trust department of an independent third-party bank is the Plan's trustee.

The Plan purchased the Company's common stock using the proceeds of a note (Note 5) and holds the stock in a trust established under the Plan. The note is to be paid over a period of thirty (30) years by fully deductible Company contributions to the trust. As the Plan makes each payment of principal, an appropriate percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The note is collateralized by the unallocated shares of stock and is guaranteed by the Company. The lender has no rights against shares once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023 and for the year ended December 31, 2024 present separately the assets and liabilities and changes therein pertaining to:

1. The accounts of employees with vested rights in allocated stock (Allocated), and
2. Common stock not yet allocated to employees (Unallocated).

Eligibility

Employees are eligible to participate in the Plan if they have completed one year of service and are 21 years of age. A year of service for purposes of eligibility is a consecutive 12-month period during which the employee has 1,000 or more hours of service. Leased employees, union members, independent contractors and non-resident aliens are not eligible to participate in the Plan.

Participants who do not have at least 1,000 hours of service during the Plan year or are not employed on the last working day of the Plan year are generally not eligible to receive an allocation of Company contributions for such year.

Entry Date

Employees may enter the Plan on the first day of January, April, July, or October coinciding with or next following the date on which they satisfy the Plan's eligibility requirements.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term note. Employee contributions are not permitted. Contributions shall not exceed the maximum amounts deductible under Section 404(a)(3) of the IRC.

The Company may also contribute to the Plan an amount which its Board of Directors may from time to time deem advisable and not an amount that would exceed the participant's maximum permissible amount as described in the Plan document. Contributions may be made in cash or Company securities. During the year ended December 31, 2024, additional contributions of \$672,075 were made to the Plan.

Participant Accounts

The Plan is a defined contribution plan under which a separate account is established for each participant. Each participant's account is credited as of the last day of the Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated accounts and forfeitures of terminated participants' non-vested accounts, the Company's contribution and Plan earnings. Each participant's account is charged with withdrawals and an allocation of Plan losses and administrative expenses. Stock and forfeiture allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings and expenses are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Vesting in the Company's contributions is based on years of continuous service. Participants vest 20% per year of service starting with the second full year of service and are 100% vested after six years of service.

Notwithstanding the foregoing, a participant's vested percentage will be 100% upon occurrence of any of the following events: (1) separation from service due to disability or retirement; (2) death; (3) termination of the Plan; or (4) partial termination of the Plan affecting the participant.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures of terminated non-vested account balances allocated to remaining participants at December 31, 2024 totaled \$92,601, representing cash and 610 shares of common stock at December 31, 2024.

Payment of Benefits

Notwithstanding the availability of distributions to achieve diversification available to participants satisfying certain eligibility conditions, no distributions from the Plan will be made until a participant retires, becomes disabled, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company. Distributions are made in the form of Company common stock plus cash for any fractional share or, if a participant elects, in cash.

A participant whose separation results from death, disability or attainment of normal retirement age, and whose vested benefit exceeds \$7,000 will receive their vested account balance in substantially equal annual installments over a period of five years. This period may increase by one year, up to five additional years, for each \$100,000 by which the total balance of the participant's account exceeds \$800,000.

A participant whose separation results from reasons other than death, disability or attainment of normal retirement age, and whose vested benefit exceeds \$7,000 will receive their vested account balance in substantially equal annual installments over a period of five years beginning in the sixth Plan year following the participant's separation if the participant is not reemployed in the interim.

A participant whose vested benefit is less than \$7,000 upon separation will receive their vested account balance in a lump sum payment made as soon as administratively possible after the close of the Plan year in which the participant's employment ends.

Voting Rights

Full and fractional shares of stock in the trust shall be voted by the Trustee. The Trustee shall follow a participant's instructions for voting of full and fractional shares of stock allocated to the participant's account with respect to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or such similar transaction as may be provided in regulations.

The Trustee will vote shares of stock allocated to participants' accounts for which instructions are not received from the participants, and stock contributed to or acquired by the Plan that is not yet allocated, in accordance with instructions from the Board of Directors that are in the best interests of the participants and that comply with the IRC and ERISA.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Right of First Refusal

Company stock that has been distributed to a participant and not immediately repurchased by the Company or trust may be subject to a right of first refusal if so determined by the Company. Prior to any subsequent transfer, the shares must first be offered by written offer to the Company and the Plan.

