Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		500000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year?..... ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Alaska United Food and Commercial Workers
Pension Trust
12205 SW Tualatin Road, Suite 200
Tualatin, Oregon 97062

Members of the Board:

Opinion

We have audited the accompanying financial statements of the Alaska United Food and Commercial Workers Pension Trust (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statement of net assets available for benefits as of December 31, 2024, the related statement of changes in net assets available for benefits for the year then ended, the statement of accumulated plan benefits as of December 31, 2023, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024, and the changes in its net assets available for benefits for the year then ended, and the accumulated plan benefits as of December 31, 2023, and the changes in its accumulated plan benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

The financial statements of the Plan as of and for the year ended December 31, 2023, were audited by other auditors whose report dated October 13, 2024, expressed an unmodified opinion on those statements.

NOTE 1 - DESCRIPTION OF THE PLAN

The Alaska United Food and Commercial Workers Pension Trust (the "Plan") is a defined benefit multi-employer pension plan formed in 1970 under collective bargaining agreements between various employer associations, individual employers and Retail Food Clerks Locals No. 1496 and 1689. It is subject to the provisions of the Employee Retirement Security Act of 1974 (ERISA), as amended.

THE PLAN DOCUMENTS INCLUDE DETAILED RULES FOR EACH SITUATION. PARTICIPANTS SHOULD REFER TO THE PLAN DOCUMENTS AND ANY AMENDMENTS REGARDING SPECIFIC PROVISIONS OF THE PLAN.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Accounting

The financial statements are recorded on the accrual basis of accounting.

B. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

C. Employer Contributions

Contributions as reported are contributions made for hours worked during the year at a fixed rate per hour under terms of the collective bargaining agreements. Employer contributions receivable is estimated based on contributions received subsequent to the end of the year. No allowance is provided for uncollectible accounts.

D. Payroll Compliance Program

Remittance reports were accepted as submitted, without examination or verification of employers' payroll records. The system of internal control provides for examination of employers' records under a separate payroll compliance program.

E. Tax-Exempt Status

No provision for federal income tax is made. The Plan obtained a favorable determination letter from the Internal Revenue Service (IRS) but has since been amended. However, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken a tax position that more likely than not would not be sustained upon examination by a tax authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Plan Termination

It is the intent of the Board of Trustees to continue the Plan in effect. However, the right to terminate the Plan is reserved to the Board of Trustees and the Plan may be terminated in accordance with the provisions of ERISA (as amended) and related regulations. The Plan also may terminate by withdrawal of every employer; or through proceedings instituted by the Pension Benefit Guaranty Corporation (PBGC) when one of certain conditions exists with respect to the Plan.

If the value of nonforfeitable (vested) benefits exceeds the value of Plan assets, the Plan will pay benefits to the extent and in the order of preference set forth in ERISA Section 4044. If, after implementation of the reduction in benefits, the Plan's available resources are not sufficient to pay benefits when due for the plan year, the Plan will be considered insolvent. If the value of Plan assets exceed the value required under the priority rules set forth in ERISA Section 4044, after all liabilities of the Plan have been satisfied, the excess shall be distributed to participants and beneficiaries in the manner determined by the Trustees.

Plan benefits are guaranteed by the PBGC only if the Plan is insolvent. The PBGC, however, will not guarantee benefits or benefit increases in effect for fewer than 60 months before the first day of the Plan year in which a Plan amendment to reduce benefits is taken into account in determining the minimum contribution requirement for the plan year in accordance with the provisions set forth in ERISA.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets available to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

G. Risks and Uncertainties

The actuarial present value of accumulated plan benefits is calculated based on certain assumptions pertaining to interest rate, participant demographics and other assumptions, all of which are subject to change. Due to the inherent uncertainty of the assumption process, it is at least reasonably possible changes in these assumptions in the near term could be material to the actuarial present value of accumulated plan benefits.

Plan investments are exposed to various risks such as interest rate, market fluctuations and credit risk. Some estimated values may differ from values that would have been used had a ready market existed for the investment. Due to the level of risk associated with investments and the level of uncertainty with respect to the changes in the value of investments, it is reasonably possible that the changes in market values, interest rates and other factors in the near term could materially affect the amounts reported in the financial statements.

H. Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by actuaries and is the amount that results from applying actuarial assumptions to adjust accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment. The significant actuarial assumptions and methods used in the latest valuation as of December 31, 2023 were: (a) 7.5% compounded annually, net of

The Plan's unfunded vested benefits for withdrawal liability purposes is \$96,467,325 as of January 1, 2024.

I. Reclassification

Certain amounts reported in the December 31, 2023 financial statements have been reclassified to conform to the current year presentation. The reclassification had no effect on the previously reported net assets available for benefits.

NOTE 3 - INVESTMENT VALUATION AND INCOME RECOGNITION

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 3 - INVESTMENT VALUATION AND INCOME RECOGNITION (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Level 1 investments consist of mutual funds and short term investment funds actively traded on a national exchange. Level 2 investments consist of corporate debt securities valued using matrices of trades in similar securities or third-party pricing vendors.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables summarize the Plan's investments at December 31 based on the inputs used to value them:

2024				
	Total	Level 1	Level 2	Level 3
Investments in the Fair Value Hierarchy:				
Short Term Investment Funds	\$ 301,391	\$ 301,391	\$ -	\$ -

^A In accordance with ASC 820, investments measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation for the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The unfunded commitments, significant terms of redemption, and investment objectives for the Plan's investments valued at net asset value are as follows:

STATE STREET S&P GLOBAL LARGE MID CAP NATURAL RESOURCES INDEX NON-LENDING FUND seeks an investment return that approximates as closely as practicable, before expenses, the performance of the S&P Global Large Mid Cap Commodity and Resources Index over the long term.

