(1) Name: **FORVIS MAZARS, LLP**

(2) EIN: **44-0160260**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		15900000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	X		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		X	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		X	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? Yes No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

Independent Auditor's Report

Plan Administrator
Washington University Retirement Savings Plan
St. Louis, Missouri

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Washington University Retirement Savings Plan (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Retirement Savings Plan

Notes to Financial Statements

December 31, 2024 and 2023

1. DESCRIPTION OF THE PLAN

The following brief description of the Washington University Retirement Savings Plan (the “Plan”), which was established June 3, 1936, by Washington University (the “University”, the “Employer”, or the “Plan Administrator”), provides only general information. Eligible employees who choose to participate (“Participants”) should refer to the Plan Document, as amended, for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that is sponsored by the Employer. All employees are eligible to enroll in the Plan. Employees may begin participation on their date of employment or as soon as administratively feasible. Prior to July 1, 2023, employer contributions were generally provided after two years of service. As of July 1, 2023, employer contributions were provided to all faculty and staff that had elected to contribute at least 5%. The Plan provides for a separate accumulation account for each Participant that meets the requirements of Internal Revenue Code (IRC) Section 403(b). Plan contributions are invested, at the direction of each Participant, in one or more of the Funding Vehicles available to Participants under the Plan. “Funding Vehicles” means any group or individual annuity contract that meets the requirements of Code Section 403(b)(1) or custodial account that meets the requirements of Code Section 403(b)(7) that are approved by the Plan Administrator.

Benefits are based solely on the amounts of Plan contributions to the Participant’s accumulation accounts and earnings, if any. All benefits under the Plan are fully funded and provided through the Funding Vehicles selected by the Participant and are held at Teachers Insurance and Annuity Association of America (TIAA or “Plan Custodian”) and College Retirement Equities Fund (CREF) as of December 31, 2024 and 2023. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

At date of hire, Participants may contribute, through a salary deferral election, from 0 to 80 percent of their eligible pay up to the current IRS annual maximum. An automatic contribution rate is set for faculty and staff Participants hired on or after July 1, 2023 at 5 percent or 3 percent for Participants hired prior to July 1, 2023, both with an automatic increase of 1 percent (to a maximum of 15 percent) annually on the first day of the month following the employee’s anniversary date. These amounts are contributed to the Plan as Elective Deferrals and are allocated as determined by their existing investment allocation election. The Participant’s contribution may be made on a pre-tax or after-tax basis. Participants may elect to terminate or change their automatic contribution rate or automatic escalation rate at any time. Participant rollover contributions are also permitted. The Employer contribution is based on the Participant’s hire date and/or age. Contributions are subject to certain limitations. The Plan provides a number of funds from which the Participant may select for investment of contributions. A Participant may change his or her allocation of future contributions at any time.

Participant Accounts

Each Participant’s account is credited with the Participant’s contribution, the Employer’s contribution (if applicable) and Plan earnings and is charged with an allocation of appropriate expenditures from the Plan Custodian and the Plan Administrator. Plan contributions are invested in

Washington University

Retirement Savings Plan

Notes to Financial Statements

December 31, 2024 and 2023

one or more “Funding Vehicles” available to Participants. The benefits to which a Participant is entitled are the benefits that can be provided from the Participant’s vested account.

Vesting

Participant contributions, and any earnings thereon, are fully vested when such Plan contributions are made. Employer contributions for faculty and staff employees hired on or after July 1, 2023 are subject to a three-year vesting period. Employer contributions subsequent to July 1, 2023 for faculty and staff employees hired prior to July 1, 2023 are subject to a two-year vesting period, including years of service prior to July 1, 2023. Once fully vested, both Participant and Employer contributions are non-forfeitable when such Plan contributions are made, subject to certain fees and charges as may be imposed by the Plan Custodian.

Payment of Benefits

Distributions may be paid only when a Participant attains age 59 ½, separates from service, dies or becomes disabled or earlier under certain conditions of hardship involving an immediate and heavy financial need. A Participant who has attained age 59 ½, or is disabled, may receive a cash withdrawal from the Participant’s accumulation account as permitted by the Funding Vehicle, while still employed by the Employer. A Participant may elect to receive retirement benefits under any of the forms of benefit available under the relevant Funding Vehicle. Upon termination of service, a Participant may elect to move their account to a new employer sponsored Plan, take a distribution, roll over to an Individual Retirement Account (IRA), or leave their account balances exceeding \$7,000 as of plan year 2024 and \$5,000 for plan year 2023 and prior with TIAA. Accumulation account balances of less than the account balance thresholds noted above may be rolled over to an individual retirement account designated by the Plan Administrator as soon as administratively practical upon the Participant’s severance of employment, unless the Participant elects a lump sum payment paid directly to the Participant or a direct rollover to an eligible retirement plan. At December 31, 2024 and 2023, Plan assets include \$192,466 and \$91,996 respectively, allocated to accounts of terminated or retired Participants who have elected to withdraw from the Plan but have not yet been paid.

