Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITOR'S REPORT

Clifford Chance US LLP Retirement Investment Committee
of Clifford Chance US LLP Partner Pension Plan II

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Clifford Chance US LLP Partner Pension Plan II (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

(Continued)

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2024 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

CLIFFORD CHANCE US LLP
PARTNER PENSION PLAN II
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 – DESCRIPTION OF PLAN

The following brief description of the Clifford Chance US LLP Partner Pension Plan II (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General: The Plan is a defined benefit pension plan covering substantially all partners of Clifford Chance US LLP (the Firm) who are credited 1,000 hours of service. An eligible partner includes all U.S. partners, excluding “seconded partners” and leased partners. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All partners who are eligible to participate in the Plan are also eligible to participate in the Clifford Chance US LLP Partner Pension Plan I (Plan I). The Plan is aggregated with the Clifford Chance US LLP Tax-Deferred Savings and Profit Sharing Plan II for purposes of meeting the minimum coverage requirements and the nondiscrimination requirements.

Pension Benefits: The Plan offers the following benefits:

Normal Retirement Benefit: Partners with five or more years of service are entitled to annual pension benefits beginning at retirement age equal to the participant’s retirement shares benefit attributable to the retirement shares earned by the participant under the Plan. The Plan permits retirement at the later of age 65 or the fifth anniversary of the date the participant commenced participation in the Plan. The amount of a participant’s monthly retirement shares benefit payable in the plan year in which benefits commence shall equal one-twelfth of the sum of (1) the participant’s number of accumulated retirement shares as of the annuity starting date and (2) the applicable share value as of the annuity starting date. For each subsequent plan year, the amount of the participant’s retirement shares benefit payable during such plan year shall be adjusted to reflect the share values as of the most recent accounting date in the immediately preceding plan year. Retirement shares are converted from benefit credits as of the last day of a plan year. Participants will receive benefit credits based on the following “tiers” on the first day of the plan year:

Low Tier: Partners with less than 140 units or their equivalents: Benefit Credits equal \$1,500

Medium Tier: Partners with 140 – 200 units or their equivalents: Benefit Credits equal \$3,000

High Tier: Partners with more than 200 units or their equivalents: Benefit Credits equal \$5,000

Deferred Vested Retirement Benefit: A participant who has a separation from service prior to attainment of normal retirement age shall be eligible to receive a deferred vested retirement benefit under the Plan equivalent to the actuarial equivalent of the participant’s vested retirement shares benefit by applying the applicable actuarial reduction to the number of retirement shares.

Disability Benefits: Participants who meet their applicable Plan Supplement’s definition of Disabled are eligible to receive disability benefits upon meeting the age and service requirements equivalent to the amounts which would have been payable under the Plan to the participant if the participant had instead retired with an immediate single life variable annuity for the participant’s life.

Survivor Benefits: Eligible participants shall be deemed to have automatically elected the joint and survivor benefit option as prescribed by their applicable Plan Supplement which provides for reduced benefits for the life of the participant and for the life of the surviving spouse. Election of other joint and survivor annuities (as prescribed by their applicable Plan Supplement), single life annuity or other allowable options are also permitted under the Plan.

December 31, 2024 and 2023

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Participants may elect to receive the value of their accumulated plan benefits as a lump-sum distribution upon retirement or termination, as a life annuity payable monthly from retirement, or they may elect to receive an optional method listed below:

- (a) A variable annuity for the life of the participant.
- (b) A joint and one hundred percent (100%) variable survivor annuity.
- (c) A joint and seventy-five percent (75%) variable survivor annuity.
- (d) A joint and fifty percent (50%) variable survivor annuity.
- (e) A single lump sum.

Vesting: All participants are subject to a 2-6 graded vesting schedule. For purposes of vesting, an employee will be credited with one year of vesting service in which an employee has at least 1,000 hours of service. An employee shall not be credited with a fractional year of vesting service for any plan year in which the employee has less than 1,000 hours of service. Vesting includes prior employer services as an attorney but only after completing 1,000 hours in first anniversary year and the two following plan year. A participant who attains normal retirement age while employed by the employer shall have a vested percentage of 100%.

Administration: The administration of the Plan, which includes determining administrative actions and interpreting and applying the Plan's provisions, is performed by the Plan Administrator. The Plan Administrator is assigned with the right to settle claims or debts, and to defend any claims arising from the operation of the Plan. The Plan Administrator is also responsible for advising the Trustee regarding benefits that become payable.