HARBOURVEST PARTNERS X, LP holds investments in HarbourVest Partners X Buyout Feeder Fund L.P. in an amount equal to seventy percent of the aggregate capital commitments of the partners and in HarbourVest Partners X Venture Feeder Fund L.P. in an amount equal to thirty percent of the aggregate capital commitments of the partners.

Realized and unrealized gains and losses are computed using investments' costs for financial statement purposes. For Form 5500 reporting, realized and unrealized gains and losses are computed using investments' market values as of the beginning of the Plan year.

NOTE 4 - FUNDING POLICY

The Board of Trustees has established a funding policy and method in order to promote the purpose of the Plan and to ensure compliance with ERISA. Each employer contributes to the Plan such amounts and at such times as are required by the applicable provisions of the collective bargaining agreement or such other agreements as approved by the Board of Trustees. Employer contributions are based on hourly contribution rates and are made on a monthly basis. The annual contributions for the year satisfied the minimum funding requirements of ERISA.

NOTE 5 - REHABILITATION PLAN

Under the Pension Protection Act of 2006 (PPA), if a pension plan enters critical status, the Board of Trustees is required to adopt a Rehabilitation Plan and establish steps and benchmarks to improve the Plan's funding status. On September 22, 2010 and updated in subsequent years, the Board of Trustees adopted a Rehabilitation Plan that included both benefit reductions permitted by the PPA and supplemental employer contributions.

The Plan is making scheduled progress criteria for the 2024 PPA Certification.

The Plan's actuaries certified that the Plan is in critical and declining status for the 2024 Plan year because it is projected to be insolvent in the following 30 years (excluding the potential impact of any potential special financial assistance ("SFA") - Note 8.

NOTE 6 - RELATED PARTY TRANSACTIONS

Labor Trust Services, Inc. was a participating employer in the Plan while providing services as its third-party administrator until January 1, 2024. Administration fees paid for the year ended December 31, 2023 were \$200,852. Fees were paid in accordance with an agreement authorized by the Board of Trustees.

NOTE 6 - RELATED PARTY TRANSACTIONS (Continued)

The Plan shares collection, employer compliance and other common expenses with the Alaska United Food and Commercial Workers Health and Welfare Plan. Costs are paid and allocated in accordance with agreements periodically approved by the Board of Trustees.

Certain Plan investments are managed by the custodian or an affiliate. Any purchases and sales of these investments are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibitions of party-in-interest transactions under ERISA.

NOTE 7 - PLAN AMENDMENT

On November 22, 2024, the Plan was amended to change its early retirement adjustments to reflect changes made in the Rehabilitation Plan and consistent with how the Plan has been administered and its suspension of benefit provisions to make it consistent with regulatory guidance and case law.

NOTE 8 - SPECIAL FINANCIAL ASSISTANCE

The American Rescue Plan Act of 2021 ("ARPA") was signed into law on March 11, 2021. ARPA established a SFA program to be administered by the PBGC and funded by transfers from the Treasury through September 30, 2030. Under this program, eligible plans may apply to receive a one-time cash payment in the amount required for the Plan to pay all benefits through the plan year ended 2051. The payment received under SFA is not considered a loan and will not need to be paid back.

The Plan anticipates receiving approximately \$98 million plus interest in late 2025 or early 2026.

NOTE 9 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 6, 2025, the date on which the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosures in these financial statements.

Schedule Mb, Line 6 – Statement of Actuarial Assumptions / Methods

METHODOLOGY:

Asset Valuation	Assets are valued according to a method which recognizes 20% of each year's excess (or deficiency) of actual investment return on the Market Value of Assets over the expected return on the Market Value of Assets in the year the excess (or deficiency) occurs. An additional 20% of the excess (or deficiency) is recognized in each of the succeeding four years until it is totally recognized. In no event will the Actuarial Value of Assets be less than 80% or more than 120% of the Market Value of Assets.
Actuarial Cost Method	<u>Individual Entry Age Normal Cost Method</u> Entry Age is defined as the current age minus years of Credited Service. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by service, with Normal Cost determined as if the current plan provisions had always been in effect. The Unfunded Accrued Liability is the difference between the Actuarial Accrued Liability and the assets of the Trust. If the assets exceed the Actuarial Accrued Liability, the Plan is in a surplus position. This method requires that each year's contributions be applied first to the normal cost, and the balance of the contributions applied to amortize the Unfunded Accrued Liability. The normal cost is adjusted at the close of the Plan Year to reflect the actual level of contributions received during that Plan Year.
Withdrawal Liability Basis	The present value of accrued vested benefits for withdrawal liability determination uses an interest rate of 7.50% along with all other valuation assumptions. Assets for this purpose are based on the Market Value of Assets.