During April 2020, the Plan Administrator implemented Coronavirus Aid, Relief, and Economic Security Act (CARES Act) provisions for coronavirus-related distributions (CRD). Through December 31, 2020, qualified participants were permitted to take a CRD of up to \$100,000 from the Plan. Participants who elected to take a CRD had the option to have the distribution taxed ratably over a three-year period, with the ability to recontribute up to the full amount of the distribution within three years and not be subject to federal income tax as a result. The Plan also waived minimum distribution requirements for any distribution required to be made in 2020.

Loans

The Plan Document included provisions authorizing loans from the Plan Custodian to active eligible Participants. Loans were made to any eligible Participant provided they had a sufficient balance available in funds that were liquid. The Plan allows a Participant to have a maximum of two active loans against their accumulation account attributable to elective deferrals. Once a loan was paid in full, the Participant could initiate another in accordance with IRS regulations. Loans were available from a minimum of \$1,000 to a maximum of \$50,000 depending on the amount the Participant currently had in the Plan and whether the Participant had other outstanding loans. All loans are

Washington University
Retirement Savings Plan
Notes to Financial Statements
December 31, 2024 and 2023

repayable over a period not to exceed five years (except for loans for the purchase of a principal residence).

As part of the Plan Administrators implementation of the CARES Act provisions during April 2020, loan limits were increased to \$100,000. In addition, loan repayment due dates through December 31, 2020, and loan terms were extended by one year.

110% of the Participant's loan balance is held as collateral in the TIAA Traditional Annuity account within the Participant's account for TIAA account loans. The amount held as collateral at December 31, 2024 and 2023 is \$3,758,244 and \$5,850,373, respectively. As of February 8, 2021, the Plan no longer allows for new loans from the Plan Custodian.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000. These loans are offered with a fixed rate of interest equal to the Wall Street Journal Prime Rate plus 1% at the time of the loan, and the loan balance is deducted directly from participant accounts. Subsequent loan payments, including interest, are credited back to participant accounts.

Plan Termination

Although it has not expressed an intention to do so, the Employer has the right under the Plan to discontinue its contributions at any time and/or to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination or complete discontinuance of Plan contributions, the Employer will notify all Participants of the termination.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting. Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

The Plan is funded by participant-controlled investments. Contributions are allocated to the TIAA Traditional Annuity contract, CREF Variable Annuity accounts, Nuveen mutual funds, Vanguard mutual funds, the TIAA Real Estate Pooled Separate account and certain other mutual funds.

Washington University
Retirement Savings Plan
Notes to Financial Statements
December 31, 2024 and 2023

The TIAA Traditional Annuity account is recorded at contract value which approximates fair value as estimated by TIAA. Contract value, as reported to the Plan by TIAA, represents contributions made under the contract, plus interest at the contract rate, less funds to pay withdrawal benefits and administrative expenses. The investment contract with TIAA contains liquidity restrictions that require withdrawals and transfers from the investment contract to other investment options available to the Plan to be spread over a period of ten annual installments or five annual installments for withdrawals after a Participant's termination of employment.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, or (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause significant withdrawal from the Plan. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Participants purchase accumulation units in the variable annuity contracts and their value is calculated daily. Variable annuity accounts, except for the Money Market account, are recorded at their estimated fair value which is based upon the underlying value of the assets. The Money Market account is recorded at amortized cost, which approximates fair value. The amortized cost of an instrument is determined by valuing it at its original cost and thereafter amortizing any discount or premium from its face value at a constant rate until maturity.

Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end. The TIAA Real Estate Pooled Separate account is valued at the net asset value (NAV) per accumulation unit of the investment. The underlying real estate holdings or other real estate-related investments are valued principally utilizing external appraisals. Although the underlying assets of the account cannot be quickly sold and converted to liquid assets, the TIAA general account provides the Plan with a liquidity guarantee. Transfers out of the pooled separate account are limited to one per calendar quarter. There are no unfunded commitments or redemption notice periods.

The TIAA Real Estate Pooled Separate account seeks favorable long-term returns primarily through rental income and appreciation of real estate investments owned by the account. The account will also invest in publicly traded securities and short-term higher quality liquid investments that are easily converted to cash to enable the account to meet Participant redemption requests, purchase or improve properties or cover other expense needs.

