INDEPENDENT AUDITORS' REPORT

Officers and Directors
GMB Architecture & Engineering Employee Stock Ownership Plan
Holland, Michigan

Opinion

We have audited the accompanying financial statements of GMB Architecture & Engineering Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of GMB Architecture & Engineering Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of Financial Statements section of our report. We are required to be independent of GMB Architecture & Engineering Employee Stock Ownership Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about GMB Architecture & Engineering Employee Stock Ownership Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of GMB Architecture & Engineering Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about GMB Architecture & Engineering Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held at End of Year as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Respectfully submitted,

**GMB ARCHITECTURE & ENGINEERING EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 1 – DESCRIPTION OF PLAN

The following brief description of the GMB Architecture & Engineering Employee Stock Ownership Plan (the Plan), is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Gordon Buitendorp Associates, Inc. (d/b/a GMB Architecture & Engineering, herein referred to as “the Company”) established the GMB Architecture & Engineering Employee Stock Ownership Plan effective as of January 1, 2019. The plan was created and operates, in relevant part, as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder the Internal Revenue Code of 1986, as amended (IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the Company.

The Plan purchased Company common stock using the proceeds of a loan issued from the Company to the Plan (Note 7), and holds the common stock in a trust established under the Plan. The borrowing is to be repaid over a period of thirty years by fully deductible Company contributions to the trust fund. As the Plan makes each loan payment, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of common stock. The Company has no rights against shares of common stock once they are allocated under the provisions of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, and for the years ended December 31, 2024 and 2023, present separately the assets and liabilities and changes therein pertaining to:

1. The accounts of employees with vested rights in allocated common stock (Allocated) and,
2. Common stock not yet allocated to employees (Unallocated).

Eligibility

Employees of the Company are generally eligible to participate in the Plan after having worked one hour of service and are at least 21 years of age. Entry dates to the Plan are January 1 or July 1 of the Plan year. Participants who are not eligible during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions

The Company is obligated to make contributions in cash to the Plan which equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employees are not permitted to make contributions.

See independent auditors' report.

**GMB ARCHITECTURE & ENGINEERING EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 1 – DESCRIPTION OF PLAN – Continued

Payment of Benefits

Participants may receive distributions from their vested accounts under the Plan upon termination of service or death in the form of a lump-sum payment or in installments. Generally, installment payments will be made over a period not to exceed five years. The five year period may be extended an additional year (up to an additional five years) for each \$275,000 by which the participant's vested account balance exceeds \$1,380,000 (as adjusted under Code 409(o)). Distributions are made as soon as administratively feasible following the end of the Plan year in which the event occurred. Distributions are made in cash or, if a participant elects, in the form of Company common stock plus cash for any fractional share of common stock.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations.

During 2024 and 2023, the Company repurchased 419.19 and 437.83 shares, respectively, from separated participants. The price of the shares was determined from the year's independent appraisal. The Company subsequently contributed these repurchased shares back to the Plan before the end of the plan year.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. If a participant fails to exercise their voting rights, the trustee, in its discretion, shall vote the shares of allocated employer stock. The trustee is required, however, to vote any unallocated shares.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the trustee shall pay all liabilities and expenses of the trust fund and sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account and forfeitures of terminated participants' non vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's allocation balance to all participants' allocation balances. A participant's allocation balance is the account balance at the preceding valuation date reduced by the amount of each withdrawal, distribution, transfer, or forfeiture from the account after the preceding valuation date.

See independent auditors' report.

NOTE 1 – DESCRIPTION OF PLAN – Continued

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20% per year of service, beginning with the second year of service, and are 100% vested after six years of service.

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 and have at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. Participants eligible to diversify shall have the proceeds transferred to the Company's profit sharing plan or receive the distribution in the form of the Company's common stock. Participants eligible to diversify make their election within the first ninety days after year-end based on the number of shares of the employer's stock held in their account at year-end.

Forfeitures

Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. During 2024 and 2023, participants forfeited 120.81 and 86.78 shares, respectively. The Company subsequently contributed the forfeited shares back to the Plan before the end of the respective plan year.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

See independent auditors' report.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The share of the company stock is valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Payment of Benefits

Benefits are recorded when paid.

