## INDEPENDENT AUDITORS' REPORT

Benefits Committee  
TECO Energy Group Retirement Savings Plan  
Tampa, Florida

### **Report on the Audit of the Financial Statements**

#### ***Opinion***

We have audited the accompanying financial statements of TECO Energy Group Retirement Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of TECO Energy Group Retirement Savings Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of TECO Energy Group Retirement Savings Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about TECO Energy Group Retirement Savings Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of TECO Energy Group Retirement Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about TECO Energy Group Retirement Savings Plan's ability to continue as a going concern for a reasonable period of time.

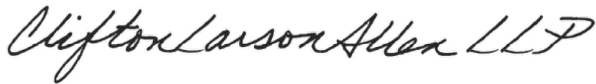

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

***Supplemental Schedule Required by ERISA***

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

## NOTES TO FINANCIAL STATEMENTS

### 1. Description of Plan

The following description of the TECO Energy Group Retirement Savings Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

**General** - The Plan is a defined contribution plan covering substantially all employees of TECO Energy, LLC and subsidiaries (the “Employers”). The Plan was established effective January 1, 1990, with the most recent restatement effective January 1, 2017. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Plan was amended, effective October 21, 2019, such that a member who is covered under the collective bargaining agreement between Tampa Electric Company and the International Brotherhood of Electrical Workers (“IBEW”) Local 108, and who is hired on or after October 21, 2019, shall not be automatically enrolled in the Plan but may elect to be enrolled in the Plan. A member who is covered under the collective bargaining agreement, and who is on an approved leave of absence from the member’s employer for union duties (“IBEW union leave”), shall remain eligible for the IBEW employer contribution during the member’s period of IBEW union leave.

On January 1, 2023, Tampa Electric Company completed the separation of its former Peoples Gas System division (PGS) into a new indirect subsidiary of TECO Energy, Inc., Peoples Gas System, Inc (PGSI), with employees remaining substantially similar within both organizations. In connection with this reorganization, PGSI was added as a participating employer, effective January 1, 2023.

**Contributions** - Eligible employees hired on and after January 1, 2011 will be automatically enrolled in the Plan after 30 days of service unless they choose to opt out of the Plan. The Plan enables participants to save up to 50% of their compensation, including overtime pay, incentive pay or commissions on a pre-tax and/or after-tax basis through payroll savings deductions. The Plan also provides for TECO Energy, Inc. (the “Company”) to contribute a fixed match up to 6% of the participants' payroll savings deductions. Per IRS guidelines, the maximum pre-tax contribution was limited to \$23,000 in 2024 and \$22,500 in 2023. Effective January 1, 2017, the Company fixed match increased from 70% to 75% of participant matched payroll savings deductions that do not exceed 6% of the member’s applicable compensation. In addition, the potential incentive match was capped from 30% to 25% of the participants’ matched contribution. Beginning in 2002, participants age 50 and older are eligible to make additional pre-tax catch-up contributions. Effective January 1, 2018, participants can elect to make Roth 401(k) contributions, including catch-up contributions, within IRS contribution limits.

The additional incentive match is based on the achievement of certain operating company financial goals and may be contributed by the Employer following year-end. This incentive match is recorded as an employer contribution receivable in the Statements of Net Assets Available for Benefits.

Participants may also contribute amounts representing distributions from other qualified plans. Rollover contributions are not eligible for company matching contributions.

Effective October 21, 2019, a member who is covered under the collective bargaining agreement between Tampa Electric Company and the IBEW shall not be eligible to participate in the Plan for purposes of receiving the fixed matching contribution. This does not apply to members of the Plan who are also considered grandfathered members of the TECO Energy Group Retirement Plan. A grandfathered member is defined as a member who was a member on July 1, 2001 and attained age 40 on or before July 1, 2001.

Effective October 21, 2019, the Company shall contribute to the Plan on behalf of each member who is covered

under the collective bargaining agreement between Tampa Electric Company and the IBEW (including employees on leave due to a total disability), an employer contribution equal to a percentage of the member's compensation for each member's bi-weekly pay period based on the following chart:

IBEW 401k contribution table - effective 10/21/2019	
Tenure	contribution %
0.00 - 4.99 years	6%
5.00 - 10.99 years	12%
11.00 - 20.99 years	14%
21.00 - 30.99 years	18%
31.00+ years	21%

A year of tenure shall be credited to a member on each anniversary of the member's date of employment (or date of reemployment) with the Company, provided that the member has remained continuously employed with the employer for the period at issue. If a member's employment with the Company is terminated and the member is subsequently rehired by the Company, the years of tenure credited to the member prior to the date of termination shall be added to years of service credited after the rehire date.

