Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

(1) Name: **BAKER TILLY US, LLP**

(2) EIN: **30-1413443**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		100000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?	X		8966341
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	X		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	X		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		X	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? Yes No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

Cash Balance Retirement Plan of Brown Brothers Harriman & Co. Notes to Financial Statements December 31, 2024 and 2023

1. Description of Plan

The following represents a brief description of the Cash Balance Retirement Plan of Brown Brothers Harriman & Co. as amended (the “Plan”). Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined benefit pension plan which specifies a determinable pension benefit for eligible employees of Brown Brothers Harriman & Co. (“BBH&Co.”, “BBH” or the “Plan Sponsor”) and its domestic subsidiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

The BBH&Co. Investment Committee, consisting of not fewer than three partners of BBH&Co., oversees the Plan’s investment structure. Overall responsibility for managing the administration of the Plan rests with the BBH Plan Administration Committee comprised of no fewer than three members appointed by the Plan Sponsor.

Effective January 1, 2013, Pay, Transition and Supplemental Credits (as defined in the Plan document) were frozen and no additional credits were added. The cash balance formula for benefit accruals subsequent to January 1, 1998 through December 31, 2012 was in accordance with the following schedule:

Age	Pay Credits
Less than 30	3%
30 but less than 40	4%
40 or over	5%

Plan Amendments

In 2023, the Plan sold \$13.2 million of benefit obligations in the form of a group annuity contract for in-pay status retirees to an insurance company as shown in the Statement of Changes to Net Assets Available for Benefits. Certain active participants were also offered a one-time option to receive their entire benefit as a lump sum payout. As a result, \$14.8 million was paid out and is reported in the Benefits paid to participants line item within the Statement of Changes to Net Assets Available for Benefits.

Effective January 1, 2024, the Plan was amended by increasing the cashout limit from \$5,000 to \$7,000.

Eligibility

Each eligible employee became a participant of the Plan on the first of the month coincident with or following the attainment of age 21 and completion of one year of eligible service. There are no new eligible employees after December 31, 2012.

Vesting

A participant’s account became 100% vested upon completion of 3 years of service.

Cash Balance Retirement Plan of Brown Brothers Harriman & Co. Notes to Financial Statements December 31, 2024 and 2023

1. Description of Plan (Cont'd)

Pension Benefits

Upon reaching retirement age, a participant is entitled to an annual benefit based on a formula set forth in the Plan document. Participants also may elect to receive a lump sum distribution upon retirement/termination.

Death Benefits

If a participant dies before the date on which retirement benefit payments to the participant begin, a benefit is payable to the participant's beneficiary as follows:

- If the participant's beneficiary is any person other than his/her spouse, a death benefit equal to 100% of the vested value of the participant's account as of the last day of the month in which the death of the participant occurs shall be paid to such beneficiary.
- If the participant's beneficiary is his/her spouse, such spouse shall be entitled to receive
 - 1) a retirement benefit for his/her life commencing on the date the participant would have attained his/her normal retirement date if he/she had terminated employment on the date of death and survived to such normal retirement date or the actuarial equivalent of this amount under a single life annuity commencing any month after the participant's death or, alternatively,
 - 2) the spouse may elect to receive either the actuarial equivalent lump sum of the benefit determined in (1) above or the value of the participant's vested account balance at the date of death.

Administrative Expenses

The costs of administering the Plan and managing the Plan's Trust Fund ("Fund") are paid by the Plan. To the extent costs are unpaid by the Plan, they are borne by BBH&Co., in accordance with the Plan document. Expenses that are paid by BBH&Co. are excluded from these financial statements. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting in conformity with U.S. generally accepted accounting principles ("U.S. GAAP").

Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for a discussion of fair value measurement.

**Cash Balance Retirement Plan of
Brown Brothers Harriman & Co.
Notes to Financial Statements
December 31, 2024 and 2023**

2. Summary of Significant Accounting Policies (Cont'd)

Purchases and sales of securities are reflected on a trade-date basis. Realized gains and losses on sales of securities are determined by average cost for common stocks, mutual funds and trust preferred securities, and the specific identification method for all other securities.

In accordance with the policy of stating investments at fair value, the annual net appreciation in the fair value of investments is reflected in the Statements of Changes in Net Assets Available for Benefits. Net appreciation in the fair value of investments consists of realized and unrealized gains and losses on those investments.

Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned on an accrual basis.

Benefits Paid to Participants

Benefits are recorded when paid.

