INDEPENDENT AUDITORS' REPORT

To the Retirement Investment Committee of
Chapman University:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Chapman University Defined Contribution Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits (modified cash basis) as of December 31, 2024 and 2023 and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certification from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the modified cash basis of accounting described in Note 2.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution which management has determined to meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter – Basis of Accounting

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting described in Note 2, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of the modified cash basis of accounting.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with the modified cash basis of accounting.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule of assets held at end of year is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution which management has determined to meet the requirements of ERISA Section 103(a)(3)(C).

Chapman University Defined Contribution Retirement Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Chapman University Defined Contribution Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions. The Plan’s investments are held by Teachers Insurance and Annuity Association and College Retirement Equities Fund (“TIAA-CREF”), Metropolitan Life Insurance Company (“MetLife”), and Fidelity Investments Tax-Exempt Services Company (“Fidelity”), who also serve as third party administrators for the Plan.

General

The Plan is a defined contribution 401(a) plan, adopted June 1, 1992 and most recently amended on January 1, 2024. The Plan covers substantially all employees of Chapman University (the “University”), effective as of January 1, 2009, substantially all employees of Brandman University, and effective as of September 1, 2008, substantially all employees of Chapman Singapore Education Centre Pte. Ltd. through May 30, 2014. As a result of adoption of the Brandman University Defined Contribution Retirement Plan (the “Brandman Plan”), effective on October 7, 2019, the majority of the Brandman employees’ accounts were transferred out of the Plan to the Brandman Plan during the year ended December 31, 2019.

Employees are eligible to become a participant in the Plan on the first day of the payroll period following their date of hire as an eligible class of employee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). Effective October 1, 2013, the University makes contributions to a qualified default investment alternative (a target date fund) if no investment election is made by the employee.

Employer Contributions

The University contributes 3% of each participant’s eligible salary. The University also makes a matching contribution up to a maximum of 6% of each participant’s eligible salary for those contributing up to 6% of their eligible salary to the Chapman University Tax-Deferred Annuity (TDA) Retirement Plan (“TDA Plan”). Total employer contributions for each participant are subject to certain IRS limitations. Effective November 1, 2011 employer contributions to MetLife were suspended by the University.

December 31, 2024 and 2023

NOTE 1 - DESCRIPTION OF PLAN – Continued

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with (a) University's contributions, (b) earnings on investments and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants direct the investment of their account balance into various investment options offered by the Plan and may change their investment options at any time, subject to the terms of the funding vehicles. Plan earnings are credited to a participant's account according to the type of funding vehicles in which balances are invested.

Vesting

The University's contributions vest according to the following schedule:

<u>Years of Service</u>	<u>Vesting %</u>
Less than 1 year	0
1 year, but less than 2 years	25
2 years, but less than 3 years	50
3 years, but less than 4 years	75
More than 4 years	100

Participant Loans

Participants may not borrow from their fund accounts.

Payment of Benefits

Upon termination of service, retirement, death, or total permanent disability, a participant may elect to receive a distribution of his or her entire accumulated Plan balance, subject to the terms of the funding vehicles. Distribution options include lump-sum payments, partial payments, fixed annuities, variable annuities, or installments. Minimum required distributions for participants who have reached age 70 ½ (prior to 2020), age 72 (effective January 1, 2020) or age 73 (effective January 1, 2023) also apply per Internal Revenue Service (IRS) regulations. Distributions for a participant account of less than \$7,000 may be made in the form of a lump-sum payment without consent of the participant or beneficiary.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the modified cash basis of accounting. That basis differs from accounting principles generally accepted in the United States of America ("US GAAP") primarily because contributions and the related assets are recognized when earned and expenses are recognized when paid rather than when obligations are incurred.

Benefit Payments

Benefit payments are recorded when paid.

Forfeitures

Forfeitures are recorded at the earlier of five years after employee termination or withdrawal request. The University will calculate a vesting percentage and notify the Plan custodians at the forfeiture date. Amounts not vested will be transferred from the participants' accounts to the University's forfeiture account, which can be used to offset future University contributions. At December 31, 2024 and 2023, unused forfeited non-vested amounts totaled \$43,723 and \$14,436 respectively. The University used \$113,750 of forfeitures to offset University contributions during the year ended December 31, 2024.

