Independent Auditor's Report

BASF Corporation as Plan Administrator of the
BASF Corporation Bargaining Unit Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of BASF Corporation Bargaining Unit Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C)"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a significant likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4a - Schedule of Delinquent Participant Contributions and Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of or for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

BASF CORPORATION BARGAINING UNIT SAVINGS PLAN

Notes to Financial Statements

December 31, 2024 and 2023

(Dollars in thousands, except for Note 1)

(1) Description of the Plan

The following description of the BASF Corporation Bargaining Unit Savings Plan (the Plan) is provided for general information. Participants should refer to the Plan Document for a more complete description of the provisions of the Plan and detailed definitions of various Plan terms.

BASF Corporation (the Sponsor or the Company) administers the Plan through its Pension and Savings Plan Committee (the Plan Administrator) under the authority of the Pension and Benefits Committee of the Sponsor's Board of Directors.

(a) General

The Plan is a defined contribution plan providing benefits to the Sponsor's eligible employees, as defined in the Plan Document. Employees become eligible to participate immediately upon commencing employment with the Sponsor. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan became effective January 1, 2008. Although it has not expressed any intention to do so, the Sponsor reserves the right to amend or terminate the Plan at any time. If the Plan were terminated, participants would be paid their vested account balances.

Beginning in 2014, if a participant transfers to another position (within the Company or one of its affiliates) that is not covered by the Plan, that participant may become eligible to participate in the BASF Corporation Bargaining Unit Savings Plan or any other qualified pension plan maintained by the Company or affiliate (the Successor Plan). Such actively employed participants are permitted to initiate a loan, subject to review and approval from the Company, based on the total sum of their account balances in the plans in which they have been participants. In those instances, the participants' entire account balance in the Predecessor Plan will be transferred into the Plan. In 2024, transfers to the BASF Corporation Retirement Savings Plan comprised \$41,706 in investments and \$2,680 of participant loans.

(b) Participant Contributions

Participant contributions can consist of pre-tax contributions, which reduce the participant's taxable compensation, after-tax contributions, which do not reduce a participant's taxable compensation, or rollovers, which are transfers from other qualified retirement plans.

Participants may elect to contribute, through payroll deductions, between 1% and 50% of their compensation on a pre-tax or after-tax basis. The dollar amount of a participant's contributions cannot exceed certain Plan and Internal Revenue Service (IRS) limits. Participants direct how monies contributed are invested. Eligible compensation is defined as W-2 earnings (subject to certain adjustments), not to exceed \$345,000 and \$330,000, effective for 2024 and 2023, respectively, as adjusted by the IRS. For purposes of the Plan, compensation means base pay (before any reductions for before-tax contributions to the Plan or any other Sponsor plan) plus overtime, commissions, awards, shift premiums and other types of base payments. Compensation does not include moving expense reimbursements, payments to attract new or retain employees, benefits credits for any Company sponsored health plan or any other similar special compensation payments. Pre-tax

BASF CORPORATION BARGAINING UNIT SAVINGS PLAN

Notes to Financial Statements

(Dollars in thousands, except for Note 1)

contributions were limited by the IRS to \$23,000 and \$22,500 for 2024 and 2023, respectively. As a result of the Economic Growth and Tax Relief Reconciliation Act, participants who attained age 50 on or before the end of the Plan year are limited to pre-tax contributions of \$30,500 and \$30,000 effective for 2024 and 2023, respectively. These limits will be subject to change in future years to be consistent with IRS limits.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set depending on the applicable collective bargaining unit and their contributions invested in a designated default investment fund until changed by the participant.

Each participant enrolled in the Plan may elect that their contribution percentage for before-tax, after-tax, Roth and catch-up contributions will be automatically increased each Plan year by a specified amount subject to limitations imposed by the Plan and the Internal Revenue Code (the Code).

(c) Master Trust

The assets of the Plan, along with the assets of the BASF Corporation Retirement Savings Plan (the RSP), are invested in the BASF Corporation Savings Plan Master Trust (the Master Trust), which was established on May 1, 2020, for which the trustee is Fidelity Management Trust Company (the Trustee). The Plan and the RSP are the only participating plans in the Master Trust.