Expenses

In 2024 and 2023, certain expenses of maintaining the Plan were paid by the Company and were therefore excluded from these financial statements.

Date of Management's Review of Subsequent Events

Management has evaluated subsequent transactions and events through October 9, 2025, the date these financial statements were available to be issued, and has determined that no items require additional disclosure.

NOTE 3 – FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments.

See independent auditors' report.

NOTE 3 – FAIR VALUE MEASUREMENTS – Continued

Level 3 Fair Value Measurements

The fair value of the Company common stock is based on an annual independent appraisal. This appraisal was based on a combination of the market and income valuation approaches. The appraiser took into account historical and projected cash flow and net earnings, weighted average cost of capital, market comparable, and applicable discounts and premiums.

The following table presents fair value measurement information for the Plan's investments in the Company common stock. The carrying value of cash included in the accompanying statement of net assets available for benefits approximated fair value at December 31, 2024 and 2023, and therefore is not included in the following table.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2024

	Level 3 Significant Unobservable Inputs
GMB Architecture & Engineering Common Stock	\$ 46,009,746

Assets Measured at Fair Value on a Recurring Basis at December 31, 2023

	Level 3 Significant Unobservable Inputs
GMB Architecture & Engineering Common Stock	\$ 36,309,780

The following tables provide further details of the Plan's Level 3 fair value measurement at December 31, 2024 and 2023:

	2024 Company Common Stock	2023 Company Common Stock
Beginning Balance	\$ 36,309,780	\$ 26,740,262
Plus: Net Appreciation in Fair Value of Investments	9,699,966	9,569,518
Ending Balance	\$ 46,009,746	\$ 36,309,780

See independent auditors' report.

NOTE 3 – FAIR VALUE MEASUREMENTS – Continued

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended December 31, 2024 and 2023, are reported in the net appreciation in fair value of investments.

The plan's policy is to recognize transfers into and out of level 3 as of the date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2024 and 2023, there were no significant transfers into or out of level 3.

NOTE 4 – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated August 23, 2023, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

NOTE 5 – ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist principally of Company common stock, are held by the trustee of the Plan.

Company contributions are held and managed by the trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The trustee also administers the payment of interest and principal on the loan, which is reimbursed to the trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the trustee's fees are paid directly by the Company.

NOTE 6 – INVESTMENTS

The Plan's investments in Company common stock at December 31, 2024 and 2023, is as follows:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Number of Shares	10,520	42,080	8,767	43,833
Cost	\$ 5,014,308	\$ 20,057,853	\$ 4,073,953	\$ 20,819,957
Fair Value	\$ 9,201,949	\$ 36,807,797	\$ 6,051,630	\$ 30,258,150

See independent auditors' report.

NOTE 7 – LOAN PAYABLE

In 2019, the Plan entered into a \$25,000,000 term loan agreement with the Company. The proceeds of the loan were used to purchase the Company’s common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants when principal and interest payments are made. The number of shares released in any year is the number of shares held as collateral, multiplied by the ratio of the current year payments, divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 1,753 shares being released and allocated for each of the plan years ended December 31, 2024 and 2023. The agreement provides for the loan to be repaid over 30 years. The note bears interest at 1.86% and interest expense for the years ended December 31, 2024 and 2023 was \$398,600 and \$411,037, respectively.

The current maturities of long-term debt are as follows:

<u>Year Ended</u>	
December 31, 2025	\$ 693,771
December 31, 2026	706,675
December 31, 2027	719,819
December 31, 2028	733,208
December 31, 2029	746,845
Thereafter	<u>17,148,699</u>
TOTAL	<u><u>\$ 20,749,017</u></u>

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan’s investments consist primarily of the Company’s common stock, which is exposed to various risks, including interest rate, market, and credit risks, as well as valuation assumptions based on earnings and cash flows. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

NOTE 9 – PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company common stock and has indebtedness to the Company, therefore these transactions qualify as party-in-interest transactions. As described in Note 2, the Company pays certain expenses of the Plan.

Principal Financial Group is the plan’s recordkeeper, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the recordkeeping services are included in administrative expenses.

These party-in-interest transactions are exempt from prohibited transaction rules of ERISA.

See independent auditors’ report.
