Independent Auditor's Report

RSM US LLP

Plan Administrator
Colson Group Holdings, LLC. Employees' Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Colson Group Holdings, LLC. Employees' Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, part IV line 4a—schedule of delinquent participant contributions for the year ended December 31, 2024, and Schedule H, line 4i—schedule of assets (held at end of year) as of December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

Note 1. Plan Description

The following description of Colson Group Holdings, LLC. Employees' Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions, which is available from the Plan Administrator.

General: The Plan, as most recently amended November 11, 2022, effective January 1, 2023, is a defined contribution and profit-sharing plan which began May 1, 2012. The Plan covers substantially all employees, except leased employees, nonresident aliens and employees covered by a collective bargaining agreement, of Colson Ultimate Parent, Inc., and its wholly owned subsidiary (Colson Group Holdings, LLC) (collectively, the Company) who are age 18 or older. Employees are eligible to make salary deferral contributions to the Plan and receive Company matching contributions on the first day of the month following completion of a one-month service requirement. To be entitled to the discretionary profit-sharing and additional matching contributions, participants must complete 1,000 hours of service in a consecutive 12-month period. Further, in order to receive the additional matching contributions and discretionary profit-sharing contributions, a participant must be employed on the last day of the Plan year or terminated prior to the last day of the Plan year due to death, disability or retirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the applicable current Internal Revenue Code (IRC) provisions.

Eligible employees are requested to complete a salary reduction agreement which determines their deferral rate and investment elections. Failure to complete this enrollment form results in the eligible employee being automatically enrolled upon meeting the requirement for the salary deferrals. Employees are automatically enrolled with a 4% contribution by the employee. Absent another investment election from the participant, these deferral contributions will be invested automatically into a Fidelity Freedom Fund option based upon the birth date of the participant.

Contributions and investment options: Each year, participants may contribute up to 90% of annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan provides Company matching contributions equal to 100% of the first 1% of eligible compensation plus 50% of the next 6% of eligible compensation for employees participating in the Plan. The Company may also, at its sole discretion, make discretionary profit-sharing contributions and additional Company matching contributions to the Plan each year. No discretionary profit-sharing contributions or additional matching contributions were made related to 2024.

Participants direct the investment of their contributions and any Company contributions into various investment options offered by the Plan. The Plan currently offers 20 mutual fund investment options and one common/collective trust fund option for participants. Participants may change their investment options daily. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contributions and Company matching contributions, and allocations of (a) additional Company matching contributions and discretionary profit-sharing contributions, if any, and (b) Plan earnings (losses), and is charged with an allocation of administrative expenses. Allocations are based on participant earnings (losses) or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1. Plan Description (Continued)

Vesting: All participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching, discretionary profit-sharing, and additional matching employer contributions portion of participants' accounts plus earnings thereon is based on years of continuous service. For newly hired employees matching employer contributions begin vesting 25% per year after one year of service and become 100% vested after four years of credited service, while discretionary profit-sharing contributions and additional matching employer contributions begin vesting after one year of service and vest at 33% after the first year of service, 67% after the second year of service, and 100% vested after three years of credited service. Safe-harbor match and discretionary profit-sharing contributions of terminated participants vested 10% after the first year of service, 20% after the second year of service, and then vested 20% per year of service until 100% vested after six years of service.

Vesting for employees merged into the plan for the QACA match for participants as of January 1, 2019, was 100% after two years of service and 0% for less than two years of service. The fixed employer match was for participants hired April 1, 2017 to January 1, 2019 was 25% per year of service, fully vesting after four years. For participants hired prior to April 1, 2017, there account balance was 100% vested for the discretionary match. For participants terminated as of May 1, 2015, there vesting was subject to 10% after each of the first two years and 20% for years three through six, fully vesting after six years.

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance reduced by any outstanding loan balance on the date the loan is made. Participants may only have one outstanding loan at a time. The loan repayment period is not to exceed five years except for the purchase of a principal residence. Principal and interest are paid ratably through payroll deductions. The notes receivable are secured by the balance in the participant's account and bear interest at a reasonable rate based on prevailing interest rates as determined by the Plan Administrator.