**Vesting** - Participants leaving the Company are entitled to 100% of their contributions and earnings attributable to these amounts. In addition, participants in the Plan are fully vested immediately in the contributions of the Company.

**Participant Accounts** - Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution, and allocations of Company discretionary contributions and Plan earnings, and charged with withdrawals and allocations of Plan losses based on participant account balances as defined. Investment choices are available for participant contributions. Earnings, gains or losses for each of the funds are credited each business day. Participant and employer matching contributions are remitted to Empower Retirement each pay period for immediate investment and credited to participant accounts. All other participant transactions are reflected in individual accounts as of the date of such transactions.

Participants are permitted to make changes to their election type and percentages any time through Empower Retirement. Changes are effective within two payroll cycles. Changes in investment elections for future contributions and existing balances are also allowed any time and are made as of the close of that business day. Investment allocations are available in increments of 1%.

**Payment of Benefits** - On termination of service due to death, disability, or retirement, a participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account in any of the following methods: 1) lump sum, 2) periodic payments made in installments, and 3) any combination of payments.

Effective February 15, 2023 a participant who has attained the age of age 59½ may elect to withdraw from any of their vested accounts under the Plan.

**Notes Receivable from Participants** - The Plan provides a note feature that allows participants to borrow from their accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their account balance, whichever is the lesser amount. Note transactions are treated as transfers from/to the participant account to/from the participant note account. Note terms range from six months up to five years for personal (signature) notes and from six months up to 10 years for the purchase of a principal residence. The notes are secured by the balance in the

participant's account and bear interest at prime rate plus 1 percentage point. The loan program allows for two general purpose loans and one primary residence loan. Principal and interest is paid ratably through payroll deductions and is credited to the participant's note account. At December 31, 2024 the interest rate of outstanding notes receivable from participants was 4.25% to 10.50% for the entire year. No allowance for credit losses has been recorded as of December 31, 2024 and 2023.

**Termination** - While the Company has not expressed any intent to discontinue the Plan, it may do so at any time subject to the provisions of the ERISA. Upon such termination of the Plan, the accounts of members affected by such discontinuance, termination or partial termination will remain nonforfeitable. Upon termination of the Plan, the trustee will continue to hold the assets of the trust fund attributable to contributions by a terminating employer and members in its employ for distribution as directed by the Benefits Committee.

## 2. **Summary of Significant Accounting Policies**

**Basis of Accounting** - The financial statements of the Plan are prepared under the accrual method of accounting, except for benefits paid to participants, which are recorded when paid.

**Investment Valuations and Income Recognition** - Investments in mutual funds and the collective trust fund are valued at the last reported sales price on the last business day of the Plan year. See Note 3 for additional information on investment valuations.

The accounting guidance for fair value measures specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. In accordance with this guidance, these two types of inputs have created the following fair value hierarchy:

- Level 1 - Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis. Level 1 primarily consists of financial instruments such as exchange-traded derivatives, listed equities and U.S. government treasury securities.
- Level 2 - Pricing inputs are other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date. Level 2 includes those financial instruments that are valued using models or other valuation methodologies. These models are primarily industry-standard models that consider various assumptions, including quoted forward prices for commodities, time value, volatility factors, and current market and contractual prices for the underlying instruments, as well as other relevant economic measures. Substantially all of these assumptions are observable in the marketplace throughout the full term of the instrument, can be derived from observable data or are supported by observable levels at which transactions are executed in the marketplace.
- Level 3 - Pricing inputs include significant inputs that are generally not observable in the marketplace. These inputs may be used with internally developed methodologies that result in management's best estimate of fair value. Level 3 instruments include those that may be more structured or otherwise tailored to customers' needs. At each balance sheet date, the Company performs an analysis of all instruments subject to the accounting guidance for fair value measures and includes in Level 3 all of those whose fair value is based on significant unobservable inputs.

This hierarchy requires the use of observable market data when available.

Purchases and sales of securities are reflected on the trade date. Gain or loss on sales of securities is based on average cost. Income from investments is recorded as earned on an accrual basis. Dividends are recorded on the ex-dividend date.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits, the net appreciation in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation on those investments.

**Notes Receivable from Participants** - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the plan document.

**Payment of Benefits** - Benefit payments to participants are recorded upon distribution.

**Use of Estimates** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and such differences could be material.

**Administrative Expenses** – Investment related fees and administrative fees are primarily paid from participant directed accounts to providers of investment and administrative services. Mutual fund per share prices are reported net of fees.

**Risks and Uncertainties** - The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

**Uncertain Tax Positions** - Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**Concentration of Credit Risk** - Financial instruments which potentially subject the Plan to concentrations of credit risk consist of the Plan's investments. Plan management maintains the Plan's investments with what Plan management believes to be high credit quality investment managers who attempt to limit the amount of credit exposure to any particular single entity.

