Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: ERNST & YOUNG LLP

(2) EIN: 34-6565596

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		500000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	X		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		X	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		X	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.		X

Report of Independent Auditors

The Board of Trustees
Nova Southeastern University, Inc.

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Nova Southeastern University 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits (modified cash basis) as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits (modified cash basis) for the years then ended, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024, and 2023, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all

**Shape the future
with confidence**

material respects, in accordance with the modified cash basis of accounting described in Note 2.

- the information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Modified Cash Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting as described in Note 2 and for determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management also is responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions,

**Shape the future
with confidence**

including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

**Shape the future
with confidence**

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of the modified cash basis of accounting described in Note 2.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with the modified cash basis of accounting.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule (modified cash basis) of assets (held at end of year) as of December 31, 2024, (referred to as the “supplemental schedule”), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

**Shape the future
with confidence**

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Nova Southeastern University 401(k) Plan

Notes to Financial Statements (Modified Cash Basis)

December 31, 2024

1. Description of Plan

Effective January 1, 2012, Nova Southeastern University, Inc (the University or Plan Sponsor) adopted the Nova Southeastern University 401(k) Plan (the Plan). The plan was restated April 28, 2016. The Plan was restated again effective January 1, 2021. The following description of the Plan provides general information about the Plan's provisions. The University is the Plan Sponsor. Participants should refer to the Plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the Plan Sponsor.

General

The Plan is a defined contribution plan covering eligible employees of the University as defined by the Plan's Provisions. Eligible participants are automatically enrolled in the Plan's basic employer contribution, as described below, after the completion of 1,000 hours and one year of service.

The University is responsible for the general administration of the Plan. Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF) (collectively referred to as TIAA-CREF) and Corebridge Financial (Corebridge), which represents the Variable Annuity Life Insurance Company (VALIC), and its subsidiaries and affiliates, including the VALIC Retirement Services Company (VRSCO) and the VALIC Trust Company, Inc.; are the custodians and record-keepers of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

In 2024 and 2023, participants could contribute up to \$23,000 and \$22,500, respectively, of pretax annual compensation, or after-tax beginning in 2022, as defined in the Plan document. Participants could also contribute amounts representing distributions from other qualified plans (rollover contributions). Participants who have attained age 50 before the end of the year were eligible to make catch-up contributions.

The Plan is designated as a safe harbor 401(k) Plan. The University will make a safe harbor matching contribution equal to 100% of participant deferrals that do not exceed 4% of participant compensation (safe harbor matching contribution). In addition, the University will contribute 2% of eligible employee compensation (basic employer contribution). Furthermore, a discretionary employer matching contribution equal to 100% of participant deferrals that do not exceed 4% of

Nova Southeastern University 401(k) Plan

Notes to Financial Statements (continued) (Modified Cash Basis)

1. Description of Plan (continued)

participant compensation may also be made (discretionary matching contribution). Accordingly, University contributions to the Plan are limited to 10% of the participant's eligible compensation, and all contributions are subject to certain limitations of the Internal Revenue Code (the Code).

Participants direct their elective contributions into various investment options offered by the Plan and can change their investment options on a daily basis. The University's contributions are allocated in the same manner as that of the participants' elective contributions. Effective January 1, 2022, if a participant is automatically enrolled, eligible new hires' contributions are directed exclusively to TIAA-CREF.

Participant Accounts

Each participant's account is credited with the participant's contributions and the University's contributions and allocations of Plan earnings, and is charged with an allocation of administrative expenses. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. Allocations of administrative expenses are based on the participant's account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective deferral contributions and the University safe harbor matching contribution plus actual earnings thereon. Vesting in the University's basic employer contribution and discretionary matching contribution is based on years of continuous service. A participant is 100% vested after three years of credited service, or upon death or disability.

Forfeitures

Participants forfeit their non-vested balances at the earlier of five consecutive years of breaks-in-service or upon cash-out. Forfeited balances of terminated participants' non-vested accounts are used to pay future plan fees or reduce the University's future contributions. Unallocated forfeitures as of December 31, 2024 and 2023, were \$491,994 and \$452,645, respectively. Forfeitures used to reduce the Plan fees or the University contributions were \$115,824 and \$125,976 for 2024 and 2023, respectively.

Nova Southeastern University 401(k) Plan

Notes to Financial Statements (continued) (Modified Cash Basis)

1. Description of Plan (continued)

Plan Loans

Plan loans are issued directly from Corebridge or TIAA-CREF funds and not from a participant's account. For Plan loans issued by TIAA-CREF, a portion of the participant's account balance (110% of the loan amount) is held as loan collateral. For Plan loans issued by Corebridge, a portion of the participant account balance (an amount equal to the loan principal plus first quarter interest due) is held as loan collateral. Participants may borrow up to 50% of their vested balance if there are sufficient funds to cover the collateral. Loans bear various interest rates and are subject to periodic repayments. Defaulted loans are classified as distributions for tax purposes. Loan principal repayments reduce the amount of collateral required and increase the funds available for the participant's use. Outstanding Plan loans as of December 31, 2024 and 2023 were \$197,243 and \$214,077, respectively, and are not reported within the accompanying financial statements of the Plan.

