Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Softtek Integration Systems, Inc. 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements (collectively, the financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental Schedule H, Part IV, Line 4i—Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Softtek Integration Systems, Inc. 401(k) Plan

Notes to Financial Statements

Note 1—Description of Plan

The following description of the Softtek Integration Systems, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Softtek Integration Systems, Inc. (the Company) who are age 21 or older and have received a United States Social Security number. Eligible employees become participants on the first day of the next calendar quarter coinciding with or next following the date on which entry requirements were fulfilled. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees oversees governance of the Plan. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

Assets of the Plan are allocated to participant accounts based on specific contributions made by each participant and respective matches made by the Company. Investment income is credited to each account based on appreciation of specific assets held in each participant account and any earnings thereon.

Contributions

Contributions to the Plan are made as follows:

Salary Reduction—Pre-Tax 401(k) Contributions - The Plan allows participants to contribute up to the dollar limit that is set by law of their pre-tax compensation to the Plan, subject to Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions.

Salary Reduction—Roth 401(k) Contributions - The Plan allows participants to contribute up to the dollar limit that is set by law of their taxable compensation to the Plan, subject to IRC limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Roth 401(k) deferrals and earnings are generally not subject to federal income taxes when distributed in accordance with IRC guidelines.

Participant Investment Rollovers - The Plan permits participants to transfer or rollover funds into the Plan from other qualified plans.

Employer Matching - The Company may elect to contribute discretionary matching contributions. In 2024 and 2023, the Company's matching contributions were equal to 25% of each participant's contributions not in excess of 3% of eligible compensation. Total employer matching contributions were \$585,602 and \$489,605 for the year ended December 31, 2024 and 2023, respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's discretionary contribution and (b) plan earnings (losses) and charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Softtek Integration Systems, Inc. 401(k) Plan

Notes to Financial Statements

Note 1—Description of Plan (Continued)

Payment of Benefits

On termination of service due to death, disability, retirement or severance of employment, a participant with a balance exceeding \$5,000 may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period not more than their assumed life expectancy. For participants with balances less than \$5,000, the vested account balance may only be distributed as a single lump-sum distribution. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. Hardship withdrawals are not permitted in the Plan.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants become vested in the employer contributions and investment earnings according to the number of years of service as follows:

<u>Years of Service</u>	<u>Vesting %</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

The Plan permits all participants to borrow against their account balance. The minimum loan amount is \$1,000. Participants may borrow an amount up to 50% of their vested account balance, up to a maximum of \$50,000. The notes are secured by the balance in the participant's account.

Loan terms may not exceed five years, however, may be for a longer, reasonable period of time if used for the purchase of a primary residence. The interest rate on loans is 4.25% to 9.50%, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Investment Options

Upon enrollment in the Plan, participants direct the investment of their contributions and Company contributions into various investment options offered by the Plan with Standard Insurance Company. If no election is made, participant funds are invested in a target age investment allocation based on participant date of birth.

Note 2—Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America (U.S. GAAP).

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Administration of the Plan

Although there is no requirement to do so, the Company has paid certain administrative costs of the Plan. In addition, officers or employees of the Company perform certain administrative functions. No such officer or employee receives compensation from the Plan.

All plan assets are held and managed by Standard Insurance Company, who invests cash received, interest and dividend income, and makes distributions to participants.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies. See Note 4 for discussion of fair value measurements.

Purchases and sales securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in funds of pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, these fees are reflected as a reduction of net appreciation (depreciation) in fair value of investments.

The change in net unrealized appreciation (depreciation) of investments held from the beginning of the plan year to the end of the plan year is included with realized gains/losses as net investment income (loss) reported in the accompanying statements of changes in net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2024 and 2023, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Contributions

Contributions from plan participants and the matching contributions from the Company are recorded in the year in which the employee contributions are withheld from compensation.

Softtek Integration Systems, Inc. 401(k) Plan

Notes to Financial Statements

Note 2—Summary of Significant Accounting Policies (Continued)

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Estimates

The preparation of financial statements in accordance with U.S. GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 3—Information Certified or Provided by Standard Insurance Company (Trustee)

The following is a summary of the Plan's asset information as of December 31, 2024 and 2023, and for the years then ended, included throughout the Plan's financial statements and ERISA-required supplemental schedule, obtained by management and agreed to or derived from information certified by Standard Insurance Company, the trustee of the Plan. The plan administrator has obtained certifications from the Trustee that information provided to the plan administrator by the Trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information that appears throughout the financial statements and ERISA-required supplemental schedule related to the following assets:

	December 31,	
	2024	2023
Investments, at fair value	\$ 21,415,408	\$ 18,650,191
Investments, at contract value	1,048,368	304,445
Notes receivable from participants	229,786	252,170

The Trustee also certified to the completeness and accuracy of the following related to the Plan assets:

	December 31,	
	2024	2023
Net appreciation in fair value of investments	\$ 2,817,499	\$ 2,641,319
Interest income	16,853	3,956
Interest income on notes receivable from participants	17,074	10,409

Softtek Integration Systems, Inc. 401(k) Plan

Notes to Financial Statements

Note 4—Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Pooled Separate Accounts

The pooled separate accounts are valued at the net asset value (NAV) of the shares held by the Plan at year-end and are classified in Level 2 of the fair value hierarchy. These funds are considered open-end mutual funds, meaning that the fund is ready to redeem its shares at any time and offers its shares for sale to the public, either through retail outlets or through institutional investors continuously. For institutional funds, NAVs are received daily from fund managers, and the managers stand ready to transact at these quoted amounts. The insurance company custodian transacts in these funds on a daily basis as part of the separate account trading activity.

The calculation of the NAV for funds composed of other funds is essentially the same as the calculation of the NAV for any other fund. The total market value of assets across all underlying funds less any liabilities is divided by the outstanding shares. Again, this resulting NAV is published and/or the fund managers are ready to transact at the quoted prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Softtek Integration Systems, Inc. 401(k) Plan

Notes to Financial Statements

Note 4—Fair Value Measurements (Continued)

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31:

	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ -	\$21,415,408	\$ -	\$21,415,408
Total Investments at Fair Value	\$ -	\$ 21,415,408	\$ -	\$ 21,415,408

	Assets at Fair Value as of December 31, 2023			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ -	\$18,650,191	\$ -	\$18,650,191
Total Investments at Fair Value	\$ -	\$ 18,650,191	\$ -	\$ 18,650,191

Gains and losses included in changes in net assets available for benefits for the years ended December 31, 2024 and 2023 are reported in net appreciation (depreciation) in fair value of investments.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2024 and 2023, there were no significant transfers between Levels 1 and 2 and no transfers into or out of Level 3.

Note 5—Guaranteed Investment Contract with Insurance Company

The Plan has a traditional fully benefit-responsive investment contract with Standard Insurance Company, which maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract meets the criteria to be considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by Standard Insurance Company represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2024 and 2023 was \$1,048,368 and \$304,445, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Softtek Integration Systems, Inc. 401(k) Plan

Notes to Financial Statements

Note 5—Guaranteed Investment Contract with Insurance Company (Continued)

Certain events limit the Plan's ability to transact at contract value with Standard Insurance Company. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Furthermore, certain events would allow the issuer to terminate the contract with the plan and settle at an amount different from contract value. Examples of such events include (a) an uncured breach of the plan's investment guidelines, (b) a material amendment to the contract without the issuer's consent, (c) a violation of material obligation under the contract, or (d) a material misrepresentation. The plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with plan participants or the issuer are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 6—Deposits with Investment Company

Except for the guaranteed investment contract as described in Note 5, all of the Plan's investments are held in collective investments by Standard Insurance Company. These collective investments are maintained in pooled separate accounts, which consist of numerous mutual fund options, with a range of investment objectives. Returns are based upon the underlying mutual funds and stable value funds in which the assets are invested.

For each participant, the account is credited with earnings on the underlying investments and charged for plan withdrawals and administrative expenses charged by the Trustee. The investments are included in the financial statements at fair value, as reported to the Plan by Standard Insurance Company.

The method for allocating expenses among participant accounts will be either proportional, based on the value of the account balances, or as an equal dollar amount per account. The particular method of allocation selected depends on the nature of the expense itself.

The plan administrator has received information from Standard Life Insurance Company certifying the fair values and earnings of the investments.

Note 7—Non-Participant Directed Investments

There were no non-participant directed investments for the period ended December 31, 2024 and 2023.

Note 8—Forfeitures

The Plan provides that forfeited nonvested accounts may be used to reduce the participating employer's current year contributions and pay plan expenses. Forfeitures allocated to eligible participants were \$68,195 and \$70,152 for the years ended December 31, 2024 and 2023, respectively.

Administrative expenses paid from forfeitures totaled \$1,800 and \$2,400 for the years ended December 31, 2024 and 2023, respectively. Employer contributions reduced by forfeitures totaled \$0 and \$29,222 for the years ended December 31, 2024 and 2023, respectively. At December 31, 2024 and 2023, forfeited nonvested accounts totaled \$137,746 and \$69,391, respectively.

