## Independent Auditors' Report

Plan Administrator

American Chrome & Chemicals, Inc. Corpus Christi Plant Pension Plan:

### *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit*

We have performed audits of the financial statements of the American Chrome & Chemicals, Inc. Corpus Christi Plant Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

### *Opinion*

In our opinion, based on our audits and on the procedures performed as described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report,

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued or are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditors' Responsibilities for the Audit of the Financial Statements***

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

#### *Other Matter - Supplemental Schedules Required by ERISA*

The supplemental schedule of assets (held at end of year) as of December 31, 2024 and schedule of reportable transactions for the year then ended are presented for the purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including the form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

**In our opinion**

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

PENSION PLAN**

**Notes to the Financial Statements**

**December 31, 2024 and 2023**

**(1) Description of plan**

The following description of the American Chrome & Chemicals, Inc. Corpus Christi Plant Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions. American Chrome & Chemicals, Inc. (the "Plan Sponsor") is the sponsor of the Plan.

Effective January 31, 2023, the Plan name was changed from Elementis Chromium Corpus Christi Plant Pension Plan to American Chrome & Chemicals, Inc. Corpus Christi Plant Pension Plan and the Plan Sponsor was changed from Elementis Chromium, Inc. to American Chrome & Chemicals, Inc.

**(a) General**

The Plan is a non-contributory defined benefit plan. The Plan was adopted on October 15, 1979 and was amended and restated on January 31, 2023. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan is administrated by the Plan Sponsor's Investment Committee (the "Committee").

**(b) Eligibility**

All union employees of the Plan Sponsor's Corpus Christi Plant are eligible to participate in the Plan upon hire ("participants").

**(c) Pension benefits**

Plan participants are entitled to monthly pension benefits upon retirement. Pension benefits are determined by a monthly rate based on participants' retirement dates ("benefit rate") multiplied by the number of years of continuous service at retirement. Participants who retired at the normal retirement age of 65 and on or after November 1, 2000 are entitled to a monthly rate of \$37 multiplied by the number of years of continuous service at retirement. The benefit rate was increased annually between October 1979 through November 2000. Pension benefits are also calculated based on years of credited service. Participants may elect to receive reduced benefits upon early retirement, provided that they meet age or years of service requirements, as defined by the Plan document.

Accrued benefits are payable as an annuity over the participant's lifetime or as a qualified joint and 55% survivor annuity.

**AMERICAN CHROME & CHEMICALS, INC. CORPUS CHRISTI PLANT  
PENSION PLAN**

**Notes to the Financial Statements**

**December 31, 2024 and 2023**

**(d) Funding policy**

The Plan Sponsor's funding policy is to contribute such amounts that are necessary to provide assets sufficient to meet the benefits to be paid to Plan participants. The minimum amount of such contributions shall be sufficient to fund the Plan's current service costs on a current basis and to fund prior service costs plus interest. No Plan Sponsor contribution was accrued for the years ended December 31, 2024 and 2023. The Plan has met the minimum funding requirements established by ERISA for the years ended December 31, 2024 and 2023.

**(e) Vesting**

Participants are fully vested in their retirement benefit after five years of service, as defined by the Plan document.

**(f) Death and disability benefits**

If a vested participant dies, the Plan automatically provides death benefit coverage to the spouse of the participant in the form of an annuity equal to 55% of the participants' monthly benefit. This benefit is payable to the spouse if the participant was already receiving benefits. Active employees who have completed 15 years of continuous service, who become totally disabled are eligible to receive monthly benefits, without reduction, equal to the monthly benefit accrued as of the time they become disabled until the earlier of recovery, death, or retirement.

**(2) Summary of significant accounting policies**

**(a) Basis of accounting**

The financial statements of the Plan are prepared on the accrual basis of accounting.

**(b) Investment valuation and income recognition**

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan determines the valuation policies utilizing information provided by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company ("Principal") for the years ended December 31, 2024 and 2023. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**AMERICAN CHROME & CHEMICALS, INC. CORPUS CHRISTI PLANT  
PENSION PLAN**

**Notes to the Financial Statements**

**December 31, 2024 and 2023**

**(c) Payment of benefits**

Benefits payments are recorded when paid.

