Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

BASF Corporation as Plan Administrator of the
BASF Corporation Consolidated Bargaining Unit Employees' Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of BASF Corporation Consolidated Bargaining Unit Employees' Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C)"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a significant likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

(1) Description of the Plan

The following description of BASF Corporation Consolidated Bargaining Unit Employees' Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the provisions of the Plan and detailed definitions of various Plan terms.

BASF Corporation (the Sponsor) administers the Plan through its Pension and Savings Plan Committee (the Plan Administrator) under the authority of the Pension and Benefits Committee of the Sponsor's Board of Directors. Effective as of August 31, 2017, the Plan has an agreement with J.P. Morgan Chase Bank, N.A. (the Trustee) whereby the assets of the Plan are held in the BASF Corporation Master Trust (the Master Trust). The Master Trust was established by the Sponsor and is administered by the Trustee. The trust fund distributes the benefits to participants in accordance with the provisions of the Plan. The assets of the Plan are managed by the Trustee and several investment managers of the Sponsor.

a) General

The Plan is a defined benefit pension plan providing retirement benefits to the Sponsor's eligible, collectively bargained for, hourly employees at various plant locations of BASF Americas Corporation (the Company), or any of its subsidiaries or affiliates which have adopted the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Benefit accruals have ceased for all union and hourly plans.

b) Sponsor Contributions

The Plan is noncontributory on the part of the employees. The Company contributes such amounts as are necessary to meet or exceed the minimum funding requirements as prescribed by any applicable law. No contributions for 2024 and 2023 were deemed necessary based on the January 1, 2024 and 2023 valuation reports prepared by Willis Towers Watson (the Actuary) and the Sponsor met or exceeded the minimum funding requirements of ERISA.

c) Distributions

Normal retirement is at age 65. The benefit is calculated based upon fixed benefit levels and the participant's years of credited service. Early retirement is available at age 55 with 10 years of vesting service. The early retirement benefit is the normal retirement benefit earned to date of retirement reduced by 5/12 of 1% for each calendar month that the benefit commencement date precedes the normal retirement date.

The normal form of retirement benefit payment is a life annuity. However, if an employee is married on the date their benefit payments commence, their retirement benefit is paid in the form of a 50% joint and survivor annuity. There are also several optional forms of retirement benefit payments, all of which are actuarial equivalents to the life annuity. These optional forms of payment include: joint and survivor election of 50% or 100% and, effective January 1, 2008, the participant may also elect 75% and Social Security adjusted annuities. According to the Plan document, under the 100%, 75% or 50% joint and survivor annuity option, the participant designates the beneficiary to receive a continued monthly pension, after his or her death and for the life of the other person, in the selected percentage. The participant's benefit is reduced to reflect payout over two lifetimes, the greater the continuation percentage, the greater the reduction. Further details on these optional payment methods can be found in the Plan document.

The Plan also provides permanent disability benefits and death benefits under certain circumstances.

Participants who are also hourly employees of the Louisville, Kentucky Facility are subject to the following distribution terms: Normal retirement is at age 65. The monthly benefit is calculated based on an amount per month, as specified in the Plan for each year of credited service. Early retirement is available at age 55 with 10 years of credited service. If the participant has less than 25 years of credited service, the reduction amount is 3/10 of 1% per month for every month retired prior to attaining age 65. Otherwise, the reduction amount is 3/10 of 1% per month for every month retired prior to attaining age 62.

The normal form of retirement benefit payment is a life annuity. However, if an employee is married on the date their benefit payments commence, his or her retirement benefit is paid in the form of a 50% joint and survivor annuity – unless the member elects not to receive it in this form and has obtained the spouse's written consent. There are also several optional forms of retirement benefit payments, all of which are actuarial equivalents to the life annuity. These optional forms of payment include: Social Security adjusted, 10-year period certain, Restoration Joint and Survivor Annuity (50% only), and Joint and Survivor Annuity 100%, 75%, 66-2/3%, and 50% contingent annuities. According to the Plan document, under the 100%, 75%, 66-2/3%, and 50% contingent annuity option, the participant designates another person (usually a spouse) to receive a continued monthly pension, after his or her death and for the life of the other person (the contingent annuitant), in the selected percentage. The participant's benefit is reduced to reflect payout over two lifetimes. The greater the continuation percentage, the greater the reduction will be. Further details on these optional payment methods can be found in the Plan document.