Administrative Expenses

Plan investments are subject to certain investment fees based on a percentage of invested assets. Such fees are first paid from revenue sharing receipts and any remaining portion is included within net appreciation in fair value of investments in the accompanying statement of changes in net assets available for benefits. The Plan also pays fees to TIAA-CREF, MetLife and Fidelity for recordkeeping and other fees associated with administration of the Plan. Investment and investment advisory fees paid from revenue sharing receipts and Plan recordkeeping and administration fees are reflected as administrative expenses on the accompanying statement of changes in net assets available for benefits. Certain Plan administrative expenses, including investment counsel and Plan consultant fees, are paid by the University. The amount of these expenses is minimal in relation to total Plan assets.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Chapman University Retirement Plan Investment Review Committee ("Committee") determines the Plan's valuation policies utilizing information provided by the custodians. See Note 3 for discussion of fair value measurements.

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES - Continued

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the cash basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through the date of the auditors' report, October 1, 2025 which is the date the accompanying financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board *Accounting Standards Codification (ASC) 820, Fair Value Measurement*, are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Chapman University Defined Contribution Retirement Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

NOTE 3 - FAIR VALUE MEASUREMENTS – Continued

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The determination of what constitutes an observable input requires judgment by the Plan's management. Plan management considers observable data to be that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by multiple independent sources that are actively involved in the relevant market.

The categorization of an investment within the fair value hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to the Plan management's perceived risk of that investment.

Following is a description of the valuation methodologies used for Plan assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual Funds and Pooled Separate Account: Valued at the daily closing price as reported by the fund registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-Directed Brokerage Account: This category allows a participant to buy or sell investments such as money market funds and mutual funds. The fair value of the brokerage account is the aggregation of the fair value of the underlying assets, all of which are actively traded, therefore, classified as Level 1 within the valuation hierarchy.

Group Variable Annuities: These accounts invest principally in equity securities, fixed-income instruments and short-term investments in accordance with each portfolio's investment objectives. Account investments are primarily valued using market quotations or prices obtained from independent pricing sources, which may employ various pricing methods to value the investments including matrix pricing. CREF Money Market Account holdings are generally valued at amortized cost. Each account determines its unit value each day and is available at www.tiaa-cref.org. Beginning in October 2014, daily values are listed on the NASDAQ website. The unit values are updated overnight for each day that NASDAQ is open.

Level 2 Guaranteed Investment Contracts: The Level 2 guaranteed investment contracts ("GIC") are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. The GICs do not permit the insurance company to terminate the agreement prior to the scheduled maturity date. The GICs are deemed Level 2 assets as the fair value is determined using observable inputs including the average earnings yield, which is comparable to similar securities.

NOTE 3 - FAIR VALUE MEASUREMENTS – Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024:

	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 159,844,910	\$ -	\$ -	\$ 159,844,910

Total Investments at Fair Value	<u>\$ 168,080,265</u>	<u>\$ 68,260,341</u>	<u>\$ 32,676,069</u>	<u>\$ 269,016,675</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023:

	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 133,692,863	\$ -	\$ -	\$ 133,692,863
Self-directed Brokerage Account	3,932,857	-	-	3,932,857
Pooled Separate Account	4,408,127	-	-	4,408,127
Group Variable Annuities	-	61,819,940	-	61,819,940
Guaranteed Investment Contracts	-	2,527,010	30,387,924	32,914,934
Total Investments at Fair Value	<u>\$ 142,033,847</u>	<u>\$ 64,346,950</u>	<u>\$ 30,387,924</u>	<u>\$ 236,768,721</u>

Quantitative information about significant unobservable inputs used in Level 3 fair value measurements is as follows:

The Plan's TIAA Traditional Annuity is reported at contract value and segregated into non-benefit and fully benefit responsive categories. Fair value approximates contract value for non-benefit responsive versions of the TIAA Traditional Annuity. Contract value is the aggregation of contributions, plus interest, less withdrawals, if any. Crediting rates are a combination of a guaranteed rate and an annually established discretionary rate. Additionally, the discretionary rate applied to contributions received during a reporting period may vary from the discretionary rate applied to account balances at the end of the prior reporting period. Transactions involving purchases and sales of individual TIAA Traditional Annuity contracts are not observable in a public marketplace, but contract value is a good approximation of fair value as supported by the fact that new contributions represent current transactions between willing buyers and sellers. As the transactions continue to occur with continued participant contributions at current stated contract values, the market-observable presumption is that the contract value of current funding represents a good approximation of fair value based on the willingness of the participant to continue to contribute. For each contribution, TIAA continues to record a contractual liability for the current contribution and does not consider such liability to have any embedded gain or loss.