**(d) Administrative expenses**

Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees paid by the Plan incurred in connection with the general administration of the Plan are included in administrative expenses. Fees incurred by the Plan for the investment related services are included in net appreciation in fair value of investments.

**(e) Use of estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

**(f) Events occurring after reporting date**

The Plan Sponsor has evaluated events and transactions that occurred between December 31, 2024 and October 7, 2025, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

**(3) Actuarial present value of accumulated plan benefits**

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Benefits under the Plan are calculated based on Plan provisions. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered at the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for death, disability, or retirement) between the valuation date and the expected date of payment.

**AMERICAN CHROME & CHEMICALS, INC. CORPUS CHRISTI PLANT  
PENSION PLAN**

**Notes to the Financial Statements**

**December 31, 2024 and 2023**

The significant assumptions used by the Plan's consulting actuaries as of January 1, 2024, are as follows:

Assumed interest rate	5.75%
Mortality	Pri-2012 mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2023)
Costing method	Unit Credit Actuarial Cost Method
Retirement	At the later age of 62 or their current age
Inflation	2.40%

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The Plan's mortality rate for 2023 used the Pri-2012 mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2022). Additionally, the assumed interest rate was 5.50% for 2023.

**(4) Certified information**

Certain information related to investments presented and disclosed in the accompanying financial statements and supplemental schedules of assets (held at end of year) and reportable transactions, including the fair value of investments held at December 31, 2024 and 2023, and net appreciation in fair value of investments and dividend income was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Principal as of December 31, 2024 and 2023 and for the years then ended.

**(5) Accumulated plan benefits**

A schedule of the actuarial present value of accumulated plan benefits as of January 1, 2024, is as follows:

Actuarial present value of vested benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 5,795,179
Other participants	<u>2,266,345</u>
Total vested benefits	8,061,524
Nonvested benefits	<u>46,470</u>
Total actuarial present value of accumulated plan benefits	\$ <u>8,107,994</u>

**AMERICAN CHROME & CHEMICALS, INC. CORPUS CHRISTI PLANT  
PENSION PLAN**

**Notes to the Financial Statements**

**December 31, 2024 and 2023**

The schedule of changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2024, is as follows:

Actuarial present value of accumulated plan benefits at beginning of year	\$ <u>8,491,588</u>
Increase (decrease) during the year attributable to:	
Benefits accumulated	(27,574)
Interest	449,819
Benefits paid	(634,629)
Assumption changes	<u>(171,210)</u>
Net decrease	<u>(383,594)</u>
Actuarial present value of accumulated plan benefits at end of year	\$ <u>8,107,994</u>

**(6) Fair value measurements**

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

**AMERICAN CHROME & CHEMICALS, INC. CORPUS CHRISTI PLANT  
PENSION PLAN**

**Notes to the Financial Statements**

**December 31, 2024 and 2023**

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2024 and 2023.

- (i) *Mutual fund*: Valued based on the fund's reported closing net asset value ("NAV") as the last business day of the plan year. The fund is deemed to be actively traded.
- (ii) *Pooled separate accounts*: The NAVs of the accounts are determined daily utilizing the values of the underlying assets.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

**Fair Value Measurements as of  
December 31, 2024 Using the Following Inputs**

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Total assets in the fair value hierarchy:				
Pooled separate accounts	\$ -	\$ 3,131,295	\$ -	\$ 3,131,295
Investment measured at NAV as a practical expedient (a)				<u>5,000,038</u>
Investments, at fair value				<u>\$ 8,131,333</u>

**Fair Value Measurements as of  
December 31, 2023 Using the Following Inputs**

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual fund	\$ 705,248	\$ -	\$ -	\$ 705,248
Pooled separate accounts	<u>-</u>	<u>7,643,323</u>	<u>-</u>	<u>7,643,323</u>
Investments, at fair value	<u>\$ 705,248</u>	<u>\$ 7,643,323</u>	<u>\$ -</u>	<u>\$ 8,348,571</u>

- (a) This investment is measured at NAV as a practical expedient to estimate fair value and, therefore, has not been classified in the fair value hierarchy.

**AMERICAN CHROME & CHEMICALS, INC. CORPUS CHRISTI PLANT  
PENSION PLAN**

**Notes to the Financial Statements**

**December 31, 2024 and 2023**

The following table describes the investment for which the fair value is measured using NAV as a practical expedient as of December 31, 2024. There are no participant redemption restrictions for this investment; the redemption notice period is applicable only to the Plan.