Actuarial Method

Costs and liabilities for benefits under the Plan are calculated by the Plan's actuary, under the unit credit cost method. Accumulated plan benefits are those future periodic payments that are attributable to the provisions of the Plan based on service employees have rendered as of the measurement date.

The actuarial present value of accumulated plan benefits, as determined by the Plan's actuary, results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment between the measurement date and the expected date of payment.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to or deductions from net assets available for benefits during the reporting period.

These significant estimates include the actuarial present value of accumulated plan benefits and fair value of certain investments. Actual results could differ from those estimates.

Receivables

The carrying amounts of receivables in the Statements of Net Assets Available for Benefits approximate their fair values due to the short-term nature of these financial instruments.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that

2. Summary of Significant Accounting Policies (Cont'd)

changes in the values of investment securities may occur in the near term and that such changes could materially affect amounts reported in the Statements of Net Assets Available for Benefits.

As of December 31, 2024 the Plan had investments of \$23,511,626 concentrated in a US treasury bill. There were no concentrations as of December 31, 2023. Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Recent Regulatory Updates

The SECURE 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management adopted mandatory provisions effective for the year ended December 31, 2024, and continues to evaluate the impact of the adoption and implementation of this legislation on the Plan. The application of SECURE 2.0 Act did not have a material effect on the Plan's financial statements.

3. Funding Policy

All contributions to the Plan are made by BBH&Co. based on amounts determined annually by the Plan's actuary and recognized as income in the year for which the contribution is made. The Plan Sponsor complied with the minimum funding requirements of ERISA in 2024 and 2023. No employer contributions were made in 2024 and 2023.

Brown Brothers Harriman & Co.
Notes to Financial Statements
December 31, 2024 and 2023**

4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum payments that are attributable, under the Plan's provisions, to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death and termination of employment - are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The more significant assumptions underlying the actuarial computations are as follows:

	<u>January 1, 2024</u>
Discount rate	4.75% per annum
Interest crediting rate	5.00% per annum
Mortality basis	2024 Internal Revenue Code ("IRC") Section 417(e) unisex mortality table for cash balance annuity conversion and determination of the lump sum value of prior plan benefits. Otherwise, PRI-2012 white collar, sex distinct tables with projection scale MP-2021 are used.
Annuity conversion and lump sum interest rate basis	5% per annum
Terminations	Based on service and entry age
Retirement rates	Graded schedule which assumes retirements occur from age 55 through 65, with an average retirement age of 62. Partners are assumed to retire at age 74.
Vesting requirements	100% vested after 3 years

The foregoing actuarial assumptions are based on the presumption the Plan will continue. In the event of a Plan termination, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

**Cash Balance Retirement Plan of
Brown Brothers Harriman & Co.
Notes to Financial Statements
December 31, 2024 and 2023**

4. Actuarial Present Value of Accumulated Plan Benefits (Cont'd)

The total actuarial present value of accumulated benefits as of January 1, 2024 is as follows:

Vested benefits	
Participants currently receiving payments	\$ 1,668,103
Other participants	46,042,754
	<u>47,710,857</u>
Nonvested benefits	846,628
	<u>\$ 48,557,485</u>

At January 1, 2023, the total actuarial present value of accumulated benefits was \$80,531,097. The decrease of \$31,973,612 is due to the following:

Benefits accumulated and actuarial losses	\$ (931,557)
Increase for interest due to decrease in discount period	3,103,521
Change in other actuarial assumptions	(64,318)
Benefits paid and annuities	<u>(34,081,258)</u>
Net decrease	<u>\$ (31,973,612)</u>

The change in assumptions for mortality table and interest in 2023 resulted in a decrease of \$64,318 in the actuarial present value of accumulated plan benefits as of January 1, 2024.

5. Termination Priorities

BBH&Co. has not expressed any intent to discontinue its contributions; however, it is free to do so at any time, subject to the penalties set forth in ERISA.

In the event the Plan terminates, the net assets of the plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.
2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.

Cash Balance Retirement Plan of Brown Brothers Harriman & Co. Notes to Financial Statements December 31, 2024 and 2023

5. Termination Priorities (Cont'd)

3. Other vested benefits insured by the Pension Benefit Guaranty Corporation (“PBGC”) (a U.S. government agency) up to the applicable limitations (discussed subsequently).
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits upon Plan termination at some future date will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

6. Trust Agreement

Effective April 1, 1984, the Plan initiated a trust agreement with Brown Brothers Harriman Trust Company, N.A. (“BBH Trust”), a wholly owned subsidiary of BBH&Co. Under this trust agreement, BBH Trust is the custodian and retains discretionary control over the assets of the Plan. Certain custody and administrative costs of BBH Trust are borne by the Plan Sponsor.