Payment of benefits: On termination of service, a participant or beneficiary will receive the value of the vested interest in his or her account as a lump-sum distribution if the vested balance is under \$1,000 or may roll over the amount into another qualified plan. If the vested amount is \$1,000 or more, the participant or beneficiary may elect to defer the distribution until such time as distribution is required as a matter of applicable law. Upon death, disability or retirement, a participant or beneficiary may elect to receive (a) a lump-sum amount equal to the value of the participant's vested interest in his or her account, or (b) quarterly, semiannual or annual installments.

Forfeitures: At December 31, 2024 and 2023, forfeited nonvested accounts totaled \$100,614 and \$145,364, respectively. These accounts are used to reduce future employer contributions or pay plan expenses. During the year ended December 31, 2024, \$99,467 was used to reduce Company contributions and \$59,929 was used to pay Plan administrative fees.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual method of accounting.

Use of estimates: The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2. Significant Accounting Policies (Continued)

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the plan document.

Contributions: Contributions from Plan participants and the matching contributions from the Company are recorded in the year in which the employee contributions are withheld from compensation.

Other income: Fidelity Management Trust Company, the plan's trustee, has an Investments Retirement Plan Service Agreement that provides for Participant Revenue Credits, as defined. These credits are determined based on the average quarterly balances held in certain Fidelity and non-Fidelity investment products, and are allocated to eligible participants, as defined, on a quarterly pro rata basis based on the participants' average daily balance in the investment products.

Payment of benefits: Benefits are recorded when paid.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and disclosure through October 9, 2025, which is the date the financial statements were available to be issued.

Note 3. Information Certified by Fidelity Management Trust Company, the Plan's Trustee

The following is a summary of the Plan's asset and income information as of December 31, 2024 and 2023, and for the year ended December 31, 2024, and included throughout the Plan's financial statements and supplemental schedule, that was prepared or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	2024	2023
Shares of registered investment companies, at fair value	\$ 34,454,313	\$ 29,788,806
Units of common/collective trust fund, at fair value	2,763,107	2,613,767

Notes to Financial Statements

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification (ASC) 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability, and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The shares of registered investment companies held by the Plan are deemed to be actively traded.

Units of common/collective fund: Valued based on the NAV of units of the common/collective fund. The NAV as provided by the trustee is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	2024			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	\$ 34,454,313	\$ -	\$ -	\$ 34,454,313
Total assets in fair value hierarchy	\$ 34,454,313	\$ -	\$ -	\$ 34,454,313
Investment measured at NAV (a)				2,763,107
Investments at fair value				\$ 37,217,420

	2023			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	\$ 29,788,806	\$ -	\$ -	\$ 29,788,806
Total assets in fair value hierarchy	\$ 29,788,806	\$ -	\$ -	\$ 29,788,806
Investment measured at NAV (a)				2,613,767
Investments at fair value				\$ 32,402,573

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments measured at fair value based on NAV per unit as of December 31, 2024 and 2023:

Investment	2024	2023	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Putnam Stable Value	\$ 2,373,964	\$ 2,613,767	\$ -	Immediate	None
Franklin Small Cap Value	389,143	-	-	Immediate	None

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2024, there were no transfers in or out of Level 3.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the provisions of the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100% vested in their accounts.

Colson Group Holdings, LLC. Employees' Retirement Plan

Notes to Financial Statements

Note 6. Related-Party and Party-in-Interest Transactions

The Plan's investments are held and invested by the trustee. The trustee also performs administrative and recordkeeping services for the Plan. Fidelity receives fees for its services to the Plan which are paid by the Plan. Fees paid by the Plan to the trustee were \$56,258 for the year ended December 31, 2024.

Certain administrative functions are performed by employees of the Company for which no compensation is received from the Plan. Certain other expenses of the Plan are paid by the Company.

Note 7. Tax Status

The Plan has adopted a pre-approved plan document that has received an opinion letter from the Internal Revenue Service dated June 30, 2020, stating that the form and content of the pre-approved plan document was in compliance with applicable requirements of the IRC. The Plan has been amended since adopting the pre-approved plan document. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America (U.S. GAAP) require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the local, state and federal taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate and market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of the Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2024 and 2023, to the Form 5500:

Independent Auditor's Report

RSM US LLP

Plan Administrator
Colson Group Holdings, LLC. Employees' Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Colson Group Holdings, LLC. Employees' Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, part IV line 4a—schedule of delinquent participant contributions for the year ended December 31, 2024, and Schedule H, line 4i—schedule of assets (held at end of year) as of December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

Note 1. Plan Description

The following description of Colson Group Holdings, LLC. Employees' Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions, which is available from the Plan Administrator.

