Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **KPMG LLP**

(2) EIN: **13-5565207**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X

Independent Auditors' Report

To the Plan Participants and Plan Administrator
Sidley Austin LLP Retirement Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Sidley Austin LLP Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. generally accepted accounting principles.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Notes to Financial Statements

December 31, 2024 and 2023

(1) Description of Plan

(a) General

The Sidley Austin LLP Retirement Plan (the Plan) is a defined benefit plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). A brief description of the Plan is provided for general informational purposes only. Participants should refer to the plan document for more complete information.

(b) Administration

The Plan is administered by Sidley Austin LLP, an Illinois limited liability partnership (the Plan Administrator). The Executive Committee of Sidley Austin LLP and its affiliated partnerships (the Firm) have appointed a number of Firm attorneys to the Retirement Plans Committee (the Committee) to carry out the administrative duties of the Plan.

(c) Trustee

Assets of the Plan are held by The Northern Trust Company, as custodian and trustee.

(d) Investment Manager

The Committee has responsibility for the management of the Plan's assets, and Cambridge Associates LLC is an investment consultant to the Firm.

(e) Eligibility and Vesting

Employees of the Firm who work in the Firm's United States offices (excluding attorneys, secretaries and word processors) are eligible to participate in the Plan as of the first day of the month following or coinciding with either (i) their date of hire if they are a regular full-time employee or regular part-time employee or (ii) completion of 1,000 hours of service during the 12-month period that began on their date of hire or during any calendar year that begins after their date of hire if they are a temporary, seasonal, or other part-time employee.

Participants are vested in the Plan upon the earliest of (1) three years of service with the Firm, (2) attainment of age 65 while employed by the Firm, and (3) death while an employee of the Firm.

(f) Benefits

On July 1, 1999, the Plan was amended to replace the "prior benefit formula" with a cash balance design for employees hired on or after that date. For employees who became participants in the Plan prior to July 1, 1999, the benefit under the Plan will not be less than the benefit calculated under the prior benefit formula based on all years of service, excluding any periods of reemployment after June 30, 1999.

Cash Balance Design

The sum of a participant's opening balance, service credits, and interest credits determines his or her accrued benefit account balance.

Plan Number 001

Notes to Financial Statements
December 31, 2024 and 2023

For employees of the Firm on June 30, 1999, a cash balance account was established based on the lump sum present value of the employee's accrued benefit calculated under the prior benefit formula as of December 31, 1999.

At the end of each year commencing with 1999, a service credit is added to each participant's cash balance account, based on the participant's eligible pay. A participant's eligible pay is multiplied by a percentage, based on the participant's years of benefit service.

At the end of each calendar year commencing with 1999, an interest credit is allocated to each participant's cash balance account. The interest credit is determined by multiplying the amount in the cash balance account as of the beginning of that year by the greater of (i) the annual rate of interest on 30 year treasury bonds for November of the preceding year, as published by the Internal Revenue Service (IRS) and (ii) 1.68%.

Prior Benefit Formula

Prior to the adoption of the cash balance design on July 1, 1999, benefits were calculated under a formula that stated the benefit in the form of a monthly single life annuity. The benefit under the prior benefit formula is stated as a monthly single life annuity at age 65 and is equal to the largest of (1), (2), and (3) below:

- (1) An amount equal to (a) 2.0% multiplied by average monthly compensation multiplied by years of service less (b) 50% of the projected monthly social security benefit multiplied by the amount calculated by dividing years of service by the greater of 30 or years of service at age 65.
- (2) An amount equal to 3.0% multiplied by average monthly compensation for years of service after 1983 multiplied by years of service after 1983 (up to a maximum of 10 years).
- (3) An amount equal to the accrued benefit as of December 31, 1993, based upon (a) 2.6% multiplied by average monthly compensation (excluding compensation during the last five years of service) multiplied by years of service less (b) 50% of the projected monthly social security benefit multiplied by the amount calculated by dividing years of service by the greater of 30 or years of service at age 65.

Average monthly compensation is based upon the participant's highest paid five consecutive years of service. Compensation taken into account for the purpose of calculating a plan participant's accrued benefit shall not exceed \$345,000 for 2024.

(g) Funding Policy

The benefits described above are funded solely by contributions from the Firm based upon computations by the Plan's independent actuary. The funding policy of the Plan is for the Firm to continue funding at a level necessary to keep the pension plan adequately funded in compliance with the minimum funding requirements imposed by law. The Plan is in compliance with applicable minimum funding requirements for the plan years ended December 31, 2024 and 2023. The Plan's funded percentage, as calculated

Notes to Financial Statements

and certified by the Plan's independent actuary, does not activate additional funding requirements or benefit limitations.

(h) Forfeitures

All forfeited accrued benefits are utilized to reduce the employer contributions to the Plan.