Softtek Integration Systems, Inc. 401(k) Plan

Notes to Financial Statements

Note 9—Benefits Payable to Withdrawing Participant

There are no persons who had withdrawn from participation in the earnings and operations of the Plan at December 31, 2024 and 2023, that had not yet been paid.

Note 10—Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue any discretionary contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to the participants' accounts are 100% vested and nonforfeitable.

Note 11—Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated June 30, 2020, that the Plan and related trust under Standard Insurance Company are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires plan administrators to evaluate tax positions taken by the plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

Note 12—Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 13—Related Party and Party-in-Interest Transactions

Certain plan investments are managed by Standard Insurance Company, who is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Standard Insurance Company for investment and management services were \$62,179 and \$53,862 for the years ended December 31, 2024 and 2023, respectively.

Note 14—Plan Amendments

The Plan was amended on July 1, 2023 to reflect the merger of Vision Integration Technologies, Inc. into the Plan. Vision Integration Technologies, Inc. was acquired by the Company and its retirement plan was merged with the Company's Plan. The amount transferred to the Plan due to the merger was \$3,053,005 for the year ended December 31, 2023.

The following is a reconciliation of audited financial statements to the Form 5500 as of December 31, 2024 and 2023:

	<u>2024</u>	<u>2023</u>
Net assets available for benefits per audited financial statements	\$ 22,693,562	\$ 19,072,037
Advance contributions	-	134,769
Net Assets Available for Benefits Per Form 5500	\$ 22,693,562	\$ 19,206,806
Net increase in net assets per audited financial statements	\$ 3,621,525	\$ 4,400,018
Advance contributions, beginning of year	(134,769)	(100,701)
Advance contributions, end of year	-	134,769
Net Income Per Form 5500	\$ 3,486,756	\$ 4,434,086

At December 31, 2023, the plan sponsor advanced \$134,769 to the Plan for contributions related to the subsequent year end. The trustee certified these as investments at December 31, 2023. For financial statement purposes, these have been reported as advance contributions and reduce net assets available for benefits at December 31, 2023. There were no advance contributions at December 31, 2024.

Note 16—Subsequent Events

The Plan management has evaluated transactions and events occurring through October 13, 2025, the date the financial statements were available to be issued. There were no significant transactions or events subsequent to December 31, 2024 that would require recognition or disclosure in the statements.

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Softtek Integration Systems, Inc. 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements (collectively, the financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental Schedule H, Part IV, Line 4i—Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Softtek Integration Systems, Inc. 401(k) Plan

Notes to Financial Statements

Note 1—Description of Plan

The following description of the Softtek Integration Systems, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Softtek Integration Systems, Inc. (the Company) who are age 21 or older and have received a United States Social Security number. Eligible employees become participants on the first day of the next calendar quarter coinciding with or next following the date on which entry requirements were fulfilled. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees oversees governance of the Plan. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

Assets of the Plan are allocated to participant accounts based on specific contributions made by each participant and respective matches made by the Company. Investment income is credited to each account based on appreciation of specific assets held in each participant account and any earnings thereon.

Contributions

Contributions to the Plan are made as follows:

Salary Reduction—Pre-Tax 401(k) Contributions - The Plan allows participants to contribute up to the dollar limit that is set by law of their pre-tax compensation to the Plan, subject to Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions.

Salary Reduction—Roth 401(k) Contributions - The Plan allows participants to contribute up to the dollar limit that is set by law of their taxable compensation to the Plan, subject to IRC limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Roth 401(k) deferrals and earnings are generally not subject to federal income taxes when distributed in accordance with IRC guidelines.

Participant Investment Rollovers - The Plan permits participants to transfer or rollover funds into the Plan from other qualified plans.

Employer Matching - The Company may elect to contribute discretionary matching contributions. In 2024 and 2023, the Company's matching contributions were equal to 25% of each participant's contributions not in excess of 3% of eligible compensation. Total employer matching contributions were \$585,602 and \$489,605 for the year ended December 31, 2024 and 2023, respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's discretionary contribution and (b) plan earnings (losses) and charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Softtek Integration Systems, Inc. 401(k) Plan

Notes to Financial Statements

Note 1—Description of Plan (Continued)

Payment of Benefits

On termination of service due to death, disability, retirement or severance of employment, a participant with a balance exceeding \$5,000 may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period not more than their assumed life expectancy. For participants with balances less than \$5,000, the vested account balance may only be distributed as a single lump-sum distribution. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. Hardship withdrawals are not permitted in the Plan.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants become vested in the employer contributions and investment earnings according to the number of years of service as follows:

<u>Years of Service</u>	<u>Vesting %</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

The Plan permits all participants to borrow against their account balance. The minimum loan amount is \$1,000. Participants may borrow an amount up to 50% of their vested account balance, up to a maximum of \$50,000. The notes are secured by the balance in the participant's account.