General: The Plan, as most recently amended November 11, 2022, effective January 1, 2023, is a defined contribution and profit-sharing plan which began May 1, 2012. The Plan covers substantially all employees, except leased employees, nonresident aliens and employees covered by a collective bargaining agreement, of Colson Ultimate Parent, Inc., and its wholly owned subsidiary (Colson Group Holdings, LLC) (collectively, the Company) who are age 18 or older. Employees are eligible to make salary deferral contributions to the Plan and receive Company matching contributions on the first day of the month following completion of a one-month service requirement. To be entitled to the discretionary profit-sharing and additional matching contributions, participants must complete 1,000 hours of service in a consecutive 12-month period. Further, in order to receive the additional matching contributions and discretionary profit-sharing contributions, a participant must be employed on the last day of the Plan year or terminated prior to the last day of the Plan year due to death, disability or retirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the applicable current Internal Revenue Code (IRC) provisions.

Eligible employees are requested to complete a salary reduction agreement which determines their deferral rate and investment elections. Failure to complete this enrollment form results in the eligible employee being automatically enrolled upon meeting the requirement for the salary deferrals. Employees are automatically enrolled with a 4% contribution by the employee. Absent another investment election from the participant, these deferral contributions will be invested automatically into a Fidelity Freedom Fund option based upon the birth date of the participant.

Contributions and investment options: Each year, participants may contribute up to 90% of annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan provides Company matching contributions equal to 100% of the first 1% of eligible compensation plus 50% of the next 6% of eligible compensation for employees participating in the Plan. The Company may also, at its sole discretion, make discretionary profit-sharing contributions and additional Company matching contributions to the Plan each year. No discretionary profit-sharing contributions or additional matching contributions were made related to 2024.

Participants direct the investment of their contributions and any Company contributions into various investment options offered by the Plan. The Plan currently offers 20 mutual fund investment options and one common/collective trust fund option for participants. Participants may change their investment options daily. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contributions and Company matching contributions, and allocations of (a) additional Company matching contributions and discretionary profit-sharing contributions, if any, and (b) Plan earnings (losses), and is charged with an allocation of administrative expenses. Allocations are based on participant earnings (losses) or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements

Note 1. Plan Description (Continued)

Vesting: All participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching, discretionary profit-sharing, and additional matching employer contributions portion of participants' accounts plus earnings thereon is based on years of continuous service. For newly hired employees matching employer contributions begin vesting 25% per year after one year of service and become 100% vested after four years of credited service, while discretionary profit-sharing contributions and additional matching employer contributions begin vesting after one year of service and vest at 33% after the first year of service, 67% after the second year of service, and 100% vested after three years of credited service. Safe-harbor match and discretionary profit-sharing contributions of terminated participants vested 10% after the first year of service, 20% after the second year of service, and then vested 20% per year of service until 100% vested after six years of service.

Vesting for employees merged into the plan for the QACA match for participants as of January 1, 2019, was 100% after two years of service and 0% for less than two years of service. The fixed employer match was for participants hired April 1, 2017 to January 1, 2019 was 25% per year of service, fully vesting after four years. For participants hired prior to April 1, 2017, there account balance was 100% vested for the discretionary match. For participants terminated as of May 1, 2015, there vesting was subject to 10% after each of the first two years and 20% for years three through six, fully vesting after six years.

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance reduced by any outstanding loan balance on the date the loan is made. Participants may only have one outstanding loan at a time. The loan repayment period is not to exceed five years except for the purchase of a principal residence. Principal and interest are paid ratably through payroll deductions. The notes receivable are secured by the balance in the participant's account and bear interest at a reasonable rate based on prevailing interest rates as determined by the Plan Administrator.