<u>Description</u>	<u>Fair Value</u> <u>12/31/2024</u>	<u>Unfunded</u> <u>Commitments</u>	<u>Redemption</u> <u>Frequency (if</u> <u>Currently Eligible)</u>	<u>Redemption</u> <u>Notice Period</u>
Collective trust fund	\$ 5,000,038	n/a	n/a	5 days

**(7) Income tax status**

The Plan obtained a favorable determination letter on May 6, 2011, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**(8) Risks and uncertainties**

The Plan invests in investment securities which are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

**AMERICAN CHROME & CHEMICALS, INC. CORPUS CHRISTI PLANT  
PENSION PLAN**

**Notes to the Financial Statements**

**December 31, 2024 and 2023**

**(9) Related party and party-in-interest transactions**

The Plan allows purchases and sales of assets through Principal, and certain Plan investments held are units of pooled separate accounts managed by Principal, and therefore, these transactions qualify as party-in-interest transactions under ERISA. As described in Note 1, the Plan paid expenses to various service providers which also qualify as party-in-interest transactions.

**(10) Plan termination**

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of termination, the Plan's assets are allocated, as prescribed by ERISA and its regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable, or would have been payable, on the day before the commencement of the said three-year period to the extent the benefits are based on provisions of the Plan during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC"), up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Assumptions selected by actuary

Inflation	<p>2.40% increase per year.</p> <p>Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.</p>
Asset return	<p>6.25% for the current plan year.</p> <p>The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.</p>
Expected expense	<p>The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.</p>
Retirement	<p>Active participants are assumed to retire at 62.</p> <p>Inactive participants are assumed to retire at Normal Retirement Age as defined in <a href="#">Plan provisions</a>.</p> <p>This assumption is based on the results of recent experience analysis and anticipated future experience.</p>
Disability	<p>1987 Commissioner's Group Disability Table, six month elimination period, male and female.</p> <p>We rely on a publicly published table due to the limited size of the plan. The 1987 CGDT was recommended by the Society of Actuaries for pension valuation purposes.</p>
Marriage	<p>75% married; husbands are 3 years older than wives.</p> <p>This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.</p>

Withdrawal	<p>2003 Society of Actuaries Small Plan Age Table, multiplied by 0.60.</p> <p>We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 0.60 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.</p>
Form of benefit	<p>Participants are assumed to receive their benefits on the normal form at the assumed retirement age.</p>

#### Methods prescribed by law

Liability measure	<p>Funding target is the present value of the benefits accrued on the valuation date.</p> <p>Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.</p>
Benefit accrual	<p>All benefits paid at decrement are considered in total and then split to determine how much is included in funding target. The following pieces are included in the funding target.</p> <ul style="list-style-type: none"><li>The portion based on the plan's definition of accrued benefit.</li><li>The benefit portion in excess of the accrued benefit based on the ratio of the participant's years of service on the valuation date to the years of service the participant will have at the time of decrement.</li></ul> <p>The benefits included in target normal cost are calculated similarly, by splitting the benefits. The target normal cost is based on the difference between the amount included in Funding Target and an amount calculated assuming the participant accrues service through the end of the plan year.</p>

#### Methods selected by plan sponsor

Asset method	<p>The asset valuation method is prescribed by law for plans that elect to use a value other than market value.</p> <p>For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.</p> <p>The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.</p> <p>When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.</p>
--------------	---

Segment rates	24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.
PBGC premium basis	Variable rate premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 01/01/2020 plan year and this method must be used for five years before a change can be made.

#### Methods elected by actuary

Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	<p>A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.</p> <p>The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.</p>

#### Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality	Based on Pri-2012 Total dataset base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2023).
Mortality base rates	<p><b>Before benefit payment period</b> Employee amount-weighted, male and female</p> <p><b>During benefit payment period</b> Retiree amount-weighted, male and female</p>

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

**Mortality improvement**

Principal 2023 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

Parameter	Principal 2023
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2029/2029
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2023
COVID-19 or Excess load	None <sup>1</sup>

<sup>1</sup>Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.

See [Mortality documentation](#) for rationale and additional information.

**Interest rate used to value liabilities**

5.75%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

**Treatment of administrative expenses**

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the restated plan document signed 12/30/2023.