Plan Number: 001

Schedule MB, Line 6 – Statement of Actuarial Assumptions / Methods (Continued)

ASSUMPTIONS:	
Interest Discount Rate	7.50% for funding, FASB ASC 960 and withdrawal liability; 3.29% for current liability.
Assumed Rate of Return on Investments	7.50% compounded annually, net of investment expenses.
Derivation of Net Investment Return and Discount Rate for FASB ASC 960 Accounting:	The expected return assumptions are established based on a long-run outlook and are based on past experience, future expectations and professional judgement. We have modeled the assumptions based on average long-term future expected returns and their respective capital market assumptions as provided by several investment professionals. Based on the inputs of the Plan's specific target asset allocation, we have established the reasonability of the Plan's assumption.
Operating Expenses	A total annual amount of \$697,256 payable at the beginning of the year for 2023. Operating expenses are assumed to increase 2.00% per year. The operating expense assumption has been adjusted to account for expected increases in PBGC premiums under the Multiemployer Pension Reform Act of 2014.
Justification for Demographic Assumptions	The mortality, termination, retirement and disability assumptions are reviewed with each valuation to ensure they are reasonable and represent the actuary's best estimate of the long-term expectations for the Plan. Past experience and anticipated future experience based on industry-specific knowledge and professional judgment are used to verify the reasonability of each of these assumptions.
Mortality	Healthy Lives: PRI-2012 Blue Collar Mortality Tables, sex distinct, separate for annuitants and non-annuitants and beneficiaries) with 75% of the generational mortality improvement scale MP-2019 included. Disabled Lives: N/A Current Liability: 2023 static mortality tables provided in IRC Regulations Section 1.431(c)(6)-1, as prescribed by IRS Notice 2022-22.
Mortality Improvement	The current mortality assumption, with 75% of the MP-2019 generational improvement scale is assumed to be reasonable at this time.

Schedule MB, Line 6 – Statement of Actuarial Assumptions / Methods (Continued)

ASSUMPTIONS:	
Future Employment	Each active participant is assumed to work the same amount of hours worked in the prior plan year. Total hours worked during 2024 is assumed to be 2.5 million, declining 1.5% per year through 2029, then declining 1% thereafter.
Missing Data	If not specified, participants are assumed to be male and the same age as the average of participants with the same status code.
CHANGES SINCE PRIOR VALUATION	The current liability interest rate was changed from 2.55% to 3.29% due to a change in the allowable interest rate range, and the current liability mortality table was updated as required. The operating expense assumption was increased to reflect higher anticipated costs.

Regarding Progress Under Rehabilitation Plan**

The Plan was certified in critical status as of January 1, 2010 and on September 22, 2010 the Board of Trustees adopted a Rehabilitation Plan under the guidelines of 432(e), which is updated and monitored annually. There have been various revisions to the Rehabilitation Plan since its implementation, including extending the Rehabilitation Period through December 31, 2042. Effective with the revisions to the Rehabilitation Plan adopted on July 6, 2021, future non-accruing contribution amounts were modified and the Plan was determined as no longer expected to emerge from Critical status. The Rehabilitation Plan was modified to indicate that the plan is now operating under a plan such that “all reasonable measures” have been taken to forestall insolvency.

Thus, the Plan was “Making Scheduled Progress” under its Rehabilitation Plan as of the January 1, 2025 Pension Protection Act Zone Status Certification.

The following certifies that, in accordance with Internal Revenue Code Section 432(b), the Alaska United Food and Commercial Workers Pension Fund ("the Plan"), as of the beginning of its 2025 Plan Year:

is in critical and declining status
is **not** in critical status
is **not** in endangered (or seriously endangered) status
is making the scheduled progress in meeting the requirements of its Rehabilitation Plan

As of January 1, 2025, the projections used for this certification estimate the Plan's funded percentage to be 71.3% (below 80%). The Plan has an accumulated funding deficiency and is projected to be insolvent by December 31, 2044. Accordingly, the Plan is in critical and declining status for the 2025 Plan Year based on the criteria outlined in Internal Revenue Code Sections 432(b)(2) and 432(b)(6).

Rael & Letson

The basis for this certification is as follows:

1. The projected present value of Plan liabilities as of the beginning of the 2025 Plan Year is based on the actuarial valuation as of January 1, 2024, and assumes no future liability gains or losses. The data, methodology, Plan provisions and assumptions utilized in the projection of liabilities are the same as those used for the January 1, 2024 actuarial valuation (except where noted otherwise in this document). The methods and assumptions are outlined in Exhibit 1.
2. An actuarial projection of the Actuarial Value of Assets is based on the unaudited financial statements as of December 31, 2024, as provided by the Administrator, and assumes no investment gains or losses on market values after that date. The January 1, 2025 Market Value of Assets and 2024 cash flow components are:

a.	Market Value as of January 1, 2025	\$196,907,392
b.	2024 Employer Contributions	4,960,137
c.	2024 Benefit Payments	19,903,497
d.	2024 Operating Expenses	1,100,467

The assumptions and methodology utilized in the projection of assets are the same as those used for the January 1, 2024 actuarial valuation and are outlined in Exhibit 1.

3. Contributions for the current and succeeding plan years are projected assuming the terms of the current collective bargaining agreements pursuant to which the Plan is maintained continue in effect for succeeding plan years. For purposes of testing emergence from Critical Status at January 1, 2025, contribution increases that have been bargained as of January 1, 2025 are reflected with the final negotiated rate reflected for the duration of the projections. As of January 1, 2025, we have reflected a supplemental contribution rate of \$1.17 for all future years with no further increases.