Loan terms may not exceed five years, however, may be for a longer, reasonable period of time if used for the purchase of a primary residence. The interest rate on loans is 4.25% to 9.50%, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Investment Options

Upon enrollment in the Plan, participants direct the investment of their contributions and Company contributions into various investment options offered by the Plan with Standard Insurance Company. If no election is made, participant funds are invested in a target age investment allocation based on participant date of birth.

Softtek Integration Systems, Inc. 401(k) Plan

Notes to Financial Statements

Note 2—Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America (U.S. GAAP).

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Administration of the Plan

Although there is no requirement to do so, the Company has paid certain administrative costs of the Plan. In addition, officers or employees of the Company perform certain administrative functions. No such officer or employee receives compensation from the Plan.

All plan assets are held and managed by Standard Insurance Company, who invests cash received, interest and dividend income, and makes distributions to participants.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies. See Note 4 for discussion of fair value measurements.

Purchases and sales securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in funds of pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, these fees are reflected as a reduction of net appreciation (depreciation) in fair value of investments.

The change in net unrealized appreciation (depreciation) of investments held from the beginning of the plan year to the end of the plan year is included with realized gains/losses as net investment income (loss) reported in the accompanying statements of changes in net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2024 and 2023, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Contributions

Contributions from plan participants and the matching contributions from the Company are recorded in the year in which the employee contributions are withheld from compensation.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Estimates

The preparation of financial statements in accordance with U.S. GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 3—Information Certified or Provided by Standard Insurance Company (Trustee)

The following is a summary of the Plan's asset information as of December 31, 2024 and 2023, and for the years then ended, included throughout the Plan's financial statements and ERISA-required supplemental schedule, obtained by management and agreed to or derived from information certified by Standard Insurance Company, the trustee of the Plan. The plan administrator has obtained certifications from the Trustee that information provided to the plan administrator by the Trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information that appears throughout the financial statements and ERISA-required supplemental schedule related to the following assets:

	December 31,	
	2024	2023
Investments, at fair value	\$ 21,415,408	\$ 18,650,191
Investments, at contract value	1,048,368	304,445
Notes receivable from participants	229,786	252,170

The Trustee also certified to the completeness and accuracy of the following related to the Plan assets:

	December 31,	
	2024	2023
Net appreciation in fair value of investments	\$ 2,817,499	\$ 2,641,319
Interest income	16,853	3,956
Interest income on notes receivable from participants	17,074	10,409

Note 4—Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Pooled Separate Accounts

The pooled separate accounts are valued at the net asset value (NAV) of the shares held by the Plan at year-end and are classified in Level 2 of the fair value hierarchy. These funds are considered open-end mutual funds, meaning that the fund is ready to redeem its shares at any time and offers its shares for sale to the public, either through retail outlets or through institutional investors continuously. For institutional funds, NAVs are received daily from fund managers, and the managers stand ready to transact at these quoted amounts. The insurance company custodian transacts in these funds on a daily basis as part of the separate account trading activity.

The calculation of the NAV for funds composed of other funds is essentially the same as the calculation of the NAV for any other fund. The total market value of assets across all underlying funds less any liabilities is divided by the outstanding shares. Again, this resulting NAV is published and/or the fund managers are ready to transact at the quoted prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements

Note 4—Fair Value Measurements (Continued)

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31:

	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ -	\$21,415,408	\$ -	\$21,415,408
Total Investments at Fair Value	\$ -	\$ 21,415,408	\$ -	\$ 21,415,408

	Assets at Fair Value as of December 31, 2023			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ -	\$18,650,191	\$ -	\$18,650,191
Total Investments at Fair Value	\$ -	\$ 18,650,191	\$ -	\$ 18,650,191

Gains and losses included in changes in net assets available for benefits for the years ended December 31, 2024 and 2023 are reported in net appreciation (depreciation) in fair value of investments.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2024 and 2023, there were no significant transfers between Levels 1 and 2 and no transfers into or out of Level 3.