NOTE 3 - FAIR VALUE MEASUREMENTS – Continued

The following table presents information about significant unobservable inputs related to the Plan's investment in assets categorized as Level 3 in the *ASC 820* fair value hierarchy at December 31, 2024 and 2023:

Type	Fair Value	Valuation Technique	Significant unobservable inputs	Range
TIAA Traditional Annuity	\$32,676,069 (as of December 31, 2024) \$30,387,924 (as of December 31, 2023)	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied*	RC – 3.90% - 6.75% RCP – 3.90% - 6.75%

* Unobservable inputs include discount rate applied.

The significant unobservable input used in the fair value measurement of the TIAA Traditional Annuity is the risk-adjusted market discount rate. Significant changes in this input in isolation would result in a significant change in the fair value measurement.

The preceding valuation methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The University has various processes and controls in place to ensure that fair value is reasonably estimated. The Committee, which reports to the Director of Risk Management, sets the valuation policies for Plan assets and is responsible for the determination of fair value.

The Committee (1) compares price changes between periods to current market conditions, (2) compares trade prices of securities to fair value estimates, (3) compares prices from multiple pricing sources, and (4) performs ongoing due diligence-based parameters for valuation. Valuation approaches are reviewed on an ongoing basis and revised as necessary based on changing market conditions to ensure values represent a reasonable exit price.

NOTE 4 – GUARANTEED INVESTMENT CONTRACTS

TIAA Traditional Annuity Contracts: TIAA Traditional Annuity (TIAA Traditional) is an unallocated fixed-annuity contract that is fully and unconditionally guaranteed by TIAA. A portion of TIAA Traditional is fully benefit responsive. TIAA Traditional provides a guarantee of principal, a guaranteed minimum rate of interest (generally 3%, but in some recent contracts between 1% and 3%) and the potential for additional interest if declared by TIAA. Additional interest, when declared, remains in effect for the “declaration year,” which begins each March 1. Additional interest is not guaranteed for future years. Contributions to a participant’s account are used to purchase a guaranteed amount of lifetime annuity income. When a participant’s account in TIAA Traditional is annuitized based on available options, the present value of the stream of payments is equal to the account balance. The subsequent stream of annuity payments occurs outside of the plan and does not represent an obligation of the Plan.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial plan termination or merger with another plan), (2) changes to the Plan’s prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the Plan’s ability to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with participants.

MetLife Fixed Interest Account: The Plan has investments in MetLife Fixed Interest Account which is guaranteed by MetLife. The reported values for fixed annuity options are reported daily based on the valuation method disclosed in the annuity contract as calculated by the annuity provider.

MetLife Fixed Interest Account is backed by the issuing insurance company’s General Account which invests primarily in public and private fixed income securities and private and real estate equity. The investment seeks to avoid investment risk by obtaining a fixed interest rate guaranteed by the issuing insurance company. The Fixed Interest Account is guaranteed by the issuing insurance company.

New York Life Guaranteed Interest Account: The Plan also have investments in New York Life Guaranteed Interest Account (“GIA”). The GIA is a group annuity contract issued and guaranteed by New York Life Insurance Company. New Your Life Insurance Company provides the guarantee of principal and accumulated interest.

NOTE 5 – CERTIFIED INVESTMENTS

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments held at December 31, 2024 and 2023, net appreciation in fair value of investments, and interest and dividends for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by TIAA-CREFT, MetLife and Fidelity.

Chapman University Defined Contribution Retirement Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

NOTE 6 – PARTIES-IN-INTEREST TRANSACTIONS

All Plan investments are managed by TIAA-CREF, MetLife, and Fidelity and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments as they are paid through revenue sharing rather than a direct payment. Fees paid by the Plan for account maintenance services and audit of the Plan's financial statements amounted to \$30,078 for the year ended December 31, 2024 and are reflected as administrative fees on the accompanying statement of changes in net assets available for benefits.

NOTE 7 - PLAN TERMINATION

Although the University has not expressed any intent to terminate the Plan, it may do so at any time. In the event of Plan termination, participants will become 100% vested in their accounts, and the assets of the Plan will be allocated in accordance with the requirements of ERISA. The University has the right to amend the Plan.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. The Plan provides for various investment options in mutual funds and other securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

NOTE 9 - TAX STATUS

The IRS has determined and informed the University by a letter dated October 17, 2003, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified, and the related trust is tax-exempt.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions.