For purposes of evaluating the Critical and Declining status, we have reflected all future scheduled contribution rate increases in accordance with the current Rehabilitation Plan, including those that have not yet been negotiated. Beginning January 1, 2025, the supplemental contribution rate is \$1.17 for all future years.

4. Based on input from the Board of Trustees, our projections assume 2.46 million total hours worked in 2025, declining 1.5% per year from 2025 to 2029, then declining 1% per year through 2051.
5. The Plan received approval for a 5-year extension of charge bases effective for the Plan Year beginning January 1, 2010, as permitted under Internal Revenue Code Section 431(d). Since the Plan was certified in critical status for a previous year, these amortization extensions are reflected in the Critical Status Emergence Test (see Exhibit III, item 2) and the Scheduled Progress Test (see Exhibit IV).

6. The Plan's annual operating expense assumption is \$736,907 in 2025, payable in the middle of the year and excluding investment expenses, with 2.00% annual increases assumed in subsequent plan years for expected inflation. Expected PBGC premiums are modeled separately and included in the expense assumption.
7. The Plan was certified in critical status as of January 1, 2010 and on September 22, 2010 the Board of Trustees adopted a Rehabilitation Plan under the guidelines of 432(e), which is updated and monitored annually. There have been various revisions to the Rehabilitation Plan since its implementation, including extending the Rehabilitation Period through December 31, 2042. Effective with the revisions to the Rehabilitation Plan adopted on July 6, 2021, future non-accruing contribution amounts were modified and the Plan was determined as no longer expected to emerge from Critical status. The Rehabilitation Plan was modified to indicate that the plan is now operating under a plan such that "all reasonable measures" have been taken to forestall insolvency.
8. As of January 1, 2025, the Plan is making the scheduled progress in meeting the requirements of its Rehabilitation Plan based on the criteria outlined in Internal Revenue Code Section 432(e)(3)(A). Exhibit II shows a projection of the Plan's credit balance under the assumption that all bargaining parties adopt the Rehabilitation Plan Schedules as forecasted. Because the Plan has taken all reasonable measures to forestall insolvency, it is considered to be making scheduled progress.
9. The Critical Status Emergence Test, the Critical and Declining Status Test, and the Scheduled Progress Test do not reflect any Special Financial Assistance ("SFA") the Fund may receive from the PBGC under the American Rescue Plan Act ("ARPA").

Comments and Certification

This certification has been prepared in accordance with our understanding of the requirements of Internal Revenue Code Section 432, the Preservation of Access to Care for Medicare Beneficiaries and Pension Relief Act of 2010, and the Multiemployer Pension Reform Act of 2014. To the best of our knowledge, the information supplied in this certification is complete and accurate and, in our opinion, the individual assumptions used in the projections: (a) are reasonably related to the experience of the Plan and to reasonable expectations; and (b) represent our best estimate of anticipated experience under the Plan.

As an actuary for Rael & Letson, I am a member of the American Academy of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.

Exhibit I

Actuarial Methods and Assumptions

METHODS:	
Asset Valuation:	Assets are valued according to a method which recognizes 20% of each year's excess (or deficiency) of actual investment return on the Market Value of Assets over the expected return on the Market Value of Assets in the year the excess (or deficiency) occurs. An additional 20% of the excess (or deficiency) is recognized in each of the succeeding four years until it is totally recognized. In no event will the Actuarial Value of Assets be less than 80% or more than 120% of the Market Value of Assets.
Actuarial Cost Method:	<u>For determining the Plan's Funded Percentage (as required under IRC Section 432(j)(8)): Unit Credit Cost Method</u> Under this method, we determine the present value of all benefits earned through the valuation date. An individual's normal cost is the present value of the benefit expected to be earned in the valuation year. The total accrued liability is the sum of the individual present values for all participants. The Unfunded Accrued Liability is the difference between the accrued liability and the assets of the Trust. If the assets exceed the accrued liability, the Plan is in a surplus position. This method requires that each year's contributions be applied first to the normal cost, and the balance of the contributions applied to amortize the Unfunded Accrued Liability. The normal cost is adjusted at the close of the Plan Year to reflect the actual level of contributions received during that Plan Year. <u>For determining the Credit Balance: Individual Entry Age Normal Cost Method</u> Entry Age is defined as the current age minus years of Credited Service. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by service, with Normal Cost determined as if the current plan provisions had always been in effect. The Unfunded Accrued Liability is the difference between the Actuarial Accrued Liability and the assets of the Trust. If the assets exceed the Actuarial Accrued Liability, the Plan is in a surplus position. This method requires that each year's contributions be applied first to the normal cost, and the balance of the contributions applied to amortize the Unfunded Accrued Liability. The normal cost is adjusted at the close of the plan year to reflect the actual level of contributions received during that plan year.

