Independent Auditor's Report

To the Plan Administrator
Andres Construction Employee Stock
Ownership Plan

Opinion

We have audited the financial statements of Andres Construction Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024 and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and the changes in net assets available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As explained in Note 3, the financial statements include investments valued at approximately \$43,430,000 (96 percent of total plan assets) at December 31, 2024, whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on information provided by Vision ESOP Valuation, LLC. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

To the Plan Administrator
Andres Construction Employee Stock
Ownership Plan

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held at end of year as of December 31, 2024 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Andres Construction Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 1 - Plan Description

The following description of Andres Construction Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established effective January 1, 2017 and most recently amended effective January 1, 2023. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (the "Code"), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

During 2017, the Plan purchased 1,000,000 shares of Andres Holding Corporation (the "Company") common stock, becoming the sole shareholder of the Company, in exchange for a note payable. The note is secured by a pledge by the trust of the unallocated shares of the Company held by the trust. The stock was purchased at a price of \$52.51 per share, for an aggregate purchase price of \$52,514,433.

The Company has no rights against shares once they are allocated to participants. Accordingly, within the financial statements of the Plan as of December 31, 2024 and 2023 and for the year ended December 31, 2024, the assets and liabilities and changes therein pertaining to the accounts of employees with vested rights in allocated stock (allocated) and stock not yet allocated (unallocated) are shown separately. During 2024, approximately 32,140 shares were allocated to participants.

The Plan is administered by the management of the Company. Principal Life Insurance Company Retirement Plan Processing Services (Principal) is the recordkeeper and third-party administrator. Emerson Rickstrew, CPA is the independent trustee (the "Trustee"). The plan administrator oversees Principal and the maintenance of the Plan's reports and records. The plan administrator is responsible for payment of principal and interest on the Plan's note payable.

Eligibility

Employees of the Company are eligible to participate in the Plan after six months of service, provided the employee is at least 20½ years of age, as defined in the plan document. Employees are entered into the Plan on the first day of each plan year coincident with or immediately following completion of the eligibility requirements.

Contributions

The Company makes contributions to the Plan no less than the amount required to pay the annual installment on the note payable entered into by the Plan along with the current expenses of the trust. Contributions are allocated to each eligible participant based on proportionate eligible compensation. Contributions are subject to certain limitations. The Plan does not permit participant contributions or rollovers of participant money into the Plan. During the year ended December 31, 2024, there were company contributions for debt service totaling \$2,366,569, along with additional discretionary contributions totaling \$1,547,866 for the segregation of accounts of terminated participants and the recycling of shares of distributed balances.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on the proportion of a participant's eligible compensation relative to total eligible compensation.

December 31, 2024 and 2023

Note 1 - Plan Description (Continued)

Vesting

Vesting in the participants accounts, plus actual earnings thereon, is based on years of service. Participants vest in contributions made by the Company 20 percent after two years of service and another 20 percent per year thereafter until they become fully vested after six years of service.

A participant's account becomes 100 percent vested upon death, attaining normal retirement age (65), or disability, assuming the participant is an employee of the Company at the time of death, disability, or attaining normal retirement age.

Benefit Payments

Upon death, disability, retirement, or termination of service, each participant's account balance will be distributable. Participant balances \$1,000 or less are distributable in cash upon a distribution event. A participant with a vested balance that exceeds \$1,000 but is less than \$7,000 is entitled to receive a distribution as a lump-sum payment or a direct rollover into an eligible retirement plan. If no instructions are received for balances in this range, the plan administrator will direct the Trustee to roll the balance over to a qualified individual retirement account for the benefit of the participant. Balances in excess of \$7,000 are distributable upon receipt of a distribution request from the participant or beneficiary but are subject to plan distribution provisions governing timing of distribution payments depending on specific factors that are stipulated in the plan document and distribution policy.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares that have been distributed under the terms of the Plan and then either recycle or retire those shares.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in company common stock into investments, which are more diversified. Participants who are at least 55 years of age with at least 10 years of participation in the Plan may, during the first 90 days following the end of each plan year, elect to diversify a portion of their accounts. Diversification is offered to each eligible participant over a 6-year period.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. The Company allocates forfeitures to reinstate previously forfeited account balances for inactive participants, if any, or are added to any employer contributions made to the Plan for the plan year in which the forfeitures occur. Allocations of forfeitures are among the accounts of participants share in the allocation of discretionary contributions in the same proportion that each participant's compensation for the year bears to the total compensation of all such participants for the year. Forfeited balances totaling \$28,769 were allocated to eligible participants during the year ended December 31, 2024.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account. The Trustee is not permitted to vote shares of common stock that have been allocated to participants but for which the Trustee received no voting instructions. The plan administrator will direct the Trustee to vote the unallocated shares of the Plan, which are collateralizing the outstanding note payable.

Party-in-interest Transactions

The Plan's investment in common stock of the Company, financial obligations to the Company, and interest expense paid to the Company qualify as party-in-interest transactions; however, these transactions are exempt from prohibited transaction rules.

December 31, 2024 and 2023

Note 1 - Plan Description (Continued)

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments

Benefits are recorded when paid. Future payments of vested benefits for terminated and retired participants totaled \$3,439,323 as of December 31, 2024.

Administrative Expenses

Various administrative costs are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. The most significant assumptions and estimates relate to the valuation of company common stock. Application of these assumptions requires the exercise of judgment as to future uncertainties and, as a result, actual results could differ from those estimates.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the stock.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 9, 2025, which is the date the financial statements were available to be issued.

December 31, 2024 and 2023

Note 3 - Investments in Common Stock

The Plan's investments in company stock at December 31, 2024 and 2023 are presented in the following table:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	292,914	707,086	260,774	739,226
Cost	\$ 15,382,226	\$ 37,132,207	\$ 13,693,243	\$ 38,816,757
Fair value	\$ 12,721,276	\$ 30,708,724	\$ 10,728,252	\$ 30,411,748

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Interest-bearing Cash

Interest-bearing cash is valued based on the stated value as of period end, which approximates fair value.

Company Common Stock

Company common stock is valued based on an independent appraisal each year. The fair value is approved by the Trustee each year after reviewing the independent valuation in conjunction with the plan administrator. An agreement is reached on the appropriateness of the inputs, assumptions, and methodologies used in the valuation. The valuation of the company common stock used the discounted cash flow method (income technique) and mergers and acquisitions method (market technique) for the years ended December 31, 2024 and 2023. The discounted cash flow method utilized expected future cash flows, coupled with a terminal value calculation, and discounted these to present value using a weighted-average cost of capital to determine fair value. The mergers and acquisitions method analyzes guideline transactions in similar markets to determine fair value.

Note 4 - Fair Value Measurements (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan administrator and the Trustee believe the valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2024 and 2023:

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2024

There were no unfunded commitments or plan-level redemption restrictions on the investments described above.

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated February 8, 2019, indicating that the Plan, as then designed, was qualified for tax-exempt treatment under the applicable section of the Code. Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Note 6 - Notes Payable - Related Party

The Plan has a note payable to the Company. The proceeds of the loan were used to purchase 1,000,000 shares of company common stock. The note was secured by a pledge by the trust of the unallocated shares held by the Plan. The note is to be paid in annual installments of principal and interest. The annual principal and interest installments through maturity in December 2046 are \$2,366,569. Interest accrues at a rate of 2.60 percent per annum. Payments on the note shall be made from the proceeds from contributions and dividends (if any) made by the Company. As the note is repaid, shares are released from collateral and allocated to eligible employees, based on the proportion of debt service paid during the year.

Note 6 - Notes Payable - Related Party (Continued)

Minimum principal payments on this loan to maturity are as follows:

<u>Years Ending</u>	<u>Amount</u>
2025	\$ 1,345,639