7. Tax Status

The Plan received an updated determination letter from the Internal Revenue Service (IRS) dated February 11, 2021, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (“IRC”) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualified status. Although the Plan has been amended since receiving the determination letter, the plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 740, “*Income Taxes*” (“ASC 740”), requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024 there are no uncertain

7. Tax Status (Cont'd)

positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Fair Value Measurements

FASB ASC 820, "*Fair Value Measurements*," ("ASC 820") establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC No. 820 are described as follows:

Level 1: Quoted prices for identical instruments in active markets

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs. There have been no changes in valuation methodologies or inputs used at December 31, 2024 and 2023.

Money market funds are carried at amortized cost, which approximates fair value. Mutual funds are valued at quoted market prices representing the net asset value of the shares held by the Plan at year end. Common stocks and U.S. Government obligations are valued at closing quoted market prices reported in the active markets in which the individual securities are traded.

Corporate obligations, collateralized mortgage obligations, and municipal obligations are valued on the basis of a bid evaluation (i.e., a good faith estimate as to what a buyer in the marketplace would pay for a security) as reported by pricing services utilized by the Plan's trustee. Often, these evaluations use proprietary models that gather information from market sources and integrate relative credit information, observed market movements, and sector news into the evaluated pricing models. The pricing service provides a broker quote when sufficient information, such as security

8. Fair Value Measurements (Cont'd)

structure or other market information, is not available to produce an evaluation. Broker-quoted securities are adjusted solely on receipt of updated quotes from market makers or broker-dealers recognized as market participants. For broker-quoted issues, the pricing service applies a zero spread relationship to the bid-side valuation.

The Plan's investments in hedge funds, private equity funds and private funds are stated at fair value represented by the net asset value of the partnership interests or other interests owned by the Plan at year-end, as determined by the fund based on the audited fair value of its underlying investments. The fair value of the Plan's investments in hedge funds, private equity funds and private funds reflects the amounts the Plan expects to receive if it were to liquidate its interests in the funds, excluding any redemption charges that may apply.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024:

(a) Private Equity Funds

This class includes investments in private equity funds that invest in growth companies and commercial real estate opportunities through various types of investments including equity, debt, participating debt and equity, preferred equity and joint venture equity. There is a fixed investment horizon typically up to 10 years. The fair values of the investments in this class have been estimated using the net asset value per share of the investments. Generally, units held are not capable of redemption at the request of the Plan.

(b) Hedge Funds

This class includes investments in hedge funds. The principal investment objectives are to produce attractive risk-adjusted returns in all types of market environments with low volatility and to exploit pricing inefficiencies in equity and debt securities. The fair values of the investments in this class have been estimated using the net asset value per share of the investments. There are often lock-up and other limitations to withdraw capital.

(c) Private Funds

This class includes an investment in the BNY Mellon MCM Dynamic U.S. Equity Fund of the Bank of New York Mellon (the "BNY Fund"). The objective of the Fund is to exceed the performance of the S&P 500® Index by actively allocating assets across the equity, fixed income, and cash markets of the United States. Assets of the Fund may be invested in securities, derivatives, and a combination of other collective funds. The Fund's policy is to not make any distributions to its participants. Participants may purchase or redeem units of the Fund for cash or securities (in-kind transactions at the sole discretion of the Trustee) based on the class unit value determined as of the valuation date.

8. Fair Value Measurements (Cont'd)

The fair values of the investments in this class have been estimated using the net asset value per share of the investments.

9. Related Party Transactions and Party-in-Interest Transactions

Certain investments of the Plan are invested in a mutual fund and private equity funds that are managed by BBH&Co., BBH Hedge Fund Management LLC and other subsidiaries of BBH&Co. Certain administrative functions of the Plan are performed by officers or employees of the Plan Sponsor. No such officer or employee receives compensation from the Plan. In addition, the cash balance of the Plan at year end is held with the trustee of the Plan, BBH Trust. Therefore, these transactions qualify as party-in-interest transactions. As of December 31, 2024, and 2023, the fair value of the Plan's investments including cash held with the above parties-in-interest amounted to \$8,949,279 and \$10,978,553, respectively.