Purchases and sales of investments are recorded on a trade-date basis. Interest income on investments is accrued when earned. Dividend income is recorded on the ex-dividend date. Net change in fair value of investments includes the Plan's gains and losses in investments bought and sold as well as held during the year.

Investment Contract with Insurance Company

An investment option available through TIAA, is the TIAA Traditional Annuity (TA). The TA is a fixed-dollar annuity, an investment product offered by TIAA, an insurance company. Contributions to the TA purchase a contractual or guaranteed amount of future benefits and minimum return for the Participant. Investments in the TA are secured by the general assets of TIAA and backed by

Washington University
Retirement Savings Plan
Notes to Financial Statements
December 31, 2024 and 2023

TIAA’s claims-paying ability. Certain contractual restrictions apply to cash withdrawals under the TA. These vary depending on the type of annuity plan selected. The Plan’s allocation in the TA is carried at contract value (which approximates fair value).

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contracts, including fully benefit responsive and non-benefit responsive contracts, at December 31, 2024 and 2023 was \$1,411,821,403 and \$1,386,804,102. The periodic interest rate under TA contracts is set by TIAA, but it may not be less than 3 percent. Such rates are reviewed annually for resetting. The rates applicable to contributions to the contract during 2024 and 2023 are as follows:

	<u>2024</u>	<u>2023</u>
Crediting Interest Rate at December 31		
Retirement and group retirement annuities	5.25%	6.75%
Supplemental retirement and supplemental group retirement annuities	4.50%	6.00%
Average guaranteed yields		
Retirement and group retirement annuities	5.38%	6.35%
Supplemental retirement and supplemental group retirement annuities	4.63%	5.60%

Notes Receivable from Participants

Notes receivable from participants consist solely of participant loans and are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions.

Dividends Receivable

Dividends receivable consist of dividends declared on investments held by the Plan but not yet received as of the financial statement date. These are expected to be collected in the normal course of operations, generally within 30 to 60 days.

Plan Tax Status

An IRC Section 403(b) Defined Contribution Plan is a Plan that provides for a separate account for each Participant that meets the requirements of Section 403(b). Benefits are based solely on the amounts of Plan contributions to the Participant’s accumulation accounts and earnings, if any. All benefits under the Plan are fully funded and provided through the investments selected by the Participants. Benefits are not subject to, nor covered by, federal plan termination insurance. The Plan is intended to comply with all law changes made by the Economic Growth and Tax Relief Reconciliation Act of 2001 (with technical corrections made by the Job Creation and Worker Assistance Act of 2002), the Pension Funding Equity Act of 2004, the American Jobs Creation Act of 2004, the Katrina Emergency Tax Relief Act of 2005, the Gulf Opportunity Zone Act of 2005, the U.S. Troop Readiness, Veterans’ Care, Katrina Recovery, and Iraq Accountability Appropriations Act,

Washington University
Retirement Savings Plan

December 31, 2024 and 2023

2007, the Pension Protection Act of 2006, the Worker, Retiree, and Employee Recovery Act of 2008, the Heroes Earnings Assistance and Relief Tax Act of 2008, the American Taxpayer Relief Act of 2012, the Affordable Care Act of 2014, the Tax Cuts and Jobs Act of 2017, the Personal Income Tax Act Bill of 2018, the CARES Act of 2020, and the SECURE Act of 2020.

The Plan has not obtained or requested a determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Payment of Benefits

Benefit payments to Participants are recorded upon distribution.

Administrative Expenses

The Plan maintains a Revenue Credit Account that may be used to pay direct, reasonable, and necessary Plan expenses which the Plan is authorized to pay, or to provide benefits for Plan participants and beneficiaries in the form of plan servicing credits. The balance in this account fluctuates based on the investments chosen by participants and the expenses paid from the account.

The Plan charges a plan servicing fee to all participants that is determined based on the revenue that is required by TIAA to record keep the Plan and what is needed by Washington University to administer the Plan. The fee is documented in the Recordkeeping Agreement between TIAA and Washington University and is assessed according to the following guidelines:

- Certain investments in the Plan provide revenue sharing payments. For participants invested in these funds, TIAA deducts the plan servicing fee from the revenue sharing payments. Any excess revenue that is collected is deposited into the Revenue Credit Account.
- Other investments in the Plan do not provide revenue sharing payments. For participants invested in these funds, TIAA deducts the plan servicing fee from participant accounts.