#### Plan eligibility

Age/Service	No age or service requirement.
Class	Any member of the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied and Industrial and Service Workers International Union, Local 13-00153.

#### Normal retirement benefit

Age	Attained age 65.
Form	Monthly annuity payable for life (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	Years of Continuous Service multiplied by \$444.00 (effective November 1, 2000) per year.

#### Early retirement benefit – participant option

Age/Service	For active participants, attained age 60 with at least 10 Years of Continuous Service or attained age 55 and whose age plus Years of Continuous Service total 80 or more.  For terminated vested participants, attained age 60 or age 55 with 30 Years of Continuous Service.
Form	Same as normal retirement benefit.
Amount	For active participants, accrued benefit on early retirement date reduced by 4.8% for each year that early retirement date precedes age 62 or the date they are credited with 37 Years of Continuous Service (whichever results in the lesser reduction).  For terminated vested participants, accrued benefit reduced 6.67% for each year that his early retirement precedes age 65.

#### Supplemental benefit

Age/Service	Attained age 55, but not age 62 and has 30 or more Years of Continuous Service
Form	Monthly annuity payable until age 62 or until he becomes eligible for any benefit by reason of age or disability under the Federal Social Security Act.
Amount	\$3,000 per year, reduced by amount of earnings in excess of \$10,000.

#### Early retirement benefit – employer option

Age/Service	Attained age 60 with at least 10 Years of Continuous Service.
Form	Same as normal retirement benefit
Amount	Normal retirement benefit with no reduction.

#### Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on late retirement date.

#### Termination benefit

Vesting percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

#### Disability retirement benefit

Eligibility	Completed at least 15 Years of Continuous Service and is totally and permanently disabled.
Form	Immediate monthly payments continuing until the earlier of recovery, death or Normal or Early retirement.
Amount	Accrued benefit at the time of disability.

#### Death benefit

Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death. If participant had ten Years of Continuous Service, benefit is payable immediately.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 55% survivor annuity in effect, then died the next day.

## Definitions

- Year of continuous service** One year of benefit service shall be credited for each plan year in which a participant earns 1,500 hours of service. If a participant earns less than 1,500 hours, 1/12 of a year of benefit service will be credited for each month in which 125 hours are worked.
- Vesting service** One year of benefit service shall be credited for each plan year in which a participant earns 870 hours of service.
- Optional forms of benefit payments** The optional forms of benefit payments are:
- Monthly annuity payable for life
  - Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 55, 75 or 100.

The optional form conversion basis is as follows:

Survivorship Percentage	Conversion Factor	Contingent Annuitant Age Adjustment*
50	.85	1%
55	.90	½%
75	Actuarial Equivalent	n/a
100	.70	1%

\*Adjusted up or down for each complete year by which the spouse's age differs from the participant.

The actuarial equivalence basis is 6% interest and the 1971 Group Annuity Mortality table for payments other than lump sums.

### Lump sum provisions

Small amount force out (SAFO) – allowed up to \$1,000.

Lump sums in excess of SAFO - aren't allowed.

Conversion –greater of the deferred or immediate rate with early retirement factor based on the applicable interest rate and applicable mortality table as set forth in Code Section 417. The applicable interest rate uses the first calendar month preceding the first day of the stability period which is the plan year.

## Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

## Significant Event

The enrolled actuary has not been made aware that any significant events have occurred during the year.

Schedule SB, Line 25 – Change in Method  
American Chrome & Chemicals, Inc. Corpus Christi Plant Pension Plan  
EIN 42-1557978 Plan No. 004

The Employee Retirement Income Security Act of 1974, Section 103(c)(4), requires the plan administrator to furnish an explanation of a change in the enrolled actuary as part of the annual report. There was a change in enrolled actuaries since last year. The actuarial valuation work continues to be done by Principal Life Insurance Company. However, the individual involved with this plan as the enrolled actuary has changed due to a change in the plan assignment among enrolled actuaries at Principal Life Insurance Company.

Schedule SB, Line 24 – Change in Actuarial Assumptions  
American Chrome & Chemicals, Inc. Corpus Christi Plant Pension Plan  
EIN 42-1557978 Plan No. 004

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The assumed asset return for the current year has increased from 5.75% to 6.25%. This rate is used in the calculation of the actuarial value of plan assets.