Exhibit I Actuarial Methods and Assumptions (Continued)

ASSUMPTIONS:	
Interest Discount Rate:	7.50% for funding.
Assumed Rate of Return on Investments:	7.50% compounded annually, net of investment expenses.
Derivation of Net Investment Return and Discount Rate for FASB ASC 960 Accounting:	The expected return assumptions are established based on a long-term outlook and are based on past experience, future expectations and professional judgment. We have modeled the assumptions based on average long-term future expected returns and their respective capital market assumptions as provided by several investment professionals. Based on the inputs of the Plan's specific target asset allocation, we have established the reasonability of the Plan's assumption.
Operating Expenses:	A total annual amount of \$736,907 payable in the middle of the year for 2025. Operating expenses are assumed to increase 2.00% per year. The operating expense assumption has been adjusted to account for expected increases in PBGC premiums under the Multiemployer Pension Reform Act of 2014.
Justification for Demographic Assumptions:	The mortality, termination, and retirement assumptions are reviewed with each valuation to ensure they are reasonable and represent the actuary's best estimate of the long-term expectations for the Plan. Past experience and anticipated future experience based on industry-specific knowledge and professional judgment are used to verify the reasonability of each of these assumptions.
Mortality:	Healthy Lives: PRI-2012 Blue Collar Mortality Tables (sex distinct, separate for annuitants and non-annuitants and beneficiaries) with 75% of the generational mortality improvement scale MP-2019 included. Disabled Lives: N/A
Mortality Improvement:	The current mortality assumption, with 75% of the MP-2019 improvement scale, is assumed to be reasonable at this time.

3. Critical and Declining Solvency Projection (used in Exhibit III, Item 5)

The solvency projections are tracked over 19 years based on the support ratio of 2.82 from the January 1, 2024 actuarial valuation, in which there were 1,569 actives and 4,454 inactive (4,426 excluding Alternate Payees) and an estimated market value funding ratio of 67.4% (Unit Credit basis) as of January 1, 2025.

Exhibit III Tests of Fund Status For the January 1, 2025 – December 31, 2025 Plan Year

Critical Status Test	
1. Is the Plan in critical status for the preceding plan year?	YES
2. Is the Plan projected to have an accumulated funding deficiency for the 2025 Plan Year or any of the 9 succeeding plan years, without regard to the use of the shortfall funding method but taking into account any extensions of the amortization periods under Section 431(d) of the Code?	YES
3. If 2 is no, is the Plan projected to become insolvent in any of the 30 succeeding plan years?	N/A
4. Result: If 1 and 2 are both yes, then the Plan is in critical status based on the criteria outlined in Internal Revenue Code Section 432(e)(4)(B). If 2 and 3 are both no, then the Plan is projected to emerge from the Red Zone, and the zone status will be determined based on the criteria outlined in Internal Revenue Code Section 432(b).	Critical Status
Critical and Declining Status	
5. Is the Plan in critical status and projected to become insolvent within the current or the next 19 plan years?	YES
6. Result: If 4. is critical status and 5. is yes, then the Plan is in critical and declining status. If 4. is critical status and 5. is no, then the Plan is in critical status.	Critical and Declining Status

Exhibit IV Scheduled Progress For the January 1, 2025 – December 31, 2025 Plan Year

On March 31, 2010, the Plan was initially certified as being in critical status for the Plan Year beginning January 1, 2010. A Rehabilitation Plan was originally adopted on September 22, 2010. Effective with the revised Rehabilitation Plan adopted March 9, 2021, the Rehabilitation Period for the Plan is the 30-year period beginning January 1, 2013 and ending December 31, 2042. Effective with the revisions to the Rehabilitation Plan adopted on July 6, 2021, future non-accruing contribution amounts were modified and the Plan was determined as no longer expected to emerge from Critical status. The Plan is using “all reasonable measures” to forestall insolvency. The Rehabilitation Plan was last modified on March 16, 2022, which called for further revisions in future non-accruing contribution amounts.

To meet scheduled progress, the Plan must either (a) still be projected to emerge from critical status by the end of the Rehabilitation Period or (b) determined to have taken all reasonable measures to forestall insolvency. The Plan has taken all reasonable measures to forestall insolvency and as such is meeting scheduled progress. The tests below demonstrate whether the Plan is projected to satisfy the critical status emergence criteria at the end of the Rehabilitation Period.

Rehabilitation Period Begins January 1, 2013
Rehabilitation Period Ends December 31, 2042

1.	Is the Plan projected to avoid an accumulated funding deficiency in the 2043 Plan Year and for the nine succeeding plan years following the end of the Rehabilitation Period?	NO
2.	Is the Plan projected to remain solvent for the 30 succeeding plan years starting in 2043?	NO
3.	Has the Plan taken all reasonable measures to forestall insolvency?	YES
4.	Is the Plan making scheduled progress? If 1. and 2. are both yes, or alternatively if 3. is yes, then the Plan is making scheduled progress	YES

Schedule MB, Line 4f – Cash Flow Projections (Continued)

CASH FLOW ASSUMPTIONS:

Projection Methodology	<u>Roll-Forward</u> Standard roll-forward methodology. We assume active participants that leave employment are replaced with participants that are the same age & gender. Average active participant statistics (such as age, service, and gender) remain consistent over the projection period, and no gains or losses on liability/demographic experience are assumed.
Future Hours Worked	Total hours worked are assumed to be 2.5 million in 2024, declining 1.5% per year through 2029, then declining 1% thereafter.
Contributions	Contributions for the current and succeeding plan years are projected assuming the terms of the current collective bargaining agreements pursuant to which the Plan is maintained continue in effect for succeeding plan years. For purposes of testing emergence from Critical Status at January 1, 2024, contribution increases that have been bargained as of January 1, 2024 are reflected with the final negotiated rate reflected for the duration of the projections. As of January 1, 2024, we have reflected a supplemental contribution rate of \$1.17 for all future years with no further increases.
Assumed Rate of Return on Investments	7.50% compounded annually, net of investment expenses.
Operating Expenses	\$727,939 in 2024 from the 2024 PPA Certification, payable at the beginning of the year, excluding investment expenses, with a 2.00% annual increase assumed in subsequent plan years for expected inflation.
Demographic Assumptions	The same as described under the 2024 PPA Certification, which is attached for Line 4b of this Schedule MB.
All Other Assumptions and Methods	The same as described under the 2024 PPA Certification, which is attached for Line 4b of this Schedule MB.