(i) Termination of the Plan

Termination of the Plan is at the discretion of the Firm and subject to the provisions of ERISA. In the event of termination of the Plan, each participant's accrued benefit becomes fully vested and the assets of the Plan will be liquidated and, after payment of the expenses of liquidation, allocated in accordance with the Plan and Section 4044 of ERISA in the following order of priority:

- (1) To provide benefits for:
 - (a) Each person who was receiving benefits at the beginning of the three year period ending with the date of termination of the Plan.
 - (b) Each person who at the beginning of such three year period was eligible to retire and/or was a former participant eligible to elect to have his/her benefits commence at such time.
 - (c) Any person who became eligible to receive benefits during such period because of the death of any person referred to in (a) or (b). These benefits would be limited to the lowest benefit that would have been payable to such person under the provisions of the Plan as in effect during any portion of the five year period ending with the date of termination of the Plan.
- (2) To provide the benefits of persons referred to in subparagraph (1) above (to the extent not provided for by such subparagraph) and benefits accrued with respect to participants who, on the date of termination of the Plan, have satisfied the service requirement for full vesting. The amount of benefit provided for any person under this subparagraph (2) shall be limited to an amount which, when combined with any benefit provided for such person under subparagraph (1) above, does not exceed the amount guaranteed pursuant to Section 4022 of ERISA;
- (3) To provide the benefits of persons referred to in (1) or (2) above that are in excess of the amount provided for in such subparagraphs; and
- (4) To provide all other benefits accrued under the Plan as of the date of termination of the Plan.

If the assets of the Plan are insufficient to provide full benefits as described above, the allocation will be made as described in the Plan. In the event that there are any assets remaining after the above allocations, such assets shall be paid to the Firm. The portion of the assets of the Plan allocated to provide benefits to any person or group of persons may be applied for the benefit of such person or persons by the distribution of cash, continuance of the trust fund, establishment of a new trust fund, purchase of annuities from an insurance company, or otherwise, as determined by the Committee in its sole discretion.

SIDLEY AUSTIN LLP RETIREMENT PLAN

Employer Identification Number 36-4474078
Plan Number 001

Notes to Financial Statements

December 31, 2024 and 2023

Whether a particular participant's accumulated plan benefits will be paid depends on the value of the assets of the Plan, the priority of those benefits, as described above, and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (the PBGC) at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guarantee while other benefits may not be provided for at all.

Presently, there is no intention on the part of the Firm to terminate the Plan.

(j) Plan Amendments

On December 31, 2023, the Plan was amended by the Fifth Amendment to (i) clarify the eligibility provisions thereof, (ii) clarify the compensation applicable to a participant who is receiving disability benefits, (iii) to provide a one-time in-service distribution option for certain Participants who turn age 61½ in a calendar year, (iv) document the spin off of certain benefit obligations from the Plan into the Sidley Austin LLP Cash Balance Retirement Plan for Partners effective at 11:59 p.m., Central Time, December 31, 2023, and (v) modify certain distribution election requirements.

On December 31, 2024, the Plan was amended by the Sixth Amendment to provide supplemental service credits under the cash balance design through December 31, 2028.

(2) Significant Accounting Policies

(a) Basis of Presentation

The amounts in the accompanying financial statements are presented on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

(b) Valuation of Investments

All investments are stated at fair value. Plan assets utilizing Level 1 inputs (discussed further in note 3) include cash, common stock, and registered investment companies. Fair values were determined by using quoted prices for identical investments from the market exchanges.

Certain investments' estimated fair value is based on net asset value as a practical expedient (discussed further in note 3). These investments include hedge funds, private equity funds and other assets. The fair values of these funds may, due to the inherent uncertainty of valuation for alternative investments, differ significantly from the values that would have been used had a ready market for the alternative investments existed, and the differences could be material. These investments are described further below:

Hedge funds: Hedged strategies involve funds whose managers have the authority to invest in various asset classes at their discretion, including the ability to invest long and short. Hedge funds generally hold securities or other financial instruments for which a ready market exists and may include stocks, bonds, put or call options, swaps, currency hedges and other instruments. In some instances, due to the complexity of the instruments and the transactions involved, a ready market may not exist. Investments in hedge funds are valued using reported net asset values as a practical expedient as of December 31, 2024 and 2023. See note 3 for lock-up provisions of the hedge funds.

SIDLEY AUSTIN LLP RETIREMENT PLAN

Employer Identification Number 36-4474078
Plan Number 001

Notes to Financial Statements

December 31, 2024 and 2023

Private equity funds: Plan assets are invested in limited partnership interests in various private equity funds. Private equity funds are primarily invested in buyout and venture capital strategies, investments in turn around/distressed situations, and real asset strategies that generally hold public or private real estate, natural resources equities, commodities and oil and gas investments. The private equity funds are valued using fair values per the partnership financial reports to determine net asset value as a practical expedient as of December 31, 2024 and 2023. No provision generally exists for the redemption of these interests by these funds until the end of the term thereof, typically ranging between 10 and 15 years from the date of inception.