### **Subsequent Event**

In preparing these financial statements, Plan management has evaluated events and transactions for potential recognition or disclosure through October 8, 2025, the date the financial statements were available to be issued.

## **3. Investments**

The Plan's investments were held by a bank-administered trust fund with Empower Trust Company, LLC (formerly Great-West Trust Company, LLC) and Empower Annuity Insurance Company of America (formerly Great-West Life & Annuity Insurance Company), (collectively referred to as Empower). Fair value is measured using the procedures set forth below for all investments. When available, the Company uses quoted market prices on investments traded on an exchange to determine fair value and classifies such items as Level 1.

If observable transactions and other market data are not available, fair value is based upon third party developed models that use, when available, current market-based or independently-sourced market parameters such as interest rates, currency rates or option volatilities. Items valued using third party generated models are classified according to the lowest level input or value driver that is most significant to the valuation. Thus, an item may be classified in Level 3 even though there may be significant inputs that are readily observable.

There are three main approaches to measuring the fair value of assets and liabilities:

1) Market Approach - The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities (including a business). The market approach includes the use of matrix pricing.

2) Income Approach - The income approach uses valuation techniques to convert future amounts (for example, cash flows or earnings) to a single present amount (discounted). The measurement is based on the value indicated by current market expectations about those future amounts.

3) Cost Approach -The cost approach is based on the amount that currently would be required to replace the service capacity of an asset (often referred to as current replacement cost). The cost approach assumes that the fair value would not exceed what it would cost a market participant to acquire or construct a substitute asset of comparable utility, adjusted for obsolescence.

The following tables set forth by level within the fair value hierarchy the Plan's investments as of December 31, 2024 and 2023. As required by the accounting guidance for fair value measures, the investments are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels. For other investments, the market approach was used.

<b>Total investments</b>				<u><u>\$1,037,586,639</u></u>

(1) In accordance with accounting standards, certain investments that are measured at fair value using the net asset value per share practical expedient have not been classified in the fair value hierarchy. The fair value amounts in this table are to permit reconciliation of the fair value hierarchy to amounts presented in the Statements of Net Assets Available for Benefits.

The Plan invests in the Putnam Stable Value Fund, a common/collective trust (CCT) fund. This CCT primarily invests in investment contracts issued by insurance companies and other financial institutions. The CCT is valued at the daily net asset value (NAV) of units within the collective trust. NAV is a readily determinable fair value and is the basis for current transactions. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the CCT, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. The investment in the CCT is valued at the contract value of units. The CCT's objective is to provide a fixed income yield with minimal market-related risk through investing in a variety of guaranteed investment contracts (GICs), security-backed investment contracts (SBICs), and money market instruments. Contributions and redemptions to the collective trust fund may be made daily at the current NAV and are considered as made immediately after the daily valuation. Subject to certain restrictions, withdrawals from the collective trust fund are generally permitted daily at contract value. The collective trust fund invests at least 5% of its assets in high-quality money market instruments, cash, cash equivalents and, pursuant to liquidity and deposit agreements, stable value funds with

investment policies and other provisions similar to those of the collective trust fund. There were no unfunded commitments as of the year end.

Investments in mutual funds are valued at the NAV of shares held by the Plan at year end. Mutual funds represent investments with various investment managers. The fair values of mutual funds are determined by reference to the fund’s underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds traded on national securities exchanges are valued at the net asset value. All mutual funds are publicly traded.

The Vanguard Retirement Trusts are trusts which invest, directly or indirectly, primarily in shares of regulated open-end investment companies, with the principal investment objective of providing a diversified portfolio of equity and fixed-income securities. The trusts are valued at the net asset value, as provided by the trustee, which is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities and then divided by the total number of units outstanding on the valuation date. Redemptions may be made daily at the current NAV and are considered as made immediately after the daily valuation. There were no unfunded commitments as of the year end.

The Blackrock Collective Trust Funds are index funds that are invested and reinvested primarily in portfolios of US and International equity and debt securities. The funds are valued at the net asset value, as provided by the trustee, which is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities and then divided by the total number of units outstanding on the valuation date. The redemption frequency is daily, and the redemption notice period ranges from the same day to two days. There were no unfunded commitments as of the year end.

#### 4. Tax Status

The Internal Revenue Service (“IRS”) has determined and informed the Company by letter dated March 23, 2018, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (“IRC”) and are entitled to favorable tax treatment (tax exempt). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan, as amended, is designed and is currently being operated in material compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

#### 5. Transactions with Parties-In-Interest

The Plan paid Empower Retirement fees of \$200,545 for administrative services for the year ended December 31, 2024.