Both the Company and the Plan shall have a right of refusal for a period of 14 days (such 14-day period will run concurrently against the Company and the Plan). The Plan shall have priority to acquire the stock over the Company.

Diversification

Diversification is offered to participants nearing retirement so that they may have the opportunity to move part of the value of their investment in the Company's common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the Company's stock held. In the sixth year, the participant may elect an amount up to 50 percent of the Company's stock held.

Plan Termination

Although it has no expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan and the IRC. Upon termination of the Plan, the Board of Directors shall direct the Trustee to pay all liabilities and expenses of the trust and to sell shares of financed common stock held in the note suspense account to the extent it determines such sale to be necessary in order to repay the note.

Note 2 - Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The Plan Administrator determines the Plan's valuation policies utilizing information provided by the independent appraiser and other third parties.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

The classification of investment earnings reported in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (Allocated) and (b) stock not yet allocated to employees (Unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Subsequent Events

The Plan Sponsor has evaluated subsequent events through October 8, 2025, the date which the financial statements were available to be issued.

Note 3 - Investments

The Plan's investment in The Ramkota Companies, Inc. common shares is as follows:

	December 31, 2024		December 31, 2023	
	Allocated	Unallocated	Allocated	Unallocated
The Ramkota Companies, Inc. common stock Number of shares	111,024	294,364	97,644	307,744
Cost	\$ 111,024	\$ 294,364	\$ 97,644	\$ 307,744
Fair value	\$ 10,752,685	\$ 28,509,143	\$ 8,867,045	\$ 27,946,239

Note 4 - Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Notes to Financial Statements
December 31, 2024 and 2023

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Money market mutual fund: Valued at the daily closing price as reported by the fund. The money market mutual fund held by the Plan is an open-ended mutual fund that is registered with the Securities and Exchange Commission. The fund is required to publish its daily net asset value (NAV) and to transact at that price. The money market mutual fund held by the Plan is deemed to be actively traded.

Plan Sponsor common stock: The fair value of the Company’s common stock held by the Plan is determined based upon an independent appraisal. This appraisal considers a combination of the income, market and asset (or cost) valuation techniques, with an emphasis on the market and income-based approaches. The appraiser takes into account historical and projected cash flow and net income, return on assets, return on equity, market comparability, and estimated fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves the Trustee’s selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report, which the Trustee and Plan Administrator then review and discuss the current valuation techniques in addition to evaluating the unobservable inputs based upon the current market conditions. Once the Trustee and Plan Administrator are comfortable with the valuation report, they will approve.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	2024			
	Level 1	Level 2	Level 3	Total
Money market mutual fund	\$ 2,465,529	\$ -	\$ -	\$ 2,465,529
Plan Sponsor common stock	-	-	39,261,828	39,261,828

Total investments at fair value	<u>\$ 1,884,799</u>	<u>\$ -</u>	<u>\$ 36,813,284</u>	<u>\$ 38,698,083</u>

Change in Fair Value of Level 3 Assets

For the year ended December 31, 2024, there were no transfers in or out of Level 3 and no purchases, sales, issuances, or redemptions of Level 3 assets.

Note 5 - Note Payable

On January 1, 2017, the Plan entered into a \$405,288 term note agreement with the Company, to be repaid over a period of 30 years. The proceeds of the note were used to purchase Company common stock. Unallocated shares of common stock serve as collateral for the note. Shares are released from collateral and are allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral times the ratio of the current year payments to the total of the current year's payments plus all future years' principal and interest payments. This resulted in 13,380 shares being released and allocated for the Plan year ended December 31, 2024.

The agreement provides for the note to be repaid in annual installments of \$19,743. The note bears a 2.75% fixed interest rate and matures December 2046. The scheduled amortization of the note is as follows:

<u>Years Ending December 31,</u>	<u>Amount</u>
2025	\$ 10,870
2026	11,168
2027	11,476
2028	11,791
2029	12,115
Thereafter	265,248
	<u>\$ 322,668</u>

Interest expense paid to the Company totaled \$9,165 for the year ended December 31, 2024.