Notes Receivable From Participants (Participant Loans)

The Plan also offers participants the option of borrowing funds directly from their account via participant loans. Participant loans represent a temporary outlay of funds from the Plan and are not collateralized as in the case of Plan loans. Participants may elect to borrow from their accounts up to their TIAA vested balance. Loans are repayable through ACH over periods ranging up to 60 months, unless the loan is for the purchase of a primary residence, in which case the period can be up to 120 months. A participant may not have more than one loan outstanding at any time. Interest rates are determined based upon the United States prime rate as reported by the Wall Street Journal plus one percentage point. In the event of a death, disability or default, the entire outstanding principal and accrued interest shall be immediately due and payable. In the event of a termination of employment, the loan may be continued to be paid in accordance with the loan provisions. Any default in repayment to the Plan will result in the treating of the balance due for the loan as a taxable distribution from the Plan. Outstanding participant loans are reported as Notes Receivable From Participants on the Statements of Net Assets Available for Benefits and as of December 31, 2024 and 2023 were \$4,394,469 and \$3,792,230, respectively.

1. Description of Plan (continued)

Payment of Benefits

Upon separation from service with the University due to death, disability, retirement, or termination, a participant whose vested account balance exceeds \$5,000 may elect to receive either a lump-sum or installment payments on a quarterly or annual basis. However, the form of distributions may be limited by the investment vehicle chosen by the participant. A participant whose vested account balance is \$5,000 or less and has not commenced receiving installment payments may involuntarily receive an immediate lump-sum distribution equal to their vested account balance at the discretion of the plan administrator.

In-service withdrawals are available in certain limited circumstances, as defined by the Plan documents. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan documents. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS), and a participant normally must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the University, as provided by the Plan's provisions. Administrative expenses paid by the Plan include fees for custodian, audit, consulting, record-keeping, and similar or other related services as well certain eligible Plan administrative compensation expenses. Expenses relating to purchases, sales, or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. Other administrative expenses of the Plan are paid by the University. Expenses that are paid by the University are excluded from these financial statements. Forfeitures may be used to offset administrative expenses.

Plan Termination

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles (GAAP). The modified cash basis of accounting is an acceptable alternative method of reporting under regulations issued by the Department of Labor. Consequently, contributions and interest income are recognized when received rather than when earned and expenses are recognized when paid rather than when the obligations are incurred. Had these been recorded under GAAP, contributions receivable would have been recognized.

Contributions

Contributions from Plan participants and matching contributions from the University are recorded in the year in which the employee contributions are received by the plan. The University's basic employer contribution is recorded when received by the plan.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of the financial statements in conformity with the basis of accounting described above requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Notes Receivable From Participants

Notes receivable represent participant loans that are recorded at their unpaid principal balance, plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are recorded when they are incurred. No allowance for credit losses has been recorded as of December 31, 2024 or 2023. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced, and a benefit payment is recorded.

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

Investments held by the Plan (except for certain fully benefit-responsive investment contracts reported at contract value) are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

The University is responsible for determining the Plan's valuation policies and analyzing information provided by the investment custodians that is used to determine the fair value of the Plan's investments. For instruments categorized within Level 3, the University reviews the information provided by the custodian, and evaluates the valuation methodology, including that the information appropriately reflects cash contributions and withdrawals. Additionally, further due diligence and review of custodian financial statements allows for the detailed analysis necessary to determine the valuation of earnings is a fair presentation.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when received. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

3. Investments

All investment information and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments held, fully benefit-responsive investment contracts and notes receivable from participants at December 31, 2024 and 2023, and net appreciation (depreciation) in fair value of investments, interest income and dividends and interest income on notes receivable from participants for the years then ended, was obtained or derived from information provided to the Plan administrator and certified as complete and accurate by Corebridge, the VALIC Trust Company, Inc., and TIAA-CREF.