Other assets: Other assets consists primarily of commingled partnerships and limited liability companies investing in domestic and international publicly traded securities. The other assets are valued using reported net asset values as a practical expedient as of December 31, 2024 and 2023. See note 3 for lock-up provisions of the other assets.

All assets in the Plan are part of the Firm-Directed Portfolio Master Trust Investment Account (FDP). See note 3 for allocation of assets in the FDP.

(c) *Risks and Uncertainties*

The Plan provides for investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

(d) *Benefit Payments*

Benefit payments are recorded when paid.

(e) *Administrative Expenses*

Administrative expenses are paid by the Firm, to the extent they are not paid by the Plan.

(f) *Realized and Unrealized Gains or Losses and Income Recognition*

At the time investments mature or are sold, the difference between the value at the time of purchase and the proceeds is recorded as a realized gain or loss. The unrealized gain or loss during a financial statement period on investments held represents the change in fair value of the securities from the beginning of the year or date the securities were purchased, if later, to the end of the year. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded as earned and dividends are recorded on the ex-dividend date.

(g) *Use of Estimates*

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities and the actuarial present value of the accumulated plan benefits at the date of the financial statements and the reported amounts of income,

Notes to Financial Statements

contributions, withdrawals, expenses and changes in actuarial present value of the accumulated plan benefits during the reporting period. Actual results could differ from those estimates.

(3) Firm-Directed Portfolio Master Trust Investment Account

The Plan's investments are in the FDP, which was established for the investment of assets of the Plan and several other Firm-sponsored retirement plans. Each participating retirement plan has an undivided interest in the FDP. The assets of the FDP were held by The Northern Trust Company as of December 31, 2024 and 2023. The Plan's interest in the net assets of the FDP as of December 31, 2024 and 2023 is determined based on the beginning of year value of the Plan's interest in the FDP plus actual contributions and allocated investment earnings and losses, less actual distributions and allocated expenses.

Allocation of assets of the FDP to participating plans as of December 31, 2024 and 2023 is as follows:

	2024		2023	
	Amount	Percent	Amount	Percent
Cash Balance Retirement Plan for Partners Retirement Plan	\$ 487,243,572	44.0 %	\$ 427,163,419	41.6 %

Notes to Financial Statements

December 31, 2024 and 2023

Investment income of the FDP to be allocated to participating plans for the years ended December 31, 2024 and 2023 is as follows:

	<u>2024</u>	<u>2023</u>
Interest, dividends and other	\$ 13,369,303	\$ 11,684,713
Net appreciation in fair value of investments	41,643,165	62,589,336
Net realized investment gain	<u>50,265,248</u>	<u>22,241,896</u>
	<u>\$ 105,277,716</u>	<u>\$ 96,515,945</u>

The FDP's investment income is allocated to participating plans based on each plans' percentage ownership of the FDP on the date the income was earned.

FASB Accounting Standards Codification Topic 820 (ASC 820) defines fair value as the exchange price that would be received for an asset or liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants and establishes a hierarchal disclosure framework that ranks valuation techniques based on the observability of inputs. Investments measured and reported at fair value under ASC 820 are classified based on the valuation techniques used and disclosed in one of the following categories:

- Level 1 – Investments with quoted prices in active markets for identical investments that the reporting entity has the ability to access as of the measurement date.
- Level 2 – Investments valued with inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, as of the measurement date.
- Level 3 – Investments valued with inputs that are unobservable for the investments and includes situations where there is little, if any, market activity for the investments.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements

December 31, 2024 and 2023

As of December 31, 2024 and 2023, the investments held by the FDP were classified as either Level 1 within the fair value hierarchy table or valued at net asset value as a practical expedient, as noted in the below tables; there were no investments classified as Level 2 or Level 3 as of December 31, 2024 or 2023.

2024	Level 1	Investments measured at net asset value	Total investments
Cash	\$ 18,707,744	\$ —	\$ 18,707,744

Total assets	\$ <u>254,188,992</u>	\$ <u>772,250,555</u>	\$ <u>1,026,439,547</u>

The above classifications were made based on the structure of the funds that comprise each investment category rather than the contents of those funds. Cash, which includes cash and cash equivalents, is maintained principally in a money market fund.

The hedge funds and other assets have various lock-up provisions applicable to investors therein ranging from monthly to every three years for hedge funds and from monthly to annually for other assets. As of December 31, 2024 and 2023, the Firm had the ability to partially redeem, on at least a quarterly basis, from funds representing approximately 73% and 75%, respectively, of the aggregate fair value of the hedge funds and from funds representing approximately 81% and 82%, respectively, of the aggregate fair value of the other assets as reflected in the above table as of such date.

Notes to Financial Statements

December 31, 2024 and 2023

The FDP has committed amounts to private equity funds that are unfunded as of December 31, 2024 and 2023. These unfunded amounts may or may not be required to be funded by the underlying private equity funds over the life of the funds. As of December 31, 2024, approximately \$116 million of commitments to private equity funds are unfunded.