Any member whose service is terminated other than by death or retirement and who has completed 5 years of service is eligible to receive a vested retirement allowance commencing at age 65. Total and permanent disability benefits are provided for any qualified participant with 10 years of credited service. The disability pension ceases at age

65, at which time the employee receives the normal retirement pension based on credited service to date of disability. Automatic death benefits are payable to the surviving spouse of an employee who dies in active service and who has completed 5 years of active service. The monthly benefit is equal to 50% of the normal benefit accrued to date of death. Benefit commences immediately if the participant is age 55 or older, or when the participant would have reached 55.

d) Vesting

Benefits become vested after 5 years of service to the Company.

(2) Summary of Significant Accounting Policies

a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America (GAAP).

b) Valuation of Investments

The Plan's investment in the Master Trust has been presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See "Note 6: Fair Value Measurements" for discussion of fair value measurement.

c) Security Transactions

Purchases and sales of securities are recorded on a trade date basis. Net investment income includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d) Investment Income

Dividend income is recorded on the ex-dividend date; interest is recorded as earned on the accrual basis.

e) Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and

(Dollars in thousands)

changes therein, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

f) Payment of Benefits

Benefit payments to participants are recorded upon distribution.

g) Administrative Costs

All administrative expenses of the Master Trust, such as trustee, custodian and accounting services, are paid by the Master Trust and then allocated to the participating plans.

h) Risk and Uncertainties

The Plan utilizes various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the financial statements.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

i) Subsequent Events

The Plan has evaluated events through October 1, 2025, the date the financial statements were available to be issued.

(3) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on the number of credited service years ending on the date the benefit information is presented (the valuation date) and the corresponding monthly benefit amount does include future Plan increases.

Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The significant actuarial assumptions used in determining the present value of accumulated plan benefits as of December 31, 2023 were as follows:

Discount rate	5.60%
Mortality rate	Pri-2012 mortality table using scale MP-2021
Average retirement age	64

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2024. Had the valuations been performed as of December 31, there would be no material differences.

The actuarial present value of accumulated plan benefits, determined by Willis Towers Watson for 2023 is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal, or retirement) between the valuation date and the expected date of payment.

The status of the estimated actuarially determined present value of the accumulated benefits under the Plan as of December 31, 2023 is:

Vested benefits:	
Participants / beneficiaries currently receiving payments	\$ 301,524
Other participants	<u>68,374</u>
	369,898
Nonvested benefits	<u>946</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 370,844</u>

The changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2023 were:

Actuarial present value of accumulated plan benefits as of January 1, 2023	\$ 375,045
Increase (decrease) attributable to:	
Benefits accumulated	—
Decrease in the discount period	21,171
Benefits paid	(32,901)
Assumption changes actuarial (income)/losses	<u>7,529</u>
Actuarial present value of accumulated plan benefits as of December 31, 2023	<u>\$ 370,844</u>

(4) Federal Income Tax Status

The IRS has determined and informed the Sponsor by a letter dated May 18, 2017 that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code (the Code). The Plan has been amended since receiving the determination letter. The Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with applicable requirements of the Code. Accordingly, the Plan's financial statements do not include a provision for income taxes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan is subject to routine audits by taxing jurisdictions; however, there are no currently audits for any tax periods in progress.

(5) Interest in the Master Trust

The Plan has an agreement with the Trustee whereby substantially all the assets of the Plan are held in the Master Trust. As of December 31, 2024 and 2023, the following benefit plans participated in the Master Trust:

BASF Corporation Consolidated Bargaining Unit Employees' Pension Plan
BASF Corporation Salaried Employees' Pension Plan

Each participating plan has its own separate account in the Master Trust as of December 31, 2024 but they had undivided interest in the Master Trust as of December 31, 2023. The value of the Plan's interest in the Master Trust is based on the beginning of the period value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan. The Plan had a percentage interest in the Master Trust of approximately 18% and 19% as of December 31, 2024 and 2023, respectively.