The Alaska United Food & Commercial Workers Pension Fund was established on January 1, 1970. It has been amended from time to time since that date. The Plan was last restated as of March 14, 2017. The principal provisions of the Plan as of January 1, 2024 are summarized below.

NORMAL RETIREMENT	
Eligibility	For benefits earned prior to April 1, 2009: (a) Age 57 and Five Years of Service (including at least one year of Credited Future Service), or (b) Age 57 and the tenth anniversary of participation, or (c) Age 65 and the fifth anniversary of participation. For benefits earned on or after April 1, 2009: (a) Age 65 and Five Years of Service (including at least one year of Credited Future Service), or (b) Age 65 and the fifth anniversary of participation.
Monthly Benefit	A participant's monthly benefit is equal to the sum of (a) and (b) below: (a) For Credited Past Service, Credited Service multiplied by \$40.00 per year. For service with an employer who becomes a contributing employer on or after December 8, 1982, the monthly benefit formula is as follows: (i) Participants shall accrue five years of Credited Future Service to validate their past service. (ii) Monthly benefit is \$40.00 per year of Credited Past Service if the initial employer contribution rate is at least 85 cents per covered hour (since June 1985). (iii) Monthly benefit is \$20.00 per year of Credited Past Service if the initial employer contribution rate is less than 85 cents per covered hour (since June 1985). (b) For Credited Future Service, (iv) 3.78 cents per hour from January 1, 1970 to December 31, 1991, plus (v) 4.45% of contributions from January 1, 1992 to December 31, 1998, plus (vi) 4.30% of contributions from January 1, 1999 to December 31, 2003, plus (vii) 2.50% of contributions from January 1, 2004 to March 31, 2009, plus (viii) 0.00% of contributions from April 1, 2009 to February 28, 2010, plus (ix) 1.00% of credited contributions on and after March 1, 2010.

EARLY RETIREMENT	
Eligibility	Attainment of age 50 and Five Years of Service (including at least two years of Credited Future Service).
Monthly Benefit	Monthly benefit equal to the Normal Retirement benefit accrued up to the Early Retirement Date, actuarially reduced for each month that the Early Retirement Date precedes the Normal Retirement Date.
LATE RETIREMENT	
Eligibility	Same as Normal Retirement, but continues working beyond Normal Retirement Date.
Monthly Benefit	The greater of the following: (a) Monthly benefit earned to Normal Retirement Date plus any Future Service Benefits earned after Normal Retirement Date. (b) Monthly benefit earned to Normal Retirement Date actuarially increased to actual retirement date.
PRE-RETIREMENT DEATH BENEFIT	
Eligibility	Five Years of Service, including at least one year of Credited Future Service.
Monthly Benefit	The surviving spouse of a deceased participant shall receive a monthly benefit equal to the amount which would have been payable on the later of the participant's date of death or the date the participant would have attained age 50. The amount of the benefit will be determined as if the participant had elected the 50% spouse's option and retired on the day preceding death.
TERMINATION	
Eligibility	One of the following: (a) Five Years of Service (including at least one year of Credited Future Service), or (b) Age 57 and the tenth anniversary of participation while either an Active Participant or an Inactive Participant earning uncovered hours of employment toward vesting, or (c) Age 65 and the fifth anniversary of participation date on or after January 1, 1988, while either an Active Participant or an Inactive Participant earning uncovered hours of employment toward vesting.
Monthly Benefit	The accrued benefit on the date of termination payable at Normal Retirement Date.

**ACTUARIAL CERTIFICATION REQUIRED UNDER
INTERNAL REVENUE CODE SECTION 432(b)**

***Alaska United Food and Commercial Workers Pension Fund
Plan Year Beginning January 1, 2024***

To: Secretary of the Treasury
Board of Trustees of the Alaska United Food and Commercial Workers
Pension Fund

From: Paul Graf, Plan Actuary

Date: March 29, 2024

Re: Alaska United Food and Commercial Workers Pension Fund
EIN = 91-6123694; PN = 001
Plan Sponsor: Board of Trustees of the Alaska United Food and Commercial
Workers Pension Trust
P.O. Box 34203
Seattle, Washington 98124
(907) 561-5119

The following certifies that, in accordance with Internal Revenue Code Section 432(b), the Alaska United Food and Commercial Workers Pension Fund ("the Plan"), as of the beginning of its 2024 Plan Year:

is in critical and declining status
is **not** in critical status
is **not** in endangered (or seriously endangered) status
is making the scheduled progress in meeting the requirements of its Rehabilitation Plan

As of January 1, 2024, the projections used for this certification estimate the Plan's funded percentage to be 72.9% (below 80%). The Plan has an accumulated funding deficiency and is projected to be insolvent by December 31, 2042. Accordingly, the Plan is in critical and declining status for the 2024 Plan Year based on the criteria outlined in Internal Revenue Code Sections 432(b)(2) and 432(b)(6).

Rael & Letson

The basis for this certification is as follows:

1. The projected present value of Plan liabilities as of the beginning of the 2024 Plan Year is based on the actuarial valuation as of January 1, 2023, and assumes no future liability gains or losses. The data, methodology, Plan provisions and assumptions utilized in the projection of liabilities are the same as those used for the January 1, 2023 actuarial valuation (except where noted otherwise in this document). The methods and assumptions are outlined in Exhibit 1.
2. An actuarial projection of the Actuarial Value of Assets is based on the unaudited financial statements as of December 31, 2023, as provided by the Administrator, and assumes no investment gains or losses on market values after that date. The January 1, 2024 Market Value of Assets and 2023 cash flow components provided by the Administrator are:

a.	Market Value as of January 1, 2024	\$196,628,536
b.	2023 Employer Contributions	5,067,646
c.	2023 Benefit Payments	19,916,599
d.	2023 Operating Expenses	893,187

The assumptions and methodology utilized in the projection of assets are the same as those used for the January 1, 2023 actuarial valuation and are outlined in Exhibit 1.

3. Contributions for the current and succeeding plan years are projected assuming the terms of the current collective bargaining agreements pursuant to which the Plan is maintained continue in effect for succeeding plan years. For purposes of testing emergence from Critical Status at January 1, 2024, contribution increases that have been bargained as of January 1, 2024 are reflected with the final negotiated rate reflected for the duration of the projections. As of January 1, 2024, we have reflected a supplemental contribution rate of \$1.17 for all future years with no further increases.

For purposes of evaluating the Critical and Declining status, we have reflected all future scheduled contribution rate increases in accordance with the current Rehabilitation Plan, including those that have not yet been negotiated. Beginning January 1, 2024, the supplemental contribution rate is \$1.17 for all future years.

4. Based on input from the Board of Trustees, our projections assume 2.54 million total hours worked in 2024, declining 1.5% per year from 2024 to 2029, then declining 1% per year through 2051.
5. The Plan received approval for a 5-year extension of charge bases effective for the Plan Year beginning January 1, 2010, as permitted under Internal Revenue Code Section 431(d). Since the Plan was certified in critical status for a previous year, these amortization extensions are reflected in the Critical Status Emergence Test (see Exhibit III, item 2) and the Scheduled Progress Test (see Exhibit IV).

6. The Plan's annual operating expense assumption is \$722,458 in 2024, payable in the middle of the year and excluding investment expenses, with 2.00% annual increases assumed in subsequent plan years for expected inflation. Expected PBGC premiums are modeled separately and included in the expense assumption.
7. The Plan was initially certified in critical status as of January 1, 2009, however, the Board of Trustees elected under Section 204 of the Worker, Retiree and Employer Recovery Act of 2008 to treat the Plan as being neither in endangered nor critical status for the Plan Year beginning January 1, 2009. The Plan was certified in critical status as of January 1, 2010 and on September 22, 2010 the Board of Trustees adopted a Rehabilitation Plan under the guidelines of 432(e), which is updated and monitored annually. The Rehabilitation Plan includes certain adopted reductions in adjustable benefits effective January 1, 2011. The original Rehabilitation Period was modified effective January 1, 2013 to be a 25-year period ending December 31, 2037. Effective with the revisions to the Rehabilitation Plan adopted on February 13, 2019, the Rehabilitation Period was extended by five years to run through December 31, 2042. The Rehabilitation Plan was further modified on March 16, 2022, which called for revisions in future non-accruing contribution amounts.
8. As of January 1, 2024, the Plan is not making the scheduled progress in meeting the requirements of its Rehabilitation Plan based on the criteria outlined in Internal Revenue Code Section 432(e)(3)(A). Exhibit II shows a projection of the Plan's credit balance under the assumption that all bargaining parties adopt the Rehabilitation Plan Schedules as forecasted. Because the Plan has taken all reasonable measures to forestall insolvency, it is making scheduled progress.
9. The Critical Status Emergence Test, the Critical and Declining Status Test, and the Scheduled Progress Test do not reflect any SFA the Fund may receive from the PBGC under the American Rescue Plan Act ("ARPA").

Comments and Certification

This certification has been prepared in accordance with our understanding of the requirements of Internal Revenue Code Section 432, the Preservation of Access to Care for Medicare Beneficiaries and Pension Relief Act of 2010, and the Multiemployer Pension Reform Act of 2014. To the best of our knowledge, the information supplied in this certification is complete and accurate and, in our opinion, the individual assumptions used in the projections: (a) are reasonably related to the experience of the Plan and to reasonable expectations; and (b) represent our best estimate of anticipated experience under the Plan.

As an actuary for Rael & Letson, I am a member of the American Academy of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.