Payment of benefits: On termination of service, a participant or beneficiary will receive the value of the vested interest in his or her account as a lump-sum distribution if the vested balance is under \$1,000 or may roll over the amount into another qualified plan. If the vested amount is \$1,000 or more, the participant or beneficiary may elect to defer the distribution until such time as distribution is required as a matter of applicable law. Upon death, disability or retirement, a participant or beneficiary may elect to receive (a) a lump-sum amount equal to the value of the participant's vested interest in his or her account, or (b) quarterly, semiannual or annual installments.

Forfeitures: At December 31, 2024 and 2023, forfeited nonvested accounts totaled \$100,614 and \$145,364, respectively. These accounts are used to reduce future employer contributions or pay plan expenses. During the year ended December 31, 2024, \$99,467 was used to reduce Company contributions and \$59,929 was used to pay Plan administrative fees.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual method of accounting.

Use of estimates: The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Colson Group Holdings, LLC. Employees' Retirement Plan

Notes to Financial Statements

Note 2. Significant Accounting Policies (Continued)

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the plan document.

Contributions: Contributions from Plan participants and the matching contributions from the Company are recorded in the year in which the employee contributions are withheld from compensation.

Other income: Fidelity Management Trust Company, the plan's trustee, has an Investments Retirement Plan Service Agreement that provides for Participant Revenue Credits, as defined. These credits are determined based on the average quarterly balances held in certain Fidelity and non-Fidelity investment products, and are allocated to eligible participants, as defined, on a quarterly pro rata basis based on the participants' average daily balance in the investment products.

Payment of benefits: Benefits are recorded when paid.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and disclosure through October 9, 2025, which is the date the financial statements were available to be issued.

Note 3. Information Certified by Fidelity Management Trust Company, the Plan's Trustee

The following is a summary of the Plan's asset and income information as of December 31, 2024 and 2023, and for the year ended December 31, 2024, and included throughout the Plan's financial statements and supplemental schedule, that was prepared or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	2024	2023
Shares of registered investment companies, at fair value	\$ 34,454,313	\$ 29,788,806
Units of common/collective trust fund, at fair value	2,763,107	2,613,767

Notes to Financial Statements

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification (ASC) 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability, and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The shares of registered investment companies held by the Plan are deemed to be actively traded.

Units of common/collective fund: Valued based on the NAV of units of the common/collective fund. The NAV as provided by the trustee is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	2024			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	\$ 34,454,313	\$ -	\$ -	\$ 34,454,313
Total assets in fair value hierarchy	\$ 34,454,313	\$ -	\$ -	\$ 34,454,313
Investment measured at NAV (a)				2,763,107
Investments at fair value				\$ 37,217,420

	2023			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	\$ 29,788,806	\$ -	\$ -	\$ 29,788,806
Total assets in fair value hierarchy	\$ 29,788,806	\$ -	\$ -	\$ 29,788,806
Investment measured at NAV (a)				2,613,767
Investments at fair value				\$ 32,402,573

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments measured at fair value based on NAV per unit as of December 31, 2024 and 2023:

Investment	2024	2023	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Putnam Stable Value	\$ 2,373,964	\$ 2,613,767	\$ -	Immediate	None
Franklin Small Cap Value	389,143	-	-	Immediate	None

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2024, there were no transfers in or out of Level 3.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the provisions of the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100% vested in their accounts.

Colson Group Holdings, LLC. Employees' Retirement Plan

Notes to Financial Statements

Note 6. Related-Party and Party-in-Interest Transactions

The Plan's investments are held and invested by the trustee. The trustee also performs administrative and recordkeeping services for the Plan. Fidelity receives fees for its services to the Plan which are paid by the Plan. Fees paid by the Plan to the trustee were \$56,258 for the year ended December 31, 2024.

Certain administrative functions are performed by employees of the Company for which no compensation is received from the Plan. Certain other expenses of the Plan are paid by the Company.