(d) Sponsor Contributions

The Sponsor matches contributions up to a maximum percent of compensation as set forth in the “Maximum Employee Participating Contribution Percentage” in the Schedule of Benefits applicable to the employee group of which such participant is a member. The Sponsor will also make an employer retirement contribution equal to 2%-3% of the compensation of each participant in the Plan who is an employee of the Company for each pay period, as set forth in the Schedule of Benefits applicable to the employee group of which such employee is a member.

(e) 415 Limitation

Under Section 415 of the Code, the annual additions to a participant’s account under the Plan (plus annual additions to any other qualified defined contribution plan in which he or she participates) may not exceed \$69,000 and \$66,000 for 2024 and 2023, respectively, or the lesser of 100% of covered compensation. To meet this limitation, the Plan may be required to refund after-tax, pre-tax or Sponsor contributions, in that order, that had previously been made.

(f) Vesting

Participants are vested immediately in their contributions, as well as the Sponsor’s matching contribution portion of their accounts plus actual earnings thereon. A participant becomes fully vested in the Sponsor’s contributions of employer retirement contributions after a period of three years.

(Dollars in thousands, except for Note 1)

(g) Notes Receivable from Participants

Participants may apply to the Plan Administrator to borrow from the Plan up to one-half of the value of the participant's vested account balances, but not more than \$50,000. Loans are evidenced by promissory notes and are repayable through payroll deductions over a period of up to 1) 60 months for general purpose loans, and 2) 360 months for loans used for the purchase of primary residences. Loans are repayable immediately (within 60 days) upon termination of the participant's employment. These loans have maturity dates that range from January 2025 to February 2043 and interest rates ranging from 3.25% to 8.50%.

(h) Distribution - Termination and Retirement

On termination of service due to death, disability, or retirement, benefits are paid in the following manner:

- Accounts of \$1,000 or less: Participant receives an immediate lump-sum payment.
- Retirement or Disability: Participant may elect to receive an immediate lump-sum payment, payments in installment form, or defer payments until age 73.
- Severance from Service: Participant may receive a lump-sum payment or defer payments until age 73.

(i) Forfeited Accounts

At December 31, 2024 and 2023, forfeited non-vested accounts totaled \$2,440 and \$7,697, respectively. Forfeited non-vested accounts will be used to reduce future employer contributions. Employer contributions were reduced by \$125,821 and \$67,297 from forfeited non-vested accounts during the years ended December 31, 2024 and 2023, respectively.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Investment contracts held by a defined contribution plan are required to be reported at fair value except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of the Plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through insurance contracts.

(b) Valuation of Investments

The Plan's investment in the Master Trust has been presented at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value), which has been determined based on the fair value of the underlying investments. Fair value is the price that would be received from selling an asset or paid when transferring a liability in an orderly transaction between market participants at the measurement date. See Note 6, "Fair Value Measurements", for discussion of fair value measurements.

(c) Security Transactions

Purchases and sales of securities are recorded on a trade-date basis. The Plan's gains and losses on investments purchased or sold or held during the year are included in net investment income from BASF Corporation Savings Plan Master Trust.

(d) Investment Income

Dividend income is recorded on the ex-dividend date; interest income is recorded as earned on the accrual basis.

(e) Risks and Uncertainties

The Master Trust invests in various types of investment securities including common/collective trusts, mutual funds and insurance contracts. Investment securities, in general, are exposed to various risks, such as interest-rate risk, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect participants' account balances and the amounts reported in the financial statements.

(f) Contributions

Contributions from Plan participants and the Sponsor contributions from the Company are recorded in the year in which the employee contributions are withheld from compensation.

Notes to Financial Statements

December 31, 2024 and 2023

(Dollars in thousands, except for Note 1)

(g) Notes Receivable from Participant

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

(h) Payment of Benefits

Benefits are recorded when paid.

(i) Administrative Fees

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net investment income from BASF Corporation Savings Plan Master Trust.

(j) Use of Estimates

The preparation of financial statements in accordance with GAAP requires the Plan Sponsor to make estimates, assumptions and valuations that affect the amounts reported in the financial statements and accompanying footnotes. Actual results could differ from those estimates.

(k) Subsequent Events

The Plan has evaluated subsequent events through October 1, 2025, which is the date the financial statements were available to be issued.

(3) Federal Income Tax Status

The IRS has determined and informed the Sponsor by letter dated July 26, 2017 that the Plan and the related trust are designed in accordance with applicable sections of the Code. The Plan has been amended since receiving the determination letter. The Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with applicable requirements of the Code. Accordingly, the Plan's financial statements do not include a provision for income taxes.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(4) Fully Benefit-Responsive Investment Contracts

The Master Trust holds a portfolio of investment contracts that comprises a portfolio of synthetic investment contracts. These contracts meet the fully benefit-responsive investment contract criteria and, therefore, are reported at contract value. Contract value is the relevant measure for fully benefit-responsive

investment contracts because this is the amount received by participants if they were to initiate permitted transactions under each contract, plus earnings, less participant withdrawals and administrative expenses. A synthetic investment contract includes a wrapper contract, which is an agreement for the wrap issuer, such as a bank or insurance company, to make payments to the Plan in certain circumstances. The wrapper contract typically includes certain conditions and limitations on the underlying assets owned by the Plan. With traditional investment contracts, the Plan owns only the contract itself. Synthetic investment contracts are designed to accrue interest based on crediting rates established by the contract issuers.

The synthetic investment contracts held by the Plan include wrapper contracts that provide a guarantee that the crediting rate will not fall below 0%. Cash flow volatility (for example, timing of benefit payments) as well as asset underperformance can be passed through to the Plan through adjustments to future contract crediting rates. Formulas are provided in each contract that adjust renewal crediting rates to recognize the difference between the fair value and the book value of the underlying assets. Crediting rates are reviewed monthly for resetting.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Code or the failure of the trust to be tax-exempt under Section 501(a) of the Code.
2. Premature termination of the contracts.
3. Plan termination or merger.
4. Changes to the Plan's prohibition on competing investment options.
5. Bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

(5) Interest in the Master Trust

As described in Note 1, the Master Trust was established to hold the assets of the Plan and the RSP. The Plan and the RSP are the only participating plans in the Master Trust. Each participating plan has a divided interest in the Master Trust. The value of the Plan's interest in the Master Trust is based on the beginning of the period value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan. In accordance with GAAP, the net change in value from participation in the Master Trust is reported as one line item in the Statements of Changes in Net Assets Available for Benefits and the Plan's total interest in the Master Trust is reported as a single line item in the Statements of Net Assets Available for Benefits.

(6) Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.
- Level 2: Observable prices that are based on inputs not quoted on active markets, but corroborated by market data.
- Level 3: Unobservable inputs are used when little or no market data is available which is significant to the fair value measurement. The fair value hierarchy gives the lowest priority to Level 3 inputs.

In determining fair value, the Plan and Master Trust utilize valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible, as well as considering counterparty credit risk in its assessment of fair value.

(Dollars in thousands, except for Note 1)

The following is a description of the valuation methodologies used for determining an asset's fair value. There have been no changes from prior years in the methodologies used at December 31, 2024 and 2023.

- *Mutual Funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- *Common/Collective Trusts and 103-12 Investments:* The interest in the common/collective trusts and 103-12 investments are valued at the NAV. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.
- *Common Stocks:* Valued at the closing price reported on the active market on which the individual securities are traded.
- *Money Market/Interest-Bearing Cash:* Valued at amortized cost, which approximates fair value.
- *U.S. Government Securities:* Valued using pricing models maximizing the use of observable inputs for similar securities.
- *Corporate Debt Instruments:* Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, those corporate bonds are valued under a discounted cash flow approach that maximizes observable inputs, such as current yields or similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.
- *Real Estate and Partnerships/Joint Ventures:* The interest in real estate and partnerships/joint venture funds are valued at the NAV. The NAV, as provided by the investment advisor, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Master Trust believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

PIMCO Municipal Portfolio – The Portfolio seeks maximum total return, consistent with prudent investment management. The Portfolio seeks to achieve its investment objective by investing under normal circumstances at least 80% of its assets in a portfolio of fixed income securities of varying maturities issued by or on behalf of states and local governments and their agencies, authorities and other instrumentalities (municipal securities), or in instruments that provide exposure to the municipal securities sector, such as options, futures contracts, or swap agreements. Assets not invested in municipal securities may be invested in other types of fixed income instruments, including bonds, debt securities, and other similar instruments issued by various U.S. and non-U.S. public or private-sector entities, and also in securities issued by entities whose underlying assets are municipal securities, including without limitation, residual interest bonds. The average duration of the Portfolio varies based on the strategy currently being used by PIMCO in managing the assets of the Portfolio within the overall PIMCO private account management program.

PIMCO High Yield and Short-Term Investments Portfolio – The Portfolio seeks maximum total return, consistent with prudent investment management. The Portfolio seeks to achieve its investment objective by investing under normal circumstances at least 80% of its assets in high yield investments (“junk bonds”) and short-term investments, which may be represented by forwards or derivatives such as options, futures contracts, or swap agreements. High yield investments include securities rated below investment grade by ratings agencies such as Moody’s Investors Service, Standard & Poor’s Ratings Services, or Fitch Inc., or if unrated, determined by PIMCO to be of comparable quality, or comprising the ICE BofAML U.S. High Yield, BB-B Rated Index. The Portfolio may invest up to 20% of its total assets in securities rated below B by Moody’s Investors Service, or equivalently rated by Standard & Poor’s Ratings Services or Fitch Inc, or if unrated, determined by PIMCO to be of comparable quality. In the event that ratings services assign different ratings to the same security, PIMCO will use the highest rating as the credit rating for that security. Assets not invested in high yield securities or noninvestment grade short-term investments may be invested in investment grade Fixed Income Instruments, including investment grade short-term investments. “Fixed Income Instruments” include bonds, debt securities and other similar instruments issued by various U.S. and non-U.S. public- or private-sector entities. The average duration of the Portfolio varies based on the strategy currently being used by PIMCO in managing the assets of the Portfolio within the overall PIMCO private account management program.

PIMCO Short-Term Floating NAV Portfolio II –The Portfolio seeks maximum current income, consistent with preservation of capital and daily liquidity. The Portfolio seeks to achieve its investment objective by investing under normal circumstances at least 65% of its total assets in a diversified portfolio of fixed income instruments of varying maturities which may be represented by forwards, including bonds, debt securities, and other similar instruments issued by various U.S. and non-U.S. public or private-sector entities. The Portfolio may invest only in investment grade securities. The Portfolio may invest in securities of non-U.S. issuers only if the securities are U.S. dollar-denominated. The Portfolio may invest in mortgage- or asset-based securities and purchase instruments on an extended settlement basis. The average duration of the Portfolio will vary based on PIMCO’s market forecasts and will normally not exceed 180 days.

Environmental, Social and Governance Fund – The Fund seeks to provide a balanced exposure to U.S. stocks and U.S. dollar-denominated bonds, using investment processes that give consideration to Environmental, Social and Governance (ESG) factors.

(7) Certification by the Plan Trustee

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Investments in BASF Corporation Savings Plan Master Trust and notes receivable from participants held at December 31, 2024 and 2023, and net investment income from BASF Corporation Savings Plan Master Trust and interest income on notes receivable from participants for the years then ended, that are disclosed in the accompanying financial statements and supplemental schedule of assets (held at end of year), were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee of the Plan.

(8) Permitted Party-in-Interest Transactions

Certain Master Trust investments represent shares or units of funds managed by the Trustee as of December 31, 2024 and 2023. Transactions in these funds qualify as permitted party-in-interest transactions.

(9) Benefits Payable to Participants

The Plan had no benefits payable to participants at December 31, 2024 and 2023.

(10) Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

(11) Reconciliation of Financial Statements to Form 5500