EXHIBIT I

ACTUARIAL METHODS AND ASSUMPTIONS

METHODS:	
Asset Valuation:	Assets are valued according to a method which recognizes 20% of each year's excess (or deficiency) of actual investment return on the Market Value of Assets over the expected return on the Market Value of Assets in the year the excess (or deficiency) occurs. An additional 20% of the excess (or deficiency) is recognized in each of the succeeding four years until it is totally recognized. In no event will the Actuarial Value of Assets be less than 80% or more than 120% of the Market Value of Assets.
Actuarial Cost Method:	<u>For determining the Plan's Funded Percentage (as required under IRC Section 432(i)(8)): Unit Credit Cost Method</u> Under this method, we determine the present value of all benefits earned through the valuation date. An individual's normal cost is the present value of the benefit expected to be earned in the valuation year. The total accrued liability is the sum of the individual present values for all participants. The Unfunded Accrued Liability is the difference between the accrued liability and the assets of the Trust. If the assets exceed the accrued liability, the Plan is in a surplus position. This method requires that each year's contributions be applied first to the normal cost, and the balance of the contributions applied to amortize the Unfunded Accrued Liability. The normal cost is adjusted at the close of the Plan Year to reflect the actual level of contributions received during that Plan Year. <u>For determining the Credit Balance: Individual Entry Age Normal Cost Method</u> Entry Age is defined as the current age minus years of Credited Service. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by service, with Normal Cost determined as if the current plan provisions had always been in effect. The Unfunded Accrued Liability is the difference between the Actuarial Accrued Liability and the assets of the Trust. If the assets exceed the Actuarial Accrued Liability, the Plan is in a surplus position. This method requires that each year's contributions be applied first to the normal cost, and the balance of the contributions applied to amortize the Unfunded Accrued Liability. The normal cost is adjusted at the close of the plan year to reflect the actual level of contributions received during that plan year.

EXHIBIT I **ACTUARIAL METHODS AND ASSUMPTIONS** **(CONTINUED)**

ASSUMPTIONS:	
Interest Discount Rate:	7.50% for funding.
Assumed Rate of Return on Investments:	7.50% compounded annually, net of investment expenses.
Derivation of Net Investment Return and Discount Rate for FASB ASC 960 Accounting:	The expected return assumptions are established based on a long-term outlook and are based on past experience, future expectations and professional judgment. We have modeled the assumptions based on average long-term future expected returns and their respective capital market assumptions as provided by several investment professionals. Based on the inputs of the Plan's specific target asset allocation, we have established the reasonability of the Plan's assumption.
Operating Expenses:	A total annual amount of \$683,584 payable at the beginning of the year. Operating expenses are assumed to increase 2.00% per year. The operating expense assumption has been adjusted to account for expected increases in PBGC premiums under the Multiemployer Pension Reform Act of 2014.
Justification for Demographic Assumptions:	The mortality, termination, and retirement assumptions are reviewed with each valuation to ensure they are reasonable and represent the actuary's best estimate of the long-term expectations for the Plan. Past experience and anticipated future experience based on industry-specific knowledge and professional judgment are used to verify the reasonability of each of these assumptions.
Mortality:	Healthy Lives: PRI-2012 Blue Collar Mortality Tables (sex distinct, separate for annuitants and non-annuitants and beneficiaries) with 75% of the generational mortality improvement scale MP-2019 included. Disabled Lives: N/A
Mortality Improvement:	The current mortality assumption, with 75% of the MP-2019 improvement scale, is assumed to be reasonable at this time.

TESTS OF FUND STATUS

For the January 1, 2024 – December 31, 2024 Plan Year

Critical Status Test	
1. Is the Plan in critical status for the preceding plan year?	YES
2. Is the Plan projected to have an accumulated funding deficiency for the 2024 Plan Year or any of the 9 succeeding plan years, without regard to the use of the shortfall funding method but taking into account any extensions of the amortization periods under Section 431(d) of the Code?	YES
3. If 2 is no, is the Plan projected to become insolvent in any of the 30 succeeding plan years?	N/A
4. Result: If 1 and 2 are both yes, then the Plan is in critical status based on the criteria outlined in Internal Revenue Code Section 432(e)(4)(B). If 2 and 3 are both no, then the Plan is projected to emerge from the Red Zone, and the zone status will be determined based on the criteria outlined in Internal Revenue Code Section 432(b).	Critical Status
Critical and Declining Status	
5. Is the Plan in critical status and projected to become insolvent within the current or the next 19 plan years?	YES
6. Result: If 4. is critical status and 5. is yes, then the Plan is in critical and declining status. If 4. is critical status and 5. is no, then the Plan is in critical status.	Critical and Declining Status

EXHIBIT IV

SCHEDULED PROGRESS

For the January 1, 2024 – December 31, 2024 Plan Year

On March 31, 2010, the Plan was initially certified as being in critical status for the Plan Year beginning January 1, 2010. A Rehabilitation Plan was originally adopted on September 22, 2010. Effective with the revised Rehabilitation Plan adopted March 9, 2021, the Rehabilitation Period for the Plan is the 30-year period beginning January 1, 2013 and ending December 31, 2042.

To meet scheduled progress, the Plan must still be projected to emerge from critical status by the end of the Rehabilitation Period. The tests below demonstrate whether the Plan is projected to satisfy the critical status emergence criteria at the end of the Rehabilitation Period.

Rehabilitation Period Begins January 1, 2013
Rehabilitation Period Ends December 31, 2042

1.	Is the Plan projected to avoid an accumulated funding deficiency in the 2043 Plan Year and for the nine succeeding plan years following the end of the Rehabilitation Period?	NO
2.	Is the Plan projected to remain solvent for the 30 succeeding plan years starting in 2043?	NO
3.	Is the Plan making scheduled progress? If 1 and 2 are both yes, then the Plan is making scheduled progress	NO

Schedule MB, Line 11 – Justification for Change in Actuarial Assumptions

The current liability interest rate was changed from 2.55% to 3.29% recognizing that the rate must be within the permissible corridor under IRC Section 431(c)(6)-1. The current liability mortality table was also changed in accordance with IRS Regulations 1.431(c)(6)-1 and 1.430(h)(3)-1.

The operating expense assumption was increased to reflect higher anticipated costs.