Note 6 - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated June 6, 2018, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. Subsequent to the issuance of the determination letter, the Plan was amended. However, the Company, Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and, therefore believe the Plan is qualified and the related trust continues to be tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 - Risks and Uncertainties

The Plan invests primarily in the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Market risks include global events which could impact the value of investments, such as a pandemic or international conflict. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 8 - Related Party and Party-In-Interest Transactions

The Plan invests in Company common stock and has indebtedness on which the Company has agreed to make contributions to the trust that, when aggregated with earnings, are sufficient to permit the Plan to make timely payment of principal and interest. This is a related party and party-in-interest transaction.

Various recordkeeping and administration services are provided by a service provider. Such party is a party-in-interest under ERISA. Fees for these services are paid by the Company.

Note 9 - Administration of Plan Assets

The Plan's assets are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the outstanding note, which is reimbursed to the Trustee through contributions as determined by the Company. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Note 10 - Dividends

To the extent that dividends are not used by the Plan for debt service, participants are given the right to take a distribution of such dividends in cash or leave the funds in the Plan to be invested in Company stock, as provided by the Plan.

Note 11 - Plan Amendments

Effective January 1, 2024, the plan was amended to increase the lump sum involuntary payout from a vested balance that is less than \$5,000 to \$7,000.

To Management and the Plan Administrator
The Ramkota Companies, Inc. Employee Stock Ownership Plan and Trust
Sioux Falls, South Dakota

In planning and performing our audit of the financial statements of Ramkota Companies, Inc. Employee Stock Ownership Plan and Trust (the Plan) as of and for the year ended December 31, 2024, in accordance with auditing standards generally accepted in the United States of America, we considered the Plan's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis.

We are required to consider relevant plan provisions that affect the risk of material misstatement at the relevant assertion level when designing and performing audit procedures. When audit work performed results in the identification of items that are not in accordance with specified criteria, such as plan provisions as set forth in the plan instrument, we are required the auditor to evaluate whether the matter is a reportable finding. Reportable findings are matters that are one or more of the following:

- a. An identified instance of noncompliance or suspected noncompliance with laws or regulations.
- b. A finding arising from the audit that is, in the auditor's professional judgment, significant and relevant to those charged with governance regarding their responsibility to oversee the financial reporting process.
- c. An indication of deficiencies in internal control identified during the audit that have not been communicated to management by other parties and that, in the auditor's professional judgment, are of sufficient importance to merit management's attention.

Reportable findings may be a material weakness, a significant deficiency, or a control deficiency defined as follows:

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the plan's financial statements will not be prevented or detected and corrected on a timely basis. A reasonable possibility exists when the likelihood of an event occurring is either reasonably possible or probable as defined as follows:

- *Reasonably possible.* The chance of the future event or events occurring is more than remote but less than likely.
- *Probable.* The future event or events are likely to occur.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A control deficiency is a deficiency, or combination of deficiencies, in internal control that does not rise to the level of a material weakness or significant deficiency but is of sufficient importance to merit management's attention.

We consider the following reportable findings in the plan's internal control to be a material weakness:

Internal Control Over the Preparation of Financial Statements

The Plan does not have an internal control system designed to provide for the preparation of the financial statements and related financial statement disclosures being audited. As auditors, we were requested to draft the financial statements and accompanying notes to the financial statements. Although this circumstance is not unusual for a plan of your size, the preparation of financial statements as a part of the audit engagement may result in financial statements and related information included in financial statement disclosures not being available for management purposes as timely as if prepared by Plan personnel. It is the responsibility of management and those charged with governance to determine whether to accept the risk associated with this condition because of cost or other considerations.

Our consideration of internal control was for the limited purpose described in the preceding paragraphs and was not designed to identify all deficiencies in internal control that might be considered reportable findings, including material weaknesses, significant deficiencies, or control deficiencies, and, therefore, reportable findings in these categories may exist that were not identified.

This communication is intended solely for the information and use of the Plan Administrator, and management of The Ramkota Companies, Inc. Employee Stock Ownership Plan and Trust, others within the organization, and is not intended to be, and should not be, used by anyone other than these specified parties.