After all fees are charged, TIAA reconciles the Revenue Credit Account. If a balance results, Washington University provides direction to TIAA to reallocate the balance to participants on a pro rata basis, leaving a nominal balance in the account to cover future expenses. This reallocation occurs once per year.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities could occur in the near term and that such changes could materially affect the Participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits. The financial statements have been prepared using values and information available to the Plan as of December 31, 2024.

3. PARTY IN INTEREST

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

The Plan invests in assets managed by an affiliate of TIAA. Effective May 1, 2024, all proprietary mutual funds of TIAA were renamed from TIAA-CREF funds to Nuveen funds. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

4. PLAN AMENDMENTS

The Plan was amended effective January 1, 2024, with the following impacts:

Clinical fellows with IRS Form W-2 reportable compensation are Plan eligible. The University will provide nonelective employer contributions calculated as 2% of eligible compensation. In addition, clinical fellows are excluded from the Plan's automatic employee contribution and escalation provisions and their employer contributions are immediately vested.

Furthermore, the automatic cash out of Participant's accounts to be distributed as soon as administratively practicable following severance from employment, has been increased from \$5,000 to \$7,000 for terminations after January 1, 2024. Refer to the Payment of Benefits footnote.

A second amendment was made to the Plan effective July 1, 2024, with the following impacts:

The definition of eligible compensation was amended to provide for certain other exclusions such as moonlighting pay, overload pay, and pay for duties that are performed in addition to regular duties, as determined by the University. The disposition of amounts forfeited may now also be used to pay expenses of the Plan. Allowability of cash withdrawals during employment has been updated to include disabled Participants. Also see the Payment of Benefits footnote.

A third and final amendment was made to the Plan effective October 1, 2024, with the following impacts:

As it relates to Union employees covered by the collective bargaining agreement between the International Union of Operating Engineers Local No. 148 (AFL-CIO) and Washington University Facilities Planning and Management Department, the service requirement to be eligible to earn University Plan Contributions has been eliminated. In addition, a three-year vesting schedule for University Plan Contributions has been added for employees hired on or after November 1, 2024, and a two-year vesting schedule for University Plan Contributions has been added for employees hired prior to November 1, 2024.

The Plan was amended and restated as of July 1, 2023 with the following impacts:

Effective July 1, 2023, the two-year waiting period for employer contributions has been eliminated. As of July 1, 2023, employer contributions were provided to all employees that had elected to contribute at least 5%. Employees with an initial hire date on or after July 1, 2023 now have a three-year vesting requirement. Employees with an initial date of hire prior to July 1, 2023 will be subject

to a two-year vesting requirement for subsequent employer contributions, including years of service prior to July 1, 2023. Employees who terminate prior to being vested may forfeit the employer contributions.

5. INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA and CREF, both qualified institutions, have certified the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as reported in the Statements of Net Assets Available for Benefits at December 31, 2024 and 2023.
- Investment income and interest income on notes receivable from participants as reported in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2024 and 2023.
- Investments and notes receivable from participants as reported in the supplemental Schedule of Assets (Held at End of Year) at December 31, 2024.

The Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

6. DISCLOSURES ABOUT FAIR VALUE OF PLAN ASSETS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value.

Level I – Quoted prices in active markets for identical assets or liabilities.

Level II – Observable inputs other than Level I prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level III – Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities.

The following tables present the financial instruments by general type of investment carried at fair value as of December 31, 2024 and 2023, reported on the Statements of Net Assets Available for Benefits by the fair value hierarchy defined above.

Following is a description of the valuation methodologies and inputs used for assets measured at a fair value on a recurring basis and recognized in the accompanying Statements of Net Assets Available for Benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2024. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the contractual interest rate is considered an observable input and the process used to develop the reported fair value is described in Note 2.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 investments include Mutual Funds and Money Markets (except for CREF Separate Accounts). If quoted prices are not available, then fair values are estimated by using pricing models, quoted prices of investments with similar characteristics or discounted cash flows. Level 2 investments include the CREF Separate Accounts, CREF Money Market and TIAA Real Estate pooled separate account. In certain cases where Level 1 and Level 2 inputs are not available, investments are classified within Level 3 of the hierarchy. The non-benefit responsive TIAA Traditional Annuity (Group Retirement Annuity and Retirement Annuity) is measured at contract value, which approximates fair value, and is included in Level 3 of the hierarchy table. In accordance with ASU 2015-12, the fully benefit responsive TIAA Traditional Annuity (Group Supplemental Retirement Annuity, Supplemental Retirement Annuity, and Plan Loan Default fund), is measured at contract value, the relevant measurement attribute, and has not been classified in the fair value hierarchy.