Nova Southeastern University 401(k) Plan

Notes to Financial Statements (continued) (Modified Cash Basis)

4. Fair Value Measurements

The fair value measurement framework establishes a fair value hierarchy which prioritizes the inputs to valuations techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable, either directly or indirectly, for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

4. Fair Value Measurements (continued)

- (i) Mutual Funds invest principally in equity securities, fixed-income instruments, other mutual funds, and short-term instruments in accordance with each fund or account's objectives. Mutual fund holdings are generally valued using market quotations or prices obtained from independent pricing sources. Each fund determines its share price or net asset value daily and is classified within Level 1 of the fair value hierarchy. Accumulation units in fund accounts are available for transactions at the closing accumulation net asset value as determined by the issuer on any business day. In an effort to reduce market timing and excessive trading, shareholders will be locked out of an account for 90 days if a purchase, sale, and repurchase within that account is made within a 60-day period.
- (ii) Pooled separate account consists of TIAA Real Estate, a variable separate account which invests mainly in real estate and real estate-related investments and is valued at net asset value. Audited financial statements are available. The account is valued using the net asset value as a practical expedient which is principally derived from the market value of the underlying real estate holdings or other real estate-related investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. The account sometimes holds securities as well. These are generally priced using values obtained from independent pricing sources. Net asset values are calculated daily. There are currently no redemption restrictions on these investments. Transfers out of this account are limited to once per calendar quarter. Pooled separate accounts are only available to TIAA account members. The investment objective of this account is to achieve a long-term rate of return through capital appreciation through investing in a diversified portfolio of real estate holdings.
- (iii) Comprised of collateral for plan loans issued by Corebridge which are funds temporarily set aside from participants accounts to serve as collateral for plan loans issued by Corebridge to participants. These funds are invested in money market funds backed by the insurance company and are only available to participants with outstanding plan loans issued by Corebridge. Loan collateral funds are valued at amortized cost and classified within Level 2 of the fair value hierarchy.
- (iv) Comprised of the non-fully benefit responsive portion of the TIAA Traditional Annuity which includes collateral for plan loans issued by TIAA-CREF, contemplated by ASC 962 *Plan Accounting – Defined Contribution Pension Plans*. The non-fully benefit responsive portion of the TIAA Traditional Annuity is considered fixed rate annuity contracts that are fully and unconditionally guaranteed and backed by the issuer. The contract value of the TIAA Traditional Annuity equals the accumulated cash contributions, interest credited to the Plan's contracts, and transfers, less any withdrawals. Fair value is determined by the issuer of the contracts using the income approach, various inputs such as board-determined interest rates, and discounted cash flows. Fair value approximates contract value. The TIAA Traditional Annuity is not available for sale or transfer on any securities exchange. The inputs are unobservable as shown below and are therefore classified within Level 3 of the fair value hierarchy. Withdrawals may be subject to limitations and penalties which vary based on type of contract.

4. Fair Value Measurements (continued)

- (v) Variable annuities are highly diversified funds designed to remain appropriate for investors in terms of risk throughout a variety of life circumstances in accordance with specific objectives. Investments are only available to TIAA account members and are valued using the net asset value as a practical expedient which is based on using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the underlying investments including matrix pricing, except those held by the CREF Money Market Fund, whose holdings are valued at amortized cost. Accumulation units in TIAA-CREF variable annuities are available for transactions at the closing accumulation net asset value on any business day. In an effort to reduce market timing and excessive trading, shareholders will be locked out of an account for 90 days if a purchase, sale, and repurchase within that account is made within a 60-day period, other than for the CREF Money Market Fund. Each fund determines its share price or net asset value daily.

The investment objectives of the following variable annuities investments reported at net asset value are as follows:

CREF Stock – The investment objective of this Account is to achieve a favorable long-term rate of return through capital appreciation and investment income by investing primarily in a broadly diversified portfolio of common stocks.

CREF Social Choice – The investment objective of this Account is to achieve a favorable long-term rate of return that reflects the investment performance of the financial markets while giving special consideration to certain social criteria. The Account invests in a diversified set of domestic and foreign stocks and other equity securities, bonds and other fixed-income securities, as well as money market instruments and other short-term debt instruments.

CREF Core Bond – The investment objective of this Account is to achieve a favorable long-term rate of return through high current income consistent with preserving capital. The majority of the Account's assets are invested in U.S. treasury and agency securities, corporate bonds and mortgage-backed or other asset-backed securities.

CREF Global Equities – The investment objective of this Account is to achieve a favorable long-term rate of return through capital appreciation and investment income from a broadly diversified portfolio that consists of foreign and domestic stocks.

CREF Growth – The investment objective of this Account is to achieve a favorable long-term rate of return, mainly through capital appreciation, primarily from a diversified portfolio of common stocks that present the opportunity for exceptional growth.

CREF Equity Index – The investment objective of this Account is to achieve a favorable long-term rate of return from a diversified portfolio selected to track the overall market for common stocks publicly traded in the United States, as represented by a broad stock market index. The Account is designed to track the US, stock market as a whole and invests in stocks in its benchmark index, the Russell 3000 Index.

CREF Inflation-Linked Bond – The investment objective of this Account is to achieve a favorable long-term rate of return that outpaces inflation, primarily through investment in inflation-indexed bonds – fixed-income securities whose returns are designed to track a specified inflation index over the life of the bond.