Note 7. Tax Status

The Plan has adopted a pre-approved plan document that has received an opinion letter from the Internal Revenue Service dated June 30, 2020, stating that the form and content of the pre-approved plan document was in compliance with applicable requirements of the IRC. The Plan has been amended since adopting the pre-approved plan document. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America (U.S. GAAP) require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the local, state and federal taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate and market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of the Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2024 and 2023, to the Form 5500:

	2024	2023

Independent Auditor's Report

RSM US LLP

Plan Administrator
Colson Group Holdings, LLC. Employees' Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Colson Group Holdings, LLC. Employees' Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, part IV line 4a—schedule of delinquent participant contributions for the year ended December 31, 2024, and Schedule H, line 4i—schedule of assets (held at end of year) as of December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

Note 1. Plan Description

The following description of Colson Group Holdings, LLC. Employees' Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions, which is available from the Plan Administrator.

General: The Plan, as most recently amended November 11, 2022, effective January 1, 2023, is a defined contribution and profit-sharing plan which began May 1, 2012. The Plan covers substantially all employees, except leased employees, nonresident aliens and employees covered by a collective bargaining agreement, of Colson Ultimate Parent, Inc., and its wholly owned subsidiary (Colson Group Holdings, LLC) (collectively, the Company) who are age 18 or older. Employees are eligible to make salary deferral contributions to the Plan and receive Company matching contributions on the first day of the month following completion of a one-month service requirement. To be entitled to the discretionary profit-sharing and additional matching contributions, participants must complete 1,000 hours of service in a consecutive 12-month period. Further, in order to receive the additional matching contributions and discretionary profit-sharing contributions, a participant must be employed on the last day of the Plan year or terminated prior to the last day of the Plan year due to death, disability or retirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the applicable current Internal Revenue Code (IRC) provisions.

Eligible employees are requested to complete a salary reduction agreement which determines their deferral rate and investment elections. Failure to complete this enrollment form results in the eligible employee being automatically enrolled upon meeting the requirement for the salary deferrals. Employees are automatically enrolled with a 4% contribution by the employee. Absent another investment election from the participant, these deferral contributions will be invested automatically into a Fidelity Freedom Fund option based upon the birth date of the participant.

Contributions and investment options: Each year, participants may contribute up to 90% of annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan provides Company matching contributions equal to 100% of the first 1% of eligible compensation plus 50% of the next 6% of eligible compensation for employees participating in the Plan. The Company may also, at its sole discretion, make discretionary profit-sharing contributions and additional Company matching contributions to the Plan each year. No discretionary profit-sharing contributions or additional matching contributions were made related to 2024.

Participants direct the investment of their contributions and any Company contributions into various investment options offered by the Plan. The Plan currently offers 20 mutual fund investment options and one common/collective trust fund option for participants. Participants may change their investment options daily. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contributions and Company matching contributions, and allocations of (a) additional Company matching contributions and discretionary profit-sharing contributions, if any, and (b) Plan earnings (losses), and is charged with an allocation of administrative expenses. Allocations are based on participant earnings (losses) or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1. Plan Description (Continued)

Vesting: All participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching, discretionary profit-sharing, and additional matching employer contributions portion of participants' accounts plus earnings thereon is based on years of continuous service. For newly hired employees matching employer contributions begin vesting 25% per year after one year of service and become 100% vested after four years of credited service, while discretionary profit-sharing contributions and additional matching employer contributions begin vesting after one year of service and vest at 33% after the first year of service, 67% after the second year of service, and 100% vested after three years of credited service. Safe-harbor match and discretionary profit-sharing contributions of terminated participants vested 10% after the first year of service, 20% after the second year of service, and then vested 20% per year of service until 100% vested after six years of service.

Vesting for employees merged into the plan for the QACA match for participants as of January 1, 2019, was 100% after two years of service and 0% for less than two years of service. The fixed employer match was for participants hired April 1, 2017 to January 1, 2019 was 25% per year of service, fully vesting after four years. For participants hired prior to April 1, 2017, there account balance was 100% vested for the discretionary match. For participants terminated as of May 1, 2015, there vesting was subject to 10% after each of the first two years and 20% for years three through six, fully vesting after six years.

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance reduced by any outstanding loan balance on the date the loan is made. Participants may only have one outstanding loan at a time. The loan repayment period is not to exceed five years except for the purchase of a principal residence. Principal and interest are paid ratably through payroll deductions. The notes receivable are secured by the balance in the participant's account and bear interest at a reasonable rate based on prevailing interest rates as determined by the Plan Administrator.