The Plan does not maintain any investments measured at fair value on a nonrecurring basis as of December 31, 2024.

(4) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are the actuarial present value of all benefits earned by current participants as of the valuation date using demographic assumptions and an assumed interest rate. The actuarial present value of accumulated plan benefits was determined by PricewaterhouseCoopers' (PwC) actuaries and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) between the valuation date and the expected date of payment and the probability of payment. The significant actuarial assumptions used in the valuation as of January 1, 2024 are: (a) an interest rate based on an investment return of 8.0%; (b) retirement ages which vary between 55 and 70; (c) mortality based on the Pri-2012 Mortality Table with White Collar Adjustment Scale MP-2021 Fully Generational; and (d) employee termination tables. All computations are based on the unit credit cost method. The valuation performed by PwC was done as of January 1 of the plan year. Amendments that were executed after the Plan's valuation date were not reflected in the present value of accumulated plan benefits and would not significantly impact the valuation.

The actuarial present value of accumulated plan benefits as of December 31, 2023 is as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving payments	\$ 50,849,224
Other vested benefits	<u>191,526,603</u>
Total vested benefits	242,375,827

Nonvested benefits	<u>3,253,086</u>

(5) Tax Status

By letter dated June 11, 2021, the IRS notified the Plan Administrator that the terms of the Plan, as amended through such date, satisfy the requirements imposed on qualified plans by Section 401(a) of the Internal Revenue Code. The Plan has been amended since such determination. The Plan Administrator has no reason to believe that the terms of the Plan are not in compliance with the requirements imposed on qualified plans by Section 401(a) of the Internal Revenue Code. Pursuant to Section 501(a) of the Internal Revenue Code, a plan that is described in Section 401(a) is exempt from federal tax.

U.S. generally accepted accounting principles require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator does not believe that there is any material tax liability associated with any open tax years.

The effective interest rate decreased from 5.22% to 5.16% for purposes of minimum funding.

The effective interest rate increased from 3.63% to 4.91% for purposes of determining the maximum tax deductible contribution as well as determining the plan's funded percentage for PBGC 4010 reporting purposes.

The valuation mortality assumption was changed from the static annuitant and nonannuitant RP 2006 mortality table for males and females, adjusted for mortality improvements using projection Scale MP-2021, for plan years beginning in 2032, as specified in IRS Notice 2022-22, to the 2024 generational mortality tables for annuitants and non-annuitants as required under Treasury Regulations Section 1.430(h)(3)-1, as specified in the Regulations published on October 20, 2023.

Assumptions Rationale

Discount Rate	The interest rate assumption used is prescribed by IRC section 430(h)(2)(C), subject to specified elections by the plan sponsor.
Salary Increases	The salary increase rate assumption selected by Sidley Austin LLP management is based on the analysis of plan experience conducted in 2019 and 2016 and future expectations, subject to approval by the plan sponsor. Actuarial gains and losses resulting from plan experience differing from the assumption are monitored each year.
Expected Investment Return	The expected return selected by Sidley Austin LLP management reflects the expected long-term return of various capital market expectations as provided to Sidley Austin LLP by Cambridge Associates. These expectations are combined with the asset allocations by investment class plus the expected long-term active management premiums.
Cash Balance Interest Crediting Rate	The interest crediting rate assumption selected by Sidley Austin LLP management is based on analysis of historical average annual rates for 30-year Treasury Securities and the current and expected future economic environment.
Form of Payment	The form of payment assumption selected by Sidley Austin LLP management is based on the analysis of plan experience conducted in 2019 and future expectations. Actuarial gains and losses resulting from plan experience differing from the assumption are monitored each year.
Participant Mortality	The mortality assumption used is prescribed by IRC section 430(h)(3).
Lump Sum Conversion Mortality	The mortality assumption used is prescribed by IRC section 417(e)(3).
Spouse Assumptions	The percent married and spouse age difference assumptions selected by Sidley Austin LLP management are based on historical experience of the Plan's population and future expectations. Actuarial gains and losses resulting from plan experience differing from the assumption are monitored each year.
Retirement Rates	The retirement rate assumption selected by Sidley Austin LLP management is based on the analysis of plan experience conducted in 2019 and future expectations. Actuarial gains and losses resulting from plan experience differing from the assumption are monitored each year.
Withdrawal Rates	The termination rate assumption selected by Sidley Austin LLP management is based on the analysis of plan experience conducted in 2019 and future expectations. Actuarial gains and losses resulting from plan experience differing from the assumption are monitored each year.
Disability Rates	The disability rate assumption selected by Sidley Austin LLP management is based on historical experience of the Plan's population and future expectations. Actuarial gains and losses resulting from plan experience differing from the assumption are monitored each year.

Actuarial Methods for Funding Purposes

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the year.
- An individual's funding target is the present value of the future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's target normal cost is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's target normal cost is the sum of the individual target normal costs, and the plan's funding target is the sum of the individual funding targets for all participants under the plan.

Maximum Deductible Contribution Method

Calculations of maximum deductible contributions include the excess of the funding target computed using the projected unit credit method over the minimum funding target. The objective of the projected unit credit method is to fund each participant's benefits under the plan as they accrue, taking into consideration expected future compensation increases. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's projected funding target is the present value of benefits based on credited service as of the beginning of the plan year and projected compensation that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the projected funding target for an individual is the sum of the component projected funding targets associated with the various anticipated separation dates.
- The plan's projected funding target is the sum of the projected funding targets for all participants of the plan. The excess of the plan's projected funding target over the plan's funding target is included in the cushion amount.

Asset and Liability Methods

We used financial data submitted by the trustee as of January 1, 2024 without further audit. Customarily, this information would not be verified by a plan's actuary. We have reviewed the information for internal consistency and we have no reason to doubt its substantial accuracy.

The asset valuation method used as of January 1, 2024 is the same method used as of January 1, 2023 - the average asset value as modified by the *Worker, Retiree, and Employer Recover Act of 2008* and described in IRS Notice 2009-22. The average asset value is an annual average of the market value of assets over the prior 24 months. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in Section 420 of the Internal Revenue Code. The asset value includes contributions receivable for the prior plan year, discounted as applicable.

A characteristic of this asset valuation method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than market.

We have used and evaluated actuarial models in accordance with Actuarial Standards of Practice ("ASOP") No. 56. PwC uses the ProVal valuation system developed by Winklevoss Technologies, LLC in performing valuations of pension and postretirement benefit plans. We have utilized the ProVal software to prepare the valuation results presented herein. ProVal is used to value participant data through projecting retirement benefits and applying plan specific assumptions, methods and plan provisions under applicable accounting and funding standards. PwC is not aware of any material limitations or known weaknesses in the ProVal software.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

Participants included: The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.

Participants excluded: No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.

Insurance contracts: The plan does not have any insurance contracts.

Benefits included or excluded

Plan amendments excluded: Generally, amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation. As directed by Sidley Austin LLP, the Plan Amendment that was adopted December 31, 2024 and effective as of January 1, 2024 was reflected in the valuation results contained herein.

IRC Section 436 benefit restrictions:

-Unpredictable contingent event Benefits: This valuation excludes restricted contingent event benefits beginning January 2024 pre ARPA, HATFA, and MAP-21 segment rates under Section 430(h)(2)(C) are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.

-Prohibited payments: Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.

-Benefit accruals: The plan's funding target does not reflect any limitation. The target normal cost does not reflect any limitation on benefit accruals.

Scheduled benefit increases: Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.

IRC Section 415(b) benefit limitations: The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.

IRC Section 416 rules for top-heavy plans: We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Assessment of Risk Associated with Measurement of Plan Obligations and Contributions

In accordance with Actuarial Standard of Practice No. 51 we have assessed the following risks related to the measurement of the Plan's obligations and determination of contributions:

- Investment risk
- Interest rate risk
- Asset/Liability mismatch risk
- Longevity and other demographic risks
- Contribution risk

The Plan's investments are governed by an investment policy set by the Firm and executed by the Firm's investment managers. As of January 1, 2024, the Plan's asset allocation was approximately 90% equities / 10% fixed income. Due to the nature of the Plan's investments (heavily invested in equities), there is inherent investment risk due to the underlying Plan asset allocation.

Funding valuations under ERISA are required to determine plan liabilities using interest rates based on investment-grade corporate bonds. The Plan's funding target is determined based on the 24-month average of segment rates, adjusted for the corridor around the 25-year average of segment rates under the American Rescue Plan Act (ARPA) of 2021 and the Infrastructure Investment and Jobs Act (IIJA). The funding target and asset / liability mismatch will be impacted by the short term changes in interest rates.

The interest rates used to determine the PBGC liability are not affected by the 25-year corridor.

Future changes in the mandated interest rates will impact the asset/liability mismatch, minimum required contributions and PBGC variable rate premiums.

Due to the nature of the plan and actual plan experience, there is no significant demographic risk associated with disability. Retirement and withdrawal patterns can result in some risk to the extent more active participants than assumed become eligible for unreduced benefits under the prior plan benefit formula.

The Plan is a traditional defined benefit plan and subject to longevity risks. Funding valuations under ERISA are required to determine plan liabilities using specified mortality tables and mortality improvement scales. The required mortality tables and mortality improvement scales are tables that were recently published by the Society of Actuaries and reflect recent trends in mortality and future mortality improvement expectations. Nevertheless, there is risk associated with Plan participants and beneficiaries living longer than expected.

The Plan's funding policy is to continue funding at a level necessary to keep the Plan adequately funded in compliance with the minimum funding requirements imposed by law. The contribution risk is if the minimum required contribution is not contributed for a given year.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

Low-Default-Risk Obligation Measure (“LDROM”)

The funding target liability for minimum required contribution purposes under ERISA presented in this report incorporates a 25-year average of interest rates (considered stabilized rates).

In accordance with Actuarial Standard of Practice No. 4, when performing a funding valuation, actuaries are required to calculate and disclose a LDROM of the benefits earned as of the measurement date. The LDROM is intended to represent what the funding target would be if the plan invested its assets solely in a portfolio of high-quality bonds whose cash flows approximately match future benefit payments. The measurement of the LDROM is not required to be calculated or disclosed more than once per year. When calculating the LDROM, the discount rate or discount rates selected should be derived from low-default-risk fixed income securities. Examples include, but are not limited to, non-stabilized ERISA funding rates for single-employer plans.

The non-stabilized ERISA funding rates reflect a 24-month average of a portfolio of high-quality bonds and were used to calculate the LDROM. These are the same rates that are used to determine liability for maximum tax-deductible contribution purposes. This may result in a higher plan liability when compared to the funding target liability used for minimum required contribution purposes. The table below presents the liability on the minimum required contribution basis under ERISA and on the LDROM basis.

<u>Liability Measure</u>	<u>Segment Rates</u>	<u>Effective Rate</u>	<u>Plan Liability</u>
Minimum Required Contribution	4.75%/4.96%/5.59%	5.16%	283,601,939
LDROM	4.37%/4.96%/4.95%	4.91%	289,952,503

Note: The LDROM is not indicative of the funding status or progress, nor does it provide information on necessary plan contributions or the security of participant benefits. In addition, the LDROM is not intended to be interpreted as a recommendation of investing entirely in high-quality bonds. Instead, it is a required annual disclosure intended to help plan sponsors and taxpayers understand the impact if the plan was invested entirely in high-quality bonds.

Schedule SB, Part V - Summary of Plan Provisions

Effective Date The Plan was last restated effective August 1, 2019.

Employers Included Sidley Austin LLP

Included Employees Each employee (other than secretary and word processor) that works in one of the Firm's United States offices shall become a participant. Effective as of October 1, 1981 legacy Brown & Wood employees (other than secretaries or word processors) shall become participants. This does not include any person who first becomes associated with the Firm as an attorney after March 23, 1990, any person performing services pursuant to a written or oral agreement classifying the person as an independent contractor or as an employee of another entity or containing a waiver of plan participation.

Grandfathered Employees All included Employees as of June 30, 1999 are entitled to the grandfathered provisions. Their benefit will not be less than the equivalent (using 417(e)(3) basis) of a single life annuity under the Prior Plan Benefit provisions.

Service Considered

For eligibility and vesting purposes: the total of the periods of employment as an employee or partner with the firm or any affiliated organization. It includes paid leaves of absence, leaves of absence due to illness or disability, any periods of absence of less than 12 months.

For benefit computation purposes: same as above, except that unpaid leaves of absence are excluded.

Prior Brown & Wood service (before merger) counts towards vesting and determining contribution credit percentages.

Average Monthly Compensation Average monthly compensation under the Prior Plan Benefit provisions based on the average compensation received during the highest 5 consecutive calendar years of service (or during his total period of service if less than 5 years). Considered compensation shall not exceed the maximum allowable earnings under IRC Section 401(a)(17). IRC Section 401(a)(17) compensation changes on a retrospective basis to reflect the higher compensation limits allowed by EGTRRA.

Sidley Austin LLP Retirement Plan
EIN: 36-4474078 PN:001
Schedule SB, Part V - Summary of Plan Provisions

Eligible Pay Compensation received for a given calendar year, not to exceed the maximum allowable earnings under IRC Section 401(a)(17). Includes regular pay, all overtime and bonus compensation paid during the year and any compensation that would have been paid during the year, but was contributed to the Savings and Investment ("401(k)") Plan, health care spending account, medical plan, dental plan, or parking and transit benefit.

Employee Contributions None

Cash Balance Account A Cash Balance Account is established for each participant as of the later of (1.) December 31,1999 for Grandfathered employees or (2.) the date the participant becomes included in the Plan. At the end of each calendar year beginning in 2000, a service credit is allocated to the cash balance account. The service credit is a dollar amount equal to the related Crediting Rates multiplied by the Eligible Pay for that year. The crediting rate is based upon the years of service considered as of the end of that year as shown below:

<u>Years of Service</u>	<u>Crediting Rate</u>
Less than 10	5%
10, less than 15	6%
15, less than 20	7%
20 or more	8%

Supplemental Service Credit

In addition to the credit above, a participant's Cash Balance Account shall be credited at the end of calendar year 2019 through 2028 based upon the years of service considered as of the end of that year as shown below:

<u>Years of Service</u>	<u>Supplemental Crediting Rate</u>
Less than 5	2.0%
5 or more	3.0%

One-Time Supplemental Service Credit

The cash balance account of a participant who is an eligible employee on January 1, 2019 shall be credited as of January 1, 2019 as shown below:

<u>Years of Service</u>	<u>Crediting Rate</u>
Less than 5	5.0%
5, less than 10	11.5%
10, less than 15	17.5%
15 or more	22.0%

**Opening Account Balance
as of December 31, 1999**

All Grandfathered employees will have an opening account balance equal to the lump sum equivalent of his accrued benefit as of December 31, 1999 (using GATT mortality and 6.50%) plus Crediting Rate multiplied by the Eligible Pay from July 1999 to December 1999.

**Minimum Cash Balance
Account**

A Minimum Cash Balance Account is established for each participant who is an eligible employee at any time after December 31, 2004, and who prior to January 1, 2005 accrued a benefit under the Plan but prior to January 1, 2001 did not accrue benefit under the Plan during more than four Plan years. A new service credit formula was established on January 1, 2009. The service credit allocated will be \$6,000 times the number of completed months worked during a calendar year divided by six (but not greater than one). No service credit will be allocated (i) after accruing a benefit during three calendar years (ii) if a participant is a highly compensated employee for the calendar year.

Sidley Austin LLP Retirement Plan
EIN: 36-4474078 PN:001
Schedule SB, Part V - Summary of Plan Provisions

Form of Benefit Payment Each participant can elect to receive the Cash Balance Account as a lump sum or the equivalent monthly pension. For Grandfathered employees, their monthly pension under the Prior Plan Benefit will serve as a minimum benefit.

Normal Retirement Date The normal retirement date is the first of the month coinciding with or next following the participant's 65th birthday.

Prior Plan Benefit For Grandfathered employees, the monthly pension is equal to the larger of 1., 2., or 3., below:

1. An amount equal to (1) 2.0% of average monthly compensation for each year of service less (2) 50% of the projected social security benefit multiplied by service and divided by the greater of 30, or service at age 65.
2. An amount equal to 3.0% of average monthly compensation for each year of service after 1983 (up to a maximum of 10 years) without regard to whether the Plan is a top-heavy plan.
3. An amount equal to the benefit accrued as of December 31, 1993 based upon (1) 2.6% of average monthly compensation (excluding compensation during the last five years of service) for each year of service less (2) 50% of the projected social security benefit multiplied by service and divided by the greater of 30, or service at age 65.

Minimum Lump Sum Amount A participant who has any Service based on a period of employment on or after January 1, 2001, and prior to March 16, 2006, shall have a Minimum Lump Sum Amount, which shall be determined as of any date as of the appropriate percentage, determined pursuant to the table set forth below, of the Participants "Average Annual Compensation" (as defined below):

<i>Service in whole years and decimal equivalents for partial years</i>	<i>Percentage of Average Annual Compensation</i>
less than one year	10%
one or more years	15%

For purposes of the above section, "Average Annual Compensation" means the sum of the Participant's compensation for the five consecutive years of Service which produces the highest total divided by the lesser of five Participant's actual consecutive years of Service and fractions thereof. Pay and service from Brown & Wood prior to January 1, 2002 are not included for prior Brown & Wood employees.

Interest Credits

Interest Credits will be allocated to all cash balance accounts at the end of each calendar year. The interest credit is determined by multiplying the cash balance account at the beginning of the year by the average yield on 30 Year Treasury Bonds for November of the preceding year (but no less than 1.68%).

Late Retirement Benefit

A participant who continues employment after his normal retirement date will continue to accrue interest and service credits to his cash balance account. A Grandfathered participant who continues employment after his normal retirement date shall receive the larger of the Prior Plan Benefit computed as of the date of retirement, or the benefit computed as of his normal retirement date increased by 1% (.6% for partners as of September 30, 1981) for each month of benefit service (up to a maximum of 60 months) between his or her normal retirement date and the date the benefit is paid.

Early Retirement Benefit

Early retirement is after the age of 55 and 3 years of service.

The Cash Balance Account can be taken as a lump sum or the equivalent monthly pension payable immediately (using the 417(e)(3) Applicable Mortality Table and the annual rate of interest on 30-year Treasury securities specified by the Commissioner of Internal Revenue for the month of November of the Plan Year immediately preceding the current Plan Year).

For a Grandfathered employee, the minimum benefit under the Prior Plan Benefit is as follows:

Monthly pension payable at age 65 determined as for normal retirement, considering service and compensation to actual retirement. If payment commences prior to age 65, the early retirement factors defined in the plan are applied. Participants who terminate at or after age 62 will be paid until age 65 without reduction for the social security offset, then paid thereafter as calculated for normal retirement.

Disability Retirement Benefit

Participants continue to accrue retirement benefits while on disability.

Deferred Vested Pension

After 3 years of service, or attainment of age 65 while employed by Sidley, an employee is eligible for a benefit payable at 65 determined as for normal retirement or for an early retirement benefit as described above, considering service and compensation to date of termination. The cash balance account will earn interest credits only from date of termination to date of early or normal retirement.

Active In-Service Distributions

Certain active participants who have attained age 61 1/2, are provided the option to elect to commence to receive a distribution of his or her benefit.

**Death Benefit
(Before Pension Commences)**

The beneficiary of a vested participant is entitled to take the cash balance account as a single lump sum offset by the amount paid as a Statutory Surviving Spouse's Benefit. The Statutory Surviving Spouse's Benefit may commence on the month next following the later of the employee's 55th birthday or date of death equal to 50% of the monthly pension which the participant would have been entitled to receive under the qualified 50% joint and survivor option.

For Grandfathered participants, their beneficiary's lump sum benefit cannot be less than the lump sum equivalent of the following options under the Prior Plan (using 417(e)(3) basis). Not more than one of the following benefits is payable: (except 3. may be payable with 4. reduced by the value of 3.)

1. If an employee was a participant (other than partner participant) on September 30, 1981 and dies while an active participant prior to age 65 (or while receiving long-term disability benefits), his spouse (if married at least one year), and/or dependent children under age 21, shall receive 42.5% of the participant's projected normal retirement pension until the later of the death of the spouse or the date that the youngest dependent child reaches age 21.
2. If an employee that never participated in the cash balance plan dies after eligibility for a normal, early or disability pension but before his pension commences, his spouse or same-sex partner (if married at least one year) will receive 50% of the pension the participant would have received if his pension had commenced immediately prior to his death.
3. If a vested participant dies before his pension commences, his Surviving Spouse will receive a pension, commencing on the first day of the month next following the later of the employee's 55th birthday or date of death, equal to 50% of the monthly pension which the participant would have been entitled to receive under the qualified 50% joint and survivor option.
4. If a participant dies in active employment (or while disabled or after age 65 but before his benefit has commenced), a lump-sum benefit equal to the present value of the accrued benefit (less the present value of any other death benefits payable) shall be payable to his beneficiary.

Sidley Austin LLP Retirement Plan
EIN: 36-4474078 PN:001
Schedule SB, Part V - Summary of Plan Provisions

Form of Pension Payment

The normal form of payment for a participant who is not married is a single life annuity. The normal form of payment for a married participant is a reduced 50% joint and survivor annuity. The reduction will be approximately 10% if a spouse is the same age as a participant. The reduction will be greater than 10% if a spouse is younger than a participant and less than 10% if a spouse is older than a participant. However, the aforementioned reduction will not be applied to the participant's pension if the pension is paid pursuant to the Prior Plan Benefit and the participant's employment by Sidley terminated after the attainment of age 60.

If 1) a participant is not a disabled former employee or an attorney, 2) the participant's employment terminates after 1988 and prior to his attainment of age 60, and 3) the lump-sum value of the portion of the participant's Prior Plan Benefit which accrued prior to 1994 does not exceed \$15,000 on the date of his termination of employment, the participant may elect to receive this portion of his benefit in the form of a pension or single lump-sum payment payable at any time (reduction factors described in the Plan).

A married participant may elect to receive his or her benefit in the form of a single life annuity. If the employment of a participant other than a partner terminates after 1993, the participant may elect to receive his or her entire benefit in the form of a single lump-sum payment. If the employment of a partner terminates after July 1, 1999, the participant may elect to receive his or her benefit in the form of a single lump-sum payment. Spousal consent is required in order for a married participant to receive a single life annuity or a single lump-sum payment.

A participant who has a same-sex partner may elect to receive a single lump sum payment, a 50% joint and survivor annuity, or a 75% joint and survivor annuity.

The Plan was amended as of January 1, 2015 to increase the threshold for mandatory cash outs from \$1,000 to \$5,000 and to allow distributions prior to age 55 for participants who terminate on or after September 15, 2014 up to \$25,000. In addition, all vested participants are eligible to take their distribution as a lump sum.

Maximum Compensation

Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in the IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2024, the limit is \$345,000.

Maximum Benefits

Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2024, the limit is \$275,000.

Legacy Partner CB Plan Participants

Effective December 31, 2021, select inactive participants were spun off from the Sidley Austin LLP Cash Balance Retirement Plan for Partners (referred to as the "Partner CB Plan" herein) and merged into this Plan. For the participants that had his or her Accrued Benefit transferred, the provisions related to their Accrued Benefit were preserved (i.e., benefits, rights and features related to their Accrued Benefit, such as timing of distributions, optional forms of benefit, ancillary benefits, and all other rights and features), and the Participant's are no longer due a benefit from this Plan.

For detailed information related to the Plan Provisions applicable for the participants merged in from the Partner CB Plan, see the January 1, 2024 Actuarial Valuation report for the Partner CB Plan.

Changes Since Prior Valuation

The Plan was amended effective January 1, 2024 to extend the supplemental service credit from year 2023 to year 2028.

There are no other plan changes since the prior valuation of January 1, 2023 that impact the results presented herein.