(6) Fair Value Measurements

The Financial Accounting Standards Board (FASB) issued Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- | | |
|---------|--|
| Level 1 | Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs. |
| Level 2 | Observable prices that are based on inputs not quoted in active markets but corroborated by market data. |
| Level 3 | Unobservable inputs are used when little or no market data is available which are significant to the fair value measurements. The fair value hierarchy gives the lowest priority to Level 3 inputs. |

In determining fair value, the Master Trust utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible, as well as considers counterparty credit risk in its assessment of fair value.

Notes to Financial Statements
December 31, 2024 and 2023
(Dollars in thousands)

The following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Corporate Stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Money Market: Valued at amortized cost, which approximates fair value.

U.S. Government Securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Corporate Debt Instruments: Corporate bond securities traded on national securities exchanges are valued at the last reported sales price on the last business day of the year. Securities traded in the over-the-counter market and listed securities for which no sales were reported on that date are valued at the last reported bid price.

Common/collective Trusts and 103-12 Investments: The Plan's interests in the common/collective trusts and 103-12 investments are valued at the Net Asset Value (NAV). The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

Partnerships/Joint Ventures: The Plan's interest in partnerships/joint venture funds are valued at the NAV. The NAV, as provided by the investment advisor, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

Futures Contracts: Valued at the last sale price (or, if there is no sale on the valuation day, bid price) in the market where such contracts are principally traded.

Swap Agreements: Valued based on the net present value of all estimated future cash flows. Swaps may be valued in terms of bond prices or a portfolio of forwards contracts.

Ares Global Multi-Asset Credit Fund - The fund is an open-ended limited partnership that invests in a variety of sub-investment grade (high yield) fixed income securities. Investments include among other things, high yield bonds, syndicated loans as well as debt and equity tranches of collateralized loan obligations. Although the nature of the underlying investments is generally tradable and therefore liquid, certain liquidity limitations exist. If these investments were held, it is estimated that the underlying assets of the fund would be liquidated within a couple of months.

Barings Emerging Markets - Barings' Emerging Market Debt Blended Total Return strategy is diversified and invests primarily in debt instruments of Sovereign, Quasi-Sovereign, and corporate issuers, which may be denominated in any currency. They seek maximum total return, consistent with the preservation of capital and prudent investment management, through high current income generation and, where appropriate, capital appreciation. The strategy is benchmark agnostic and designed to be dynamic in its ability to invest across emerging markets strategies in an unconstrained way.

Blackstone Global Multi-Asset Credit Fund - The fund is an open-ended limited partnership that invests in a variety of sub-investment grade (high yield) fixed income securities. Investments include among other things, high yield bonds, syndicated loans as well as debt and equity tranches of collateralized loan obligations. The majority of underlying investments are expected to be tradable and therefore liquid, but a minority will intentionally be invested in illiquid investments, like direct lending, real estate loans etc. If these investments were held, it is estimated that the underlying assets of the fund would be liquidated within a couple of years.

Cerberus Institutional Real Estate Partners III, L.P. - A real estate limited partnership that invests in commercial real estate. The strategy is to buy properties that need some "value add," such as increasing occupancy, making enhancements to reposition buildings, etc. This investment can never be redeemed. Instead, the nature of the investment is that distributions are received through the liquidation of the underlying assets of the fund. If these investments were held, it is estimated that the underlying assets of the fund would be liquidated within 6 years.

Cerberus Institutional Real Estate Partners V, L.P. - A real estate limited partnership that invests in commercial real estate. The strategy is to buy properties that need some "value add," such as increasing occupancy, making enhancements to reposition buildings, etc. This investment can never be redeemed. Instead, the nature of the investment is that distributions are received through the liquidation of the underlying assets of the fund. If these investments were held, it is estimated that the underlying assets of the fund would be liquidated within 6 years.

Dawson Portfolio Finance 3 LP / Whitehorse Liquidity Fund III LP- The fund is a limited partnership that provides preferred equity financing to limited and general partners of private equity funds. The financing is collateralized by private equity portfolios. This investment can never be redeemed. Instead, the nature of the investment is that distributions are received through the liquidation of the underlying assets of the fund. If these investments were held, it is estimated that the underlying assets of the fund would be liquidated within 1 year.

Instead, the nature of the investment is that distributions are received through the liquidation of the underlying assets of the fund. If these investments were held, it is estimated that the underlying assets of the fund would be liquidated within 1 year.

EIG Energy Fund XIV-A, L.P. - A fund that provides debt financing to oil, gas and other energy producers with proven reserves. Return on investment is interest on debt as well as royalties, if investments perform well. This investment can never be redeemed. Instead, the nature of the investment is that distributions are received through the liquidation of the underlying assets of the fund. If these investments were held, it is estimated that the underlying assets of the fund would be liquidated within 2 years.

Fortress Credit Opportunities Fund B L.P. - The fund invests in distressed debt - residential and commercial mortgages, commercial debt, etc. This investment can never be redeemed. Instead, the nature of the investment is that distributions are received through the liquidation of the underlying assets of the fund. If these investments were held, it is estimated that the underlying assets of the fund would be liquidated within 1 year.

If these investments were held, it is estimated that the underlying assets of the fund would be liquidated within 1 year.

Hildene Opportunities Fund - The fund invests in collateralized debt obligations (CDOs) of Trust Preferred Securities (TruPS), a form of legacy bank capital common among US regional banks. The fund has quarterly liquidity subject to 12 months' notice.

Invictus Opportunity Fund II - The fund is structured as a limited partnership and invests in mortgage pools in which the underlying loans do not contain a guaranty by one of the Government Sponsored Enterprises (GSEs). This investment can never be redeemed. Instead, the nature of the investment is that distributions are received through the liquidation of the underlying assets of the fund. It is estimated that the underlying assets of the fund could be liquidated within 1 year.

KKR Global Credit - KKR's Global Credit Opportunities Fund provides investors access to a diversified portfolio of opportunistic and private credit investments. The fund primarily invests in high yield, bank loans and structured credit, often focusing on mispriced or stressed opportunities across public and private markets to generate attractive risk-adjusted returns and current income. KKR's investment strategy is based on: Fundamental credit analysis, capital preservation and active portfolio management.

Magnitude Institutional Shares - The fund is a fund of hedge funds. It invests in a diversified portfolio of different hedge funds. The fund has quarterly liquidity subject to a 12-month notice period and a 20% gating provision.

Oak Street Real Estate Capital Net Lease Property Fund, LP - The fund is a limited partnership that invests in real estate that is let out to tenants using triple net leases. This investment can never be redeemed. Instead, the nature of the investment is that distributions are received through the liquidation of the underlying assets of the fund. If these investments were held, it is estimated that the underlying assets of the fund would be liquidated within 1 year.

Oaktree Real Estate Opportunities Fund VI L.P. - A real estate limited partnership that invests in commercial real estate. The strategy is to buy properties that need some "value add," such as increasing occupancy, making enhancements to reposition buildings, etc. This investment can never be redeemed. Instead, the nature of the investment is that distributions are received through the liquidation of the underlying assets of the fund. If these investments were held, it is estimated that the underlying assets of the fund would be liquidated within 6 years.

PEG Secondary Fund - A fund which buys limited partnership interests from distressed sellers such as endowment funds, which have over invested in illiquid investments. This investment can never be redeemed. Instead, the nature of the investment is that distributions are received through the liquidation of the underlying assets of the fund. If these investments were held, it is estimated that the underlying assets of the fund would be liquidated within 4 years.

PIMCO Long Duration Credit - The fund invests actively in long duration fixed income securities denominated in US dollars, including but not limited to corporate bonds, mortgage securities and municipal bonds. The portfolio is benchmarked to the Bloomberg Barclays US Long Credit Index. The fund has daily liquidity.