Administrative and Investment Management Expenses: The Plan's trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. Certain other expenses may also be paid from the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimates of the actuarial present value of accumulated plan benefits.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefits are recorded when paid.

December 31, 2024 and 2023

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties: The Plan utilizes various investments. Investments, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market risk, including global events. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

NOTE 3 – CERTIFIED INFORMATION

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments held at December 31, 2024 and 2023, and net appreciation in fair value of investments, interest, and dividends, for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by Reliance Trust Company (the trustee of the Plan).

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

The following presents the valuation methods and assumptions used by the Plan to estimate the fair values of investments.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Exchange Traded Funds: The fair values of exchange traded funds are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The methods described above may produce a fair value estimate that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2024, Using			
	<u>Total</u>	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Total	<u>\$ 26,426,729</u>	<u>\$ 26,426,729</u>	<u>\$ -</u>	<u>\$ -</u>

	Fair Value Measurements at December 31, 2023, Using			
	<u>Total</u>	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual Funds	\$ 11,099,036	\$ 11,099,036	\$ -	\$ -
Exchange Traded Funds	<u>13,236,350</u>	<u>13,236,350</u>	<u>-</u>	<u>-</u>
Total	<u>\$ 24,335,386</u>	<u>\$ 24,335,386</u>	<u>\$ -</u>	<u>\$ -</u>

NOTE 5 – FUNDING POLICY

Employer contributions to the Plan are made in amounts approved by the Company. Such contribution amounts must adhere to or exceed the minimum funding requirements under ERISA, as determined by the Plan's actuary. The Company's contributions to the Plan for the year ended December 31, 2024 satisfied the minimum funding requirements of ERISA. Participant contributions are not permitted under the Plan.

(Continued)

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated among the participants and beneficiaries of the Plan in the order provided by ERISA.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 7 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. Under certain Plan benefit formulas, Plan benefits are based on participants' accumulated accrued benefit adjusted by the benefit credits at the beginning of the plan year, and the return on assets for the participants' share value. Benefits payable under all circumstances — retirement, death, disability, and termination of employment — are included, to the extent they are deemed attributable to participant service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2024 and 2023 and to calculate the obligation transfer were as follows:

Mortality: The 2025 projected, combined, static mortality tables for males and females for small plans as published in IRS Notice 2024-42 and the 2024 projected, combined, static mortality tables for males and females for small plans as published in IRS Notice 2023-73, respectively.

Retirement age: Vested former employees are assumed to retire immediately. If not retired within two years of termination, assume retire at age 67.

Interest hurdle rate (or long term rate of return): 5.00%.

Valuation interest rate: 5.00%

NOTE 7 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefit information as of December 31, 2024 and 2023 was as follows:

Actuarial present value of accumulated plan benefits	<u>2024</u>	<u>2023</u>
Vested benefits		
Participants currently receiving payments	\$ 99,037	\$ 101,200
Other participants	<u>25,779,761</u>	<u>23,658,123</u>
	25,878,798	23,759,323
Nonvested benefits*	<u>76,538</u>	<u>29,692</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 25,955,336</u>	<u>\$ 23,789,015</u>

*Nonvested benefits are made up of the portion of benefits earned by participants who have not accrued enough service to become fully vested.

The changes in the actuarial present value of accumulated plan benefits for year ended December 31, 2024, are as follows:

Actuarial present value of accumulated plan benefits at beginning of year (unaudited)	\$ 23,789,015
Increase during the year attributable to:	
Change in actuarial assumptions**	(199)
Benefits accumulated and actuarial (gains)/losses	3,289,216
Increase for interest due to the decrease in the discount period	1,133,057
Benefits paid	<u>(2,255,753)</u>
Net increase	<u>2,166,321</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 25,955,336</u>

**The changes in actuarial assumptions noted in the table above are the result of a change in the mortality table to the 2025 tables.

NOTE 8 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the plan, any party rendering service to the plan, the employer, and certain others. Amounts paid by the Plan directly or indirectly are considered party-in-interest transactions. Certain professional fees for the administration and audit of the Plan were paid by the Firm. Various administrative functions are performed by officers or employees of the Firm. No such officer or employee receives compensation from the Plan.

NOTE 9 – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated August 8, 2017 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2021.

NOTE 10 – SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 13, 2025, which is the date the financial statements were available to be issued.