The following tables present information about significant unobservable inputs, and the ranges of values for those inputs, related to the Plan’s investment in assets categorized as Level 3 in the ASC 820 fair value hierarchy.

Balance at end of year	<u>\$ 59,478,838</u>	<u>\$ 49,238,571</u>

* Transfers in and out represent participant level activity between investments. No changes in classification from Level 3 to/from Levels 2 or 1 occurred in 2024 or 2023.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Nova Southeastern University 401(k) Plan

Notes to Financial Statements (continued) (Modified Cash Basis)

6. Related-Party Transactions

The Plan holds investments managed by Corebridge and TIAA-CREF, the custodians and record-keepers of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA. Plan service credits of \$269,462 and \$223,446 were provided to the Plan from TIAA-CREF during 2024 and 2023, respectively, as reported in the statements of changes in net assets available for benefits. The unallocated Plan service credit account had balances of \$88,966 and \$45,089 as of December 31, 2024 and 2023, respectively. The service credit account earned interest and dividend income of \$3,791 and \$2,546 during 2024 and 2023, respectively, included in the statements of changes in net assets available for benefits. The service credit balance may be used to reduce the University's future Plan fees and employer contributions and \$229,376 and \$216,272 was used for these purposes during 2024 and 2023, respectively.

7. Income Tax Status

The underlying pre-approved plan has received an opinion letter from the Internal Revenue Service (IRS) dated June 30, 2020, stating that the form of the Plan is qualified under Section 401 of the Code and, therefore, the related trust is tax-exempt. The plan administrator has determined that it is eligible to, and has chosen to, rely on the current IRS pre-approved plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not, would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan; and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Nova Southeastern University 401(k) Plan

8. Insurance Company Investment Contracts

The Plan invests in fully benefit responsive and non-fully benefit responsive investment contracts. Investments which meet the fully benefit-responsive investment contract criteria are reported at contract value and those not meeting the criteria are reported at fair value as required by GAAP. Contract value is the relevant measurement for those fully benefit-responsive contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The statements of net assets available for benefits and statements of changes in net assets available for benefits are prepared on a contract value basis for the following fully benefit-responsive investment contracts reported at contract value.

	December 31	
	2024	2023
Fixed Account	\$ 3,315,700	\$ 5,431,461
Fixed Account Plus	590,451	951,314
Short Term Fixed Account	28,236	25,385
TIAA Traditional Annuity (Fully Benefit Responsive Portion)	12,685,244	13,216,389

The statements of net assets available for benefits and statements of changes in net assets available for benefits are prepared on a fair value basis for the following non-fully benefit-responsive investment contracts reported at fair value.

	December 31	
	2024	2023
TIAA Traditional Annuity (Non-Fully Benefit Responsive Portion)	\$ 59,478,838	\$ 49,238,571

The Fixed Account Plus and the Short Term Fixed Account are backed by the general assets of VALIC, but no specific assets are tied to any particular contract. The Fixed Account Plus and Short Term Fixed Account are valued as the sum of all purchase payments made to a Fixed Account plus amounts transferred into the Fixed Account plus interest earned less amounts transferred or

Notes to Financial Statements (continued) (Modified Cash Basis)

8. Insurance Company Investment Contracts (continued)

withdrawn from the Fixed Account. The TIAA Traditional Annuity contains both fully and non-fully benefit responsive investment contract portions as shown above.

For fully benefit responsive investment contracts, the contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1%. The crediting rate is reviewed on a monthly basis for resetting. Both fully and non-fully benefit responsive investment contract accounts do not permit the insurance companies to terminate the agreements prior to the scheduled maturity dates. Participants may ordinarily direct the withdrawal or transfer of a portion of their investment at contract value, however participants may be subject to penalties for transactions made before such contracts mature. The contract values of fully benefit responsive investment contracts were certified as complete and accurate by their respective issuers.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuers. These events may be different under each contract. Examples of such events include the following:

- The Plan's failure to qualify under Section 401(k) of the Code or the failure of the trust to be tax-exempt under Section 501(a) of the Code
- Premature termination of the contracts
- Plan termination or merger
- Changes to the Plan's prohibition on competing investment options
- Bankruptcy of the Plan Sponsor or other Plan Sponsor events (e.g., divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations

Notes to Financial Statements (continued)
(Modified Cash Basis)

8. Insurance Company Investment Contracts (continued)

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuers to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

- An uncured violation of the Plan’s investment guidelines
- A breach of material obligation under the contract
- A material misrepresentation
- A material amendment to the agreements without the consent of the issuer

9. Subsequent Events

Management evaluated subsequent events for the Plan through October 7, 2025, the date the financial statements were available to be issued.