10. Subsequent Events

Subsequent events have been evaluated by management through October 8, 2025, the date on which the financial statements were available to be issued.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial assumptions for January 1, 2024 funding valuation

Discount rate sponsor elections		
• Segment rates or full yield curve	Segment	
• Look-back months	3	
•	Stabilized	Nonstabilized
• First 5 years	4.75%	3.82%
• Next 15 years	4.87%	4.59%
• Over 20 years	5.59%	4.63%
Rationale: Rates are prescribed by IRS.		
Mortality sponsor elections		
• Healthy participants	Section 430(h)(3) prescribed generational static annuitant and nonannuitant mortality tables. These tables are based on the RP-2014 mortality tables with improvement beyond 2006 removed with static mortality improvement based on the IRS methodology and projection scale MP-2021. Rationale: As prescribed by the IRS for funding valuations under PPA	
417(e) lump sums	Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and current year 417(e) unisex mortality. Rationale: As prescribed by the IRS for funding valuations under PPA.	
Non-417(e) lump sums		
• Mortality table	Not applicable	
• Interest rate	Not applicable	

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Cash balance plans		
• Interest accumulation rate	4.00%	Rationale: The Plan’s interest crediting rate is the greater of 2.1% and the average 5-year Treasury rates for August, September and October of the preceding plan year. The 4% assumption is a long-term assumed rate.
• Whipsaw calculations	No	
• Annuity conversion		
– Mortality table	2024 IRC Section 417(e) unisex mortality	
– Interest rate basis	2024 Funding segment rates	
Other economic assumptions		
• Salary increases	Not applicable	
• Expenses	\$215,000 added to current year normal cost	Rationale: Assumption is based on expectations for the current year’s administrative expenses, including PBGC flat rate premiums.
Demographic assumptions		
• Withdrawal	Attained age	Percentage
	25	15.19%
	30	8.85%
	35	5.82%
	40	4.36%
	45	3.40%
	50	2.20%
	54	2.49%
		Rationale: Withdrawal rates have been used historically and have not generated consistent significant gains and losses.
• Disability incidence	Not applicable	

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- Retirement age Partners are assumed to retire at age 74.
 Non-partners are assumed to retire as follows:

Attained age	Percentage
Under 55	0%
55	5%
56	5%
57	5%
58	5%
59	5%
60	5%
61	5%
62	25%
63	15%
64	15%
65 and above	100%

Rationale: Retirement rates have been used historically and have not generated consistent significant gains or losses. The Partner retirement age was based on input from Brown Brothers.

- In-service distribution None
- Benefit commencement age for
 - Future retirements Immediate
 - Future vested deferred
 - Lump sum Immediate
 - Life Annuity 65
 - Current vested deferred 65

Rationale: The assumptions have been used historically and have not generated consistent significant gains or losses.

Spouse assumptions	Male participants	Female participants
Percentage married	100%	100%
Spouse age difference	3 years younger	3 years older

Rationale: Because the employer does not have enough experience to analyze spousal demographics, the assumptions regarding percent married/spouse age difference at benefit commencement are based on the actuary’s experience with many plans.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Form of payment – Males	Lump sum	Single life
• Active retirements	90%	10%
• Future vested deferred	90%	10%
• Future disabilities	100%	0%
• Current vested deferred	0%	100%
Rationale: The assumptions have been used historically and have not generated consistent significant gains or losses.		
Unpredictable contingent event assumptions	Not applicable	

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods for funding****Asset methods**

The asset valuation method is the fair market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Independent Auditors' Report

To the Participants and Plan Administrator of
Cash Balance Retirement Plan of Brown Brothers Harriman & Co.

Opinion

We have audited the financial statements of Cash Balance Retirement Plan of Brown Brothers Harriman & Co. (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Cash Balance Retirement Plan of Brown Brothers Harriman & Co.

Notes to Financial Statements December 31, 2024 and 2023

1. Description of Plan

The following represents a brief description of the Cash Balance Retirement Plan of Brown Brothers Harriman & Co. as amended (the “Plan”). Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined benefit pension plan which specifies a determinable pension benefit for eligible employees of Brown Brothers Harriman & Co. (“BBH&Co.”, “BBH” or the “Plan Sponsor”) and its domestic subsidiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

The BBH&Co. Investment Committee, consisting of not fewer than three partners of BBH&Co., oversees the Plan’s investment structure. Overall responsibility for managing the administration of the Plan rests with the BBH Plan Administration Committee comprised of no fewer than three members appointed by the Plan Sponsor.