Note 5—Guaranteed Investment Contract with Insurance Company

The Plan has a traditional fully benefit-responsive investment contract with Standard Insurance Company, which maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract meets the criteria to be considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by Standard Insurance Company represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2024 and 2023 was \$1,048,368 and \$304,445, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Note 5—Guaranteed Investment Contract with Insurance Company (Continued)

Certain events limit the Plan's ability to transact at contract value with Standard Insurance Company. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Furthermore, certain events would allow the issuer to terminate the contract with the plan and settle at an amount different from contract value. Examples of such events include (a) an uncured breach of the plan's investment guidelines, (b) a material amendment to the contract without the issuer's consent, (c) a violation of material obligation under the contract, or (d) a material misrepresentation. The plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with plan participants or the issuer are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 6—Deposits with Investment Company

Except for the guaranteed investment contract as described in Note 5, all of the Plan's investments are held in collective investments by Standard Insurance Company. These collective investments are maintained in pooled separate accounts, which consist of numerous mutual fund options, with a range of investment objectives. Returns are based upon the underlying mutual funds and stable value funds in which the assets are invested.

For each participant, the account is credited with earnings on the underlying investments and charged for plan withdrawals and administrative expenses charged by the Trustee. The investments are included in the financial statements at fair value, as reported to the Plan by Standard Insurance Company.

The method for allocating expenses among participant accounts will be either proportional, based on the value of the account balances, or as an equal dollar amount per account. The particular method of allocation selected depends on the nature of the expense itself.

The plan administrator has received information from Standard Life Insurance Company certifying the fair values and earnings of the investments.

Note 7—Non-Participant Directed Investments

There were no non-participant directed investments for the period ended December 31, 2024 and 2023.

Note 8—Forfeitures

The Plan provides that forfeited nonvested accounts may be used to reduce the participating employer's current year contributions and pay plan expenses. Forfeitures allocated to eligible participants were \$68,195 and \$70,152 for the years ended December 31, 2024 and 2023, respectively.

Administrative expenses paid from forfeitures totaled \$1,800 and \$2,400 for the years ended December 31, 2024 and 2023, respectively. Employer contributions reduced by forfeitures totaled \$0 and \$29,222 for the years ended December 31, 2024 and 2023, respectively. At December 31, 2024 and 2023, forfeited nonvested accounts totaled \$137,746 and \$69,391, respectively.

Notes to Financial Statements

Note 9—Benefits Payable to Withdrawing Participant

There are no persons who had withdrawn from participation in the earnings and operations of the Plan at December 31, 2024 and 2023, that had not yet been paid.

Note 10—Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue any discretionary contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to the participants' accounts are 100% vested and nonforfeitable.

Note 11—Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated June 30, 2020, that the Plan and related trust under Standard Insurance Company are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires plan administrators to evaluate tax positions taken by the plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

Note 12—Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 13—Related Party and Party-in-Interest Transactions

Certain plan investments are managed by Standard Insurance Company, who is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Standard Insurance Company for investment and management services were \$62,179 and \$53,862 for the years ended December 31, 2024 and 2023, respectively.

Note 14—Plan Amendments

The Plan was amended on July 1, 2023 to reflect the merger of Vision Integration Technologies, Inc. into the Plan. Vision Integration Technologies, Inc. was acquired by the Company and its retirement plan was merged with the Company's Plan. The amount transferred to the Plan due to the merger was \$3,053,005 for the year ended December 31, 2023.

Note 15—Reconciliation of Audited Financial Statements to Form 5500

The following is a reconciliation of audited financial statements to the Form 5500 as of December 31, 2024 and 2023:

	<u>2024</u>	<u>2023</u>
Net assets available for benefits per audited financial statements	\$ 22,693,562	\$ 19,072,037
Advance contributions	-	134,769
	<hr/>	<hr/>
Net Assets Available for Benefits Per Form 5500	\$ 22,693,562	\$ 19,206,806
	<hr/>	<hr/>
Net increase in net assets per audited financial statements	\$ 3,621,525	\$ 4,400,018
Advance contributions, beginning of year	(134,769)	(100,701)
Advance contributions, end of year	-	134,769
	<hr/>	<hr/>
Net Income Per Form 5500	\$ 3,486,756	\$ 4,434,086
	<hr/>	<hr/>

At December 31, 2023, the plan sponsor advanced \$134,769 to the Plan for contributions related to the subsequent year end. The trustee certified these as investments at December 31, 2023. For financial statement purposes, these have been reported as advance contributions and reduce net assets available for benefits at December 31, 2023. There were no advance contributions at December 31, 2024.

Note 16—Subsequent Events

The Plan management has evaluated transactions and events occurring through October 13, 2025, the date the financial statements were available to be issued. There were no significant transactions or events subsequent to December 31, 2024 that would require recognition or disclosure in the statements.