TPG Opportunities Partners II L.P. - The fund invests in distressed debt - residential and commercial mortgages, commercial debt, etc. This investment can never be redeemed. Instead, the nature of the investment is that distributions are received through the liquidation of the underlying assets of the fund. If these investments were held, it is estimated that the underlying assets of the fund would be liquidated within 4 years.

(8) Party-in-Interest Transactions

Certain Plan investments are shares or units of funds managed by J.P. Morgan Chase Bank, N.A., the Plan's Trustee, as of December 31, 2024 and 2023. Transactions in these funds qualify as permitted party-in-interest transactions.

(9) Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Interest rates

--	----------------------	--------------------------

Plan-related expenses

Noninvestment expenses paid from the Trust are assumed to be 0.40% of the Fair Value of Assets

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Rates not reflecting stabilization are used to determine PBGC variable rate premiums if the alternative method is used, and are used to determine the PBGC FTAP and the PBGC §4010 FS.

Methods

Valuation date First day of plan year

Funding target Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Decrement timing The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements, the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets Actuarial value of assets is equal to the market value of assets on the valuation date (including any receivables).

Benefits not valued All benefits described in the summary of plan provisions were valued.

BASF and its third party administrator furnished participant census data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by BASF. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with BASF, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with BASF, assumptions were made for missing or apparently inconsistent data elements as described in the Data Action Plan provided on July 18, 2024.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by BASF from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Lump sum conversion rate	No explicit assumption. As required by IRC§430, lump sum benefits are valued using "annuity substitution", so that the valuation interest rates structure is used to value both annuities and lump sums.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Assumption represents an estimate of future experience reflecting considerations including an experience study conducted in 2022.
Disability	The assumption chosen is a table in prevalent use and does not reflect any plan specific experience given the population size and rates of disability are not expected to generate credible experience.
Retirement	Assumptions represent an estimate of future experience reflecting considerations including an experience study conducted in 2022, early retirement subsidies and other plan provisions.
Commencement age for deferred vested benefit	Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. Assumptions represent an estimate of future experience reflecting considerations including an experience study conducted in 2022.
Form of payment	The assumed form and timing of benefit payments varies by plan and within plans by formula. Assumptions represent an estimate of future experience reflecting considerations including an experience study conducted in 2022.
Percent married	Assumptions represent an estimate of future experience reflecting considerations including an experience study conducted in 2022.
Spouse age	Assumptions represent an estimate of future experience reflecting considerations including an experience study conducted in 2022.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Summary of Pension Benefit Levels

If the last day of service is on or before January 28, 2002, the monthly benefit is calculated by multiplying years of Credited Service as of the retirement date by the applicable Monthly Benefit Rate shown in the following table:

Monthly Benefit Rate	Date of Retirement
\$22	01/29/1988 – 01/28/1989
\$24	01/29/1989 – 01/28/1991
\$27	01/29/1991 – 01/28/1993
\$29	01/29/1993 – 01/28/1995
\$30	01/29/1995 – 01/28/1996
\$31	01/29/1996 – 01/28/1997
\$32	01/29/1997 – 01/28/1998
\$36	01/29/1998 – 01/28/2002

Retirements after January 28, 2002 but before January 28, 2006: monthly benefit equals the sum of: years of Credited Service through January 28, 2002 times \$38, plus years of Credited Service from January 29, 2002 forward multiplied by \$42.

Retirements after January 28, 2006: monthly benefit equals the sum of: years of Credited Service through January 28, 2002 times \$41, plus years of Credited Service from January 28, 2002 through the date of termination (or November 30, 2012, if earlier) times \$42.

Pursuant to collective bargaining, BASF prospectively eliminated all benefit accruals after November 30, 2012.

Forms of payment

Preretirement death benefits are payable only as described above. Monthly Pension Benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of the 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. A lump sum is paid if the benefit is under \$5,000. The normal form for Berea is 5 year certain and continuous, for both single and married participants.

Optional forms are also available. Refer to the Assumptions and Methods section for a list of all available forms. See Appendix I for actuarial equivalence basis used to adjust benefit amount for optional forms of payment.

Maximum on benefits and pay

All benefits for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are not assumed for determining contributions.