Effective January 1, 2013, Pay, Transition and Supplemental Credits (as defined in the Plan document) were frozen and no additional credits were added. The cash balance formula for benefit accruals subsequent to January 1, 1998 through December 31, 2012 was in accordance with the following schedule:

Age	Pay Credits
Less than 30	3%
30 but less than 40	4%
40 or over	5%

Plan Amendments

In 2023, the Plan sold \$13.2 million of benefit obligations in the form of a group annuity contract for in-pay status retirees to an insurance company as shown in the Statement of Changes to Net Assets Available for Benefits. Certain active participants were also offered a one-time option to receive their entire benefit as a lump sum payout. As a result, \$14.8 million was paid out and is reported in the Benefits paid to participants line item within the Statement of Changes to Net Assets Available for Benefits.

Effective January 1, 2024, the Plan was amended by increasing the cashout limit from \$5,000 to \$7,000.

Eligibility

Each eligible employee became a participant of the Plan on the first of the month coincident with or following the attainment of age 21 and completion of one year of eligible service. There are no new eligible employees after December 31, 2012.

Vesting

A participant’s account became 100% vested upon completion of 3 years of service.

Cash Balance Retirement Plan of Brown Brothers Harriman & Co. Notes to Financial Statements December 31, 2024 and 2023

1. Description of Plan (Cont'd)

Pension Benefits

Upon reaching retirement age, a participant is entitled to an annual benefit based on a formula set forth in the Plan document. Participants also may elect to receive a lump sum distribution upon retirement/termination.

Death Benefits

If a participant dies before the date on which retirement benefit payments to the participant begin, a benefit is payable to the participant's beneficiary as follows:

- If the participant's beneficiary is any person other than his/her spouse, a death benefit equal to 100% of the vested value of the participant's account as of the last day of the month in which the death of the participant occurs shall be paid to such beneficiary.
- If the participant's beneficiary is his/her spouse, such spouse shall be entitled to receive
 - 1) a retirement benefit for his/her life commencing on the date the participant would have attained his/her normal retirement date if he/she had terminated employment on the date of death and survived to such normal retirement date or the actuarial equivalent of this amount under a single life annuity commencing any month after the participant's death or, alternatively,
 - 2) the spouse may elect to receive either the actuarial equivalent lump sum of the benefit determined in (1) above or the value of the participant's vested account balance at the date of death.

Administrative Expenses

The costs of administering the Plan and managing the Plan's Trust Fund ("Fund") are paid by the Plan. To the extent costs are unpaid by the Plan, they are borne by BBH&Co., in accordance with the Plan document. Expenses that are paid by BBH&Co. are excluded from these financial statements. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting in conformity with U.S. generally accepted accounting principles ("U.S. GAAP").

Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for a discussion of fair value measurement.

**Cash Balance Retirement Plan of
Brown Brothers Harriman & Co.
Notes to Financial Statements
December 31, 2024 and 2023**

2. Summary of Significant Accounting Policies (Cont'd)

Purchases and sales of securities are reflected on a trade-date basis. Realized gains and losses on sales of securities are determined by average cost for common stocks, mutual funds and trust preferred securities, and the specific identification method for all other securities.

In accordance with the policy of stating investments at fair value, the annual net appreciation in the fair value of investments is reflected in the Statements of Changes in Net Assets Available for Benefits. Net appreciation in the fair value of investments consists of realized and unrealized gains and losses on those investments.

Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned on an accrual basis.

Benefits Paid to Participants

Benefits are recorded when paid.

Actuarial Method

Costs and liabilities for benefits under the Plan are calculated by the Plan's actuary, under the unit credit cost method. Accumulated plan benefits are those future periodic payments that are attributable to the provisions of the Plan based on service employees have rendered as of the measurement date.

The actuarial present value of accumulated plan benefits, as determined by the Plan's actuary, results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment between the measurement date and the expected date of payment.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to or deductions from net assets available for benefits during the reporting period.

These significant estimates include the actuarial present value of accumulated plan benefits and fair value of certain investments. Actual results could differ from those estimates.

Receivables

The carrying amounts of receivables in the Statements of Net Assets Available for Benefits approximate their fair values due to the short-term nature of these financial instruments.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that

Brown Brothers Harriman & Co.
Notes to Financial Statements
December 31, 2024 and 2023**

2. Summary of Significant Accounting Policies (Cont'd)

changes in the values of investment securities may occur in the near term and that such changes could materially affect amounts reported in the Statements of Net Assets Available for Benefits.

As of December 31, 2024 the Plan had investments of \$23,511,626 concentrated in a US treasury bill. There were no concentrations as of December 31, 2023. Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Recent Regulatory Updates

The SECURE 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management adopted mandatory provisions effective for the year ended December 31, 2024, and continues to evaluate the impact of the adoption and implementation of this legislation on the Plan. The application of SECURE 2.0 Act did not have a material effect on the Plan's financial statements.

3. Funding Policy

All contributions to the Plan are made by BBH&Co. based on amounts determined annually by the Plan's actuary and recognized as income in the year for which the contribution is made. The Plan Sponsor complied with the minimum funding requirements of ERISA in 2024 and 2023. No employer contributions were made in 2024 and 2023.

**Cash Balance Retirement Plan of
Brown Brothers Harriman & Co.
Notes to Financial Statements
December 31, 2024 and 2023**

4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum payments that are attributable, under the Plan's provisions, to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death and termination of employment - are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The more significant assumptions underlying the actuarial computations are as follows:

	<u>January 1, 2024</u>
Discount rate	4.75% per annum
Interest crediting rate	5.00% per annum
Mortality basis	2024 Internal Revenue Code ("IRC") Section 417(e) unisex mortality table for cash balance annuity conversion and determination of the lump sum value of prior plan benefits. Otherwise, PRI-2012 white collar, sex distinct tables with projection scale MP-2021 are used.
Annuity conversion and lump sum interest rate basis	5% per annum
Terminations	Based on service and entry age
Retirement rates	Graded schedule which assumes retirements occur from age 55 through 65, with an average retirement age of 62. Partners are assumed to retire at age 74.
Vesting requirements	100% vested after 3 years

The foregoing actuarial assumptions are based on the presumption the Plan will continue. In the event of a Plan termination, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Actuarial Present Value of Accumulated Plan Benefits (Cont'd)

The total actuarial present value of accumulated benefits as of January 1, 2024 is as follows:

Vested benefits	
Participants currently receiving payments	\$ 1,668,103
Other participants	46,042,754
	<u>47,710,857</u>
Nonvested benefits	846,628
	<u>\$ 48,557,485</u>

At January 1, 2023, the total actuarial present value of accumulated benefits was \$80,531,097. The decrease of \$31,973,612 is due to the following:

Benefits accumulated and actuarial losses	\$ (931,557)
Increase for interest due to decrease in discount period	3,103,521
Change in other actuarial assumptions	(64,318)
Benefits paid and annuities	<u>(34,081,258)</u>
Net decrease	<u>\$ (31,973,612)</u>

The change in assumptions for mortality table and interest in 2023 resulted in a decrease of \$64,318 in the actuarial present value of accumulated plan benefits as of January 1, 2024.

5. Termination Priorities

BBH&Co. has not expressed any intent to discontinue its contributions; however, it is free to do so at any time, subject to the penalties set forth in ERISA.

In the event the Plan terminates, the net assets of the plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.
2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.

Cash Balance Retirement Plan of Brown Brothers Harriman & Co. Notes to Financial Statements December 31, 2024 and 2023

5. Termination Priorities (Cont'd)

3. Other vested benefits insured by the Pension Benefit Guaranty Corporation (“PBGC”) (a U.S. government agency) up to the applicable limitations (discussed subsequently).
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits upon Plan termination at some future date will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

6. Trust Agreement

Effective April 1, 1984, the Plan initiated a trust agreement with Brown Brothers Harriman Trust Company, N.A. (“BBH Trust”), a wholly owned subsidiary of BBH&Co. Under this trust agreement, BBH Trust is the custodian and retains discretionary control over the assets of the Plan. Certain custody and administrative costs of BBH Trust are borne by the Plan Sponsor.

7. Tax Status

The Plan received an updated determination letter from the Internal Revenue Service (IRS) dated February 11, 2021, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (“IRC”) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualified status. Although the Plan has been amended since receiving the determination letter, the plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 740, “*Income Taxes*” (“ASC 740”), requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024 there are no uncertain

7. Tax Status (Cont'd)

positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Fair Value Measurements

FASB ASC 820, "*Fair Value Measurements*," ("ASC 820") establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC No. 820 are described as follows:

Level 1: Quoted prices for identical instruments in active markets

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs. There have been no changes in valuation methodologies or inputs used at December 31, 2024 and 2023.

Money market funds are carried at amortized cost, which approximates fair value. Mutual funds are valued at quoted market prices representing the net asset value of the shares held by the Plan at year end. Common stocks and U.S. Government obligations are valued at closing quoted market prices reported in the active markets in which the individual securities are traded.

Corporate obligations, collateralized mortgage obligations, and municipal obligations are valued on the basis of a bid evaluation (i.e., a good faith estimate as to what a buyer in the marketplace would pay for a security) as reported by pricing services utilized by the Plan's trustee. Often, these evaluations use proprietary models that gather information from market sources and integrate relative credit information, observed market movements, and sector news into the evaluated pricing models. The pricing service provides a broker quote when sufficient information, such as security

8. Fair Value Measurements (Cont'd)

structure or other market information, is not available to produce an evaluation. Broker-quoted securities are adjusted solely on receipt of updated quotes from market makers or broker-dealers recognized as market participants. For broker-quoted issues, the pricing service applies a zero spread relationship to the bid-side valuation.

The Plan's investments in hedge funds, private equity funds and private funds are stated at fair value represented by the net asset value of the partnership interests or other interests owned by the Plan at year-end, as determined by the fund based on the audited fair value of its underlying investments. The fair value of the Plan's investments in hedge funds, private equity funds and private funds reflects the amounts the Plan expects to receive if it were to liquidate its interests in the funds, excluding any redemption charges that may apply.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024:

(a) Private Equity Funds

This class includes investments in private equity funds that invest in growth companies and commercial real estate opportunities through various types of investments including equity, debt, participating debt and equity, preferred equity and joint venture equity. There is a fixed investment horizon typically up to 10 years. The fair values of the investments in this class have been estimated using the net asset value per share of the investments. Generally, units held are not capable of redemption at the request of the Plan.

(b) Hedge Funds

This class includes investments in hedge funds. The principal investment objectives are to produce attractive risk-adjusted returns in all types of market environments with low volatility and to exploit pricing inefficiencies in equity and debt securities. The fair values of the investments in this class have been estimated using the net asset value per share of the investments. There are often lock-up and other limitations to withdraw capital.

(c) Private Funds

This class includes an investment in the BNY Mellon MCM Dynamic U.S. Equity Fund of the Bank of New York Mellon (the "BNY Fund"). The objective of the Fund is to exceed the performance of the S&P 500® Index by actively allocating assets across the equity, fixed income, and cash markets of the United States. Assets of the Fund may be invested in securities, derivatives, and a combination of other collective funds. The Fund's policy is to not make any distributions to its participants. Participants may purchase or redeem units of the Fund for cash or securities (in-kind transactions at the sole discretion of the Trustee) based on the class unit value determined as of the valuation date.

8. Fair Value Measurements (Cont'd)

The fair values of the investments in this class have been estimated using the net asset value per share of the investments.

9. Related Party Transactions and Party-in-Interest Transactions

Certain investments of the Plan are invested in a mutual fund and private equity funds that are managed by BBH&Co., BBH Hedge Fund Management LLC and other subsidiaries of BBH&Co. Certain administrative functions of the Plan are performed by officers or employees of the Plan Sponsor. No such officer or employee receives compensation from the Plan. In addition, the cash balance of the Plan at year end is held with the trustee of the Plan, BBH Trust. Therefore, these transactions qualify as party-in-interest transactions. As of December 31, 2024, and 2023, the fair value of the Plan's investments including cash held with the above parties-in-interest amounted to \$8,949,279 and \$10,978,553, respectively.

10. Subsequent Events

Subsequent events have been evaluated by management through October 8, 2025, the date on which the financial statements were available to be issued.

Schedule SB, Part V — Summary of Plan Provisions

-
- **Pay-Related Credits** As of the last day of each calendar month beginning after December 31, 1997, the Account of each Participant who is an Eligible Employee for all of such month Pay-Based Credits will be credited with a percentage of the Participant's Base Pay for the month, depending on the Participant's age (nearest birthday) as of the first day of such Plan Year, determined as follows:

Age less than 30:	3.0%
Age 30 but less than 40:	4.0%
Age 40 or over:	5.0%

No pay-related credits shall be credited after December 31, 2012.

 - **Supplemental Credits** In addition to any Interest or Pay-related credits, any employee who is a Partner is entitled to a Supplemental Credit equal to the maximum "Employer Matching Contribution" (as defined in the Brown Brothers Harriman Co. Capital Accumulation Plan). Employee participants at December 31, 1997 and continuously employed get the greater of the Cash Balance Account and the Prior Plan Benefit.

No supplemental credits shall be credited after December 31, 2012.

 - **Interest Credits** As of the last day of each calendar month beginning after December 31, 1997, each Participant's account shall be increased by crediting the balance in the account as of the last day of the preceding calendar month with an Interest Credit. The interest credit percentage is based on the average 5-year Treasury rates for August, September, and October preceding the Plan Year. Effective January 1, 2008, the interest credit percentage for a plan year shall not be less than 2.1%.

 - **Transition Credits** As of the last day of each calendar month beginning after January 1, 1998, all Eligible Employees as of January 1, 1998 shall have their accounts credited with an amount equal to a percentage of the Participant's base pay for the month. The percentage is based on years of service and age at January 1, 1998. Partners are not entitled to Transition Credits. No transition credits shall be credited after December 31, 2012.

Schedule SB, Part V — Summary of Plan Provisions

Deferred vested	
• Eligibility	A participant who terminates employment after completing at least three years of service is entitled to his accrued benefit payable as of his normal retirement date. A vested terminated participant who only has a Prior Plan accrued benefit may elect to receive reduced benefits as early as age 55. A vested terminated participant who has a cash balance benefit may elect to commence at any age.
• Benefit	The Prior Plan Accrued benefit reduced by 0.6667% for each month commencement precedes age 65 (up to 5 years) and .3333% for each month commencement precedes age 60 (up to 5 years) or, if greater, the cash balance benefit.
Pre-retirement death	
• Benefit	Based on Participants' Beneficiary as follows: (a) If the Participant's Beneficiary is his spouse, the benefit payable is a life annuity equal to 100% of the Member's Accrued Benefit at date of death commencing on the day the Participant would have attained Normal Retirement Date. The spouse may elect to begin benefits at any time prior to the Participant's Normal Retirement Date. If such an election is made, the benefit payable is the actuarial equivalent of the benefit payable at the Participant's Normal Retirement Date. Alternatively, the spouse may elect to receive 100% of the participant's Account Balance. (b) If the Participant's Beneficiary is not the spouse, the benefit is 100% of the Participant's Account Balance.
Unpredictable contingent event benefits	Not applicable
Form of benefits	
• Automatic form for unmarried participants	Life Annuity
• Automatic form for married participants	Qualified Joint and 50% Survivor Annuity
• Optional forms	Joint and Survivor Benefit (50%, 66 2/3%, 75% or 100%) may be elected not more than 90 days prior to Normal or Early Retirement Date. Lump sum distribution effective January 1, 1998.

Schedule SB, Part V — Summary of Plan Provisions

• Lump sum conversion basis	IRC Section 417(e) unisex mortality table for the Plan Year and the three segment rates for the month of November preceding the Plan Year of Distribution.
• Joint and survivor benefit conversion factors	Tabular factors based on the number of full years a beneficiary is older or younger than the participant.
Miscellaneous	
• Maximum compensation	Not applicable
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2024, the limit is \$275,000.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as noted in the 2016 restatement, are included in this valuation:

- **Most recent plan amendments included:** Plan amendment dated June 28, 2023.
- **Plan amendments excluded:** Not applicable
- **Late retirement increases:**
 - *Active participants:* The plan applies late retirement actuarial increases for all participants who defer retirement beyond their retirement date and this valuation includes those increases.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.

Schedule SB, Part V — Summary of Plan Provisions

- *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target [does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
 - **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits

Schedule SB, line 32 — Schedule of Amortization Bases

The total shortfall amortization charge is the sum of the individual shortfall amortization installments for each plan year since the IRC Section 430 changes made by ARPA took effect for the plan. Although an individual shortfall amortization installment can be negative, the combined shortfall amortization charge cannot be less than \$0.

Shortfall bases			
Year established	Outstanding balance	Years remaining	2024 Installment
2021	3,346,739	12	357,048
2022	831,309	13	83,645
2023	10,207,853	14	974,267
2024	(5,112,218)	15	(465,112)
Total	\$ 9,273,683		\$ 949,848

Schedule SB, line 24 — Change in Actuarial Assumptions

- The interest crediting rate assumption was updated from 3.00% to 4.00%.
- The administrative expense assumption decreased from \$225,000 to \$215,000.