Payment of benefits: On termination of service, a participant or beneficiary will receive the value of the vested interest in his or her account as a lump-sum distribution if the vested balance is under \$1,000 or may roll over the amount into another qualified plan. If the vested amount is \$1,000 or more, the participant or beneficiary may elect to defer the distribution until such time as distribution is required as a matter of applicable law. Upon death, disability or retirement, a participant or beneficiary may elect to receive (a) a lump-sum amount equal to the value of the participant's vested interest in his or her account, or (b) quarterly, semiannual or annual installments.

Forfeitures: At December 31, 2024 and 2023, forfeited nonvested accounts totaled \$100,614 and \$145,364, respectively. These accounts are used to reduce future employer contributions or pay plan expenses. During the year ended December 31, 2024, \$99,467 was used to reduce Company contributions and \$59,929 was used to pay Plan administrative fees.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual method of accounting.

Use of estimates: The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes to Financial Statements

Note 2. Significant Accounting Policies (Continued)

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the plan document.

Contributions: Contributions from Plan participants and the matching contributions from the Company are recorded in the year in which the employee contributions are withheld from compensation.

Other income: Fidelity Management Trust Company, the plan's trustee, has an Investments Retirement Plan Service Agreement that provides for Participant Revenue Credits, as defined. These credits are determined based on the average quarterly balances held in certain Fidelity and non-Fidelity investment products, and are allocated to eligible participants, as defined, on a quarterly pro rata basis based on the participants' average daily balance in the investment products.

Payment of benefits: Benefits are recorded when paid.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and disclosure through October 9, 2025, which is the date the financial statements were available to be issued.

Note 3. Information Certified by Fidelity Management Trust Company, the Plan's Trustee

The following is a summary of the Plan's asset and income information as of December 31, 2024 and 2023, and for the year ended December 31, 2024, and included throughout the Plan's financial statements and supplemental schedule, that was prepared or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	2024	2023
Shares of registered investment companies, at fair value	\$ 34,454,313	\$ 29,788,806
Units of common/collective trust fund, at fair value	2,763,107	2,613,767

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification (ASC) 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability, and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The shares of registered investment companies held by the Plan are deemed to be actively traded.

Units of common/collective fund: Valued based on the NAV of units of the common/collective fund. The NAV as provided by the trustee is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	2024			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	\$ 34,454,313	\$ -	\$ -	\$ 34,454,313
Total assets in fair value hierarchy	\$ 34,454,313	\$ -	\$ -	\$ 34,454,313
Investment measured at NAV (a)				2,763,107
Investments at fair value				\$ 37,217,420

	2023			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	\$ 29,788,806	\$ -	\$ -	\$ 29,788,806
Total assets in fair value hierarchy	\$ 29,788,806	\$ -	\$ -	\$ 29,788,806
Investment measured at NAV (a)				2,613,767
Investments at fair value				\$ 32,402,573

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments measured at fair value based on NAV per unit as of December 31, 2024 and 2023:

Investment	2024	2023	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Putnam Stable Value	\$ 2,373,964	\$ 2,613,767	\$ -	Immediate	None
Franklin Small Cap Value	389,143	-	-	Immediate	None

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2024, there were no transfers in or out of Level 3.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the provisions of the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100% vested in their accounts.

Colson Group Holdings, LLC. Employees' Retirement Plan

Notes to Financial Statements

Note 6. Related-Party and Party-in-Interest Transactions

The Plan's investments are held and invested by the trustee. The trustee also performs administrative and recordkeeping services for the Plan. Fidelity receives fees for its services to the Plan which are paid by the Plan. Fees paid by the Plan to the trustee were \$56,258 for the year ended December 31, 2024.

Certain administrative functions are performed by employees of the Company for which no compensation is received from the Plan. Certain other expenses of the Plan are paid by the Company.

Note 7. Tax Status

The Plan has adopted a pre-approved plan document that has received an opinion letter from the Internal Revenue Service dated June 30, 2020, stating that the form and content of the pre-approved plan document was in compliance with applicable requirements of the IRC. The Plan has been amended since adopting the pre-approved plan document. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America (U.S. GAAP) require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the local, state and federal taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate and market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of the Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2024 and 2023, to the Form 5500:
